Academic Technology Council 2020-2023

Appointed by: Provost

Charge: The Academic Technology Council is a primary steward of SMU’s academic technology resources. Academic leaders serving on the Council maintain an understanding of the academic technology needs of their school or unit while also advocating for technologies that enhance the capabilities of the University as a whole. Key responsibilities include providing input to the annual update of their school or unit’s academic technology strategy, helping to prioritize academic computing projects, providing input to service levels, advocating for both SMU’s IT users and service providers, and serving as an ambassador for OIT. Council members may also be asked to provide input on CIO ideas or participate in pilot programs.

Term Length: 3 years

Month for Membership Update: June 2020-2023
