

SMU DEPARTMENT OF ECONOMICS

A celebration of our 2019 December graduates

YUE CUI

SMU PROUD

The reason why I chose SMU is because it is such a good school academically and it offers small classes. Also, I am an International student, and my only relative in the U.S lives in Houston. I wanted to be close to her.

WHY ECONOMICS?

Before I transferred to SMU, my major was economics but I didn't like it. However, when I took an economics class at SMU, the professor was so inspiring and knowledgeable. I really started to love this subject and decided to continue studying Economics.

WORDS OF ADVICE

I would encourage students to go to office hours more and get more involved in an economics study with one of the professors.

INSPIRATION

The person who inspired me is my mom. I really appreciate that she supported my idea to study abroad, and convinced my dad to pay such a huge tuition fee. It turned out to be a great decision for my life and future career.

MEMORABLE EXPERIENCE

I really want to thank professor Tom Fomby. He lead me into the beautiful world of business forecasting and I enjoyed his class so much. Another reason I want to thank him is because he wrote a letter of recommendation for me to apply to graduate school and I really appreciated this.
