

SMU DEPARTMENT OF ECONOMICS

A celebration of our 2019 December graduates

WILL TURLEY

SMU PROUD

One of the main reasons I chose SMU was because of the location in Dallas. As a student from Houston, it was nice to be close to home. In addition, the city of Dallas best suited my interest in business prior to deciding on SMU.

WHY ECONOMICS?

I chose economics because of how well it complements my major from Cox in finance. I later learned that I really enjoyed the way my economics classes shaped my thinking about both past and present business news.

WORDS OF ADVICE

I would advise any student considering SMU to take advantage of all the resources provided here. There are endless opportunities both inside and outside the classroom to anyone who desires to further develop their education.

INSPIRATION

My parents made the greatest impact on my time here at SMU. They supported me immensely through all of my endeavors over the past 3.5 years. Words cannot describe the level of gratitude I have for the support that they never stopped showing.

MEMORABLE EXPERIENCE

I would say Professor Dadres' intermediate macro course was one that really changed my business perspectives. I would like to say thank you to her for designing a class that was straightforward but also incredibly insightful.
