What is Selective Service? Selective Service is the process by which the United States government determines who is eligible for military conscription (commonly known as "the draft"). Most males between the ages of 18 and 25 are required to be registered within 30 days of turning 18. Registration is required by federal law, and is required for many federal programs, including federal student aid.

Your financial aid application cannot be processed because your Selective Service registration could not be confirmed. Processing will continue after you complete the Registration Status and Certification sections on this form. Once completed, turn the form in along with proof of registration or exemption status.

Please check the statement that describes your circumstance.
