Mission of General Education:

The essence of Southern Methodist University’s educational philosophy is that intellectual and professional excellence rises from the solid foundation of a liberal arts education. Most importantly, general education should provide an intellectual foundation consisting of the broad outlines of human knowledge, providing a context for discipline specific study, and a framework for a future of lifelong learning. In light of these considerations, an ideal general education course is one which builds a broad, context-rich framework in its content area. To the extent possible, it should transcend departmental boundaries, connecting to ideas in related fields, and relevant social and ethical questions.

Common Curriculum Goals:

- The Common Curriculum will prepare students to be informed, ethical, and engaged citizens.
- The Common Curriculum will prepare students to think critically across domains.
- The Common Curriculum will prepare students to communicate clearly in writing and speaking.
- The Common Curriculum will provide students with the scientific, mathematical, and technological competence to navigate a changing world.
- The Common Curriculum will prepare students to understand, work, and live with people from different races, nationalities, religions, backgrounds, and experiences.

Please review the Mission of General Education and Common Curriculum Goals above. Please provide an explanation of how the proposed course supports this mission and these goals.
