We Redecorated!

Teambuilder du Jour—Grab Bag Skits

Divide into groups of 3-6 people. Each group receives a bag filled with random items—the bigger and sillier the better! Each group must create a skit that uses all of the items in the bag. Encourage participants to be creative with their items; a hairbrush can be a microphone, a towel can be a cape, etc. The facilitator can give topics to each group, or encourage the groups to make the skit relevant to your organization. Each group has 5-7 minutes to create a 2-minute skit. Each group performs their skit in front of the larger group. This exercise is good for an icebreaker and emphasizing the skills of creativity, teamwork, and adaptability.
