RETIRING FACULTY

John A. Mears
John A. Mears, Associate Professor of History in Dedman College, came to SMU in 1967. He earned a B.A. degree *magna cum laude* at the University of Minnesota, where he was elected to Phi Beta Kappa in his junior year, and both M.A. and Ph.D. degrees at the University of Chicago. Before joining SMU’s history faculty, he began his teaching career in 1964 at New Mexico State University. His honors include a Woodrow Wilson Fellowship and two National Endowment for the Humanities Fellowships. Professor Mears initially specialized in early modern European history, with particular interests in the emergence of standing professional armies and the Hapsburg Monarchy. He later broadened his interests to encompass world history. He served as president of the World History Association from 1994-96 and remains active in the new International Big History Association. He co-authored a world history textbook, *Achievements Through the Ages*, and currently is working on a volume titled *To Be Human: A Perspective on Our Common History*. A devoted University citizen, Professor Mears served on numerous campus committees, as director of the SMU-in-Austria program and as director of SMU International Programs from 1984 to 1992. He retires as Professor Emeritus of History.

CONFERRING OF HONORARY DEGREE

Groesbeck Preer Parham, Doctor of Science

Groesbeck Preer Parham has devoted his life to improving the lives of the world’s poor through efforts to reduce inequalities in health care and provide opportunities to realize individual potential. He earned his B.S. from Oberlin College and M.D. from the University of Alabama at Birmingham. He is professor of gynecologic oncology at the University of North Carolina at Chapel Hill. Dr. Parham founded the Cervical Cancer Prevention Program in Zambia, where he lives. As a leader in combating women’s cancers, he developed an innovative system for cervical cancer screening using simple household vinegar and a digital camera. This program has served more than 350,000 Zambian women and has been adopted by health care providers from South Africa to China. His work has been supported by Pink Ribbon Red Ribbon, a public-private partnership to prevent cervical and breast cancer in Africa and Latin America, co-founded by the George W. Bush Institute, located on the SMU campus. SMU faculty and students have participated in numerous global health research, training and service activities in Zambia related to Dr. Parham’s work. His many honors include awards from the Society of Gynecologic Oncology and the United Nations. For his extraordinary global efforts to improve the health of underserved women, Southern Methodist University is honored to confer upon Groesbeck Preer Parham the degree of Doctor of Science, *honoris causa*. 
COMMENCEMENT SPEAKERS

RICHARD AND MARY TEMPLETON

Richard Templeton, a member of the SMU Board of Trustees, is president and CEO of Texas Instruments. Mary Templeton is a financial analyst, computer scientist and community leader.

Mary Templeton had a 14-year career with General Electric before moving to Dallas. She has served on the boards of trustees for her alma mater, Union College, the University of Dallas, John Paul II High School, Ursuline Academy of Dallas Foundation, the Southwest Region Boys and Girls Clubs of America, AT&T Performing Arts Center and the Dallas Arboretum. She is a member of the Advisory Council of The Catholic Foundation and in 2011 received the 29th Foundation Award for her support of Catholic education.

With more than 30 years of experience in the semiconductor industry, Richard Templeton has been president and CEO of Texas Instruments since 2004 and chairman of the board since 2008. He serves on boards of the Semiconductor Industry Association, Catalyst and the Southwestern Medical Foundation and is a member of the Business Roundtable. In addition to being an SMU trustee, he serves on the executive boards for SMU’s Lyle School of Engineering and Cox School of Business.

Under Mr. Templeton’s leadership, TI and the TI Foundation have made generous investments to strengthen global education programs, including K-12 STEM teaching and student achievement. The TI Foundation maintains a strong partnership with SMU, supporting programs that promote diversity and innovation in engineering education. The TI Foundation endowed the Texas Instruments Distinguished Chair in Engineering Education and the directorship of the Caruth Institute for Engineering Education in SMU’s Lyle School in 2008.

Mr. and Mrs. Templeton established the Mary and Richard Templeton Centennial Chair of Electrical Engineering at SMU in 2014. The couple has three children — Stephanie, John and Jim, who is a 2014 graduate of Lyle School of Engineering.

In 1911, a Methodist education commission made a commitment to establish a major Methodist university in Texas. More than 600 acres of open prairie and $300,000 pledged by a group of Dallas citizens secured the university for Dallas, and it was chartered as Southern Methodist University. In appreciation of the city’s support, the first building to be constructed on the campus was named Dallas Hall. It remains the centerpiece and symbol of SMU. When the University opened in 1915, it consisted of two buildings, 706 students, a 35-member faculty and total assets of $636,540. The original schools of SMU were the College of Arts and Sciences, the School of Theology and the School of Music.

Today SMU offers more than 118 undergraduate majors, master’s degrees in more than 130 areas, Ph.D. degrees in 34 fields and more than 49 certificate programs. Enrollment for the spring 2016 term was 11,260, including 6,157 undergraduate students and 5,103 graduate students. SMU students come from 50 states, the District of Columbia, the Virgin Islands and 97 countries. About 74 percent of first-year students received some form of financial assistance for spring 2016.

In addition to preparing students for graduate and professional schools, or more directly for their life’s work, the University strives to enhance their social, moral, intellectual and religious development so that they may lead worthy lives as individuals and citizens of the nation and of the world.
The academic procession and the regalia worn by the faculty and officers of the University symbolically represent the continuing link between the modern American university and the founding of the great medieval universities in Europe – chief among them Bologna, Paris and Oxford. As those institutions were derived from the Catholic Church, the universities adopted many of the ceremonial trappings of the church in their official public functions.

The caps and gowns worn in the procession also vary from place to place. There are variations in design to indicate the degrees held by the wearers, and many universities in America have introduced colorful gowns and other distinguishing details (in place of the customary clerical black from which all originated). The caps, too, vary according to the customs of the university from which the wearer received a degree. While most American universities adopted the “mortarboard” style of Oxford, others have chosen styles based on other European institutions. The color of the tassel worn with the cap may be black for any degree, or the color may be that of the faculty of the major field of learning (e.g., Arts, Engineering, Law). Persons holding doctoral degrees and governing officials of institutions are entitled to wear tassels of gold metallic thread.

Within the great varieties of styles and colors in gowns and caps, there has been one universally accepted code for the hood worn trailing down the wearer’s back. Originally, it was like the hood on the habit worn by monks and very useful for protection against the weather and even for begging for alms. Nowadays, the hood through length and color shows the degree and the specialization of the wearer, and the university that granted the degree.

Through these colorful ceremonies, SMU symbolically displays the continuity of its educational purposes with the origins of organized learning in the Western world.

SMU’s regalia visually honor the University’s traditions and spirit, which we celebrate this morning.

Candidates for degrees at SMU are robed in custom regalia, designed to incorporate SMU’s colors and symbols.

The doctoral gown in dark blue includes velvet chevrons on each of the bell sleeves. The front velvet panels are embroidered in gold thread with the SMU seal, and gold braid outlines the chevrons and panels. An eight-sided, crimson red velvet tam with a gold silk tassel completes the regalia.

The master’s gown, also in dark blue, has a front yolk outlined in red braid, and the SMU seal is embroidered in red on the left side. Gowns have a long sleeve through a slit at the wrist. A mortarboard with a colored tassel representing the discipline in which the degree is earned also is worn.

Doctoral and master’s candidates wear hoods that are 3½ feet long and 4 feet long, respectively. SMU’s hood lining is blue with red chevron.

The bachelor’s gowns’ distinguishing characteristics are the long pointed sleeves and full front pleats. A red silk Stole of Gratitude embroidered in blue with the SMU seal is worn across the shoulders. It is tradition for graduates to present their stoles to individuals who have made a positive impact in their lives. Bachelor’s gowns are worn with a tassel and mortarboard.
Chains of office, also known as collars, were used as badges of office in the Middle Ages. Today they are custom-designed metal necklaces worn by the president during academic ceremonies as part of his or her regalia.

The chain of office designed for the 10th president of SMU, R. Gerald Turner, is made of bronze, a strong and durable metal. The medallion of the necklace is dominated by the University seal design, just as the seal is the centerpiece in the floor of the Rotunda in Dallas Hall, SMU’s historic first building.

The bail, joining the medallion and the chain, represents the institution’s bond between the faculty and the student body. Equally, the 32-inch chain, a work of art whose two ends are clasped together, represents the joining of the desire to teach and the eagerness to learn demonstrated by SMU’s faculty and students.
The Official University Mace and The Howard Lantern

Staffs that call groups to order are as old as civilization itself. Today’s ceremonial maces descend particularly from medieval armor-piercing clubs topped by bludgeoning balls. These fierce weapons swiftly acquired symbolic meaning. By the 14th century, a mace, carried at the front of formal processions, required bystanders to note the authority and integrity of the event. In the 16th century, this formidable weapon lost its battle utility but took a symbolic turn: the spiked head evolved into a decorative orb. The European tradition by which universities presented maces on solemn occasions to signify their independence and protective power was adopted by their successors worldwide. The mace-bearer, who is the president of the Faculty Senate, leads formal ceremonies carrying this visible reminder of the University’s history and status.

The 22-pound mace currently in use at SMU is linked to the inauguration of President Willis M. Tate (1954–1972 and 1974–75) and is known as the Tate Mace. The 57-inch staff is topped by a 10½-inch orb that represents not only the University’s worldly authority but also echoes its distinctive neoclassical style. The orb is impressed with the seal of the University and is encircled with SMU’s motto, *Veritas Liberabit Vos* (“The truth will make you free”). Surmounting the orb is a cross painted vividly in SMU red, a reminder of SMU’s religious heritage.

The Howard Lantern is dedicated to Professor Lorn Lambier Howard, chief marshal *emeritus* of SMU from 1978–1987. Crafted out of steel, aluminum and water glass, the lantern depicts the Rotunda of Dallas Hall. Engraved around the base is the University’s motto, *Veritas Liberabit Vos*, which means “The truth will make you free.”

Around the top band are the words to “Varsity,” SMU’s *alma mater*. The lantern serves as a reminder of the important traditions that make up our University life and the light of learning and intellectual curiosity that shines within the students, faculty and staff at SMU.
