

**History 3385: Czech and Germany in
WWII and the Cold War
A Travel Course for Students, Alumni & Friends of SMU**

May 17-27, 2021

Southern Methodist University's (SMU's) Center for Presidential History's Jeffrey A. Engel and Essential History Expeditions' Brian DeToy are pleased to partner for an on-site exploration of Prague, Nuremberg, Dresden, Leipzig and Berlin, walking the cities and fields where soldiers fought for Europe's liberation and spies schemed for generations to create a new world order. This intergenerational tour offers three credits for students, and for alumni and friends the opportunity to see the places history took place — and to relive a bit of college life.

This fully guided and immersive tour will explore the people and places of central Europe, from the September 1938 German occupation of Czechoslovakia, to the liberation battles in 1944-45; through the battle of Berlin in

April-May 1945 that completed Europe's liberation from Nazi rule; and then on through the decades-long Cold War in the capitals and cities of two nations caught between the Great Powers. We will walk the fields and city streets, learn from local experts and guest lecturers, and be assigned a renowned (or reviled) figure from history to investigate and role-play. Plus, we'll have plenty of time to explore these iconic sites on your own and to reconnect with SMU friends and students in some of Europe's most scenic sites. This trip will also provide opportunities to connect with current SMU students through meaningful discussions and mentorship.

Background

While Americans, naturally, focus on the “western” campaigns of North Africa, Italy and, especially, northwest Europe from D-Day through the Battle of the Bulge and on into western Germany – scholars know that the main theater of the war was the Eastern front. The Soviets and Nazi Germany engaged in a titanic land struggle that dwarfed the western invasions. This expedition will examine several key elements of that Ost (“east”) front – including its last battle for Berlin, as well as aspects of the war such as Final Solution death and concentration camps, and the Resistance of Czechs, Germans and others. Finally, in each of the major locations, we will examine what came next – the Cold War struggle for over 40 years that engaged the efforts of the USA and the USSR and their allies. We will examine the 1948-49 Berlin Airlift, 1961 and 1989 Berlin Wall episodes, the 1968 Prague Spring and the 1989 Velvet Revolution, among others.

We will begin in Prague, the capital of the Czech Republic. It was Hitler's annexation of Czech Sudetenland that led to the infamous 1938 Munich agreement. In Prague we will examine the Habsburg city's history along with its 1945 liberation and, most important, its abortive Cold War thawing in the 1968 Prague Spring and then the successful 1989 Velvet Revolution led by Vaclav Havel.

Heading west, our next stop is northern Bavaria and the spiritual home of Nazi Germany – Nuremberg. Here we will examine the great Nazi Rally stadium and the courthouse where the famed post-war trials brought Nazis leaders to international justice. The Old Town also has many Habsburg imperial sites that we will explore.

From Nuremberg we drive over and through the hilly, picturesque Thuringerwald into the old East Germany. We will stop in Jena, a great university town and examine the pivotal October 1806 battle in which the French under Napoleon destroyed the old Prussian Empire in the twin battles of Jena-Auerstadt. Then, it's on to Dresden, the classical city destroyed in one of the worst fire-bombing air raids of WWII, immortalized in Kurt Vonnegut's *Slaughterhouse Five*. We will also discuss the titanic 1813 Napoleonic battle here that resulted in the naming of the first true Allied Supreme Commander (forerunning Foch in 1918, and Eisenhower in 1944-45). Here is also where Colonel Vladimir Putin spent his days at the end of the Cold War, right up to the collapse of Berlin's Wall.

Heading west, we will visit Leipzig, home to Bach and the epicenter of Cold war German resistance to the DDR and Soviets. In the 1980s, it was the citizens of Leipzig who were at the forefront of the protest movements. We will visit sites from those days as well as discuss the 1813 Battle of Nations, the largest in European history until World War One.

Before entering Berlin, we will stop at the Elbe River and visit the bridge at Torgau, where American and Russian forces met in April 1945, sealing off the Germans in Berlin. In Wittenberg we will have lunch in the old Market Square and visit the Castle Church where on October 31, 1517 Martin Luther nailed his 95 theses to the side door and began a revolution that we call the Reformation. Then, in the Berlin suburb of Potsdam we will discuss the final allied conference of the war as well as sites of King Frederick the Great.

Arriving in our final stop – Berlin – we will spend several days in examining the climactic battle of the European war as well as decades of Cold War spy-vs-spy craft. Berlin was not only the Nazi capital and headquarters, but it also includes nearby sites associated with the war – from the Final Solution at the Wansee Conference, to the world-renowned Holocaust Memorial. The battle for Berlin in the spring of 1945 was on a scale of vicious fighting and retribution and destruction that can scarcely be imagined. Moving on to the Cold War, we will examine the critical Berlin Airlift of 1948-49, as well as the building and subsequent destruction of the Wall in 1961 and 1989. Checkpoint Charlie, Tempelhof Airport, spies, and much more await.

The Reunification of Germany in 1990 has created an economic and diplomatic powerhouse in the center of Europe. For centuries this nation has occupied a critical space on the Continent and on the world stage. At no time was this more true than in the years of World War Two and the subsequent Cold War. This central European expedition will take us to new regions and provide expansive opportunities to discover how our new world came to be.

Tour dates: For students, our tour officially begins late afternoon on the day of the concert, Monday, May 17th, in Prague, and concludes the morning of Thursday, May 27th, in Berlin. For alumni/friends, you may opt to attend the concert on the 17th (cost of the concert will be included in the final invoice), or you may choose to join the group on the morning of the 18th. Your payment includes your lodging for May 17th through to the final check-out the morning of May 27th.

Accommodations: Please let us know if you have any medical, dietary or mobility limitations or issues so we can make every effort to accommodate you and provide the best experience. If you have dietary restrictions, I can ensure restaurants can accommodate you if I know in advance. Please also let me know if you require a walk-in shower rather than a tub/shower.

Mentoring Component: We have established a mentoring component for the students to learn from the alumni/friends. This has been a wonderful success from both the alumni/friend as well as student perspective. Please respond with two pieces of information: 1. Are you willing to talk with students who may be interested in your professional or life experiences at some point during the trip? 2. If so, please send me a short bio, including your professional background or other life experiences you'd be willing to share with students, so that we can match up interests. If you'd prefer not to take on a mentoring role, that's absolutely fine, too. Thank you!

Additional Hotel Nights: If you would like to extend your stay in Prague before the tour or in Berlin after the tour, I would be happy to make hotel reservations at the same hotels at the pass-through rate from the hotel (no mark up). Please email me sheryl@historyexp.com if you are interested in extending your stay and I will provide information on rates.

Arrival and Departure: Our hotel in Prague offers transfer service from the airport and train station. I will provide more information in a future update. In Berlin, if you prefer to have a car hire service rather than take public transportation or a taxi, we highly recommend Blacklane (<https://www.blacklane.com/en>). We have worked with them in multiple cities in England and France in the past and the service has always been reliable and highly professional. When organizing transportation, you have the option to select the type of car you prefer, such as Mercedes, BMW, Tesla, Audi or similar.

Concert on May 17th: Prague is well known for its classical music; in the 17th and 18th centuries it was known as the conservatory of Europe. We will select a classical concert in one of the many elaborate concert halls or churches in the Old Town.

Earbuds: We will use audio units to ensure everyone can hear Drs Engel and DeToy clearly. We will have earbuds available but if you have pair you prefer, please be sure to bring them.

Power Converter: You will need a power converter for both Czech and Germany. If you will have multiple devices to charge each evening, we also recommend bringing a splitter (like a mini extension cord without the cord) so that you can plug in more items into one outlet.

In the Czech Republic the power plugs and sockets are of type E. The standard voltage is 230 V and the standard frequency is 50 Hz.

Type E: This socket also works with plug C. Plug F will work if it has an additional pinhole

In Germany the power plugs and sockets are of type F. The standard voltage is 230 V and the standard frequency is 50 Hz.

Type F: also known as "Schuko". This socket also works with plug C and plug E.

Transportation During Tour: We will have a bus for the transportation during the tour. The bus will include one bottle of water per person per day.

Packing: Bring layered clothing for warmth, a rain jacket, an umbrella and good walking shoes. The weather in our locations in late May can run the gamut from postcard-perfect to overcast with wind and rain. (Note: Layering is key and we can always remove layers as necessary. If you have a small duffel bag, you can roll/fold it up empty in your suitcase and then bring it with extra clothing items in the bus each day of the touring). Remember, good walking shoes are important!

Luggage: There are no hard limits on luggage. The bus stowage will be sufficient for the size of bus as compared to our group size.

Family Connection: As we prepare for this trip, could you let us know if you had any relatives with ties to WWII or the Cold War in Czech and Germany? Perhaps a parent or grandparent who served at that time. Or a family member who survived the camps or fled the Germans or Russians. Brian had four uncles serve in Europe in WWII and he served in Germany during the fraught period in the two years after the Wall came down. If you can give us the name and unit or organization or location, we will identify a time/place we can include that story in the touring.

Participation: Under the auspices of the CPE, Director Professor Jeff Engel's students will be earning course credit for this trip – receiving lectures beforehand, writing a paper at the conclusion and portraying historical characters while we are in Europe. Their participation throughout the trip is also graded.

Brian has developed a list of roles for people to portray. For the students, this is a mandatory exercise; for the remainder of you, this is entirely voluntary and optional but highly encouraged! For those who would like to do this, it will make the trip even more worthwhile as you dig into understanding a person who was critical to the history. Here's how it works: Brian will let you know at what location(s) he will ask you to speak to the group and for how long. He will give you a short list of possible talking points and questions you may want to address. No worries, at all – Brian is prepared to speak and lead the entire thing. But we are confident it will be more enjoyable if we hear some other voices. For some others of you, he will provide a short reading that he will call on you to read at a specific point. There's no preparation required at all for those. Here is an initial list of possible characters and topics; if you have another that you would like to add, do not hesitate to suggest them:

- Winston Churchill
- Harry S Truman

Monthly Historical Update: Here is the timeline of World War II and Cold War events leading to the Fall of the Berlin Wall. This iteration takes us up through November 1938, showing the context of what was going on in Europe at-large and also the background leading to the invasion.

Items in **Bold** are directly related to the Poland operations.

1938

September 29-30: Leaders of Britain, France, Nazi Germany, and Italy meet at the Munich Convention. In an act of capitulation, the delegates deliver the Sudetenland (the German-speaking province of Czechoslovakia) into Adolf Hitler's hands. Neither Russia nor Czechoslovakia are invited to Munich. British Prime Minister Neville Chamberlain returns to England following his role in the Munich Agreement claiming to have achieved "peace in our time."

October 1, 1938: Nazi German troops march into the Sudetenland. Without the support of their alleged allies, France and Britain, the Czechoslovakians are powerless against Adolf Hitler's army.

November 9-10, 1938: Nazi-led mobs engage in a night of terror against Nazi Germany's and Austria's Jewish population, destroying more than 1,000 shops and synagogues, arresting 30,000, and killing nearly 40. The action will become known as *Kristallnacht* (Night of Broken Glass).
