

Don't break
the bank on
healthcare costs.

You may be overpaying for your healthcare, but that stops today. That's where your Health Pro comes in, your advocate dedicated to bringing healthcare costs down to earth. Your Health Pro can research prices so you can compare options prior to scheduling an appointment. Then, you can decide based on both the quality of care and the costs of services.

DID YOU KNOW?

Too often, urgent care facilities are out of network. Other times, freestanding emergency rooms look like urgent care facilities. Unfortunately, you find out after the fact, once the bill arrives. Avoid the stress — and skip the guesswork — with tailored, in-network recommendations from your Health Pro.

Help from your personal Health Pro

As your personal consultant, your Health Pro can simplify the process and eliminate frustration, while helping you maximize your benefits. Have questions? Need assistance?
