PROJECT DESCRIPTION

On a separate sheet describe your project and its significance to the Meadows School's goal of interdisciplinary, intercultural, and socially aware student and faculty interaction. The project description should not be longer than 2000 words. The division chair/director should also answer question 5 and sign this application (and rank applications if there are multiple applications with PIs in the same division.)

1. How will your project create interdisciplinary connections within Meadows, the university, and the community?
2. How will this project raise the quality of Meadows faculty, students, or programs?
3. How will this project raise the profile of the school? What is the regional, national, or international significance?
4. How does the project support the Meadows mission and the stated objectives?
5. How will these increases in quality/profile and outcomes be measured?
