NSC Electronic Transcript Delivery

SMU uses the National Student Clearinghouse for transcript ordering. Students may request that we send their transcripts electronically to third parties. This is a new feature that we implemented in June 2010. The fee to send electronic PDF transcripts is $16 (per email address). Recipients have 14 days in which to print the PDF transcript from the first day it’s opened OR 30 days before it expires if it’s never opened. PDF transcripts may not be saved to the recipient’s computer. Please be aware that it is the student’s responsibility to make sure that the third party will accept an electronic PDF transcript. Please visit our website at http://smu.edu/registrar/transcripts.asp for more detailed information.
Financial Aid

Scholarship Entry Reports- For Graduate/Professional Students.
Each department that awards scholarships has access to the Scholarship award pages:
   SMU Custom Programs>>SMU Administer Financial Aid>> Awards>> SMU Scholarship Summary by Department Report
You must have a Run Control set up to access this page:
   You can specify the begin and end dates.

Report Choices are:
Scholarship Summary by Department – If you are awarding for more than one department, this report gives you a list of the who, what and when of your scholarship entry activity. Also shows all aid awarded for each student.
Summary by Department Hrs Enrolled – Needs to be run right after the add/drop period for each term. This reports shows who is awarded a scholarship from your department and how many hours they are enrolled for the term. If you are giving them a % of their tuition, you can check to see if the amount is correct according to their enrollment. Also, you can see who might need to be cancelled if the award requires full-time enrollment.

Other Information

Astra Room Scheduling
Schedule.SMU is now available for users to view calendars and request space in academic buildings across campus. In addition, facility managers can now use Schedule.SMU to manage their space and to track all events and classes held in their space. A demonstration of Schedule.SMU will be given on September 23rd, 2010 from 9:30am to 10:30am in Blanton 110. Topics covered include viewing academic sections, viewing calendars, and requesting space for events.

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the rights of students and ensures the privacy and accuracy of their student education records. SMU has a historical commitment to the principles of FERPA through its policies and practices. For information on FERPA at SMU including “Essentials for Staff” page, visit http://smu.edu/ferpa.

Before you release any education records information on a student, remember to check for student consent in Access.SMU. See Faculty/Staff Instructions under the “Release of Education Records” at http://smu.edu/registrar/ferpa/release.asp for more detailed information.

Students can now use the Student Self Service component of Access.SMU to apply their own FERPA control on their “Directory Information” items. In addition, students will now have the option to decide which directory items to restrict as opposed to the previous “All or None” options. For example, students can now choose to restrict the release of their home address but not their mailing address. For more information regarding what SMU defines as “Directory Information,” please visit http://smu.edu/registrar/ferpa/dir_info.asp

Enrollment Reports
Fall 2010 Enrollment Reports are located at http://smu.edu/intranet/des/enrollment_reporting.asp

Ethnic Reporting Changes
Beginning Fall 2010, ethnic reporting categories have changed. Students may now select more than one ethnicity, and any doing so are reported as “two or more races”, except for Hispanic; any student selecting Hispanic, regardless of any additional selections, is reported as “Hispanic”.

The category of “other” is no longer in use. Those who previously selected “other” were asked to reselect their ethnicity. Some have failed to reply and will be reported as “unknown”.

A student is not required to answer, consequently “unknown” is now a valid reporting category. SMU endeavors to collect ethnicity on all enrolled students, students who have not provided the information are reported as “unknown”.

Gradebook
And if we thought Summer 2010 was hot…the introduction of Gradebook made it even hotter! The Access.SMU Gradebook, rolled out to faculty and staff in June, is an electronic grade book that offers faculty the option to record grades online per assignment for their courses. Gradebook is an integral part of the Access.SMU Faculty Center and Student Center making it easy for faculty to communicate grades and averages to their students. Further, Gradebook grade entries can be uploaded to the Grade Roster with a click of a button making the need for double entry in a word…needless.

As of this fall we anticipate 44 faculty/staff members to utilize this new functionality. We have received positive feedback from faculty about how easy it is to set up and use Gradebook. Although the fall sessions have come to an end, faculty who want to use Gradebook should contact Mitzie Goff for a one-on-one session. Check your email for the spring 2011 schedule (TBA).
