   “Learning was the education, the Great Gatsby and the competitive sports – she got all three at SMU. We see her and her accomplishments continue in her leadership in the community. She also had a paid internship at Ericsson and multiple job offers before she graduated. Emily truly has had a remarkable experience. Access to faculty was great – the ability to email, meet and gain additional insights. She is the poster child for the place.”
   HEATHER AND LARRY FANN

   “I was particularly interested in SMU as a potential school to attend because it was a good fit for me – academically and socially. I was impressed by the high quality of the classes and the faculty. At SMU, you are encouraged to be a good citizen, in the community and in the classroom. It was a really good experience – I would definitely recommend it.”
   DINY AND JIM LANDEN

   “I joined an investment banking club and immediately got involved. I was mentored by the current president of the club, which solidified my decision to pursue investment banking. I was also able to secure an internship in investment banking at SMU.”

   “All of our sons had excellent options for going to college at selective schools, and they chose SMU. They benefited from small classes, direct access to faculty, great opportunities for campus engagement and leadership and internships in banking, finance and real estate. SMU was big enough to have all the opportunities you could want or a large university and small enough that you knew your professors. SMU has been an incredible investment for our sons.”
