Today we salute our graduates,
who stand ready to take the next steps
into the future. And we honor the
students, faculty, staff, parents and friends
who shaped SMU’s first 100 years
and laid the foundation for an
extraordinary second century.

R E T I R I N G  F A C U L T Y
T h o m a s  E .  B a r r y

Thomas E. Barry, professor of marketing at the Cox School, joined the SMU faculty in 1970. He earned B.S. and M.S. degrees from Southern Illinois University-Carbondale, and a Ph.D. from the University of North Texas. In Cox, Professor Barry served as marketing department chair and associate dean. In 1995 he was appointed vice president for executive affairs by SMU President R. Gerald Turner. Professor Barry led the development of SMU’s Master Plan that provided direction for the physical evolution of the campus. He oversaw the development of the University’s last three strategic plans, which set priorities for SMU’s mission, goals and objectives. He conducted the initial research that helped produce SMU’s successful proposal to bring the George W. Bush Presidential Center to campus. As an academic administrator, Professor Barry remained a prolific researcher, publishing three books and more than 80 scholarly articles, and contributing frequently to leading marketing and advertising journals. He received the Outstanding Researcher Award from the American Academy of Advertising. At SMU he is a three-time recipient of the Rotunda Outstanding Professor Award. From the Cox School he received the Nicholas Salgo Distinguished Teaching Award and the Excellence in Research Award. He retires as Professor Emeritus of Marketing.

D e l o r e s  M .  E t t e r

Delores M. Etter, professor of Electrical Engineering in the Bobby B. Lyle School of Engineering, joined SMU in 2008 as the founding director of the Caruth Institute for Engineering Education, a position she held until 2015. Her other SMU appointments include Caruth Professor of Engineering Education, the Texas Instruments Distinguished Chair in Engineering Education, a Distinguished Fellow in the Darwin Deason Institute for Cyber Security and a senior fellow in the John Goodwin Tower Center for Political Studies. Professor Etter earned B.S. and M.S. degrees from Wright State University and a Ph.D. from the University of New Mexico. Prior to SMU, she served as Assistant Secretary of the Navy and as Deputy Under Secretary of Defense, and held faculty positions at the University of New Mexico, the University of Colorado at Boulder and the U.S. Naval Academy. Professor Etter is a member of the National Academy of Engineering and a former member of the National Science Board and the Defense Science Board. She is a Fellow of the Institute for Electrical and Electronic Engineers (IEEE), the American Association for the Advancement of Science (AAAS) and the American Society for Engineering Education (ASEE). She retires as Professor Emeritus of Electrical Engineering.
Richard F. Gunst

Richard F. Gunst, professor of statistical science in Dedman College, joined the SMU faculty in 1972. He received a B.S. from St. Mary's University, and a Ph.D. from SMU. Well known for his classic books in experimental design and regression, Professor Gunst also has made many contributions in spatial modeling and multiple comparisons methods. At SMU he chaired 24 dissertation committees, and he and his students have contributed to the areas of statistical design and analysis of industrial experiments and functional MRI signal processing. A Fellow of the American Statistical Association, his professional awards from the ASA include the Don Owen Research Award and the Founder's Award, as well as the Frank Wilcoxon Award for Best Practical Application Paper and the W.J. Youden Award for Best Expository Paper – each published in the ASA journal Technometrics. From SMU, Professor Gunst received the Distinguished Author's Award and the Sigma Xi Research Award. He is a Senior Fellow for SMU’s Institute for the Study of Earth and Man. He twice served as Statistical Science department chair. Professor Gunst retires as Professor Emeritus of Statistical Science.

C. Michael Hawn

C. Michael Hawn, University Distinguished Professor of Church Music and director of the Sacred Music program at Perkins School of Theology, joined the SMU faculty in 1992. He received a Bachelor of Music Education degree from Wheaton College, and Master of Church Music and Doctor of Musical Arts degrees from Southern Baptist Theological Seminary. Professor Hawn’s SMU service includes chairing the Faculty Senate All-University Finance and Ethics and Tenure Committees, and preparing for 25 years the annual Perkins Christmas worship services. He initiated the Doctor of Pastoral Music degree at Perkins. His writings include more than 500 scholarly articles, columns and books. At SMU, his honors include University Distinguished Professor of Church Music and the United Methodist Scholar/Teacher of the Year. He is a Fellow of the Hymn Society in the United States and Canada. Prior to SMU, he taught at two Baptist seminaries and served four congregations as Minister of Music. He has traveled to 40 countries on six continents studying world Christian music and liturgy, and serving as visiting professor in African and Asian seminaries. An ordained Baptist minister, he is a leader in ecumenical assemblies. He retires as University Distinguished Professor Emeritus of Church Music.

Ali Reza Khotanzad

Ali Reza Khotanzad, professor of Electrical Engineering in SMU’s Bobby B. Lyle School of Engineering, joined the SMU faculty in 1984 after earning B.S., M.S. and Ph.D. degrees at Purdue University. His research focuses on pattern recognition, artificial neural networks and machine learning and their applications in computer vision and predictive analytics such as power system load forecasting. Professor Khotanzad has published over 100 peer-reviewed journal and conference papers and has received more than $1 million in external research funding. He has taught a variety of undergraduate and graduate courses and served as doctoral advisor for 23 Ph.D. graduates. He has served on editorial boards of several technical journals. In addition to his academic activities, Professor Khotanzad also is the founder and president of PRT, Inc., a high-tech engineering firm specializing in artificial intelligence-based predictive analytics tools for the energy industry. In 2000, Professor Khotanzad received the Millennium Medal from the Institute of Electrical and Electronics Engineers (IEEE), and the IEEE Dallas Section Engineer of the Year award in 1998. At SMU he received the outstanding electrical engineering faculty award three times. He retires as Professor Emeritus of Electrical Engineering.

Robert E. Krout

Robert E. Krout, professor of music therapy in Meadows School of the Arts, joined the SMU faculty in 2004. He earned a B.M. in vocal music education at Ithaca College, followed by three degrees from Columbia University: M.A. in music therapy, M.Ed. in special education and D.Ed. in music education with a focus on music therapy and technology. He chaired the music therapy department from 2004 until his retirement. He also served the Division of Music for a year as associate director for academic affairs and for a semester as interim director. His published research includes applications of technology in music therapy, songwriting and guitar innovations in music therapy, developing evidence-based treatment techniques, music therapy education and training, and music therapy in end-of-life hospice and palliative care and bereavement. He received the SMU Altshuler Distinguished Teaching Professor Award, “M” Award, University Scholar/Teacher of the Year Award from the United Methodist Church and Meadows Foundation Distinguished Teaching Professor Award, among other professional honors. Professor Krout was also a founding Faculty in Residence, living and engaging with students and residence life staff in Mary Hay/Peyton/Shuttles Commons. He retires as Professor Emeritus of Music Therapy.

Patricia Mathes

Patricia Mathes, professor of Teaching and Learning and the Texas Instruments Chair of Reading in the Simmons School of Education and Human Development, joined the SMU faculty in 2003. She earned a bachelor’s degree at Baylor University, a master’s degree at the University of Houston and a Ph.D. from Vanderbilt University. She completed postdoctoral training at the John F. Kennedy Center for Research on Human Development at Peabody College. An internationally respected researcher and teacher educator, Professor Mathes has received over $55 million in federal funding. Her landmark research has focused on best practices in literacy instruction, prevention of reading disabilities, reading instruction to English language learners, use of Computer Adaptive Testing for Continuous Progress Monitoring, Response-to-Intervention implementation and virtual coaching. Her intervention developments have become commercially available after undergoing randomized controlled testing and validation. She is the author of numerous articles, chapters, books and curricular materials on reading and reading disabilities, accommodating academic diversity and best practices for struggling readers. She retires as Professor Emeritus of Teaching and Learning.

Ronald K. Wetherington

Ronald K. Wetherington, professor of anthropology in Dedman College, joined SMU’s faculty in 1964 as a founding member of SMU’s Department of Anthropology, becoming a tenured professor in 1972. He earned his B.A. in zoology from Texas Tech University, and M.A. and Ph.D. degrees in Anthropology at the University of Michigan. He has published numerous scientific articles and books, including a monograph on the Pot Creek Pueblo at SMU-in-Taos, Ceran St. Vrain: American Frontier Entrepreneur (2012), and Readings in the History of Evolutionary Theory (2011). His honors include the H.O.P.E. Teaching Award, the “M” Award and the Rotunda Outstanding Professor Award. He served as chair of the Commission on Teaching and Learning and was founding director of SMU’s Center for Teaching Excellence. He received the Friend of Darwin Award from the National Council for Science Education for his defense of science literacy as a reviewer of science textbooks for the state of Texas. He also received the Grassroots Hero Award from the Texas Freedom Network. His SMU service includes Department of Anthropology chair, Faculty Senate – including a term as president – and director of the Fort Burgwin Research Center in Taos, New Mexico. He retires as Professor Emeritus of Anthropology.
COMMENCEMENT SPEAKER AND HONORARY DEGREE RECIPIENT

Francis S. Collins

Francis S. Collins, M.D., Ph.D., has been director of the National Institutes of Health since 2009, overseeing the work of the largest institutional supporter of biomedical research in the world. But he may be best known for leading the Human Genome Project, a 13-year international effort to map and sequence the 3 billion letters in human DNA.

As an innovative evolutionary geneticist and a devout Christian, Collins also has gained fame for his writings on the integration of logic and belief.

As NIH director, he has helped launch major research initiatives to advance the use of precision medicine for more tailored healthcare, to increase our understanding of the neural networks of the brain to improve treatments for brain diseases, and to identify areas of cancer research that are most ripe for acceleration to improve cancer prevention and treatment. His personal research efforts led to the isolation of the genes responsible for cystic fibrosis, neurofibromatosis, Huntington’s disease and Hutchinson-Gilford progeria syndrome.

Collins received his Ph.D. degree in physical chemistry from Yale University, and his M.D. degree from the University of North Carolina-Chapel Hill. As an elected member of the National Academy of Medicine and the National Academy of Sciences, Collins was awarded the Presidential Medal of Freedom in November 2007 from President George W. Bush and the National Medal of Science in 2009.

For his dramatic successes as a gene hunter, his support for biomedical research on a vast scale and his leadership of one of the most significant scientific undertakings in modern history – the Human Genome Project – Collins will receive the Doctor of Science degree, honoris causa, from SMU.

HONORARY DEGREE RECIPIENTS

Francis Halzen

Francis Halzen’s contributions to the study of particle astrophysics might be compared to the influence of astronomer Galileo Galilei’s 17th-century perfection of the telescope: Both enabled unprecedented closer observation of the universe. Halzen’s vision, initiative and leadership have led to the development and construction of the IceCube South Pole Neutrino Observatory, where he is principle investigator, and where the first ultra-high-energy neutrinos were detected in 2013.

Halzen’s work in particle physics detection has taken the study of neutrinos beyond the Milky Way galaxy and into deep space, leading to new understanding of astronomical phenomena including black holes, supernovas and galaxy formation.

Nancy A. Nasher

Nancy A. Nasher, a business leader, lawyer and philanthropist, has dedicated her professional and personal life to the betterment of Dallas. She holds degrees from Princeton University and Duke University School of Law. As president and co-owner of NorthPark Center, a premier shopping destination noted for excellence in retail and architectural design, Ms. Nasher has seamlessly integrated art into public spaces. Her vision of public engagement with the arts, Southern Methodist University is honored to confer the degree Doctor of Science, honoris causa.

For her dedication to public engagement with the arts, Southern Methodist University is honored to confer the degree Doctor of Science, honoris causa.

Ed Parish Sanders

Ed Parish Sanders, a 1962 alumnus of SMU’s Perkins School of Theology, is an internationally respected New Testament scholar responsible for major contributions to studies of Jesus and the Apostle Paul and their relationships to the Judaism of their day. He is credited with prompting the re-evaluation of prejudicial views of Judaism that often characterized earlier biblical scholarship, resulting in improved Jewish-Christian relations.

Sanders is the author of 14 books and numerous monographs that have been translated into 11 languages. His monograph, Paul and Palestinian Judaism (1977), received a National Religious Book Award, and his Jesus and Judaism (1985) won the prestigious Grawemeyer Award. He received a Bachelor of Arts degree from Texas Wesleyan University, a Bachelor of Divinity from SMU Perkins School of Theology and a Ph.D. from Union Theological Seminary.

Additional board leadership positions include the Dallas Museum of Art, the AT&T Performing Arts Center, the Meadows School of the Arts, the National Center for Arts Research, the Dallas Mayor’s Business/Arts Initiative, the University of North Texas School of Visual Arts, the Princeton University Art Museum Board of Advisors and the Duke University Board of Trustees. Ms. Nasher is chair of the Nasher Museum of Art at Duke University Board of Visitors.

For his pioneering efforts toward construction of the IceCube observatory and his extraordinary role in opening a new observational window on the universe, Southern Methodist University is honored to confer the degree Doctor of Science, honoris causa.

For his contributions to biblical scholarship, the understanding of Jewish and Christian origins, and Jewish-Christian relations, Southern Methodist University is honored to confer the degree Doctor of Human Letters, honoris causa.

The academic procession and the regalia worn by the faculty and officers of SMU are a symbol of the University's long-standing tradition of academic excellence and the continuation of its educational purposes with the origins of organized learning. The University symbolically represents the continuing link between the modern field of learning (e.g., Arts, Engineering, Law) and the religious development so that they may lead worthy lives as individuals and citizens of the nation and of the world.

**Southern Methodist University**

In 1911, a Methodist education commission made a commitment to establish a major Methodist university in Texas. More than 600 acres of open prairie and $300,000 pledged by a group of Dallas citizens secured the university for Dallas, and it was chartered as Southern Methodist University. In appreciation of the city's support, the first building to be constructed on the campus was named Dallas Hall. It remains the centerpiece and symbol of SMU. When the University opened in 1915, it consisted of two buildings, 706 students, a 35-member faculty and total assets of $636,540. The original schools of SMU were the College of Arts and Sciences, the School of Theology and the School of Music.

Today SMU offers more than 120 undergraduate majors, master’s degrees in more than 130 areas, Ph.D. degrees in 34 fields and more than 49 certificate programs. Enrollment for the spring 2017 term was 11,398, including 6,221 undergraduate students and 5,177 graduate students. SMU students come from 49 states, American Samoa, the District of Columbia, Puerto Rico, the Virgin Islands and 94 countries. About 78 percent of first-year students received some form of financial assistance for spring 2016. In addition to preparing students for graduate and professional schools, or more directly for their life's work, the University strives to enhance their social, moral, intellectual and religious development so that they may lead worthy lives as individuals and citizens of the nation and of the world.

**Academic Procession, Regalia Tradition and SMU Regalia**

The academic procession and the regalia worn by the faculty and officers of the University symbolically represent the continuing link between the modern American university and the founding of the great medieval universities in Europe – chief among them Bologna, Paris and Oxford. As those institutions were derived from the Catholic Church, the universities adopted many of the ceremonial trappings of the church in their official public functions.

The caps and gowns worn in the procession vary from place to place. There are variations in design to indicate the degrees held by the wearers, and many universities in America have introduced colorful gowns and other distinguishing details (in place of the customary clerical black from which all originated). The caps, too, vary according to the customs of the university from which the wearer received a degree. While most American universities adopted the “mortarboard” style of Oxford, others have chosen styles based on other European institutions. The color of the tassel worn with the cap may be black for any degree, or the color may be that of the faculty of the major field of learning (e.g., Arts, Engineering, Law). Persons holding doctoral degrees and governing officials of institutions are entitled to wear tassels of gold metallic thread.

Within the great varieties of styles and colors in gowns and caps, there has been one universally accepted code for the hood worn trailing down the wearer’s back. Originally, it was like the hood on the habit worn by monks and very useful for protection against the weather and even for begging for alms. Nowadays, the hood through length and color shows the degree and the specialization of the wearer, and the university that granted the degree.

Candidates for degrees at SMU are robed in custom regalia, designed to incorporate SMU’s colors and symbols.

The doctoral gown in dark blue includes velvet chevrons on each of the bell sleeves. The front velvet panels are embroidered in gold thread with the SMU seal, and gold braid outlines the chevrons and panels. An eight-sided, crimson red velvet tam with a gold silk tassel completes the regalia. The master’s gown, also in dark blue, has a front yolk outlined in red braid, and the SMU seal is embroidered in red on the left side. Gowns have a long sleeve through a slit at the wrist. A mortarboard with a colored tassel representing the discipline in which the degree is earned also is worn.

Doctoral and master’s candidates wear hoods that are 3/4 feet long and 4 feet long, respectively. SMU’s hood lining is blue with red chevron. The bachelor’s gowns’ distinguishing characteristics are the long pointed sleeves and full front pleats. A red silk Stole of Gratitude embroidered in blue with the SMU seal is worn across the shoulders. It is tradition for graduates to present their stoles to individuals who have made a positive impact in their lives. Bachelor’s gowns are worn with a tassel and mortarboard.

Through these colorful ceremonies, SMU symbolically displays the continuity of its educational purposes with the origins of organized learning in the Western world.
The Howard Lantern

The Howard Lantern is dedicated to Professor Lorn Lambier Howard, chief marshal emeritus of SMU from 1978–1987. Crafted out of steel, aluminum and water glass, the lantern depicts the Rotunda of Dallas Hall. Engraved around the base is the University’s motto, Veritas Liberabit Vos, which means “The truth will make you free.”

Presidential Collar and Medallion

Chains of office, also known as collars, were used as badges of office in the Middle Ages. Today they are custom-designed metal necklaces worn by the president during academic ceremonies as part of his or her regalia.

The chain of office designed for the 10th president of SMU, R. Gerald Turner, is made of bronze, a strong and durable metal. The medallion of the necklace is dominated by the University seal design, just as the seal is the centerpiece in the floor of the Rotunda in Dallas Hall, SMU’s historic first building.

The bail, joining the medallion and the chain, represents the institution’s bond between the faculty and the student body. Equally, the 32-inch chain, a work of art whose two ends are clasped together, represents the joining of the desire to teach and the eagerness to learn demonstrated by SMU’s faculty and students.

The University Mace

Staffs that call groups to order are as old as civilization itself. Today’s ceremonial maces descend particularly from medieval armor-piercing clubs topped by bludgeoning balls. These fierce weapons swiftly acquired symbolic meaning. By the 14th century, a mace, carried at the front of formal processions, required bystanders to note the authority and integrity of the event. In the 16th century, this formidable weapon lost its battle utility but took a symbolic turn: the spiked head evolved into a decorative orb. The European tradition by which universities presented maces on solemn occasions to signify their independence and protective power was adopted by their successors worldwide. The mace-bearer, who is the president of the Faculty Senate, leads formal ceremonies carrying this visible reminder of the University’s history and status.

The 22-pound mace currently in use at SMU is linked to the inauguration of President Willis M. Tate (1954–1972 and 1974–75) and is known as the Tate Mace. The 57-inch staff is topped by a 10½-inch orb that represents not only the University’s worldly authority but also echoes its distinctive neoclassical style. The orb is impressed with the seal of the University and is encircled with SMU’s motto, Veritas Liberabit Vos (“The truth will make you free”). Surrounding the orb is a cross painted vividly in SMU red, a reminder of SMU’s religious heritage.

SMU Guild of Marshals

Decorum, tradition, the processions of candidates, faculty and the platform party and the ceremony are managed by the Guild of Marshals. The legacy of the Guild of Marshals goes back to medieval courts in Europe where trusted members were appointed as marshals of the court. SMU’s marshals can be identified by their bright red gowns with black chevrons. The Chief Marshal is a faculty member appointed by the provost, who is the presiding officer at academic ceremonies. The Chief Marshal selects faculty members from each of the schools to serve in the Guild. Other positions in the Guild are Chief Marshal emeritus, Platform Marshal, Procession Marshal, Faculty Marshal, 50th Class Reunion Marshal and Marshal Lector.

In Memoriam

MARSHAL PROFESSOR DENNIS SIMON
SEPTEMBER 23, 1951 – FEBRUARY 12, 2017

A member of the Political Science faculty since 1986, he served in the Guild of Marshals for 22 years and participated in 46 academic ceremonies. His commitment to academic excellence and civil rights, and his dedicated service to the Guild, is deeply missed.
