For **ECE** courses, the third digit in the course number designator indicates the subject area represented by the course. The courses for the master's degree in telecommunications are indicated by the prefix EETS. The EETS course descriptions are listed following the **ECE** courses. The following designators are used for **ECE** courses.

**Enrollment and Academic Records (all schools)**

Transcript Service

A transcript is an official document of the permanent academic record maintained by the University Registrar's Office. The permanent academic record includes all SMU courses attempted, all grades assigned, degrees received and a summary of transfer hours accepted. Official transcripts and certifications of student academic records are issued by the University Registrar's Office for all students. Copies of high school records and transfer transcripts from other schools must be requested from the institutions where the coursework was taken.

Transcripts are $12.50 per copy. Additional copies in the same request mailed to the same address are $3.50. Additional copies mailed to different addresses are $12.50 a copy. PDF transcripts are $16.25 per email address and are available only for students who attended after summer 1996.

Note: No incomplete or partial transcripts, including only certain courses or grades, are issued.

Transcripts cannot be released unless the student has satisfied all financial and other obligations to the University. Instructions for requesting a transcript to be mailed or picked up on campus are available at www.smu.edu/registrar ("Transcript Requests" link). A student may request his or her official transcript through the online my.SMU Student Homepage. Requests are processed through the National Student Clearinghouse. Telephone and email requests are not accepted. Students or their specified third party can pick up their transcripts at the University Registrar's Office, 101 Blanton Student Services Building.
Transcripts may be released to a third party as specified by the student on the Student's Consent for SMU to Release Information to Student's Specified Third Party form accessible at www.smu.edu/LegalDisclosures/FERPA/Forms.

Note: Chapter 675, S.B. 302. Acts of the 61st Texas Legislature, 1969 Regular Session, provides as follows: Section I. No person may buy, sell, create, duplicate, alter, give or obtain; or attempt to buy, sell, create, duplicate, alter, give or obtain a diploma, certificate, academic record, certificate of enrollment or other instrument which purports to signify merit or achievement conferred by an institution of education in this state with the intent to use fraudulently such document or to allow the fraudulent use of such document. Section II. A person who violates this act or who aids another in violating this act is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than $1,000 and/or confinement in the county jail for a period not to exceed one year.

Enrollment and Academic Records

Schedule Changes
With the exception of HGME 6276 - Master's Thesis II, HGME 6377 - Master's Thesis III and HGME 6178 - Graduate Exhibition, students at SMU Guildhall cannot drop individual courses; they must take all of the required courses in their specialization each term to be enrolled.
Lyle School of Engineering
Mechanical Engineering, Ph.D.

Direct Admission into the Ph.D. Program
The Mechanical Engineering Department offers direct admission into its doctoral program for outstanding students with a bachelor’s degree in mechanical engineering. This special “fast-track” program allows a student to apply up to 18 credit hours from the coursework hours requirement to the dissertation hours requirement, while retaining the 78 credit hours required past the Bachelor’s degree. The minimum number of dissertation hours remains at 24 credit hours. A student admitted into this “fast-track” program must successfully complete a minimum of 36 credit hours of coursework and a minimum of 24 credit hours of dissertation with the total coursework and dissertation hours reaching a minimum of 78 credit hours. The expected program of study for most students in this track is 36 credit hours of coursework and 42 credit hours of dissertation. A minimum of 36 credit hours of the coursework must be from regularly scheduled, graduate-level courses, and cannot be one-on-one, directed study type courses. Additionally, students must satisfy the core course requirement for the Ph.D. degree.

Admission Requirements
This fast-track program is open only to outstanding students who have demonstrated excellence in their undergraduate (UG) career and who are well prepared to excel in their graduate coursework and research. Therefore, admission into this program shall be considered on an exceptional basis.

To be considered for admission to this program, applicants must meet the following minimum requirements:

1. An undergraduate degree in mechanical engineering from a reputable program,
2. An UG GPA of 3.5 or higher,
3. A GRE quantitative score of 85% or higher,
4. Strong letters of recommendation supporting the student’s direct admission into a fast-track program, and
5. A written statement of purpose that projects maturity, purpose, commitment, and a demonstrated standard of excellence.

The Lyle School will consider outstanding applicants who have specifically applied to the fast-track program and will determine their admission into this program. A direct admission student who earns a cumulative GPA of less than 3.5 on their core courses or fails to complete the core requirement in two successive regular semesters is suspended from the fast-track doctoral program and switched to the regular Master of Science in Mechanical Engineering program. No readmission into the fast track program is allowed.
