GUILDHALL ADVANCED GAME DESIGN ACADEMY

 Are you a serious game player who has what it takes to become a game maker? Have you ever considered  studying video game development in college and turning your passion into a career? If you answered yes to either of these questions, then The Guildhall Advanced Game Design Academy is for you! Celebrating its seventh year, The Academy offers a rigorous, fully immersive summer course in which students will make a video game using GuildEdSM technology, a cutting-edge game engine developed by SMU graduate professors. The Academy students will be taught and mentored by game industry veterans, and will experience what professional game developers do on a daily basis. Video games are a \$20 billion industry; see if you have what it takes to be a part of it! Students should have a passion for games and an interest in learning to create game art using Photoshop and program gameplay using LUA. No specific technical skills or knowledge related to game development is required.
