Course Description:

This course offers students a chronological overview of physical, cognitive, social, and emotional human development across the lifespan. Theories, research, and multicultural issues are presented with an emphasis on applications of these concepts by students in their future professional lives.

Required Texts:

American Psychological Association. (2009). *Publication manual of the American Psychological Association* (6th ed). DC: American Psychological Association.

Feldman, R.S. (2014) *Development across the life span* (7th ed.) Upper Saddle River, NJ: Pearson Education.

Course Requirements:

- 1. Attendance & Class Participation (10 points; see Class Participation & Readings Rubric):** Attendance and participation are required at each class. In addition to the weekly assigned readings (textbook) each student will present in class a current research article concerning the topic(s) of the week. **The instructor is to be notified directly at least 24 hours before class in writing or by email message of any potential problems with attendance.**

2. **Quizzes (10 points):** Two pop quizzes (each 5 points) covering assigned readings will be given during the term.
3. **Examinations (Mid Term Examination 25 points; Final Examination 25 points):** **Mid Term** is an objective exam covering the first half of the course. The **Final** is an objective exam covering the second half of the course.
4. **Paper and Class Presentation (30 points):** Students will be assigned partners to research and synthesize a developmental topic of interest, analyze its application to counseling, and present the findings in class on assigned date. Presentations must integrate and apply developmental theory to counseling-related scenarios. Each student will write a paper on the topic they researched and submit it on the due date. **No late papers will be accepted.**

Objectives and Outcomes

Learning Objective	Measurable Outcome
1. Identify key theorists and describe their contributions to developmental psychology in terms of psychodynamic, behavioral, cognitive, ecological, ethological, and eclectic perspectives	Students will demonstrate mastery of key developmental theories by answering multiple choice and short answer questions on quizzes, midterm, and final exams.
2. Discuss themes that dominate research and the application of developmental principles in practice such as the continuity and discontinuity of age related changes across the life span.	Students will demonstrate knowledge of prevailing developmental themes by writing and presenting a paper on a developmental topic in addition to weekly discussions on a research topic currently in the news.
3. Communicate orally and in writing the defining physical, cognitive, social, and emotional features of infants, toddlers, early childhood, middle childhood, adolescence, and adulthood.	Students will demonstrate an understanding of major physical, cognitive, social, and emotional milestones across the lifespan by answering multiple choice and short answer questions on quizzes, exams, and through writing and presenting a paper on a feature of development.
4. Identify basic human anatomy including the central nervous system, along with structures and functions of the neuron and brain.	Students will demonstrate knowledge of basic human anatomy and brain functions/structures by answering multiple choice and short answer questions on quizzes, midterm, and final exams.
5. Integrate life span developmental theories with other psychology disciplines.	Students will demonstrate an integrated knowledge of prevailing developmental themes by reading current news issues and sharing these findings in class discussions.

IMPORTANT POLICIES

Attendance Policy:

- Instructors should be given 24 hours' notice of any absence whenever possible
- If a student must miss one class, it is the student's responsibility to contact a classmate to get all material and assignments covered during their absence.
- A student's final grade will be impacted if two absences occur.
- A student missing more than two classes may, at the instructor's discretion:
 - receive a grade of Incomplete if the requirements to do so have been met (see the policy on Grades of Incomplete contained in this syllabus)
 - receive a failing grade for the course
 - drop or withdraw from the course. (This option may have a financial and/or financial aid impact. Student should refer to the Add/Drop Policy and the Withdrawal Policy for the Counseling program which can be found at <http://smu.edu/education/counseling/AcademicCalendar2011-12.asp> then consult with the Program Specialist if they believe this option is a possibility.)

Disability Accommodations:

Disability Accommodations: Students needing academic accommodations for a disability must first contact Disability Accommodations & Success Strategies (DASS) at 214-768-1470 or www.smu.edu/alec/dass.asp to verify the disability and to establish eligibility for accommodations. They should then schedule an appointment with the professor to make appropriate arrangements. (See University Policy No. 2.4; an attachment describes the DASS procedures and relocated office.)

Religious observance:

Students wishing to be absent for religious observation of holidays that require missing class should notify the professor in writing at the beginning of the semester. He/she should discuss with Dr. Levy, in advance, acceptable ways of making up any work missed because of the absence (see University Policy No. 1.9).

Excused Absences for University Extracurricular Activities:

Students participating in an officially sanctioned, scheduled university extracurricular activity will be given the opportunity to make up class assignments or other graded assignments missed as result of their participation. It is the responsibility of the student to make arrangements with the professor **prior** to any missed scheduled examination or other missed assignment for making up the work (University Undergraduate Catalogue).

Statement on APA Guidelines:

Students are expected to have a high degree of familiarity with the APA manual and its requirements. Plagiarism is plagiarism, whether intentional or unintentional. To avoid plagiarism, follow guidelines in the current edition of the *APA Publication Manual*. Some general guidelines from the 2001 6th edition include:

- Always cite the source of a quote or paraphrase
- When quoting:
 - Copy the original material word-for-word
 - If a quotation is less than 40 words, place quotation marks around it; if it is 40 or more words, indent the quote as a block. Double space all text
 - Follow the conclusion of a quotation immediately with the citation of author(s), year of publication, or year of creation if original material if unpublished, and page number(s)
- When paraphrasing:
 - Restate concepts in *substantially different words* than the original material
 - Immediately after paraphrased material, cite author(s), year, and, whenever possible, page number(s)
 - In addition, according to Pan (2003), if paraphrased material extends to multiple paragraphs, be sure to cite the source in *each* paragraph
- The term 'plagiarism' includes, but is not limited to, the use, by paraphrase or direct quotation, of the published or unpublished work of another person without full and clear acknowledgement. Plagiarism also includes the unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials. A faculty member can assign specific penalties. Penalties can include reducing or changing a grade or issuing a failing grade for an assignment/test or for the entire course and/or expulsion from the

academic program and the university. A student penalized for academic misconduct has the right of appeal. SMU counseling program students should be prepared to submit papers and other written work electronically so that the instructor can use anti-plagiarism software to validate the originality of the student's work. Students also have access to these plagiarism prevention tools and are strongly encouraged to utilize these resources.

Statement on Confidentiality and Emotional Safety:

In order to provide a safe learning environment for students in the class and to protect the confidentiality of practice clients and class members, students will discuss case material and other's personal information, reactions, etc. only while in class or privately with other current class members. It is the responsibility of each class member to treat classmates with respect and integrity, thus providing emotional safety for each other during class activities. All students in the Counseling Department will demonstrate behavior that is consistent with the Ethical Standards forwarded by the APA and ACA in their code of ethics. Failure to do so can result in termination from the Department.

Statement on Academic Integrity:

Students are reminded of the SMU Honor Code as referenced in the Student Handbook. Intellectual integrity and academic honesty are both the foundation and the goals for this program. Please reference and review the university policies on the responsibilities, policies, and penalties regarding academic honesty found at:

http://www.smu.edu/studentlife/PCL_05_HC.asp

Statement on Class Decorum:

Please turn off (or set on vibrate) all cell phones or pagers. Please do not text, read newspapers, books for other classes, or other outside reading material during class, nor use lap tops for non- class- related activities during class. Walking into class late is disruptive, as is leaving early, so please avoid this whenever possible. If you have to leave early, make arrangements before class begins, and then, when you leave, do so quietly. Professional respect and courtesy for your fellow students is expected at all times.

Grade of Incomplete

A student may receive a grade of I (Incomplete) if at least 50 percent of the course requirements have been completed with passing grades, but for some justifiable reason, acceptable to the instructor, the student has been unable to complete the full requirements of the course. At the time a grade of I is given, the instructor must stipulate in writing to the student and to the University registrar the requirements and completion date that are to be met and the grade that will be given if the requirements are not met by the completion date. The maximum period of time allowed to clear the Incomplete grade normally is 12 months. If the Incomplete grade is not cleared by the date set by the instructor or by the end of the 12-month Policies and Procedures 25 deadline, the grade of I will be changed to the grade provided by the instructor at the time the Incomplete grade was assigned or to a grade of F if no alternate grade was provided. The grade of I is not given in lieu of a grade of F or W, or other grade, each of which is prescribed for other specific circumstances.

If the student's work is incomplete, poor quality and not acceptable, a grade of F will be given. The grade of I does not authorize a student to attend the course during a later term. Graduation candidates must clear all Incomplete grades prior to the deadline in the Official University Calendar, which may allow less time than 12 months. Failure to do so can result in removal from the degree candidacy list and/or conversion of the grade of I to the grade indicated by the instructor at the time the grade of I was given.

For graduate students, a maximum of two (six hours) concurrently held grades of Incomplete in courses other than thesis is allowed. If this maximum is reached, the student will be allowed to take only one three-hour course per term until the Incomplete total is reduced. Students who accumulate a total of three grades of Incomplete in courses other than thesis will be put on probation and not allowed to enroll further until the total is reduced.
