IN THE LIBRARY

WELCOME WEEK, August 24-28th: Welcome (back) to school! While getting into the swing of things, stop by the library to meet your librarians and pick up some freebies. We'll have coffee tumblers and coffee K-Cups to use with our new Keurig machine, snacks, pens, pencils, and other supplies!

Wed., September 16th, 9:30am: Come celebrate with us! Stop by the official grand opening party of “Starbooks,” the library’s new coffee and study space in the circulation area. Enjoy a cup of coffee from the Keurig machine, snack on a donut hole, or grab a cup of O.J. to start your morning off right.

Color Corner: Need a break from all of those reading assignments? The circulation area bulletin board now includes pages from an adult coloring book (no, not that kind)! Take a break and color your favorite stress-relieving animal design featuring intricately-detailed jungle animals. Share your masterpiece on your fridge or post it back on our bulletin board!

that you can boost your creativity by 60% just by getting out of your chair and taking a stroll? And while walking outdoors can be a nice change of scenery, creativity still increases whether you walk indoors or out (good news during Texas summers). Though, researchers suggest taking a walk only when your issue has multiple solutions--stay planted in your seat if you’re solving a problem with only one right answer.

On September 13th, 1857, a hero, Milton S. Hershey, is born! OK, maybe “hero” is an exaggeration... Mr. Hershey started off as an apprentice to a local printer at the tender age of 14, but he didn’t really care for the line of work. So his mother set him up with a county confectioner. By 1876, Hershey moved to Philadelphia to open his first confectionery business. Though his first business failed after six years, we’d say he ended up doing alright for himself. We now celebrate International Chocolate Day every September 13th--go eat your chocolate, we won’t judge.

AROUND TOWN

September 4th, 4pm-5:45pm: Join SMU School of Law alumni, faculty, staff, students and guests for the first tailgate of the year! Enjoy a buffet of food and drinks (two drink tickets per attendee) compliments of the Dedman School of Law. Then head to Ford Stadium for the 6pm kickoff against the Baylor Bears in this home-opener welcoming new Head Coach, Chad Morris. See you there!

September 25th: The State Fair of Texas officially opens for the 2015 season! The Fair will run through October 18th. New this year: Ticket and food/ride combo packages! Grab some friends and purchase your Texas-sized fun online now! See www.bigtex.com for more information.

October 26th - 30th: If you’re brave enough to enter the library this week, partake in our Halloween traditions:

2nd Annual Staff Pumpkin-Carving Contest!
Your very own Underwood Law Library staff are battling for bragging rights again this year! Take a peak at our hand-carved creations and VOTE for your favorite. Our pumpkins will be on display all week before Halloween in the circulation area.

Trick or Treat? As a thank you for voting in our pumpkin-carving contest, treat yourself to a piece of candy. But beware: consuming too much candy may cause spirits to take revenge on your intestines... don’t say we didn’t warn you...

AROUND TOWN

Thursday, October 8th @ 7:30pm:
Celebrate Halloween a little early this year with a free showing of Hocus Pocus at Griggs Park. Popcorn and candy will be free, you just bring a blanket or chair!

Until October 18th: Don’t forget, the State Fair of Texas is still going on! Enjoy fried goodies like this year’s award-winning “holy moly carrot cake roly” or the “smoky bacon margarita”. Ticket information can be found online at www.bigtex.com.

That candy corn dates back to the 1880s - that’s before cars and the commercial telephone! In early production of the tricolored treats, workers cooked (by hand, no less) sugar, corn syrup, marshmallow and other ingredients into a slurry in large kettles. They then hand-poured the warm mixture into kernel-shaped trays made of cornstarch. Today, of course, machines do all of the work.

IN HISTORY

October 1347: Nearly 800 years ago, the “Black Death” arrived in Europe. As trading ships docked in Messina, Italy after a journey through the Black Sea, bystanders waiting to greet the ships were met with surprise: many sailors aboard the ships were dead. The remaining survivors were severely ill and covered in mysterious black boils which gave their illness its name. Over the next five years, Black Death would kill more than 20 million people in Europe, accounting for almost one-third of the continent’s population.

that the simple sticky note can actually be quite a useful tool for getting things done? In fact, you are 58% more likely to get a favor if you ask by Post-it note. In a recent experiment, test subjects were asked to fill out and return a rather lengthy five-page survey. For some, the request was a part of the survey cover sheet, but for others the request was penned to a Post-it note and attached to the front. Those who received the request by sticky were significantly more likely to complete the survey and return it more quickly. The conclusion? Attention-grabbing memos make the request more personal--and more palatable.

IN HISTORY

With Thanksgiving around the corner, many of us are already salivating for our seasonal favorite: pumpkin pie. Pumpkins were first cultivated in Central America around 5,500 B.C. Fast forward to 1621 and it’s likely that the Pilgrims enjoyed pumpkin at their first Thanksgiving feast, just not in pie form. Rather, pumpkin pie in its early days, as described in a 1653 French cookbook, required chefs to boil pumpkin in milk and then strain it before putting it in a crust. Other early versions advocated for alternating layers of pumpkin, apple, and a blend of spices. And yet another version (my personal fave), called for filling a hollowed-out pumpkin with spiced, sweetened milk and cooking it directly in a fire, leaving the crust out entirely. However you choose to have your pie this season, we wish you a very happy Thanksgiving!

On January 2, 2014, the very first edition of the Loo News was printed. Happy second birthday, Loo News! OK, onto some real history...

On January 7, 1789, America’s first presidential election is held. At the time, only white men who owned property could vote and as expected, George Washington won the election; he was sworn into office on April 30, 1789. Also in place in 1789: the Electoral College system. The United States has been using this system since this very first presidential election; the president and vice president to this day are the only elected federal officials chosen in this manner instead of by direct popular vote.

that it was 52 years ago when home audiences first had instant replay on television? During the annual Army-Navy football game in 1963, a touchdown was replayed and the announcer had to clarify, “This is not live! ... Army did not score again!” Despite this monumental moment in sports history, instant replay technology was expensive and many years would pass without further use of the tool. In fact, the NFL did not adopt the technology until 1986 and even then its use was shelved in 1992; it was reintroduced and finally accepted in 1999.

On July 5, 1946, the bikini is introduced by French designer Louis Reard. The two-piece swimsuit got its name from its inspiration: a U.S. atomic test that took place off the Bikini Atoll in the Pacific Ocean earlier that week. In fact, one designer called his bikini prototype the “atom” and advertised it as “the world’s smallest bathing suit.” Until the bikini’s debut, women often bared only a sliver of the midriff. However, Western Europeans joyously embraced the liberating fashion in celebration of the first war-free summer in years. And in the U.S., bikinis became popular out of need, when wartime rationing of fabric led to the removal of superfluous material. Since then, the bikini’s popularity has only continued to grow.
