The Meadows Exploration Awards have been established to provide funding for grants to support undergraduate student creative activity, scholarship, and research. The Awards are designed to support both individual and collaborative student research and creative activity in diverse ways including, but not limited to, providing funding for travel, materials, equipment, and support services.

This funding is intended to encourage and provide support for Meadows students to explore and expand their creative and research skills beyond the classroom and in ways that go beyond what would be considered ordinary or basic practices within disciplines or across disciplines. Applications that are given the strongest consideration for funding are those that involve the exploration of new ideas, new concepts, new materials, and new approaches.

Beginning in the Fall of 2016, in order to further encourage collaborative and multidisciplinary activities and initiatives, priority for funding will given to those proposals which are interdisciplinary in nature and which propose to involve students from multiple Meadows academic disciplines.

And, foremost consideration for funding will continue to be given to those proposals that explore innovative approaches to research and creative projects.

Grant funding is typically awarded in the amounts of either $350, $500, or $800, and while the estimated budgetary needs for a project will be reviewed and considered, the amounts of the grants that are awarded (either $350, $500, or $800) will be based primarily on the quality of the proposed project and not on the estimated amount of funding that the project may require.

While there is great value in undertaking any activity that is structured primarily to expand a student’s academic experience and knowledge (learning for learning’s sake), Meadows Exploration Award funding is not awarded to support activities undertaken solely for that purpose. Activities such as participation in educational programs, seminars, or workshops or other purely learning or experiential activities cannot and will not be funded. The funding is intended to support focused research and creative activity that leads to specific publications, exhibitions, performances, and/or other products of the work undertaken.

**Documentation and Outcomes**

Proper documentation of expenditures and of the eventual results of the research/creative activity is required. A full budgetary summary, with documentation according to university policy, is expected immediately upon the completion of the grant. A narrative summary of the creative work/research, its importance, and any plans for further dissemination is expected within 30 days of the completion of the grant.

**Criteria**

Students submitting proposals must have formally declared majors in the Meadows School of the Arts. Each proposal must have a faculty sponsor and must be approved by the Department/Division/Institute Chair/Director before being forwarded to the Office of the Dean.
Applications

Electronic copies of this Policy Statement and of the required forms are available online at http://www.smu.edu/Meadows/TheMovement/ResearchAndCreativity.

PLEASE NOTE: Applicants whose projects involve international travel must register their proposed travel and their participation in an international research/creative project with the SMU International Center/SMU Abroad. The purpose of this registration is, in part, to enable the university to get in touch with the student in case of emergency. Exploration Award funds will not be awarded without confirmation of registration from SMU Abroad.

Application Process

A complete application includes a “Proposal Form,” a narrative proposal statement (including a detailed budget), a “Summary Outline,” and a “Faculty Sponsor Form.” Each applicant must first submit his/her completed application and all supporting materials (including a completed and signed Faculty Sponsor Form) to the Chair/Director of the Department/Division/Institute in which the applicant is a declared major according to the deadlines listed below.

The Chair/Director reviews the completed set of application materials and makes the decision whether or not to approve the application for submission to and consideration by the Awards Committee. Applications that are incomplete or poorly prepared or that do not meet the funding criteria as described earlier in this policy should not and will not be approved and forwarded for Awards Committee consideration by the Department/Division/Institute Chair/Director. All applications that are approved by the Chair/Director are forwarded by the Chair/Director to the Senior Associate Dean according to the deadlines listed below.

2016-17 APPLICATION DEADLINES

There are three application deadlines, but again, it is understood that opportunities may present themselves at the last minute. In such cases, students should consult with the Senior Associate Dean.

September 23: RECOMMENDED DUE DATE for Applications and all supporting materials to be submitted to the Department/Division/Institute Chair/Director.

September 30: Applications forwarded by the Department/Division/Institute Chair/Director to the Senior Associate Dean.

October 14: Grants announced.

February 3: RECOMMENDED DUE DATE for Applications and all supporting materials to be submitted to the Department/Division/Institute Chair/Director.

February 10: Applications forwarded by the Department/Division/Institute Chair/Director to the Senior Associate Dean.

February 24: Grants announced.

March 31: RECOMMENDED DUE DATE for Applications and all supporting materials to be submitted to the Department/Division/Institute Chair/Director.

April 7: Applications forwarded by the Department/Division/Institute Chair/Director to the Senior Associate Dean.

April 21: Grants announced.
Grant requests that are approved by the Division/Institute Chair/Director are forwarded to the Meadows Exploration Awards Committee, which is chaired by the Senior Associate Dean. The Committee recommends funding to the Dean. Since Meadows Foundation funding must be tracked separately, funds will remain in the Dean’s Office, and allocations will be monitored by the Senior Associate Dean.
