

SMU DEPARTMENT OF ECONOMICS

A celebration of our 2019 December graduates

MALORI SANDERS

SMU PROUD

I chose SMU because it's a small, private university. I grew up in a small town where I basically knew everyone. It's nice because it has that same feel to it. The academics are phenomenal here and I've always been intrigued by the prestigiousness of SMU.

WHY ECONOMICS?

I love learning about how the real world works. Economics covers concepts on finance, trade, supply and demand, state and local government, policies and how they affect certain people.

WORDS OF ADVICE

Economics isn't the easiest major so if you need help, don't hesitate to meet with your professor about what you're having trouble on.

INSPIRATION

My dad, mom, sister, aunt and grandmother are all super important people in my life. They have always been there for me throughout my entire college career. They have supported every decision I have made and have been fantastic role models. I would tell them thank you for always believing in me.

MEMORABLE EXPERIENCE

Dr. Wheaton was the most influential professor I've had at SMU. I admire her work and the impact she has been making towards human rights. We need more people like her.
