Financial Aid

Scholarship Entry Reports- For Graduate/Professional Students.
Each department that awards scholarships has access to the Scholarship award pages:
  SMU Custom Programs>>SMU Administer Financial Aid>> Awards>> SMU Scholarship Summary by Department Report

You must have a Run Control set up to access this page:
  You can specify the begin and end dates.

Report Choices are:
Scholarship Summary by Department – If you are awarding for more than one department, this report gives you a list of the who, what and when of your scholarship entry activity. Also shows all aid awarded for each student.
Summary by Department Hrs Enrolled – Needs to be run right after the add/drop period for each term. This reports shows who is awarded a scholarship from your department and how many hours they are enrolled for the term. If you are giving them a % of their tuition, you can check to see if the amount is correct according to their enrollment. Also, you can see who might need to be cancelled if the award requires full-time enrollment.
Award Scholarship Report– Lists by student all the awards made by your department. Does not show when or who awarded it but the amounts for the entire year.

Information System

Mandatory Health Insurance (MHI) – We are testing the MHI enhancement to Access.SMU which will allow students to elect Student Health Insurance, or waive the insurance if they have private insurance. The system will allow the Memorial Health Center to monitor the MHI requirement, elect insurance or waive insurance for the student. The insurance cost will be charged to the student’s account through SF in Access.SMU. The system will be in production mid-October and students will be able to use the system after they enroll for Spring 2010 classes in November.

Astra Room scheduling – We are implementing a new room scheduling software called Astra room scheduling. Astra will eventually be used to schedule classrooms and other facilities. We are in testing stages of Astra and plan to have it in production mid-October. We will use it in production mode for Summer/Fall 2010 scheduling. More information and training will follow.

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the rights of students and ensures the privacy and accuracy of their student education records. SMU has a historical commitment to the principles of FERPA through its policies and practices. For information on FERPA at SMU including “Essentials for Staff” page, visit http://smu.edu/ferpa.

Before you release any education records information on a student, remember to check for student consent in Access.SMU. See Faculty/Staff Instructions under the “Release of Education Records” at http://smu.edu/registrar/ferpa/release.asp for more detailed information.

Students can now use the Student Self Service component of Access.SMU to apply their own FERPA control on their “Directory Information” items. In addition, students will now have the option to decide which directory items to restrict as opposed to the previous “All or None” options. For example, students can now choose to restrict the release of their home address but not their mailing address. For more information regarding what SMU defines as “Directory Information,” please visit http://smu.edu/registrar/ferpa/dir_info.asp

Enrollment Reports—Fall 2009 Enrollment Reports are located at http://smu.edu/intranet/des/enrollment_reporting.asp

Ethnic Reporting Changes—New requirements for collecting and reporting ethnicity data will be in place by Fall 2010. Applicants for Summer/Fall 2010 are following the new collection standards. For questions or further information contact Stephen Forrest (sforrest@smu.edu).
