Quick Start to College Applications	11–12	$299	1–2:30	8:30–10

Guildhall Advanced Game Design Academy

Are you a serious game *player* who has what it takes to become a game *maker*? Have you ever considered studying video game development in college and turning your passion into a career? If you answered yes to either of these questions, then The Guildhall Advanced Game Design Academy is for you! Celebrating its sixth year, The Academy offers a rigorous, fully immersive, two-week summer course in which high school students will make a video game using GuildEd℠ technology, a cutting-edge game engine developed by SMU graduate professors. The Academy students will be taught and mentored by game industry veterans, and will experience what professional game developers do on a daily basis. Video games are a $20 billion industry; see if you have what it takes to be a part of it! Students should have a passion for games and an interest in learning to create game art using Photoshop and program gameplay using LUA. No specific technical skills or knowledge related to game development is required.

For high school students entering grades 9–12
July 8–19, Monday–Friday, 9 am–4 pm, $1,099

SMU GUILDHALL
GAME DEVELOPMENT EDUCATION

Give your kids or grandkids a creative, fun and educational experience this summer at SMU's Plano campus. We offer more than 60 one-week workshops for students entering grades K–12.

Extended day and supervised lunch options also available.
