

Health Pro, for your healthcare journey

Lowering your prescription costs is always a win

Your **Health Pro** can help.

Research lower cost alternatives

Medications — their brand name version and the generic alternatives — can change rapidly. You might be spending more money than you need to every time you fill your prescription. Your **Health Pro** can research how your benefits cover your prescription and provide pricing for cost-saving generic equivalents or clinical alternatives.

Save time and money with prescriptions by mail

If you take medications regularly, skip the hassle of going to the pharmacy. Your coverage offers you the convenience of mail-order — which can also save you money. Your **Health Pro** can get you set up for mail-order, including calling your doctor to transfer the prescription.

“

My **Health Pro** responds very fast with exactly what I'm looking for. Being a single father, my time is limited to say the least.
