

# The SAMSA Source

January 28, 2011

## Welcome **Relay For Life** to the SAMSA Family!

The SMU chapter of Relay For Life has been raising money for the American Cancer Society since 2004. Originally part of the Panhellenic Council, Relay For Life is now seeking an independent charter to involve even more of the SMU student body. RFL is now advised by a SAMSA staff member, so look for them in our suite and say hello!

Here's how you and your organization can support Relay For Life:

*\*See the Dallas Stars play on Feb. 26—\$5 from your ticket goes straight to SMU Relay For Life!*  
<http://stars.nhl.com/rfl> Special Offer Code: stars Then, select the SMU Relay event!

*\*Start a team!*

Encourage members of your organization to get together and participate in the fundraising event on April 15. You can get started here: [relay.org/smutx](http://relay.org/smutx)

Have questions or want more details about Relay For Life? Contact [relay@smu.edu](mailto:relay@smu.edu).

## Dining with Decision Makers

Would you like to meet the members of the SMU Board of Trustees and share your student experiences with them? Apply to "Dine with Decision Makers" by Tuesday, February 1. More information is available at <http://smu.edu/studentlife/srbot/dwdm.asp>. There is an interview process to participate, and the event is on Thursday, February 24.

## Teambuilder du jour—Helium Stick

Organize your group into two lines, standing shoulder to shoulder and facing each other. Each group member holds out their index fingers, and a long, lightweight stick (like a wooden dowel) is placed on their fingers. Tell the group to lower the stick down to the ground. Here's the catch—everyone's fingers must touch the stick the whole time! It's harder than it looks; almost like the stick is filled with helium! The group may become frustrated. Discuss the importance of remaining calm and not getting discouraged.

## Event Calendar

### Open Mic Night

Feb. 3, 10pm-Midnight, M Lounge (Program Council)

### Raas Rave and Bhangra Blitz

Feb. 19, 7pm, McFarlin Auditorium (Program Council)

### Sing Song
