COURSE DEVELOPER(S)

This course was developed by Gwendoline Aaron in collaboration with the Academic Technology Services Office for Dedman College. It follows the Dedman College Guidelines for Online Course Development, as well as the SMU World Languages and Literatures Guidelines for Online Courses.

Course Description

FREN1401 (4 credits per term) Beginning French: term one, is a 5-week, fully online course. Students will meet synchronously virtually for verbal activities with two partners at the end of
each weekly module, but the majority of the work will be completed asynchronously on Canvas and MindTap.

PREREQUISITE

This course is reserved for students with no previous knowledge of French.

Learning Outcomes

COURSE LEVEL OUTCOMES (CLO)

Upon completion of the course a successful student will be able to do the following:

- **CLO 1 Listening**: Demonstrate ability to understand, sentence-length speech, using familiar vocabulary and structures.
- **CLO 2 Reading**: Demonstrate ability to understand short, non-complex texts that convey basic information using familiar vocabulary and structures.
- **CLO 3 Speaking**: Express themselves in uncomplicated communicative situations related to familiar topics by responding to direct questions or requests for information, with responses typically consisting of short statements and discrete sentences.
- **CLO 4 Writing**: Write short, simple communications and requests for information in loosely connected texts framed in present time, with some references to other time frames.
- **CLO 5 Explore**: Compare cultural elements (practices, values, beliefs) of the Francophone world to their own culture (in English).

MODULE LEVEL OUTCOMES (MLO)

Throughout the modules in this course there are module-level outcomes listed. Next to each module level outcome (e.g., MLO 1.1) there is a number or numbers. That number or numbers correspond to the above course level outcomes (e.g., CLO 1). Everything you do in this course flows back to the course level outcomes.

Expectations

WORKLOAD

Time-on-task for a 4-credit course should total approximately 180 hours. As this is an intensive online language course, you will be expected to complete activities every day. The expected time required to complete all the activities in this course is approximately 40 hours per week, though this is a general estimate and it will vary from student to student. There will be set due dates for tests and synchronous meetings, so make sure that all the work assigned for a weekly module has been submitted before you take the module test.

SYNCHRONOUS MEETINGS
Once a week, you will have the opportunity to connect virtually (via Zoom) synchronously (at the same time) in groups of two or three participants for 30 to 45 minutes to practice pronunciation and engage in speaking activities. Unlike in face-to-face language course, you will have plenty of chances to communicate in writing via the discussion board, but much less in speaking. Coordinating classmates’ schedules and time zones can be challenging, but this weekly opportunity for direct interaction is usually rewarding. Schedule your meetings well in advance, and attend prepared so that you and your partners can gain the most from each meeting.

Grading

Your work and overall performance will be recorded on Canvas. Students can access their current weighted average at any time under the Total Column.

RESPONDUS LOCKDOWN BROWSER and MONITOR

This course requires the use of LockDown Browser and a webcam for online exams. The webcam can be built into your computer or can be the type that plugs in with a USB cable. Watch this short video to get a basic understanding of LockDown Browser and the webcam feature. A student Quick Start Guide (PDF) is also available.

Then download and install LockDown Browser from this link:

http://www.respondus.com/lockdown/download.php?id=951749825

To ensure LockDown Browser and the webcam are set up properly, do the following:

• Start LockDown Browser, log into http://canvas.smu.edu, and select this course.
• Locate and select the Help Center button on the LockDown Browser toolbar.
• Run the Webcam Check and, if necessary, resolve any issues.
• Run the System & Network Check. If a problem is indicated, see if a solution is provided in the Knowledge Base. Troubleshooting information can also be emailed to our institution's help desk.

When taking an online exam that requires LockDown Browser and a webcam, remember the following guidelines:
Ensure you're in a location where you won't be interrupted
- Turn off all other devices (e.g. tablets, phones, second computers)
- Clear your desk of all external materials not permitted — books, papers, other devices
- Remain at your computer for the duration of the test
- If the computer or networking environment is different than what was tested above, repeat the Webcam and System checks prior to starting the test
- To produce a good webcam video, do the following:
  o Avoid wearing baseball caps or hats with brims
  o Ensure your computer or tablet is on a firm surface (a desk or table) — not on your lap, a bed, or other surface that might move
  o If using a built-in webcam, avoid tilting the screen after the webcam setup is complete
  o Take the exam in a well-lit room and avoid backlighting, such as sitting with your back to a window
- Remember that LockDown Browser will prevent you from accessing other websites or applications; you will be unable to exit the test until all questions are completed and submitted.

**ACADEMIC INTEGRITY and the SMU HONOR CODE**

Southern Methodist University is very proud of being an honorable community of scholars. As a faculty member, I am very proud of this tradition and feel strongly that those who violate the honor code will be dealt with through the University Honor Council. Please take the time to read the [SMU Honor Code](http://www.smu.edu/StudentAffairs/Chaplain/ReligiousHolidays).

In addition to adhering to the SMU honor code please be aware that I consider the following behaviors to be in direct violation of academic integrity: turning in papers and academic work that is not your own, turning in work you completed in another class almost verbatim,
improperly citing content from other academic and non-academic sources, copying from others during exams and quizzes, utilizing unauthorized notes during exams and quizzes, relying on other students, family members, friends, or paid service to complete your assignments and exams. *If you have any questions about what constitutes academic dishonesty, please ask me!*  

Please, also note that our World Languages and Literatures Department specifically wants to make it clear that any use of translation software that is not specifically authorized by the instructor constitutes cheating.  

Finally, understand that all of your papers and assignments will be submitted through Turnitin Plagiarism Detection Service via Canvas. Prior to submitting your work, you will have an opportunity to review your personal reports and correct any missing citations.
