Information Engineering and Management provides the graduate with the tools to effectively engineer, manage, and utilize the data collection and information flow of an organization by developing technical and management skills required in the age of Big Data via a unique curriculum combining software, networking, hardware, technology, and management along with data-driven modeling and computational skills.

### **Admission Requirements**

In addition to meeting the Lyle School of Engineering admission requirements for an M.S. degree, applicants are required to satisfy the following additional requirements:

1. A bachelor's degree in engineering or another technical discipline. (The technical requirement may be waived with sufficient relevant work experience.)
2. Official GRE graduate school admission test results with a minimum 80th percentile quantitative score.

### **Degree Requirements**

In addition to meeting the Lyle School of Engineering degree requirements for an M.S. degree, candidates are required to satisfy the following additional requirements:

#### **Core Courses**

Satisfactory completion of the following five (5) core courses:

- EMIS 7300 - Systems Analysis Methods  
or
- EMIS 7370 - Probability and Statistics for Scientists and Engineers  
or
- EMIS 8360 - Operations Research Models
- EMIS 7352 - Information Systems Architecture
- EMIS 7353 - Information System Design Strategies
- EMIS 7357 - Analytics for Decision Support
- EMIS 7360 - Management of Information Technologies

## Specialty Courses

Satisfactory completion of two (2) specialization courses selected from:

- EMIS 7331 - Data Mining
- EMIS 7361 - Computer Simulation Techniques
- EMIS 8356 - Global Perspectives for Information Engineering
- EMIS 8360 - Operations Research Models

## Concentration Courses

Satisfactory completion of a coherent nine credit hour concentration approved by the adviser.

## Operations Research, M.S.

Operations Research applies advanced quantitative methods to help organizations make better decisions and generate insight for practical implementation. By using data-driven, analytical and computational techniques such as mathematical modeling to analyze complex situations, operations research gives organizational leaders the power to make effective and insightful decisions and build productive systems in the age of Big Data.

## Admission Requirements

In addition to meeting the Lyle School of Engineering admission requirements for an M.S. degree, applicants are required to satisfy the following additional requirements:

1. A B.S. in engineering, mathematics, computer science, economics or a related technical field.
2. Previous coursework that includes satisfactory completion of at least six credit hours of calculus, three credit hours of linear algebra and three credit hours of computer programming in a high-level language. (Generally, a Bachelor of Business Administration does not provide sufficient background.)
3. Official GRE graduate school admission test results with a minimum 80th percentile quantitative score.

## Degree Requirements

In addition to meeting the Lyle School of Engineering degree requirements for an M.S. degree, candidates are required to satisfy the following additional requirements:

## Probability and Statistics

Satisfactory completion of one of the following probability and statistics courses:

- EMIS 7370 - Probability and Statistics for Scientists and Engineers  
or
- EMIS 7377 - Statistical Design and Analysis of Experiments

## Additional Core Courses

The following three courses:

- EMIS 7357 - Analytics for Decision Support
- EMIS 7362 - Production Systems Engineering
- EMIS 8360 - Operations Research Models

## In-Depth Courses

Satisfactory completion of three of the following in-depth courses:

- EMIS 7331 - Data Mining
- EMIS 7361 - Computer Simulation Techniques
- EMIS 7373 - Supply Chain Operation and Control
- EMIS 8331 - Advanced Data Mining

- EMIS 8361 - Engineering Economics and Decision Analysis
- EMIS 8370 - Stochastic Models
- EMIS 8371 - Linear Programming
- EMIS 8372/STAT 6372 - Queuing Theory
- EMIS 8373 - Integer Programming
- EMIS 8374 - Network Flows
- EMIS 8378 - Optimization Models for Decision Support
- EMIS 8380 - Mathematics for Optimization
- EMIS 8381 - Nonlinear Programming
- EMIS 8383 - Advanced Logistics Networks

### **Concentration Courses**

Satisfactory completion of a nine-credit-hour concentration. These concentration courses must be from the same area and must be approved by the adviser. Acceptable areas are optimization, systems engineering, engineering management, information engineering, computer science, mathematics, statistics, telecommunications or another engineering discipline. Sample concentration areas (with suggested courses) are

#### **Optimization**

- EMIS 8371 - Linear Programming
- EMIS 8373 - Integer Programming
- EMIS 8374 - Network Flows
- EMIS 8378 - Optimization Models for Decision Support
- EMIS 8380 - Mathematics for Optimization
- EMIS 8381 - Nonlinear Programming

#### **Systems Engineering**

- EMIS 7300 - Systems Analysis Methods
- EMIS 7301 - Systems Engineering Process
- EMIS 7303 - Integrated Risk Management
- EMIS 7305 - Systems Reliability and Availability Analysis
- EMIS 7307 - Systems Integration and Test

#### **Engineering Management**

- EMIS 7360 - Management of Information Technologies
- EMIS 8361 - Engineering Economics and Decision Analysis
- EMIS 8362 - Engineering Accounting
- EMIS 8363 - Engineering Finance
- EMIS 8364 - Engineering Management

#### **Information Engineering**

- EMIS 7351 - Enterprise Fundamentals
- EMIS 7352 - Information Systems Architecture
- EMIS 7353 - Information System Design Strategies
- EMIS 7360 - Management of Information Technologies

## **Systems Engineering, M.S.**

A more general definition of systems engineering by the International Council on Systems Engineering (INCOSE) is: "Systems Engineering is an interdisciplinary approach and means to enable the realization of successful systems. It focuses on defining customer needs and required functionality early in the development cycle, documenting requirements, then proceeding with design synthesis and system validation while considering the complete problem: Operations, Performance, Test, Manufacturing, Cost & Schedule, Training & Support and Disposal. Systems engineering integrates all the disciplines and specialty groups into a team effort forming a structured development process that proceeds from concept to production to operation. Systems engineering considers both the business and the technical needs of all customers with the goal of providing a quality product that meets the user needs."

In alignment with the above definition, the goal of systems engineering is the development and management of systems (products and services) that satisfy customer requirements considering engineering, technology, environmental, management, risk and economic factors by viewing the system as a whole during its life cycle. Systems engineering is also the practice of "good engineering." Through systems engineering and related courses, the student gains a foundation in systems engineering plus exposure to a variety of topics such as reliability, quality, logistics/supply networks, operations research, engineering management, software engineering, telecommunications and environmental engineering. "Systems thinking" skills are developed, and these skills foster more effective practice for the engineer or engineering manager within the business enterprise. The systems engineering program's objective is to make the student a better engineer and manager by imparting an enhanced understanding of the impact of engineering decisions.

The program has been developed in response to the growing need by industry and government for engineers who are not only specialists in a particular area, but who also have a systems perspective in order to more effectively practice engineering and manage within the business enterprise. The program offers flexibility for 1) systems engineers who are entering the field, updating skills or acquiring new skills, 2) engineers who need to acquire a broadening of their technical and management education from a systems perspective, 3) engineers with upper-level management aspirations and 4) engineering students seeking to increase their market value by acquiring knowledge and skills necessary for the engineering of products and services from a systems perspective.

The systems engineering program is designed to build on engineering/technical education and experience while developing problem definition and problem-solving skills.

## **Admission Requirements**

In addition to meeting the Lyle School of Engineering admission requirements for an M.S. degree, applicants are required to satisfy the following additional requirements:

1. A B.S. in engineering, mathematics or one of the quantitative sciences. (A B.S. in an appropriate engineering discipline is required for the systems engineering and design track.)
2. A minimum of two years of college-level mathematics, including at least one year of calculus.

## **Degree Requirements**

In addition to meeting the Lyle School of Engineering degree requirements for an M.S. degree, candidates are required to satisfy the following additional requirements:

## **Courses**

Satisfactory completion of the following courses:

- EMIS 7300 - Systems Analysis Methods  
or
- EMIS 7370 - Probability and Statistics for Scientists and Engineers  
or
- EMIS 8360 - Operations Research Models
  
- EMIS 7301 - Systems Engineering Process
- EMIS 7303 - Integrated Risk Management

- EMIS 7305 - Systems Reliability and Availability Analysis
- EMIS 7307 - Systems Integration and Test
- EMIS 7309 - Systems Reliability Engineering
- EMIS 7311 - Systems Engineering Design

## Tracks

Satisfactory completion of one of the following tracks:

### On-Campus/Distance Education Track

Satisfactory completion of any three of the following courses:

- EMIS 7313 - Integrated Logistics Support (ILS)
- EMIS 7315 - Systems Quality Engineering
- EMIS 7317 - Systems Engineering Leadership
- *Or other elective courses from Systems Engineering, Engineering Management, Operations Research, or Computer Science as approved by the Systems Engineering Program Director.*

### Cohort Track

Satisfactory completion of any three of the following courses:

- EMIS 7313 - Integrated Logistics Support
- EMIS 7315 - Systems Quality Engineering
- EMIS 7317 - Systems Engineering Leadership
- EMIS 7319 - Systems Architecture Development
- EMIS 7321 - Systems Engineering Planning and Management
- EMIS 7323 - Systems Life Cycle Cost and Affordability Analysis
- EMIS 7325 - Systems Engineering Software Tools
- *Or other elective courses from Systems Engineering, Engineering Management, Operations Research, or Computer Science as approved by the Systems Engineering Program Director and management from the student's organization.*

## Operations Research/Master of Business Administration, M.S./M.B.A.

### Joint Master of Science in Engineering/Master of Business Administration Program

#### Overview

The Bobby B. Lyle School of Engineering and the Edwin L. Cox School of Business offer a two-year, dual-degree in Master of Science in Engineering (with one of the specific degrees listed above) and Master of Business Administration, with as few as 68 semester credit hours. The program is intended for full-time graduate students with Bachelor degrees in engineering or science. The program is offered on-campus although some of the engineering courses may be taken by means of the Lyle School's distance learning facilities. This program is geared toward recent graduates as well as early-career professionals employed in the engineering and technology sector who desire to broaden and deepen their skills to further their career opportunities and become leaders in technology with the appropriate business and management acumen.

This program takes advantage of the 44-credit hour Fast Track MBA degree offered by Cox School and double-counts up to 6 credit hours of MBA courses as electives in the 30-credit hour MS Engineering degree programs making it possible to obtain two degrees with a total of 68 semester credit hours (24 credit hours of engineering and 44 credit

hours in MBA program). As an example, students first complete the 24 credit hour of required courses for the specific MS engineering degree sought during the fall and spring semesters of the first year. Students then start the year-long Fast Track MBA (starting with the summer term and continuing in the fall and spring terms) completing both degrees at the end of the second academic year.

At the conclusion of the dual degree program, students obtain a MS in the specific engineering degree and the MBA.

The overall educational objective of the joint MS-MBA program is to impart the necessary breadth and depth in business and in technology for those individuals preparing for leadership roles in technology firms. The program provides a reduction of 6 credit hours from the total credits that would be required for a student earning the two degrees separately (one of the MS engineering degrees listed at the title page and the Fast Track MBA) and reduces the time to complete both degrees to 2 years, including a summer semester.

## **Admission Requirements**

The applicants must meet both Lyle School of Engineering admission requirements (general School requirements and program admission requirements) for the specific Lyle Master of Science degree and Cox School of Business Fast Track MBA requirements. See admission requirements in each School program section for details. Applicants must submit separate applications to the Lyle and Cox programs.

## **Curriculum Example**

The general course of study for the joint program follows:

### **Fall Term (Lyle School)**

- Engineering core/elective (3 Credit Hours)

Term Total: 12 Credit Hours

### **Spring Term (Lyle School)**

- Engineering core/elective (3 Credit Hours)

Term Total: 12 Credit Hours

**Total Engineering: 24 Credit Hours**

### **Summer Term (Cox School)**

#### **Module A Courses**

- ACCT 6201 - Financial Accounting I
- FINA 6201 - Managerial Finance
- ITOM 6202 - Management Decision Analysis

#### **Module B Courses**

- MAST 6201 - Managerial Statistics
- MKTG 6201 - Marketing Management
- MNGT 6001 - Managing Your Career

- Elective: one course (2 Credit Hours)

Term Total: 12 Credit Hours

### Fall Term (Cox School)

#### Module A Courses

- ITOM 6203 - Operations Management
- MNGT 6003 - Business Presentation Techniques
- STRA 6201 - Strategic Management
- Elective: two courses (4 Credit Hours)

#### Module B Courses

- ACCT second required accounting (2 Credit Hours)
- BUSE 6202 - Managerial Economics
- MNO 6201 - Organizational Behavior: Managing and Leading People
- Elective: one course (2 Credit Hours)

Term Total: 16 Credit Hours

### Spring Term (Cox School)

#### Module A Courses

- Elective: four courses (8 Credit Hours)

#### Module B Courses

- Elective: four courses (8 Credit Hours)

Term Total: 16 Credit Hours

Total MBA: 44 Credit Hours

Total for Joint MS-MBA: 68 Credit Hours

## **Engineering Management, Information and Systems Courses**

### **EMIS 7049 - Master's Full-Time Status**

*Credits: 0*

Full-time status for students in the master's program.

### **EMIS 7300 - Systems Analysis Methods**

*Credits: 3*

Introduction to modeling and analysis concepts, methods and techniques used in systems engineering, design of products and associated production, and logistics systems and analysis of operational system performance. Specific topics include probabilistic and statistical methods, Monte Carlo simulation, optimization techniques, applications of utility and game theory, and decision analysis. EMIS 7300 cannot be used to fulfill degree requirements for the Bachelor of Science in Management Science.

### **EMIS 7301 - Systems Engineering Process**

*Credits: 3*

Examines the discipline, theory, economics, and methodology of systems engineering. Reviews the historical evolution

of the practice of systems engineering and the principles that underpin modern systems methods. Emphasizes the economic benefits of investment in systems engineering and the risks of failure to adhere to sound principles. Develops an overview perspective distinct from the traditional design- and analytical-specific disciplines.

### **EMIS 7303 - Integrated Risk Management**

*Credits: 3*

An introduction to risk management based upon integrated trade studies of program performance, cost, and schedule requirements. Topics include risk planning, risk identification and assessment, risk handling and abatement techniques, risk impact analysis, management of risk handling and abatement, and subcontractor risk management. Examines integrated risk management methods, procedures, and tools.

### **EMIS 7305 - Systems Reliability and Availability Analysis**

*Credits: 3*

Reliability and availability modeling and analysis methods are applied to perform cost-effectiveness analysis during development of aerospace and defense systems, as well other types of systems. Topics include systems reliability and availability models and analysis methods; requirements analysis to determine fleet size; system effectiveness and life cycle cost analysis methods; and analysis of systems mission reliability, sustainment reliability and systems availability, both inherent and operational, during design and development of a product and associated support system. Prerequisite: EMIS 3361 or EMIS 7300 or EMIS 7370 or EMIS 8360.

### **EMIS 7307 - Systems Integration and Test**

*Credits: 3*

The process of successively synthesizing and validating larger and larger segments of a partitioned system within a controlled and instrumented framework is examined. System integration and test is the structured process of building a complete system from its individual elements and is the final step in the development of a fully functional system. The significance of structuring and controlling integration and test activities is stressed. Formal methodologies for describing and measuring test coverage, as well as sufficiency and logical closure for test completeness, are presented. Interactions with system modeling techniques and risk management techniques are discussed. The subject material is based upon principles of specific engineering disciplines and best practices, which form a comprehensive basis for organizing, analyzing, and conducting integration and test activities.

### **EMIS 7309 - Systems Reliability Engineering**

*Credits: 3*

An in-depth coverage of processes, tasks, methods, and techniques for achieving and maintaining the required level of system reliability considering operational performance, customer needs, and affordability. Topics include establishing systems reliability requirements, reliability program planning, system reliability modeling and analysis, system reliability design guidelines and analysis, system reliability test and evaluation, and maintaining inherent system reliability during production and operation. Prerequisite: EMIS 7305.

### **EMIS 7311 - Systems Engineering Design**

*Credits: 3*

An introduction to system design of complex hardware and software systems. Includes design concept, design characterization, design elements, reviews, verification and validation, threads and incremental design, unknowns, performance, management of design, design metrics and teams. Centers on the development of real-world examples. Prerequisite: EMIS 7301.

### **EMIS 7313 - Integrated Logistics Support**

*Credits: 3*

Integrated Logistics Support is an integrated and iterative process to (1) influence product design for supportability and (2) design and develop the support (logistics) system concurrently with design and development of the product as an integral element of the systems engineering process. Topics include product design interface for reliability; maintainability and maintenance (i.e.: preventive, predictive and corrective) planning; and support system development

consisting of supply support, support and test equipment, manpower and personnel, training and training support, technical data/publications, computer resources support, facilities; and packaging, handling, storage, and transportation (PHS&T). Prerequisites: EMIS 7305 and EMIS 7311.

### **EMIS 7315 - Systems Quality Engineering**

*Credits: 3*

An introduction to concepts, activities, processes, and methods as an integral part of the systems engineering process for developing, producing, and sustaining products that meet customer quality needs. Topics include establishing program and product quality requirements and methods for achieving product quality requirements during design, development and production, voice of the customer analysis, analysis of product design tolerances, six-sigma techniques, statistical analysis of process capability, statistical process control using control charts, acceptance sampling, and quality improvement. Prerequisite: EMIS 7301.

### **EMIS 7317 - Systems Engineering Leadership**

*Credits: 3*

Augments the management principles embedded in the systems engineering process with process design and leadership principles and practices. Emphasis is placed on leadership principles by introducing the underlying behavioral science components, theories and models. Demonstrates how the elements of systems engineering, project management, process design, and leadership integrate into an effective leadership system. Prerequisite: EMIS 7301.

### **EMIS 7319 - Systems Architecture Development**

*Credits: 3*

A design-based methodological approach to system architecture development using emerging and current enterprise architecture frameworks. Topics include structured analysis and object-oriented analysis and design approaches; enterprise architecture frameworks, including the Zachman framework, FEAF, DoDAF, and ANSI/IEEE-1471; executable architecture model approaches as tools for system-level performance evaluation and tradeoff analyses; case studies in enterprise architecture development; and the integration of architecture design processes into the larger engineering-of-systems environment. Prerequisites: EMIS 7311 and EMIS 7313.

### **EMIS 7321 - Systems Engineering Planning and Management**

*Credits: 3*

Provides a practical coverage of tasks, processes, methods, and techniques to establish the process of systems engineering and its role in the planning and management of programs. Explores the program manager's and systems engineer's tasks and roles for establishing program operations and a communications framework. Presents techniques for developing an integrated program and/or project plan by defining the role of the systems integrator and identifying useful tools for planning and managing systems integration of various sized projects. The student learns to prepare for and successfully complete key program milestone reviews by identifying essential material content and providing the design basis. Examines the systems development process by showing ways to plan for and manage change by implementing methods for configuration, change, and risk management. Also, how the program life cycle is concluded by planning the transition of systems engineering processes from development to production and field support. Prerequisites: EMIS 7301, EMIS 7311, EMIS 7313.

### **EMIS 7323 - Systems Life Cycle Cost and Affordability Analysis**

*Credits: 3*

Provides an understanding of Systems affordability concepts and the life cycle cost process. Examines the importance of using these concepts in optimizing engineering/business decisions, with emphasis being placed on the evaluation of alternatives, weighing costs, risks, reliability, maintainability, supportability, weight, performance, and other benefit/risk parameters. Topics include total ownership cost, estimating methods and techniques, cost analysis process, system trade studies, sensitivity analysis, risk analysis and simulation, and system cost effectiveness. Prerequisites: EMIS 7301, EMIS 7311, EMIS 7313.

## **EMIS 7325 - Systems Engineering Software Tools**

*Credits: 3*

Computerized tools perform the vital function of capturing and delivering Systems Engineering information throughout the product development life cycle. This course surveys the many tools, methods, and techniques that are applied to engineering systems from inception to disposal: scope/needs evaluation, requirements analysis, functional and physical allocation, optimization, test validation/verification, and product management. Hands-on use of systems engineering software will enable students to identify and apply appropriate tools through the life cycle of a product they develop. Prerequisites: EMIS 7301, EMIS 7311, and EMIS 7313.

## **EMIS 7330 - File Organization and Database Management**

*Credits: 3*

A survey of current database approaches and systems, and the principles of design and use of these systems. Covers query language design and implementation constraints, and applications of large databases. Includes a survey of file structures and access techniques. Also, the use of a relational database management system to implement a database design project. Prerequisite: CS 2341.

## **EMIS 7331 - Data Mining**

*Credits: 3*

Introduces data mining techniques (classification, association analysis, and cluster analysis) used in analytics. All material covered is reinforced through hands-on experience using state-of-the art tools to design and execute data mining processes. Prerequisites: CS 1342 or equivalent, CS 4340/EMIS 3340/STAT 4340, or CS 7370/EMIS 7370.

## **EMIS 7350 - Algorithm Engineering**

*Credits: 3*

Covers algorithm design techniques; methods for evaluating algorithm efficiency; data structure specification and implementation; and applications to fundamental computational problems in sorting and selection, graphs and networks, scheduling and combinatorial optimization, computational geometry, and arithmetic and matrix computation. Also, introduction to parallel algorithms and to computational complexity and a survey of NP-complete problems. Prerequisites: CS 2341, CS 3353 (for non-CS graduate students: CS 2341).

## **EMIS 7351 - Enterprise Fundamentals**

*Credits: 3*

An overview of business fundamentals, spanning the range of all functional areas: management, marketing, operations, accounting, information systems, finance, and legal studies.

## **EMIS 7352 - Information Systems Architecture**

*Credits: 3*

The architecture of an information system (IS) defines that system in terms of components and interactions among those components. This course addresses IS hardware and communications elements for information engineers, including computer networking and distributed computing. It addresses the principles, foundation technologies, standards, trends, and current practices in developing an appropriate architecture for Web-based and non-Internet information systems.

## **EMIS 7353 - Information System Design Strategies**

*Credits: 3*

Surveys the fundamentals of software engineering and database management systems for information engineers. Covers the principles, foundation technologies, standards, trends, and current practices in data-centric software engineering and systems design, including object-oriented approaches and relational DBMS. Focuses on system design, development, and implementation aspects, and not the implementation in code.

### **EMIS 7355 - Engineering Operations**

*Credits: 3*

The management of a technical organization's operations can contribute to the strategic goals and objectives of the enterprise. By analyzing and managing operations such as systems, strategic choices are shown to drive design and operating decisions. The course covers the tools and techniques for solving problems to achieve the overall goals and strategies of manufacturing and services organizations.

### **EMIS 7356 - Decision Analysis for Engineers**

*Credits: 3*

Focuses on the study and application of different methodologies to support managerial decision-making. Introduces concepts from decision analysis, game theory, and systems management. Emphasizes the analysis of complex decision problems, involving uncertainty, risk, multiple objectives, and/or multiple stakeholders. Prerequisites: Knowledge of introductory probability and statistics; EMIS 7370 or EMIS 7370 or STAT 4341; Lyle graduate students only.

### **EMIS 7357 - Analytics for Decision Support**

*Credits: 3*

In a rapidly changing, complex environment, successful enterprises make mission-critical choices using decision-support systems, which apply analytical methods to massive organizational data sets to evaluate options, give insight to likely outcomes, and make recommendations of the "best" decisions to pursue. Course topics include 1) framing and understanding decision-making needs and processes to define, evaluate, and identify appropriate strategic, operational, or execution-level decisions; 2) identifying, collecting, and managing large-scale data needed for decision support; and 3) employing decision-support software in areas such as optimization and data mining.

### **EMIS 7359 - Information Engineering Seminar**

*Credits: 3*

Topics in management of information in specific industries or application areas. May be repeated for credit when the topics vary. Prerequisite: EMIS 7360.

### **EMIS 7360 - Management of Information Technologies**

*Credits: 3*

Defines the management activities of the overall computer resources within an organization or government entity. Consists of current topics in strategic planning of computer resources, budgeting and fiscal controls, design and development of information systems, personnel management, project management, rapid prototyping, and system life cycles.

### **EMIS 7361 - Computer Simulation Techniques**

*Credits: 3*

Introduction to the design and analysis of discrete probabilistic systems using simulation. Emphasizes model construction and a simulation language. Prerequisites: Programming ability, introduction to probability or statistics.

### **EMIS 7362 - Production Systems Engineering**

*Credits: 3*

Applies the principles of engineering, or "design under constraint," to modern production and service systems. Topics include production and service systems analysis and design considerations, system design and optimization models and methods, pull- and push-based production systems, quality engineering, process improvement, and facilities layout and design. Prerequisite: EMIS 7300 or EMIS 7357 or EMIS 8360. Credit is not allowed for both EMIS 3362 and EMIS 7362.

### **EMIS 7363 - Applied Parallel Programming**

*Credits: 3*

Surveys the theory and emphasizes the practice of developing efficient applications software for parallel computers.

Topics include a survey of parallel processing architectures and machines, elements of parallel programming (process creation, synchronization, communication, and scheduling), alternative parallel programming schemes (languages and language enhancements), and implementation of scientific and industrial applications. Prerequisite: FORTRAN or C programming.

### **EMIS 7365 - Program and Project Management**

*Credits: 3*

Development of principles and practical strategies for managing projects and programs of related projects for achieving broad goals. Topics include planning, organizing, scheduling, resource allocation, strategies, risk management, quality, communications, tools, and leadership for projects and programs.

### **EMIS 7366 - Marketing Engineering**

*Credits: 3*

Marketing engineering moves beyond traditional conceptual approaches to embrace the use of analytics, data, information technology, and decision models to help organizations effectively reach customers and make marketing decisions. Designed for technical individuals, the course applies engineering problem-solving approaches and computer tools to solve marketing problems from today's competitive work environment.

### **EMIS 7370 - Probability and Statistics for Scientists and Engineers**

*Credits: 3*

An introduction to fundamentals of probability, probability distributions, and statistical techniques used by engineers and physical scientists. Topics include basic concepts and rules of probability, random variables, probability distributions, expectation and variance, sampling and sampling distributions, statistical analysis techniques, statistical inference estimation and tests of hypothesis, correlation and regression, and analysis of variance. Prerequisite: Knowledge of calculus required.

### **EMIS 7373 - Supply Chain Operation and Control**

*Credits: 3*

Quantitative models and approaches for operating and managing modern supply chain systems and practices with an emphasis on capacity management, production/supply planning, inventory control, distribution, and pricing applications. Prerequisites: EMIS 7370 and EMIS 8360.

### **EMIS 7377 - Statistical Design and Analysis of Experiments**

*Credits: 3*

Introduction to statistical principles in the design and analysis of industrial experiments. Completely randomized, randomized complete and incomplete block, Latin square, and Plackett-Burman screening designs. Complete and fractional experiments. Descriptive and inferential statistics. Analysis of variance models. Mean comparisons. Prerequisites: EMIS 3340 or EMIS 7370 with a science or engineering major, or permission of instructor.

### **EMIS 7380 - Managing Information Technology Controls**

*Credits: 3*

Surveys current practices in IT governance and controls, with approaches for balancing business needs with technology controls for high-risk processes. Major topic areas include introduction to technology controls, the process of IT governance, systems and infrastructure life cycle management, IT delivery and support, and records management. Prerequisite: EMIS 7360.

### **EMIS 7382 - Information Technology Security and Risk Management**

*Credits: 3*

A course for nontechnical managers and executives with decision-making responsibility in information security governance and risk management. Topics include information security organizations and policies, governance, program

development and management, information risk management, legal and regulatory compliance, and business continuity planning.

### **EMIS 7390 - Special Topics**

*Credits: 3*

Individual or group study of selected topics in engineering management, operations research, and/or systems engineering. Topics must be approved by the department chair and the instructor.

### **EMIS 7396 - Master's Thesis**

*Credits: 3*

Students may need to register in several master's thesis courses to obtain the desired number of credit hours, with a limit of no more than 6 credit hours in a single term and no more than 4 credit hours in the summer terms.

### **EMIS 7501 - Technology Commercialization Studio I**

*Credits: 5*

Topics essential to the commercialization of new technology and the management of products with high technology content including customer discovery, product definition and requirements, development strategies, manufacturing strategies, sales and marketing, costing and pricing, product planning and capturing the right "design win". Pedagogy will include lectures and discussions led by experts in intellectual property, legal aspects of businesses, ethics, financing, fundraising, sales and other capacities vital to the practice of engineering entrepreneurship; case studies; and an experiential learning project in technology commercialization undertaken across two semesters.

### **EMIS 7503 - Technology Commercialization Studio II**

*Credits: 5*

Topics essential to the commercialization of new technology and the management of products with high technology content including customer discovery, product definition and requirements, development strategies, manufacturing strategies, sales and marketing, costing and pricing, product planning and capturing the right "design win". Pedagogy will include lectures and discussions led by experts in intellectual property, legal aspects of businesses, ethics, financing, fundraising, sales and other capacities vital to the practice of engineering entrepreneurship; case studies; and an experiential learning project in technology commercialization undertaken across two semesters.

### **EMIS 8049 - Full-Time Status**

*Credits: 0*

Graduate full-time status.

### **EMIS 8096 - Dissertation**

*Credits: 0*

Students may need to register in several dissertation courses to obtain the desired number of dissertation credit hours, with a limit of no more than 15 credit hours in a single term and no more than 10 credit hours in the summer terms. For example, EMIS 8396 and EMIS 8996 (12 credit hours total) would be allowed during a fall term.

### **EMIS 8190 - Special Topics**

*Credits: 1*

Individual or group study of selected topics in operations research, engineering management, systems engineering or information engineering. Prerequisite: Permission of instructor.

### **EMIS 8196 - Dissertation**

*Credits: 1*

Students may need to register in several dissertation courses to obtain the desired number of dissertation credit hours, with a limit of no more than 15 credit hours in a single term and no more than 10 credit hours in the summer terms. For example, EMIS 8396 and EMIS 8996 (12 credit hours total) would be allowed during a fall term.

### **EMIS 8296 - Dissertation**

*Credits: 2*

Students may need to register in several dissertation courses to obtain the desired number of dissertation credit hours, with a limit of no more than 15 credit hours in a single term and no more than 10 credit hours in the summer terms. For example, EMIS 8396 and EMIS 8996 (12 credit hours total) would be allowed during a fall term.

### **EMIS 8330 - Advanced Database Management Systems**

*Credits: 3*

An extensive investigation of distributed databases and implementation issues. Included are design, data replication, concurrency control, and recovery. Implementation project included. Prerequisite: EMIS 7330.

### **EMIS 8331 - Advanced Data Mining**

*Credits: 3*

Provides a review of several data mining topics and an in-depth technical discussion of advanced data mining techniques. Examines research methods applied in the field. Prerequisite: EMIS 7331.

### **EMIS 8337 - Information Retrieval**

*Credits: 3*

Examination of techniques used to store and retrieve unformatted/textual data. Examination of current research topics of data mining, data warehousing, digital libraries, hypertext, and multimedia data. Prerequisite: EMIS 7330.

### **EMIS 8350 - Algorithms II**

*Credits: 3*

Analysis of dynamic data structures, lower bound theory, problem equivalence and reducibility, complexity theory, probabilistic algorithms, machine models of sequential and parallel computation, parallel algorithms. Prerequisite: EMIS 7350.

### **EMIS 8355 - Graph Theory**

*Credits: 3*

Development of algorithmic and computational aspects of graph theory, with application of concepts and techniques to solving problems of connectivity, set covering, scheduling, shortest paths, traveling salesmen, network flow, matching, and assignment. Prerequisite: EMIS 7350 or permission of instructor.

### **EMIS 8356 - Global Perspectives for Information Engineering**

*Credits: 3*

Examines global and information aspects of technology-based and information-based companies. Includes modern business processes, the strategic use of information technology, and integration of global information resources for competitive advantage. Prerequisite: EMIS 7360.

### **EMIS 8358 - Technical Entrepreneurship**

*Credits: 3*

Development of principles and practical strategies for the management and evolution of rapidly growing technical endeavors. Topics include entrepreneurship, intrapreneurship, strategic planning, finance, marketing sales, operations, research and development, manufacturing, and management of technology-based companies. Management teams are formed, and ventures are selected and simulated over an extended period of time. Extensive student presentations and reports are required. Credit will not be given for both CS 4360 and EMIS 8358. Prerequisite: Permission of instructor.

### **EMIS 8360 - Operations Research Models**

*Credits: 3*

A survey of models and methods of operations research. Deterministic and stochastic models in a variety of areas will

be covered. Credit is not allowed for both EMIS 3360 and EMIS 8360. Prerequisites: A knowledge of linear algebra and an introduction to probability and statistics.

### **EMIS 8361 - Engineering Economics and Decision Analysis**

*Credits: 3*

Introduction to economic analysis methodology. Topics include engineering economy and cost concepts, interest formulas and equivalence, economic analysis of alternatives, technical rate-of-return analysis, and economic analysis under risk and uncertainty. Credit not allowed for both EMIS 2360 and EMIS 8361. Prerequisite: Knowledge of introductory probability and statistics.

### **EMIS 8362 - Engineering Accounting**

*Credits: 3*

An introduction to and overview of financial and managerial accounting for engineering management. Topics include basic accounting concepts and terminology; preparation and interpretation of financial statements; and uses of accounting information for planning, budgeting, decision-making, control, and quality improvement. The focus is on concepts and applications in industry today.

### **EMIS 8363 - Engineering Finance**

*Credits: 3*

Develops an understanding of corporate financial decisions for engineers. Topics include cost of capital, capital budgeting, capital structure theory and policy, working capital management, financial analysis and planning, and multinational finance. Prerequisite: EMIS 8361 or a knowledge of time value of money.

### **EMIS 8364 - Engineering Management**

*Credits: 3*

Ways to manage technology and technical functions from a pragmatic point of view, to keep from becoming technically obsolete as an individual contributor, and to keep the corporation technically astute. Explores the management of technology from three distinct viewpoints: 1) the management of technology from both an individual and a corporate perspective, 2) the management of technical functions and projects, and 3) the management of technical professionals within the organization. Prerequisite: Graduate standing in engineering.

### **EMIS 8368 - Enterprise Leadership**

*Credits: 3*

The ways companies link strategy and action at the enterprise level: shaping and leveraging the work performed by the multifirm enterprises that jointly produce added value for customers, while building and retaining competencies critical for competitive advantage.

### **EMIS 8370 - Stochastic Models**

*Credits: 3*

Model building with stochastic processes in applied sciences. Phenomena with uncertain outcomes are formulated as stochastic models and their properties are analyzed. Specific problems come from areas such as population growth, queueing, reliability, time series, and social and behavioral processes. Statistical properties of the models are emphasized. Prerequisites: STAT 6311 and graduate standing.

### **EMIS 8371 - Linear Programming**

*Credits: 3*

A complete development of theoretical and computational aspects of linear programming. Prerequisite: Knowledge of linear algebra.

### **EMIS 8372 - Queuing Theory**

*Credits: 3*

Queuing theory provides the theoretical basis for the analysis of a wide variety of stochastic service systems. The underlying stochastic processes are Markov and renewal processes. Covers the fundamentals of stochastic processes necessary to analyze such systems and provides the basics of formulation and analysis of queuing models, with emphasis on their performance characteristics. Prerequisite: EMIS 7370 or permission of instructor.

### **EMIS 8373 - Integer Programming**

*Credits: 3*

A presentation of algorithms for linear integer programming problems. Topics include complexity analysis, cutting plane techniques, and branch-and-bound. Prerequisite: EMIS 8360 or EMIS 8371.

### **EMIS 8374 - Network Flows**

*Credits: 3*

A presentation of optimization algorithms and applications modeling techniques for network flow problems. Topics include pure, generalized, integer, and constrained network problems, plus special cases of each, including transportation, assignment, shortest-path, transshipment, multicommodity, and nonlinear networks. Case studies illustrate the uses of network models in industry and government settings.

### **EMIS 8378 - Optimization Models for Decision Support**

*Credits: 3*

Study of the design and implementation of decision support systems based on optimization models. Course objectives: development of modeling skills, practice in the application of operations research techniques, experience with state-of-the-art software, and the study of decision support systems design and management. Topics include linear, integer, network, nonlinear, multi-objective, and stochastic optimization models for manufacturing, logistics, telecommunications, service operation, and public sector applications.

### **EMIS 8380 - Mathematics for Optimization**

*Credits: 3*

The purpose of this course is to present at a high level of mathematical rigor the background topics that are necessary for a good understanding of the theoretical underpinnings of optimization. Many of these topics are traditionally higher-level linear algebra topics that are not present in undergraduate and most basic graduate linear algebra courses. Traditional supporting material covering real-valued functions in multidimensional space receive a thorough review. Theoretical material supporting linear programming and nonlinear programming will be presented. MATLAB will be used for examples and projects. Homework will consist primarily of the construction of proofs.

### **EMIS 8381 - Nonlinear Programming**

*Credits: 3*

Topics include convexity analysis, nonlinear duality theory, Kuhn-Tucker conditions, algorithms for quadratic programming, separable programming: gradient and penalty methods. Prerequisite: EMIS 8371.

### **EMIS 8382 - Theory of Optimization**

*Credits: 3*

Lagrange multiplier theory, fixed-point representations. Duality/convex analysis/subgradient relationship. Prerequisite: EMIS 8371.

### **EMIS 8383 - Advanced Logistics Networks**

*Credits: 3*

An advanced course focusing on several topics in logistics with a network design perspective. Topics include facility location-allocation, production/distribution system design, multi-commodity flow network design, vehicle routing, location/routing, and inventory lot-sizing models. The emphasis will be on mathematical modeling, analysis, and

efficient solution methodologies. A good background in optimization (linear and integer programming) and some programming experience with C++ are very beneficial. Prerequisites: EMIS 8373 and EMIS 8374 or equivalent background.

### **EMIS 8384 - Stochastic Programming**

*Credits: 3*

Stochastic programming (SP) is a systematic framework for modeling and finding optimal decisions for optimization problems that involve uncertain data. This course introduces the main themes and methodologies in SP in both two-stage and multistage settings. The main topics include: SP models, optimality and bounds in SP, and computational solution methods including sampling methods. A course project involves implementation in C/C++. Prerequisites: EMIS 8370 (or equivalent) and EMIS 8371 (or equivalent).

### **EMIS 8390 - Graduate Seminar**

*Credits: 3*

Special and intensive study of selected topics in operations research, engineering management, systems engineering, and information engineering. Varies by topic and instructor.

### **EMIS 8393 - Graduate Seminar**

*Credits: 3*

Special and intensive study of selected topics in operations research, engineering management, systems engineering, or information engineering, aimed at encouraging students to follow recent developments through regular critical reading of the literature.

### **EMIS 8394 - Selected Problems**

*Credits: 3*

Independent investigation of topics in operations research, engineering management, systems engineering, and information engineering approved by the department chair and by the major professor. Prerequisite: 12 credit hours, graduate level.

### **EMIS 8395 - Selected Problems**

*Credits: 3*

Independent investigation of topics in operations research, engineering management, systems engineering, and information engineering approved by the department chair and by the major professor. Prerequisite: 12 credit hours, graduate level.

### **EMIS 8396 - Dissertation**

*Credits: 3*

Students may need to register in several dissertation courses to obtain the desired number of dissertation credit hours, with a limit of no more than 15 credit hours in a single term and no more than 10 credit hours in the summer terms.

### **EMIS 8696 - Dissertation**

*Credits: 6*

Students may need to register in several dissertation courses to obtain the desired number of dissertation credit hours, with a limit of no more than 15 credit hours in a single term and no more than 10 credit hours in the summer terms.

### **EMIS 8996 - Dissertation**

*Credits: 9*

Students may need to register in several dissertation courses to obtain the desired number of dissertation credit hours, with a limit of no more than 15 credit hours in a single term and no more than 10 credit hours in the summer terms.

# Mechanical Engineering

**Professor** Paul S. Krueger, **Chair**

**Professors:** Ali Beşkök, Xin-Lin Gao, Yildirim Hürmüzlü, MinJun Kim, Radovan B. Kovacevic, Paul S. Krueger, José L. Lage, M. Volkan Otugen, Peter E. Raad, Wei Tong

**Associate Professors:** Charles M. Lovas, Edmond Richer, David A. Willis

**Assistant Professors:** Ali Heydari, Xu Nie

**Senior Lecturers:** Elena V. Borzova

**Clinical Assistant Professor:** Sheila Williams

**Professor of Practice:** Steven Lerner, James R. Webb

**Adjunct Faculty:** Bogdan V. Antohe, Eric B. Cluff, Levent Kaan, M. Wade Meaders, Dona T. Mularkey, David J. Nowacki, Greg Radighieri, Michael Savoie, Peter Sorenson, Allen D. Tilley, Andrew K. Weaver

## General Information

### Department Facilities

The mission of the Lyle School of Engineering laboratories is to support high-quality practical research and technological innovations.

The **Additive Manufacturing, Robotics and Automation Laboratory** is engaged in research sponsored by the National Science Foundation's National Robotics Initiative. It is dedicated to the development of advanced, multimaterial 3-D printing technology as applied to the manufacturing of soft robotic components. Other contemplated research areas include robotic technologies for minimally invasive medical procedures and automated construction systems.

The **Biological Actuation, Sensing and Transport Laboratory** is developing biologically-inspired nano/micro-scale robotic systems for minimally invasive surgery and particulate drug delivery as well as solid-state nano-pore systems for single molecule analysis. This is an interdisciplinary experimental group working on three core subject areas: nano/microbio-robotics, transport phenomena, and single molecule biophysics. Although each core program consists of a distinct project, we would like to emphasize their synergistic nature - advances in one core are expected to drive the development of the others. The unifying component of all the cores is "nanoscale engineering."

The **Biomedical Instrumentation and Robotics Laboratory** supports research activities that promote strong interdisciplinary collaboration between several branches of engineering and biomedical sciences. The research interests are centered on (1) Medical robotics, especially novel robotic applications in minimally invasive, natural orifice, and image-guided and haptic-assisted surgery; and (2) in vivo measurements of mechanical properties of biological tissues. These areas of concentration touch upon fundamentals in analytical dynamics, nonlinear control of mechanical systems, computer-aided design and virtual prototyping, applied mathematics, data acquisition, signal processing, and high-performance actuators.

The **Bio-Microfluidics Laboratory** concentrates on designing, building and testing microfluidic devices for biomedical applications. Research also includes numerical modeling of mass momentum and energy transport in micro and nano-scales using continuum and atomistic simulation methods.

The **Cyber Physical Systems Laboratory** investigates novel algorithms for control, automation, fault detection, and security of systems involving cybernetics and dynamics. Theoretical development as well as applied research on applications of the theory in robotics, aerospace, manufacturing, and healthcare are main missions of this Laboratory. We utilize traditional and intelligent/bioinspired control schemes for accomplishing these goals.

The **Experimental Fluid Mechanics Laboratory** investigates fundamental fluid processes in unsteady flows, vortical flows, fluid interactions with boundaries and complex structures, and biological and bio-inspired propulsion systems.

The **Impact Mechanics Laboratory** explores the mechanics and physics in dynamic response and failure of advanced materials. The lab is currently equipped with Kolsky compression/tension bar facilities of different sizes for high-rate characterization of materials and structures. A high-resolution Kirana high-speed camera is implemented with the Kolsky bar systems to observe the dynamic deformation and failure process of materials. The lab also has A Skyscan 1172 Micro-CT for non-destructive evaluation of materials microstructure.

The **Laboratory for Porous Materials Applications** is concerned with modeling; numerical simulation; and experimental testing of mass, energy and momentum transport in heterogeneous and porous media.

The **Laser Micromachining Laboratory** conducts studies of laser-assisted micro-fabrication, including high-power laser ablation and laser micromachining.

The **Mechanics of Metamaterials Laboratory** is devoted to studying thermomechanical responses of metamaterials created by microstructural design and 3-D printing. Such materials include cellular materials, lattice structures, and interpenetrating phase composites that exhibit negative Poisson's ratios and/or non-positive thermal expansion coefficients. Higher-order continuum theories, micromechanics, structural analysis, and variational principles are employed as the major tools, and theoretical analysis, numerical simulations and experimental studies are utilized as the main approaches.

The **Micro, Nano and Biomechanics of Materials Laboratory** is devoted to solid mechanics and materials engineering research, with a focus on the combined experimental characterization as well as the computational analysis of mechanical properties, stress/strain, and microstructure of engineering and biological materials. Applications in advancing manufacturing and materials processing technologies, engineering design analyses, and biomedical sciences and engineering are also studied in this facility.

The **MicroSensor Laboratory** focuses on research in the development of micro-optical sensors for a wide range of aerospace and mechanical engineering applications, including temperature, pressure, force, acceleration and concentration. A major research component in this lab is concentrated on the study of the optical phenomenon called the "whispering gallery modes" and its exploitation for sensor development in the microsize level with a nano-level measurement sensitivity.

The **Microsystems Research Laboratory** focuses on research in the area of optical actuators and sensors, micro-optofluidics, energy conversion and smart materials.

The **Multiscale Modeling and Simulations Laboratory** performs modeling and simulations of materials and structures.

The **Nanoscale Electro-Thermal Sciences Laboratory** (NETSL) was established in 1995 in recognition of the local industry's needs for noninvasive characterization of microelectronic devices. The Laboratory features (a) laser-based transient thermoreflectance (TTR) capabilities to measure the thermal properties of thin-film materials and their interfaces, (b) Thermoreflectance-based thermal imaging capabilities for the transient thermal imaging of active microelectronics at deep submicron resolutions, and (c) a self-adaptive computational tool that enables rapid thermal simulation for concurrent electro-thermal analysis. True to the vision of its founders, today's NETS Laboratory continues to focus on the research and creative use of thermal sciences to enhance the design and reliability of microelectronics as well as to explore new scientific and metrological opportunities.

The **Research Center for Advanced Manufacturing** supports research and development activities in areas of rapid prototyping and manufacturing (laser-based and welding-based deposition), laser materials processing (welding, forming, surface modification), welding (including electrical arc welding, variable polarity plasma arc welding, friction stir welding and micro plasma arc welding), water-jet/abrasive water-jet materials processing, sensing and control of manufacturing processes, and numerical modeling of manufacturing processes. The **Center for Laser-Aided Manufacturing is housed in the RCAM facility**, and it collaborates with RCAM.

The **Systems Laboratory** is dedicated to analysis and modeling of bipedal gait dynamics, rigid-body impact mechanics and the pneumatically operated haptic interface system.

The **Systems, Measurement and Control Laboratory** is equipped for instruction in the design and analysis of analog and digital instrumentation and control systems. Modern measurement and instrumentation equipment is used for experimental control engineering, system identification, harmonic analysis, simulation and real-time control applications. Equipment also exists for microprocessor interfacing for control and instrumentation.

## Graduate Programs

Mechanical engineering is a very diverse, dynamic and exciting field. Because of the wide-ranging technical background they attain, mechanical engineers have the highest potential for employment after graduation and the exceptional mobility that is needed for professional growth even during bear market conditions.

The Mechanical Engineering Department at SMU has a long tradition of offering a superb engineering education within an environment that fosters creativity and innovation. Small classes, a trademark of the program, not only allow for strong mentoring but also promote academic excellence through cooperation and teamwork. The department's exceptionally qualified faculty members are continuously engaged in cutting-edge research projects, facilitating the attainment and transmission of knowledge to the students. Leading by example, through encouragement and dedication, the faculty is committed to the success of every student during his or her tenure at SMU and after graduation.

The SMU program prepares students to be creative by providing a solid background in fundamentals of science and engineering without compromising the practical aspects of mechanical engineering. Essential entrepreneurial know-how, interpersonal skills and an understanding of the importance of lifelong learning complement the educational experience of SMU students. The program also stimulates professional and social leadership.

**Graduate Degrees.** The Mechanical Engineering Department offers the following graduate degrees:

## Mechanical Engineering, Ph.D.

This Ph.D. program is one of the most successful programs in the nation. The majority of students are supported by their own companies, by faculty research grants or by the department through teaching assistant fellowships. The latter option is specifically tailored to students interested in obtaining a faculty position after graduation.

## Admission Requirements

1. An M.S. degree in mechanical engineering or in a closely related discipline from a U.S. college or university accredited by a regional accrediting association or completion of an international degree that is equivalent to a U.S. master's degree from a college or university of recognized standing.
2. Excellent academic performance in all completed coursework, with a GPA of at least 3.500 on a 4.000 scale.
3. Submission of a complete application, including a statement of purpose, official transcripts for all previous undergraduate and graduate studies, and payment of appropriate application fee.
4. Official GRE graduate school admission test quantitative score must be equal to or better than 80th percentile.
5. Three letters of recommendation from individuals who can judge the applicant's potential success as a doctoral student.
6. All international students whose native language is not English and who have not graduated from an American university must comply with the university's English Language Proficiency requirements.

## Degree Requirements

In addition to meeting the Lyle School of Engineering requirements for the Ph.D. degree, candidates are required to satisfy the following:

1. The successful completion of eight graduate-level courses (24 credit hours) beyond the master's degree.
2. Core course requirement: All incoming Ph.D. students will be required to complete a core course requirement within the first two terms of admission to the Ph.D. program.
3. Students must take both core courses for their major area and select one core course from two of the remaining topic areas for a total of four core courses. Students who have completed all or a portion of the core course requirement at SMU prior to admission to the Ph.D. program (e.g., as part of an M.S. degree plan) are only required to fulfill the remainder of the core course requirements. Deviations from the core

course requirement due to limitations of course offerings must be approved by the supervisory committee and the department chair within the first two terms of study toward the Ph.D. degree.

### **Core Courses:**

#### **Dynamics and Controls:**

- ME 7302 - Linear System Analysis
- ME 7320 - Intermediate Dynamics

#### **Mechanics and Manufacturing:**

- ME 7319 - Advanced Mechanical Behavior of Materials
- ME 7340 - Introduction to Solid Mechanics

#### **Thermo-fluids:**

- ME 7330 - Heat Transfer
- ME 7336 - Intermediate Fluid Dynamics

#### **Mathematics:**

Any 6000-level or above mathematics course may be taken to satisfy one of the two minor core areas. A grade of B+ or better is required for the Math course to count toward the minor core requirement.

### **Preliminary Exam:**

Students who obtain a cumulative GPA of less than 3.50 in the core courses will be required to take and pass a written preliminary exam. This written exam will consist of three parts, individualized for each student and covering the two major courses and the minor course with the lower grade. The Preliminary Exam will not cover any Mathematics courses since a grade of B+ or better is required for a Math course to count as a minor core course.

A student who fails the exam covering the major courses is suspended from the Ph.D. program. A student who fails the exam covering the minor courses will be allowed to retake the exam for the failed section(s) only once, within one month of completing the original exam. A student who fails this second examination is suspended from the Ph.D. program. A student who has been suspended from the Ph.D. program may, at a future date, submit an application for readmission. The Department expects that such an application would include tangible evidence that significant and measurable growth has taken place in the student's field of study since the time of suspension, and that the student therefore now possesses the necessary background and skill set to succeed in his or her chosen field.

### **Qualifying Exam (QE):**

All Ph.D. students will be required to pass a qualifying exam consisting of written and oral components. The exam must be completed within 18 months of completion of all required coursework for the degree. The format and requirements of each component are described below.

#### **Written Component:**

The ME Department will administer the written component of the QE every fall and spring semesters, over a two-day period toward the middle of the semester. The Written QE will include written exams from each student's declared major area of specialization.

- i. Dynamics and Controls:
  - Controls
  - Dynamics
- ii. Mechanics and Manufacturing:
  - Continuum Mechanics and Elasticity
  - Advanced Mechanics of Materials

- iii. Thermal-Fluids:
  - Fluid Dynamics
  - Heat Transfer (including Thermodynamics)

A student who fails the Written QE will be allowed to retake it once, in which case the Graduate Committee will decide whether the student must retake all or only a portion of the subject area exams. The student must retake this second Exam during the immediate next regular semester after the semester during which the failure occurred. A student who fails this second Exam is suspended from the Doctoral program.

### Oral Component:

Upon passing the Written QE, the student will be ready to take the Oral component of the QE. The purpose of the Oral component of the QE is to assess a student's ability to engage in a discussion about his or her area of research, and preparation to engage in his or her proposed dissertation topic. The Oral QE must be completed within 12 months of successfully passing the Written QE. If a student fails the Oral Exam, the Supervisory Committee may recommend a re-examination, subject to approval by the Department Chair and the Associate Dean, only in those cases in which the Supervisory Committee believes the student has the necessary potential but needs some additional time for preparation.

### Field of study:

If a student changes his or her area of research significantly, or if significant changes are made to the composition of the supervisory committee, the student may be required to repeat all or a portion of the qualifying examination at the discretion of the current supervisory committee.

### Dissertation:

All Ph.D. students will be required to complete and successfully defend a dissertation. The dissertation must be original and of a scholarly level and must have the potential of being published in a leading technical journal in the field of interest.

## **Manufacturing Systems Management, M.S.**

Manufacturing is undergoing rapid change. Global competition, rapid advances in manufacturing technology, integration across the enterprise and an expanding role for software are putting pressure on manufacturing businesses from the Fortune 500 to small job shops. Success now requires manufacturing professionals with up-to-date knowledge and skills in these rapidly evolving fields.

Developed in consultation with business and industry leaders and professionals in manufacturing, the SMU M.S. in manufacturing management program is unique in providing both the latest in technology and the broad management skills needed for success in today's business. The interdisciplinary program prepares manufacturing professionals to lead their company in the integration of the entire product commercialization process – including concept, design, manufacturing process development, production and distribution. The program provides a broad set of business and technical skills to manage this integrated process including strategies, globalization, leadership, innovation, finance, quality, and automation.

### **Admission Requirements**

In addition to meeting the Lyle School of Engineering admission requirements for an M.S. degree, applicants are required to have a B.S. in one of the engineering disciplines or a closely related scientific field, or five years of directly relevant professional experience after completion of a B.S. degree.

### **Degree Requirements**

In addition to meeting the Lyle School of Engineering degree requirements for an M.S. degree, candidates are required to satisfy additional requirements. These 10 courses are required:

- ME 7301 - Entrepreneurship and Business Development in Manufacturing

- ME 7303 - Organizational Leadership
- ME 7351 - Computer-Integrated Manufacturing Systems
- ME 7352 - Manufacturing Methods and Systems
- ME 7353 - Manufacturing Management
- ME 7354 - Lean Manufacturing and Six Sigma
- ME 7365 - Strategies for Manufacturing
- ME 7366 - Global Manufacturing
- ME 7369 - Innovation Management
- ME 7382 - Finance and the Manufacturing Enterprise

## **Mechanical Engineering, M.S.M.E.**

The best students enrolled in this master's program are encouraged to participate in research projects conducted by the Lyle School of Engineering faculty by utilizing the thesis option for the master's program and to consider extending their studies toward a Ph.D. degree in mechanical engineering at SMU or elsewhere.

### **Admission Requirements**

In addition to meeting the Lyle School of Engineering admission requirements for an M.S. degree, applicants are required to satisfy the following additional requirement: a B.S. in mechanical engineering or a closely related discipline.

### **Degree Requirements**

In addition to meeting the Lyle School of Engineering degree requirements for an M.S. degree, candidates are required to satisfy the following requirements: the completion of 10 graduate-level courses (30 credit hours) or the completion of eight courses (24 credit hours) and a master's thesis.

The master's thesis must attain a certain level of originality to be considered independent work and be presented to, and approved by, a committee with at least three members and chaired by the adviser. Students are required to take two core and three additional courses (15 credit hours) from one of the three existing areas of concentration: design and dynamic systems and controls, mechanics and manufacturing, and thermal and fluid sciences. In addition, the students must take at least one course from each of the other two areas. The choice of courses must be approved by the academic graduate adviser. These requirements provide depth and breadth to the academic experience of students.

### **Design and Dynamic Systems and Controls Concentration**

- ME 7302 - Linear System Analysis (core)
- ME 7320 - Intermediate Dynamics (core)
- ME 7322 - Intermediate Vibrations
- ME 7326 - Vehicle Dynamics
- ME 7346 - Optimal and Robust Control
- ME 7347 - Frequency Domain Methods in Linear Control Systems

### **Mechanics Materials and Manufacturing Concentration**

- ME 7312 - Continuum Mechanics
- ME 7315 - Optics Laser-Assisted Manufacturing
- ME 7319 - Advanced Mechanical Behavior of Materials (core)
- ME 7327 - Dynamic Behavior of Materials
- ME 7338 - Nontraditional Manufacturing Processes
- ME 7340 - Introduction to Solid Mechanics (core)
- ME 7361 - Matrix Structure Analysis
- ME 7364 - Introduction to Structural Dynamics

## **Thermal and Fluid Sciences Concentration**

- ME 7318 - Microfluidics and Microfabrication
- ME 7330 - Heat Transfer (core)
- ME 7331 - Advanced Thermodynamics
- ME 7332 - Heat Transfer Biomedical Sciences
- ME 7333 - Transport Phenomena in Porous Media
- ME 7336 - Intermediate Fluid Dynamics (core)
- ME 7337 - Introduction to Computational Fluid Dynamics: Fundamentals of Finite Difference Methods

## **Mechanical Engineering/Master of Business Administration, M.S./M.B.A.**

### **Joint Master of Science in Engineering/Master of Business Administration Program**

#### **Overview**

The Bobby B. Lyle School of Engineering and the Edwin L. Cox School of Business offer a two-year, dual-degree in Master of Science in Engineering (with one of the specific degrees listed above) and Master of Business Administration, with as few as 68 semester credit hours. The program is intended for full-time graduate students with Bachelor degrees in engineering or science. The program is offered on-campus although some of the engineering courses may be taken by means of the Lyle School's distance learning facilities. This program is geared toward recent graduates as well as early-career professionals employed in the engineering and technology sector who desire to broaden and deepen their skills to further their career opportunities and become leaders in technology with the appropriate business and management acumen.

This program takes advantage of the 44-credit hour Fast Track MBA degree offered by Cox School and double-counts up to 6 credit hours of MBA courses as electives in the 30-credit hour MS Engineering degree programs making it possible to obtain two degrees with a total of 68 semester credit hours (24 credit hours of engineering and 44 credit hours in MBA program). As an example, students first complete the 24 credit hour of required courses for the specific MS engineering degree sought during the fall and spring semesters of the first year. Students then start the year-long Fast Track MBA (starting with the summer term and continuing in the fall and spring terms) completing both degrees at the end of the second academic year.

At the conclusion of the dual degree program, students obtain a MS in the specific engineering degree and the MBA.

The overall educational objective of the joint MS-MBA program is to impart the necessary breadth and depth in business and in technology for those individuals preparing for leadership roles in technology firms. The program provides a reduction of 6 credit hours from the total credits that would be required for a student earning the two degrees separately (one of the MS engineering degrees listed at the title page and the Fast Track MBA) and reduces the time to complete both degrees to 2 years, including a summer semester.

#### **Admission Requirements**

The applicants must meet both Lyle School of Engineering admission requirements (general School requirements and program admission requirements) for the specific Lyle Master of Science degree and Cox School of Business Fast Track MBA requirements. See admission requirements in each School program section for details. Applicants must submit separate applications to the Lyle and Cox programs.

#### **Curriculum Example**

The general course of study for the joint program follows:

### Fall Term (Lyle School)

- Engineering core/elective (3 Credit Hours)

Term Total: 12 Credit Hours

### Spring Term (Lyle School)

- Engineering core/elective (3 Credit Hours)

Term Total: 12 Credit Hours

Total Engineering: 24 Credit Hours

### Summer Term (Cox School)

#### Module A Courses

- ACCT 6201 - Financial Accounting I
- FINA 6201 - Managerial Finance
- ITOM 6202 - Management Decision Analysis

#### Module B Courses

- MAST 6201 - Managerial Statistics
- MKTG 6201 - Marketing Management
- MNGT 6001 - Managing Your Career
- Elective: one course (2 Credit Hours)

Term Total: 12 Credit Hours

### Fall Term (Cox School)

#### Module A Courses

- ITOM 6203 - Operations Management
- MNGT 6003 - Business Presentation Techniques
- STRA 6201 - Strategic Management
- Elective: two courses (4 Credit Hours)

#### Module B Courses

- ACCT second required accounting (2 Credit Hours)
- BUSE 6202 - Managerial Economics
- MNO 6201 - Organizational Behavior: Managing and Leading People
- Elective: one course (2 Credit Hours)

Term Total: 16 Credit Hours

## Spring Term (Cox School)

### Module A Courses

- Elective: four courses (8 Credit Hours)

### Module B Courses

- Elective: four courses (8 Credit Hours)

Term Total: 16 Credit Hours

Total MBA: 44 Credit Hours

Total for Joint MS-MBA: 68 Credit Hours

## Mechanical Engineering Courses

### **ME 7049 - Master's Full-Time Status**

*Credits: 0*

### **ME 7090 - Graduate Seminar**

*Credits: 0*

### **ME 7096 - Master's Thesis**

*Credits: 0*

Students may need to register in several master's thesis courses to obtain the desired number of credit hours, with a limit of no more than 6 credit hours in a single term and no more than 4 credit hours in the summer terms.

### **ME 7190 - Graduate Seminar: Ethics in Engineering and Technology**

*Credits: 1*

Covers ethical issues, hard choices, and human failures in life. Presents practical, ethical issues with examples from everyday life. Includes ethical issues encountered in copyright law and intellectual property; issues involved in telephone communications and email; and principles, methods, and bases for ethical decision-making and action.

### **ME 7194 - Selected Problems**

*Credits: 1*

Independent investigation of problems and projects in mechanical engineering approved by the department chair and the major professor (on request).

### **ME 7196 - Master's Thesis**

*Credits: 1*

No more than 6 term hours in a single term, and no more than 4 term hours in a summer term. Students may enroll in several sections to obtain the desired number of thesis hours. For example, 4 term hours of thesis would require enrollment in ME 7396 and ME 7196.

### **ME 7294 - Selected Problems**

*Credits: 2*

Independent investigation of problems and projects in mechanical engineering approved by the department chair and the major professor (on request).

### **ME 7296 - Master's Thesis**

*Credits: 2*

Students may need to register in several master's thesis courses to obtain the desired number of credit hours, with a limit of no more than 6 credit hours in a single term and no more than 4 credit hours in the summer terms.

### **ME 7301 - Entrepreneurship and Business Development in Manufacturing**

*Credits: 3*

Provides a perspective of entrepreneurial thought and the necessary tools for developing a business plan and starting a manufacturing venture. Management is the process of creating value from existing resources; in contrast, entrepreneurship is the art of creating the ideas and identifying and assembling the resources to create value. The course addresses this art for new ventures inside existing corporations and de novo startups in the manufacturing realm. Students learn what personality characteristics are important and effective in each of these settings and where they fit, the risks and rewards of each approach, and the answers to the most frequently asked questions about entrepreneurship. Examples, exercises, and cases are drawn from a manufacturing environment.

### **ME 7302 - Linear System Analysis**

*Credits: 3*

Introduces modern control theory, with a focus on the application of the developed concepts in designing linear systems and casting their responses in prescribed forms. Includes state representation of linear systems; controllability, observability, and minimal representation; linear state variable feedback; observers; and quadratic regulator theory. Prerequisite: ME 4360 or permission of instructor.

### **ME 7303 - Organizational Leadership**

*Credits: 3*

Personnel and organizational leadership, including the scientific structure of organizations and methods used to improve the productivity and quality of life of people working in the organization. Focuses on understanding individual behavior and experiences in industrial and organizational settings. Introduces industrial-organizational psychology (as applied to the manufacturing organization) and industrial psychology as it addresses the human resource functions of analyzing jobs and appraising, selecting, placing, and training people. The organizational psychology portion of the course addresses the psychology of work, including employee attitudes, behavior, emotions, health, motivation, and well-being, as well as the social aspects of the workplace.

### **ME 7312 - Continuum Mechanics**

*Credits: 3*

Explores fundamental principles governing deformations, constitutive behavior and stress responses of a continuum. Students learn how to formulate mechanics problems rigorously and concisely by using tensorial, index or engineering notations and how to apply general theories to solve representative problems in solid and fluid mechanics. Prerequisites: ME 7340/CEE 7340 or equivalent, MATH 3302, MATH 3304, and MATH 3313.

### **ME 7314 - Introduction to Microelectromechanical Systems and Devices**

*Credits: 3*

Develops the basics for microelectromechanical devices and systems, including microactuators, microsensors, micromotors, principles of operation, micromachining techniques (surface and bulk micromachining), IC-derived microfabrication techniques, and thin-film technologies as they apply to MEMS.

### **ME 7315 - Optics Laser-Assisted Manufacturing**

*Credits: 3*

Includes analysis and design of automatic control systems for linear problems using frequency domain methods. Students develop a basic knowledge of geometrical and physical optics and are introduced to laser theory, laser-material interactions, and laser-assisted manufacturing. Prerequisites: ME 3332 and graduate standing.

### **ME 7318 - Microfluidics and Microfabrication**

*Credits: 3*

Reviews fundamentals of fluid mechanics. Introduces microscale liquid flows, electrokinetic transport phenomena and their applications, microfluidic mixing, photolithography based microfabrication, computational fluid dynamics software COMSOL, microfluidic device design, and fabrication and characterization. Prerequisite: Graduate standing.

### **ME 7319 - Advanced Mechanical Behavior of Materials**

*Credits: 3*

A senior-graduate course that relates mechanical behavior on a macro and microscopic level to design. Topics include macroscopic elasticity and plasticity, viscoelasticity, yielding, yield surfaces, work hardening, geometric dislocation theory, creep, and temperature-dependent and environment-dependent mechanical properties. Prerequisite: ME 2340, ME 3340, or graduate standing.

### **ME 7320 - Intermediate Dynamics**

*Credits: 3*

Kinematics and dynamics of particles and rigid bodies (kinematics, inertia properties), Kane's dynamical equations, Euler's equations of motion, D'Alembert's principle, and Lagrange's equations of motion. Prerequisite: ME 2320, MATH 2339, MATH 2343, or graduate standing.

### **ME 7322 - Intermediate Vibrations**

*Credits: 3*

Fundamentals of vibrations with application of simple machine and structural members. Single, multiple, and infinite degree-of-freedom systems. Harmonic motion, free and forced vibration, resonance, damping, and isolation. Modal Analysis, Hamilton's Principle and Lagrange's equations. Prerequisite: ME 4322, graduate standing or permission of instructor.

### **ME 7323 - Introduction to Fracture Mechanics**

*Credits: 3*

Linear elastic fracture mechanics, application of theory to design and evaluation of critical components: elastic stress intensity calculations, plane strain fracture toughness, plane stress and transitional behavior, crack opening displacements, fracture resistance, fatigue crack propagation, transition temperature approach to fracture control, microstructure of fracture, and fracture control programs. Prerequisite: ME 2340 or permission of instructor.

### **ME 7324 - Fatigue Theory and Design**

*Credits: 3*

A senior-graduate course. Includes continuum, statistical, and fracture mechanics treatments of fatigue, stress concentrators, planning and analysis of probit, SNP and response tests, mechanisms of fatigue design, fail-safe versus safe-life design, and crack propagation. Emphasizes the engineering design aspects of fatigue rather than theoretical mechanisms. Prerequisite: ME 3340 or permission of instructor.

### **ME 7326 - Vehicle Dynamics**

*Credits: 3*

Modeling of wheeled vehicles to predict performance, handling, and ride. Effects of vehicle center of mass, tire-characteristic traction and slip, engine characteristics, and gear ratios of performance. Suspension design and steady-state handling models of four-wheeled vehicles and car-trailer systems to determine oversteer and understeer characteristics, critical speeds, and stability. Multidegree-of-freedom ride models, including tire and suspension compliance. Computer animation and simulations. Prerequisite: ME 2320 or permission of instructor.

### **ME 7327 - Dynamic Behavior of Materials**

*Credits: 3*

Introduces the fundamental theories of stress wave propagation both within the bulk materials and at the interfaces.

Students are exposed to a variety of Kolsky bar-related experimental characterization techniques based on the stress wave theory. Besides in-class lectures, lab sessions will be arranged to demonstrate the versatility of Kolsky bar techniques in testing the high-rate mechanical properties of a broad range of engineering materials.

### **ME 7330 - Heat Transfer**

*Credits: 3*

Application of the principles of conduction, convection, and radiation heat transfer. Includes steady and unsteady state, special configurations, numerical and analytical solutions, and design. Prerequisite: ME 3332 or graduate standing.

### **ME 7331 - Advanced Thermodynamics**

*Credits: 3*

Laws of thermodynamics, availability, irreversibility, real gases and mixtures, thermodynamic relations and generalized charts, combustion, chemical and phase equilibrium, and computational combustion. Prerequisites: ME 2331, ME 3341 or permission of instructor.

### **ME 7332 - Heat Transfer Biomedical Sciences**

*Credits: 3*

Fundamentals of heat transfer in medicine and biology; biothermal properties; thermal regulation processes; and biomedical heat transfer processes with applications in tissue laser radiation, freezing and thawing of biological materials, cryosurgery, and others. Prerequisite: ME 3332 or permission of instructor.

### **ME 7333 - Transport Phenomena in Porous Media**

*Credits: 3*

Fractals and their role in characterizing complex structures. Fundamental concepts of momentum, heat, and mass transport through heterogeneous (e.g., composites, porous) materials. Emphasis is placed on the mathematical modeling of heat and mass transfer in heterogeneous and fully saturated systems. Relevant industrial and natural applications are presented throughout the course. Prerequisites: ME 2342, ME 3332 or permission of instructor.

### **ME 7336 - Intermediate Fluid Dynamics**

*Credits: 3*

Reviews fundamental concepts of undergraduate fluid mechanics and introduces advanced fluid dynamics, industrial irrotational flow, tensor notation, and the Navier-Stokes equations. Prerequisite: ME 2342 or graduate standing.

### **ME 7337 - Introduction to Computational Fluid Dynamics: Fundamentals of Finite Difference Methods**

*Credits: 3*

Concepts of stability, convergence, accuracy, and consistency. Applications to linear and nonlinear model partial differential equations. Curvilinear grid generation. Advanced topics in grid generation. Beam and Warming factored implicit technique. MacCormack techniques. Solution methods for the Reynolds equation of lubrication, the boundary layer equations, and the Navier-Stokes equations. Prerequisites: ME 2342 and MATH 2343, or permission of instructor.

### **ME 7338 - Nontraditional Manufacturing Processes**

*Credits: 3*

Explores difficult-to-machine materials and the increased geometrical complexity of components that have resulted in the development of nontraditional manufacturing processes based on the application of electrical, chemical, ultrasonic, magnetic, and photonic sources of energy. Introduces fundamentals of materials processing by laser beam, electron beam, ion beam, abrasive waterjet, ultrasonic machining, electro-discharge machining, chemical and electrochemical machining, and hybrid machining (laser beam, plasma arc, and waterjet assisted machining). Emphasizes the additive manufacturing processes as one of the fastest developing disciplines in materials processing. Covers theoretical problems and practical considerations related to the nontraditional manufacturing processes. Prerequisites: ME 3340,

ME 3370; a basic understanding of manufacturing processes, mechanical and physical properties of materials, and physics.

### **ME 7340 - Introduction to Solid Mechanics**

*Credits: 3*

Three dimensional stress and strain, failure theories, introduction to two-dimensional elasticity, torsion of prismatic members, beams on elastic foundation, introduction to plates and shells, and energy methods. Prerequisites: ME 2340, MATH 2343 or graduate standing.

### **ME 7341 - Structural Properties of Solids**

*Credits: 3*

Develops an understanding of the structural aspects of solids and their relationship to properties and applications. Includes structural defects; bonding and crystal structure; solid-state reactions; and phase transformations, degradation, and deformation. Prerequisite: ME 3340 or permission of instructor.

### **ME 7346 - Optimal and Robust Control**

*Credits: 3*

The course addresses topics and concepts for linear systems control including controllability, observability, state feedback, and observers. Optimal control is presented along with stochastic optimal control, LQG, and Kalman filter. The H<sub>2</sub> and H<sub>∞</sub> robust control techniques and the sliding mode control of a linear system are presented. Prerequisite: ME 4360 and ME 5302 or consent of instructor.

### **ME 7347 - Frequency Domain Methods in Linear Control Systems**

*Credits: 3*

Includes analysis and design of automatic control systems for linear problems using frequency domain methods. Topics include performance analysis using Bode plots, stability analysis using Nyquist criterion, robustness analysis using gain margin, phase margin and delay margin, controller design through loop shaping for meeting performance specifications, and an introduction to robust control. Prerequisite: ME 4360.

### **ME 7351 - Computer-Integrated Manufacturing Systems**

*Credits: 3*

Covers the basic concepts and use of computer-integrated manufacturing. Includes integration approaches for manufacturing, process planning and simulation, the production process in relation to automated control systems, process design for shop for control of multiple interacting processes, distributed network process control, real-time aspects, and interface protocols and languages of production processes. Also, computational and data processing methods for planning, design, production, and shipping as well as methods of optimizing output quality, price, and productivity. Examines economic justification and the use of artificial intelligence for planning and process control.

### **ME 7352 - Manufacturing Methods and Systems**

*Credits: 3*

Examines highly successful manufacturing methods and systems presented from the perspective of the manufacturing manager. Includes the evolution of manufacturing technology in the U.S., mass manufacturing, integrated manufacturing, optimization, distribution and manufacturing automation, just-in-time systems, continuous improvement, and total quality management. Covers the underlying concepts and strategic benefits of flexibility, agility, time-based competition, and global manufacturing operation.

### **ME 7353 - Manufacturing Management**

*Credits: 3*

Explores new organizational structures, paradigms, and leadership styles as well as problem-solving within the business context: manufacturing strategies for optimizing production processes across the enterprise. Also, measuring and reporting business performance; investment decision-making under conditions of risk and uncertainty; intellectual

property strategies, products liability and the legal environment; and contemporary practices, including self-directed work forces, competitive assessment, total productive maintenance, and managerial and activity-based costing.

### **ME 7354 - Lean Manufacturing and Six Sigma**

*Credits: 3*

Focuses on an overall total quality management perspective for the design of quality management systems. Examines metrics for cycle time and defects, baselining and benchmarking, and house of quality approaches. Covers the basic concept of managing product quality from inception to deployment. Includes acquiring and stabilizing new production processes, data collection, and analysis for improvement and decision-making. Purchasing, process control, inventory control, and reliability are covered in detail. Project work emphasizes the application of lean manufacturing and six sigma tools and techniques.

### **ME 7361 - Matrix Structure Analysis**

*Credits: 3*

A systematic approach to formulation of force and displacement method of analysis; representation of structures as assemblages of elements; computer solution of structural systems. Prerequisite: ME 3350 or permission of instructor.

### **ME 7362 - Engineering Analysis with Numerical Methods**

*Credits: 3*

Applications of numerical and approximate methods in solving a variety of engineering problems. Examples include equilibrium, buckling, vibration, fluid mechanics, thermal science, and other engineering applications. Prerequisite: Permission of instructor.

### **ME 7364 - Introduction to Structural Dynamics**

*Credits: 3*

Covers the dynamic responses of structures and the behavior of structural components to dynamic loads and foundation excitations. Also, single- and multidegree-of-freedom systems response and its applications to analysis of framed structures. Introduces systems with distributed mass and flexibility. Prerequisites: MATH 2343 and CEE/ME 3350 or CEE/ME 5361.

### **ME 7365 - Strategies for Manufacturing**

*Credits: 3*

Examines the development and implementation of strategies for product design and manufacturing that best supports the overall strategy of the firm. Topics include positioning the product and production system in the industry, location and capacity decision, implementing manufacturing technologies, facilities planning, vertical integration, logistics planning, and organizational culture. Case studies of manufacturing firms are used extensively. Prerequisite: Graduate standing.

### **ME 7366 - Global Manufacturing**

*Credits: 3*

Examines goals and strategies for manufacturing operations in the multinational environment. Covers decision-making for decentralizing and setting up foreign manufacturing operations and marketing, sales, and distribution strategies. Also, R&D support, location and capacity decisions, implementing new manufacturing technologies, facilities planning and modernizations, vertical integration, outsourcing strategies, logistics planning, and organizational culture. Includes case studies of manufacturing firms. Prerequisite: Graduate standing.

### **ME 7369 - Innovation Management**

*Credits: 3*

Provides a foundation of modern theory and practice of product and organizational innovation. Reviews the modern applications of disruptive innovation: technological, organizational, and market-driven. Examines ways to implement

and augment innovation capability within an organization. Additionally, covers tools and techniques for recognizing disruption in existing markets and how to respond as well as how innovation fits into the product development process.

### **ME 7371 - Introduction to Gas Dynamics and Analysis of Propulsion Systems**

*Credits: 3*

One-dimensional compressible flow, linearized two-dimensional flow method of characteristics, and oblique shocks. Design of air-breathing propulsion systems components: inlets, nozzles, compressors, turbines and combustors. Interactions with the external flow. Prerequisites: ME 2331, ME 2342 or permission of instructor.

### **ME 7377 - Advanced Steel Design**

*Credits: 3*

Behavior and design of steel structures including general methods of plastic analysis, plastic moment distribution, steel frames, unbraced and braced frames, and composite construction. Prerequisite: ME 4350.

### **ME 7380 - Management of Industrial and Mission-Critical Facilities**

*Credits: 3*

Efficient industrial centers require balanced consideration with respect to facility design and function. Mission-critical component management and information technology systems are designed for exceptionally reliable performance and efficient operation. This course emphasizes the component systems that are designed to maintain a high level of function. Covers electrical and mechanical reliability, efficiency, readiness, robustness, and flexibility, and the management of the information technology systems. Explores strategies designed to eliminate costly downtimes, with emphasis on standby generators; automatic transfer switches; uninterruptable power supplies; fuel, fire, and battery systems; energy security; and environmental and cooling technologies. Presents the implementation of sustainable technology, green certifications, and alternative energy strategies that are compatible with the mission-critical requirements of the facility. Includes operational approaches to reduce energy requirements for power and cooling, mandated safety standards, and environmental codes. Prerequisite: Graduate standing or permission of instructor.

### **ME 7381 - Site Selection for Industrial and Mission-Critical Facilities**

*Credits: 3*

Efficient industrial centers and facilities with mission-critical subsystems such as datacenters require balanced considerations with respect to facility design and site location. Site location plays an integral role in creating successful projects that especially support high reliability and promote sustainable design. While the important factors may vary from site to site, in any given instance a single factor can undermine the success of an otherwise excellent project. Ready availability and proper site selection that minimizes risk of disruption are particularly important factors for successful operation. Covers siting considerations, including power needs, electrical mix, weather patterns, building codes, proximity to the workforce and transportation, and other topics that bear on reliable operation. Emphasizes strategies of site selection to adequately safeguard hardware and mission-critical data. Prerequisite: Graduate standing or permission of instructor.

### **ME 7382 - Finance and the Manufacturing Enterprise**

*Credits: 3*

An overview of strategic management decision processes relevant to engineering, manufacturing, and service industries. The targeted student is the current or future professional engineer-manager, engineer-owner and/or engineer-entrepreneur who combines engineering and/or manufacturing technology with business execution. Emphasizes the ways engineering and manufacturing managerial functions interact with the finance industry, markets, and institutions. Prerequisite: Graduate standing.

### **ME 7383 - Heating, Ventilating, and Air Conditioning**

*Credits: 3*

Covers the selection and design of basic refrigeration, air conditioning, and heating systems. Includes load calculations, psychometrics, cooling coils, cooling towers, cryogenics, solar energy applications, and special topics. Prerequisites: ME 2331, ME 3332 or permission of instructor.

### **ME 7384 - Advanced Topics II**

*Credits: 3*

Advanced selected topics in mechanical engineering and its application (on request).

### **ME 7391 - Selected Topics**

*Credits: 3*

Independent investigation of problems and projects in mechanical engineering approved by the department chair and the major professor (on request).

### **ME 7392 - Selected Topics**

*Credits: 3*

Independent investigation of problems and projects in mechanical engineering approved by the department chair and the major professor (on request).

### **ME 7393 - Selected Topics**

*Credits: 3*

Independent investigation of problems and projects in mechanical engineering approved by the department chair and the major professor (on request).

### **ME 7394 - Selected Problems**

*Credits: 3*

Independent investigation of problems and projects in mechanical engineering approved by the department chair and the major professor (on request).

### **ME 7395 - Selected Problems**

*Credits: 3*

Independent investigation of problems and projects in mechanical engineering approved by the department chair and the major professor (on request).

### **ME 7396 - Master's Thesis**

*Credits: 3*

Students may need to register in several master's thesis courses to obtain the desired number of credit hours, with a limit of no more than 6 credit hours in a single term and no more than 4 credit hours in the summer terms.

### **ME 7494 - Selected Problems**

*Credits: 4*

Independent investigation of problems and projects in mechanical engineering approved by the department chair and the major professor (on request).

### **ME 7696 - Master's Thesis**

*Credits: 6*

Students may need to register in several master's thesis courses to obtain the desired number of credit hours, with a limit of no more than 6 credit hours in a single term and no more than 4 credit hours in the summer terms.

### **ME 8049 - Ph.D. Full-Time Status**

*Credits: 0*

Full-time status for students in the Ph.D. program.

### **ME 8096 - Dissertation**

*Credits: 0*

Students may need to register in several dissertation courses to obtain the desired number of dissertation credit hours, with a limit of no more than 15 credit hours in a single term and no more than 10 credit hours in the summer terms. For example, ME 8396 and ME 8996 (12 credit hours total) would be allowed during a fall term.

### **ME 8196 - Dissertation**

*Credits: 1*

Students may need to register in several dissertation courses to obtain the desired number of dissertation credit hours, with a limit of no more than 15 credit hours in a single term and no more than 10 credit hours in the summer terms. For example, ME 8396 and ME 8996 (12 credit hours total) would be allowed during a fall term.

### **ME 8296 - Dissertation**

*Credits: 2*

Students may need to register in several dissertation courses to obtain the desired number of dissertation credit hours, with a limit of no more than 15 credit hours in a single term and no more than 10 credit hours in the summer terms. For example, ME 8396 and ME 8996 (12 credit hours total) would be allowed during a fall term.

### **ME 8338 - Viscous Flow Theory**

*Credits: 3*

A study of the motion of viscous fluids; low Reynolds number and laminar boundary-layer theory for a Newtonian fluid; and exact and approximate methods for solution of problems. Prerequisites: ME 2342, ME 7336. Corequisite: MATH 6333.

### **ME 8339 - Turbulent Shear Flow**

*Credits: 3*

A study of real turbulent flows; flow stability, transition, and turbulence structure; free shear, pipe, and boundary layer flows; effects of surface conditions, blowing and suction, pressure gradients, and compressibility; approximate solution methods; and atmosphere shear flows. Prerequisite: ME 8338 or permission of instructor.

### **ME 8340 - Theory of Elasticity**

*Credits: 3*

Covers stress, strain, and stress-strain relationships for elastic bodies, classical solutions of two- and three-dimensional problems, and the use of the Airy stress function. Prerequisite: ME 7340 or permission of instructor.

### **ME 8342 - Theory of Plasticity**

*Credits: 3*

Physical basis of plastic deformation, mathematical theory of yield and plastic flow with applications to various engineering problems. Prerequisite: Permission of instructor.

### **ME 8344 - Energy Methods in Applied Mechanics**

*Credits: 3*

Explores the variational energy principles of mechanics and applies them to the analysis of beams and trusses. Also, general elasticity problems, plates and shells, buckling, and dynamics. Prerequisite: ME 7340 or permission of instructor.

### **ME 8346 - Mechanics of Composite Materials**

*Credits: 3*

Introduces analysis of composite material behavior, including stiffness and strength relations for lamina and laminates and the effect of lamination on plate deflection, buckling, and vibration. Prerequisite: ME 7340 or permission of instructor.

### **ME 8364 - Finite Element Methods in Structural and Continuum Mechanics**

*Credits: 3*

Theory and application of finite element; two- and three-dimensional elements; bending elements; applications to buckling, and dynamic problems. Prerequisite: ME 7361 or permission of instructor.

### **ME 8367 - Nonlinear Control**

*Credits: 3*

Introduces methods used to control nonlinear systems. Reviews phase plane analysis of nonlinear systems, Lyapunov theory, nonlinear stability, and describing function analysis. Advanced control techniques include feedback linearization, sliding control, and adaptive control. Emphasizes application of the developed concepts to the robust regulation of the response of nonlinear systems. Prerequisite: ME 7302/ECE 7362 or permission of instructor.

### **ME 8368 - Theory of Plate Behavior**

*Credits: 3*

Analysis of flat plates subjected to normal loading, inplane loading, and thermal stresses. Plates of various shapes, thick plates, and anisotropic plates are analyzed for both small and large deflections. Prerequisite: ME 7340 or permission of instructor.

### **ME 8369 - Theory of Shell Behavior**

*Credits: 3*

Membrane and bending theories of cylindrical shells, shells of revolution, and translational shells and their application to various problems in aerospace, manufacturing, and construction industries. Prerequisite: ME 7340 or permission of instructor.

### **ME 8386 - Convection Heat Transfer**

*Credits: 3*

Advanced topics in forced convection heat transfer using analytical methods and boundary-layer analysis. Laminar and turbulent flow inside smooth tubes and over external surfaces. Convection processes in high-speed flows. Prerequisite: ME 7330 or equivalent.

### **ME 8390 - Selected Topics**

*Credits: 3*

Individual or group study of selected topics in mechanical engineering approved by the department chair and the instructor (on request).

### **ME 8391 - Selected Topics**

*Credits: 3*

Individual or group study of selected topics in mechanical engineering approved by the department chair and the instructor (on request).

### **ME 8393 - Selected Topics**

*Credits: 3*

Individual or group study of selected topics in mechanical engineering approved by the department chair and the instructor (on request).

### **ME 8394 - Selected Topics**

*Credits: 3*

Individual or group study of selected topics in mechanical engineering approved by the department chair and the instructor (on request).

**ME 8396 - Dissertation**

*Credits: 3*

Students may need to register in several dissertation courses to obtain the desired number of dissertation credit hours, with a limit of no more than 15 credit hours in a single term and no more than 10 credit hours in the summer terms. For example, ME 8396 and ME 8996 (12 credit hours total) would be allowed during a fall term.

**ME 8690 - Selected Topics**

*Credits: 6*

Individual or group study of selected topics in mechanical engineering approved by the department chair and the instructor (on request).

**ME 8696 - Dissertation**

*Credits: 6*

Students may need to register in several dissertation courses to obtain the desired number of dissertation credit hours, with a limit of no more than 15 credit hours in a single term and no more than 10 credit hours in the summer terms. For example, ME 8396 and ME 8996 (12 credit hours total) would be allowed during a fall term.

**ME 8990 - Selected Topics**

*Credits: 9*

Individual or group study of selected topics in mechanical engineering approved by the department chair and the instructor (on request).

**ME 8996 - Dissertation**

*Credits: 9*

Students may need to register in several dissertation courses to obtain the desired number of dissertation credit hours, with a limit of no more than 15 credit hours in a single term and no more than 10 credit hours in the summer terms. For example, ME 8396 and ME 8996 (12 credit hours total) would be allowed during a fall term.

# Multidisciplinary Programs

Degree programs in the Lyle School of Engineering may be pursued in areas that do not belong strictly to any department, but nevertheless are meaningful in terms of courses offered by the school and faculty expertise. These programs are individually planned, and they follow relevant guidelines set forth in the Doctor of Philosophy Degrees or Master of Science and Master of Arts Degrees section of this catalog. In such cases, any faculty member of the Lyle School of Engineering may be assigned as the faculty adviser by the associate dean. Multidisciplinary degrees are listed below:

## Programs

- Applied Science, M.S. (p. 507)
- Applied Science, Ph.D. (p. 507)
- Datacenter Systems Engineering, M.S. (p. 584)
- Design and Innovation, M.A. (p. 587)

## Engineering Courses

### **ENGR 7090 - Special Topics**

*Credits: 0*

Individual or group study of selected topics in engineering. Prerequisite: Permission of instructor.

### **ENGR 7091 - Special Topics**

*Credits: 0*

Individual or group study of selected topics in engineering. Prerequisite: Permission of instructor.

### **ENGR 7092 - Special Topics**

*Credits: 0*

Individual or group study of selected topics in engineering. Prerequisite: Permission of instructor.

### **ENGR 7093 - Special Topics**

*Credits: 0*

Individual or group study of selected topics in engineering. Prerequisite: Permission of instructor.

### **ENGR 7094 - Special Topics**

*Credits: 0*

Individual or group study of selected topics in engineering. Prerequisite: Permission of instructor.

### **ENGR 7095 - Special Topics**

*Credits: 0*

Individual or group study of selected topics in engineering. Prerequisite: Permission of instructor.

### **ENGR 7096 - Master's Thesis**

*Credits: 0*

### **ENGR 7097 - Special Topics**

*Credits: 0*

Individual or group study of selected topics in engineering. Prerequisite: Permission of instructor.

### **ENGR 7098 - Special Topics**

*Credits: 0*

Individual or group study of selected topics in engineering. Prerequisite: Permission of instructor.

**ENGR 7099 - Special Topics**

*Credits: 0*

Individual or group study of selected topics in engineering. Prerequisite: Permission of instructor.

**ENGR 7190 - Special Topics**

*Credits: 1*

Individual or group study of selected topics in engineering. Prerequisite: Permission of instructor.

**ENGR 7191 - Special Topics**

*Credits: 1*

Individual or group study of selected topics in engineering. Prerequisite: Permission of instructor.

**ENGR 7192 - Special Topics**

*Credits: 1*

Individual or group study of selected topics in engineering. Prerequisite: Permission of instructor.

**ENGR 7193 - Special Topics**

### **ENGR 8996 - Dissertation**

*Credits: 9*

Students may need to register in several dissertation courses to obtain the desired number of dissertation credit hours, with a limit of no more than 15 credit hours in a single term and no more than 10 credit hours in the summer terms.

# Lyle School of Engineering: Tuition, Fees and Financial Aid

## Tuition, Fees and Living Expenses

The *Financial Information Bulletin* is issued each academic year. It provides the general authority and reference for SMU financial regulations and obligations, as well as detailed information concerning tuition, fees and living expenses.

Continuing students registering must ensure that payment for the full amount of charges is posted to their account by the payment due date showing on their bill. The due dates are also published on the Bursar website.

Billing notifications are sent to the student's SMU email address and to the designated authorized payer(s) email address when a bill is generated. The billing notification will provide instructions on how to view the bill online through SMUpay. If notification is not received two weeks prior to the due date, the student and/or designated authorized payer(s) should contact the Office of the University Bursar.

Payments made in person or mailed must be received by the Office of the University Bursar, located on the first floor of the Laura Lee Blanton Student Services Building, no later than 4 p.m. Central Time on the payment due date. Payments made online via electronic check or credit card must be posted no later than 11:59 p.m. Central Time on the payment due date. Students and/or those paying on behalf of students who pay online automatically receive an electronic confirmation of payment; students and/or designated authorized payer(s) paying through other methods can also verify receipt of payment online.

Students enrolling after the payment due date must pay at the time of enrollment. Students whose accounts are not cleared by the payment due date or at the time of enrollment are subject to a late payment fee of \$50 for balances between \$250 and \$999.99, and \$150 for balances between \$1,000 and \$5,000. Balances more than \$5,000 are charged 3 percent of the outstanding balance, not to exceed \$750. Also, after the monthly payment due date has passed, a 1.5 percent past due fee will be assessed on the unpaid student and/or miscellaneous account each month until the balance is paid. The enrollment of students whose accounts remain unpaid after the payment due date may be canceled at the discretion of the University. Students are individually responsible for their financial obligations to the University.

All refunds except federal Parent PLUS loans, prepayment accounts, the SMU Monthly TuitionPay Payment Plan and international wires will be made payable to the student. A credit card payment will only be refunded to the student if federal student loans have been applied to their account. International wires will be refunded by wire to the originating wire account less a \$35 wire-processing fee. The Parent PLUS loan borrower can request the refund to be processed to the student by submitting a Parent PLUS Release form, located on the Bursar website. If the refund is issued by check, the student may request, in writing, that the refund be sent to another party.

Any outstanding debts to the University will be deducted from the credit balance prior to issuing a refund. Any outstanding debts to the University that include Title IV funds must have an Authorization to Credit Account form and/or an Authorization to Credit Account Parent form on file in order to transfer funds to cover current award year debts. Students need to sign the ACA form and the federal parent PLUS loan borrower needs to sign the ACAP form.

Any outstanding debts to the University that do not include Title IV funds will be deducted from the credit balance prior to issuing a refund. All other debts should be paid directly by the student.

A student whose University account is overdue or who in any other manner has an unpaid financial obligation to the University will be denied the recording and certification services of the Office of the Registrar, including the issuance of a transcript or diploma, and may be denied readmission until all obligations are fulfilled. The Division of Enrollment Services may stop the registration, or may cancel the completed registration, of a student who has a delinquent account or debt, and may assess all attorney's fees and other reasonable collection costs (up to 50 percent) and charges necessary for the collection of any amount not paid when due. Matriculation in the University constitutes an agreement by the student to comply with all University rules, regulations and policies.

Applications for financial assistance should be submitted well in advance of registration in accordance with recommended filing dates set forth by the Division of Enrollment Services, Office of Financial Aid. Applications received after the recommended deadline can expect a delay in application processing time due to the increased volume. This will ultimately delay disbursement of financial aid to the student account. Students and families are expected to clear all billed charges by the published billing due dates regardless of the status of their financial aid application. Any funds that disburse to the student account after the payment due date has passed, will be applied to any outstanding charges first. Remaining financial aid funds will be refunded to the student.

During the registration process, students will be prompted to read and agree to the Student Rights and Responsibilities, which provides information regarding financial rights and obligations, SMU's Honor Code, the Code of Conduct, and the student appeals and complaints process.

Students who elect to register for courses outside of their school of record will pay the tuition rate of their school of record.

## **Tuition Refunds for Withdrawal from the University**

No refunds of tuition or fees will be considered without an official withdrawal. Policies for official withdrawal, including medical and mandatory administrative withdrawal, are found under Withdrawal From the University in the Academic Records and General and Enrollment Standards section of this catalog.

Reduction of tuition and fees is determined by the effective date of the withdrawal and is based on the schedule listed in the *Financial Information Bulletin* and the SMU Bursar website.

## **Financial aid implications of withdrawing from the University**

Federal regulations require schools to adjust financial aid when a student officially withdraws from the University before completing 60% of the term. Financial aid is reduced to a pro-rated amount based on the amount of time the student was enrolled in classes in that specific term, thus "earning" financial aid proportionate to the amount of time enrolled. The "unearned" portion of aid will be returned to the funding source. Students completing 60% or more of a term are considered to have earned 100% of their financial aid for that term. This federally mandated calculation is completely independent of university's refund policies for withdrawals and may require a reduction in financial aid even if there is no reduction in tuition charges. The end result could create a substantial student account balance after the withdrawal is processed. For this reason, students are strongly encouraged to contact their financial aid adviser, before initiating a withdrawal, to discuss the financial implications of withdrawing. For additional information on the University's tuition refund policies, see the SMU *Financial Information Bulletin* or the University Bursar's website.

Information on the implications of withdrawing on your financial aid can be found on the Office of Financial Aid website.

Medical withdrawals and mandatory administrative withdrawals allow a prorated refund of tuition and fees and must be initiated through the academic adviser or academic Dean's office.

## **Payment Plan Options**

### **SMU Monthly Payment Plan**

SMU offers several payment plan options to assist students and families. Refer to the Bursar's website for detailed payment plan information: [www.smu.edu/paymentplans](http://www.smu.edu/paymentplans).

Annual payment plans are available in 12-month and 10-month formats. Term payment plans are available in 6-month and 5-month formats. The summer payment plan is three months. Payment plan options are not available for short terms including JanTerm, MayTerm, August Term and Winter Term.

## **Graduate and Professional Student Aid**

University grants, scholarships, fellowships and assistantships are awarded in the school or department in which the graduate student will enroll. Schools and departments that offer master's or Ph.D. degrees offer a significant number of

tuition scholarships and teaching or research assistantships each year. For more information, students should contact the appropriate school or department.

Grants and loans for Texas residents, private and federal loans, and employment programs may be available by filing the Free Application for Federal Student Aid. The FAFSA may be completed online at [www.fafsa.gov](http://www.fafsa.gov). The SMU Title IV school code number is 003613.

More information is available online at [www.smu.edu/financialaid](http://www.smu.edu/financialaid).

# Lyle School of Engineering: Enrollment and Academic Records

The standards herein are applicable to all students at the University and constitute the basic authority and reference for matters pertaining to University academic regulations and records management. Enrollment in the University is a declaration of acceptance of all University rules and regulations. A complete *University Policy Manual* is available at [www.smu.edu/policy](http://www.smu.edu/policy). Additional information regarding rules and regulations of the University can be found in this catalog. Undergraduate students must follow the University-wide requirements that are in effect for the academic year of matriculation to SMU. The applicable requirements of majors and minors are those in effect during the academic year of matriculation to SMU or those of a subsequent academic year. Students may not follow a catalog for an academic year in effect prior to their matriculation term. Students who are not enrolled for three or more years will return to SMU under the current catalog.

## General Policies

### Confidentiality of Education Records

The Family Educational Rights and Privacy Act of 1974 is a federal law that grants students the right to inspect, obtain copies of, challenge, and, to a degree, control the release of information contained in their education records. The act and regulations are very lengthy, and for that reason, SMU has issued its own FERPA-based guidelines that are available at the University Registrar's Office FERPA website [www.smu.edu/FERPA](http://www.smu.edu/FERPA). Policy 1.10 of the *University Policy Manual* also discusses this law.

In general, no personally identifiable information from a student's education record will be disclosed to any third party without written consent from the student. Several exceptions exist, including these selected examples: 1) information defined by SMU as directory information may be released unless the student requests through my.SMU Student Homepage that it be withheld, 2) information authorized by the student through my.SMU Student Homepage may be released to those individuals designated by the student and 3) information may be released to a parent or guardian if the student is declared financially dependent upon the parent or guardian as set forth in the Internal Revenue Code. Additional information is available at [www.smu.edu/LegalDisclosures/FERPA](http://www.smu.edu/LegalDisclosures/FERPA).

## Student File Number

The University assigns each student an eight-digit SMU identification number, which is used to verify each student's identity and is provided without additional charges. The student should furnish the SMU ID number on all forms when requested, as this number is the primary means the University has to verify the identity for each student's academic records and transactions related to the records.

## Name Change

A student who has a change in name must provide to the University Registrar's Office his or her Social Security card or the form issued by the Social Security Administration. A valid passport may also be used to complete a name change. Enrollment or records services for the student under a name different from the last enrollment cannot be accomplished without one of the above documents. All transcripts and diplomas are issued only under a person's legal name as recorded by the University Registrar's Office.

## Preferred Name

Students who wish to use a name other than their legal name can add a preferred name to their file in addition to their primary/legal name, or update a preferred name already on file, using the self service functions in the my.SMU Student Homepage. The University will make efforts to use the preferred name in communications and in the course of university business. However, there are situations that due to business practices, legal requirements or system limitations the use of a primary/legal name will be used.

SMU has many offices that keep records with student names and many data systems used for specific applications. In addition to updating their preferred name in my.SMU, students may need to notify some offices regarding their use of a preferred name.

A preferred name is a first, middle and/or last name that may be chosen to be used instead of legal first, middle and last name. There is no documentation required to create or change a preferred name. Students are advised that if they choose to use a preferred name, they should use it consistently and resist changing it frequently. Students also are advised that the use of a preferred last name can lead to confusion with employers and organizations in attempting to match official educational records with applications and it is recommended that students provide both their preferred and legal names on applications.

Here is a partial list of standard name usage:

Display name – my.SMU Student Homepage	Preferred name, if provided
Instructor Class Roster	Preferred name, if provided
Instructor Grade Roster	Preferred name, if provided
Canvas	Preferred name, if provided
Global Directory of email addresses	Preferred name, if provided
SMU online directory	Preferred name, if provided
SMU ID Card	Primary (legal) name -- under review
Financial Aid related forms and documents	Primary (legal) name
Official Academic Transcript	Primary (legal) name
Diploma	Primary (legal) name or derivative
Degree Verifications	Primary (legal) name
Housing / Residence Life	Preferred first name, Primary last name
SEVIS Reporting (international students)	Primary (legal) name

## **Email and Mailing Addresses, Telephone, and Emergency Contact**

Each student must provide the University Registrar's Office with both a home and local (mailing) address, both a home and local telephone number and contact information of a designated emergency contact using the self-service functions in the my.SMU Student Homepage. Students enrolling at SMU authorize the University to notify their emergency contacts in the event of a situation affecting their health, safety, or physical or mental well-being, and to provide these contacts with information related to the situation.

Students who enroll in an arranged section course will be asked to provide the University Registrar's Office with an off-campus study address. This is the physical location the student is living while enrolled in this course.

When a student applies for graduation and becomes a candidate they can provide a diploma address (address to which they would like their diploma mailed) to the University Registrar's Office.

International students are required to provide a residence address (physical street address where they are currently living) as their mailing (local) address. International students will be prevented from enrolling if a U.S. address is not provided.

Students are expected to keep current all their addresses and telephone numbers, including emergency contact details, through my.SMU, the University's Web-based self-service system. Students may be prevented from enrolling if their information is insufficient or outdated. Changes to parent information should be reported by contacting records@smu.edu, and the email should include the student's full name and SMU student ID number.

The University issues all students an email address. Students may have other email addresses, but the University-assigned email address is the official address for University electronic correspondence, including related communications with faculty members and academic units.

Official University correspondence may be sent to students' mailing addresses or SMU email addresses on file. It is the responsibility of students to keep all their addresses current and to regularly check communications sent to them since they are responsible for complying with requests, deadlines and other requirements sent to any of their mailing addresses on file or to their SMU email.

## Cell Phones

The University requests that students provide mobile/cell telephone numbers, as they are one means of communicating with students during an emergency. Mobile/cell telephone numbers may also be used by University officials conducting routine business. Students who do not have mobile/cell telephone or do not wish to report the numbers should provide this information to the University through my.SMU Student Homepage. Students may be prevented from enrolling if their mobile/cell telephone numbers are not on file or if they have not declared "no cell" or "prefer not to report" in my.SMU.

## Ethnicity

SMU requires that a valid ethnic group category be on file for all students. SMU's policies and the Family Educational Rights and Privacy Act of 1974 protect the confidentiality and privacy of this information. A student's ethnic group category can be viewed in my.SMU, Student Homepage.

**U.S. Citizens or Permanent Residents.** Ethnicity is self-determined. Students of multiple ethnic backgrounds may select multiple ethnic group categories. If the ethnic group value is incorrect, the student should go to the University Registrar's Office in the Laura Lee Blanton Student Services Building and complete an Ethnic/Racial Category Update Form.

**International Students Living in the U.S. While Attending School.** Selecting an ethnic group category is not required unless the student becomes a U.S. citizen or permanent resident.

## Transcript Service

A transcript is an official document of the permanent academic record maintained by the University Registrar's Office. The permanent academic record includes all SMU courses attempted, all grades assigned, degrees received and a summary of transfer hours accepted. Official transcripts and certifications of student academic records are issued by the University Registrar's Office for all students. Copies of high school records and transfer transcripts from other schools must be requested from the institutions where the coursework was taken.

Transcripts are \$12.25 per copy. Additional copies in the same request mailed to the same address are \$3.50. Additional copies mailed to different addresses are \$12.25 a copy. PDF transcripts are \$16.00 per email address and are available only for students who attended after summer 1996.

**Note:** No incomplete or partial transcripts, including only certain courses or grades, are issued.

Transcripts cannot be released unless the student has satisfied all financial and other obligations to the University. Instructions for requesting a transcript to be mailed or picked up on campus are available at [www.smu.edu/registrar](http://www.smu.edu/registrar) ("Transcript Requests" link). A student may request his or her official transcript through the online my.SMU Student Homepage. Requests are processed through the National Student Clearinghouse. Telephone and email requests are not accepted. Students or their specified third party can pick up their transcripts at the University Registrar's Office, 101 Blanton Student Services Building.

Transcripts may be released to a third party as specified by the student on the Student's Consent for SMU to Release Information to Student's Specified Third Party form accessible at [www.smu.edu/LegalDisclosures/FERPA/Forms](http://www.smu.edu/LegalDisclosures/FERPA/Forms).

**Note:** Chapter 675, S.B. 302. Acts of the 61st Texas Legislature, 1969 Regular Session, provides as follows: *Section I.* No person may buy, sell, create, duplicate, alter, give or obtain; or attempt to buy, sell, create, duplicate, alter, give or obtain a diploma, certificate, academic record, certificate of enrollment or other instrument which purports to signify merit or achievement conferred by an institution of education in this state with the intent to use fraudulently such document or to allow the fraudulent use of such document. *Section II.* A person who violates this act or who aids

another in violating this act is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than \$1,000 and/or confinement in the county jail for a period not to exceed one year.

## **Veterans**

The University Registrar's Office certifies veterans each term for their benefits under federal programs, including the Yellow Ribbon Program. Most academic programs at SMU qualify for U.S. Department of Veterans Affairs benefits, making an SMU education accessible and affordable. Veterans are required to provide specific documents before they can be certified with the VA's Veterans Benefits Administration. Specific information regarding the certification process is available from the University Registrar's Office at [www.smu.edu/EnrollmentServices/Veterans](http://www.smu.edu/EnrollmentServices/Veterans).

The University complies with Title 38 United States Code Section 3679(e) which states that any individual who is entitled to educational assistance under chapter 31 (Vocational Rehabilitation and Employment) or chapter 33 (Post 9/11 GI Bill®) benefits will be permitted to attend or participate in the course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement (or "Statement of Benefits" obtained from the Department of Veterans Affairs' website – eBenefits, or a VAF 28-1905 form for chapter 31 authorization purposes) for said entitlement and ending on the earlier of the following dates: a) the date on which payment from VA is made to the institution; or b) 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility. SMU will not impose any penalties, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or require that a covered individual borrow additional funds to meet his/her financial obligation due to delayed disbursement funding from VA under chapter 31 or 33. However, if the anticipated funding from VA will not cover all tuition and fees, then the student is responsible for paying the difference immediately. Failure to do so may result in late or past due fees. Students who wish to be certified under chapter 31 or 33 must request in writing each semester that they wish to be certified and provide an updated statement of benefits. Additional documents are required to be submitted to the University upon initial request to be certified. See our website at [www.smu.edu/enrollmentservices/veterans](http://www.smu.edu/enrollmentservices/veterans).

## **Final Examinations**

Final course examinations shall be given in all courses where they are appropriate, must be administered as specified on the official examination schedule and shall not be administered during the last week of classes. Exceptions to the examination schedule may be made only upon written recommendation of the chair of the department sponsoring the course and with the concurrence of the dean of that school, who will allow exceptions only in accordance with guidelines from the Office of the Provost.

## **Complaint Procedures for Students With Disabilities**

The complaint procedures for students with disabilities are available in the Disability Accommodations and Success Strategies office, Loyd Center, Suite 202, and online at [www.smu.edu/Provost/ALEC/DASS](http://www.smu.edu/Provost/ALEC/DASS).

## **Credit Hour Loads**

The unit of measure for the valuation of courses is the credit hour. Based upon the federal definition of a credit hour, each credit hour requires one hour of direct faculty instruction and a minimum of two hours per week of preparation on the part of students for approximately 15 weeks a term. Most courses are valued for three credit hours, i.e., three contact hours per week and at least six hours of preparation. For three credit hour courses deployed via different course types, modes of delivery, or calendars, total number of direct contact hours should be equal to or greater than 45 hours with the total of out of class work total equal to or greater than 90 hours. Courses that deviate from this standard must provide documentation illustrating how the number of contact hours and/or work outside the course equate to this standard within the term in which the course is offered.

A full-time load in the fall and spring terms is 9 credit hours for a graduate student. For the summer term (all sessions in the summer term combined) a full-time load is 6 credit hours for a graduate student. On request a graduate student can be certified as full-time for the first or second session of the summer term at 3 credit hours. Individuals who enroll for fewer than these minimum hours are designated as part-time students.

A graduate student

- working on the completion of a thesis, dissertation or performance recital requirement on a full-time or part-time basis;
- enrolled in an internship or co-op program;
- enrolled as a third-year theatre major working on the completion of required production projects;
- or having an instructor appointment as part of a teaching fellowship, but not enrolled for the required number of hours;

may be certified as a full-time or part-time student if the student

- is enrolled officially for at least one course and
- is recognized by his or her director or academic dean or the dean for the Office of Research and Graduate Studies as working on the completion of the thesis, dissertation or internship requirement on a full-time or part-time basis.

In other special situations, a student not enrolled for the required number of hours may be certified as a full-time or part-time student if the student is officially enrolled for at least one course and is recognized by the academic dean or director as a full-time or part-time student, and if such recognition is approved by the provost.

**Cautionary Note:** Federal financial aid agencies and some other agencies require a minimum number of hours of enrollment for full-time status and do not make exceptions for summer, internship, co-op or student-teaching enrollments. Students on financial aid should consult an adviser in the Financial Aid Office regarding minimum enrollment requirements for their situation.

Likewise, international students on an F-1 or J-1 visa should consult an adviser in the International Student & Scholar Services office regarding minimum enrollment requirements for their situation.

**Minimum and Maximum Course Loads.** Minimum and maximum course loads allowed are based on the school of record.

## Stop Enrollment/Administrative Withdrawal

Insufficient or improper information given by the student on any admission or enrollment form – or academic deficiencies, disciplinary actions and financial obligations to the University – can constitute cause for the student to be determined ineligible to enroll or to be administratively withdrawn.

## Transfer Courses From Other Institutions

Policies for transfer coursework are found in this catalog under Master of Science and Master of Arts, Transfer of Credits.

## Enrollment Policies

### Course Scheduling and Enrollment Cycles

When students enter their school of record and into a specific degree program, they are assigned an academic adviser. Students should consult with the adviser for course scheduling, schedule changes, petitions, degree requirements and other such academic concerns. Advisers normally will have established office hours. The school's records office monitors progress and maintains official degree plans for all students in a school. Students should schedule conferences with their academic advisers and the school's records office upon admission to a school and prior to their final term to ensure that they are meeting all University and graduation requirements.

Each fall, spring and summer term has an enrollment period during which the formal process of enrollment in the University is completed. Prior to each enrollment period, the Lyle Graduate Office will publish enrollment instructions.

Each student is personally responsible for complying with enrollment procedures and for ensuring the accuracy of his or her enrollment. Students are expected to confirm the accuracy of their enrollment each term. Students who discover a discrepancy in their enrollment records after the close of enrollment for the term should immediately complete a Petition for Enrollment Policy Exception. Petitions are to be submitted to the appropriate records office within six

months of the term in which the discrepancy appeared; contact information for submitting a Petition for Enrollment Policy Exception can be viewed on the University Registrar's Office website at [www.smu.edu/EnrollmentServices/Registrar/Enrollment/EnrollmentPolicyException](http://www.smu.edu/EnrollmentServices/Registrar/Enrollment/EnrollmentPolicyException). Petitions submitted later than six months after the discrepancy may not be considered.

## Undergraduates Enrolling for Graduate Courses

### Accelerated Pathway Programs

The Accelerated Pathway Programs policy applies to undergraduate students who enroll in one of SMU's Accelerated Pathway Programs. Institutional aid may be eligible for covering tuition costs associated with graduate courses as described below.

Students may not enroll for any graduate level course work to be applied toward their master's degree, prior to the accumulation of 90 credit hours toward their baccalaureate degree. Students must apply and be admitted as a graduate student at least one fall or spring term prior to receiving their master's degree having had their baccalaureate degree conferred prior to that term. Students must enroll and be in good standing as a full-time status graduate student for at least one fall or spring term prior to receiving their master's degree.

Graduate hours earned as an undergraduate are included in the determination of full-time status for the term. Graduate hours and grades earned as an undergraduate that count towards their baccalaureate degree are included in the undergraduate scholastic totals and the graduate scholastic totals. Graduate hours and grades earned as an undergraduate that do not count towards that baccalaureate degree are excluded from the undergraduate scholastic totals but are included in the graduate scholastic totals. The maximum number of graduate hours (up to 30 hours) that may be taken in the final year of the baccalaureate degree is mandated by SMU's accrediting agency. The number of graduate hours which may be counted toward the baccalaureate degree is determined by the school to which the master's degree belongs. An undergraduate is limited to earning a maximum of 30 graduate hours as an undergraduate student after the completion of 90 credit hours towards their baccalaureate degree. A student must earn a minimum 150 combined hours to be conferred both a baccalaureate and master's degree.

Students considering an Accelerated Pathway Program should consult with the Office of Financial Aid about its effect on federal, state and institutional aid.

### Other Graduate Course Enrollment by Undergraduate Students

In addition to the Accelerated Pathway Programs, with the written permission of their academic dean and permission of the dean of the graduate courses, an excelling undergraduate student may enroll for graduate level coursework that will be part of their undergraduate record, count towards the undergraduate degree and be included in the undergraduate scholastic totals. The undergraduate student must have accumulated 90 credit hours toward their baccalaureate degree. Graduate hours enrolled as an undergraduate are included in the determination of full-time status for the term. An undergraduate is limited to earning a maximum of 30 graduate hours as part of their undergraduate record.

### Schedule Changes

The deadline for adding courses, dropping courses without grade record and changing sections for each enrollment period is listed on the Official University Calendar ([www.smu.edu/registrar](http://www.smu.edu/registrar)). Students are encouraged to seek assistance from their advisers when considering whether to add or drop a course. A student may drop a course with a grade of *W* (Withdraw) through approximately midterm by using the my.SMU Student Homepage. The specific deadline is listed on the Official University Calendar.

After the deadline date on the Official University Calendar, the student may not drop a class. All schedule changes must be processed by the deadline date specified on the Official University Calendar. **Note:** Schedule changes are not complete for official University record purposes unless finalized in the University Registrar's Office.

**Student-Athletes.** Students must consult with the Athletic Compliance Office prior to dropping a course. In the consultation, the student will review the effects the drop might have on his or her athletic participation and financial aid. After the consultation, the Athletic Compliance Office will update my.SMU to allow the student to process the drop, if necessary. The consultation is advisory; students are responsible for their enrollment. For assistance regarding

scholarships or other aspects of being a student-athlete, students should contact the Office of the Assistant Athletic Director for Student-Athlete Development.

**International Students.** Students must consult with the International Student & Scholar Services Office prior to dropping a course. (Contact [iss@smu.edu](mailto:iss@smu.edu) for consultation.) If dropping a course will cause the student to be enrolled in fewer than the required number of hours to remain a full-time student, the student's immigration status could be affected. After the consultation, the International Student & Scholar Services Office will update my.SMU to allow the student to process the drop, if necessary. The consultation is advisory; students are responsible for their enrollment.

**Students on Merit or Need-based Financial Aid.** Students should consult with their financial aid adviser prior to dropping a course. (See [www.smu.edu/EnrollmentServices/FinancialAid](http://www.smu.edu/EnrollmentServices/FinancialAid) for information regarding your financial aid counselor.) If dropping a course will cause the student to be enrolled in fewer than the required number of hours to remain a full-time student, the student's financial aid status may be affected. After the consultation, the student may drop a course through my.SMU Student Homepage. The consultation is advisory; students are responsible for their enrollment. Questions regarding this procedure or financial aid should be directed to the Office of Financial Aid.

## Withdrawal From the University

Policies on refunds for withdrawal from the University are found in the Financial Information section of this catalog and in the *Financial Information Bulletin*. No refunds are made without an official withdrawal.

Students should be aware of the difference between a *drop* and a *withdrawal* and remember that they have different deadlines and separate financial policies. The deadlines for each are posted each term on the Official University Calendar at [www.smu.edu/registrar](http://www.smu.edu/registrar). A drop occurs when a student removes one or more courses from his or her schedule and remains enrolled in at least one credit hour for the term. A *withdrawal* occurs when removing the course or courses will result in the student being enrolled in **zero** hours for the term.

If a student removes all courses from his or her schedule **prior to the first day of the term**, the transaction is considered a *cancellation* and does not result in financial penalty or impact the student's transcript.

A student who wishes to withdraw (resign) from the University before the end of a term or session must initiate a Student Petition for Withdrawal form and secure approval from his/her school's records office. The records office will then submit the form to the Office of the University Registrar. The effective date of the withdrawal is the date on which the Student Petition for Withdrawal is processed in the University Registrar's Office. Discontinuance of class attendance or notification to the instructors of intention to withdraw does not constitute an official withdrawal.

The enrollment of students who withdraw on or before the tenth class day of fall or spring semester as listed on the Official University Calendar will be canceled. Courses and grades are not recorded for canceled enrollments; however, the student will owe a portion of his/her tuition and fees. Additional information is available in the *Financial Information Bulletin*. A student who withdraws after the tenth class day of the fall or spring semester will receive the grade of *W* in each course in which he or she enrolled.

Medical withdrawals allow a prorated refund of tuition and fees and have conditions that must be met prior to re-enrollment at SMU. Medical withdrawals can only be authorized by professionals in the Dr. Bob Smith Health Center, Dean of Student Life, or Vice President for Student Affairs. The last day for a medical withdrawal is the last day of class instruction for the term from which the student is withdrawing. Retroactive medical withdrawals cannot be granted.

Mandatory administrative withdrawals occur when a student is not suspended but current and/or future enrollments are canceled or withdrawn. A student's academic record is annotated with "mandatory administrative withdrawal" and the effective dates for this withdrawal. Mandatory administrative withdrawals allow a prorated refund of tuition and fees and have conditions that must be met prior to re-enrollment at SMU. Mandatory administrative withdrawals can be

authorized only by the Provost and Vice President for Academic Affairs, Vice President for Student Affairs or Dean of Student Life.

Withdrawing students living in SMU housing must check out of the residence halls with the Department of Residence Life and Student Housing per established procedures.

## **Audit Enrollment (Course Visitor)**

Individuals desiring to audit (visit) a class, including those concurrently enrolled for regular coursework, are required to process an Audit Permit form. Audit Permit forms must be completed, approved and received in the University Registrar's Office no later than the last day to enroll for the term. Forms are available

at [www.smu.edu/EnrollmentServices/Registrar/FormsLibrary](http://www.smu.edu/EnrollmentServices/Registrar/FormsLibrary). Space must be available in the class. The following regulations are applicable:

1. Classroom recitation and participation are restricted; availability of course handouts, tests and other materials is restricted; no grade is assigned and no credit is recorded; no laboratory privileges are included.
2. The individual's name does not appear on class rosters or grade rosters.
3. Regular admission and enrollment procedures are not conducted for auditors.
4. The audit fee is nonrefundable.
5. If credit is desired, the course must be enrolled for and repeated as a regular course, and the regular tuition must be paid.

## **No-Credit Enrollment**

Enrollment for no credit is accomplished in the conventional manner of enrollment, with regular admission and enrollment procedures being required. The student pays the regular tuition and fees, participates in class activities, and receives the grade of *NC* upon completion of the coursework. The student must indicate in writing no later than the 12th day of classes (the fourth day of classes in summer sessions; the second day of classes in intersession terms) that he or she wishes to take a course for no credit. Permission of the instructor or department is required for this type of enrollment, and the student is listed on class rolls. This enrollment is different from audit enrollments, for which no enrollment or grade is recorded.

## **Class Attendance**

Regular class attendance is required. At the beginning of the course, the instructor announces policies regarding the effect of class attendance and tardiness on the student's standing in the course via the course syllabus. These policies may include dropping a student from the course for nonattendance or tardiness as described below.

All reasons for absence or tardiness should be submitted at once to the instructor.

The satisfactory explanation of absence may release a student from disciplinary action but does not relieve a student from responsibility for the work of the course during his or her absence. A student who misses an announced test, examination or laboratory period in a regular course of study and has the permission of the instructor may be given an opportunity to make up the work at the instructor's convenience. The instructor determines in all instances the extent to which absences and tardiness affect each student's grade.

Students who miss two successive class meetings during the official add-drop period at the beginning of each term are subject to being dropped from the course. To avoid this possibility, students should contact the instructor or the department immediately following such a series of absences.

Students may be dropped by a course instructor or academic dean for nonattendance or tardiness with a grade of *W* until the University deadline to drop. After the deadline, students must remain enrolled in the course.

Students may also be dropped by a course instructor for inappropriate classroom behavior. The instructor must submit the Administrative Drop Request to drop a student from the course by the University deadline to drop indicated in the official Academic Calendar. Department Chair approval is required. After the deadline, the student must remain enrolled in the course and receive a final grade of *F*.

Students are charged an administrative fee for instructor initiative drops for attendance, tardiness and disruptive behavior.

A student who has a passing grade in a course at the time of the final examination, but who misses the examination and satisfies the dean that the absence was unavoidable, may secure from the dean permission to take the examination at a time convenient for the instructor.

## **Excused Absences for University Extracurricular Activities and Religious Holidays**

Students who participate in officially sanctioned, scheduled University extracurricular activities or observe a religious holiday should be given an opportunity to make up class examinations or other graded assignments missed as a result of this participation or related travel. The manner in which examinations or other assignments missed because of these activities are to be made up is left to the discretion of each individual faculty member. However, students should not be penalized in any way for these excused absences and should be informed by the instructor at the beginning of the term, preferably in writing, of the instructor's makeup policy. It is the responsibility of the student to make arrangements with the instructor prior to any missed scheduled examination or other missed assignment for making up this work, and to obtain any class notes or other course material missed due to absence prior to taking any subsequent examinations or submitting any subsequent graded assignments.

This statement of University policy applies for all students. To minimize the difficulties caused for both student-athletes and their instructors by excused absences due to University-sanctioned athletic activities or related travel, the Athletic Department shall 1) make available to all student-athletes and their academic advisers prior to registration a copy of the student's activity and travel schedule for the upcoming term, so as to facilitate the student's enrollment in class sections that will minimize activity and travel conflicts; and 2) require all student-athletes to provide a copy of that term's activity and travel schedule, and a copy of this Statement of University Policy, to each of their instructors at the first class meeting of the term.

Other University colleges and departments whose students will miss classes because of their participation in officially sanctioned, scheduled University extracurricular activities, related travel, or observing of religious holidays are encouraged to adopt similar procedures to minimize the difficulties caused by such absences.

A list of religious holidays for use in requesting excused absences is available on the Official University Calendar. Students must notify the class instructor in writing by the 12th day of the term of any such absences that will occur during that term. Accommodations are to be made without penalty. More information can be found in the *University Policy Manual*, available at [www.smu.edu/policy](http://www.smu.edu/policy).

## **Absence Due to Illness**

The Dr. Bob Smith Health Center does not provide documentation for granting excused absences from class. If students are absent for illness, they should talk to their professors about how they might catch up with the material missed. If students are seriously ill and require hospitalization or an extended absence, students should talk to their professors and the Office of Student Life to decide how to deal with the interruption in their studies. To facilitate communication with their professors about their absence, students may submit the Absence from Class Form available at [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter).

## **Interpretation of Course Numbers**

Each SMU course has a four-digit course number. The first number indicates the general level of the course.

1000–1999	First-year
2000–2999	Sophomore
3000–3999	Junior
4000–4999	Senior
5000–5999	Senior or Graduate

6000–9999 Graduate

The second digit specifies the number of credit hours; exceptions are noted below.

<i>Digit</i>	<i>Credit Hours</i>
0	0, .5 or 10–15
1	1 or 1.5

The third and fourth digits are used to make the course number unique within the department.

## Grade Policies

A student's grades are available to him or her through my.SMU Student Homepage.

## Grade Scale

The grade of a student in any course is determined by the instructor of the course. The following grades are authorized for recording on the student's official graduate academic record maintained by the University Registrar's Office.

<i>Grades</i>	<i>Description</i>	<i>Grade Points per Term Hour</i>
<i>A</i>	Excellent Scholarship	4.000
<i>A-</i>	Excellent Scholarship	3.700
<i>B+</i>	Good Scholarship	3.300
<i>B</i>	Good Scholarship	3.000
<i>B-</i>	Good Scholarship	2.700
<i>C+</i>	Fair Scholarship	2.300
<i>C</i>	Fair Scholarship	2.000
<i>C-</i>	Fair Scholarship	1.700
<i>D+</i>	Poor Scholarship	1.300
<i>D</i>	Poor Scholarship	1.000
<i>D-</i>	Poor Scholarship	0.700
<i>F</i>	Fail	0.000
<i>P, CR, S</i>	Pass, Credit, Satisfactory	*
<i>I</i>	Incomplete	*
<i>NC, U</i>	No Credit Received, Unsatisfactory	*
<i>X</i>	No Grade Received in Registrar's Office	*
<i>W</i>	Withdrew	*

**Note:** Asterisks denote grades not included in a student's GPA.

## Grade of F, D, W, X and Missing/Blank

Failing is graded *F*. If the student's work is incomplete, poor quality and not acceptable, a grade of *F* will be given. After such a grade, credit may be obtained only by repeating the course.

The grade of *D* represents performance below average expectations. Students receiving a *D* in a course that is a prerequisite to another course should consult with their advisers about repeating the course so that they will be adequately prepared for work in the following course. Courses passed with a grade of *D*, *D-* or *D+* will generally not count toward major or minor requirements.

The grade of *W* cannot be recorded unless completion of the official drop or withdrawal process has occurred by the applicable deadline *during the term of enrollment*. Only the grade of *W* may be recorded if the student has officially dropped courses from the schedule or withdrawn (resigned) from the University for the term. The grade of *W* may not be revoked or changed to another grade because the act of officially dropping/withdrawing is irrevocable.

The grade of *X* is a temporary administrative grade used when an official grade has not been received from the instructor. The grade of *X* will be changed to *F* if a grade is not received within 60 days of the end of the term.

Graduation candidates must clear all *X*'s prior to the deadline on the Official University Calendar, which may allow less time than 60 days. Failure to do so can result in removal from the degree candidacy list and/or conversion of the grade of *X* to the grade of *F*.

A final official grade must be recorded for each enrollment. An *F* will be assigned for a missing or blank grade also indicates an official grade has not been received from the instructor. Graduation candidates must receive a grade for all course enrollments prior to the deadline on the Official University Calendar. Failure to do so can result in removal from the degree candidacy list and/or the assignment of a grade of *F*.

## Grade of Incomplete

A student may temporarily receive a grade of Incomplete (*I*) if a substantial portion of the course requirements have been completed with passing grades, but for some justifiable reason acceptable to the instructor, the student has been unable to complete the full requirements of the course.

The grade of *I* is normally changed to a final grade within one year but no later than the time of graduation.

At the time a grade of *I* is given, the instructor must stipulate the requirements and completion date that are to be met and the final grade that will be given if the requirements are not met by the completion date.

The maximum period of time allowed to clear the Incomplete is 12 months. If the Incomplete grade is not cleared by the date set by the instructor or by the end of the 12-month deadline, whichever is earlier, the grade of *I* will be changed to the grade provided by the instructor at the time the Incomplete was assigned or to a grade of *F* if no alternate grade was provided.

The grade of *I* is not given in lieu of a grade of *F* or *W*, or other grade, each of which is prescribed for other specific circumstances.

The grade of *I* in a course does not authorize a student to attend or enroll in the course during a later term. Graduation candidates must clear all Incompletes prior to the deadline on the Official University Calendar. Failure to do so can result in removal from the degree candidacy list and/or conversion of the grade of *I* to the grade indicated by the instructor at the time the grade of *I* was given.

## Grade Point Average

A student's grade point average (cumulative GPA) is computed by multiplying the credit hours of each course attempted by the grade points earned in the particular course and then dividing the total number of grade points by the total number of hours attempted, excluding those hours for which grades are shown with an asterisk on the grade chart. The GPA is truncated, not rounded, at three decimal places.

For assistance estimating your GPA see the GPA calculator on the SMU website.

## Grade Changes

Changes of grades, including change of the grade of *I*, are initiated by the course instructor and authorized by the academic chair and by the academic dean of the school in which the course was offered. If a student requests a grade change, the instructor may ask the student to provide the request as a written petition, which may become an official part of any further process at the instructor's discretion. Changes of grades may be made only for the following authorized reasons: to clear a grade of *I*, to correct a processing error or to reflect a re-evaluation of the student's original work. A change of grade will not be based on additional work options beyond those originally made available to the entire class.

Changes of grades of *I* should be processed within a calendar year of the original grade assignment. Other changes of grades must be processed by the end of the next regular term. No grade will be changed after 12 months or after a student's graduation, except in cases where a grade is successfully appealed – provided that written notice of appeal is given within six months following graduation – and in extenuating circumstances authorized by the academic dean and approved by the University Registrar's Office.

## **Grades for Repeated Courses**

Students will be allowed to repeat courses according to the following rules: Both the initial and the second grades will be recorded on the student's permanent academic record (transcript). Both grades will be included in the calculation of the student's cumulative GPA and in the determination of academic probation, suspension, dismissal, honors and graduation. Only the repeated course and not the initial credit hours count toward the number of hours needed for graduation.

## **Pass/Fail Option**

Students should consult with their advisers before declaring the pass/fail option for any course, as some courses may not be taken pass/fail and no courses taken for pass/fail credit can be used to satisfy academic curricular requirements for Lyle graduate degrees.

## **Grade Appeals**

A student who feels that an assigned grade is other than the grade earned must first discuss the matter with the course instructor to determine if the discrepancy is caused by error or misunderstanding. At the time of the initial discussion, the student may be asked to provide a written petition requesting the change of grade.

A student who is not satisfied by the instructor's decision on a request for a grade change, and who maintains that the original grade was capriciously or unfairly determined, may appeal to the chair of the department in which the course was offered (or, in the case of a nondepartmental course, to a faculty agent designated by the dean of the school offering the course). After discussing the matter with the student, and bearing in mind that the final authority in matters of academic judgment in the determination of a grade rests with the course instructor, the chair (or faculty agent) will consult with the course instructor, who will subsequently report to the student the disposition of the appeal.

A student who is not satisfied by the disposition of the appeal may appeal the decision to the dean of the school offering the course. The dean will take action as he or she deems appropriate. A student may appeal the dean's decision to the provost. In their actions, the dean and the provost must respect the principle that the determination of a grade rests with the course instructor.

## **Academic Advising and Satisfactory Progress Policies**

### **Academic Advising**

For an effective advising relationship, the student must be prepared when meeting with the adviser. The student must initiate the advising appointment. The adviser will give assistance to the student, but the student has the final responsibility for the accuracy of the enrollment, the applicability of courses toward the degree requirements, and his or her academic performance.

Students are assigned an academic adviser by their academic dean's office, records office or major department. A student who enrolls without first meeting with his or her assigned academic adviser may be subject to sanctions including, but not limited to, cancellation of the term enrollment and restriction from the self-service enrollment functions.

### **Leave of Absence**

A leave of absence is a temporary leave from the University – a kind of "timeout" – that may be necessary during an academic career. Students may elect to take leaves of absence for a variety of reasons, including 1) medical reasons due to accident or illness, 2) family crises or other personal situation that requires an extended absence from school, 3) financial issues that may take time to resolve, and 4) academic difficulties that may best be handled by taking time to refocus on college work.

Typically, a leave of absence is for one term or one academic year. A student may extend a leave of absence by contacting his or her academic department representative. The process to return to SMU after a leave-of-absence period can be an easy one, especially if the student has gone through the steps to file for a leave of absence and planned ahead

for the return. Following SMU's leave-of-absence guidelines helps 1) assure that the degree requirements per the catalog of record when the student initially matriculated at SMU still apply upon return, 2) assist with financial aid processing, and 3) provide the support needed to return to SMU and successfully finish the degree.

The SMU Leave of Absence Policy provides students with a formal process to "stop out" of SMU for either voluntary or involuntary reasons. Typically, a *leave of absence* is for a temporary departure from the institution; however, *intended permanent withdrawals* from SMU will also be processed under the Leave of Absence Policy.

The first step to effect a leave of absence is for the student to arrange an appointment to meet with his or her academic adviser, who will then assist the student with the process.

## Academic Progress

Failure to meet established minimum acceptable standards of academic or disciplinary performance can result in probation, suspension or dismissal. Information regarding disciplinary action can be found under Code of Conduct in the Student Affairs section of this catalog.

Graduate students must maintain a cumulative GPA of 3.000. If in any term the student falls below this cumulative GPA, the student will be placed on probation for one regular term. If at the end of the term of probation the cumulative GPA is not up to 3.000, the student may be removed from the program at the discretion of the dean's office or records office.

## Definitions: Academic Probation, Academic Suspension, Academic Reinstatement and Academic Dismissal

**Academic Probation.** Academic probation is a serious warning that the student is not making satisfactory academic progress. A student on academic probation is still eligible to enroll and is considered in good standing for enrolling in classes and for certification purposes. Academic probation is not noted on the permanent academic record; however, a student on academic probation may be subject to certain conditions during the period of probation and will be subject to academic suspension if he or she does not clear academic probation.

**Academic Suspension.** Academic suspension is an involuntary separation of the student from SMU. Academic suspension is for at least one regular term. The term of suspension might be for a longer period depending on the policy of the school of record or the terms of the individual student's suspension. Students suspended from one school are suspended from the University.

The status of academic suspension is recorded on a student's permanent academic record. While on academic suspension, a student is not in good academic standing for certification purposes and is not eligible to enroll at SMU. Students who have served their suspension and who are eligible to return may not enroll for any intersession terms without permission from their school of record.

Credits earned at another college or university during a term of suspension may not be applied toward an SMU degree. A grade point deficiency must be made up through enrollment at SMU.

**Academic Reinstatement.** A student who has been on academic suspension once may apply for reinstatement to SMU. If reinstated, the student may enroll in classes, and he or she is considered in good academic standing for purposes of certification. A student who is reinstated remains on academic probation until the conditions of academic probation are satisfied.

**Academic Dismissal.** A second suspension results in an academic dismissal from the University. Academic dismissal is final, with no possibility of reinstatement or readmission to the University. Academic dismissal is recorded on the student's permanent academic record.

## Academic Petitions and Waivers

Petitions and/or requests for waivers concerning University requirements, graduation requirements and the evaluation of transfer work should be submitted to the student's school of record office.

## **Transfer Coursework**

Policies for transfer credit are found in this catalog under Master of Science and Master of Arts, Transfer of Credits.

## **Graduation Policies**

### **Apply to Graduate**

Students must file an Application for Candidacy to Graduate with their school's records office no later than the last day of the first week of the term in which they will complete all degree requirements. Applications are filed through my.SMU Student Homepage by the deadline date on the Official University Calendar.

Students who file an application after the published deadline may be required to pay a nonrefundable late fee. Late applications may be denied after the start of the next term, and the Application for Candidacy to Graduate applied to the next conferral date. Students taking coursework at another institution and transferring the course(s) back to SMU are responsible for ensuring that the University Registrar's Office receives their official transcript in order for their degree to be conferred for the anticipated graduation term.

SMU has three degree conferral periods for most programs: fall (December), spring (May) and summer (August). In addition, students who complete their degree requirements during a Jan Term (January), May term or August term will have their degrees conferred at the conclusion of the intersessions.

### **Commencement Participation**

An All-University Commencement Convocation is held in May for students enrolled and on schedule to complete degree requirements during the spring term. Students enrolled and on schedule to complete all degree requirements during the following summer session may also participate in the University Commencement Convocation, although their degrees will not be conferred until August. Students may also participate in departmental or school ceremonies according to the policies of the departments or schools.

Doctoral candidates may participate in commencement only after all degree requirements are complete.

An All-University December Commencement Convocation is held each year for students completing degree requirements during the fall term. Students who completed degree requirements during the previous summer session may also participate. Students on schedule and enrolled to complete all degree requirements during the following Jan Term (January) intersession may also participate in the December ceremony, although their degrees will be conferred in January.

A student may participate once in either the All-University Commencement Convocation in May or the All-University December Commencement Convocation for a given degree, but not both.

To participate in a ceremony, a student must apply online and file with their school's records office an Application for Candidacy to Graduate or Intent to Participate Form.

### **Statute of Limitations for Degree Plans**

A student who has been readmitted to the University following an absence of more than three years will be expected to meet all requirements for graduation current at the time of readmission.

## **Lyle Graduate Programs Policies and Procedures**

### **Concurrent Enrollment**

A student who wishes to enroll concurrently in another college or university should first obtain written approval from the Graduate Dean's Office that the courses taken would be transferable.

## Approved Courses

Normally all graduate-level courses are numbered 6000 and above. Graduate students may take courses numbered below 6000 if they are part of the program of study or with the approval of the faculty adviser. For the 6000 level or above, the general prerequisite, in addition to admission to graduate studies, is 12 credit hours of advanced work in the department, or six credit hours in the department and six in a closely related program approved by the major department and the dean for the Office of Research and Graduate Studies. If other specific prerequisites are needed, these are stated in departmental listings of courses.

## Readmission

Students already matriculated into a program who were not enrolled in the previous term must file a readmission application. This form must be submitted to the Graduate Admissions Office **no later than three weeks before the enrollment date** for the desired term of re-entrance. Additional information is found in the General Information section of this catalog. Re-admission is granted at the discretion of each department in consultation with the Associate Dean. The application to apply for readmission can be found at <https://gradadmission.smu.edu/register/lylereactivationrequest>.

## Thesis/Praxis/Dissertation

Several master's degree programs require theses for completion; several others leave theses as an option. The Doctor of Engineering program requires the completion of a praxis. Dissertation is required of all Ph.D. programs.

Students submit a final copy of the thesis/praxis/dissertation electronically as partial fulfillment of degree requirements. A microfilm copy will be housed in the University's library and can be copied and made available to the University community, and to other individuals and institutions upon request, all at the discretion of the Central University librarian at Southern Methodist University.

# Lyle School of Engineering: Student Life and Housing

## The Division of Student Affairs

The Division of Student Affairs ([www.smu.edu/studentaffairs](http://www.smu.edu/studentaffairs)) creates and supports a robust student experience and forges strategic partnerships to best serve the entire SMU community. As educators and scholar-practitioners, we create purposeful learning and leadership opportunities for students to clarify and develop their knowledge, values, skills, and identities – challenging each to become a world changer. The Division of Student Affairs is comprised of five different organizational units that each provide unique educational and supportive resources for students during their time at SMU: Student Wellbeing and Support, Student Engagement and Success, Residence Life and Student Housing, Religious Life, and the Hegi Family Career Development Center.

## Student Wellbeing and Support

### Health Services

[www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)

The Dr. Bob Smith Health Center provides SMU students with campus access to quality, comprehensive and student-centered medical care, mental health services, and outreach programs designed to promote their health and wellbeing. The new 33,000 square foot state-of-the-art clinic facility is centrally located on campus at 6211 Bishop Boulevard. The Health Center is certified by the Accreditation Association for Ambulatory Health Care (AAAHC) for meeting rigorous nationally recognized standards and committing to delivering the highest quality of care.

**Medical Services.** The Dr. Bob Smith Health Center provides a wide range of health services allowing students to receive primary care on campus. Services available include the treatment of acute illnesses, care of injuries, minor medical procedures, physical exams, STD testing, vaccinations, allergy injections, and limited specialty services. Additional ancillary services include a clinical laboratory, an on-site pharmacy, X-ray imaging and diagnostic services, and a part-time sports medicine clinic. For appointments and health information, students may call 214-768-2141 or visit [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter).

**Acute/After Hours Care.** Students should call 911 for immediate response to life-threatening injuries or illnesses. For other urgent concerns after clinic hours, students should seek a local hospital or urgent care center. A listing of several hospital emergency rooms and after-hours urgent care facilities is provided for general reference on the Health Center website ([www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)).

**Costs.** The Health Services Fee, which is included in general student fees, covers routine medical visits and counseling appointments at the Health Center. Charges are assessed separately for lab services, x-rays, immunizations, medical supplies, pharmacy and specialty care. Claims are filed for students participating in the SMU Student Health Insurance Plan. Students with other insurance plans may request an itemized receipt in order to submit a claim for insurance reimbursement. The Pharmacy files claims for most insurance plans.

**Mandatory Health Insurance Policy.** SMU students are required to maintain insurance coverage as a condition of their enrollment. The University offers the SMU Student Health Insurance Plan (SHIP), which is administered by the Health Center's Student Insurance Office. The plan provides coverage at a reasonable cost for most on- and off-campus health care. Information is available at [www.smu.edu/healthinsurance](http://www.smu.edu/healthinsurance).

Domestic students taking nine or more credit hours and international students taking one credit hour or more are automatically enrolled in the Student Health Insurance Plan (SHIP) each semester unless they expressly waive coverage in their my.SMU account. Information about the waiver deadline is available online at [smu.edu/healthinsurance](http://smu.edu/healthinsurance). Domestic students taking between one and eight credit hours are eligible to enroll in the Student Health Insurance Plan on a voluntary basis.

**Pharmacy.** A full service pharmacy is conveniently located in the Dr. Bob Smith Health Center to meet students' prescription needs from 8:30 a.m. to 5:00 p.m., Monday through Friday. The pharmacy is in network with most insurance plans. Prescriptions and refills may be transmitted directly to the pharmacy from the student's physician.

**Immunizations.** All students (undergraduate, graduate, part-time and full-time, to include international and IEP/ESL students) are required to have an SMU medical history form on file in the Dr. Bob Smith Health Center before registration. (Health history forms are available on the Health Center's website at [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)). All students must also submit - to the Health Center - immunization records that provide proof of two doses of the vaccine against measles, mumps and rubella. These MMR immunizations must be documented by a physician, public health record, military health record or school health record. Students will not be allowed to register without immunization compliance.

Texas state law requires all new students entering an institution of higher education under the age of 22 to provide proof of immunization for bacterial meningitis. The meningitis vaccine or a booster dose must have been received during the five-year period prior to enrollment and not less than ten days before the start of classes. Students seeking exemption from this requirement due to health risk or conscience, including religious belief, should see the second page of the SMU medical history health form. More information is found under Final Matriculation to the University in the Admission to the University section of this catalog.

All required immunizations may be obtained at the Health Center.

**Class Absence Due to Illness.** The Health Center does not issue excuses from classes for illness. Please refer to the Health Center website ([www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)) for the Class Excuse Policy.

**Confidentiality and Privacy.** Confidentiality and privacy of student health information is of paramount importance at the Dr. Bob Smith Health Center. The Health Center follows all applicable state and federal laws related to the disclosure of medical and mental health information, and applies to the highest professional standards of care and privacy. All student-patient health service records are confidential. No information about a student can be released to any third party without the student's written permission.

**Release of Medical Information.** Patient health information and medical records are released only with a written release by the student. Students may sign a release allowing the Health Center to provide specific medical information with their parents, significant others or health care representatives.

**Health Education and Promotion.** The Health Center's Office for Community Health and Promotion serves as a resource to enhance the well-being of SMU students in support of their learning and success. Health information is presented through engaging programs and services to help students make informed and healthy choices. The Health Center works with students to promote activities that create a healthy environment for the SMU community.

**Counseling Services.** The Health Center provides crisis intervention, individual and group therapy, psychiatric evaluation and counseling referrals for SMU students. Use of all services is voluntary and strictly confidential. There is no charge to students who have paid the University health fee. Students can seek confidential help for concerns such as anxiety, depression, relationships, career/life planning, sexual identity, eating/body image and sexual assault/sexual harassment. Alcohol and drug prevention is a free and confidential source of help and information to the SMU community, covering issues related to substance abuse and addiction. Any laboratory tests or pharmaceuticals ordered will be charged to the student. For more information regarding scheduling appointments, students should call 214-768-2277 or visit [www.smu.edu/counseling](http://www.smu.edu/counseling).

**Testing Services.** Testing Services offers fee-based testing to the Dallas-area community. These services include on-campus administration of national testing programs such as the LSAT, MPRE, GRE and others. Other testing offered includes credit by exam (CLEP), and correspondence examinations for local distance learners enrolled in other universities. For additional information, students should visit [www.smu.edu/testingprogram](http://www.smu.edu/testingprogram) or call the center at 214-768-2269.

## **Dedman Center for Lifetime Sports**

[www.smu.edu/recsports](http://www.smu.edu/recsports)

The Dedman Center for Lifetime Sports provides aerobic studios, an indoor running track, basketball courts, volleyball courts (indoor and outdoor), racquetball courts, a climbing wall, a bouldering wall, a 25-yard recreational pool with

five lanes, 15,000 square feet of fitness and weight equipment and a Starbucks in the lobby area. These facilities are open to SMU students, faculty, staff and paying members.

**Facilities/Operations.** The center is a 170,000 square foot facility designed for recreational sports, wellness, programs and the traditions and spirit of SMU.

**Aquatics.** SMU Aquatics features a five-lane, indoor recreational pool and an out-door, zero-depth entry fountain pool known as "The Falls." Students have opportunities to participate year-round in recreational swimming, sunbathing and water sports such as water basketball, volleyball and polo. Classes offered include water fitness, adult and child swimming lessons, children's group lessons, and American Red Cross lifeguard training.

**Programs.** A variety of services and programs are available, including club sports, fitness classes, intramural sports and the Outdoor Adventure program.

**Club Sports.** Club sports offer an opportunity for students interested in concentrated training and participation in a sport. These recognized student organizations offer competition with other university/college club teams in baseball, cycling, ice hockey, men's and women's lacrosse, polo, rugby, men's and women's soccer, triathlon, ultimate Frisbee, volleyball, wakeboarding and water polo.

**Fitness.** SMU Fitness offers group exercise classes and personal training sessions. Group X exercise classes are offered throughout the day to accommodate a variety of schedules. Different types of cardio, strength and flexibility classes are available. Experienced and knowledgeable personal trainers offer sessions to train members of the University community, either one-on-one or in groups, to meet their personal fitness goals. All SMU Fitness programs have a fee for participation.

**Intramural Sports.** Many opportunities for team and individual competition are available through intramural sports such as golf, racquetball, tennis, and dodgeball. The five major sports are flag football, volleyball, basketball, soccer and softball. Leagues provide year-round opportunities to participate in a wide variety of sports and activities. Additional leadership opportunities are available for those interested in officiating or supervising various activities.

**Outdoor Adventure.** SMU Outdoor Adventures is the campus source for outdoor recreation and adventure, offering fun and challenging recreational adventure activities, community-building programs, and student leadership and personal growth opportunities. Students can sign up for SMU OA trips offering traditional and non-traditional outdoor adventure pursuits such as backpacking, rock climbing, caving and canoeing. SMU OA also manages the SMU Climbing Center, the indoor climbing and bouldering facility and the Portable Challenge and Team Development course.

**Spirit/Traditions.** The Recreational Sports Department houses the spirit and traditions of SMU including the Cheer Squad, Mustang Band, Peruna, Pom Squad and the Rotunda Yearbook.

**Mustang Band.** Founded in 1917, the Mustang Band was named the "Best College Marching Band" in Texas in Kirk Dooley's Book of Texas Bests. Long known as "the hub of SMU spirit," the band represents the University at football and basketball games, produces the Pigskin Revue during Homecoming and performs at special University- and community-related events. Membership is open to all SMU students by audition, regardless of major and scholarships based on need and ability are available.

**Rotunda Yearbook.** For over 100 years, the Rotunda Yearbook has chronicled the history of Southern Methodist University. Named in December 1915 after the architecture of Dallas Hall, the Executive Council of the Student Association voted for the annual's name after seven different students suggested it. From its beautiful art to captivating themes, the Rotunda has evolved with the times, earning national awards and recognition from the Associated Collegiate Press (ACP) and Columbia Scholastic Press Association (CSPA).

**Spirit Squads.** Members are full-time students who dedicate their time, energy and athleticism to support Mustang Athletics.

The Cheerleading Squad is a highly competitive team consisting of 20 to 30 young men and women. Twenty of the team's members compete at NCA College Nationals held in Daytona Beach, Florida where the squad placed first in 2016, 2017 and once again in 2018.

The Pom Squad is well known for their energetic performances and their ability to entertain a crowd. The dancing style of the team includes jazz, pom and hip-hop.

Peruna IX (2011-PRESENT) is the beloved mascot of the university and is accompanied by Peruna handlers that lead him across the field during football games. The Human Peruna Mascot is the costumed hero that represents SMU, and is a traditional accessory to Peruna IX.

## **Academic Integrity and Code of Conduct**

### **The Honor Code of Southern Methodist University**

Intellectual integrity and academic honesty are fundamental to the processes of learning and of evaluating academic performance, and maintaining them is the responsibility of all members of an educational institution. The inculcation of personal standards of honesty and integrity is a goal of education in all the disciplines of the University.

The faculty has the responsibility of encouraging and maintaining an atmosphere of academic honesty by being certain that students are aware of the value of it, understand the regulations defining it and know the penalties for departing from it. The faculty should, as far as is reasonably possible, assist students in avoiding the temptation to cheat. Faculty members must be aware that permitting dishonesty is not open to personal choice. A professor or instructor who is unwilling to act upon offenses is an accessory with the student offender in deteriorating the integrity of the University.

Students must share the responsibility for creating and maintaining an atmosphere of honesty and integrity. Students should be aware that personal experience in completing assigned work is essential to learning. Permitting others to prepare their work, using published or unpublished summaries as a substitute for studying required material, or giving or receiving unauthorized assistance in the preparation of work to be submitted are directly contrary to the honest process of learning. Students who are aware that others in a course are cheating or otherwise acting dishonestly have the responsibility to inform the professor and/or bring an accusation to the Honor Council.

Students and faculty members must share the knowledge that any dishonest practices permitted will make it more difficult for the honest students to be evaluated and graded fairly and will damage the integrity of the whole University. Students should recognize that their own interests and their integrity as individuals would suffer if they condone dishonesty in others.

### **The Honor System**

All SMU undergraduate students and graduate students with the exception of those enrolled in the Schools of Law, Theology, Business, or Education are subject to the Honor Code and as such are required to demonstrate an understanding of and to uphold the Honor Code. Honor codes for graduate students enrolled in the Cox School of Business, Dedman School of Law, Perkins School of Theology and Simmons School of Education and Human Development are explained in their graduate catalogs.

In support of the Honor Code, the Honor Council has the responsibility to maintain and promote academic integrity. The Honor Council is composed of a minimum of 27 members selected through an application and interview process organized by the Honor Council Executive Board.

Academic dishonesty includes plagiarism, cheating, academic sabotage, facilitating academic dishonesty and fabrication. Plagiarism is prohibited in all papers, projects, take-home exams or any other assignments in which the student submits another's work as being his or her own. Cheating is defined as intentionally using or attempting to use unauthorized materials, information or study aids in any academic exercise. Academic sabotage is defined as intentionally taking any action that negatively affects the academic work of another student. Facilitating academic dishonesty is defined as intentionally or knowingly helping or attempting to help another to violate any provision of the Honor Code. Fabrication is defined as intentional and unauthorized falsification or invention of any information or citation in an academic exercise.

Suspected cases of academic dishonesty may be handled administratively by the appropriate faculty member in whose class the alleged infraction occurred or referred to the Honor Council for resolution. Suspected violations reported to the Honor Council by a student or by an instructor will be investigated and, if the evidence warrants, a hearing will be held by a board composed of a quorum of four members of the Honor Council.

Any appeal of an action taken by the Honor Council shall be submitted to the University Conduct Council in writing no later than four calendar days (excluding school holidays) after notification of the Honor Council's decision.

## **Code of Conduct**

The following are University procedures and standards with which every student must become familiar. The University considers matriculation at SMU an implicit covenant and a declaration of acceptance on the part of the student of all University regulations. The Student Conduct & Community Standards Office, website [www.smu.edu/studentconduct](http://www.smu.edu/studentconduct), promotes community, scholarship and civility by holding students accountable to the Student Code of Conduct and the Honor Code.

Standards of conduct are established through faculty, student and administrative efforts and are under continuous evaluation by the entire University community in order to assure reasonable and fair limits. At SMU, the student is assumed to have a high degree of loyalty and responsibility to the University and its well-being, as well as to himself or herself in personal, social and intellectual pursuits; the student's behavior both on and off campus is evidence of this.

Students at SMU will discover that they are encouraged to exercise a great amount of personal freedom as well as accompanying responsibilities. Through their personal capacities for intelligent thought and action, mature students understand that there are situations in which certain behavior must be modified for the benefit of others. The University stands firm in its commitments to the rights and freedoms of students, expecting in return the same respect and concern.

Due respect for the entire University community, faculty, staff and one's fellow students is always expected. The University expects all students to be responsible citizens and to abide by all federal, state and local laws. The University Code of Conduct applies to students both on and off campus. It is the University's expectation that students will avoid behaviors such as, but not limited to, the misuse of drugs and alcohol, dishonesty, gambling, hazing, or behavior that endangers or threatens to endanger the health and safety of any person.

Students are required to identify themselves when asked by a properly identified faculty or staff member, or by another student serving as a University staff member. Persons who are not members of the University community and without business on campus may be asked to leave.

## **Conduct Review Process**

Clear disciplinary procedures are an important part of the mission of SMU as an educational institution. The intent of the system of due process at SMU is to be educational and not merely punitive for students. The goal continues to be to produce quality citizens. The purpose of the conduct review process is to encourage personal responsibility.

Depending on the degree of misconduct, a student may be subject to sanctions ranging from an informal warning to expulsion from the University. In addition, a student may be assigned educational sanctions designed to promote personal growth and development. Should a student be asked to leave the University, he or she should do so in an expeditious and peaceful manner. The student should remain off campus until he or she receives written permission from the Office of Student Conduct & Community Standards to return to campus. In the event of such separation, a student is still responsible for University financial obligations.

To ensure fairness and due process for all students in the conduct process, the student is granted an impartial hearing and the right to appeal to the University Conduct Council. A student who is appealing a sanction may remain in school until the decision and penalty are reviewed, unless otherwise determined by the Dean of Students, the Vice President for Student Affairs, or their designee. All actions related to the conduct review process are subject to presidential review.

Having voluntarily enrolled as students at Southern Methodist University and assumed a place in the University community, all students are presumed to be knowledgeable of, and have agreed to abide by the rules and regulations set

forth in the Student Code of Conduct as outlined in the SMU Student Handbook, which is available online at [www.smu.edu/StudentAffairs/StudentLife/StudentHandbook](http://www.smu.edu/StudentAffairs/StudentLife/StudentHandbook).

## **Student Engagement and Success**

### **Department of Student Development**

#### **Office of the Student Experience**

The Office of the Student Experience designs a comprehensive student experience supporting students and their families from orientation to graduation. Using a leadership framework, all students are guided through collegiate transitions. With recognition of the unique needs of veterans, graduate, transfer, and international students, the office advocates for and provides support to these special populations.

#### **Leadership**

The leadership programs available to students include the Emerging Leaders First-Year Leadership Development Program, the Crain Leadership Summit, and the Lonestar LeaderShape Institute. The Office of the Student Experience also supports student leadership development through the Caswell Leadership Program, for a group of selected students to develop projects focused on organizational leadership, faith-based leadership, community-based leadership, environmental leadership, fraternity and sorority leadership or culturally competent leadership.

#### **Parent and Family Programs**

Parents and families are supported through the Office of the Student Experience with a focus on assisting families to assist their students. Our office supports the SMU Mothers' and Dads' clubs, welcomes and supports new students and families during orientation, and supports family weekend.

#### **Special Population Support**

The Office of the Student Experience is committed to supporting all SMU students in their transitions into and through SMU. Additional support is coordinated for special student populations who may have unique factors that impact their transitions including Veteran, Transfer, International, and Graduate students.

#### **Women & LGBT Center**

[www.smu.edu/womenandlgbtcenter](http://www.smu.edu/womenandlgbtcenter)

The Women & LGBT Center works to increase awareness and understanding of gender, sexuality, and women's issues on campus through social, cultural and academic programming and outreach. We provide empowering spaces for students to develop as leaders through purposeful learning, educational, and advocacy opportunities. We also advise, support, and develop student organizations focused on gender, sexuality, and women's issues. Some of the organizations we advise include the Feminist Equality Movement, Women in Science and Engineering, and Spectrum: the lesbian, gay, bisexual, transgender and ally organization. Also housed in the center is the SMU Women's Symposium ([www.smu.edu/womsym](http://www.smu.edu/womsym)), which is part of the Education of Women for Social and Political Leadership series, established in 1966.

#### **Office of Social Change and Intercultural Engagement**

The Office of Social Change and Intercultural Engagement exists to connect students with opportunities to engage with and learn from the SMU campus, Dallas community, and beyond. The office prioritizes advocacy and awareness through immersive community engagement experiences and social justice education. There are two major functional areas of the office: community engagement and intercultural engagement.

The community engagement side of the office has signature service programs including The Big Event, Mustang Heroes, and Alternative Breaks—which provide students the opportunity to participate in immersive service experiences in Dallas and throughout the United States. The office also provides consulting services to individuals, classes, and offices to help connect them to meaningful and educational community engagement opportunities.

In addition, the office sponsors intercultural engagement and social justice education programs to provide opportunities for the exchange of ideas and experiences that enhance student perspectives, and offers various leadership opportunities through culturally based student organizations, student coordinator positions, and the CONNECT Mentoring Program.

For more information about our programs, please visit [www.smu.edu/socialchange](http://www.smu.edu/socialchange).

## **Department of Student Involvement**

[connect.smu.edu](http://connect.smu.edu)

The mission of Student Involvement is to foster experiences and create spaces encouraging students to discover their interests and find a sense of belonging through involvement. Research shows that students who get involved, regardless of the type of activity, tend to be more successful during their college experience. Student Involvement supports more than 200 opportunities for SMU students through academic and professional associations, campus programming boards, community service coalitions, fraternities and sororities, governing boards, honor societies, multicultural organizations, political clubs, club sports, religious organizations, and special interest groups. Professional staff are available to answer student's questions about getting involved and student organization operations.

The Student Involvement Office is located on the third floor of the Hughes-Trigg Student Center, Suite 314. Campus activities and organizations are an integral part of the developmental experience for students and a long-standing SMU tradition. Participation can help students develop leadership skills and provide inter-personal, social and cultural experiences.

Additional information is available online, including organization interests or type, membership requirements, contact information and event calendars. Student Involvement can also assist students in forming a new organization. To learn more visit [connect.smu.edu](http://connect.smu.edu).

**Eligibility Requirements.** Students who hold office in a student organization or represent the University as a member of a sponsored campus group (Mustang Band, Alternative Breaks, etc.) must be matriculated in a University degree-granting program, maintain a minimum 2.0 GPA, and may not be on academic probation.

## **Student Government**

Through SMU's system of representative governance, students participate with faculty and administration in the University's decision-making process. The primary voice of students in this process is the student-elected Student Senate comprised of senators, committee chairs, general members, and student body officers.

## **Hughes-Trigg Student Center**

[www.smu.edu/htrigg](http://www.smu.edu/htrigg)

The Hughes-Trigg Student Center supports the University's mission by serving as the hub of student life and activities. The Student Center enhances the student experience by providing services, conveniences, amenities, and resources to facilitate programming. The Student Involvement staff strives to provide a safe and community-focused environment to meet the diverse needs of all individuals. Our space offerings include a 6,400 square-foot ballroom, a tiered, amphitheater-style forum classroom, a 470-person capacity auditorium, a convenience store, a food court with a multifunction dining space, a post office, office and meeting space for student organizations, several lounging and quiet areas for studying, and six meeting rooms.

## **Residence Life and Student Housing**

[www.smu.edu/housing](http://www.smu.edu/housing)

The Department of Residence Life and Student Housing supports the goals of the University by creating residential communities that empower residents to value learning, citizenship and leadership in comfortable, well-maintained facilities. The department is responsible for the campus residential community, including all Residential Commons, Upper Division Housing, SMU-owned apartments, and SMU-owned Greek chapter houses.

## Hegi Family Career Development Center

[www.smu.edu/career](http://www.smu.edu/career)

The Hegi Family Career Development Center at SMU is dedicated to serving the needs of SMU students and alumni and assisting employers in reaching qualified candidates from SMU. The Career Development Center staff guides and encourages students and alumni in the development of skills necessary for lifelong career management and offers opportunities for employers to recruit students through campus events and online resources. At Hegi, the staff cares about helping students develop into well-rounded individuals, and is dedicated to values of consistency, authenticity and commitment to excellence.

**Career Express Drop-in Hours.** The Career Center offers 15-minute drop-in sessions on a first-come, first-served, basis. In these sessions, students can discuss career options or get help editing a resume. Additional information is available on our website at [www.smu.edu/career](http://www.smu.edu/career).

**Counseling Appointments.** The Career Center also provides opportunities for counseling appointments with a staff member. These longer sessions can help students navigate more complex issues, including major exploration, career exploration, professional skill building, and more.

**Peer Mentors.** Peer Mentors are highly trained student leaders who help fellow students navigate the career development process, including assisting with drop-ins, editing cover letters and resumes, and representing Hegi at campus events.

**Career Development Ambassadors.** CDA is a student organization designed to provide career development opportunities on the SMU Campus. CDAs organize events for the SMU community, which inspire engagement in the career development process, develop students' career tools, and provide networking opportunities.

**Experiential Learning.** Want to learn more about an industry, company or specific job? Experiential learning is the best way to do so. Below are some easy ways to get connected:

- **Coffee Chats/Lunch 'n Learns:** Meet an employer in an informal setting to learn about their career journey.
- **Mentors:** Connect and develop a relationship with an industry professional that is in a career you are interested in.
- **Employer Site Visits/Externships:** Shadow professionals and SMU alumni for the day and learn about their career path and what they do on a daily basis. Mustang and SMU Connection programs partner with top regional employers and alumni providing student exposure to today's competitive and ever-changing job market.
- **Informational Interviews:** Have a conversation with an alum and/or employer to build your network and learn about their education and career path.

**Employer Events.** Our Office cultivates meaningful relationships with organizations and employers who are invested in networking with dynamic, talented and skilled students across SMU's liberal and communication arts communities. Throughout the year, the Career Center hosts 2-4 Career and Internship Fairs, along with a host of Employer Industry Panels, Company Information Sessions and Industry Training and Development Workshops. These events offer students an opportunity to work with employers and alumni and to learn the skills necessary to be successful in the workplace.

## Office of the Chaplain and Religious Life

[www.smu.edu/chaplain](http://www.smu.edu/chaplain)

The Office of the Chaplain and Religious Life offers resources of pastoral care and theological reflection that nurture spiritual and vocational development as well as the moral and ethical vision and character of students, faculty and staff. Dr. Stephen W. Rankin is the chaplain and minister to the University community. Chaplain Rankin leads and preaches at weekly chapel service, an ecumenically Christian, all-University service of worship, each Wednesday during the term. Students, faculty and staff are invited to participate in this service through music, scripture readings or other

expressions of worship. Other services, including the University Service of Memory, Ash Wednesday Service and memorial services as needed, are also planned and implemented by the Office of the Chaplain.

Presently, there are more than 28 religious life organizations. Alongside the Christian groups aligned with denominations, local Dallas-area congregations or national parachurch ministries, SMU also has an active Hillel chapter for Jewish students, a bustling Muslim Student Association and other faith groups of various traditions. A large number of undergraduate, graduate and professional students, as well as many of SMU's faculty, staff and administrators, participate in these religious communities.

Additionally, the Office of the Chaplain partners with faculty members across campus to direct the Faith and Learning Scholars, a cohort of students who want the experience of integrating their faith with their academic pursuits. Participants can qualify for the community engagement proficiency. Similarly, the Civil Rights Pilgrimage, founded in 2004, is an eight-day spring break journey through the South whereby students encounter shrines of freedom and meet heroes of the civil rights movement. This collaboration with Dedman College offers students a transformative opportunity while earning academic credit.

Chaplains are available for personal counseling and spiritual direction with students, faculty and staff during office hours. The Office of the Chaplain is located in the Hughes-Trigg Student Center, Suite 316. Nearby are two rooms for prayer, one designated for Muslim community members and the other for all others.

## **Residence Accommodations**

The University prides itself on offering a full living and learning experience for its resident students. The mission of the Department of Residence Life and Student Housing is to advance the goals and objectives of the University by creating residential communities that empower residents to value learning, citizenship and leadership. To this end, RLSH seeks opportunities to promote an intellectual culture in SMU's residential communities that complements an already flourishing campus social culture. RLSH is responsible for residence halls, 11 Residential Commons and 10 SMU-owned Greek chapter houses. This responsibility includes making sure that facilities are well maintained and that students have opportunities to grow personally and excel academically.

## **Housing Policy for All Students**

All incoming first-year undergraduate students are required to live on campus during their first two years at SMU. Exceptions may be granted on the basis of a financial, medical or personal hardship at the discretion of the dean of RLSH to those students from Dallas/Fort Worth who live with a parent or legal guardian in the primary residence of the parent or guardian. For housing purposes, the two years means the first two years of college. Incoming transfer students who are over the age of 16 and under the age of 20 are required to live on-campus for their first year at SMU. For 2018–2019, upperclass and graduate students are not required to live on campus but may apply on a space-available basis.

## **Applications for Residence**

New graduate students should submit the completed application and housing license agreement to RLSH with a check or money order for \$100 made payable to Southern Methodist University for the nonrefundable housing deposit. Notification of assignment will be made by RLSH.

The housing license agreement is for the full academic year (fall and spring terms). Room charges for the fall term will be billed and are payable in advance of the term for students who register before August 1, and room charges for the spring term will be billed and are payable in advance of that term for students who register before December 1. Students who register after these dates must pay at the time of registration. Room charges for the full academic year will be due and payable should a student move out at any time during the school year. Accommodations for shorter periods are available only by special arrangement with RLSH before acceptance of the housing license agreement. It is important that applicants become familiar with the license agreement, as it is a legally binding document.

## **Graduate Residence Accommodations**

The Department of Residence Life and Student Housing operates one apartment residence hall designated for graduate students. Martin Hall, a single occupancy, efficiency apartment facility, houses single graduate students and senior undergraduates.

## **Special Housing Needs**

Students having special housing needs because of a disability should contact the SMU Office of Disability Accommodations and Success Strategies in order to establish eligibility for accommodations. When applying for housing, students should also submit information to RLSH regarding a request for accommodations. DASS and RLSH will work together with the student on their specific situation to make necessary accommodations.

## **General Housing Information**

Each apartment is furnished with a Murphy bed, desk, dresser, kitchen dining table and chairs. All university residences have wired and wireless Ethernet connections to the University's computer system. All residence halls are air-conditioned and some have individually climate-controlled rooms. Washing machines and dryers are located in all residence halls. Meal plans are not required in the graduate hall. For more information, students should visit [www.smu.edu/housing](http://www.smu.edu/housing) or contact the Department of Residence Life and Student Housing, Southern Methodist University, PO Box 750215, Dallas TX 75275-0215; phone 214-768-2407; fax 214-768-4005; [housing@smu.edu](mailto:housing@smu.edu).

# Lyle School of Engineering: Faculty and Staff

## Office of the Academic Dean

Marc P. Christensen, *Dean, Bobby B. Lyle Endowed Professor of Engineering Innovation*

Richard Duschl, *Texas Instruments Distinguished Chair in Engineering Education and Executive Director of the Caruth Institute for Engineering Education*  
Bruce Gnade, *Executive Director of the Hart Center for Engineering Leadership*  
Sukumaran V.S. Nair, *Director of the AT&T Center for Virtualization*  
LaDonna Moore, *Director of Undergraduate Advising and Records*  
Teri Trevino, *Business Manager*  
Becky Tiemann, *Executive Assistant to the Dean*

## Lyle Faculty

Khaled F. Abdelghany, *Associate Professor of Civil and Environmental Engineering, Ph.D., Texas*  
Mehrdad Aghagholizadeh, *Lecturer of Civil and Environmental Engineering, Ph.D., University of Central Florida*  
Miju Ahn, *Assistant Professor of Engineering Management, Information and Systems, Ph.D., University of Southern California*  
Richard S. Barr, *Associate Professor of Engineering Management, Information and Systems, Ph.D., Texas*  
Ali Beskok, *Professor of Mechanical Engineering, Ph.D., Princeton*  
Elena V. Borzova, *Senior Lecturer of Mechanical Engineering, Ph.D., SMU*  
Jessica Burnham, *Director of Human Centered Design and Innovation, MFA, University of North Texas*  
Jerome K. Butler, P.E., *University Distinguished Professor of Electrical and Computer Engineering, Ph.D., Kansas*  
Joseph D. Camp, *Associate Professor of Electrical and Computer Engineering, Ph.D., Rice*  
Sila Çetinkaya, *Professor of Engineering Management, Information, and Systems, Cecil H. Green Professor of Engineering, Department of Engineering Management, Information and Systems Chair, Ph.D., McMaster*  
Frederick R. Chang, *Professor of Computer Science, Bobby B. Lyle Centennial Distinguished Chair in Cyber Security, Ph.D., Oregon*  
Jung-Chih Chiao, *Professor of Electrical and Computer Engineering, Mary and Richard Templeton Centennial Chair of Electrical Engineering, Ph.D., California Institute of Technology*  
Marc P. Christensen, P.E., *Professor of Electrical and Computer Engineering, Bobby B. Lyle Endowed Professor of Engineering Innovation, Ph.D., George Mason*

Corey Clark, *Assistant Professor of Computer Science, Ph.D., University of Texas at Arlington*

Frank P. Coyle, *Senior Lecturer of Computer Science, Ph.D., SMU*

Carlos E. Davila, *Associate Professor of Electrical and Computer Engineering, Ph.D., Texas*

Scott C. Douglas, *Professor of Electrical and Computer Engineering, Ph.D., Stanford*

James G. Dunham, P.E., *Associate Professor of Electrical and Computer Engineering, Ph.D., Stanford*

Richard Duschl, *Professor of Electrical and Computer Engineering and Texas Instruments Distinguished Chair in Engineering Education, Ph.D., University of Maryland*

Jennifer Lynn Dworak, *Associate Professor of Electrical and Computer Engineering, Ph.D., Texas A&M*

John H. Easton, *Lecturer of Civil and Environmental Engineering, Ph.D., Alabama (Birmingham)*

Usama S. El Shamy, P.E., *Associate Professor of Civil and Environmental Engineering, Ph.D., Rensselaer Polytechnic Institute*

Gary A. Evans, P.E., *Professor of Electrical and Computer Engineering, Ph.D., California Institute of Technology*

Mark E. Fontenot, *Clinical Professor of Computer Science, Ph.D., SMU*

Xin-Lin Gao, *Professor of Mechanical Engineering, Ph.D., Wisconsin-Madison*

Harsha Gangammanavar, *Assistant Professor of Engineering Management, Information, and Systems, Ph.D., Ohio State University*

Rachel P. Goodman, *Lecturer of Engineering Management, Information and Systems, M.S., SMU*

Ira Greenberg, *Professor of Creative Computation, M.F.A., Pennsylvania*

Ping Gui, *Professor of Electrical and Computer Engineering, Ph.D., Delaware*

Michael Hahsler, *Assistant Professor of Engineering Management, Information and Systems, Ph.D., Wirtschaftsuniversität Wien*

Ali Heydari, *Assistant Professor of Mechanical Engineering, Ph.D., Missouri University of Science and Technology*

LiGuo Huang, *Associate Professor of Computer Science, Ph.D., Southern California*

Yildirim Hürmüzlü, *Professor of Mechanical Engineering, Ph.D., Drexel*

Mohammad Khodayar, *Assistant Professor of Electrical and Computer Engineering, Ph.D., Illinois Institute of Technology*

MinJun Kim, *Professor of Mechanical Engineering, Robert C. Womack Endowed Chair in Engineering, Ph.D. Brown*

M. Scott Kingsley, *Senior Lecturer of Electrical and Computer Engineering, D.E., SMU*

Radovan B. Kovacevic, *Professor of Mechanical Engineering, Herman Brown Chair in Engineering, Ph.D., Montenegro (Yugoslavia)*

Paul S. Krueger, *Professor of Mechanical Engineering, Ph.D., California Institute of Technology*

José L. Lage, P.E., *Professor of Mechanical Engineering, Ph.D., Duke*

Eric C. Larson, *Assistant Professor of Computer Science, Ph.D., Washington*

Choon S. Lee, *Associate Professor of Electrical and Computer Engineering, Ph.D., Illinois (Urbana-Champaign)*

Charles M. Lovas, P.E., *Associate Professor of Mechanical Engineering, Ph.D., Notre Dame*

Duncan L. MacFarlane, *Professor of Electrical and Computer Engineering, Bobby B. Lyle Centennial Chair in Engineering Entrepreneurship, Ph.D., Portland*

Nikos Makris, *Addy Family Centennial Professor in Civil Engineering, Ph.D., State University of New York at Buffalo*

Theodore W. Manikas, P.E., *Clinical Professor of Computer Science, Ph.D., Pittsburgh*

Barbara S. Minsker, *Professor of Civil and Environmental Engineering, Bobby B. Lyle Endowed Professor of Leadership and Global Entrepreneurship, Department of Civil and Environmental Engineering Chair, Ph.D., Cornell*

Jaewook Myung, *Assistant Professor of Civil and Environmental Engineering, Ph.D., Stanford*

Sukumaran V.S. Nair, P.E., *University Distinguished Professor of Electrical and Computer Engineering*, Ph.D., Illinois (Urbana-Champaign)

Xu Nie, *Assistant Professor of Mechanical Engineering*, Ph.D., Purdue

Eli V. Olinick, *Associate Professor of Engineering Management, Information and Systems*, Ph.D., California (Berkeley)

M. Volkan Otugen, *Professor of Mechanical Engineering, George R. Brown Chair in Mechanical Engineering*, Ph.D., Drexel

Panos E. Papamichalis, P.E., *Professor of Electrical and Computer Engineering*, Ph.D., Georgia Institute of Technology

Behrouz Peikari, P.E., *Professor of Electrical and Computer Engineering*, Ph.D., California (Berkeley)

Andrew N. Quicksall, *Associate Professor of Environmental Science*, Ph.D., Dartmouth

Peter E. Raad, P.E., *Professor of Mechanical Engineering*, Ph.D., Tennessee (Knoxville)

Dinesh Rajan, *Professor of Electrical and Computer Engineering, Department of Electrical and Computer Engineering Chair, Cecil and Ida Green Chair of Engineering*, Ph.D., Rice

Edmond Richer, *Associate Professor of Mechanical Engineering*, Ph.D., SMU

Ronald Rohrer, *Professor of Electrical and Computer Engineering*, Ph.D., University of California, Berkeley

Alba Rojas-Cordova, *Assistant Professor of Engineering Management, Information, and Systems*, Ph.D., Virginia Tech

Janille Smith-Colin, *Assistant Professor of Civil and Environmental Engineering*, Ph.D., Georgia Institute of Technology

Brett Story, *Assistant Professor of Civil and Environmental Engineering*, Ph.D., Texas A&M

Dario J. Villarreal Suarez, *Assistant Professor of Electrical and Computer Engineering*, Ph.D., University of Texas at Dallas

Wenjie Sun, *Assistant Professor of Civil and Environmental Engineering*, Ph.D., Arizona

Aurelie Thiele, *Associate Professor of Engineering Management, Information, and Systems*, Ph.D., MIT

Mitchell A. Thornton, P.E., *Professor of Electrical and Computer Engineering, Cecil H. Green Chair of Engineering*, Ph.D., SMU

Jeff Tian, P.E., *Professor of Computer Science, Professor of Engineering Management, Information and Systems*, Ph.D., Maryland

Wei Tong, *Professor of Mechanical Engineering*, Ph.D., Brown

Halit Üster, *Professor of Civil and Environmental Engineering, Professor of Engineering Management, Information and Systems*, Ph.D., McMaster

Jianhui Wang, *Associate Professor of Electrical and Computer Engineering*, Ph.D., Illinois Institute of Technology

James R. Webb, *Professor of Practice of Mechanical Engineering*, DM, University of Maryland (University College)

Sheila Williams, *Clinical Assistant Professor of Mechanical Engineering*, Ph.D., SMU

David A. Willis, *Associate Professor of Civil and Environmental Engineering, Associate Professor of Mechanical Engineering*, Ph.D., Purdue

Jessie Zarazaga, *Lecturer of Civil and Environmental Engineering, MA, Cambridge University*

## **Lyle Emeritus Faculty**

H. Charles Baker, *Professor Emeritus of Electrical Engineering*, Ph.D., Texas

Margaret H. Dunham, P.E., *Professor Emeritus of Computer Science and Engineering*, Ph.D., SMU

Delores M. Etter, *Professor Emeritus of Electrical Engineering*, Ph.D., New Mexico

Richard Helgason, *Professor Emeritus of Computer Science and Engineering, Professor Emeritus of Engineering Management, Information and Systems*, Ph.D., SMU

David W. Matula, *Professor Emeritus of Computer Science and Engineering*, Ph.D., California (Berkeley)  
Bijan Mohraz, P.E., *Professor Emeritus of Civil and Environmental Engineering, Professor Emeritus of Mechanical Engineering*, Ph.D., Illinois (Urbana-Champaign)  
David B. Johnson, P.E., *Professor Emeritus of Mechanical Engineering*, Ph.D., Stanford  
Paul F. Packman, P.E., *Professor Emeritus of Mechanical Engineering*, Ph.D., Syracuse  
Stephen A. Szygenda, P.E., *Professor of Computer Science and Engineering, Professor of Engineering Management, Information and Systems*, Ph.D., Northwestern  
Hal Watson, Jr., P.E., *Professor Emeritus of Mechanical Engineering*, Ph.D., Texas

## Adjunct Faculty

**Note:** The list of faculty adjuncts provided here is advisory only. In any given term, a particular adjunct may not be able to teach because of other commitments. This is especially true because many of SMU's adjuncts are professionals and scholars who are in high demand.

Yasser Abdelhamid, P.E., *Adjunct Professor of Civil and Environmental Engineering*, Ph.D., SMU (Bryant Consultants, Inc.)  
Drew Aletto, *Adjunct Lecturer of Civil and Environmental Engineering*, M.S., SMU  
Pelín Altintas-DeLeon, *Adjunct Professor of Engineering Management, Information, and Systems*, Ph.D., Texas Tech  
Bogdan V. Antohe, *Adjunct Professor of Mechanical Engineering*, Ph.D., SMU (MicroFab)  
Karl J. Arunski, *Adjunct Lecturer of Engineering Management, Information and Systems*, M.S.E.E., Washington (Raytheon)  
Nima Baha, *Adjunct Lecturer of Computer Science*, M.S., SMU  
Veepsa Bhatia, *Adjunct Professor of Electrical and Computer Engineering*, Ph.D., Delhi Technological University  
Charles W. Beall, *Adjunct Professor of Engineering Management, Information and Systems*, Ph.D., Southern California  
Robert L. Bell, *Adjunct Lecturer of Engineering Management, Information and Systems*, M.E.E.E., Brigham Young (Lockheed Martin)  
William D. Bell, *Adjunct Professor of Engineering Management, Information and Systems*, D.E., SMU (U.S. Department of Defense)  
Yvonne Bijan, *Adjunct Professor of Engineering Management, Information, and Systems*, Ph.D., SMU (Lockheed)  
April Blount, *Adjunct Lecturer of Civil and Environmental Engineering*, M.A., Texas (Arlington) (UTA)  
Whitney Boger, *Adjunct Lecturer of Civil and Environmental Engineering*, M.S., SMU (Trinity Consultants)  
Samir Bougacha, P.E. *Adjunct Professor of Civil and Environmental Engineering*, Ph.D., Texas (Parsons Brinckerhoff)  
Andrew F. Bouma, *Adjunct Lecturer of Engineering Management, Information and Systems*, M.S., Oklahoma State University  
Mark K. Boyd, P.E., *Adjunct Professor of Civil and Environmental Engineering*, Ph.D., SMU (LCA Environmental)  
Ben A. Calloni, P.E., *Adjunct Professor of Computer Science*, Ph.D., Texas Tech (Lockheed Martin)  
Hakki C. Cankaya, *Adjunct Professor of Computer Science*, Ph.D., SMU  
Kristina Cannon, *Adjunct Lecturer of Computer Science*, M.S., SMU  
John P. Carbone, *Adjunct Professor of Computer Science*, Ph.D., Texas Tech  
Robert Casagrande, *Adjunct Lecturer of Civil and Environmental Engineering*, M.B.A., SMU

Sudipto Chakraborty, *Adjunct Professor of Electrical and Computer Engineering*, Ph.D., Georgia Institute of Technology (Texas Instruments Inc.)

Jagadeesh Chandramohan, *Adjunct Professor of Engineering Management, Information and Systems*, Ph.D., Virginia Polytechnic Institute & State University

Zizhen Chen, *Adjunct Lecturer of Computer Science*, M.S., SMU

Justin Childress, *Adjunct Lecturer of Multidisciplinary Studies*, MFA, Texas A&M University at Commerce

George W. Chollar, *Adjunct Professor of Engineering Management, Information and Systems*, Ph.D., Texas Tech (The Statistical Design Institute)

Isaac Chow, *Adjunct Professor of Computer Science*, Ph.D., SMU

Joseph R. Cleveland, *Adjunct Professor of Electrical and Computer Engineering*, Ph.D., Iowa State (Samsung, retired)

Eric B. Cluff, *Adjunct Lecturer of Mechanical Engineering*, M.S., SMU (Abbott Labs)

Gretchen H. Coleman, *Adjunct Lecturer of Engineering Management, Information, and Systems*, M.B.A., Texas (Arlington)

Jennifer Cottingham, P.E., *Adjunct Lecturer of Civil and Environmental Engineering*, M.B.A., University of Dallas

Weiping Dai, P.E., *Adjunct Professor of Civil and Environmental Engineering*, Ph.D., Carnegie Mellon (Trinity Consultants)

Vidroha Debroy, *Adjunct Professor of Computer Science*, Ph.D. UT Dallas

H. Elizabeth del Monte, *Adjunct Lecturer of Civil and Environmental Engineering*, M.Arch., Rice (Cameron MacAllister Group)

Roger O. Dickey, P.E., *Adjunct Professor of Civil and Environmental Engineering*, Ph.D., SMU

Matthew L. Durchholz, *Adjunct Professor of Engineering Management, Information and Systems*, Ph.D., SMU

Maya El Dayeh, *Adjunct Professor of Computer Science*, Ph.D., SMU

Diana Easton, *Adjunct Professor of Civil and Environmental Engineering*, Ph.D, SMU (Navigating the Gray, LLC)

Aaron L. Estes, *Adjunct Lecturer of Computer Science*, M.S., SMU

Mohamed Ezzat, *Adjunct Professor of Electrical and Computer Engineering*, Ph.D., SMU

John Fattaruso, *Adjunct Professor of Electrical and Computer Engineering*, Ph.D., California (Berkeley)

Dennis J. Frailey, *Adjunct Professor of Computer Science*, Ph.D., Purdue (Raytheon, retired)

John R. Graham, III, *Adjunct Lecturer of Engineering Management, Information and Systems*, M.B.A., Wright Statue (Technisource)

Hope Hagar, *Adjunct Lecturer of Civil and Environmental Engineering*, M.A., SMU

Liliana Hickman-Riggs, *Adjunct Lecturer of Engineering Management, Information, and Systems*, M.S., Texas (Dallas) (Becker)

Anwar Hirany, P.E., *Adjunct Professor of Civil and Environmental Engineering*, Ph.D., Cornell (EPRI)

Mark Hoffman, *Adjunct Lecturer of Computer Science*, M.S., SMU

Michael E. Hopper, P.E., *Adjunct Professor of Engineering Management, Information and Systems*, D.E., SMU

Kenneth R. Howard, *Adjunct Lecturer of Computer Science*, M.B.A., Saint Mary's (Improving Enterprises)

Sina Iman, *Adjunct Lecturer of Civil and Environmental Engineering*, M.S.C.E., SMU (CH2M)

Qiguo Jing, *Adjunct Professor of Civil and Environmental Engineering*, Ph.D, SMU (Trinity Consultants, Inc.)

Robert H. Jones, *Adjunct Professor of Engineering Management, Information and Systems*, Ph.D., SMU (Oncor)

Levent Kaan, *Adjunct Professor of Mechanical Engineering*, Ph.D., SMU

Bhanu Kapoor, *Adjunct Professor of Computer Science*, Ph.D., SMU (consultant/owner, Mismasic)

Clark D. Kinnaird, P.E., *Adjunct Professor of Electrical and Computer Engineering*, Ph.D., SMU (Texas Instruments)

Suzanne Larkin, *Adjunct Lecturer of Design and Innovation*, M.F.A., Texas A&M (Commerce)

John Lawrimore, *Adjunct Lecturer of Computer Science*, M.B.A., University of Texas at Dallas

Michael Lefebvre, *Adjunct Lecturer of Computer Science*, M.S., Georgetown University

Karl C. Lewis, *Adjunct Professor of Computer Science*, D.Eng., SMU (Perot Systems)

John I. Lipp, *Adjunct Professor of Engineering Management, Information and Systems*, Ph.D., Michigan Tech (Lockheed Martin)

D. Kall Loper, *Adjunct Professor of Computer Science*, Ph.D., Michigan State

Mehedy Mashnad, P.E., *Adjunct Professor of Civil and Environmental Engineering*, Ph.D., Illinois (Urbana-Champaign) (Walter P. Moore and Associates)

Matthew R. McBride, *Adjunct Lecturer of Computer Science*, M.S., SMU

Steven D. McCauley, *Adjunct Lecturer of Civil and Environmental Engineering*, M.S., Texas Tech (El Centro College)

James K. McCloud, *Adjunct Lecturer of Engineering Management, Information and Systems*, M.B.A., Rollins

Lee D. McFearin, *Adjunct Professor of Computer Science*, Ph.D., SMU

M. Wade Meaders, *Adjunct Lecturer of Mechanical Engineering*, M.S., SMU (Halliburton)

John Medellin, *Adjunct Professor of Computer Science*, Ph.D. SMU

Freeman L. Moore, *Adjunct Professor of Computer Science*, Ph.D., North Texas (Raytheon, retired)

Nomaan Mufti, *Adjunct Professor of Datacenter Systems Engineering*, Ph.D., University of Essex

Padmaraj M.V. Nair, *Adjunct Professor of Computer Science*, Ph.D., SMU

Mofid Nakhaei, *Adjunct Professor of Civil and Environmental Engineering*, Ph.D., SMU (Parson Brinckerhoff Inc.)

William P. Nanry, *Adjunct Professor of Engineering Management, Information and Systems*, Ph.D., Texas (Lockheed Martin)

David J. Nowacki, *Adjunct Lecturer of Mechanical Engineering*, M.B.A., M.S., Louisiana State

Robert Oshana, *Adjunct Lecturer of Computer Science*, M.S., SMU

Greg Radighieri, *Adjunct Lecturer of Mechanical Engineering*, M.S., Massachusetts Institute of Technology

Hope Rasmussen, *Adjunct Lecturer of Civil and Environmental Engineering*, M.A., SMU

Jon D. Rauscher, *Adjunct Professor of Civil and Environmental Engineering*, Ph.D., Colorado State (U.S. Environmental Protection Agency)

Mark E. Sampson, *Adjunct Lecturer of Engineering Management, Information and Systems*, M.S., Southern California (UGS)

Michael J. Savoie, *Adjunct Professor of Engineering Management, Information, and Systems, Adjunct Professor of Mechanical Engineering*, Ph.D., University of North Texas

Thomas F. Siems, *Adjunct Professor of Engineering Management, Information and Systems*, Ph.D., SMU

Nandlal M. Singh, *Adjunct Professor of Engineering Management, Information and Systems*, D.E., SMU (MinMax Technologies)

Stephen C. Skinner, *Adjunct Professor of Engineering Management, Information and Systems*, Ph.D., SMU (Bell Helicopter)

Kaitlin Smith, *Adjunct Lecturer of Computer Science*, M.S., SMU.

Klyne Smith, *Adjunct Professor of Computer Science*, D.Eng., SMU

Peter J. Sorenson, *Adjunct Lecturer of Engineering Management, Information, and Systems*, M.A., Brigham Young (Strategic Organization Design)

Kamakshi Sridhar, *Adjunct Professor of Electrical and Computer Engineering*, Ph.D., Massachusetts Institute of Technology (Alcatel-Lucent)

Nagarajan Sridhar, *Adjunct Professor of Datacenter Systems Engineering, Adjunct Professor of Electrical and Computer Engineering*, Ph.D., State University of New York (Buffalo)

Patricia A. Taylor, *Adjunct Professor of Civil and Environmental Engineering*, Ph.D., SMU (U.S. Environmental Protection Agency)

Allen D. Tilley, *Adjunct Lecturer of Mechanical Engineering*, M.B.A., SMU

Philip K. Turner, *Adjunct Professor of Civil and Environmental Engineering*, Ph.D., North Texas (U.S. Environmental Protection Agency)

Xinyu (Edward) Wang, *Adjunct Professor of Engineering Management, Information and Systems*, Ph.D., SMU

Andrew K. Weaver, *Adjunct Lecturer of Mechanical Engineering*, M.A., Navy; M.P.A., Troy State

Timothy D. Woods, *Adjunct Professor of Engineering Management, Information and Systems*, Ph.D., SMU (Lockheed Martin)

Rumanda K. Young, *Adjunct Professor of Civil and Environmental Engineering*, Ph.D., Texas (Arlington) (U.S. Army Corps of Engineers)

Natasha Zamani, *Adjunct Professor of Civil and Environmental Engineering*, Ph.D., SMU

# Meadows School of the Arts

## Academic Calendar

### Academic Year 2019-2020

[www.smu.edu/registrar/academic\\_calendar.asp](http://www.smu.edu/registrar/academic_calendar.asp)

This calendar includes an addendum listing religious holidays for use in requesting excused absences according to University Policy, Excused Absences for University Extracurricular Activities and Religious Holidays. For religious holidays not listed, contact the Office of the Chaplain.

Graduate programs in the Cox School of Business, Perkins School of Theology, Dedman School of Law, and Research and Graduate Studies have different calendars.

A comprehensive schedule of holiday dates that the offices of the University will be closed will be announced at a later date.

### Fall Term 2019

*(August 26 - December 21, 2019)*

**April 8–26, Monday–Friday:** Enrollment for fall 2019 continuing students for all undergraduates and for graduates in Dedman College, Lyle and Meadows.

**May, July, August (TBA):** Academic Advising, Enrollment and Orientation conferences for new first-year and transfer undergraduate students. Conference dates to be announced. More information about AARO is available from the Office of the Student Experience, Student Affairs, 214-768-4560, [www.smu.edu/studentaffairs/newstudent](http://www.smu.edu/studentaffairs/newstudent).

**August 24, Saturday:** Residence halls officially open at 9:00 a.m.

**August 25, Sunday:** Opening Convocation, McFarlin Auditorium.

**August 26, Monday:** First day of classes.

**August 30, Friday:** Last day to enroll, add a course, or drop a course without tuition billing while remaining enrolled for the term. Last day to file for graduation in December.

**September 2, Monday:** Labor Day. University offices closed.

**September 9, Monday:** Last day to drop a course without academic record (**tuition charges apply**). Last day to withdraw from the university without academic record (**withdrawal refund schedule applies**). See Bursar's website for more information.

**September 11, Wednesday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**October 1, Tuesday:** Early intervention grades due for first-year undergraduate students.

**October 4-5, Friday-Saturday:** Family Weekend

**October 14-15, Monday-Tuesday:** Fall Break.

**October 16, Wednesday:** Last day for continuing undergraduate students to change their majors before November enrollment.

**October 27, Sunday:** Midterm grades due for first-year and sophomore students.

**November 4, Monday:** 60 percent point of the term that federal financial aid has been earned if a student officially withdraws from SMU; prior to this date a partial calculated return to federal programs will be required.

**November 4-22, Monday–Friday:** Enrollment for spring 2020 continuing students for all undergraduates and graduates in Dedman College, Lyle, Meadows and Simmons.

**November 8, Friday:** Last day to drop a course (grade of W).

**November 8-9, Friday-Saturday:** Homecoming Weekend.

**November 14, Thursday:** Last day for December graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**November 18, Monday:** Students should file for May graduation. The last day to file is January 24, 2020.

**November 26, Tuesday:** Last day to withdraw from the University.

**November 27, Wednesday:** No classes.

**November 28–29, Thursday–Friday:** Thanksgiving holiday. University offices closed.

**December 4-9, Wednesday–Monday:** No final examinations or unscheduled tests and papers.

**December 5, Thursday:** Last day for oral/written examinations for December graduate degree candidates.

**December 9, Monday:** Last day of classes.

**December 10-11, Tuesday-Wednesday:** Reading days.

**December 12-18, Thursday–Wednesday:** Examinations. (No examinations scheduled for Sunday).

**December 19, Thursday:** Residence halls close at 10:00 a.m. for winter break. (December graduates should contact the Department of Residence Life and Student Housing).

**December 20, Friday:** December Rotunda Recessional.

**December 21, Saturday:** December Commencement Convocation. Official close of term and conferral of degrees.

**December 23 - January 1, Monday - Wednesday:** University closed.

**December 25, Wednesday:** Christmas Day.

## January Term 2020

*(December 19, 2019 – January 16, 2020)*

The January Term consists of two primary sessions: Dallas January Session and SMU-in-Taos January Session. Each primary session has different deadline dates. Some areas of instruction may offer a limited number of selected courses during the January Term, December 19, 2019 – January 16, 2020 with unique start, end, deadline dates and class meeting times to accommodate the particular needs of the course.

**January 1, Wednesday:** New Year's Day. University offices closed.

## Dallas January Session 2020

**Note:** *Classes meet six hours per day, Monday through Friday. See Intersessions website for specific class information.*

**January 5, Sunday:** Last day to enroll, add a course, or drop a course without academic record. Last day to file for graduation in January Term.

**January 6, Monday:** First day of classes.

**January 7, Tuesday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**January 9, Thursday:** Last day for January Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term

**January 15, Wednesday:** Last day to drop a course or withdraw from the University (grade of W).

**January 16, Thursday:** Last day of classes, including examinations. Official close of the term and conferral of degrees.

## SMU-in-Taos January Session 2020

**Note:** *Permission of SMU-in-Taos required for all enrollments.*

**January 2, Thursday:** Last day to enroll, add a course, or drop a course without academic record.

**January 2, Thursday:** Student travel/arrival.

**January 3, Friday:** First day of classes.

**January 6, Monday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**January 9, Thursday:** Last day for January Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**January 14, Tuesday:** Last day to drop a course or withdraw from the University (grade of W).

**January 15, Wednesday:** Last day of classes, including examinations. Travel Day.

**January 16, Thursday:** Unofficial Taos Travel.

## Spring Term 2020

*(January 17 - May 16, 2020)*

**November 4-January 24, Monday–Friday:** Enrollment for spring 2020 continuing students for all undergraduates and graduates in Dedman College, Lyle, Meadows and Simmons.

**January (TBA):** Residence halls officially open at 9:00 a.m.

**January (TBA):** Academic Advising, Enrollment and Orientation conferences for new first-year and transfer undergraduate students. Conference dates to be announced. More information about AARO is available from the Office of the Student Experience, Student Affairs, 214-768-4560, [www.smu.edu/studentaffairs/newstudent](http://www.smu.edu/studentaffairs/newstudent).

**January 1, Wednesday:** New Year's Day. University offices closed.

**January 15, Wednesday:** Spring Rotunda Passage (*Tentative; subject to change*)

**January 17, Friday:** First day of classes.

**January 20, Monday:** Martin Luther King, Jr. Day. University offices closed.

**January 24, Friday:** Last day to enroll, add a course, or drop a course without tuition billing while remaining enrolled for the term. Last day to file for graduation in May.

**January 31, Friday:** Last day to drop a course without academic record (**tuition charges apply**). Last day to withdraw from the university without academic record ([withdrawal refund schedule applies](#)). See Bursar's website for more information.

**February 4, Tuesday:** Last day to declare pass/fail or no credit grading options. Also, last day to request an excused absence for the observance of a religious holiday.

**February 24, Monday:** Early intervention grades due for first-year undergraduate students.

**March 6, Friday:** Last day for continuing undergraduate students to change their majors before April enrollment.

**March 16-22, Monday-Sunday:** Spring Break.

**March 24, Tuesday:** Midterm grades due for first-year and sophomore students.

**March 31, Tuesday:** 60 percent point of the term that federal financial aid has been earned if a student officially withdraws from SMU; prior to this date a partial calculated return to federal programs will be required.

**April 6-24, Monday–Friday:** Enrollment for summer 2020 and fall 2020 continuing students for all undergraduates and graduates in Dedman College, Lyle, Meadows and Simmons.

**April 7, Tuesday:** Last day to drop a course (grade of W).

**April 10, Friday:** Good Friday. University offices closed.

**April 12, Sunday:** Easter Sunday.

**April 13, Monday:** Last Day for May graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**April 13, Monday:** Honors Convocation, 5:30 p.m.

**April 22, Wednesday:** Students should file for August or December graduation. Last day to file for August graduation is June 4. Last day to file for December graduation is the last day to enroll for fall 2020.

**April 24, Friday:** Last day to withdraw from the University.

**April 29-May 4, Wednesday–Monday:** No final examinations or unscheduled tests and papers.

**April 30, Thursday:** Last day for oral/written examinations for graduate students who are May degree candidates.

**May 4, Monday:** Last day of classes.

**May 5, Tuesday:** Reading Day.

**May 6-12, Wednesday–Tuesday:** Examinations (No examinations scheduled for Sunday).

**May 13, Wednesday:** Residence halls officially close for non-graduating students.

**May 15, Friday:** Baccalaureate.

**May 16, Saturday:** May Commencement Convocation. Official close of term and conferral of degrees.

**May 17, Sunday:** Residence halls officially close for graduating seniors.

## May Term 2020

*(May 14 - 29, 2020)*

The May Term consists of two primary sessions: Dallas May Session and SMU-in-Taos May Session. Each primary session has different deadline dates. Some areas of instruction may offer a limited number of selected courses during the May Term, May 14 - 29, 2020 with unique start, end, deadline dates, and class meeting times to accommodate the particular needs of the course.

## Dallas May Session 2020

*Note: Classes meet four hours per day, Monday through Friday.*

**May 14, Thursday:** First day of classes.

**May 14, Thursday:** Last day to enroll, add a course, or drop a course without academic record (tuition charges apply). See Bursar's website for more information. Last day to declare pass/fail or no credit grading options. Last day to file for graduation in May Term. Last day to request an excused absence for the observance of a religious holiday.

**May 22, Friday:** Last day for May Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**May 25, Monday:** Memorial Day. University offices closed.

**May 26, Tuesday:** Last day to drop a course or withdraw from the University (grade of W).

**May 29, Friday:** Last day of classes, including examinations. Official close of term and conferral of degrees.

## SMU-in-Taos May Session 2020

*Note: Permission of SMU-in-Taos required for all enrollments.*

**May 13, Wednesday:** Travel day and arrival of students, 2–6 p.m.

**May 14, Thursday:** First day of classes.

**May 14, Thursday:** Last day to enroll, add a course, or drop a course without academic record (tuition charges apply). See Bursar's website for more information. Last day to declare pass/fail or no credit grading options. Last day to file for graduation in May Term. Last day to request an excused absence for the observance of a religious holiday.

**May 22, Friday:** Last day for May Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**May 26, Tuesday:** Last day to drop a course or withdraw from the University (grade of W).

**May 29, Friday:** Last day of classes, including examinations.

**May 30, Saturday:** Travel Day.

## Summer Term 2020

*(June 1 – August 4, 2020)*

The summer term consists of four primary sessions: Dallas Full Session, Dallas First Session (June), SMU-in-Taos First Session, and Dallas Second Session (July). Each primary session has different deadline dates. There are also four shorter sessions within the first and second sessions. Some areas of instruction may offer a limited number of selected courses during the Summer Term, June 1 – August 4, with unique start, end, deadline dates and class meeting times to accommodate the particular needs of the course.

### Dallas Full Session

**Note:** *Classes meet 2 hours, 15 minutes twice a week or 1 hour, 30 minutes three times a week.*

**May 25, Monday:** Memorial Day. University offices closed.

**June 1, Monday:** First day of classes.

**June 4, Thursday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information. Last day to file for August graduation.

**June 10, Wednesday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**July 3, Friday:** Independence Day observed. University offices closed.

**July 16, Thursday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**July 23, Thursday:** Last day to drop a course (grade of W).

**July 29, Wednesday:** Last day to withdraw from the University.

**August 4, Tuesday:** Last day of classes, including examinations. Official close of term and conferral of degrees.

### Dallas First Session (June)

**Note:** *Classes meet 2 hours a day, Monday–Friday*

**May 25, Monday:** Memorial Day. University offices closed.

**June 1, Monday:** First day of classes.

**June 2, Tuesday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information.

**June 4, Thursday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday. Last day to file for August graduation.

**June 16, Tuesday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**June 23, Tuesday:** Last day to drop a course (grade of W).

**June 24, Wednesday:** Last day to withdraw from the University.

**June 30, Tuesday:** Last day of classes, including examinations.

**August 4, Tuesday:** Official close of term and conferral of degrees.

## June A (11-day June Session)

*Classes meet four hours per day, Monday through Friday.*

**June 1, Monday:** First day of classes.

**June 1, Monday:** Last day to add/enroll and to declare pass/fail or no credit grading options.

**June 10, Wednesday:** Last day to drop/withdraw from the University (grade of W).

**June 15, Monday:** Last day of classes, including examinations.

## June B (11-day June Session)

*Classes meet four hours per day, Monday through Friday.*

**June 16, Tuesday:** First day of classes.

**June 16, Tuesday:** Last day to add/enroll and to declare pass/fail or no credit grading options.

**June 25, Thursday:** Last day to drop/withdraw from the University (grade of W).

**June 30, Tuesday:** Last day of classes, including examinations.

## SMU-in-Taos First Session

*Note: Permission of SMU-in-Taos required for all enrollments.*

*(Regular Session)*

**June 2, Tuesday:** Travel day and arrival of students, 2-6 p.m.

**June 3, Wednesday:** First day of classes.

**June 3, Wednesday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information.

**June 4, Thursday:** Last day to file for August graduation.

**June 8, Monday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**June 11, Thursday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**June 16, Tuesday:** Last day to drop a course or withdraw from the University (grade of W).

**June 18, Thursday:** Last day of classes, including examinations.

**June 19, Friday:** Departure of students.

**August 4, Tuesday:** Official close of term and conferral of degrees.

*(Field Session)*

**June 2, Tuesday:** Travel day and arrival of students, 2-6 p.m.

**June 3, Wednesday:** First day of classes.

**June 3, Wednesday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information.

**June 4, Thursday:** Last day to file for August graduation.

**June 8, Monday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**June 16, Tuesday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**June 25, Thursday:** Last day to drop a course or withdraw from the University (grade of W).

**June 30, Tuesday:** Last day of classes, including examinations.

**July 1, Wednesday:** Departure of students.

**August 4, Tuesday:** Official close of term and conferral of degrees.

## Dallas Second Session (July)

*Note: Classes meet 2 hours a day, Monday–Friday.*

**June 4, Thursday:** Last day to file for August graduation.

**July 3, Friday:** Independence Day observed. University offices closed.

**July 6, Monday:** First day of classes.

**July 7, Tuesday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information.

**July 9, Thursday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**July 14, Tuesday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**July 27, Monday:** Last day to drop a course (grade of W).

**July 29, Wednesday:** Last day to withdraw from the University.

**August 4, Tuesday:** Last day of classes, including examinations. Official close of term and conferral of degrees.

## July A (11-day July Session)

*Classes meet four hours per day, Monday through Friday.*

**July 6, Monday:** First day of classes.

**July 6, Monday:** Last day to add/enroll and to declare pass/fail or no credit grading options.

**July 15, Wednesday:** Last day to drop/withdraw from the University (grade of W).

**July 20, Monday:** Last day of classes, including examinations.

## July B (11-day July Session)

*Classes meet four hours per day, Monday through Friday.*

**July 21, Tuesday:** First day of classes.

**July 21, Tuesday:** Last day to add/enroll and to declare pass/fail or no credit grading options.

**July 30, Thursday:** Last day to drop/withdraw from the University (grade of W).

**August 4, Tuesday:** Last day of classes, including examinations.

## August Term 2020

*(August 6 – 21, 2020)*

The August Term consists of one primary session: SMU-in-Taos August Session. Some areas of instruction may offer a limited number of selected courses during the August Term, August 6 – 21, 2020 with unique start, end, and deadline dates to accommodate the particular needs of the course.

## SMU-in-Taos August Session

*Note: Permission of SMU-in-Taos required for all enrollments.*

**August 5, Wednesday:** Travel day and arrival of students, 2-6 p.m.

**August 6, Thursday:** First day of classes.

**August 7, Friday:** Last day to enroll, add a course, or drop a course without academic record (tuition charges apply). See Bursar's website for more information. Last day to declare pass/fail or no credit grading options. Last day to file for graduation in August Term. Last day to request an excused absence for the observance of a religious holiday.

**August 14, Friday:** Last day for August Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**August 20, Thursday:** Last day to drop a course or withdraw from the University (grade of W).

**August 21, Friday:** Last day of classes, including examinations. Official close of term and conferral of degrees.

**August 22, Saturday:** Travel Day.

## Major Religious Holidays

*(August 2019-August 2020)*

Listing of religious holidays for use in requesting excused absences according to University Policy, Excused Absences for University Extracurricular Activities and Religious Holidays. For religious holidays not listed, the instructor or supervisor may contact the Office of the Chaplain.

### Christian

**Christmas:** December 25, 2019

**Good Friday:** April 10, 2020

**Eid al-Fitr:** May 24, 2020

\* All holidays begin at sundown before the first day noted and conclude at sundown on the day(s) noted.

# Meadows School of the Arts: General Information

Meadows School of the Arts, founded through the generosity of Algur H. Meadows, his family and the Meadows Foundation, is recognized as one of the nation's premier fine arts schools. In the SMU community, it offers intense specialized education in the performing arts, visual arts and communications and provides a rich variety of coursework for students from other disciplines exploring the arts as part of their liberal arts education.

In addition to working closely with a nationally renowned full-time faculty, Meadows students have access to eminent visiting professors, artists and the winners of the Meadows Prize, an arts residency awarded annually to up to two pioneering artists and creative professionals active in one of the Meadows School's disciplines. Recipients are expected to interact in a substantive way with Meadows students and collaborating arts organizations and to leave a lasting legacy in Dallas. Winners have included a Grammy-winning ensemble, a Tony-winning playwright and screenwriter, and the Public Theater's director of public works.

Meadows also offers one of the finest university complexes in the nation for instruction, performance and exhibition in art, art history, arts administration, music, dance, cinema, television and theatre.

## Academic, Performance and Exhibition Spaces

The Owen Arts Center, home of Meadows School of the Arts, houses the Greer Garson Theatre (a classical thrust-stage design), the Bob Hope Theatre (a proscenium design), the Margo Jones Theatre (a black-box theatre), Caruth Auditorium, the Charles S. Sharp Performing Arts Studio, O'Donnell Lecture/Recital Hall, several other performance spaces, classrooms, studios and rehearsal areas. The Doolin Gallery in Owen Arts Center and the Pollock Gallery, housed in the Hughes-Trigg Student Center, are the exhibition spaces of the Division of Art. Student work is exhibited and critiqued in the Doolin. Exhibitions organized in the Pollock Gallery provide students, faculty, staff and the surrounding community with opportunities to experience a thoughtful and wide array of exhibitions representing diverse artists, time periods and cultures.

The Meadows Museum, located at the south end of Bishop Boulevard, exhibits one of the most comprehensive collections of Spanish art outside of Spain, including works of such masters as Velázquez, Ribera, Sorolla, Murillo, Goya, Picasso, Miró and El Greco. The Elizabeth Meadows Sculpture Collection contains important works by such modern sculptors as Rodin, Maillol, Lipschitz, Henry Moore, Marini, Giacometti, Noguchi, David Smith and Claes Oldenburg.

In the last decade, Meadows School of the Arts has realized considerable expansion in academic, performance and exhibition spaces. Umphrey Lee Center houses state-of-the-art facilities for television, including a fully equipped studio. The Jake and Nancy Hamon Arts Library was completed as an addition to the Owen Arts Center. This four-story addition houses all arts library collections, a slide library, an audio/visual center and the Center for Instructional Technologies in the Arts. During the library expansion, the O'Donnell Lecture/Recital Hall, the Rosalie and Herman Taubman Family Atrium, a percussion studio, a music education and therapy suite, an electronic music studio, and numerous new office spaces also were built. The Greer Garson Theatre, completed in 1992, is a unique combination of historical stage design and a state-of-the-art technical theatrical environment. This addition to the Owen Arts Center also houses the Dean's Suite and the G. William Jones Film and Video Collection, as well as a screening room and a 3,800-square-foot refrigerated storage vault. With the completion of these projects, Meadows School of the Arts occupies approximately a half-million square feet of space.

## Instructional Units and Programs of Study

The undergraduate and graduate programs of the Meadows School of the Arts are housed in 11 academic units, including four academic units that offer undergraduate programs only. The seven academic units that offer graduate programs include Advertising, Art, Art History, Arts Management and Arts Entrepreneurship, Film and Media Arts, Music, and Theatre. Each division is outlined in detail in this catalog. Information on undergraduate programs in the arts is available in the SMU Undergraduate Catalog or from the Office of Enrollment Services, Southern Methodist University, PO Box 750181, Dallas TX 75275-0181.

Meadows School of the Arts offers the graduate degrees listed below. In conjunction with the Cox School of Business, the Meadows School offers a concurrent dual degree (M.A./M.B.A.) graduate program in arts management. In addition, the Temerlin Advertising Institute offers a graduate certificate as a Strategic Advertising Specialist and the Meadows Department of Music offers Performer's Diploma and Artist Diploma programs.

Div./Sch.	Area	Master	Doctor
ADV	Advertising	M.A. & Certificate	
Art	Art	M.F.A.	
AMAE	Arts Management	M.A.	
AMAE	International Arts Management	M.M.I.A.M.	
ARHS	Art History	M.A.	Ph.D.
FILM	Popular Film and Media Studies	M.A.	
Music	Choral Conducting	M.M.	
Music	Instrumental Conducting	M.M.	
Music	Music Composition	M.M.	
Music	Music Education	M.M.	
Music	Musicology	M.M.	
Music	Performance majors (various brass, keyboard, percussion, string, and woodwind instruments)	M.M.	
Music	Piano Performance and Pedagogy	M.M.	
Music	Theory Pedagogy	M.M.	
Music	Voice Performance	M.M.	
THEA	Theatre	M.F.A.	
Multiple	Data Science	M.S.D.S.	
Multiple	Sacred Music	M.S.M.	

## National Center for Arts Research

SMU's National Center for Arts Research, the first of its kind in the nation, acts as a catalyst for the transformation and sustainability of the national arts and cultural community. The center analyzes the largest database of arts research ever assembled and makes its findings available free of charge to arts leaders, funders, policymakers, researchers, students and the general public. NCAR's mission is to be the leading provider of evidence-based insights that enable arts and cultural leaders to overcome challenges and increase impact. The scope of this work requires the collaboration of national organizations such as the Cultural Data Project, the National Center for Charitable Statistics, the National Endowment for the Arts, the Theatre Communications Group, TRG Arts, IBM, the Nonprofit Finance Fund and the Boston Consulting Group. Additional information is available online at [www.smu.edu/artsresearch](http://www.smu.edu/artsresearch).

## Admission

The application for admission to the graduate Meadows programs is available at [www.smu.edu/Meadows/Admissions/Graduate](http://www.smu.edu/Meadows/Admissions/Graduate). For information concerning auditions or interviews, assistantships or fellowships, scholarships, and degree programs, students should contact Joe Hoselton, Office of Graduate Admissions, [hoselton@smu.edu](mailto:hoselton@smu.edu), 214-768-3765, Meadows School of the Arts, PO Box 750356, Southern Methodist University, Dallas TX 75275-0356.

The online application and all supporting documents – including official transcripts from all institutions previously attended, recommendations, and GRE and GMAT graduate school admission test scores and/or TOEFL English language proficiency test scores when required – should be filed with the Office of Graduate Admissions for the Meadows School of the Arts as early as possible. Some academic units make admission decisions as early as January 1.

## Qualifications

Applicants holding a four-year equivalent degree from an appropriately accredited college or university are eligible to apply for admission to graduate studies. Graduates of colleges not accredited may be required to demonstrate their qualifications by submitting satisfactory scores on the GRE. Any student whose bachelor's degree preparation is not judged equivalent to the comparable baccalaureate preparation from SMU may be required to take additional coursework to make up the deficiency. In exceptional cases, unusually qualified applicants not holding degrees may be considered for admission.

Student auditions or samples of creative work are requested by certain academic units as part of the application process.

After the application and supporting documents have been examined, the student will be notified of an admission decision. No student is allowed to enroll unless notified of admission. All transcripts and letters of recommendation become the property of SMU. International applicants whose first language is not English are required to submit their scores for the TOEFL English language proficiency test.

## Transfer of Credit

Policies for transfer credit are found under Transfer Credit in the Academic Regulations section of this catalog.

## Academic Regulations

### Master's Degrees

The Master of Arts degree assumes a goal of general cultural development in the arts, communications and humanities, while the Master of Fine Arts, Master of Sacred Music and Master of Music degrees suggest professional graduate training, with activities more concentrated in one area. The M.F.A. and M.M. degrees are normally predicated upon a bachelor's degree that has provided up to 65 credit hours in the major field of study. Consequently, a student who has earned a B.A. degree and enrolls for an M.F.A., M.S.M. or M.M. degree in Meadows School of the Arts may be handicapped by not having had sufficient undergraduate concentration in his or her particular field. It may be necessary for the student to extend graduate study to compensate for limited preparation.

### Graduate Adviser

Each student will have a graduate adviser assigned by the appropriate department/division/institute chair or director of Meadows School of the Arts. Additional information is found in this catalog under the following headings: 1) Course Scheduling and Enrollment Cycles in the Enrollment Policies section and 2) Academic Advising in the Academic Advising and Satisfactory Progress Policies section.

### Transfer Credit

Official college transcripts are required for all college-level work attempted, regardless of transferability. Military transcripts are also required for students receiving VA benefits; more information is available at [www.smu.edu/registrar](http://www.smu.edu/registrar) ("Veterans Affairs" link). Students are responsible for making sure a transcript of all transfer work attempted is sent to the University Registrar's Office immediately following completion of the work.

All credit for work transferred from another institution is subject to the approval of the department/division/institute. Unless special permission is granted by the dean of Meadows School of the Arts, no more than six credit hours of work from another institution may be counted toward a graduate degree at Meadows School of the Arts. (No credit is allowed for study by correspondence.) Courses taken as an undergraduate or as a special student at SMU will be regarded in the same way as transfer courses.

### Thesis, Thesis-Equivalent or Recital

All candidates for the master's degree will be expected to complete at least one of the following, unless modified by the appropriate department/division/institute of the student's major study: 1) a written thesis, 2) a period of directed internship, 3) a creative project, 4) recital or 5) a comprehensive exam.

A thesis that demonstrates original research may be offered in lieu of two to six credit hours. The student may elect to pursue a full- or part-time internship. Hours so earned are applied toward the total number of hours required for the degree.

Following initial enrollment for thesis, project or recital credit, graduate students are required to enroll each term until the thesis, project or recital has been completed and accepted.

For any term in which satisfactory progress has been made, but in which the thesis or project has not been completed, the student will receive a grade of *I* (Incomplete). Upon completion and acceptance of the thesis or project, the adviser may change up to six credit hours (three for project, two for recital) of a grade of *I* to letter grades, according to department/division/institute policy. A total of six credit hours (three for project, two for recital) with grades of *P* (Pass) or letter grades not below a grade of *C* must be accrued toward the thesis, project or recital to satisfy degree requirements.

If the student fails to enroll for thesis, project or recital credit in any term for which it is required, he or she must enroll for the equivalent number of credit hours upon filing an application for candidacy to graduate.

## Course Load

Enrollment for nine credit hours of coursework per term is recognized as a full-time load for persons engaged in graduate study. Graduate students not enrolled for the required number of hours may be certified as full-time or part-time students if they are officially enrolled for at least one course and are recognized by their academic dean as meeting one of the following conditions: 1) he or she is enrolled in a music program requiring fewer than a total of 36 credit hours, 2) he or she is working on the completion of a required thesis, internship or performance recital requirement on a full-time or part-time basis, 3) he or she is a third-year theatre student working on the completion of a required series of production projects on a full-time or part-time basis or 4) he or she has a required instructor appointment as part of a teaching assistantship. Additional information is found under Term Hour Loads in the General Policies section of this catalog.

## Credits

Candidates for a master's degree must have completed a minimum of 30–75 credit hours of graduate work, depending upon the degree or department involved. All courses attempted for credit must average a grade of B or better, with no grade lower than a grade of C (2.000) applying toward the degree. In studio art, all courses attempted for credit must average a grade of B or better, with no grade lower than a grade of B- (2.700) applying toward the degree. In art history, a graduate student who receives a grade of B- or less for a course or seminar taken for credit toward the Master of Arts degree will be placed on probation. A graduate student who receives a grade of B- or less for more than one course or seminar taken for credit toward the Master of Arts degree in art history will be suspended from the University.

Arts Management and Arts Entrepreneurship graduate students in pursuit of the Master of Arts/Master of Business Administration degree must maintain a cumulative GPA of 3.000 in their M.A. coursework and in their M.B.A. coursework, independently, to graduate from the program. If a student's cumulative GPA in either program falls below 3.000 for any term of study that student will be placed on academic probation. If the student fails to bring the cumulative GPA to 3.000 within the next term that student may be dismissed from the program.

In all courses attempted by graduate students, with the exception of a thesis or project, a grade of *I* may be changed to a grade of *F* (Fail) if not removed within one year after the grade is entered on the student's record.

## Academic Progress

Failure to meet established minimum acceptable standards of academic or disciplinary performance can result in probation, suspension or dismissal. Information regarding disciplinary action can be found under Code of Conduct in the Student Affairs section of this catalog.

Graduate students must maintain a cumulative GPA of 3.000. If in any term the student falls below this cumulative GPA, the student will be placed on probation for one regular term. If at the end of the term of probation the cumulative GPA is not up to 3.000, the student may be removed from the program at the discretion of the dean's office or records office.

## **Residence**

A residence (enrollment in courses offered at SMU's main campus) of at least two full terms or the equivalent of this residence period in the summer is required. Most graduate programs will require more than the minimum. Work done in absentia will not be accepted, except in unusual conditions with the *prior* approval of the division chair.

## **World Language**

A reading knowledge of a world language or languages will be required by those departments that deem it necessary for the student's research or creative project.

# Meadows School of the Arts: Academic Programs

## Temerlin Advertising Institute for Education and Research

**Professor** Steven Edwards, **Director**

**Professors:** Patricia Alvey, Willie Baronet, Steven Edwards, Alice Kendrick, Carrie La Ferle

**Associate Professors:** Sidharth Muralidharan, Hye Jin Yoon

**Assistant Professors:** Quan Xie

**Lecturers:** Mark Allen, Cheryl Mendenhall

**Professor of Practice:** Peter Noble

**Executive in Residence:** Amber Benson

**Adjunct Lecturers:** Marie Bos, Sandi Edgar, David Hadel, John Hall, Gordon Law, Alan Lidji, Bryon Morrison, Jason Shipp, Cindy Sparrow, Cindy Syracuse

### General Information

The Temerlin Advertising Institute (TAI), one of the nation's only endowed advertising institutes, invites each student to build a foundation of strategic communication principles, to develop a deep appreciation of the power of advertising and to join in an exploration of how advertising can be channeled for the betterment of a product or service for a client as well as for society. Students will explore responsibility issues within traditional advertising courses and experiential opportunities. Within the program, students may opt to follow an industry focus or a research/thesis emphasis.

Because the Temerlin Advertising Institute is located in Dallas, it enjoys a strong relationship with a vibrant advertising industry. DFW is the nation's fifth largest media market and the headquarters for major advertising agencies, national and global corporations, large U.S. media corporations, public relations firms, and film production companies. This location affords access to professionals who are of the highest caliber and who serve as class clients, guest lecturers, executives-in-residence, adjunct faculty and internship sponsors.

### Admission

Applicants will be expected to have an excellent undergraduate record in advertising or a related field. Previous work experience is desirable. Applicants from other disciplines will be considered provided they can show a keen interest in pursuing a career in advertising. Applicants must demonstrate an acceptable undergraduate GPA and submit an application to the Temerlin Advertising Institute.

International students will be required to demonstrate English language proficiency through scores on the TOEFL or other equivalent tests.

All applicants must submit acceptable references, and they may be asked to participate in a personal interview.

The GRE or GMAT is required to be considered for scholarships or graduate assistantships.

### Advertising, Accelerated M.A.

Current SMU undergraduate students have the opportunity to apply to the MA in Advertising while working on their undergraduate degrees. If accepted, this program will allow for a student to earn both a B.A. and M.A. Up to 9 credits of M.A. classes count toward both the undergraduate and graduate degrees. Students will be required to complete an additional 27 credits of graduate work to complete the Master's degree.

Students must be admitted into the M.A. program to be eligible to take the 6000 level classes.

## Admission Requirements

For admission to the accelerated Master's Program, the student must:

- Be enrolled in an undergraduate program at SMU;
- Apply no later than one year prior to the time they would graduate with a B.A. degree;
- Have an overall GPA of 3.0 or higher;
- Have completed 90 hours in an undergraduate program at SMU;
- Have two letters of recommendation from faculty members at SMU;
- Be accepted into the M.A. program.

## Masters Degree Requirements

To receive a Master's degree under the Accelerated Program, the student must:

- Have a cumulative GPA of 3.0 in the M.A. degree course work (including the graduate course work applied towards the undergraduate degree requirements);
- Complete a minimum of 27 credit hours of graduate course work at SMU beyond the undergraduate residency requirement to satisfy the graduate residency requirement;
- Have been awarded an undergraduate degree and fulfilled other requirements for M.A. degree.

## Advertising, M.A.

Advertising as a cultural force can have a powerful impact on societies as well as brands. The rise of social media and the informed consumer has allowed advertisers to talk with (not at) consumers. Developing strategies for integrating consumers in branding decisions and developing long-term relationships with consumers are the keys to success. Therefore, the M.A. in advertising program provides training in global, social, cultural and technological sensitivity to give students the understanding needed to engage consumers in brand conversations. Strategic and conceptually rich creative messages are the conversation starters delivered to consumers using paid, earned and owned media. In addition to enhancing their understanding of traditional advertising theory and practice, students will learn about the use of social media, location-based targeting, cause marketing, viral messaging, advergames, product placement and branded entertainment as means to create meaningful brands for customers.

Individuals graduating from this program will go on to work, either domestically or internationally, in advertising agencies as account executives, art directors, copy writers, media strategists, research analysts or account planners. A graduate of the Institute will also be attractive to corporate marketing departments, media organizations, marketing firms, the event management field, branded entertainment, advergames, motion picture marketing and nonprofit organizations.

## Degree Requirements

All students participate in courses that enhance understanding of communication theory and advertising practices necessary for future advertising leaders. The program offers students the ability to deepen their area of interest by pursuing elective coursework in the area(s) of their interest. Core courses are listed below.

### Advertising Core

- ADV 6317 - Consumer Insight and Persuasion
- ADV 6320 - Social Media Engagement Strategies
- ADV 6365 - Marketing Communications Management
- ADV 6371 - Advertising as A Cultural Force

Total: 12 Credit Hours

### Advertising Research/Analytics

One from the following:

- ADV 6391 - Metrics of Success

- ADV 6392 - Qualitative/Quantitative Research
- ADV 6396 - Advanced Research Project

Total: 3 Credit Hours

### **Advertising Capstone**

One from the following:

- ADV 6311 - Thesis
- ADV 6312 - Thesis
- ADV 6325 - Practicum: Executive Internship
- ADV 6399 - Advertising Campaigns

Total: 3 Credit Hours

### **Electives**

Six from the following:

- ADV 6110 - Directed Study
- ADV 6301 - Special Topics
- ADV 6302 - Special Topics
- ADV 6310 - Directed Study
- ADV 6325 - Practicum: Executive Internship
- ADV 6362 - Account Management
- ADV 6372 - Responsibility and Social Entrepreneurship
- ADV 6374 - International Advertising
- ADV 6383 - Creativity, Art, and Problem-Solving
- ADV 6384 - Concepting
- ADV 6385 - Portfolio
- ADV 6393 - Account Planning
- ADV 6395 - Advanced Portfolio
- Approved electives outside of TAI

Total: 18 Credit Hours

Total: 36 Credit Hours

**Note:** Electives outside TAI are available but must be approved.

## **Strategic Advertising Specialist, Graduate Certificate**

SMU's 18-credit-hour Advertising Graduate Certificate program provides students coursework that meets both their immediate needs and long-term goals. By staying current, building leadership acumen, and bringing innovative ideas back to work, students become more marketable as communications professionals. Evening classes fitting students' interests and schedules contribute to professional networking opportunities. In addition, students who earn the Graduate Certificate in Advertising can apply for admission to the Master of Arts in Advertising and use the Certificate credits toward fulfilling the requirements for the MA degree.

## Admission

Before enrolling in the Graduate Certificate in Advertising Program, students must provide:

1. A completed application;
2. Proof of the completion of a baccalaureate degree from an accredited university;
3. An official undergraduate transcript.

## Certificate Requirements

The Graduate Certificate in Advertising requires completion of 18 graduate credit hours—nine hours of required core courses and 9 hours of electives. The 9 required hours are chosen from the MA required course list, with 2 courses from the Advertising Core section and one from the Advertising Research/Analytics section. The 9 elective hours are chosen from a variety of electives at the Temerlin Advertising Institute, and with approval, from elsewhere at SMU.

## Advertising Courses

### ADV 6101 - Special Topics

*Credits: 1.5*

Advanced study of current issues in advertising, with specialized topic(s) defined for intensive examination.

### ADV 6102 - Purpose-Driven Marketing

*Credits: 1.5*

Explores the best practices for brands wanting to connect with consumers through a higher purpose. Topics include choosing partners, impact on employees, organizational culture change, and profit.

### ADV 6103 - Business-To-Business Advertising

*Credits: 1.5*

Examines how to grow your business by selling to business customers. Uses market development frameworks to create compelling value propositions for (B2B) advertisers. Topics include the following: the B2B marketing mix including mass media, targeted trade advertising, sales collateral, corporate sponsorships, tradeshows and events, promotional materials, inbound marketing campaigns, and targeted social media. Discusses how to manage a B2B marketing budget and prospecting pipeline and the key performance indicators associated with meeting revenue targets.

### ADV 6110 - Directed Study

*Credits: 1*

This is an independent study under the direction and supervision of a full-time faculty member. A directed study is a close collaboration between the professor and an advanced student who conducts a rigorous project that goes beyond the experience available in course offerings. The student must secure written permission from the instructor and return a completed Directed Studies Approval Form to the Temerlin Advertising Institute Office before the start of the term. Instructor and departmental consent required.

### ADV 6301 - Special Topics

*Credits: 3*

Advanced study of current issues in advertising, with specialized topic(s) defined for intensive examination.

### ADV 6302 - Special Topics

*Credits: 3*

Advanced study of current issues in advertising, with specialized topic(s) defined for intensive examination.

### ADV 6310 - Directed Study

*Credits: 3*

Independent study under the direction and supervision of a full-time faculty member. A directed study is a close collaboration between the professor and an advanced student who conducts a rigorous project that goes beyond the

experience available in course offerings. The student must secure written permission from the instructor and return a completed Directed Studies Approval Form to the Temerlin Advertising Institute Office before the start of the term. Instructor and departmental consent required.

### **ADV 6311 - Thesis**

*Credits: 3*

### **ADV 6312 - Thesis**

*Credits: 3*

Prerequisite: ADV 6311.

### **ADV 6317 - Consumer Insight and Persuasion**

*Credits: 3*

Focuses on applying knowledge from a variety of social sciences to the study of consumers, both as individuals and as members of larger groups. Draws upon theories from many disciplines to study the behavior of consumers from the standpoint of culture, sub-culture, social class, social groups, and family, all with a focus on advertising ramifications. Includes motivations, attitudes, beliefs and learning and ethical considerations in cross-cultural advertising.

### **ADV 6320 - Social Media Engagement Strategies**

*Credits: 3*

Students explore ways to deliver messages to audiences using a variety of traditional and nontraditional media. Emphasis is placed on the development of delivery systems that can maximize consumers' engagement with marketing messages. Topics covered include word-of-mouth, viral marketing, social media marketing, cause-related marketing, product placement, and customer relationship management.

### **ADV 6325 - Practicum: Executive Internship**

*Credits: 3*

Intensive advertising industry work experience. Agencies and corporations assign students to long-term clients and projects.

### **ADV 6362 - Account Management**

*Credits: 3*

Enables students to understand what makes advertising agency account managers successful. Examines the personal and performance qualities that characterize successful account managers. Emphasis is placed on interpersonal skills, problem-solving skills, and discussions of advertising industry situations.

### **ADV 6365 - Marketing Communications Management**

*Credits: 3*

In-depth examination of strategic messaging, target audiences, compelling brand platforms, brand portfolio management, brand equity building, online branding, global brand building, metrics and measurement, and marketing communications. Students participate in contemporary case analyses on a team and individually, studying branding issues and contemporary brand-building best practices.

### **ADV 6371 - Advertising as A Cultural Force**

*Credits: 3*

Does advertising take its cues from culture, or is it a trendsetting change agent that deliberately or unintentionally shapes society based on what is being advertised? Topics include the development of corporate images, racial and gender stereotypes, persuasive strategies, and international cultural differences. Highlights pertinent agencies, ideas, movements, events, and people from the past and present, as well as future trends. Using case studies from around the world, students consider the potential impact for good or bad that advertising can have on people and cultures, given the industry's power and influence.

### **ADV 6372 - Responsibility and Social Entrepreneurship**

*Credits: 3*

Topics for this seminar include identifying the agents of change in the industry and what sets them apart, defining responsibility and where and how it manifests itself in the field of advertising, and determining how responsible advertising evolves into an agent of cultural change. Weekly lectures, guest speakers, and review of contemporary literature and case studies assist students in formulating educated responses.

### **ADV 6374 - International Advertising**

*Credits: 3*

Advertising in today's global market economy demands a clear understanding of the environmental and cultural influences on the communication process. Specifically, tomorrow's professionals understand how the rapidly changing global environment influences marketing and advertising decisions about research, management, strategy, media, execution, and a host of other important advertising related issues. Examines the influence of culture on the consumer behavior process and responses to advertising. Students learn to recognize and vocalize similarities and differences between countries and consumers based on tangible cultural indicators. Provides the necessary tools to effectively communicate and advertise products in a global marketplace.

### **ADV 6383 - Creativity, Art, and Problem-Solving**

*Credits: 3*

A seminar devoted to understanding the complex nature of creativity as both art and science. Considerations from philosophy, ethics, biology, sociology, economics, and the fine arts will all be brought to bear on the issue, culminating in an exploration of the form creativity takes in the realm of advertising, from ideation to execution, as well as in organizational dynamics. Special attention will be given to identifying necessary and sufficient conditions for creativity and an account of its more mysterious qualities, including the nature of objective, subjective, and cultural aesthetic realities. The study of important theories and the review of case studies from a variety of creative domains provide the basis for class discussions and projects.

### **ADV 6384 - Concepting**

*Credits: 3*

A workshop for developing ideation skills and helping students self-identify as art directors or writers. Students acquire techniques and develop personal discipline inherent to the generation of novel, sophisticated creative work based on a solid concept - the distinctive, guiding idea that drives campaign messages. Assignments are evaluated in group critiques, and each student completes a final portfolio by term's end.

### **ADV 6385 - Portfolio**

*Credits: 3*

A workshop course devoted to the continued development and professional-level execution of an advertising portfolio reflecting mastery of strategic and conceptual thinking. Work is prepared and evaluated to satisfy highest industry standards for placement. A jury of creative professionals reviews portfolios at an end-of-term critique. Restricted to advertising graduate students.

### **ADV 6390 - Production Studio**

*Credits: 3*

Students learn the basic principles of advertising design and production in tandem with the use of industry-standard hardware and software programs, including the Adobe Creative Suite.

### **ADV 6391 - Metrics of Success**

*Credits: 3*

A focus on the interpretation and application of research information to make decisions about marketing communication strategies. Emphasis is placed on the use of data as an aid to problem-solving and on the need to critically evaluate the quality of different types and sources of data. Addresses why measurement is important.

Negotiates the meaning of words like "relevance" and "engagement." Examines how to conduct and assess measurement across multiple media. Discusses the who, what, and why of research metrics and the likely impact of measurement on the evolution of interactive media.

### **ADV 6392 - Qualitative/Quantitative Research**

*Credits: 3*

Covers the entire research process: development of research questions; qualitative methods, including focus groups, in-depth interviews, and participant observation; quantitative methods, including surveys and experiments; sampling; data analysis; and communicating the result. The course also addresses important research concepts, including validity, reliability, and ethics.

### **ADV 6393 - Account Planning**

*Credits: 3*

Covers the research-based and consumer-centered approach to strategic development of advertising. Expands on qualitative and quantitative research practices used in advertising, as well as specific planning techniques. Students create strategic briefs, report on primary and secondary research among consumers, and contribute to the creative and media strategies of an advertising campaign.

### **ADV 6395 - Advanced Portfolio**

*Credits: 3*

Students continue development of an advertising portfolio. Special focus is given to the development of nontraditional and alternative media strategies. Students develop self-promotional materials to complement the portfolio. A jury of creative professionals reviews portfolios at an end-of-term critique. Prerequisite: ADV 6385. Restricted to advertising graduate students.

### **ADV 6396 - Advanced Research Project**

*Credits: 3*

Prerequisites: ADV 6391, ADV 6392.

### **ADV 6399 - Advertising Campaigns**

*Credits: 3*

Integrating major advertising principles, students work directly with an advertising agency to develop and present a real-world advertising campaign project for one of the agency's clients. Students use knowledge of research, strategy and planning, and media and creative execution, and they develop presentation techniques and team dynamics.

# Art

**Professor Ira Greenberg, Acting Division Chair**

**Professors:** Michael Corris, Barnaby Fitzgerald, Philip Van Keuren

**Associate Professor:** Brian Molanphy

**Assistant Professors:** Courtney Brown, Melanie Clemmons, Nishiki Sugawara-Beda

**Senior Lecturer:** Eileen Maxson

**Visiting Lecturer:** Tamara Johnson

**Adjunct Professor:** Tabatha Trolli

## Facilities

Facilities for the study of art include well-lighted studios, excellent supporting equipment for all media, including digital and video applications, and studios for graduate students. Art students work broadly and as experimentally as they wish, surrounded by dancers, musicians, actors, filmmakers, and communications specialists.

The Division of Art will provide every graduate student with an individual or shared studio. It is the responsibility of each student to make full and proper use of the studio provided or lose the privilege. The division has no obligation to provide studios for longer than two years.

Additional facilities include the Pollock Gallery, located in Expressway Tower. Exhibitions organized by the Pollock Gallery provide students, faculty, staff and the surrounding community with opportunities to experience a wide and thought-provoking array of exhibitions representing diverse artists, time periods and cultures.

## Special Programs and Resources

The division offers the New York Colloquium, a winter interterm program that fulfills a three-hour art history requirement. During the Colloquium, students visit a range of museums, galleries, artists' studios and other venues appropriate to the development of their critical and professional studies in art.

The Dallas-Fort Worth area has a large artistic community with rich and varied resources. These include many internationally and nationally significant museums and galleries: the Meadows Museum on the SMU campus, the Dallas Museum of Art, the Nasher Sculpture Center, the Crow Museum, the Dallas Contemporary, the Latino Cultural Center, the McKinney Avenue Contemporary, the Arlington Museum, the Kimbell Museum, the Fort Worth Museum of Modern Art and the Amon Carter Museum. There are also vibrant, artist-run alternative and cooperative galleries, and a strong commercial gallery system.

**SOMA Summer:** Each year, SMU alumni/ae and current students are welcome to apply to SOMA Summer, an eight-week program for international artists, curators, critics and art historians in Mexico City. For the student who is accepted, the SMU Division of Art will pay SOMA tuition and travel expenses.

**ENSA Dijon:** A graduating M.F.A. student is selected annually for a 4–6 week residency in Dijon, France, culminating in an exhibition.

**Mercedes Benz Emerging Artist Award:** A two-month residency is offered in Berlin every other year to a graduating art student or recent alumnus/a.

## Admission

The M.F.A. program is a two-year residential program of study. Graduate students are admitted into the M.F.A. program in the spring for studies starting in the fall term. Candidates for the program must complete the online application available at <http://www.smu.edu/Meadows/Admissions/Graduate>. Additionally, candidates must upload a portfolio, including 20 selections of their work, to Slate. Portfolio submissions are due by February 1. Students are encouraged, but not required, to tour the facility with a current graduate student and to meet the graduate advisor and

other faculty prior to application. Admission to the graduate program is selective. Only those individuals will be admitted in whom the faculty recognizes clear prospects for attaining the objectives of the program during the two-year period of graduate study. Admission also is based on the objectives and limitations of the department.

The applicant is required to have a Bachelor of Fine Arts degree equivalent to that offered at SMU (including 60 studio hours and 12 art history hours). In exceptional cases, unusually qualified applicants not holding this degree may be considered for admission. The ranked admission criteria are portfolio, statement of intent, transcript and recommendations.

In general, not more than six credit hours of transfer credit apply to the M.F.A. in art. However, if the applicant has an M.A. in studio art, up to 30 credit hours may be transferred to the SMU program with the approval of the faculty and the head of the graduate program. In any case, a minimum of 36 hours must be taken at SMU.

## **Scholarships and Financial Aid**

Each year up to six Meadows Scholarships are reserved for incoming graduate students, awarded based upon artistic merit. These awards are for up to full tuition and fees remission and include teaching assistant stipends of \$3,000 per academic year. A number of other grant programs offer significant funding for projects, materials and travel in support of creative research.

Aside from receiving a full fellowship, students are can apply for the following travel and scholarship opportunities: Meadows Travel Grant, Doolin Grant, Zelle Grant, Jones Grant, & Richter Fellowship.

## **Graduation Requirements**

With the approval of the graduate committee, in consultation with the faculty, each student will participate in the M.F.A. Qualifying Exhibition. The M.F.A. Qualifying Exhibition is a group show of all graduate student candidates in their final semester. Approval to exhibit must be obtained in the term prior to the exhibition. This approval usually is given at the critique at the end of the prior fall term.

The quality of this exhibition will be the primary determinant of whether the M.F.A. degree will be granted. Once approved for the M.F.A. exhibition, the student must enroll in ASAG 6304 - M.F.A. Qualifying Exhibition, Oral Exam and Thesis in the spring term with the chair of his or her graduate committee.

During the period of the graduate exhibition, the entire faculty will interview each student. This examination is to establish that the student's creative work is of sufficient maturity and that his or her general knowledge of critical and historical issues is at the level expected of an M.F.A. candidate. Students are also expected to present an oral defense of his or her work, a slide presentation in the form of a professional artist lecture, a written thesis, as well as the following: an artist statement, 20 images with image list of work produced during the graduate program, a current curriculum vitae, and a PDF of the MFA Qualifying Exhibition brochure. This information should be presented in digital format. Students may not graduate unless this information is accepted to SMU Scholar.

If the faculty finds the oral presentation or written thesis to be unsatisfactory, the student will have the option for a single retake within 10 days of the first review. The student will not be eligible to receive his or her degree after a second failure. Once the exhibition and the faculty examination are accepted and the required materials are turned in, the student will receive his or her degree at the graduation ceremony at the end of the term.

## **Possession of Work**

Meadows School of the Arts is entitled to retain as many as one piece of work by each student. The intention is to honor the successful candidate and to provide evidence of student success in lieu of the usual formal thesis. These works enter the University art collection.

## **Graduate Committees and Critiques**

With the exception of the graduate seminars and the required coursework in art history, graduate study proceeds primarily through individual tutorials with members of the faculty, guided by a two-person graduate committee. Prior

to the beginning of the first semester of study, the Graduate Advisor will appoint two members of Faculty to serve as Committee members for the forthcoming semester. The Graduate Advisor, in consultation with the members of Faculty so selected, will nominate one individual to serve as Chair of the Graduate Committee. Graduate committees can change beginning with a student's second or third term. Membership on the graduate committee becomes permanent at the beginning of the student's second year except for substitutions for faculty who are on leave. Upon the return of a committee member who has been on leave, he or she will resume his or her place on the student's committee.

This committee will meet with the student in critique at least once every month during each term in which he or she is registered for studio credit. These critiques are normally held the first week of each month, and it is the student's responsibility to arrange these critiques.

## Graduate Reviews

At the end of each term, a selection of completed and ongoing work and a written statement discussing the term's progress will be presented for review to the entire faculty of the division. Continuation in the graduate program is on a term-to-term basis and is determined by the graduate committee with the advice of the faculty at the critique at the end of the term.

## Art, M.F.A.

The Master of Fine Arts is the terminal degree in studio art. Students who earn the M.F.A. will be able to show a substantial body of work of uniformly high quality and distinct originality. The student will also have an intellectual grasp of the broad context, historical and current, within which the artist functions. The degree program is designed to comprise a two-year focused period of study, terminating with the M.F.A. qualifying exhibition and oral exam.

Facilities for and faculty expertise in ceramics, creative computation, drawing, installation, new media, painting, performance, photography, printmaking, sculpture, sound, and time-based media feature among the opportunities for students. The system of critiques and seminars is designed to encourage development between media and diverse experimentation within disciplines, as well as depth of mastery. A goal of the graduate program of the Division of Art is to encourage a wide range of thought in its students, primarily through open, studio-based investigation. Admission is based on the selection committee's estimation of the applicant's ability to succeed in the thesis plan. This plan may be altered should the work evolve in a manner that necessitates a change.

## Degree Requirements

A minimum of 60 credit hours of coursework is required. All courses taken in the division must be numbered 5000 or above. Forty eight (48) credit hours are to be clearly related to the major field of study. Nine (9) hours of graduate-level art history, theory, film history or theory are required. Approval for courses outside of art history must be obtained from the graduate adviser. All students participate in the Studio Graduate Seminar (ASAG 6300) each semester; this cannot be replaced by transfer credit.

Only grades of B- and above may apply toward the degree. A GPA of 3.0 must be maintained.

Upon entering the graduate program, candidates will be given, by the graduate adviser, a thorough outline of the expectations a graduate student will meet.

- Graduate Studio Courses (ASAG 63XX) - 33 credit hours
- ASAG 6300 - Graduate Seminar -12 credit hours
- ASAG 6301 - M.F.A. Qualifying Exhibition and Exam
- Art History, Theory, or Criticism courses in the Meadows School - 9 credit hours
- Elective - 3 credit hours

**Total: 60 Credit Hours**

**Notes:**

- Courses at or above the 5000 level in individual disciplines may count toward the graduate studio course (ASAG) requirement.
- Study in other Meadows departments may be substituted, with the permission of the committee and graduate advisor. There are 3 credit hours of electives.

## **Art-General Courses**

### **ASAG 5001 - B.F.A. Qualifying Exhibition**

*Credits: 0*

(for students who entered prior to fall 2010) Participation in the qualifying exhibition is required for all candidates for the degree of B.F.A. in art.

### **ASAG 5100 - Internship in Studio Art**

*Credits: 1*

Students work in internship positions that relate to their individual studio studies, including internships in teaching, in galleries, as assistants to established artists, or with businesses in the arts. Students should sign up for 1, 2, or 3 credit hours for internships of 3, 6, or 10 hours per week. Internships are supervised and evaluated by a member of the Division of Art faculty. Prerequisite: Approval of departmental chair or adviser.

### **ASAG 5200 - Internship in Studio Art**

*Credits: 2*

Students work in internship positions that relate to their individual studio studies, including internships in teaching, in galleries, as assistants to established artists, or with businesses in the arts. Students should sign up for 1, 2, or 3 credit hours for internships of 3, 6, or 10 hours per week. Internships are supervised and evaluated by a member of the Division of Art faculty. Prerequisite: Approval of departmental chair or adviser.

### **ASAG 5300 - Internship in Studio Art**

*Credits: 3*

Students work in internship positions that relate to their individual studio studies, including internships in teaching, in galleries, as assistants to established artists, or with businesses in the arts. Students should sign up for 1, 2, or 3 credit hours for internships of 3, 6, or 10 hours per week. Internships are supervised and evaluated by a member of the Division of Art faculty. Prerequisite: Approval of departmental chair or adviser.

### **ASAG 5310 - Professional Practice in Art**

*Credits: 3*

For art majors in their final year of studies. A practical and informed approach to understanding the competencies that are required to sustain practice as an artist beyond the undergraduate experience. Students learn how to negotiate the professional aspects of art and to identify and take advantage of a host of opportunities. Topics include establishing a studio; applying for residencies and grants; exhibiting work; intellectual property law; the contemporary art market; and alternative models of production, distribution, and exchange of art. Prerequisite: ASAG 3390.

### **ASAG 5315 - Advanced Studio II**

*Credits: 3*

A forum for art majors in the fourth year of studies that facilitates the students' ability to articulate their work as artists and to defend and present it in a peer-group setting. Serves as a culmination of the study of art through the production of a body of work for exhibition. Required for the B.A. in art and the B.F.A. in art. Prerequisite: ASAG 3380.

### **ASAG 5325 - Studio Workshop**

*Credits: 3*

An intensive investigation in arts by students engaged in independent work, group collaboration, and analytical study. Prerequisite: 15 credit hours in art or permission of instructor.

### **ASAG 5350 - Art Colloquium: New York**

*Credits: 3*

Involves intensive analysis, discussion, and writing concerning works of art in museum collections and exhibitions, and in alternative exhibition spaces. Students study the philosophical as well as the practical to define and understand the nature of the art society produces and values. The colloquium meets in New York City for 2 weeks in January.

### **ASAG 6100 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6101 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6102 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6103 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6104 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6105 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6106 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6107 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6108 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6109 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6110 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6111 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6112 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6113 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6114 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6115 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6116 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6117 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6118 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6119 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6120 - Graduate Studio**

*Credits: 1*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6204 - Graduate Studio**

*Credits: 2*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6205 - Graduate Studio**

*Credits: 2*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6206 - Graduate Studio**

*Credits: 2*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6207 - Graduate Studio**

*Credits: 2*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6208 - Graduate Studio**

*Credits: 2*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6209 - Graduate Studio**

*Credits: 2*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6210 - Graduate Studio**

*Credits: 2*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6211 - Graduate Studio**

*Credits: 2*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

*Credits: 2*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6220 - Graduate Studio**

*Credits: 2*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6300 - Graduate Seminar**

*Credits: 3*

A forum for discussion of current issues in the theory and practice of art. As opportunity presents, students meet with artists, dealers, curators, critics, and collectors.

### **ASAG 6301 - M.F.A. Qualifying Exhibition and Exam**

*Credits: 3*

Preparation for the qualifying exhibition for candidates for the degree of Master of Fine Arts in Art and oral presentation/exam.

### **ASAG 6302 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6303 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6304 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6305 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6306 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6307 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6308 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6309 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6310 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6311 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6312 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6313 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6314 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6315 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6316 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6317 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6318 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6319 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6320 - Graduate Studio**

*Credits: 3*

Independent study with individual faculty members. Teaching is essentially through private critiques. Classroom work can be arranged in instances where regular work from models or specific technical information or equipment is needed. Scheduling of critique of classroom work is the responsibility of the student.

### **ASAG 6321 - Studio Workshop**

*Credits: 3*

An intensive investigation in art by students engaged in independent work, group collaboration, and analytical study. Prerequisite: Graduate standing.

## **Ceramics Courses**

### **ASCE 5100 - Directed Studies in Ceramics**

*Credits: 1*

Students may take one course per term only. Prerequisite: ASCE 3300.

### **ASCE 5200 - Directed Studies in Ceramics**

*Credits: 2*

Students may take one course per term only. Prerequisite: ASCE 3300.

### **ASCE 5300 - Advanced Ceramics**

*Credits: 3*

Students refine their understanding of the discipline of ceramics based on their grasp of techniques and principles from

the first two courses. Employing the fluid nature of ceramics to flow across disciplines, students select a common ground (for example, architecture, food service, or the human figure) and identify specific techniques (for example, printing, throwing, or painting) to accomplish primarily self-initiated projects of research and making. Prerequisite: ASCE 3300 or permission of instructor.

### **ASCE 5302 - Directed Studies in Ceramics**

*Credits: 3*

Students may take one course per term only. Prerequisite: ASCE 3300.

### **ASCE 5310 - Special Topics in Ceramics**

*Credits: 3*

To be announced by the Division of Art. Prerequisite: ASCE 1300, ASCE 1310, ASCE 3300, ASCE 3310, ASCE 3320, ASCE 3330 or permission of instructor.

## **Drawing Courses**

### **ASDR 5100 - Directed Studies in Drawing**

*Credits: 1*

Students may take one course per term only. Prerequisite: ASDR 3300.

### **ASDR 5200 - Directed Studies in Drawing**

*Credits: 2*

Students may take one course per term only. Prerequisite: ASDR 3300.

### **ASDR 5300 - Drawing Advanced**

*Credits: 3*

Drawing at the senior level exemplifying independent development in drawing. Prerequisite: ASDR 3300 or permission of instructor.

### **ASDR 5302 - Directed Studies in Drawing**

*Credits: 3*

Students may take one course per term only. Prerequisite: ASDR 3300.

### **ASDR 5303 - Directed Studies in Italy: Advanced Students**

*Credits: 3*

Offers senior-level development in drawing and individual responses to the ruins, monuments, and landscape of Italy, which are themselves the subjects of many masterpieces encountered in churches, museums, and archaeological sites. Students are allowed the freedom to explore formal issues and expressive means in response to these subjects, producing a visual record of their perceptions and thoughts in representational, abstract, or conceptual modes. Critiques allow students to demonstrate skills in formal analysis and interpretation. Enrollment is limited. Prerequisite: ASDR 3300.

### **ASDR 5305 - Drawing as Concept and Performance**

*Credits: 3*

This course begins with the premise that the contemporary artist conceives of drawing as an expanded field of expressive and conceptual possibilities. Drawing understood as concept or performance is neither solely preparatory nor descriptive. Rather, drawing is constructed using a variety of means, including imaginative systems of notation, graphic conventions drawn from visual culture at large, and scripted physical actions. Prerequisite: ASDR 3305.

## **Photography Courses**

### **ASPH 5100 - Directed Studies in Photography**

*Credits: 1*

Students may take one course per term only. Prerequisite: Permission of instructor.

### **ASPH 5101 - Directed Studies in Video**

*Credits: 1*

Students may take one course per term only. Prerequisite: Permission of instructor.

### **ASPH 5200 - Directed Studies in Photography**

*Credits: 2*

Students may take one course per term only. Prerequisite: Permission of instructor.

### **ASPH 5201 - Directed Studies in Video**

*Credits: 2*

Students may take one course per term only. Prerequisite: Permission of instructor.

### **ASPH 5302 - Directed Studies in Photography**

*Credits: 3*

Students may take one course per term only. Prerequisite: Permission of instructor.

### **ASPH 5303 - Directed Studies in Video**

*Credits: 3*

Students may take one course per term only. Prerequisite: Permission of instructor.

### **ASPH 5304 - Advanced Photography and Digital Media**

*Credits: 3*

An advanced investigation of lens-based creative practice, which culminates in a self-directed body of work. Execution and exploration of students' work is open to digital, analog, video, and hybrid processes. Prerequisite: ASPH 3303 or permission of instructor.

## **Printmaking Courses**

### **ASPR 5100 - Directed Studies in Printmaking**

*Credits: 1*

Prerequisite: Permission of instructor.

### **ASPR 5200 - Directed Studies in Printmaking**

*Credits: 2*

Prerequisite: Permission of instructor.

### **ASPR 5300 - Printmaking Workshop**

*Credits: 3*

Further intermediate- and advanced-level exploration of the possibilities of the printing medium as an expressive tool. The ambience of the workshop, with no fixed structure, offers freedom to experiment in all directions (emotionally, intellectually, and technically) and to seek inspiration from any source. Students gain the self-discipline necessary for coherent results and mastery of the craft of printing. Prerequisite: ASPR 3300 or permission of instructor.

### **ASPR 5302 - Directed Studies in Printmaking**

*Credits: 3*

Prerequisite: Permission of instructor.

## **Painting Courses**

### **ASPT 5100 - Directed Studies in Painting**

*Credits: 1*

Students may take one course per term only. Prerequisite: ASPT 3300.

### **ASPT 5200 - Directed Studies in Painting**

*Credits: 2*

Students may take one course per term only. Prerequisite: ASPT 3300.

### **ASPT 5300 - Advanced Painting**

*Credits: 3*

An intensive studio experience for students who wish to develop a significant body of work in painting. Independent development is stressed alongside a program of readings and individual and group critiques. Prerequisite: 6 credit hours in painting at the 3000 level or permission of instructor.

### **ASPT 5302 - Directed Studies in Painting**

*Credits: 3*

Students may take one course per term only. Prerequisite: ASPT 3300.

### **ASPT 5306 - Painting in Taos II**

*Credits: 3*

An advanced study of painting in the physical and cultural environment of the Fort Burgwin Research Center. Prerequisite: ASPT 3300 or ASPT 3306, or permission of instructor.

## **Sculpture Courses**

### **ASSC 5100 - Directed Studies in Sculpture**

*Credits: 1*

Students may take one course per term only. Prerequisite: Permission of instructor.

### **ASSC 5200 - Directed Studies in Sculpture**

*Credits: 2*

Students may take one course per term only. Prerequisite: Permission of instructor.

### **ASSC 5300 - Advanced Seminar in Sculpture**

*Credits: 3*

Advanced investigation of contemporary practice in sculpture, including methods of research, means of production, and the critical and theoretical contexts of contemporary sculpture. Prerequisite: 9 credit hours in art courses at the 3000 level or permission of instructor.

### **ASSC 5302 - Directed Studies in Sculpture**

*Credits: 3*

Students may take one course per term only. Prerequisite: Permission of instructor.

# Art History

**Professor Adam Herring, Chair**

**Professors:** Roberto Conduru, Randall C. Griffin

**Associate Professor:** Amy Freund

**Assistant Professors:** Elizabeth Eager, Adam Jasienski, Anna Lovatt, Stephanie Langin-Hooper, Abbey Stockstill

## Art History, Ph.D.

In 2011, the Art History Department began enrolling students in an innovative Ph.D. program rooted in the fields of art history and visual culture studies. The program builds upon the strengths of a distinguished faculty who bring a renewed emphasis on historical and new media, visual technologies, architecture and the city, race and gender, and performance and ritual. Emphasizing spatial and well as visual culture, the program extends the department's commitment to the study of technologies of visual communication, while also advancing transnational scholarship in the arts of Latin America and Iberia.

## Admission

All students admitted to the program will receive full fellowship support and close mentorship within a small-program setting. Candidates are ensured professional success through a program featuring

- Small seminars and ample options for tutorial studies.
- Fellowships for all doctoral candidates for five full years.
- Medical benefits, tuition waivers and professional travel support for doctoral students.
- Close mentoring from matriculation to graduation and beyond.

To be admitted to the Ph.D. program, an applicant must have obtained a B.A. or M.A. from a four-year accredited college or university.

## Degree Requirements

The Ph.D. in art history requires up to 36 hours of coursework, as well as directed readings and dissertation hours. A student must pass a departmentally administered exam to demonstrate proficiency in at least two languages relevant to his or her course of study. Further requirements include oral and written exams and a colloquium in the third year; the fourth and fifth years are devoted to dissertation research and writing.

Students who leave the Ph.D. program after completing 30 hours and who have demonstrated proficiency in one language will be allowed to take an exam in order to receive the M.A. degree. Any student who has demonstrated language proficiency and achieves a GPA of 3.000 in 24 hours of coursework during the first year of study but who does not receive the positive recommendation of the advisory committee to continue on to Ph.D. candidacy will be allowed to fulfill the requirements for the M.A. by completing a thesis within the following 12 months.

## Art History, M.A.

### Admission and Financial Aid

Admission to the graduate program is selective. Students are expected to have had substantial undergraduate work in the history of art. A minimum of 12 credit hours of undergraduate art history above the survey level or equivalent is required before a student may begin to accumulate hours for graduate credit. Students who have been admitted without adequate undergraduate preparation will be expected to take the requisite number of undergraduate hours before or during their first term at SMU. The applicant should have a reading knowledge of one world language. Applicants must take the GRE graduate school admission test or, in the case of non-U.S. citizens who are residents outside the U.S., have a previous degree from an English-speaking university. An interview with the art history graduate adviser is desirable.

Outstanding students are awarded tuition grants and teaching/research assistantships. These awards are based on merit. Students accepting the offer of a scholarship may not decline the accompanying assistantship. In addition, the division has funds available so that graduate students may travel to conduct research on their thesis topic.

Application for admission with financial aid must be filed in full by January 10 for the fall term. A graduate application for admission and information concerning assistantships, fellowships, scholarships and degree programs are available from the Office of Graduate Admissions and Records, Meadows School of the Arts, SMU, PO Box 750356, Dallas TX 75275-0356.

## **Degree Requirements**

This is a 36-credit hour program. Thirty credit hours are required in coursework; each course is worth three credit hours. Twenty-one of the 30 credit hours must be of seminar standing – that is, ARHS 5303 plus six additional seminars. During the first term of graduate study, a student must enroll in at least two seminar courses. The final six credits must be taken in the form of a major research paper. This thesis must be approved by a committee of three faculty members at the conclusion of the student's M.A. work. Prior to enrollment in thesis hours, all students must pass a translation exam in a language related to the field of study and their graduate colloquium, which is generally scheduled at the beginning of their third term. If a student does not pass the colloquium, he or she has the opportunity to represent the work one final time. If unable to pass the second colloquium, he or she will be dropped from the program.

Each student will consult with the department's director of graduate studies upon arrival. Subsequently, students will select a permanent adviser and committee in their fields of special interest. Courses numbered 5000 or higher are graduate courses.

## **Art History Courses**

### **ARHS 5011 - Museum Internship**

*Credits: 0*

Available to majors with a GPA of 3.000 or higher.

### **ARHS 5012 - Museum Internship**

*Credits: 0*

Available to majors with a GPA of 3.000 or higher.

### **ARHS 5101 - Directed Studies**

*Credits: 1*

To be arranged with permission of the adviser and the faculty members directing the studies project.

### **ARHS 5102 - Directed Studies**

*Credits: 1*

To be arranged with permission of the adviser and the faculty members directing the studies project.

### **ARHS 5201 - Directed Studies**

*Credits: 2*

To be arranged with permission of the adviser and the faculty members directing the studies project.

### **ARHS 5202 - Directed Studies**

*Credits: 2*

To be arranged with permission of the adviser and the faculty members directing the studies project.

**ARHS 5301 - Directed Studies**

*Credits: 3*

To be arranged with permission of the adviser and the faculty members directing the studies project.

**ARHS 5302 - Directed Studies**

*Credits: 3*

To be arranged with permission of the adviser and the faculty members directing the studies project.

**ARHS 5303 - History and Methods of Art History**

*Credits: 3*

Introduction to the history of the discipline with discussion of major methodological approaches as they have shaped past scholarship and the present sense of crisis in the discipline. Exercise in methods of research and its presentation in good form. Required of all first-year graduate students.

**ARHS 5304 - Seminar On Ancient Art**

*Credits: 3*

Specific topics chosen by the instructor. Seminar members discuss the student reports.

**ARHS 5305 - Seminar On Greek Art**

*Credits: 3*

Specific topics chosen by the instructor. Seminar members discuss the student reports.

**ARHS 5316 - Seminar On Non-Western Art**

*Credits: 3*

Specific topics chosen by the instructor.

**ARHS 5320 - Seminar on Medieval Art**

*Credits: 3*

Specific topics chosen by the instructor.

**ARHS 5322 - Seminar on Convivencia: Jewish, Islamic, and Christian Art in Medieval Spain**

*Credits: 3*

The art and architecture produced by the Christians, Jews, and Muslims of Iberia during the 10th through 15th centuries. Students study the cultural contacts, conflicts, and compromises that affected each culture's artistic traditions and contributed to the diverse heritage of what now is called Spanish art.

**ARHS 5326 - History and Theory of Creative Computation**

*Credits: 3*

How have computers and information networks been used to create art? What ideas and practices have contributed to the development of creative computing? What does making art using code, algorithms, and the Internet say about the nature of art today? The identity of the artist? How do we assess the quality of the art produced by computers or responsive systems? Students explore the rich history and theory of creative computation, from the earliest experiments in machine art of the 20th century to the most advanced concepts of the present, from Artificial Intelligence to Virtual Reality. Prerequisites: A second-level coding course (CS 1342 or ASIM 3305 or CRCP 3305), or 9 credits in any 3000-level courses designated ARHS, ASAG, ASIM, CRCP, or CS.

**ARHS 5330 - Seminar on Italian Renaissance Art**

*Credits: 3*

Specific topics chosen by the instructor.

**ARHS 5331 - Seminar on Early Modern Art**

*Credits: 3*

Specific topics chosen by the instructor.

**ARHS 5333 - Seminar on 18th-Century Art**

*Credits: 3*

Specific topics on 18th-century art and/or architecture chosen by the instructor.

**ARHS 5340 - Seminar on Spanish Art**

*Credits: 3*

Specific topics chosen by the instructor.

**ARHS 5354 - Seminar on 19th-Century Art**

*Credits: 3*

Specific topics chosen by the instructor.

**ARHS 5355 - Seminar on 20th-Century Art**

*Credits: 3*

Specific topics chosen by the instructor.

**ARHS 5358 - Seminar on Modern Art**

*Credits: 3*

Specific topics chosen by the instructor.

**ARHS 5359 - Seminar on Contemporary Art**

*Credits: 3*

Specific topics chosen by the instructor.

**ARHS 5360 - Seminar on British Art**

*Credits: 3*

Specific topics chosen by the instructor.

**ARHS 5361 - Seminar on American Art**

*Credits: 3*

Specific topics chosen by the instructor.

**ARHS 5362 - Seminar on American Art**

*Credits: 3*

Specific topics chosen by the instructor.

**ARHS 5366 - Seminar on Pre-Columbian Art**

*Credits: 3*

Specific topics chosen by the instructor.

**ARHS 6000 - Thesis Project**

*Credits: 0*

This course is designed for graduate students who are completing a thesis project begun in an earlier term.

**ARHS 6101 - Master's Thesis**

*Credits: 1*

**ARHS 6102 - Master's Thesis**

*Credits: 1*

**ARHS 6103 - Master's Thesis**

*Credits: 1*

**ARHS 6104 - Master's Thesis**

*Credits: 1*

**ARHS 6105 - Master's Thesis**

*Credits: 1*

**ARHS 6106 - Master's Thesis**

*Credits: 1*

**ARHS 6107 - Master's Thesis**

*Credits: 1*

**ARHS 6108 - Master's Thesis**

*Credits: 1*

**ARHS 6109 - Master's Thesis**

*Credits: 1*

**ARHS 6110 - Master's Thesis**

*Credits: 1*

**ARHS 6111 - Master's Thesis**

*Credits: 1*

**ARHS 6112 - Master's Thesis**

*Credits: 1*

**ARHS 6201 - Master's Thesis**

*Credits: 2*

**ARHS 6202 - Master's Thesis**

*Credits: 2*

**ARHS 6300 - Graduate Directed Study**

*Credits: 3*

Specific topics for study selected by instructor.

**ARHS 6301 - Master's Thesis**

*Credits: 3*

### **ARHS 6302 - Master's Thesis**

*Credits: 3*

### **ARHS 6303 - Archaeological Field Methods of Italy**

*Credits: 3*

Archaeological field experience in classical archaeology in Italy. Introduces the principles of archaeological field method through lectures and field experience. Also, lectures on Etruscan history, art, and culture. (Temporalities pre-1500) (SMU-in-Italy: Archaeology)

### **ARHS 6311 - Mortals, Myths, and Monuments of Ancient Greece**

*Credits: 3*

A visual analysis of the rich tapestry of ancient Greek culture, fountainhead of Western civilization, with emphasis on mythological, archaeological, and historical settings in which the art and architecture occur. Touches on various aspects of ancient Greek life, including religious practices, Olympic contests, theatrical performances, and artistic perfection.

### **ARHS 6313 - The Etruscans and Iron Age Italy**

*Credits: 3*

The art and architecture of early Italy, including Etruscan art, early Roman art, and Italic art, are studied with respect to the cultural context and environment.

### **ARHS 6314 - Art of the Moving Image**

*Credits: 3*

Considers how artists have made use of moving images in film, television, video, animation, and 3D projection, from the 1920s to the present day. Discusses how the uses of these media by artists intersect with and diverge from their uses in the film and television industries. Students will develop an in-depth knowledge of art of the moving image and an awareness of key themes and issues in film and media studies.

### **ARHS 6315 - Classical Sculpture**

*Credits: 3*

A study of the styles, subjects, and techniques of the sculptor's art during the ancient Greek, Hellenistic, and Roman eras. Focuses on the functions of sculpture in the round, in relief, freestanding, and in architectural settings, with particular attention to historical background.

### **ARHS 6316 - Etruscan and Roman Art**

*Credits: 3*

### **ARHS 6320 - Medieval Art**

*Credits: 3*

An introduction to the art of Byzantium, Islam, and the medieval West through study of five genres to which each of these cultures made distinctive contributions: the congregational worship space, imaging the sacred word, the court and its objects, the pilgrimage site, and the urban religious complex.

### **ARHS 6322 - Art and the Italian Commune**

*Credits: 3*

The interplay of artistic styles, workshop practice, religious change, and political controversy in the century between St. Francis and the Black Death, emphasizing the art of the Pisani, Cimabue, Cavallini, Giotto, Duccio, and the Lorenzetti. (Temporalities pre-1500)

## **ARHS 6324 - Art and Cultures of Medieval Spain**

*Credits: 3*

Introduces the visual traditions of the diverse medieval cultures that coexisted from the fall of Roman Hispania to the cultural and political consolidations of Ferdinand and Isabella. Emphasizes instances of cultural coexistence and rivalry ("convivencia") among Spain's medieval Islamic, Christian, and Jewish cultures. Also, the interplay of foreign and indigenous traditions, the expression of religious and ethnic identity, and the reuse and reconception of artistic forms and objects. Direct study of medieval Spanish painting, sculpture, and manuscripts in the Meadows Museum and Bridwell Library supplement classroom lectures, discussion, and research projects. (Temporalities pre-1500; global perspectives)

## **ARHS 6325 - The Gothic Cathedral and Its World**

*Credits: 3*

The social and spiritual centerpiece of medieval European life, the Gothic cathedral was also one of the greatest multimedia creations of its age. This lecture course uses the cathedral as a springing point for the investigation of the rich architectural and artistic traditions of the high and late Middle Ages in Europe. (Temporalities pre-1500)

## **ARHS 6331 - Art and Culture of the Italian Renaissance**

*Credits: 3*

Surveys major artistic developments of the Renaissance (1300-1600), with special attention to the work of Giotto, Donatello, Leonardo, Raphael, Titian, and Michelangelo. Includes study of the customs, literature, and philosophy of the period through selected readings of primary sources. (Temporalities pre-1500)

## **ARHS 6332 - 16th-Century Italian Art**

*Credits: 3*

Topics include the dominance of Leonardo, Michelangelo, Raphael, and Titian in the 16th century; the High Renaissance in Florence and Rome and its aftermath, Mannerism, in Catholic courts across Europe; the development of art history as a discipline in conjunction with the rise of academics, art collecting, and the search for elevated status; and the challenge of women artists such as Sofonisba Anguissola to prevailing notions of creativity. (Temporalities pre- and post-1500)

## **ARHS 6334 - The Look of Freedom**

*Credits: 3*

This course investigates the visual history of freedom. The idea of freedom as a fundamental human right became prominent in the 18th century, during the same time "vision" became an essential tool in science, the main axis of politics, and the leading sensitivity in art and aesthetics. To complicate matters, both liberty and vision emerged at a time of heightened colonialism and the expansion of empire. Students investigate the manner in which different visual media facilitated, documented, and articulated debates regarding freedom. Particular attention is given to the representation of the body, as this exercise negotiated a range of specific aesthetic, artistic, and cultural concerns regarding the social and political world: To what extent is the idea of freedom, both in historical actuality and in the cultural imagination, determined by the colonial system? What is the political history of freedom? How is freedom coded visually? What are the political limits of freedom? The course readings are organized to consider a range of theoretical and methodological approaches that show the complex history of the concept of freedom in the West. Graduate students enrolled in ARHS 6334 must fulfill additional course requirements as specified by instructor.

## **ARHS 6337 - The Baroque From a Northern Perspective**

*Credits: 3*

Explores the world of Rembrandt, Rubens, Leyster, Vermeer, Van Dyck, De la Tour, Le Brun, Jones, and Wren in the context of such contemporary events as the Thirty Years' War and the Reformation. Also, art versus craft, nationalism versus internationalism, individual genius versus market, colourism versus classicism, and collector versus connoisseur. By considering a broad range of artworks - from tapestry to painting and from etching to architecture - in terms of the maker, market and patron or client, this survey seeks the underlying whys for this absorbing period. (Temporalities post-1500)

### **ARHS 6339 - El Greco to Goya: Spanish Painting of the Golden Age**

*Credits: 3*

A survey of the painting traditions of Spain's 15th through early 19th centuries, including such artists as El Greco, Velazquez, Ribera, Murillo, and Goya. Lectures are supplemented by direct study of Spanish paintings and prints in the Meadows Museum. (Temporalities post-1500)

### **ARHS 6348 - 18th-Century Art**

*Credits: 3*

A study of European visual culture, 1700-1800, in its many contexts. Topics include art and the public sphere; the rise of museums, exhibitions, criticism, and theory; shifts in patronage and artistic practice; connections among commerce, industry, and the arts; questions of identity; stylistic revivals and innovations; explorations of the past; and encounters with cultures outside Europe. (Temporalities post-1500)

### **ARHS 6349 - Hieroglyphs to Hypertext: The Art and History of the Book**

*Credits: 3*

Examines the early development and the enduring cultural impact of the book - that is, the physical format of written communication known as the codex, which has dominated the intellectual landscape for the past two millennia. This survey traverses the historical forms of written communication, including cuneiform, hieroglyphs, calligraphy, woodblock, and letterpress printing, as well as the new dematerialized forms stored in digital information retrieval technologies. (Temporalities pre-1500)

### **ARHS 6350 - Modern Art and Media Culture, 1789-1870**

*Credits: 3*

Examines the emergence of a public sphere and a culture of looking in the 19th century. Discusses European visual art in relation to the rise of museum and gallery culture, journalistic illustration, the department store display window, photography and the panorama, the art critic, and early cinema. (Methods and theories)

### **ARHS 6352 - Impressionism, Symbolism, and the Deviant Body: Making a Difference**

*Credits: 3*

Examines impressionist and symbolist art in relation to the emergence of the modern metropolis and the concept of modernity in Europe during 1870-1940. The discourse of degeneration that emerged in the context of 19th-century racial theory, criminology, and medical science forms the framework for discussion. (Methods and theories) (Also SMU-in-Paris)

### **ARHS 6355 - History of Photography II: 1940-Present**

*Credits: 3*

A survey of the history of photographic media from 1940 to the present, with particular emphasis on the still photograph in its various uses as art, document, aide-memoire, amateur pursuit, and social practice. Examines photographic images and image-makers in relation to the social historical contexts in which they are produced; the evolution of photographic technologies; and the idea of the photographic image as it appears in and is transformed through TV, video, film, conceptual art, and new media. (Temporalities post-1500)

### **ARHS 6356 - Modern Architecture**

*Credits: 3*

Western architecture from the late 19th century to the present, focusing on the proto-modern trends of the late 19th century and the major masters of the modern movement: Sullivan, Wright, Gropius, Le Corbusier, and Mies van der Rohe. (Temporalities post-1500)

### **ARHS 6358 - Gender and Sexuality in the Visual Arts**

*Credits: 3*

Considers the representation of gender and sexuality in the visual arts, as well as the gendering of art production,

patronage, and viewership. Topics may include the work of female artists, representations of male and female bodies, the role of the visual arts in constructing, subverting, norms of gender and sexuality, and the gendering of art theory and the art historical canon.

### **ARHS 6359 - Topics in Art History: International Studies**

*Credits: 3*

Specific topics for investigation will be chosen by the instructor.

### **ARHS 6361 - Special Studies in Art History**

*Credits: 3*

Specific topics for investigation will be chosen by the instructor.

### **ARHS 6362 - Picturing Children and the Family in Art, 1850 to the Present**

*Credits: 3*

Considers changing representations of children and the family in art from 1850 to the present. Artworks will be studied in relation to literary and theoretical texts, from Lewis Carroll's *Alice in Wonderland* to Melanie Klein's research on the emotional development of children. Key topics will include the perceived relationship between childhood and artistic creativity, the representation of gender and sexuality, family members as artistic collaborators, and representations of the changing structure of the family in the twenty-first century.

### **ARHS 6363 - Topics in Brazilian Art and Architecture**

*Credits: 3*

Explores Brazilian art and architecture from the encounter of the Portuguese with native peoples of the New World in 1500, through the long period of colonial history, to the vibrant contemporary arts of Brazil today. Topics include the complex tapestry of artistic and intercultural exchange among Brazil's Amerindian, African, and European populations; indigenous terra-forming; Tupi feather work, ceramics, and urban planning; European mapping of Brazil and the Amazon; religious art and architecture; Afro-Brazilian art forms and religious practices; Carnival and other performances of popular culture; the artistic production of the colonial period and the foundations of Brazilian modern art; video art during the dictatorship and contemporary allegories of underdevelopment; and historical artistic practices and their link to different national and international models for representing Brazilian national identity today, as well as their ethical, aesthetic, political, and/or social repercussions. (Temporalities post-1500; global perspectives)

### **ARHS 6364 - History and Theory of Prints**

*Credits: 3*

Covers how prints are made and how they can function (newspapers, postage stamps, maps, works of art, etc.). Also, the history of printmaking; established and emerging printmakers and major printmaking techniques from the 15th through 21st centuries; and fundamental issues regarding originality and copying, uniqueness and multiplicity, display, and collecting as raised by the medium of print. Provides firsthand experience of prints through looking assignments, visits to local collections, and in-class exercises. (Temporalities post-1500)

### **ARHS 6365 - Race and Gender in Visual Culture**

*Credits: 3*

The body is not just a compilation of organs. It is a site through which this era's most contentious political discussions (e.g., human rights violations, racism, and sexism) are experienced. Students explore the complex interconnections among race, gender, and politics in visual culture to analyze how these identities, locations, and markers are constructed and deployed in various media, including painting, photography, and TV. (Temporalities post-1500; methods and theories)

### **ARHS 6368 - Art and Context: 1940-1970**

*Credits: 3*

An international survey of modern art during 1940-1970 that looks at the postwar development of modernist, formalist,

figurative, realist, and antimodernist art in a social historical context, with particular attention to the cultural impact of World War II, the ideological conflicts and geopolitics of the Cold War, and the social and political upheaval of the 1960s. Also, the relevant histories of gender, sexual, racial, regional, and national identity in America and other industrialized nations (Britain, France, Germany, Italy, the Soviet Union, and Japan). (Temporalities post-1500)

### **ARHS 6369 - Contemporary Art: 1965-Present**

*Credits: 3*

An international survey of contemporary art from 1965 to the present, with specific attention to the rise of the current proliferation of new modes and new media in art (multimedia, installation, performance, site-specificity, video, interactive, and digital art), locating its origins in the social upheaval and shifting artistic practices at the close of the 1960s. Also, contemporary art practices as they relate to a range of influential developments in critical theory, social history, and local and global visual cultures. (Temporalities post-1500)

### **ARHS 6370 - The Art Market: Making, Selling, and Displaying Art in Early Modern and Modern Europe**

*Credits: 3*

Examines how art was produced, sold, collected, and displayed in early modern and modern Europe. Includes case studies of different centuries and cultures, which might include 16th-century Italy, 17th-century Holland, 18th-century England, or 19th-century France. Students consider issues such as artists' education and self-promotion, the roles of private and governmental patronage, the development of art academies and public exhibitions, the circulation of art objects between Europe and non-European countries, the gendering of the production and consumption of art, and the rise of the dealer system. (Temporalities post-1500)

### **ARHS 6371 - The Decorative Arts and the History of Dress in 18th-Century Europe**

*Credits: 3*

Explores the history of production and consumption of the decorative arts and clothing in 18th-century Europe. Topics include how decorative objects and clothing were made and by whom, how styles evolved and in what political and social contexts, how consumers used objects to define themselves in and against society, and how objects and textiles circulated between Europe and the rest of the world. Also, the gendering of production and consumption, and the relationship between the luxury market and more affordable objects. (Temporalities post-1500)

### **ARHS 6373 - American Art and Architecture to 1865**

*Credits: 3*

A survey of American painting, sculpture, and architecture from the Colonial period through the Civil War.

### **ARHS 6374 - American Art and Architecture, 1865-1940**

*Credits: 3*

Provides a stylistic and iconographic survey of American painting, sculpture, photography, and architecture from 1865 to 1940 and attempts to situate the images within their specific cultural contexts. Also, broad underlying issues such as nationalism, class, race, and gender. Group discussions on the strengths, assumptions, and weaknesses of these interpretations are relevant for the students' research, thinking, and writing. (Temporalities post-1500)

### **ARHS 6376 - Latin American Art**

*Credits: 3*

A survey of art and architecture in Latin America from the initial contacts between European and American civilizations until the 20th century. (Temporalities post-1500; global perspectives)

### **ARHS 6382 - Art and Experience in Inka Peru**

*Credits: 3*

The ritual and everyday objects of the native inhabitants of North America, and the architecture of the Mound Builders and the Southwestern Indians. (Temporalities post-1500; global perspectives)

### **ARHS 6383 - The Ancient Maya: Art and History**

*Credits: 3*

Introduces the art and history of the Maya of Central America. Also, addresses the principal sites and monuments of the ancient Maya civilization, imparts a working understanding of the Maya hieroglyphic writing system, and surveys the political history of the fractious ancient Maya cities. (Temporalities pre-1500; global perspectives)

### **ARHS 6385 - The Aztecs Before and After the Conquest: Mesoamerica, 1400-1600**

*Credits: 3*

Examines the art and cultural history of Mexico in the centuries immediately before and after the Spanish arrival in Mesoamerica. Topics include the art and ceremony of the imperial Aztec state; the nature of the conflict between 1519 and 1521 that ended in the fall of the Aztec capital to the Spanish; and the monuments of Spanish conquerors, missionaries, and the native elite in Mexico's early colonial period. (Temporalities pre-1500; global perspectives)

### **ARHS 6388 - Why We Go to Auschwitz: Art, Trauma, and Memory**

*Credits: 3*

Examines how societal memory of the Holocaust is shaped by visual media and public spaces of remembrance like museums, memorials, and artistic monuments. Also, the close ties between fascism and visual culture in the 1930s (Leni Riefenstahl's propaganda films for Hitler and the Degenerate Art Exhibition of 1937) and the emergence of a Holocaust consciousness in philosophy, literature, art, and film in the 1960s, stimulated by Eichmann's trial in Israel. The primary focus is the preoccupation with the Holocaust in the last two decades by artists and intellectuals born after World War II whose knowledge of Shoah (the Holocaust) derives from its representation in books, photographs, and film. (Methods and theories; global perspectives)

### **ARHS 6391 - Visual Culture in Colonial Mexico**

*Credits: 3*

The arrival of Europeans in the Americas in 1492 inaugurated one of the most remarkable and violent encounters in human history. This course examines the visual and material culture created in the aftermath of this cultural collision in Mexico, the former Viceroyalty of New Spain, from the 16th to 18th centuries. Topics include the interplay and creative synthesis of discrete European and indigenous visual cultures within the colonial sphere; the role of the arts in empire building; and feather work, manuscripts, painting, sculpture, architecture, urban planning, etc. as visual practices. (Temporalities post-1500; global perspectives)

### **ARHS 6392 - Islamic Art and Architecture: The Creation of a New Art**

*Credits: 3*

Issues significant to the creation and expansion of Islamic art from the 7th to the 15th century, e.g., the cultural and political exchange and conflict between Muslims and Christians, religious concerns and the artistic forms created to meet them, the importance of the book in Muslim culture, the distinctions between religious and secular art, and the appropriation of sacred space in Muslim architecture. (Temporalities pre-1500; global perspectives)

### **ARHS 6393 - Culture of Oaxaca: A Sense of Place**

*Credits: 3*

Learning adventure in Oaxaca: exploration of multilayered cultural history through field trips to artists' workshops, museums, archaeological sites, and religious fiestas. The focus is on art, art history, folklore, and religion. Lectures, readings, discussion, essays, interviews and photographs of artists for student projects, and numerous field trips provide a broad exposure to Oaxacan culture. (Global perspectives) (SMU-in-Oaxaca)

### **ARHS 6394 - Art and Architecture of Japan**

*Credits: 3*

Surveys religious and secular arts from prehistoric times through the Edo period. Includes field trips to Kyoto and Nara. (Temporalities pre-1500; global perspectives) (SMU-in-Japan)

### **ARHS 6396 - Art and Architecture of China**

*Credits: 3*

Important monuments in China, dating from 2000 B.C. to the present day, in a variety of media: cast bronze, stone, sculpture, painting on silk and paper, porcelain, wooden architecture, etc. Selected objects and sites illuminate the concept of monument from differing perspectives of technology, aesthetics, labor, religion, ethnicity, and politics. Also, comparisons to analogous monuments outside China and visits to collections of Chinese art in Dallas/Fort Worth. (Temporalities pre- and post-1500; global perspectives)

### **ARHS 6399 - The Medieval Jewish-Christian Dialogue in Art and Text**

*Credits: 3*

Examines the mutual perceptions, conflicts, and commonalities among medieval European Christians and Jews as reflected in works of visual art and in philosophical, theological, legal, and literary texts. (Temporalities pre-1500; global perspectives)

### **ARHS 7301 - Doctoral Workshop**

*Credits: 3*

A term-long, writing-intensive program of instruction and professional mentoring with a member of the ARHS faculty. Doctoral students participating in the workshop are expected to produce one or more publishable works of scholarship over the term.

### **ARHS 7302 - Doctoral Exam Preparation**

*Credits: 3*

Faculty-advised preparation for doctoral exams.

### **ARHS 8000 - Dissertation**

*Credits: 0*

Faculty-advised preparation of the doctoral dissertation. Prerequisite: Departmental consent.

### **ARHS 8101 - Dissertation**

*Credits: 1*

Faculty-advised preparation of the doctoral dissertation.

### **ARHS 8102 - Dissertation**

*Credits: 1*

Faculty-advised preparation of the doctoral dissertation.

### **ARHS 8103 - Dissertation**

*Credits: 1*

Faculty-advised preparation of the doctoral dissertation.

### **ARHS 8104 - Dissertation**

*Credits: 1*

Faculty-advised preparation of the doctoral dissertation.

### **ARHS 8105 - Dissertation**

*Credits: 1*

Faculty-advised preparation of the doctoral dissertation.

### **ARHS 8106 - Dissertation**

*Credits: 1*

Faculty-advised preparation of the doctoral dissertation.

# Arts Management and Arts Entrepreneurship

**Professor** Alex Turrini, **Division Chair**

**Professor:** Zannie Giraud Voss

**Assistant Professor:** Kathleen Gallagher

**Professor of Practice:** Jim Hart

**Adjunct Professor:** Zenetta Drew, Jill Robinson

**Adjunct Lecturers:** James Jillson, Maureen Mixtacki, Andrea Perez

## International Arts Management, M.M.I.A.M

SMU, HEC Montréal and SDA Bocconi University's School of Management in Milan, Italy, jointly offer a limited number of highly qualified candidates a global perspective on arts management. Through study at these three campuses, a student is able to gain exposure to three different arts markets. This program is offered on a full-time basis only and is intended to train a new generation of managers for positions in the international dimension of the performing arts, the heritage sector (museums, historic sites) or cultural industries (film, publishing, sound recording, radio and television).

The duration of the M.M.I.A.M. program is 12 months, and it consists of three consecutive terms that collectively provide 45 credit hours: 39 credit hours of coursework plus a final project worth six credit hours. Students will spend the fall term in Dallas, the winter term in Montréal, the spring term in China and India and the and the summer term in Milan. All coursework is offered in English. The curriculum includes instruction from internationally distinguished arts and business professors. The student's learning will be assessed with a combination of exams, team exercises, group projects, syntheses and participation in class. Teaching methods used in the program include theoretical courses, case studies, fieldwork, lectures by world leaders and visits to well-known cultural organizations and facilities.

## Admission

The Admissions Committee seeks candidates who demonstrate outstanding academic achievement and potential, leadership qualities, and management potential. To assess these characteristics, the committee will look to the following elements to help identify a candidate's potential to succeed in the program: test scores (GMAT or GRE graduate school admission test scores required for all applicants, TOEFL or IELTS English language proficiency test scores also required if English is not the applicant's first language), application form, previous academic records, references and self-evaluation essays. If the candidate's application is accepted, he or she will be invited for an interview with a program of the selection committee by teleconference. The applications for study in the M.M.I.A.M. program are accepted only for fall admission. More information is available online from the Meadows School at [www.smu.edu/Meadows/AreasOfStudy/ArtsManagement/GraduateStudies/MMIAM](http://www.smu.edu/Meadows/AreasOfStudy/ArtsManagement/GraduateStudies/MMIAM) ("Apply" link).

## Degree Requirements

The 15 credit hours of M.M.I.A.M. courses offered through SMU focus on management of nonprofit arts organizations and private sector funding, and the 15 credit hours offered through HEC Montréal focus on marketing. The 15 credit hours offered through SDA Bocconi focus on cultural industries; the focus of the master's thesis is an arts sector or industry.

## Required Courses

### SMU Courses

- IAM 6351 - Cultural Economics and the International Art Market
- IAM 6352 - Comparative International Cultural Policy
- IAM 6353 - International Law and the Arts
- IAM 6354 - Fundraising in the Arts
- IAM 6355 - Nonprofit Arts Budgeting and Financial Management

Total: 15 Credit Hours

### HEC Montréal

- 2001 MIHEC Accounting Management in Cultural Organizations (Film, Publishing, Recording)
- 2002 MIHEC Arts Marketing
- 2004 MIHEC Leadership in the Context of Cultural Organizations
- 2006 MIHEC Information Technologies for Arts and Culture
- 2005 MIHEC New Forms of Innovation
- 2007 MIHEC International Marketing of the Cultural Industries
- 2003 MIHEC Managing Cultural Products and Brands
- 2009 MIHEC Promotion and Advertising
- 2010 MIHEC Research Methods in Marketing for Arts and Culture
- 2012 MIHEC Database Marketing

Total: 15 Credit Hours

### SDA Bocconi

- Master's Thesis (6 hours)
- Consulting Management
- Performing Arts Management
- Heritage Management

Total: 15 Credit Hours

Total: 45.0 Credit Hours

## **Master of Arts/Master of Business Administration, M.A./M.B.A.**

As arts organizations today face a changing environment that presents both unprecedented opportunities and increased financial and competitive pressures, there is a need for skilled and resourceful administrators, managers and leaders in the arts. The SMU M.A./M.B.A. program in business and arts administration is designed to address this need. It is based on the philosophy that a successful career in arts management requires a thorough knowledge of contemporary business practices coupled with both a deep understanding of the arts and the ability to recognize and seize opportunities. Global exchange opportunities provide students exposure to the world's diversity of arts models, trends and challenges. Students gain an international perspective through exchange opportunities and partnerships.

The SMU Meadows School of the Arts, in conjunction with the Cox School of Business, offers to a limited number of highly qualified candidates the nation's only concurrent dual degree graduate program in arts management. Through the Division of Arts Management and Arts Entrepreneurship, the M.A./M.B.A. program combines development of contemporary general-management skills with in-depth study of today's professional arts world.

The program is five successive terms, including summer. The curricula include instruction from distinguished arts and business professors, continuing seminars with nationally recognized arts administrators, and study abroad and internship components. During the first year, students take arts management seminars and the core required business curriculum, the basis on which to build for the variety of elective courses scheduled during mornings, afternoons and evenings of the second year. During the summer between the first and second year, students intern full time with a professional arts organization. In the first term of the second year, students study abroad at Bocconi University in Milan, Italy. Seminars and practica (part-time internships) in the arts tailored to the individual student's background,

experience and career goals round out the education. The division office also assists graduates in their career objectives through guidance and assistance with their placement.

## **Admission**

The Admissions Committee seeks candidates who demonstrate outstanding academic achievement and potential, leadership qualities, and management potential. To assess these characteristics, the committee will look to the following elements to help identify a candidate's potential to succeed in the program: test scores (GMAT management/business graduate school admission test or GRE graduate school admission test required for all applicants; TOEFL or PTE English language proficiency test also required for international applicants), previous academic records, references who can speak to the candidate's professional performance and self-evaluation essays. (If a candidate has not earned a baccalaureate degree in an arts field, a degree in another field combined with significant academic, professional or personal experience in the arts is acceptable.) Personal interviews are conducted at the request of the Admissions Committee after a complete application has been received. Merit-based scholarships are available on a limited basis.

The applications for study in the M.A./M.B.A. program are accepted only for fall admission. Students must be accepted by both the Meadows arts management program and the Cox School of Business; however, candidates submit only the Cox M.B.A. online application and select M.A./M.B.A. as the degree choice. Students who matriculate into the M.A./M.B.A. dual program are required to complete concurrently both the M.A. and the M.B.A. requirements in order to graduate. Students cannot drop either part of the dual degree program nor fail to maintain a 3.000 GPA in each school independently as well as cumulatively.

For more information from the Meadows School of the Arts, students should visit [www.smu.edu/Meadows/AreasOfStudy/ArtsManagement](http://www.smu.edu/Meadows/AreasOfStudy/ArtsManagement) or email [amaemeadows.smu.edu](mailto:amaemeadows.smu.edu). Information is also available from the Cox School of Business ([www.coxmba.com](http://www.coxmba.com)); email [mbainfo@cox.smu.edu](mailto:mbainfo@cox.smu.edu).

## **Degree Requirements**

This 75-hour program requires 48 hours of business courses and 27 hours of arts administration courses. Cox School of Business courses are organized into modules.

### **Year 1**

#### **Fall Term**

##### **Module A Courses**

- AMAE 6223 - Fundraising in the Arts
- ACCT 6201 - Financial Accounting I
- FINA 6201 - Managerial Finance
- MAST 6201 - Managerial Statistics
- MKTG 6201 - Marketing Management
- MNGT 6101 - Managing Your Career

##### **Module B Courses**

- AMAE 6224 - Advanced Fundraising Strategy
- ACCT 2nd required accounting course (2 Credit Hours)
- BUSE 6202 - Managerial Economics
- ITOM 6202 - Management Decision Analysis
- MNGT 6103 - Business Presentation Techniques

**Term Total: 20 Credit Hours**

**Note:** Students select the second accounting course based on their interest and anticipated concentration: either ACCT 6202 - Financial Accounting II or ACCT 6205 - Managerial Accounting I.

## Spring Term

- AMAE 6051 - Practicum (10 hours per week)

### Module A Courses

- AMAE 6205 - Nonprofit Financial Management
- ITOM 6203 - Operations Management
- MNO 6201 - Organizational Behavior: Managing and Leading People
- MKTG 6233 - Nonprofit Marketing Strategy
- MNGT 6011 - Managing Your Career, Part Two

### Module B Courses

- AMAE 6222 - Audience Development and Marketing in the Arts
- MNGT 6210 - Global Leadership Program
- STRA 6201 - Strategic Management
- MNGT 6020 - First-Year Foundations
  
- BUSE 6203 - Macroeconomics  
or
- FINA 6222 - Financial Markets and Monetary Policy

### Module A and B Courses

- Business electives: one course (2 Credit Hours)

## Term Total: 18 Credit Hours

**Note:** MNGT 6020 is a requirement of the M.A./M.B.A. program. The successful completion of this degree requirement earns a grade of P (Pass). Students participate in various required activities to enhance professional development. These sessions will take place most Fridays during the first year of the M.B.A. program.

## Summer Term

- AMAE 6304 - Arts Administration Internship

## Term Total: 3 Credit Hours

## Year 2

### Fall Term

#### International Study

Courses at Bocconi University in Milan, Italy

- Arts management electives: four courses (12 Credit Hours)
- Business electives: 2 courses (4 Credit Hours)

## Term Total: 16 Credit Hours

## Spring Term

- AMAE 6054 - Practicum (10 hours per week)

### Module A Courses

- AMAE 6215 - Independent Study: In-Depth Industry Exploration

- or
- AMAE 6221 - Legal Issues in the Arts (elective option)
- or
- AMAE 6225 - Economics of Arts and Culture (elective option)

**Module B Course:**

- AMAE 6202 - Strategic Planning in the Arts

**Module A and B Courses:**

- Business electives: seven courses (14 Credit Hours)

**Term Total: 18 Credit Hours**

## Cox Credit Hours Summary for M.A./Full-Time M.B.A. Program

28 credit hours of required Cox courses

20 credit hours of elective Cox courses

**48 credit hours total from Cox toward M.A./M.B.A. degree**

**Note:** For the 20 credit hours of elective courses, students complete one concentration. Each concentration requires 12–16 specific credit hours.

## Credit Hours Summary by School

<i>Year</i>	<i>Meadows Arts</i>	<i>Cox Business</i>
1	11	30
2	16	18
<b>Total</b>	<b>27</b>	<b>48</b>

## Arts Management and Arts Entrepreneurship Courses

### **AMAE 6051 - Practicum**

*Credits: 0*

Spring of first year, 10 hours per week.

### **AMAE 6053 - Practicum**

*Credits: 0*

Fall of second year, 10 hours per week.

### **AMAE 6054 - Practicum**

*Credits: 0*

Spring of second year, 10 hours per week.

### **AMAE 6115 - Directed Studies in Arts Administration**

*Credits: 1*

Directed Studies in Arts Administration.

### **AMAE 6201 - Introduction to Arts Management**

*Credits: 2*

This course integrates arts management theory and practices from a variety of arts disciplines. The goals of the course are to explore management of arts organizations locally, nationally, and internationally.

### **AMAE 6202 - Strategic Planning in the Arts**

*Credits: 2*

Focuses on the role of long-range planning in arts institutions, including alignment of organizational mission with strategic objectives, organizational capacity, and capital structure. After an in-depth analysis of an arts organization, students construct an appropriate, detailed strategic plan.

### **AMAE 6205 - Nonprofit Financial Management**

*Credits: 2*

Emphasizes financial and operational management of nonprofit arts organizations. Also, budgeting as a reflection of the art form; as a means of fiscal prediction and control; and as a vehicle of communication among staff, trustees, and the organization's other constituencies.

### **AMAE 6215 - Independent Study: In-Depth Industry Exploration**

*Credits: 2*

This research course will give students an opportunity to fully explore the structural and managerial specifics of their arts industry discipline of choice, including collective bargaining agreements, current trends and pressing issues, programming management, and technology.

### **AMAE 6221 - Legal Issues in the Arts**

*Credits: 2*

Students will examine, debate, and critically assess legal and ethical aspects of creating and interacting with works of the visual and performing arts and the relationships between and among creators, performers, dealers, collectors, arts institutions, and the public.

### **AMAE 6222 - Audience Development and Marketing in the Arts**

*Credits: 2*

Development of external and internal marketing plans, including the following topics: audience development, market segmentation, promotional strategies, sponsorships, e-market research, customer service, and media relations.

### **AMAE 6223 - Fundraising in the Arts**

*Credits: 2*

Examination of strategies for raising funds in the private and public sectors, including the process of researching, preparing, and managing individual and corporate gifts as well as foundation and government grants.

### **AMAE 6224 - Advanced Fundraising Strategy**

*Credits: 2*

This course offers students an advanced exploration of fundraising. Primary emphasis is on development of strategies for annual fund development; major gifts; capital campaigns; prospect research; and institutional fundraising, including government funding. Prerequisite: AMAE 6223.

### **AMAE 6225 - Economics of Arts and Culture**

*Credits: 2*

This course explores the influence of cultural economics on the production, financing, and consumption of arts and culture, and their mechanisms. The course focuses on these topics: the demand and supply of art; the market of the visual arts; the market of the performing arts; the audiovisual industry and other cultural industries; cultural heritage and cultural tourism; art value and pricing; copies and fakes; artists' labor market; and habits, dynamics, and social interactions in cultural consumption. Prerequisite: Enrollment in the M.A./M.B.A. program or permission of instructor.

### **AMAE 6275 - Social Entrepreneurship: Creating a Movement and Innovating Through Social Good**

*Credits: 2*

Explores how to use one's talents, passions, and interests to address world problems with innovative solutions that result in movements and cultural change. Special focus on learning to build a business that not only realizes success but also aids those in need.

### **AMAE 6304 - Arts Administration Internship**

*Credits: 3*

An internship with a professional arts organization in the field of the student's specialty. A sampling of past internships includes Arena Stage, the Art Institute of Chicago, the Seattle Repertory Theatre, the Dallas Symphony Orchestra, the Guthrie Theatre, the Lyric Opera of Chicago, the Minnesota Orchestra, New York City Ballet, and the San Francisco Opera, as well as the American Association of Museums in Washington, D.C.

### **AMAE 6315 - Directed Studies in Arts Administration**

*Credits: 3*

### **AMAE 6321 - Law and the Arts**

*Credits: 3*

Examines laws and legal implications relating to 1) the activities of visual and performing arts organizations; 2) the creation, acquisition, use, transfer, and disposition of works of visual and performing arts and related intellectual properties; 3) the interests, obligations, and relationships of creators, users, and consumers of the arts; 4) and broader domestic and international issues impacting the art world.

### **AMAE 6325 - Cultural Economics**

*Credits: 3*

Explores the mechanisms and influence of cultural economics on the production, financing, and consumption of arts and culture. Focuses on the demand and supply of art; the market of visual arts; the market of the performing arts; the audiovisual industry and other cultural industries; cultural heritage and cultural tourism; art value and pricing; copies and fakes; artists' labor market; and habits, dynamics, and social interactions in cultural consumption. Prerequisite: Enrollment in the M.A./M.B.A. program or permission of instructor.

### **AMAE 6326 - Cultural Policy**

*Credits: 3*

Provides an overview of policy analysis and practice of the cultural sector in its different areas (heritage, visual and performing arts, etc.) and perspectives. Analyzes historical and theoretical backgrounds of cultural policy; cultural policies in practice (stylized facts and geographical and political divergence at local, national, and international levels); evaluation of cultural policies and their socioeconomic impact; culture, diversity, and development; and cultural access and arts education.

### **AMAE 6331 - International Arts/Business Exchange with Bocconi University**

*Credits: 3*

### **AMAE 6332 - International Arts/Business Exchange with Bocconi University**

*Credits: 3*

### **AMAE 6333 - International Arts/Business Exchange with Bocconi University**

*Credits: 3*

### **AMAE 6334 - International Arts/Business Exchange with Bocconi University**

*Credits: 3*

### **AMAE 6375 - Social Entrepreneurship: Creating a Movement and Innovating Through Social Good**

*Credits: 3*

Explores how to use one's talents, passions, and interests to address world problems with innovative solutions that result in movements and cultural change. Special focus on learning to build a business that not only realizes success but also aids those in need.

### **AMAE 6387 - Attracting Capital: Donors, Investors, and Public Funds**

*Credits: 3*

This course focuses on strategies for attracting capital for new arts-related ventures, whether for-profit or nonprofit. Each capital market is explored for its defining characteristics, mechanisms, and motivations. Students develop skills in preparing funding proposals and pitching their ideas to potential funders.

### **AMAE 6390 - Developing an Arts Venture Plan: Legal, Strategic, and Practical Issues**

*Credits: 3*

Through this course, students 1) develop an idea for an unmet need in the marketplace; 2) create a plan for the intended impact of their service or product and the model for how that change will take place; 3) analyze the environmental, industry-related, legal, and market-related factors that will influence the success of their new venture; 4) analyze the risks involved with launching their new venture; and 5) develop a plan for the human, financial, space-related, and other resource needs that will be necessary to launch their venture.

## **International Arts Management Courses**

### **IAM 6056 - Accounting Management in Cultural Organizations**

*Credits: 1.5*

HEC Course Number 2001MIHEC. In order to make the best possible decisions, managers in the cultural industries use information that is produced by company information systems. In this regard, the financial information produced by a company's accounting system is of the utmost importance. In several countries, company financial statements are now being presented according to International Financial Reporting Standards (IFRS). This course is aimed at acquainting managers, who may be called upon to read financial statements produced in different countries, with the main IFRS rules of presentation. The second part of the course covers guidelines for using budget control efficiently in order to reach the above objectives. At the end of the course, students will have a firm grasp of both internal financial management (budgeting) and external financial management (reading financial statements).

### **IAM 6057 - Marketing and Consumer Culture**

*Credits: 1.5*

HEC Course Number 2008MIHEC. Over the past 20 years, researchers in the social sciences and in the field of marketing have debated the topic of consumption and consumer culture. These experts have reflected on the rise of consumer culture, studied the impact of consumption in the arts field, and examined our understanding of culture. This course explores the issue of consumer culture from an anthropological perspective.

### **IAM 6058 - Arts Marketing**

*Credits: 1.5*

HEC Course Number 2002MIHEC. This course covers key marketing concepts and their application in the cultural sector. It looks at the traditional definition of marketing and discusses the specifics of the marketing approach in the field of culture, including the centrality of the artwork and the artist in any marketing approach. The course considers the company not only in terms of its products but also in terms of its markets, taking into account the cultural specificity of each consumer market based on its demographic profile. Marketing strategies are analyzed from the perspective of commercial variables (product, price, place, promotion) and marketing information systems.

## **IAM 6059 - Leadership in the Context of Cultural Organizations**

*Credits: 1.5*

HEC Course Number 2004MIHEC. This course examines the practice of cultural management at the international level, using specific cases to illustrate the theory and practice of cultural leadership around the world. After completing the course, students will have a better understanding of the environmental dynamics that surround cultural organizations, executive leadership as practiced in complex organizational environments, artistic leadership, the practice of dual executive leadership and the possibilities for collaborative leadership, the theory and practice of governance in organizations that experience a variety of resource dependencies, and possibilities for executive leadership transition in the cultural field.

## **IAM 6060 - Information Technologies for Arts and Culture**

*Credits: 1.5*

HEC Course Number 2006MIHEC. In this era of communications technology, cultural organizations need to maintain reliable data on their business activities in order to offer the consumer a high-quality service and/or an exceptional experience. Reliable data are also the basis for sound management. The production of reliable data requires (1) a profound understanding of the business processes by which data are collected, generated and/or transformed; and (2) mastery of concepts related to data modelling, to enable the creation of quality databases. In this course, students learn how to create information systems designed specifically for cultural organizations and how to develop the skills necessary to manage information systems in any field.

## **IAM 6061 - New Forms of Innovation**

*Credits: 1.5*

HEC Course Number 2005MIHEC. The objective of this course is to help students to understand key innovation processes and models and to apply them to the cultural field. The course offers an emerging view of innovation, such as open innovation, reverse innovation, inclusive and social innovation, digital innovation, creative commons, etc.

## **IAM 6062 - International Marketing of the Cultural Industries**

*Credits: 1.5*

HEC Course Number 2007MIHEC. In this course students learn about the different export and import markets of the cultural industries, their mechanisms of supply and demand on a global scale, and how to identify international opportunities in existing markets. Students also learn about the various internationalization strategies used by the cultural industries. Specific cases of success and failure in the international market are presented.

## **IAM 6063 - Managing Cultural Products and Brands**

*Credits: 1.5*

HEC Course Number 2003MIHEC. The purpose of this course is to familiarize students with the central decisions involved in managing products and brands in the cultural sector. Students are taught to appreciate the unique characteristics of cultural products; how to analyze product markets; how to create a meaningful consumption experience that complements the central work of art; and how to develop, protect, and leverage a strong brand. Students learn to articulate major product and brand management issues at the strategic and tactical levels, apply relevant theoretical models and analytical tools in the context of managing cultural products and brands, and analyze the implications inherent to the implementation of product and brand strategies.

## **IAM 6064 - Promotion and Advertising**

*Credits: 1.5*

HEC Course Number 2009MIHEC. This course is aimed at developing managerial skills in marketing communication by demonstrating the range of communications options available to cultural organizations and the cultural industries today. It familiarizes students with the decisions that must be taken when developing integrated marketing communication strategies, always in the specific context of the arts field. The course presents the issues currently facing marketing communication specialists, such as how to define the new relations between agencies, the media, and cultural entities and how best to address the phenomenon of social media.

## **IAM 6065 - Research Methods in Marketing for Arts and Culture**

*Credits: 1.5*

HEC Course Number 2010MIHEC. This course consists of a general review of the methods used by researchers to produce fundamental or applied knowledge in the domain of arts and culture. At the end of the course, students will be well-equipped to plan and conduct a research project as well as to critically evaluate research reports in the context of arts and culture.

## **IAM 6066 - Database Marketing for Culture and Arts Organizations**

*Credits: 1.5*

HEC course number 2012MIHEC. Cultural organizations are facing expanding competition. Therefore, the quality of decision making is an important factor for success, and the ability to understand and use increasing amounts of available data has become vital. This course addresses this important issue for cultural organizations and is designed to fill a training gap for future managers in the cultural sector.

## **IAM 6071 - Internet, Publishing, and Music Workshop**

*Credits: 1.5*

Completed at SDA Bocconi University. The main goal of this workshop is to turn out media professionals by addressing the economic and managerial implications associated with the transformation of media industries. The workshop focuses on transformation processes that involve content creation, publication, aggregation, distribution, and promotion across different platforms and in different configurations (as a product, as a service, as a license). The description of the evolution of business models parallels the analysis of different regulatory settings associated with intellectual property management, privacy, pluralism, and net neutrality. The comparison between bestselling titles and niche products leads to the identification of globalization and the evolution of narratives across media, cultures, and countries. The participation of end users in value-creation processes is addressed by examining the evolution of self-publication and digital platform-mediated publication. Similarities and differences across industries and countries are discussed.

## **IAM 6072 - Performing Arts Workshop**

*Credits: 1.5*

Completed at SDA Bocconi University. The goal of this workshop is to turn out professionals for the performing arts sector. The workshop focuses on theatre, festivals, dance, classical music, ballet, and opera and is interdisciplinary and international in scope. Modes of theatre and opera appreciation, spectator behavior at performances, and the management of performing arts organizations and festivals are some of the issues addressed in the workshop. The workshop provides in-depth coverage of the policies, marketing strategies, and funding sources of European (particularly Italian) and northern American organizations and events. Students are given a unique opportunity to meet executives from distinguished institutions in the performing arts and to visit renowned theatrical and operatic venues.

## **IAM 6074 - Master Thesis Writing and Designing Seminar**

*Credits: 1.5*

Supports students in the development of their master's thesis, from reviewing literature to presenting findings, with a focus on how to develop a comparative analysis among organizations that operate in different countries and contexts. Students work as a learning community and discuss specific issues arising in ongoing individual research.

## **IAM 6173 - Arts Management and Markets Workshop**

*Credits: 1*

Completed at SDA Bocconi University. This workshop is intended for highly motivated students who wish to develop a professional and competitive edge in the field of arts management. It is structured and designed in order to present opportunities for the transfer of "high pressure" knowledge and experience from the instructor to the students through a mix of activities and approaches inside and outside the classroom. The objective is to help advanced students refine their profile as arts manager consistent with the needs of the international job market. Professional skills are considered to include the development of a critical approach to the art world and its systems of functioning. The course is based in the world of contemporary art and explores the global dynamics of this constantly changing professional environment.

It combines a curatorial/art historical perspective with an institutional/entrepreneurial perspective, depending on the particular expertise of the instructor (Angela Vettese, critic, curator, and director of a contemporary art museum; Stefano Baia Curioni, economic historian specializing in the global art market) and depending as well on the particular needs of the current international art system. The course takes both a cultural and a managerial approach, concentrating on vision, organizational and narrative capabilities, and a strong tendency toward self-improvement.

### **IAM 6351 - Cultural Economics and the International Art Market**

*Credits: 3*

Students gain a thorough understanding of the mechanisms of cultural economics and their influence on the production, financing, and consumption of arts and culture. Includes the application of economic analysis and tools to the different aspects, activities, and mechanisms of the cultural sector (e.g., the fine arts and performing arts markets, film, and other cultural industries). Students also compare, analyze, and evaluate the factors that form and influence international cultural heritage, cultural tourism, cultural districts, the arts labor market, and creative careers. Prerequisite: Restricted to students enrolled in the M.M. international arts management or M.A./M.B.A. program; departmental approval required for all others.

### **IAM 6352 - Comparative International Cultural Policy**

*Credits: 3*

Overview of policy models, analysis, and practices of the cultural sector in its different areas (heritage, visual and performing arts, etc.) and countries. Students analyze historical and theoretical backgrounds of cultural policy; cultural policies in practice (stylized facts and geographical and political divergences at local, national, and international levels); cultural policies and their socio-economic impact; culture, diversity, and development; cultural access and arts education; and stimulation of the supply of art. Prerequisite: Restricted to students enrolled in the M.M. international arts management or M.A./M.B.A. program; departmental approval required for all others.

### **IAM 6353 - International Law and the Arts**

*Credits: 3*

Analysis of the legal implications of managing arts institutions. Topics include organizational structures and tax implications; contracts and negotiating strategies; copyright and trademark ownership, licensing, and use; royalties and artists' economic rights; the rights and limitations of free expression; and the international treaties, laws, regulations, and policies that impact arts and culture. Prerequisite: Restricted to students enrolled in the M.M. international arts management or M.A./M.B.A. program; departmental approval required for all others.

### **IAM 6354 - Fundraising in the Arts**

*Credits: 3*

Examination and mastery of strategies for raising funds in the private and public sectors. Includes the process of researching, preparing, and managing individual and corporate gifts as well as foundation and government grants. Prerequisite: Restricted to students enrolled in the M.M. international arts management or M.A./M.B.A. program; departmental approval required for all others.

### **IAM 6355 - Nonprofit Arts Budgeting and Financial Management**

*Credits: 3*

The financial and operational management of nonprofit arts organizations, with an emphasis on the budget as a reflection of the art form, as a means of fiscal prediction and control, and as a vehicle of communication among staff, trustees, and the organization's other stakeholders. Prerequisite: Restricted to students enrolled in the M.M. international arts management or M.A./M.B.A. program; departmental approval required for all others.

### **IAM 6370 - Creative Entrepreneurship and Business Planning**

*Credits: 3*

Completed at SDA Bocconi University. Issues of governance and corporate strategy are discussed in the context of diverse situations such as government bodies in charge of developing cultural policies, public-private partnerships and the struggle for sustainability, ownership and marketability of content for startups in participative media, the nature of

stakeholders' involvement, and protection in crowdfunded projects. Builds upon students' knowledge in the fields of business, public administration, management of nonprofit organizations, intellectual property, and corporate and private law. Addresses the issues of ownership; governance; management; control; value appropriation; and value distribution for established institutions, partnerships, startups in media companies, cultural institutions, and nonprofit institutions. Value creation in the arts, cultural institutions, and media is discussed at different levels: individual firms, collaborative firms, and territories.

### **IAM 6373 - International Arts Production Systems in Milan**

*Credits: 3*

Surveys a broad spectrum of arts institutions and creative organizations operating in and around Milan. Students participate in on-site visits, meetings with curators and arts administrators, and talks with experts and creative people to better understand Milan as a creative city and to explore the international aspects of arts organizations' basic operations (i.e., their audience, staff, reputation, and supply chain). Grades take into account class participation and an in-class reflection paper.

### **IAM 6374 - Creativity and Urban Development Workshop**

*Credits: 3*

Completed at SDA Bocconi University. Creativity is a multifaceted and complex concept, particularly as it relates to both the actors and the organizations involved in production and consumption and the urban settings in which production and consumption take place. This course is aimed at (1) investigating how the creative industries affect urban growth via the relationships between urban landscapes/geographies and creative innovation and production systems; (2) integrating managerial, urban, and cultural studies under the theme of creative professionals and urban creativity; and (3) developing competencies in field research, focusing on creativity within organizations and the urban setting and on producing project managers for creative projects, innovation managers or consultants, urban marketing experts within territorial agencies, researchers for the creative industries (both private and public) and urban settings, and consultants for developers and municipalities. The course is structured around three creative industries (design and architecture, visual arts, and pop culture), covering their internal organization and their relationships with the urban setting. Instructors are both academics and professionals working in the field. The course features several Italian and international guest speakers and company visits.

### **IAM 6375 - Cultural Entrepreneurship and Governance for Nonprofit in the Arts**

*Credits: 3*

Introduces the process of startup entrepreneurship and presents a number of tools that can be useful as a support in the different phases of the business planning process. Covers governance and strategy issues (i.e., assembling teams, board-executive relationships, and organizational structure) that accompany the growth of arts and cultural organizations from their birth to their decision of going international.

### **IAM 6376 - International Consulting Management in the Arts**

*Credits: 3*

Develops consulting management skills by supporting small groups through consulting project simulations. Students discuss issues and problems arising in consulting nonprofit and public sector organizations.

### **IAM 6377 - Consulting Management**

*Credits: 3*

Completed at SDA Bocconi University. Develops consulting management skills by simulating the work of consultants hired to help and support arts institutions. The class will act as a learning community by discussing issues and problems arising in consulting work involving non-profit and public sector organizations. Addresses the consulting cycle, the importance of negotiation and the opportunities for consultants to become agents of change and innovation within organizations.

### **IAM 6379 - Performing Arts Management**

*Credits: 3*

Completed at SDA Bocconi University. Examines Italian performing arts institutions and provides an understanding of how they work and the main challenges they face. Onsite visits, meetings with artistic and managing directors of opera houses and festivals, as well as with experts and artists, will help participants get a better sense of how performing arts organizations operate.

### **IAM 6387 - Heritage Management**

*Credits: 3*

Completed at SDA Bocconi University. The starting point of the course is the international definition of heritage as defined by UNESCO. Students will investigate issues linked with conservation, promotion, and protection that cultural institutions face every day. By working closely with professionals and under the instructor's guidance, students will analyze how museums and heritage are managed and administered in Italy, reflecting on the advantages and drawbacks of marketing the arts.

### **IAM 6570 - Strategy and Governance of Cultural Institutions**

*Credits: 5*

Completed at SDA Bocconi University. In this course, issues of governance and corporate strategy are discussed in the context of diverse situations, such as government bodies in charge of developing cultural policies, public-private partnerships and the struggle for sustainability, ownership and marketability of content for startups in participative media, the nature of involvement of stakeholders, and protection in crowdfunded projects. The course builds upon students' knowledge in the fields of business, public administration, management of nonprofit organizations, intellectual property, and corporate and private law. It addresses the issues of ownership, governance, management, control, value appropriation, and value distribution for established institutions, partnerships, startups in media companies, cultural institutions, and nonprofit institutions. Value creation in the arts, cultural institutions, and media is discussed at different levels: individual firms, collaborative firms, and territories.

### **IAM 6667 - Master's Thesis**

*Credits: 6*

Master's thesis completed at SDA Bocconi University.

# Data Science

## Data Science, M.S.

[www.datascience.smu.edu](http://www.datascience.smu.edu)

The M.S.D.S. degree is an interdisciplinary program that combines courses taught by professors from SMU's Dedman College, Lyle School of Engineering and Meadows School of the Arts. The program is delivered online to provide access to working professionals and students located around the world.

The program gives students who are prospective data scientists an enriched background in computer science, statistics, strategic behavior and data visualization. Course instruction includes oral and written communication skills and the basics of database structure, including building, maintaining and securing databases. Graduates will be able to form relevant questions, collect and analyze appropriate data, and make informed decisions regarding the question of interest.

Refer to the Data Science section of the catalog (p. 1252) for admission requirements, courses, degree requirements, academic regulations and the calendar.

## Data Science Courses

### DS 6110 - Immersion

*Credits: 1.5*

A three (plus) day immersion experience on SMU's Dallas campus. Students collaborate on group projects, attend information and networking sessions, and meet program faculty and leadership. Required for M.S. in data science students. \*International students, military personnel on deployment, and those with disabilities who cannot attend may have other arrangements made for the on-campus requirement of this course. Permission for non-attendance in-person MUST be approved prior to enrollment.

### DS 6120 - Capstone A

*Credits: 1*

Students spend the first of two consecutive full terms working on a collaborative group project. During the first of the two terms, students begin their work on the project and are expected to complete at least half the project by the end of the term. Students develop and work on their projects under faculty supervision. Prerequisites: DS 7331 and department consent.

### DS 6130 - Capstone B

*Credits: 1*

Students spend the second of two consecutive full terms working on their collaborative group project from Capstone A. Students are then required to present their completed projects during the on-campus immersion, typically held near week 11 of the term. Prerequisite: DS 6120. \*International students, military personnel on deployment, and those with disabilities who cannot attend may have other arrangements made for the on-campus requirement of this course. Permission for non-attendance in-person MUST be approved prior to enrollment.

### DS 6306 - Doing Data Science

*Credits: 3*

An introduction to methods, concepts, and current practice in the growing field of data science, including statistical inference, algorithms, financial modeling, data visualization, social networks, and data engineering.

### DS 6370 - Statistical Sampling

*Credits: 3*

Covers principles of planning and conducting surveys: simple random sampling; stratified and systematic subsampling;

means, variances, and confidence limits; finite population correction; sampling from binomial populations; and margin of error and sample-size determination. Reserved for students in the M.S.D.S. program. Prerequisite: DS 6372.

### **DS 6371 - Statistical Foundations for Data Science**

*Credits: 3*

Noncalculus development of fundamental statistical techniques, including hypothesis testing for population means and proportions, analysis of variance, factorial designs, and linear regression. Covers obtaining sample sizes during the planning stages of research studies and emphasizes interpretation of results from analysis with SAS statistical software. Reserved for students in the M.S.D.S. program.

### **DS 6372 - Applied Statistics: Inference and Modeling**

*Credits: 3*

Extension of techniques taught in DS 6371 to multivariate data, including multiple linear regression, multivariate analysis of variance, canonical regression, and principal components analysis. Emphasizes interpretation of results from analysis with SAS. Reserved for students in the M.S.D.S. program. Prerequisite: DS 6371.

### **DS 6373 - Time Series**

*Credits: 3*

Explores serially correlated observations recorded over time and the theory and methods to appropriately model such data using several parametric and non-parametric models to both estimate population parameters and forecast future values. Students learn how to apply autoregressive, moving average, ARMA, and ARIMA models through lectures, light-board sessions, coding in R, real life data sets, and interviews with currently practicing industry professionals. Students practice working with the statistical package R in estimating and visualizing these models through the use of numerous real-world datasets. Stationary and non-stationary time series with many covariates are addressed. Students also estimate the spectral density to estimate frequencies in the data. Concludes with a look at a neural network application to time series data and compares the performance of these models with the parametric models mentioned above. Prerequisite: DS 6372.

### **DS 6390 - Visualization of Information**

*Credits: 3*

Introduces data visualization and creative coding utilizing the Processing programming language. Explores visual and information design principles, primarily through hands-on programming exercises. Includes assignments and exams that incorporate 2-D and 3-D computer graphics, interactivity, and data input. Covers procedural and object-oriented programming approaches to data visualization and provides an overview of leading-edge data visualization libraries and application program interfaces, including Web-based approaches. Reserved for students in the M.S.D.S. program. Prerequisite: DS 6306.

### **DS 6391 - Visualization of Information and Creative Coding II**

*Credits: 3*

Extends the study of creative coding and visualization across numerous languages, specialized libraries/API's, and distribution platforms. Students build data-driven visualizations in Java, C++, and JavaScript, including the P5.js, three.js, and d3.js libraries. Prerequisite: DS 6390.

### **DS 7330 - File Organization and Database Management**

*Credits: 3*

A survey of current database approaches and systems, and the principles of design and use of these systems. Covers query language design and implementation constraints, and applications of large databases. Includes a survey of file structures and access techniques. Also, the use of a relational database management system to implement a database design project. Reserved for students in the M.S.D.S. program. Prerequisite: DS 6306.

## **DS 7331 - Machine Learning I**

*Credits: 3*

Introduces data mining topics, with an emphasis on understanding concepts through an applied, hands-on approach. Includes other related topics such as data warehousing and dimensional modeling. All material covered is reinforced through hands-on implementation exercises. Prerequisites: DS 6110, DS 6372, and DS 7330; or instructor permission.

## **DS 7333 - Quantifying the World**

*Credits: 3*

In the global information age, data can be leveraged to rapidly answer previously unanswerable questions. Students explore how to make sense of the large amounts of data frequently available, from hypothesis formation and data collection to methods of analysis and visualization. Includes ways to set up Internet-level measurements and formulate testable hypotheses; ways to automatically gather, store, and query large datasets; and ways to apply statistical methods (descriptive and predictive) and information visualization to collected datasets. Students learn to use Python and R programming languages to carry out data collection, analysis, and visualization. Culminates in a final project using real data of the students' choosing. Reserved for students in the M.S.D.S. program. Prerequisite: DS 7331.

## **DS 7335 - Machine Learning II**

*Credits: 3*

An elective, theoretical course in Machine Learning providing an overview of multivariate nonlinear nonparametric regression, supervised classification, unsupervised classification, and deep learning. Begins with a portfolio of case studies to give an overview of the type of things that can be done with machine learning. Each area of machine learning is introduced with a description of how to test its performance. This is followed by hands on exercises. Learning through doing is the key goal of this class. Prerequisite: DS 7331.

## **DS 7337 - Natural Language Processing**

*Credits: 3*

Introduces natural language processing (NLP) as applied to data mining, text mining, and machine learning tasks with unstructured Big Data. Students receive a broad survey of the major tasks in natural language understanding with some coverage of natural language generation. Topics include document clustering and classification, automated tagging and highlighting, semantic search, and text normalization to support machine learning applications. Focuses on best practices for choosing the right tool and method for an application, illustrated with real-world case studies. Students gain experience building solutions from real-world data sets, utilizing WordNet and the data of some leading websites. Learn text classification, clustering, tagging, and synopsis; taxonomy alignment; corpus analytics; and semantic query analysis. Apply WordNet, Python, R, SVM, and LSA. Prerequisite: DS 7331.

## **DS 7346 - Cloud Computing**

*Credits: 3*

Introduces students to exponentially growing Cloud Computing technologies with an emphasis on the fundamental Cloud topics such as Virtualization, IaaS, PaaS, and DevOps. Includes a high-level overview of NoSQL. Covers big data topics such as Hadoop, MapReduce, Pig, Hive, and Spark. Intended to be hands-on with students working with current technologies that make Cloud possible. Prerequisite: DS 6306 and DS 7331, or department permission.

## **DS 7349 - Data and Network Security**

*Credits: 3*

Covers conventional and state-of-the-art methods for achieving data and network security. Private key and public key encryption approaches are discussed in detail, with coverage of popular algorithms such as DES, Blowfish, and RSA. In the network security area, the course covers authentication protocols, IP security, Web security, and system-level security. Reserved for students in the M.S.D.S. program. Prerequisite: DS 6306.

## **DS 7374 - Business Analytics**

*Credits: 3*

Through a combination of lectures and case analyses, students learn how to practically implement and apply a proven, best practice methodology which illustrates how best to integrate analytics into corporate strategy. In addition, students gain experience in enabling businesses to solve real-world problems, some of which were previously intractable, using the models, methods, and techniques they have studied previously. Moreover, students extend their data science capabilities to handle challenges requiring prescriptive analytics through a brief yet thorough two-week introduction to optimization. Students gain the experience and expertise described above through a balanced combination of lectures and interviews with several practicing and senior level data scientists from a variety of industries. Prerequisite: DS 6372.

# Film and Media Arts

**Associate Professor** Derek Kompare, **Division Chair**

**Professors:** Sean Griffin, Rick Worland

**Associate Professors:** Kevin Heffernan, Mark Kerins, Derek Kompare, Troy Perkins, David Sedman

**Assistant Professor:** Amber Bemak

**Professor of Practice:** Lorena Padilla

**Adjunct Lecturers:** Rebecca Flores, Sally Helppie, Tearlach Hutcheson, Michael Morris

## Facilities

The Division of Film and Media Arts is located in the Umphrey Lee Center, which houses faculty offices; classrooms; audio, video and film production areas; and media support areas. Computer labs with a full suite of editing, audio and graphics software are available to film and media arts majors seven days a week through ID card access. Other facilities include a recording studio, an audio mixing suite, storage and equipment checkout, a seminar room, and production classrooms. The division also has a screening classroom equipped for video projection in the Owen Arts Center.

## Admission and Financial Aid

To be admitted to the graduate studies program in the Division of Film and Media Arts, an applicant must have obtained a bachelor's degree from a four-year accredited college or university, must have achieved a B average (3.000 on a 4.000 scale) in her or his major during the last two years of undergraduate coursework, must submit recent GRE graduate school admission test scores with verbal score achievement of 450 and must have the approval of the division's graduate faculty. An applicant whose GPA or GRE score is below the required level may be admitted conditionally at the discretion of the division's graduate faculty.

Several types of financial assistance are available to help meet the needs of students admitted to the graduate studies program. In addition, guaranteed student loans and some grants may be available to students with demonstrated need.

## Popular Film and Media Studies, M.A.

The M.A. in popular film and media studies prepares students for professional careers in the critical study of motion picture, television and related media industries. Through an intensive examination of aspects of popular film and media, students learn larger concepts required for professional success in the study of the sociocultural role of film, television and digital media, including advanced research methodologies, historical and aesthetic principles, and theoretical concepts. Graduates are prepared to enter Ph.D. programs in film and media studies, to plan careers teaching film/media in secondary education or to attain careers as analysts with the media industries. In addition, graduates have the knowledge to appreciate, as well as challenge and question, the creative accomplishments of film, video and digital artists around the world. The curriculum seeks to develop well-rounded, imaginative graduates who not only understand the historical development of popular media but also the requirements of the present-day media world, and who can adapt and contribute to the new forms of media scholarship and culture.

## Admissions Requirements

If a student applies with a degree from a field other than film/media, broadcasting or telecommunications, the division has the discretion to require her or him to complete undergraduate courses in film/media history (which may include FILM 1301 - The Art of Film and Media, FILM 3351 - International Film History, FILM 3352 - American Film History or FILM 3353 - American Broadcast History). These courses will not count in the degree plan, but are especially helpful in preparing students for advanced study in fields with which they may not be sufficiently familiar. Such courses must be passed with a grade of C or better.

## Degree Requirements

The 30-hour program in popular film and media studies is designed to be completed during a three-term period. Within the course requirements, the program is divided into one-half required courses, one-half electives and a comprehensive exam.

At the end of every term, a committee of faculty within the division will evaluate the candidate's overall progress in the program.

## Required Courses

### Core Courses

- FILM 6313 - Contemporary Media Studies
- FILM 6351 - Seminar in Media History
- FILM 6352 - Seminar in Popular Film
- FILM 6354 - Seminar in Popular Media
- FILM 6356 - Seminar in Contemporary Media Culture

Total: 15 Credit Hours

### Electives

- Five FILM or other courses at the 5000 level or above (Non-FILM courses must be approved by the division to count as electives.)

Total: 15 Credit Hours

Total: 30 Credit Hours

Note: Students desiring to enroll in the following courses for elective credit are required first to pass a basic production competency test administered by the division faculty: FILM 6301 - Experimental Camera and FILM 6308 - Editing.

## Comprehensive Exam

Each M.A. candidate must pass a comprehensive exam that assesses a student's overall knowledge of film/media history and expertise in film/media theory. The exam will require the student to write two in-depth essays based on question topics drawn from her or his completed coursework; the essays will be evaluated by graduate faculty. If the graduate faculty judge the exam to be below acceptable standards, the student has the right to request an oral defense of her or his work, which must be scheduled and completed within one year of the exam. If the graduate faculty judge the exam to display sufficient depth and facility, the student will receive her or his degree at the end of the term.

## Popular Film and Media Studies Courses

### FILM 6313 - Contemporary Media Studies

*Credits: 3*

This course prepares students themselves for careers applying the concepts of film/media studies, though in-depth research into career options (including doctoral programs, secondary school media teaching opportunities, and analytical positions within the media industries). Students will also create original research/analysis projects work on film/media.

**FILM 6315 - Critical Studies Seminar**

*Credits: 3*

A high-level research seminar, with variable topics.

**FILM 6351 - Seminar in Media History**

*Credits: 3*

An intensive research seminar in film/media history and criticism. The specific topic under consideration will vary from term to term.

**FILM 6352 - Seminar in Popular Film**

*Credits: 3*

An intensive research seminar in popular film history, criticism, and theory. The specific topic under consideration varies from term to term.

**FILM 6353 - Philosophy of Film and Media**

*Credits: 3*

Provides an overview of major philosophical and theoretical writings on cinema, television, and new media (including the work of theorists such as Andre Bazin, Sergei Eisenstein, Laura Mulvey, and Christian Metz) and demonstrates the application of various analytical approaches to specific texts.

**FILM 6354 - Seminar in Popular Media**

*Credits: 3*

An intensive research seminar in popular media history, criticism and theory. The specific topic under consideration will vary from term to term.

**FILM 6355 - History of Documentary Film and Television**

*Credits: 3*

An overview of the development of the documentary mode in cinema and television, offering a survey of the nonfiction film and video provided by newsreels, training films, propaganda movies, wartime documentaries, and reality TV.

**FILM 6356 - Seminar in Contemporary Media Culture**

*Credits: 3*

An intensive research seminar in contemporary popular film/media cultures and industries. The specific topic under consideration varies from term to term.

# Music

**Associate Professor** David Mancini, **Director**

**Professors:** Joaquín Achúcarro, Jack Delaney, Andrés Díaz, Virginia Dupuy, Stefan Engels, Clifton Forbis, Samuel Holland, David Karp, Carol Leone, Barbara Hill Moore, Alfred Mouledous, Paul Phillips

**Associate Professors:** Sarah Allen, Christopher Anderson, Robert Frank, Kevin Hanlon, Pamela Elrod Huffman, Peter Kupfer, David Mancini, Xi Wang

**Assistant Professors:** Daniel Tague, Zachary Wallmark

**Artists-in-Residence:** Emanuel Borok

**Professors of Practice:** Ryan Anthony, Aaron Boyd, Derrick Horne, Catharine Lysinger, Julie Scott, Pawel Wnuk

**Senior Lecturers:** Dale Dietert, Mark Feezell, Hank Hammett, Melissa Murray, Jason Smith

**Lecturers:** Kevin Gunter, Lane Harder, Hyae-jin Hwang, Michael Lively

**Adjunct Professors:** Christopher Adkins, Jean Larson Garver, Robert Guthrie, Erin Hannigan, Gregory Hustis, John Kitzman, Wilfred Roberts

**Adjunct Associate Professors:** David Buck, Scott Dettra, Kevin Finamore, Paul Garner, Matthew Good, Barry Hearn, Nora Henson, David Heyde, Haley Hoops, Alexander Kienle, Diane Kitzman, Pierre LaPointe, Thomas Lederer, Emily Levin, Nathan Olson, Brian Perry, Gregory Raden, Ellen Rose, Ted Soluri, Barbara Sudweeks, Frank Troyka, Kara Kirkendoll Welch

**Adjunct Assistant Professors:** Deborah Baron, John Bryant, Kim Corbet, Don Fabian, Lynne Jackson, Brian Jones, Camille King, Jon Lee, David Matthews, Darren McHenry, Naoko Nakamura, Paul Schmidt, Will Townsley

**Adjunct Lecturers:** Brian Bentley, Liudmila Georgievskaya, Melissa Heffner, Drew Lang, Jamal Mohamed, James Richman, Edward Smith

**Assistant Director for Operations:** David Brown

**Accompanist:** Tara Emerson

**Mustang Band Staff:** Don Hopkins, Tommy Tucker

## Facilities

Concert performances are presented in Caruth Auditorium, a 490-seat concert hall; the 168-seat Robert J. O'Donnell Lecture–Recital Hall; and the Dr. Bob and Jean Smith Auditorium in the Meadows Museum. Opera productions are presented in the 392-seat Bob Hope Theatre. The Jake and Nancy Hamon Arts Library houses a collection of more than 110,000 books and scores, more than 31,000 audio and video recordings, and more than 100,000 items in special collections of research materials such as the Van Katwijk Music Collection.

Facilities available to music students include 45 newly renovated practice rooms in the Jeanne R. Johnson Practice Complex.

Student recitals and faculty and ensemble performances are digitally recorded in formats that are acceptable for auditions, competitions and archival purposes.

The Group and Individual Music Therapy Clinics, connected by an observation room, offer student therapists opportunities for clinical practicum experiences under faculty supervision.

The Division of Music maintains an inventory of 40 Steinway grand pianos, three harpsichords and eight pipe organs, including a celebrated three-manual 51-stop tracker organ built by C.B. Fisk located in Caruth Auditorium.

The Electronic Music Studio is a comfortable, multitrack, MIDI and digital audio facility featuring hardware and software on a Macintosh platform. The studio is well equipped to support algorithmic composition, interactive performance, synthesis, sampling, sequencing, signal processing, video post scoring and digital recording with stereo, quad and 5.1-surround monitoring.

## Admission

Master of Music students seeking admission to the graduate programs of the Division of Music must have earned a Bachelor of Music degree (or the equivalent) from an accredited institution and must submit complete transcripts of previous college work, along with three letters of recommendation. Any student whose first language is not English must present one of the following:

- TOEFL iBT: A minimum overall score of at least **80** with a minimum score of at least **20** in each of the four sections
- IELTS: A minimum overall score of at least 6.5 with a minimum score of at least 5.5 in each of the four sections
- Computer Based TOEFL: A minimum overall score of 213

Incoming graduate students are required to take the Graduate Music Diagnostic Examinations upon matriculation. The results of these examinations are used to identify any deficiencies in the areas of music history/literature, music theory and aural skills. Students found to be deficient in these areas will be required to take appropriate review courses. Failure to pass required review courses in the first term of study will result in academic probation and a second-term continuation of review. (Financial aid does not cover any review courses.) Failure to pass the review courses during the second term will result in academic suspension from the degree program.

The standard required for admission is a cumulative minimum GPA of 3.000 (on a 4.000 scale) in all undergraduate work. Under rare circumstances, acceptance on probation may be granted to a student whose cumulative GPA is less than 3.000. In such instances, seven credit hours in approved coursework must be completed during the first term of residence and a GPA of 3.000 must be achieved. A student who does not meet these criteria will be dropped automatically from the University and may not enroll in the following term. The student may reapply after a lapse of one term.

No more than six credit hours of transfer credit may be applied to any degree program other than the Master of Sacred Music program. Such credits must have been earned in graduate-level courses and cannot have been taken in order to fulfill undergraduate degree requirements. The acceptance of transfer credits is subject to the approval of the student's adviser, the chair of the department offering the comparable SMU course if it is a required course, and the Director of the Division of Music.

Applicants to the Master of Sacred Music program may apply up to nine credit hours of transfer hours of nonperformance music or theological study. Approval by the Division of Music is required if such hours are in music, and approval by the Perkins School of Theology Committee on Academic Procedures is necessary if such hours are in theology.

Applicants should consult the Meadows Graduate Admissions Office for material beyond the following guidelines:

- A performance audition is required in each field except music education, music composition, music theory pedagogy and musicology. Applicants in these fields may elect to audition for placement in ensembles. Musicology, music education, music theory pedagogy and music composition applicants are required to submit evidence of competency and creativity in the form of term papers, analysis or compositions. Musicology majors are expected to have a reading ability in at least one world language. Music education applicants are required to submit a sample term paper and video-recorded teaching examples, and to complete a personal interview with the music education faculty.
- Piano performance and pedagogy majors are strongly encouraged to audition and interview in person. In addition to a graduate performance audition, applicants to this program are required to present a live or video-recorded teaching demonstration.
- Choral and instrumental conducting majors are required to submit a video recording of a recent conducting rehearsal. A video recording of a performance will be accepted if a rehearsal is not available. Video recordings should be DVD format.

**Note:** Information on admission to the M.S.M. program is found in the Master of Sacred Music section of this catalog.

## Act of Enrollment

When a student enrolls with the Meadows School of the Arts Division of Music for participation in a music course – whether as a music major, music minor or through elective study – by the act of enrollment and in consideration of the right to participate in such course, the student 1) acknowledges his or her willingness to accept and comply with the standards and policies set forth in the *Division of Music Handbook, the Graduate Supplement to the Division of Music Handbook* and all other University rules and regulations; 2) assigns to the University the exclusive right to use the proceeds from any curricular or extracurricular promotional, publicity or entertainment activities associated with the course, including but not limited to photographs, television, recordings, motion pictures, concerts and theatrical productions, and any right the student may have to receive any royalties and/or other sums that may be due to the student from such activities; 3) releases the University, its trustees, officers, agents, employees and assigns from any obligation to pay any proceeds, royalties and/or other sums that may be due to the student in connection with the course; and 4) agrees, on request of the University, to periodically execute all documents necessary to acknowledge the assignment and release set forth herein.

## Degree Requirements

Any required remedial work in music history/literature and/or music theory must be completed before students may enroll in graduate courses in those areas. MUHI 6335 - Introduction to Graduate Studies should be taken during the first year of graduate study. Music education majors must take MUED 6340 - Research in Music Education instead of MUHI 6335 - Introduction to Graduate Studies. Piano performance and pedagogy majors may take either MUED 6340 - Research in Music Education or MUHI 6335 - Introduction to Graduate Studies.

No electives outside of music or below the 5000-level will be counted toward the degree without prior written approval of the Meadows Academic Services Office. Such courses will be examined for their professional relevance to the student's course of study. Exceptions to this rule are world language courses.

During the first term of residency, each student must file a proposed course of study with the Meadows Academic Services Office. The proposal should be prepared in consultation with the student's adviser. It may be altered subsequently if circumstances warrant a change. To change a proposal, the student should make a written request, obtain the adviser's signature and submit the request to the Meadows Academic Services Office for approval.

All music performance majors, with the exception of guitar, piano and organ majors, are required to enroll in one large ensemble (wind ensemble, orchestra or choral ensemble) each term of residence. Wind and percussion students are required to enroll for both Meadows Symphony Orchestra and Meadows Wind Ensemble at the discretion of the ensemble directors.

Exemptions may be granted by written approval of the ensemble director and the Director of the Division of Music. Transfer students will not be exempted from the large ensemble requirement based on transfer credits. Exceptions for music education majors may be considered. A maximum of five credits of chamber ensembles, large ensembles and/or repertory classes will be accepted for graduate elective credit, with approval of the adviser.

Students completing multiple music programs or majors may do so with abbreviated course requirements. In such cases, the abbreviated course requirements may be completed within one or two academic years as determined by the Division of Music upon admission. The following are approved combinations of programs and the abbreviated credit hour requirements for each:

- Completion of a second major within the master's degree will result in a program of studies containing a minimum of 10 additional credit hours beyond those required for the first major.
- Master of Music students who have received the Artist Diploma or Performer's Diploma from SMU may apply 10 credit hours from the Artist Diploma or Performer's Diploma toward the master's degree, which will result in an abbreviated program of study containing a minimum of 20 credit hours.
- Performer's Diploma students who have received the Master of Music degree from SMU may apply 10 credit hours from the master's degree toward the Performer's Diploma, which will result in an abbreviated program of study containing 10 hours.

- Artist Diploma students who complete a master's degree or Performer's Diploma from SMU may apply 10 credit hours from the master's degree or Performer's Diploma to the Artist Diploma, which will result in an abbreviated program of study containing 10 hours.

No more than five credit hours in directed studies will be permitted for any degree program.

Specific courses of study leading to the Master of Music and Master of Sacred Music degrees will be determined by the results of the Graduate Music Diagnostic Examinations and the student's educational and professional objectives. Requirements for master's degrees are stated in terms of minimums.

The Division of Music requires attendance at all scheduled class meetings, lessons and ensemble rehearsals. In all instances, the instructor determines the extent to which absences affect a student's grade. Students should become thoroughly acquainted with the class attendance policy established by their teachers and ensemble directors. Instructors are not obligated to make special arrangements for the student to accommodate any absence. All reasons for absence should be submitted in advance to the instructor. Failure to do so may result in a student being dropped from a course with a grade of *W* (before the calendar deadline to drop) or receiving a grade of *F* for the course.

## Graduation Requirements

All graduate degree programs require the completion of a Graduate Comprehensive Review that includes, but is not limited to, a recital, composition, thesis, professional project or formal examination. A committee of no fewer than three faculty members will supervise and evaluate the work for this requirement. This committee must be appointed before work on the recital, composition, thesis or professional project has begun.

Specific guidelines for the preparation of a thesis or project may be obtained from the Meadows Academic Services Office. Following initial enrollment for thesis credit, graduate students are required to enroll for thesis each term until the thesis has been completed and accepted.

Required recitals must include a cross-section of the repertory in the student's major performance area. The performance of contemporary works is encouraged. Incomplete recitals require enrollment in private study during the term in which they are completed.

The policies and procedures regarding the Graduate Comprehensive Review are outlined in the *Division of Music Handbook*. All graduate students are expected to have knowledge of the information presented in the *Division of Music Handbook*, which is available on the Division of Music CANVAS site and on the Division of Music homepage. Students may not complete their comprehensive review before their last term of residency and the successful completion of all required review work.

All courses attempted for credit must average a grade of B (3.000) or better, with no grade lower than a grade of C (2.000) applying toward the degree.

Candidates are required to complete all degree requirements within seven years of the initial date of matriculation.

## Degree Programs

Graduate degree programs in music are designed to provide increased specialization in the major field beyond the baccalaureate level and, at the same time, to assure that students continue to develop the breadth of competencies required to function as well-rounded musicians. Although specific degree requirements will vary according to the major field pursued, all Master of Music degree programs include the following components in some demonstrable form: performance, research, pedagogy, music history and music theory. Detailed degree plans are presented on the following pages.

## Performer's Diploma

The Performer's Diploma program is a two-year program for exceptional performers who already hold a minimum of a bachelor's degree or equivalent conservatory or professional qualifications and who are preparing for a career in

performance. The Performer's Diploma is available in piano, strings, voice, organ, woodwinds, brass or percussion. By their performance and credentials, applicants must demonstrate that they have the potential to become professional performers and are well on the way to realizing that potential. The program provides intensive studio instruction in performance along with ensemble, chamber music and repertoire coursework related to the major. The Performer's Diploma program normally encompasses a four-term residency. Extensions are rarely granted, and funding is limited to four terms. A minimum of 20 credits is required for completion of the diploma. Any student whose first language is not English must present one of the following:

- TOEFL iBT: A minimum overall score of at least **64** with a minimum score of at least **20** on the speaking and listening sections and a minimum score of at least **12** on the reading and writing sections
- IELTS: A minimum overall score of at least 6.0 with a minimum score of at least a 5.5 in each of the four sections
- Computer Based TOEFL: A minimum overall score of 193

Applicants who do not attain the minimum score outlined above have the option to complete a 6-week summer Intensive English Program offered by SMU before they begin their music studies. The cost of the program is not covered by any scholarships that may be awarded by the Meadows School of the Arts.

## **Artist Diploma**

The Artist Diploma program is a two-year program for a small number of extraordinary performers who already hold a bachelor's degree, master's degree or equivalent conservatory or professional qualifications and who are on the threshold of a solo career in performance. By their performance and credentials, applicants must demonstrate that they are in the final stages of preparation to enter major competitions and/or to begin a professional solo career. Candidates for the Artist Diploma must possess not only great talent, but also the ability and determination to realize that talent in the contemporary musical world. Students who apply are required to present an initial DVD recording of a recital and to provide a curriculum vitae and undergo an interview. If they are admitted to the final round, applicants must perform a recital at the Meadows School of the Arts for a faculty committee that governs admission standards. Any student whose first language is not English must present one of the following:

- TOEFL iBT: A minimum overall score of at least **64** with a minimum score of at least **20** on the speaking and listening sections and a minimum score of at least **12** on the reading and writing sections
- IELTS: A minimum overall score of at least 6.0 with a minimum score of at least a 5.5 in each of the four sections
- Computer Based TOEFL: A minimum overall score of 193

Applicants who do not attain the minimum score outlined above have the option to complete a 6-week summer Intensive English Program offered by SMU before they begin their music studies. The cost of the program is not covered by any scholarships that may be awarded by the Meadows School of the Arts.

Assistantships for Artist Diploma students will consist of service as an artistic ambassador of the Meadows School. As such, an Artist Diploma student may be asked to perform without additional compensation in concert for special events, for donor events and/or in competition.

## **Brass, Percussion or Woodwinds Performance, Artist Diploma (Bassoon, Clarinet, Flute, French Horn, Oboe, Percussion, Saxophone, Trombone, Trumpet, Tuba)**

Advisers: Ryan Anthony, Jon Lee, Drew Lang

### **Required Courses**

- ADPR 7200 - Private Study (four terms)  
or
- ADPR 7300 - Private Study (four terms)

- ADRE 7001 - Artist Diploma Recital (four terms)  
or
- ADRE 7101 - Artist Diploma Recital (four terms)  
or
- ADRE 7201 - Artist Diploma Recital (four terms)
  
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
  
- PERE 5071 - Chamber Ensemble (four terms)  
or
- PERE 5171 - Chamber Ensemble (four terms)
  
- PERE 5018 - Meadows Symphony Orchestra (four terms)  
or
- PERE 5019 - Meadows Wind Ensemble (four terms)  
or
- PERE 5118 - Meadows Symphony Orchestra (four terms)  
or
- PERE 5119 - Meadows Wind Ensemble (four terms)
  
- Electives *Credit Hours: 2-12* (chosen with adviser's approval)

**Total: 20 Credit Hours**

**Notes:**

- Recitals include four public performances on campus, two of which must be solo recitals of approximately one hour of music. The additional performances, with the approval of the head of winds/brass/percussion, may include an additional solo recital, a full concerto with orchestra, a mock orchestral audition, a chamber music recital, significant competitions of national or international stature or a lecture-recital. At least one of the recitals must include a chamber work. The recitals will be graded by the student's adviser, the student's teacher, another faculty member and the director of the orchestra or wind ensemble.
- PERE ensemble assignments are made by the applied music teacher, adviser and ensemble directors.

**Brass, Percussion or Woodwinds Performance, Performer's Diploma (Bassoon, Clarinet, Flute, French Horn, Oboe, Percussion, Saxophone, Trombone, Trumpet, Tuba)**

**Advisers:** Ryan Anthony, Jon Lee

**Required Courses**

- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
  
- MURE 6001 - Graduate Recital (three required)  
or
- MURE 6101 - Graduate Recital (three required)  
or
- MURE 6102 - Graduate Recital (three required)

- PERE 5071 - Chamber Ensemble (four terms)  
or
- PERE 5171 - Chamber Ensemble (four terms)
- PERE 5018 - Meadows Symphony Orchestra (four terms)  
or
- PERE 5019 - Meadows Wind Ensemble (four terms)  
or
- PERE 5118 - Meadows Symphony Orchestra (four terms)  
or
- PERE 5119 - Meadows Wind Ensemble (four terms)
- Music Electives *Credit Hours: 2-6*
- Private Study: 8 Credits

**Total: 20 Credit Hours**

**Notes:**

- Recitals include three public performances on campus, one of which must be a solo recital of approximately one hour of music. The other two performances, with the approval of the head of winds/brass/percussion, may be selected from the following: additional solo recitals, a full concerto with orchestra, a mock orchestral audition, chamber music recitals, significant competitions of national or international stature, or lecture-recitals. At least one of the recitals must include a chamber work. The three recitals will be graded by the student's teacher and two performance faculty.
- PERE ensemble assignments made by applied music teacher, adviser and ensemble conductors.

## **Guitar Performance, Artist Diploma**

**Adviser:** Robert Guthrie

### **Required Courses**

- ADPR 7200 - Private Study (four terms)  
or
- ADPR 7300 - Private Study (four terms)
- ADRE 7001 - Artist Diploma Recital (four terms)  
or
- ADRE 7101 - Artist Diploma Recital (four terms)  
or
- ADRE 7201 - Artist Diploma Recital (four terms)
- MREP 5030 - Guitar Repertoire (four terms)  
or
- MREP 5130 - Guitar Repertoire (four terms)
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- PERE 5030 - Meadows Guitar Ensemble (four terms)  
or
- PERE 5130 - Meadows Guitar Ensemble (four terms)

- Electives *Credit Hours*: 0-8 (chosen with adviser's approval)

### Total: 20 Credit Hours

**Notes:** Recitals include four public performances on campus, two of which must be solo recitals of approximately one hour of music. A third recital, with the approval of the major professor, must include a significant component of chamber music, and a fourth performance could be a full concerto with orchestra or a lecture-recital. The recitals will be graded by the student's teacher, a faculty member and an additional faculty member with knowledge of the guitar and its repertoire who is designated by the teacher.

## Guitar Performance, Performer's Diploma

Adviser: Robert Guthrie

### Required Courses

- GUIT 6200 - Private Study: Guitar (four terms)
- MREP 5130 - Guitar Repertoire (four terms)
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MURE 6101 - Graduate Recital (four)
- PERE 5130 - Meadows Guitar Ensemble (four terms)

### Total: 20 Credit Hours

#### Note:

Recitals include four public performances on campus, two of which must be solo recitals of approximately one hour of music. A third recital, with the approval of the major professor, must include a significant component of chamber music, and a fourth performance could be a full concerto with orchestra or a lecture-recital. The recitals will be graded by the student's teacher, a performance faculty member and a faculty member with knowledge of the guitar and its repertoire who is designated by the teacher.

## Organ Performance, Artist Diploma

Adviser: Stefan Engels

### Required Courses

- PIAN 6100 - Private Study: Piano (two terms)
- PIAN 6200 - Private Study: Piano (two terms)
- or
- HARS 6100 - Private Study: Harpsichord (two terms)
- HARS 6200 - Private Study: Harpsichord (two terms)
- or
- ORG 6105 - Organ Improvisation (two terms)
- ORG 6205 - Organ Improvisation (two terms)
  
- ADPR 7200 - Private Study (four terms)
- or
- ADPR 7300 - Private Study (four terms)
  
- ADRE 7001 - Artist Diploma Recital (four terms)
- or

- ADRE 7101 - Artist Diploma Recital (four terms)  
or
- ADRE 7201 - Artist Diploma Recital (four terms)
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- PERB 6001 - Departmental Performance Class (four terms)
- Electives *Credit Hours*: 2-8 (chosen with adviser's approval)

## Total: 20 Credit Hours

### Notes:

- Recitals include four public performances, one of which must be on campus. The other three performances may be either on or off campus at a suitable venue approved by the adviser. Two of the recitals must be solo recitals of about one hour of music; the additional performances may include another solo recital, a full concerto with orchestra, a chamber music recital, or a lecture-recital. Each recital will be graded by a committee that includes the professor of organ and two additional SMU faculty members or representatives from the professional community.
- Recommended electives: MREP 6122, MREP 6288, MUED 6320.

## Organ Performance, Performer's Diploma

Adviser: Stefan Engels

### Required Courses

- ORG 6200 - Private Study: Organ
- MREP 6122 - Chamber Music for Organ or Harpsichord
- MREP 6288 - Directed Studies: Advanced Organ Literature
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MUHI 6320 - Organ History and Literature
- MURE 6001 - Graduate Recital (three required)  
or
- MURE 6101 - Graduate Recital (three required)  
or
- MURE 6201 - Graduate Recital (three required)
- PERB 6001 - Departmental Performance Class (four terms)

### Private Study:

Two terms in one of the following:

- HARS 6100 - Private Study: Harpsichord
- HARS 6200 - Private Study: Harpsichord  
or
- PIAN 6100 - Private Study: Piano
- PIAN 6200 - Private Study: Piano  
or
- ORG 6105 - Organ Improvisation
- ORG 6205 - Organ Improvisation

Total: 20 Credit Hours

**Notes:**

- The chamber music requirement may be fulfilled by accompanying choral ensembles.
- MUHI 6320 is offered in the spring term of even-numbered years.
- Recitals include three public performances, one of which must be on campus. The other two performances may be either on or off campus at a suitable venue approved by the adviser. Two of the recitals must be solo recitals of about one hour of music. The additional performance may be another solo recital, a full concerto with orchestra, a chamber music recital, or a lecture-recital. Each recital will be graded by a committee that includes the professor of organ and two additional SMU faculty members or representatives from the professional community.

## **Piano Performance, Artist Diploma**

**Advisers:** Carol Leone

### **Required Courses**

- ADPR 7200 - Private Study (four terms)  
or
- ADPR 7300 - Private Study (four terms)
  
- ADRE 7001 - Artist Diploma Recital (four terms)  
or
- ADRE 7101 - Artist Diploma Recital (four terms)  
or
- ADRE 7201 - Artist Diploma Recital (four terms)
  
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- PERB 6001 - Departmental Performance Class (four terms)
- Electives: 0-8 Credit Hours (chosen with adviser's approval)

Total: 20 Credit Hours

**Notes:**

- Required recitals include four public performances on campus, two of which must be solo recitals of approximately one hour of music. The additional performances, with the approval of the head of piano, may include an additional solo recital, a full concerto with orchestra, a chamber music recital or a lecture-recital. The recitals will be graded by the head of keyboard studies, the student's private teacher and at least one additional faculty member.
- Recommended electives (one to two credits per term; must be at the 6000–7000 level): MUAC 6103, MREP 6114. In a given term, the student can elect to take applied lessons for two credits, thereby leaving three credits available to take a graduate course in music history, music theory or an allied discipline.

## **Piano Performance, Performer's Diploma**

**Advisers:** Carol Leone

### **Required Courses**

- MREP 6114 - Advanced Piano Repertoire (two terms)
- MSA 6049 - Graduate Full-Time Status (four terms)

- MUAC 6101 - Techniques of Instrumental Accompanying
- MUAC 6102 - Techniques of Vocal Accompanying
- MUAS 6010 - Music Engagement (four terms)
  
- MURE 6001 - Graduate Recital (three required)  
or
- MURE 6101 - Graduate Recital (three required)  
or
- MURE 6102 - Graduate Recital (three required)
  
- PERB 6001 - Departmental Performance Class (four terms)
  
- PERE 5071 - Chamber Ensemble (four terms)  
or
- PERE 5171 - Chamber Ensemble (four terms)
  
- PIAN 6200 - Private Study: Piano (four terms)
- Electives: 1-8 Credit Hours (chosen with adviser's approval)

### Total: 20 Credit Hours

**Note:** Recitals include three public performances on campus, two of which must be solo recitals of approximately one hour of music. The third performance, with the approval of the head of piano, may be selected from the following: an additional recital, a full concerto with orchestra, a chamber music recital or a lecture-recital. The three recitals will be graded by the head of keyboard studies, the student's teacher and another artist faculty member.

## Strings, Artist Diploma (Cello, Double Bass, Harp, Violin, Viola)

Adviser: Aaron Boyd

### Required Courses

- ADPR 7200 - Private Study (Violin, Viola, Cello, Double Bass, or Harp - four terms)  
or
- ADPR 7300 - Private Study (Violin, Viola, Cello, Double Bass, or Harp - four terms)
  
- ADRE 7001 - Artist Diploma Recital (four terms)  
or
- ADRE 7101 - Artist Diploma Recital (four terms)  
or
- ADRE 7201 - Artist Diploma Recital (four terms)
  
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
  
- PERE 5071 - Chamber Ensemble (four terms)  
or
- PERE 5171 - Chamber Ensemble (four terms)
  
- PERE 5018 - Meadows Symphony Orchestra (four terms)  
or

- PERE 5118 - Meadows Symphony Orchestra (four terms)

### **Electives:**

- MREP 5060 - Orchestral Repertoire: Strings
- MREP 5160 - Orchestral Repertoire: Strings
- or others with adviser's approval

### **Total: 20 Credit Hours**

#### **Notes:**

- Recitals include four public performances on campus, two of which must be solo recitals of approximately one hour of music. The additional performances, with the approval of the head of strings, may include an additional solo recital, a full concerto with orchestra, a mock orchestral audition, significant competitions of national or international stature, a chamber music recital or a lecture-recital. One of the recitals must include a chamber work. Each recital will be graded by the head of strings, the student's teacher, another faculty member and the director of orchestral activities.
- PERE orchestra ensemble assignments are made by the applied music teacher, adviser and ensemble conductors.

## **Strings, Performer's Diploma (Cello, Double Bass, Harp, Violin, Viola)**

**Adviser:** Aaron Boyd

### **Required Courses**

- MREP 5060 - Orchestral Repertoire: Strings (two terms)  
or
- MREP 5160 - Orchestral Repertoire: Strings (two terms)
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MURE 6001 - Graduate Recital (3 total required)  
or
- MURE 6101 - Graduate Recital (3 total required)  
or
- MURE 6102 - Graduate Recital (3 total required)
- PERE 5071 - Chamber Ensemble (four terms)  
or
- PERE 5171 - Chamber Ensemble (four terms)
- PERE 5118 - Meadows Symphony Orchestra (each term)
- VIOL 6200 - Private Study: Violin (8 credits)  
or
- VLA 6200 - Private Study: Viola (8 credits)  
or
- CELL 6200 - Private Study: Cello (8 credits)  
or

- DBBS 6200 - Private Study: Double Bass (8 credits)  
or
- HARP 6200 - Private Study: Harp (8 credits)
- Music Electives *Credits*: 0-4

### Total: 20 Credit Hours

**Note:** Recitals include three public performances on campus, one of which must be a solo recital of approximately one hour of music. The other two performances, with the approval of the head of strings, may be selected from the following: additional solo recitals, a full concerto with orchestra, mock orchestral auditions, chamber music recitals, significant competitions of national or international stature, or lecture-recitals. One of the recitals must include a chamber work. The three recitals will be graded by the student's teacher and two members of the performance faculty.

## Voice Performance, Artist Diploma

**Adviser:** Private Instructor

### Required Courses

- ADPR 7200 - Private Study (four terms)  
or
- ADPR 7300 - Private Study (four terms)
- ADRE 7001 - Artist Diploma Recital (four terms)  
or
- ADRE 7101 - Artist Diploma Recital (four terms)  
or
- ADRE 7201 - Artist Diploma Recital (four terms)
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- Meadows Choral Ensemble, 0-2 credits (two terms as determined by audition)
- PERE 5022 - Meadows Opera Ensemble (four terms)  
or
- PERE 5122 - Meadows Opera Ensemble (four terms)
- Electives *Credit Hours*: 0-8 (chosen with adviser's approval)

### Total: 20 Credit Hours

**Note:** Recitals include four public performances on campus, two of which must be solo recitals of approximately one hour in length. One must include songs and arias; one must include chamber music. One performance may be selected from an additional recital, a substantial performance with orchestra (to be approved by the voice faculty), an operatic role equivalent to an AGMA "A" or "B" rating, a chamber music recital or a lecture-recital. The four recitals will be graded by the head of voice, the student's voice teacher or other voice faculty member if the teacher is the head, and another music faculty member. A pre-recital hearing before the voice faculty is required. Not less than 3/4 of the recital material must be performed from memory at the hearing. Complete printed material for the recital is required at the hearing.

# Voice Performance, Performer's Diploma

Adviser: Private Instructor

## Required Courses

- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
  
- MURE 6001 - Graduate Recital (three required)  
or
- MURE 6101 - Graduate Recital (three required)  
or
- MURE 6102 - Graduate Recital (three required)
  
- PERB 5208 - Advanced Acting for Voice Majors
- PERB 6101 - Directed Studies in Voice
- Meadows Choral Ensemble, 0-2 credits (two terms as determined by audition)
  
- PERE 5022 - Meadows Opera Ensemble (four terms)  
or
- PERE 5122 - Meadows Opera Ensemble (four terms)
  
- VOIC 6005 - Vocal Coaching
- VOIC 6007 - Vocal Coaching
- VOIC 6106 - Vocal Coaching
- VOIC 6108 - Vocal Coaching
  
- VOIC 6200 - Private Study: Voice (8 Credits)

**Total: 20 Credit Hours**

### Notes:

- For directed studies, students may be advised to complete credits in the following areas: opera history, oratorio performance, song literature and chamber/contemporary music.
- Recitals include three public performances on campus, two of which must be solo recitals of approximately one hour in length. One must include songs and arias; one must include chamber music. One performance may be selected from an additional recital, a substantial performance with orchestra (to be approved by the voice faculty), an operatic role equivalent to an AGMA "A" or "B" rating, a chamber music recital or a lecture-recital. The three recitals will be graded by the head of voice, the student's voice teacher or other voice faculty member if the teacher is the head, and another music faculty member. A pre-recital hearing before the voice faculty is required. Not less than 3/4 of the recital material must be performed from memory at the hearing. Complete printed material for the recital is required at the hearing.

## Choral Conducting, M.M.

Adviser: Pamela Elrod Huffman

At least three credit hours of the required coursework in MUHI and/or MUTH must be from 6000-level courses that are not double listed.

A piano proficiency exam must be passed by the end of the student's third term. These skills and competencies may be developed through individual preparation or review courses (PERB 5107, PERB 5108 Keyboard Skills for Conductors). The review courses are remedial and do not count toward the degree nor are they funded by scholarship.

All choral conducting majors are expected to have English, French, Italian and German diction courses on their undergraduate transcripts. Graduate Diction Review (PERB 5006) may be assigned when deficiencies exist.

All choral conducting majors are expected to have a minimum of two terms of world language study on their undergraduate transcripts. Any deficiency can be met during graduate study, with a maximum of four credit hours counting toward the degree.

## Required Courses

- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MUCO 6209 - Choral Conducting II
- MUCO 6210 - Seminar: Major Choral Works
- MUCO 6211 - Instrumental Techniques for Choral Conductors
- MUCO 6252 - Vocal and Choral Techniques
- MUCO 6289 - Conducting Practicum
- MUCO 6307 - Choral Conducting I
- MUHI 6335 - Introduction to Graduate Studies
- MUHI 6384 - Survey of Choral Literature
- PERE 5013 - Meadows Chorale (four terms)

## Select One

- MUTH 6300 - Analysis of Contemporary Music
- MUTH 6326 - Seminar in Music Analysis
- MUTH 6330 - Analytical Techniques
- MUTH 6360 - Analysis of Tonal Music

Total: 3 Credit Hours

## Electives:

Chosen with adviser's approval

Total: 8 Credit Hours

Total: 30 Credit Hours

## Guitar Performance, M.M.

Adviser: Robert Guthrie

At least three credit hours of the required coursework in MUHI and/or MUTH must be from 6000-level courses that are not double listed.

## Required Courses

- GUIT 6200 - Private Study: Guitar (8 Credits)

- MPED 6303 - Guitar Pedagogy
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MUHI 6335 - Introduction to Graduate Studies
- MUHI 6348 - Guitar History and Literature
- MURE 6201 - Graduate Recital

### Select One

- MUTH 6300 - Analysis of Contemporary Music
- MUTH 6326 - Seminar in Music Analysis
- MUTH 6330 - Analytical Techniques
- MUTH 6360 - Analysis of Tonal Music

Total: 3 Credit Hours

### Ensembles:

- PERE 5030 - Meadows Guitar Ensemble (four terms)  
or
- PERE 5130 - Meadows Guitar Ensemble (four terms)

Total: 0-3 Credit Hours

### Electives:

Chosen with adviser's approval; up to three credits may be in large ensemble, chamber ensemble, or repertory class

Total: 5-8 Credit Hours

Total: 30 Credit Hours

## Instrumental Conducting, M.M., Orchestral Emphasis

Adviser: Paul Phillips

A piano proficiency exam must be passed by the end of the student's third term. These skills and competencies may be developed through individual preparation or review courses (PERB 5107, PERB 5108 Keyboard Skills for Conductors). The review courses are remedial and do not count toward the degree nor are they funded by scholarship.

### Required Courses

- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MUCO 6189 - Conducting Practicum
- MUCO 6200 - Applied Study in Conducting (four terms)
- MUCO 6212 - Choral/Vocal Techniques for The Instrumental Conductor
- MUHI 6335 - Introduction to Graduate Studies
- MUHI 6347 - Issues in Symphonic Literature
- PERE 5018 - Meadows Symphony Orchestra (four terms of orchestra unless otherwise approved)

### **Select One**

- MUTH 6300 - Analysis of Contemporary Music
- MUTH 6326 - Seminar in Music Analysis
- MUTH 6330 - Analytical Techniques
- MUTH 6360 - Analysis of Tonal Music

Total: 3 Credit Hours

### **World Language**

One term required at the 1402 level or above, chosen with the adviser's approval

Total: 4 Credit Hours

### **Electives:**

Chosen with adviser's approval

Total: 6 Credit Hours

Total: 30 Credit Hours

## **Instrumental Conducting, M.M., Wind Emphasis**

**Adviser:** Jack Delaney

A piano proficiency exam must be passed by the end of the student's third term. These skills and competencies may be developed through individual preparation or review courses (PERB 5107, PERB 5108 Keyboard Skills for Conductors). The review courses are remedial and do not count toward the degree nor are they funded by scholarship.

### **Required Courses**

- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MUCO 6189 - Conducting Practicum
- MUCO 6200 - Applied Study in Conducting (four terms)
- MUCO 6212 - Choral/Vocal Techniques for The Instrumental Conductor
- MUHI 6335 - Introduction to Graduate Studies
- MUHI 6374 - Wind Ensemble History and Literature
- PERE 5019 - Meadows Wind Ensemble (four terms of wind ensemble unless otherwise approved)

### **Select One**

- MUTH 6300 - Analysis of Contemporary Music
- MUTH 6326 - Seminar in Music Analysis
- MUTH 6330 - Analytical Techniques
- MUTH 6360 - Analysis of Tonal Music

Total: 3 Credit Hours

## **World Language**

One term required at the 1402 level or above, chosen with the adviser's approval

Total: 4 Credit Hours

## **Electives:**

Chosen with adviser's approval

Total: 6 Credit Hours

Total: 30 Credit Hours

## **Music Composition, M.M.**

**Adviser:** Private Instructors

### **Required Courses**

- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MUHI (6000 level) *Credits:* 3 (chosen with adviser's approval)
- MUHI 6335 - Introduction to Graduate Studies
- MURE 6001 - Graduate Recital
- MUTH 5000 - Composition Seminar (each term of residence)
- MUTH (5000–6000 level) *Credits:* 3 (elective chosen with adviser's approval)
- MUTH 6081 - Thesis in Composition
  
- MUTH 6310 - Introduction to Electro-Acoustic Music  
or
- MUTH 6311 - Advanced Topics in Music Technology
  
- MUTH 6320 - Advanced Composition (four terms)

### **Select One**

- MUTH 6300 - Analysis of Contemporary Music
- MUTH 6326 - Seminar in Music Analysis
- MUTH 6330 - Analytical Techniques
- MUTH 6360 - Analysis of Tonal Music

Total: 3 Credit Hours

## **Ensemble:**

Two terms

Total: 0-2 Credit Hours

## **Elective:**

Chosen with adviser's approval

Total: 1-3 Credit Hours

Total: 30 Credit Hours

**Notes:**

- It is expected that the student will actively study composition every term in residence at SMU.
- The thesis work may be for any medium and must be equivalent in complexity and accomplishment to an eight- to ten-minute concert work for orchestra. A brief proposal of the work must be submitted for approval to the thesis committee upon enrollment for thesis credit.
- A degree recital (MURE 6001) consisting of works completed during graduate study is to be presented for approval by the student's committee.

## **Music Education, M.M.**

**Advisers:** Sarah Allen, Julie Scott

Two options are provided in the M.M. in music education: 1) an option for candidates who already hold teaching certification and 2) an option for candidates with a degree in music who are seeking teacher certification. The M.M. in music education may be earned on a part-time basis, typically in three years, or on a full-time basis, typically in four terms (two years). Courses are offered in the evenings and summers to accommodate in-service teachers, thereby enabling teachers to continue in their jobs while pursuing the degree. Full-time students may take daytime and evening classes. At least nine credit hours of the required coursework in MUHI, MUTH or electives must be from 6000-level courses that are not double listed.

### **Required Courses**

- MSA 6049 - Graduate Full-Time Status (four terms for full-time students only)
- MUAS 6010 - Music Engagement (four terms for full-time students only)
- MUED 6340 - Research in Music Education
- MUED 6352 - History and Philosophy of Music Education
- MUHI (6000-level) *Credits:* 3 (chosen with adviser's approval)

### **Select One**

- MUTH 6300 - Analysis of Contemporary Music
- MUTH 6326 - Seminar in Music Analysis
- MUTH 6330 - Analytical Techniques
- MUTH 6360 - Analysis of Tonal Music

Total: 3 Credit Hours

### **Ensemble:**

Two terms (exceptions may be considered)

Total: 0-2 Credit Hours

### **Performance Studies**

May include conducting, private performance study or pedagogy courses

Total: 3-6 Credit Hours

### **Electives:**

Chosen with adviser's approval; must be pertinent to the candidate's career specialization and include at least 6 hours of coursework in MUED; other elective options include but are not limited to MPSY or MUCO courses, EDU courses, performance studies, or ensemble, as well as summer SMU Music Educators Workshops

Total: 10-15 Credit Hours

Total: 30 Credit Hours

#### **Notes:**

- Part-time music education graduate students are not required to take performance studies or to perform in ensembles.
- Part-time music education students take 18 credit-hours of elective courses.

## **Musicology, M.M.**

Adviser: Peter Kupfer

The M.M. in Musicology is completed through one of two specializations, research or pedagogy. Students take 20 credit hours of core courses, plus an additional 10 credits in their area of specialization.

Students must pass a translation exam in a second language relevant to their specialization, typically German, Italian, French, Spanish, or Latin.

## **Required Courses**

### **Core Courses**

- MUHI 63XX (At least three seminar courses chosen with adviser's approval)
- Ensembles (two terms)
  
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MUHI 6335 - Introduction to Graduate Studies
- MUHI 6337 - Conceptual Foundations of Musicology

### **One from the following:**

Select one with adviser's approval.

- MUTH 6300 - Analysis of Contemporary Music
- MUTH 6326 - Seminar in Music Analysis
- MUTH 6330 - Analytical Techniques
- MUTH 6360 - Analysis of Tonal Music

Total: 20 Credit Hours

## **Specializations**

### **Research**

- Elective (MUHI, MUTH, MUED, EDU, HIST, or other chosen with adviser's approval)
- Thesis
  
- MUHI 6154 - Practicum in Musicology Pedagogy

Total: 10 Credit Hours

### Pedagogy

- Elective (MUHI, MUTH, MUED, EDU, HIST, or other chosen with adviser's approval)
- EDU 6322 - Educational and Behavioral Psychology
- MUHI 6154 - Practicum in Musicology Pedagogy
- MUHI 6250 - Final Project in Musicology Pedagogy

Total: 10 Credit Hours

Total: 30 Credit Hours

## Organ Performance, M.M.

Adviser: Stefan Engels

### Required Courses

- MPED 5114 - Organ/Harpsichord Pedagogy
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MUHI 6320 - Organ History and Literature
- MUHI 6335 - Introduction to Graduate Studies
- MURE 6201 - Graduate Recital (written program notes required)
- ORG 6200 - Private Study: Organ (four terms)
- PERB 6001 - Departmental Performance Class (four terms)

### Select One

- MUTH 6300 - Analysis of Contemporary Music
- MUTH 6326 - Seminar in Music Analysis
- MUTH 6330 - Analytical Techniques
- MUTH 6360 - Analysis of Tonal Music

Total: 3 Credit Hours

### Ensemble:

Two terms

Total: 0-2 Credit Hours

### Private Study:

Two terms in one of the following:

- HARS 6100 - Private Study: Harpsichord
- HARS 6200 - Private Study: Harpsichord
- or
- PIAN 6100 - Private Study: Piano

- PIAN 6200 - Private Study: Piano  
or
- ORG 6105 - Organ Improvisation
- ORG 6205 - Organ Improvisation

Total: 2 Credit Hours

### **Electives:**

Chosen with adviser's approval (three credits must be from music courses)

Total: 6-8 Credit Hours

Total: 30 Credit Hours

## **Percussion Performance, M.M.**

**Adviser:** Jon Lee

At least three credit hours of the required coursework in MUHI and/or MUTH must be from 6000-level courses that are not double listed.

### **Required Courses**

- MPED 6305 - Introduction to Instrument Pedagogy
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MUHI (6000 level) *Credits:* 3 (chosen with adviser's approval)
- MUHI 6335 - Introduction to Graduate Studies
- MURE 6201 - Graduate Recital
  
- PERC 6100 - Private Study: Percussion (10 Credits)  
or
- PERC 6200 - Private Study: Percussion (10 Credits)

### **Select One**

- MUTH 6300 - Analysis of Contemporary Music
- MUTH 6326 - Seminar in Music Analysis
- MUTH 6330 - Analytical Techniques
- MUTH 6360 - Analysis of Tonal Music

Total: 3 Credit Hours

### **Ensembles:**

One large ensemble each term in residence and four chamber ensemble enrollments

Total: 0-5 Credit Hours

**Electives:**

Chosen with adviser's approval; up to five credits may be in large ensemble, chamber ensemble, or repertory class

Total: 1-6 Credit Hours

Total: 30 Credit Hours

**Piano Performance and Pedagogy, M.M.**

**Adviser:** Catharine Lysinger

At least three credit hours of the required coursework in MUHI, MUTH and/or electives must be from 6000-level courses that are not double listed.

**Required Courses**

- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MUHI (6000 level) *Credits:* 3 (chosen with adviser's approval)
  
- MUHI 6335 - Introduction to Graduate Studies  
or
- MUED 6340 - Research in Music Education
  
- MUPD 5210 - Current Trends in Piano Pedagogy
- MUPD 5312 - Survey of Precollege Piano Literature
- MUPD 6021 - Internship/Assistantship in Piano Pedagogy
- MUPD 6022 - Internship/Assistantship in Piano Pedagogy
- MUPD 6121 - Internship/Assistantship in Piano Pedagogy
- MUPD 6122 - Internship/Assistantship in Piano Pedagogy
- MUPD 6396 - Piano Pedagogy I
- MUPD 6397 - Piano Pedagogy II
  
- MURE 6201 - Graduate Recital (with adviser's approval)  
or
- MURE 6202 - Graduate Lecture Recital (with adviser's approval)
  
- PERB 6001 - Departmental Performance Class (four terms)
  
- PERB 6112 - Piano Improvisation  
or
- PERB 6113 - Advanced Piano Improvisation
  
- PIAN 6200 - Private Study: Piano (8 Credits)

**Select One**

- MUTH 6300 - Analysis of Contemporary Music
- MUTH 6326 - Seminar in Music Analysis
- MUTH 6330 - Analytical Techniques
- MUTH 6360 - Analysis of Tonal Music

Total: 3 Credit Hours

**Ensemble:**

Two terms, chosen from:

- MUAC 6101 - Techniques of Instrumental Accompanying
- MUAC 6102 - Techniques of Vocal Accompanying  
or
- PERE 5071 - Chamber Ensemble
- PERE 5171 - Chamber Ensemble  
or
- other PERE course with adviser and instructor approval

Total: 0-2 Credit Hours

**Electives:**

Chosen with adviser's approval from MUED, MPSY, EDU, PERB, MUHI, MUTH

Total: 1-3 Credit Hours

Total: 36 Credit Hours

**Piano Performance, M.M.**

**Adviser:** Carol Leone

At least three credit hours of the required coursework in MUHI, MUTH or electives must be from 6000-level courses that are not double listed.

**Required Courses**

- MREP 6114 - Advanced Piano Repertoire (two terms)
- MSA 6049 - Graduate Full-Time Status
- MUAC 6101 - Techniques of Instrumental Accompanying
- MUAC 6102 - Techniques of Vocal Accompanying
- MUAS 6010 - Music Engagement (four terms)
- MUHI (6000 level) *Credits:* 3 (chosen with adviser's approval)
- MUHI 6335 - Introduction to Graduate Studies
  
- MUPD 5312 - Survey of Precollege Piano Literature  
or
- MUPD 6396 - Piano Pedagogy I  
or
- MUPD 6397 - Piano Pedagogy II

Chosen with adviser's approval

Total: 1-3 Credit Hours

Total: 30 Credit Hours

## **Sacred Music, M.S.M, Keyboards Concentration**

**Program Director:** Marcell Steuernagel

### **Admission**

Acceptance by both the Perkins School of Theology and the Division of Music is necessary for admission to the Master of Sacred Music program. The M.S.M. degree requires a concentration in one of the following seven areas: Choral Conducting, Organ, Keyboards, Composition and Arranging, Music Education, Worship Arts, or Liturgical Musicology. The first four of these are Applied, the last three Academic Concentrations. The Division of Music requires a cumulative grade point average of 3.000 on all undergraduate work and, in the case of the above Applied Concentrations, an audition or recent recording demonstrating proficiency in choral conducting, organ, or keyboard performance or submission of a composition portfolio respectively. Applicants to the Academic Concentrations must include a description of previous experience or written work that demonstrates the ability to pursue graduate work in the chosen concentration. Application detail are found at [www.smu.edu/Perkins/FacultyAcademics/degree/msm/MSMCourseofStudy](http://www.smu.edu/Perkins/FacultyAcademics/degree/msm/MSMCourseofStudy).

### **Degree Requirements**

A piano proficiency exam must be passed by the end of the student's third term. These skills and competencies may be developed through individual preparation or review courses (PERB 5107, PERB 5108 Keyboard Skills for Choral Conductors). The review courses are remedial and do not count toward the degree nor are they funded by scholarship.

All M.S.M. students are required to take entrance exams in music history, music theory, and piano proficiency and score reading before beginning their first term of study. Students who do not pass a particular exam are required to take the following course(s):

- MUTH 6000 - Graduate Theory Review
- MUTH 6100 - Graduate Theory Review
- MUHI 6000 - Music History Review
- MUHI 6100 - Music History Review
- PERB 5107 - Keyboard Skills for Conductors I (recommended but not required)
- PERB 5108 - Keyboard Skills for Conductors II (recommended but not required)

## **Required Courses**

### **Theological Studies**

- NT 6301 - Interpretation of the New Testament I  
or
- NT 6302 - Interpretation of the New Testament II
  
- OT 6301 - Interpretation of the Old Testament I  
or
- OT 6302 - Interpretation of the Old Testament II
  
- ST 6301 - Interpretation of the Christian Message I  
or
- HX 6305 - The Christian Heritage I  
or
- HX 6306 - The Christian Heritage II
  
- WO 6313 - Introduction to Christian Worship
- XX 6003 - Spiritual Formation I (participation required two terms of first year)
- XX 6004 - Spiritual Formation II (participation required two terms of first year)

Total: 12 Credit Hours

### **Church Music Study**

- CM 8108 - Cantoring in Worship
- CM 8120 - Supervised Practicum
- CM 8330 - Congregational Song History and Theology (Hymnology)
- CM 8331 - Introduction to Church Music: Graduate Studies
- CM 8332 - Music Genres of Western Christianity

Total: 11 Credit Hours

### **Professional Skills and Methods**

- MUAS 6010 - Music Engagement (four terms)

### **Select One**

- MUTH 6300 - Analysis of Contemporary Music (music theory)
- MUTH 6326 - Seminar in Music Analysis (music theory)

- MUTH 6330 - Analytical Techniques (music theory)
- MUTH 6360 - Analysis of Tonal Music (music theory)

Total: 3 Credit Hours

### Meadows Choral Ensemble

Participation required two consecutive terms within the same academic year, as determined by placement audition

Total: 0 Credit Hours

### Electives

Chosen with adviser's approval

Total: 9 Credit Hours

### Concentration Requirements

- PERB 6111 - Introduction to the Organ
- CM 8201 - Instruction in Conducting
- Private Instruction in Keyboards *Credits: 7*
- CM 8140 - Practicum in Keyboards
- CM 8240 - Keyboards in Ensemble

Total: 13 Credit Hours

### Total: 48 Credit Hours

#### Notes:

- For United Methodist students pursuing deacon's orders, the 12 hours in theological studies may count toward the 24-hour requirement. It may be possible to use elective hours (bullet for organ concentration, below) to satisfy more of the 24-hour requirement.
- The prerequisite for course WO 6313, XS 6310 - The Church in Its Social Context, is not required for the M.S.M. degree.
- The supervised practicum includes musical/liturgical leadership in a local congregation and work with a church music mentor.
- Placement exams in music history and theory will be administered during the week before classes begin in Meadows School of the Arts.
- For the organ concentration, students are encouraged to take CM 8201 - Instruction in Conducting during a fall term as a part of their nine elective hours.
- All M.S.M. students not enrolled in the organ or keyboard concentrations must pass a keyboard proficiency examination before completing the degree. Information on the exam will be sent to all incoming students in the appropriate concentrations.
- Private vocal instruction for M.S.M. students will be offered only for those who have also been accepted into the Master of Music in voice major as a concurrent degree program or by audition with the voice faculty. Private vocal instruction for M.S.M. students is subject to the availability of voice faculty.
- Choral conducting students with prior organ degree study may substitute one credit of private organ study for PERB 6111, with the permission of the instructor.

# Sacred Music, M.S.M., Choral/Conducting Concentration

Program Director: Marcell Steuernagel

## Admission

Acceptance by both the Perkins School of Theology and the Division of Music is necessary for admission to the Master of Sacred Music program. The M.S.M. degree requires a concentration in one of the following seven areas: Choral Conducting, Organ, Keyboards, Composition and Arranging, Music Education, Worship Arts, or Liturgical Musicology. The first four of these are Applied, the last three Academic Concentrations. The Division of Music requires a cumulative grade point average of 3.000 on all undergraduate work and, in the case of the above Applied Concentrations, an audition or recent recording demonstrating proficiency in choral conducting, organ, or keyboard performance or submission of a composition portfolio respectively. Applicants to the Academic Concentrations must include a description of previous experience or written work that demonstrates the ability to pursue graduate work in the chosen concentration. - MUTH 6326 - Seminar in Music Analysis (music theory)
- MUTH 6330 - Analytical Techniques (music theory)
- MUTH 6360 - Analysis of Tonal Music (music theory)

Total: 3 Credit Hours

### Meadows Choral Ensemble

Participation required two consecutive terms within the same academic year, as determined by placement audition

Total: 0 Credit Hours

### Electives

Chosen with adviser's approval

Total: 9 Credit Hours

### Concentration Requirements

- ORG 6200 - Private Study: Organ (4 terms)
- PERB 6212 - Organ Improvisation and Service Playing
- MUHI 6320 - Organ History and Literature

Total: 13 Credit Hours

Total: 48 Credit Hours

**Notes:**

- For United Methodist students pursuing deacon's orders, the 12 hours in theological studies may count toward the 24-hour requirement. It may be possible to use elective hours (bullet for organ concentration, below) to satisfy more of the 24-hour requirement.
- The prerequisite for course WO 6313, XS 6310 - The Church in Its Social Context, is not required for the M.S.M. degree.
- The supervised practicum includes musical/liturgical leadership in a local congregation and work with a church music mentor.
- Placement exams in music history and theory will be administered during the week before classes begin in Meadows School of the Arts.
- For the organ concentration, students are encouraged to take CM 8201 - Instruction in Conducting during a fall term as a part of their nine elective hours.
- All M.S.M. students not enrolled in the organ or keyboard concentrations must pass a keyboard proficiency examination before completing the degree. Information on the exam will be sent to all incoming students in the appropriate concentrations.
- Private vocal instruction for M.S.M. students will be offered only for those who have also been accepted into the Master of Music in voice major as a concurrent degree program or by audition with the voice faculty. Private vocal instruction for M.S.M. students is subject to the availability of voice faculty.
- Choral conducting students with prior organ degree study may substitute one credit of private organ study for PERB 6111, with the permission of the instructor.

## **Sacred Music, M.S.M., Worship Arts Concentration**

**Program Director:** Marcell Steuernagel

### **Admission**

Acceptance by both the Perkins School of Theology and the Division of Music is necessary for admission to the Master of Sacred Music program. The M.S.M. degree requires a concentration in one of the following seven areas: Choral Conducting, Organ, Keyboards, Composition and Arranging, Music Education, Worship Arts, or Liturgical Musicology. The first four of these are Applied, the last three Academic Concentrations. The Division of Music requires a cumulative grade point average of 3.000 on all undergraduate work and, in the case of the above Applied Concentrations, an audition or recent recording demonstrating proficiency in choral conducting, organ, or keyboard performance or submission of a composition portfolio respectively. Applicants to the Academic Concentrations must include a description of previous experience or written work that demonstrates the ability to pursue graduate work in the chosen concentration. Application detail are found at [www.smu.edu/Perkins/FacultyAcademics/degree/msm/MSMCourseofStudy](http://www.smu.edu/Perkins/FacultyAcademics/degree/msm/MSMCourseofStudy).

### **Degree Requirements**

A piano proficiency exam must be passed by the end of the student's third term. These skills and competencies may be developed through individual preparation or review courses (PERB 5107, PERB 5108 Keyboard Skills for Choral Conductors). The review courses are remedial and do not count toward the degree nor are they funded by scholarship.

All M.S.M. students are required to take entrance exams in music history, music theory, and piano proficiency and score reading before beginning their first term of study. Students who do not pass a particular exam are required to take the following course(s):

- MUTH 6000 - Graduate Theory Review
- MUTH 6100 - Graduate Theory Review
- MUHI 6000 - Music History Review
- MUHI 6100 - Music History Review
- PERB 5107 - Keyboard Skills for Conductors I (recommended but not required)
- PERB 5108 - Keyboard Skills for Conductors II (recommended but not required)

## Required Courses

### Theological Studies

- NT 6301 - Interpretation of the New Testament I  
or
- NT 6302 - Interpretation of the New Testament II
  
- OT 6301 - Interpretation of the Old Testament I  
or
- OT 6302 - Interpretation of the Old Testament II
  
- ST 6301 - Interpretation of the Christian Message I  
or
- HX 6305 - The Christian Heritage I  
or
- HX 6306 - The Christian Heritage II
  
- WO 6313 - Introduction to Christian Worship
- XX 6003 - Spiritual Formation I (participation required two terms of first year)
- XX 6004 - Spiritual Formation II (participation required two terms of first year)

Total: 12 Credit Hours

### Church Music Study

- CM 8108 - Cantoring in Worship
- CM 8120 - Supervised Practicum
- CM 8330 - Congregational Song History and Theology (Hymnology)
- CM 8331 - Introduction to Church Music: Graduate Studies
- CM 8332 - Music Genres of Western Christianity

Total: 11 Credit Hours

### Professional Skills and Methods

- MUAS 6010 - Music Engagement (four terms)

### Select One

- MUTH 6300 - Analysis of Contemporary Music (music theory)
- MUTH 6326 - Seminar in Music Analysis (music theory)
- MUTH 6330 - Analytical Techniques (music theory)
- MUTH 6360 - Analysis of Tonal Music (music theory)

Total: 3 Credit Hours

### Meadows Choral Ensemble

Participation required two consecutive terms within the same academic year, as determined by placement audition

Total: 0 Credit Hours

## Electives

Chosen with adviser's approval

Total: 9 Credit Hours

## Concentration Requirements

- PERB 6111 - Introduction to the Organ
- CM 8201 - Instruction in Conducting
- CM 8321 - Seminar in Worship Arts I
- CM 8322 - Seminar in Worship Arts II
- CM 8323 - Seminar in Worship Arts III
- CM 8121 - Practicum in Worship Arts

Total: 13 Credit Hours

Total: 48 Credit Hours

### Notes:

- For United Methodist students pursuing deacon's orders, the 12 hours in theological studies may count toward the 24-hour requirement. It may be possible to use elective hours (bullet for organ concentration, below) to satisfy more of the 24-hour requirement.
- The prerequisite for course WO 6313, XS 6310 - The Church in Its Social Context, is not required for the M.S.M. degree.
- The supervised practicum includes musical/liturgical leadership in a local congregation and work with a church music mentor.
- Placement exams in music history and theory will be administered during the week before classes begin in Meadows School of the Arts.
- For the organ concentration, students are encouraged to take CM 8201 - Instruction in Conducting during a fall term as a part of their nine elective hours.
- All M.S.M. students not enrolled in the organ or keyboard concentrations must pass a keyboard proficiency examination before completing the degree. Information on the exam will be sent to all incoming students in the appropriate concentrations.
- Private vocal instruction for M.S.M. students will be offered only for those who have also been accepted into the Master of Music in voice major as a concurrent degree program or by audition with the voice faculty. - Choral conducting students with prior organ degree study may substitute one credit of private organ study for PERB 6111, with the permission of the instructor.

## Strings Performance, M.M. (Cello, Double Bass, Harp, Violin, Viola)

Adviser: Aaron Boyd

At least three credit hours of the required coursework in MUHI and/or MUTH must be from 6000-level courses that are not double listed.

## Required Courses

- MPED 6305 - Introduction to Instrument Pedagogy  
or

- MPED 6308 - String Pedagogy I
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MUHI (6000 level) *Credits: 3* (chosen with adviser's approval)
- MUHI 6335 - Introduction to Graduate Studies
- MURE 6201 - Graduate Recital

### Select One

- MUTH 6300 - Analysis of Contemporary Music
- MUTH 6326 - Seminar in Music Analysis
- MUTH 6330 - Analytical Techniques
- MUTH 6360 - Analysis of Tonal Music

Total: 3 Credit Hours

### Ensembles:

One large ensemble each term in residence and four chamber ensemble enrollments

Total: 0-5 Credit Hours

### Performance Studies

Total: 8 Credit Hours

### Electives:

Chosen with adviser's approval; up to five credits may be in large ensemble, chamber ensemble, or repertory class

Total: 3-8 Credit Hours

Total: 30 Credit Hours

## Theory Pedagogy, M.M.

Adviser: Mark Feezell

At least three credit hours of the required coursework in MUHI and/or MUTH must be from 6000-level courses that are not double listed.

### Required Courses

- EDU 6322 - Educational and Behavioral Psychology
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MUHI (6000 level) *Credits: 3* (chosen with adviser's approval)
- MUHI 6335 - Introduction to Graduate Studies
- MUTH (6000 level) *Credits: 6* (chosen with adviser's approval)
- MUTH 6156 - Practicum in Theory Pedagogy

- MUTH 6250 - Final Project in Theory Pedagogy
- MUTH 6355 - Pedagogy of Theory

### **Ensembles:**

Two terms

Total: 0 Credit Hours

### **Electives:**

Chosen with adviser's approval (3 hours must be in EDU, MPED, MPSY, MUED, or MUPD)

Total: 9 Credit Hours

Total: 30 Credit Hours

**Note:** In exceptional cases, the department may allow the substitution of a suitable alternative course for EDU 6322.

## **Voice Performance, M.M.**

**Adviser:** Private Instructor

All graduate voice majors are expected to have English, French, Italian and German diction courses on their undergraduate transcripts. PERB 5006 may be assigned when deficiencies exist. All graduate voice majors are expected to have a minimum of two terms of foreign language study on their undergraduate transcripts. Any deficiency can be met during graduate study, with a maximum of four credit hours counting toward the degree. At least three credit hours of the required coursework in MUHI and/or MUTH must be from 6000-level courses that are not double listed.

### **Required Courses**

- MPED 5216 - Vocal Pedagogy I
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MUHI 6335 - Introduction to Graduate Studies
- MUHI 6345 - Issues in Opera History (or as recommended by the adviser)
- MURE 6001 - Graduate Recital
- Meadows Choral Ensemble, 0-2 credits (two terms as determined by audition)
- PERE 5022 - Meadows Opera Ensemble (two terms)
- PERE 5122 - Meadows Opera Ensemble (two terms)
- VOIC 6005 - Vocal Coaching
- VOIC 6106 - Vocal Coaching
- VOIC 6007 - Vocal Coaching
- VOIC 6108 - Vocal Coaching
- VOIC 6200 - Private Study: Voice (8 Credits)
- Foreign Language (details above)

### **Select One**

- MUTH 6300 - Analysis of Contemporary Music
- MUTH 6326 - Seminar in Music Analysis
- MUTH 6330 - Analytical Techniques
- MUTH 6360 - Analysis of Tonal Music

Total: 3 Credit Hours

**Electives:**

Minimum of four elective hours from the following:

- MPED 5217 - Vocal Pedagogy II
- MREP 5209 - Classical and Romantic Song Literature
- MREP 5210 - 20Th-Century Song Literature
- MREP 5212 - Sacred Masterpieces For Singers
- PERB 5208 - Advanced Acting for Voice Majors

Total: 4 Credit Hours

**Free Electives:**

Chosen with adviser's approval

Total: 2-5 Credit Hours

Total: 30 Credit Hours

**Woodwind and Brass Instruments Performance, M.M.  
(Bassoon, Clarinet, Flute, French Horn, Oboe, Saxophone,  
Trombone, Tuba)**

Adviser: Ryan Anthony

At least three credit hours of the required coursework in MUHI and/or MUTH must be from 6000-level courses that are not double listed.

**Required Courses**

- MPED 6305 - Introduction to Instrument Pedagogy
- MSA 6049 - Graduate Full-Time Status (four terms)
- MUAS 6010 - Music Engagement (four terms)
- MUHI (6000 level) *Credits: 3* (chosen with adviser's approval)
- MUHI 6335 - Introduction to Graduate Studies
- MURE 6201 - Graduate Recital

**Select One**

- MUTH 6300 - Analysis of Contemporary Music
- MUTH 6326 - Seminar in Music Analysis
- MUTH 6330 - Analytical Techniques
- MUTH 6360 - Analysis of Tonal Music

Total: 3 Credit Hours

**Ensembles:**

One large ensemble each term in residence and four chamber ensemble enrollments

Total: 0-5 Credit Hours

**Performance Studies**

Total: 8 Credit Hours

**Electives:**

Chosen with adviser's approval; up to five credits may be in large ensemble, chamber ensemble, or repertory class

Total: 3-8 Credit Hours

Total: 30 Credit Hours

**Artist Diploma Private Studies Courses****ADPR 7200 - Private Study**

*Credits: 2*

One 1-hour lesson per week (14 per term). Repeatable course offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term. Prerequisite: Auditioned acceptance into the Artist Diploma program.

**ADPR 7300 - Private Study**

*Credits: 3*

One 90-minute lesson per week (14 per term). Repeatable course offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term. Prerequisite: Auditioned acceptance into the Artist Diploma program.

**Artist Diploma Recitals Courses****ADRE 7001 - Artist Diploma Recital**

*Credits: 0*

Solo performance of approximately 1 hour of music or specific recital requirements of student's performance area. Graded pass/fail by committee.

**ADRE 7101 - Artist Diploma Recital**

*Credits: 1*

Solo performance of approximately 1 hour of music or specific recital requirements of student's performance area. Graded pass/fail by committee.

**ADRE 7201 - Artist Diploma Recital**

*Credits: 2*

Solo performance of approximately 1 hour of music or specific recital requirements of student's performance area. Graded pass/fail by committee.

## **Bassoon Courses**

### **BSSN 6100 - Private Study: Bassoon**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **BSSN 6200 - Private Study: Bassoon**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Cello Courses**

### **CELL 6100 - Private Study: Cello**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **CELL 6200 - Private Study: Cello**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Clarinet Courses**

### **CLAR 6100 - Private Study: Clarinet**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **CLAR 6200 - Private Study: Clarinet**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Double Bass Courses**

### **DBBS 6100 - Private Study: Double Bass**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **DBBS 6200 - Private Study: Double Bass**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Euphonium Courses**

### **EUPH 6100 - Private Study: Euphonium**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term. Reserved for both graduate and undergraduate Music pre-majors, majors, and minors.

### **EUPH 6200 - Private Study: Euphonium**

*Credits: 2*

One-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term. Reserved for both graduate and undergraduate Music pre-majors, majors, and minors.

## **Flute Courses**

### **FLUT 6100 - Private Study: Flute**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **FLUT 6200 - Private Study: Flute**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **French Horn Courses**

### **FRHN 6100 - Private Study: French Horn**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **FRHN 6200 - Private Study: French Horn**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Guitar Courses**

### **GUIT 6100 - Private Study: Guitar**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **GUIT 6200 - Private Study: Guitar**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Harp Courses**

### **HARP 6100 - Private Study: Harp**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **HARP 6200 - Private Study: Harp**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Harpsichord Courses**

### **HARS 6100 - Private Study: Harpsichord**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **HARS 6200 - Private Study: Harpsichord**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Music Pedagogy Courses**

### **MPED 5114 - Organ/Harpsichord Pedagogy**

*Credits: 1*

(fall term of even-numbered years) A survey of teaching materials and pedagogical methods, both historical and modern, for organ and harpsichord students. Projects include compilation of graded repertoire lists and preparation and/or presentation of a supervised private lesson.

### **MPED 5216 - Vocal Pedagogy I**

*Credits: 2*

A study of vocal techniques, including vocal acoustics, breathing, and laryngeal function. Provides information useful to the singer, studio voice teacher, and choral director. Prerequisite: Permission of instructor.

### **MPED 5217 - Vocal Pedagogy II**

*Credits: 2*

A study of teaching strategies and philosophies, diagnosis of vocal problems, stage deportment, vocal repertoire, and ethics for teachers. Students gain practical, supervised experience in teaching.

### **MPED 6184 - Directed Study: Pedagogy**

*Credits: 1*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

### **MPED 6284 - Directed Study: Pedagogy**

*Credits: 2*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

### **MPED 6303 - Guitar Pedagogy**

*Credits: 3*

(spring term of even-numbered years) Prepares guitarists for studio teaching.

### **MPED 6305 - Introduction to Instrument Pedagogy**

*Credits: 3*

Prepares instrumental private teachers for studio teaching.

### **MPED 6308 - String Pedagogy I**

*Credits: 3*

(fall term of odd-numbered years) A survey of methods, materials, and curriculum for teaching strings at the beginning level. Focus on the philosophical, psychological, and developmental bases of string study. Review and evaluation of current educational materials. Additional topics include current trends, history of string education, and pedagogical situations. Prerequisite: Proficiency on a string instrument as a major, or technique courses equivalent to MUAS 3146 and 3147, or permission of instructor.

### **MPED 6309 - String Pedagogy II**

*Credits: 3*

(spring term of even-numbered years) Continuation of the skills and concepts developed in MPED 6308, as well as an in-depth study of methods, materials, and curriculum for teaching strings at the intermediate and advanced levels. Prerequisite: MPED 6308.

### **MPED 6384 - Directed Study: Pedagogy**

*Credits: 3*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

## **Music Psychology Courses**

### **MPSY 5340 - Acoustics of Music**

*Credits: 3*

A study of the acoustical foundations of music. Covers topics such as basic acoustics, acoustics of musical instruments and voice, room and auditorium acoustics, acoustical principles of sound systems, and psychoacoustics. Includes 3 hours of lecture and one laboratory period per week.

### **MPSY 6341 - Music Psychology**

*Credits: 3*

A study of the acoustical and psychological aspects of musical behavior, with emphasis on perception of and responses to musical stimuli. Also, interpretation of the interdependence of psycho-socio-physiological processes in musical behavior, such as musical preference and responses to music.

## **Music Repertoire Courses**

### **MREP 5030 - Guitar Repertoire**

*Credits: 0*

Student performances of their solo repertoire and individual instruction in a master-class setting.

### **MREP 5040 - Orchestral Repertoire: Woodwinds**

*Credits: 0*

Interpretive study and performance preparation of significant excerpts from selected orchestral repertoire.

### **MREP 5050 - Orchestral Repertoire: Brass**

*Credits: 0*

Interpretive study and performance preparation of significant excerpts from selected orchestral repertoire.

### **MREP 5060 - Orchestral Repertoire: Strings**

*Credits: 0*

Interpretive study and performance preparation of significant excerpts from selected orchestral repertoire.

### **MREP 5070 - Orchestral Repertoire: Percussion**

*Credits: 0*

Interpretive study and performance preparation of significant excerpts from selected orchestral repertoire.

### **MREP 5130 - Guitar Repertoire**

*Credits: 1*

Student performances of their solo repertoire and individual instruction in a master-class setting.

### **MREP 5140 - Orchestral Repertoire: Woodwinds**

*Credits: 1*

Interpretive study and performance preparation of significant excerpts from selected orchestral repertoire.

### **MREP 5150 - Orchestral Repertoire: Brass**

*Credits: 1*

Interpretive study and performance preparation of significant excerpts from selected orchestral repertoire.

### **MREP 5160 - Orchestral Repertoire: Strings**

*Credits: 1*

Interpretive study and performance preparation of significant excerpts from selected orchestral repertoire.

### **MREP 5170 - Orchestral Repertoire: Percussion**

*Credits: 1*

Interpretive study and performance preparation of significant excerpts from selected orchestral repertoire.

### **MREP 5209 - Classical and Romantic Song Literature**

*Credits: 2*

(spring term of odd-numbered years) An overview of song literature from the Classical and Romantic periods. Students prepare repertoire for performance in class and make presentations on topics of specialized interest. Lectures focus on specific developmental trends such as the genesis of the song cycle, the evolution of the piano accompaniment in the 19th century, and links between poets and composers.

### **MREP 5210 - 20Th-Century Song Literature**

*Credits: 2*

(spring term of even-numbered years) A survey of repertoire and performance practices of song literature from the 20th century. Provides students with a general knowledge of the literature to acquaint them with performance notational practices and to develop the musical skills necessary to perform this literature.

### **MREP 5212 - Sacred Masterpieces For Singers**

*Credits: 2*

An overview for singers of the great masses and oratorios of the 18th and 19th centuries, with an emphasis on performance. Baroque, Classical, and Romantic styles are taught through the study and performance of arias and ensembles from these works. Students are coached by the instructor, and they perform for the class. Open to junior, senior, and graduate voice majors, as well as singers in the Perkins' Master of Sacred Music program, or by instructor permission.

### **MREP 6114 - Advanced Piano Repertoire**

*Credits: 1*

A broad survey of piano literature, including lectures and performances by the students enrolled. Emphasizes performance styles and practices of every historical period.

### **MREP 6122 - Chamber Music for Organ or Harpsichord**

*Credits: 1*

Intensive research into the chamber literature for organ or harpsichord and from one to four instruments. Includes 1 or 2 hours weekly of scheduled rehearsal time with assisting instrumentalists.

### **MREP 6222 - Chamber Music for Organ or Harpsichord**

*Credits: 2*

Intensive research into the chamber literature for organ or harpsichord and from one to four instruments. Includes 1 or 2 hours weekly of scheduled rehearsal time with assisting instrumentalists.

### **MREP 6288 - Directed Studies: Advanced Organ Literature**

*Credits: 2*

Directed studies in advanced organ repertoire.

## **Music Accompanying Courses**

### **MUAC 6001 - Techniques of Instrumental Accompanying**

*Credits: .5*

Designed to acquaint pianists with the various skills associated with accompanying, and to familiarize them with some of the instrumental repertoire.

### **MUAC 6002 - Techniques of Vocal Accompanying**

*Credits: .5*

Designed to acquaint pianists with the various skills associated with accompanying, and to familiarize them with some of the vocal repertoire.

### **MUAC 6003 - Practicum in Collaborative Performance**

*Credits: 0*

Practical application of accompanying skills through studio assignments and performance. Fall and spring terms. Prerequisites: MUAC 6001 and MUAC 6002, or MUAC 6101 and MUAC 6102.

### **MUAC 6101 - Techniques of Instrumental Accompanying**

*Credits: 1*

Required of Artist Certificate pianists to acquaint them with the various skills associated with accompanying, and to familiarize them with some of the instrumental repertoire.

### **MUAC 6102 - Techniques of Vocal Accompanying**

*Credits: 1*

Required of Artist Certificate pianists to acquaint them with the various skills associated with accompanying, and to familiarize them with some of the vocal repertoire.

### **MUAC 6103 - Practicum in Collaborative Performance**

*Credits: 1*

Practical application of accompanying skills through studio assignments and performance. Prerequisites: MUAC 6001, MUAC 6002 or MUAC 6101, MUAC 6102.

## **Music Arts and Skills Courses**

### **MUAS 5145 - Overview of Piano Technology**

*Credits: 1*

An overview of the history and development of the piano, grand and upright construction and regulation, tuning,

temperament, and relationships with technicians and retailers. Hands-on instruction in tuning techniques includes unison and octave tuning.

### **MUAS 5146 - Upper String Techniques**

*Credits: 1*

Basic principles involved in playing and teaching violin and viola. Reserved for music majors and minors.

### **MUAS 5147 - Lower String Techniques**

*Credits: 1*

Basic principles involved in playing and teaching cello and bass. Reserved for music majors and minors.

### **MUAS 5148 - Single Reed and Flute Techniques**

*Credits: 1*

Basic principles involved in playing and teaching single reed and flute instruments. Reserved for music majors and minors.

### **MUAS 5149 - Double Reed Techniques**

*Credits: 1*

Basic principles involved in playing and teaching double reed instruments. Reserved for music majors and minors.

### **MUAS 5150 - Low Brass Techniques**

*Credits: 1*

Basic principles involved in playing and teaching low brass. Reserved for music majors and minors.

### **MUAS 5151 - High Brass Techniques**

*Credits: 1*

Basic principles involved in playing and teaching upper brass. Reserved for music majors and minors.

### **MUAS 5152 - Percussion Techniques**

*Credits: 1*

Basic principles involved in playing and teaching percussion. Reserved for music majors and minors.

### **MUAS 5153 - Vocal Techniques**

*Credits: 1*

Basic principles involved in singing and teaching voice. Reserved for music majors and minors.

### **MUAS 5154 - Marching Band Techniques**

*Credits: 1*

(fall term of even-numbered years) Provides music education students with opportunities to learn skills and techniques involved in marching band.

### **MUAS 5155 - Jazz Techniques**

*Credits: 1*

(fall term of even-numbered years) Introduces jazz pedagogy, with an emphasis on improv.

### **MUAS 5310 - Directed Study in Music Skills**

*Credits: 3*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

## **MUAS 5320 - Recording Technology**

*Credits: 3*

A comparison of approaches to music recording in all forms of mass media. Includes demonstrations of studio equipment and digital recording and editing.

## **MUAS 5322 - Analysis of Music Production**

*Credits: 3*

Students gain a basic yet broad understanding of the function of a music producer in both artistic and music business environments, and of the process through which any musical work is produced as a live performance or recording. The role of the music producer is concentric to all decisions in recording and defining artistic endeavors. Whether working with a director in producing music for a film score, collaborating with a songwriter to define an expression, working with a composer to achieve an artistic vision, or understanding how an advertising agency needs musical help in order to sell a product, the producer must be able to coordinate the procedure with the vision. Even when the producer is also the artist, composer, recording engineer, and financier, he/she must step outside of all other roles to plan how the end result can best be achieved.

## **MUAS 5323 - Music Production Practices**

*Credits: 3*

Students create recording projects in a wide range of areas, including artist recordings in a variety of musical genres, film scoring, and TV/Radio commercials. Prerequisite: MUAS 5322.

## **MUAS 6010 - Music Engagement**

*Credits: 0*

Registration in this course supports the activities of the Music Division. Students are encouraged to take advantage of the opportunities for performance, master classes, and community engagement. Students may also be called upon to serve as ambassadors of the division for prospective students. Required of all music majors each term in residence.

## **MUAS 6020 - Language Skills**

*Credits: 0*

Instruction in the English language for Performer's Diploma program and Artist Diploma program students who have not passed the TOEFL English language proficiency exam.

# **Conducting Courses**

## **MUCO 5210 - Choral Conducting Practicum**

*Credits: 2*

Stresses development of rehearsal techniques in a laboratory setting. Students choose, prepare, and rehearse music with other students in class to develop skills in error detection, rehearsal pacing, sequencing, and ordering of music for optimum rehearsals. Prerequisite: MUCO 3208 or equivalent.

## **MUCO 5309 - Advanced Instrumental Conducting**

*Credits: 3*

Stylistic analysis of a range of large ensemble repertoire, with emphasis on historical context, performance practice, interpretive issues, performance techniques, and conducting problems. Also, the study of baton and rehearsal technique.

## **MUCO 6184 - Directed Study in Conducting**

*Credits: 1*

Individual technical development and score preparation for the advanced conductor. Prerequisite: Approval of instructor.

### **MUCO 6189 - Conducting Practicum**

*Credits: 1*

Preparation and public performance of instrumental or choral ensemble.

### **MUCO 6200 - Applied Study in Conducting**

*Credits: 2*

Private lessons for conducting majors. Study of historical context, performing practice, interpretive issues, performance techniques, kinetic control, conducting problems, and rehearsal techniques.

### **MUCO 6209 - Choral Conducting II**

*Credits: 2*

Further development of conducting techniques as they apply to a variety of repertoires. Also, study and application of rehearsal techniques, and application of vocal and choral techniques.

### **MUCO 6210 - Seminar: Major Choral Works**

*Credits: 2*

(fall term of even-numbered years) An in-depth study of selected choral works.

### **MUCO 6211 - Instrumental Techniques for Choral Conductors**

*Credits: 2*

A study of the performance techniques of string, woodwind, brass, and percussion instruments in works for chorus and orchestra. Includes a comprehensive concentration on bowing techniques and methodologies, transposition, and historical perspective.

### **MUCO 6212 - Choral/Vocal Techniques for The Instrumental Conductor**

*Credits: 2*

(fall term of odd-numbered years) Develops a functional knowledge of choral singing and vocal production through the study and performance of works from the choral and operatic repertory.

### **MUCO 6252 - Vocal and Choral Techniques**

*Credits: 2*

A study of all aspects of the choral rehearsal. Topics include development of choral tone; study of the changing voice; and laboratory conducting projects on a variety of choral rehearsal techniques.

### **MUCO 6284 - Directed Study in Conducting**

*Credits: 2*

Individual technical development and score preparation for the advanced conductor. Prerequisite: Approval of instructor.

### **MUCO 6289 - Conducting Practicum**

*Credits: 2*

Preparation of instrumental and/or choral ensemble for public performance.

### **MUCO 6307 - Choral Conducting I**

*Credits: 3*

Continued development and refinement for choral conducting techniques.

### **MUCO 6384 - Directed Study in Conducting**

*Credits: 3*

Individual technical development and score preparation for the advanced conductor. Prerequisite: Approval of instructor.

## **Music Education Courses**

### **MUED 5115 - Methods and Materials: Church**

*Credits: 1*

(spring term of odd-numbered years) the principles and practices of music education useful to church music professionals and others who may be interested in church work.

### **MUED 5147 - Workshop in Music Education**

*Credits: 1*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 5149 - Workshop in Music Education**

*Credits: 1*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 5150 - Workshop in Music Education**

*Credits: 1*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 5151 - Workshop in Music Education**

*Credits: 1*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 5152 - Workshop in Music Education**

*Credits: 1*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 5153 - Workshop in Music Education**

*Credits: 1*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 5154 - Workshop in Music Education**

*Credits: 1*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 5250 - Workshop in Music Education**

*Credits: 2*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 5251 - Workshop in Music Education**

*Credits: 2*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 5252 - Wind Literature For the Secondary School**

*Credits: 2*

(fall term of odd-numbered years) Survey of new and standard literature suitable for secondary school students. Examines music for instrumental solo, ensemble, band, and orchestra.

### **MUED 5253 - Vocal and Choral Literature For the Secondary School**

*Credits: 2*

(fall term of odd-numbered years) Survey of new and standard vocal solo, ensemble, and choral literature suitable for the secondary school.

### **MUED 5254 - Workshop in Music Education**

*Credits: 2*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 5255 - Workshop in Music Education**

*Credits: 2*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 5257 - Computer Applications For Music Education**

*Credits: 2*

Investigates the potential for computer use in music education, including computer-assisted instruction, information storage and retrieval, book and record keeping, and specialized uses such as computer-assisted management of schools of music. Also, the development of basic techniques for designing and implementing such uses.

### **MUED 5350 - Workshop in Music Education**

*Credits: 3*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 5351 - Workshop in Music Education**

*Credits: 3*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 5352 - Workshop in Music Education**

*Credits: 3*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 5354 - Workshop in Music Education**

*Credits: 3*

A brief, intensive study of a focused topic in music education, including Orff, Kodály, Dalcroze, and other methodologies.

### **MUED 6109 - Elementary Music Practicum**

*Credits: 1*

Focuses on crafting and teaching mini lessons for peers in the college classroom and for area public school classrooms. Uses video camera extensively for accurate feedback. Restricted to music majors and minors.

### **MUED 6110 - Choral Conducting Practicum**

*Credits: 1*

Stresses development of rehearsal techniques in a laboratory setting. Students choose, prepare, and rehearse music with other students in class to develop skills in error detection, rehearsal pacing, sequencing, and ordering of music for optimum rehearsals. Restricted to music majors and minors.

### **MUED 6111 - Instrumental Conducting Practicum**

*Credits: 1*

Stresses development of rehearsal techniques in a laboratory setting. Students prepare and rehearse music in sectional and full-ensemble settings to develop skills in error detection, rehearsal pacing, sequencing, and ordering of music for optimal rehearsals. Restricted to music majors and minors.

### **MUED 6130 - Elementary Music Methods and Materials**

*Credits: 1*

An investigation of major approaches for teaching elementary general music. Includes public school classroom observations. Restricted to music majors and minors.

### **MUED 6131 - Instrumental Music Education Methods and Materials**

*Credits: 1*

Covers materials for instruction, motivation, administration, class control, and performance preparation. Restricted to music majors and minors.

### **MUED 6132 - Choral Music Education Methods and Materials**

*Credits: 1*

Focuses on the art and practice of developing successful choral programs for grades five through 12. Topics include recruitment, auditions, behavior management, vocal techniques, the changing voice, choice of music, rehearsal planning, and management of nonmusical details. Includes public school observations.

### **MUED 6150 - Project in Music Education**

*Credits: 1*

Independent work on thesis or professional project.

### **MUED 6194 - Directed Studies in Music Education**

*Credits: 1*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

### **MUED 6249 - Music Education Practicum**

*Credits: 2*

Development of rehearsal techniques through preparation and public performance of an elementary or secondary school ensemble.

### **MUED 6250 - Project in Music Education**

*Credits: 2*

Independent work on thesis or professional project.

### **MUED 6260 - Orff Schulwerk Master Class**

*Credits: 2*

(summer 1 term of odd-numbered years) Designed to explore advanced techniques and teaching of the Orff Schulwerk approach. Prerequisite: MUED 6363.

### **MUED 6294 - Directed Studies in Music Education**

*Credits: 2*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

### **MUED 6310 - Music Education Methods and Materials**

*Credits: 3*

Advanced study of music education methods and materials. A specialized topic is defined for intense examination. Emphasizes the development of master teachers in specialized areas of study.

### **MUED 6320 - Motivation, Discipline, and Management**

*Credits: 3*

Techniques of classroom discipline and time management using standard behavior modification techniques.

### **MUED 6340 - Research in Music Education**

*Credits: 3*

A study of representative research approaches and methods in music education and instruction, with emphasis on research designs, methods, materials, and analysis and interpretation of research literature.

### **MUED 6350 - Project in Music Education**

*Credits: 3*

Independent work on thesis or professional project.

### **MUED 6352 - History and Philosophy of Music Education**

*Credits: 3*

Philosophical and historical foundations of music education, with implications for organization and curriculum of school music.

### **MUED 6354 - Special Topics in Music Education**

*Credits: 3*

Advanced study of current issues in music education, with specialized topic(s) defined for intensive examination. Emphasizes the practical application of research.

### **MUED 6358 - Kodály: A Historical Perspective**

*Credits: 3*

An exploration of the history, techniques, and teaching of the Kodály method, set within the context of music education and Hungarian history of the 20th century. May include a trip to the Kodály Institute in Hungary.

### **MUED 6361 - Orff Schulwerk Level I**

*Credits: 3*

This certification course, approved by the American Orff-Schulwerk Association, provides a broad spectrum of techniques, materials, theoretical training, and pedagogy, which enables students to implement the teaching of the Orff Schulwerk approach in their schools.

### **MUED 6362 - Orff Schulwerk Level II**

*Credits: 3*

This certification course, approved by the American Orff-Schulwerk Association, provides a broad spectrum of techniques, materials, theoretical training, and pedagogy, which enables students to implement the teaching of the Orff Schulwerk approach in their schools. Prerequisite: MUED 6361.

### **MUED 6363 - Orff Schulwerk Level III**

*Credits: 3*

This certification course, approved by the American Orff-Schulwerk Association, provides a broad spectrum of techniques, materials, theoretical training, and pedagogy, which enables students to implement the teaching of the Orff Schulwerk approach in their schools. Prerequisite: MUED 6362.

### **MUED 6364 - Kodály Level I**

*Credits: 3*

This certification course provides a broad spectrum of techniques, materials, theoretical training, and pedagogy, which enables students to implement the teaching of the Kodály method in their schools.

### **MUED 6365 - Kodály Level II**

*Credits: 3*

This certification course provides a broad spectrum of techniques, materials, theoretical training, and pedagogy, which enables students to implement the teaching of the Kodály method in their schools. Prerequisite: MUED 6364.

### **MUED 6366 - Kodály Level III**

*Credits: 3*

This certification course provides a broad spectrum of techniques, materials, theoretical training, and pedagogy, which enables students to implement the teaching of the Kodály method in their schools. Prerequisite: MUED 6365.

### **MUED 6394 - Directed Studies in Music Education**

*Credits: 3*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

## **Music History and Literature Courses**

### **MUHI 5206 - Performance Practicum in Early Music**

*Credits: 2*

(spring term of even-numbered years) Studies in the interpretation of Baroque music from a stylistic point of view.

### **MUHI 5207 - Organ Survey**

*Credits: 2*

Covers organ building fundamentals of construction and design and organ history as it relates to the development of a style-conscious concept of enrollment. Required of organ majors and concentrations (undergraduate). Recommended elective for the M.M. and the M.S.M. degree.

### **MUHI 6000 - Music History Review**

*Credits: 0*

A review course required of all graduate students scoring below 70 percent on the MUHI entrance assessment. Students required to take this course must complete it within their first year of enrollment in SMU courses. The course must be completed prior to enrollment in any other graduate MUHI course.

### **MUHI 6082 - Research in Music History Thesis**

*Credits: 0*

Culminating research project for music history majors. Emphasis is placed upon methodology, stylistic procedures, and writing skills. Subject determined by student's interests, background, and availability of source material.

### **MUHI 6100 - Music History Review**

*Credits: 1*

A review course required of all graduate students scoring below 70 percent on the MUHI entrance assessment. Students required to take this course must complete it within their first year of enrollment in SMU courses. The course must be completed prior to enrollment in any other graduate MUHI course.

### **MUHI 6154 - Practicum in Musicology Pedagogy**

*Credits: 1*

Teaching experience supervised by department. Students are required to attend and observe all music history survey (MUHI 3301 or 3302) class sessions during the semester, as well as sit in on two MUHI 4000 level seminars. Students deliver two lectures for the survey over the course of the semester on topics developed in consultation with the instructor. Students are expected to attend bi-weekly meetings with the MUHI faculty to discuss various topics in musicology pedagogy, including syllabus design, discussion leading, presentations, and assessment design.

Prerequisite: MUHI 6335.

### **MUHI 6182 - Research in Music History Thesis**

*Credits: 1*

Culminating research project for music history majors. Emphasis is placed upon methodology, stylistic procedures, and writing skills. Subject determined by student's interests, background, and availability of source material.

### **MUHI 6192 - Directed Studies in Music History**

*Credits: 1*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

### **MUHI 6250 - Final Project in Musicology Pedagogy**

*Credits: 2*

Independent research project in any area of musicology pedagogy (with approval of the department faculty), resulting in a 20-30 page report. Projects might include annotated syllabi and rationale for original courses, historical investigations of pedagogical techniques in musicology classrooms, or empirical studies to test novel pedagogical approaches. Prerequisite: MUHI 6335.

### **MUHI 6282 - Research in Music History Thesis**

*Credits: 2*

Culminating research project for music history majors. Emphasis is placed upon methodology, stylistic procedures, and writing skills. Subject determined by student's interests, background, and availability of source material.

### **MUHI 6292 - Directed Studies in Music History**

*Credits: 2*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

### **MUHI 6320 - Organ History and Literature**

*Credits: 3*

(spring term of even-numbered years) A survey of Renaissance to contemporary literature for the organ. Required of organ majors and concentrations. Prerequisite: MUHI 6335, or MUED 6340, or approval of instructor.

### **MUHI 6335 - Introduction to Graduate Studies**

*Credits: 3*

Introduces the methods, tools, resources, issues, and types of musical research. Emphasis is given to several major skill areas including development of research questions; information location, retrieval, evaluation, and assimilation; and communication (both written and oral) to different types of audiences. Prerequisite: Successful completion of MUHI Diagnostic Exam or MUHI 6000/MUHI 6100.

### **MUHI 6336 - Seminar in Music History**

*Credits: 3*

Area or topic for intense examination is determined each term, with an emphasis on the practical application of research techniques, knowledge of materials and sources, and varied methods of presentation. Prerequisite: MUHI 6335, or MUED 6340, or instructor permission.

### **MUHI 6337 - Conceptual Foundations of Musicology**

*Credits: 3*

A survey of the history, central questions, and methods of musicology to be offered in the fall of odd years. Topics to be addressed include historiography, nationalism, identities, periodization, narratives, canons, hermeneutics, archival work, empirical approaches, text criticism, and semiotics. Prerequisite (for non-MUHI MM students only): MUHI 6335.

### **MUHI 6345 - Issues in Opera History**

*Credits: 3*

An exploration of cultural, historical, analytical, aesthetic, and scholarly issues related to representative operas. Addresses forms, compositional approaches, vocal writing, and orchestration, with a focus on the ways operas interact with larger cultural and historical trends around the time of their genesis and in the world today. Students are expected to demonstrate 1) an ability to understand and respond to recent and advanced scholarly writing on opera and 2) an ability to follow arguments informed by music analysis, to present analytical points deduced from listening and score study, to undertake original research on operas, and to report their research findings. Prerequisite: MUHI 6335, MUED 6340, or instructor permission.

### **MUHI 6347 - Issues in Symphonic Literature**

*Credits: 3*

An exploration of cultural, historical, analytical, aesthetic, and scholarly issues related to representative symphonic works. Addresses forms, compositional approaches, vocal writing, and orchestration, with a focus on the ways symphonic works interact with larger cultural and historical trends around the time of their genesis and in the world today. Students are expected to demonstrate 1) an ability to understand and respond to recent and advanced scholarly writing on symphonic literature and 2) an ability to follow arguments informed by music analysis, to present analytical points deduced from listening and score study, to undertake original research on symphonic works, and to report their research findings. Prerequisite: MUHI 6335, MUED 6340, or instructor permission.

### **MUHI 6348 - Guitar History and Literature**

*Credits: 3*

(spring term of odd-numbered years) The course examines the history of guitar and its music from the early 16th century to the present. Included are the vihuela and Baroque guitar, four-string Spanish guitar, and related literature. Emphasis is given to the evolution of the modern instrument and its repertoire. Prerequisite: MUHI 6335, or MUED 6340, or instructor permission.

### **MUHI 6374 - Wind Ensemble History and Literature**

*Credits: 3*

A chronological study of the development of the wind ensemble, its literature, and its socio-political influences.

Examines scores, recordings, original source materials, and scholarly research. Prerequisites: MUHI 6335 and MUED 6340, or instructor permission.

### **MUHI 6382 - Research in Music History Thesis**

*Credits: 3*

Culminating research project for music history majors. Emphasis is placed upon methodology, stylistic procedures, and writing skills. Subject determined by student's interests, background, and availability of source material.

### **MUHI 6384 - Survey of Choral Literature**

*Credits: 3*

(spring term of even-numbered years) A survey of choral music from the medieval era to the present day. Examination of representative compositions is made with regard to genre, form, compositional procedures, and stylistic aspects. Discussion of the works also includes the social-political conditions, intellectual-artistic states of mind of patrons and composers, and other external influences. Prerequisite: MUHI 6335, or MUED 6340, or instructor permission.

### **MUHI 6392 - Directed Studies in Music History**

*Credits: 3*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

### **MUHI 6482 - Research in Music History-Thesis**

*Credits: 4*

Culminating research project for music history majors. Emphasis is placed upon methodology, stylistic procedures, and writing skills. Subject determined by student's interests, background, and availability of source material.

### **MUHI 6682 - Research in Music History Thesis**

*Credits: 6*

Culminating research project for music history majors. Emphasis is placed upon methodology, stylistic procedures, and writing skills. Subject determined by student's interests, background, and availability of source material.

### **MUHI 6692 - Directed Studies in Music History**

*Credits: 6*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

## **Piano Pedagogy Courses**

### **MUPD 5103 - Creative Piano Teaching**

*Credits: 1*

Pedagogical projects designed to meet the needs of the piano teacher. Offered in conjunction with the SMU Institute for Piano Teachers in the summer of even-numbered years or the National Conference on Keyboard Pedagogy in the summer of odd-numbered years. Reserved for music majors. Pedagogy majors are limited to one credit.

### **MUPD 5196 - Directed Study in Piano Pedagogy**

*Credits: 1*

### **MUPD 5203 - Creative Piano Teaching**

*Credits: 2*

Pedagogical projects designed to meet the needs of the piano teacher. Offered in conjunction with the SMU Institute for

Piano Teachers in the summer of even-numbered years or the National Conference on Keyboard Pedagogy in the summer of odd-numbered years. Reserved for music majors. Pedagogy majors are limited to one credit.

### **MUPD 5210 - Current Trends in Piano Pedagogy**

*Credits: 2*

(spring term of even-numbered years) Students explore, through participation and observation, the psychological principles operative in group and class environments, with emphasis on teacher effectiveness. Surveys college-level keyboard texts.

### **MUPD 5312 - Survey of Precollege Piano Literature**

*Credits: 3*

(spring term of odd-numbered years) Survey and performance of standard piano literature in all style periods for precollege students. Emphasis on technical preparation and curriculum-building.

### **MUPD 5325 - Piano Pedagogy Internship I**

*Credits: 3*

Supervised teaching experience; specific goals and projects are agreed upon for the term. Required of all undergraduate piano majors with an emphasis in piano pedagogy performance.

### **MUPD 5326 - Piano Pedagogy Internship II**

*Credits: 3*

Supervised teaching experience; specific goals and projects are agreed upon for the term. Required of all undergraduate piano majors with an emphasis in piano pedagogy performance.

### **MUPD 6021 - Internship/Assistantship in Piano Pedagogy**

*Credits: 0*

Required for all graduate assistants in piano pedagogy; 15 hours per week as assigned by the department head. Supervised private and group instruction of children in the Piano Preparatory Department and class piano for undergraduate students as assigned. Includes observation, preteaching conferences with faculty, and participation in all phases of departmental activity.

### **MUPD 6022 - Internship/Assistantship in Piano Pedagogy**

*Credits: 0*

Required for all graduate assistants in piano pedagogy; 15 hours per week as assigned by the department head. Supervised private and group instruction of children in the Piano Preparatory Department and class piano for undergraduate students as assigned. Includes observation, preteaching conferences with faculty, and participation in all phases of departmental activity.

### **MUPD 6121 - Internship/Assistantship in Piano Pedagogy**

*Credits: 1*

Required for all graduate assistants in piano pedagogy; 15 hours per week as assigned by the department head. Supervised private and group instruction of children in the Piano Preparatory Department and class piano for undergraduate students as assigned. Includes observation, preteaching conferences with faculty, and participation in all phases of departmental activity.

### **MUPD 6122 - Internship/Assistantship in Piano Pedagogy**

*Credits: 1*

Required for all graduate assistants in piano pedagogy; 15 hours per week as assigned by the department head. Supervised private and group instruction of children in the Piano Preparatory Department and class piano for undergraduate students as assigned. Includes observation, preteaching conferences with faculty, and participation in all phases of departmental activity.

### **MUPD 6125 - Piano Pedagogy Practicum**

*Credits: 1*

Specific supervised teaching and/or research projects as designed for the term.

### **MUPD 6130 - Composition of Pedagogical Music for Keyboard**

*Credits: 1*

(spring term of odd-numbered years) Development of skills in composition of pedagogically effective keyboard literature. The student becomes familiar with a wide gamut of supplementary teaching materials, which are examined from a pianistic and musical perspective with reference to the various levels of instruction. Directed composition assignments, survey projects, class performance, analysis, and discussion. Students take 1 or 2 credit hours (MUPD 6130 or MUPD 6230) based on projects undertaken. Prerequisite: Successful completion of the Graduate Music Theory Diagnostic Examination or Graduate Theory Review.

### **MUPD 6196 - Directed Studies in Piano Pedagogy**

*Credits: 1*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

### **MUPD 6230 - Composition of Pedagogical Music for Keyboard**

*Credits: 2*

(spring term of odd-numbered years) Development of skills in composition of pedagogically effective keyboard literature. The student becomes familiar with a wide gamut of supplementary teaching materials, which are examined from a pianistic and musical perspective with reference to the various levels of instruction. Directed composition assignments, survey projects, class performance, analysis, and discussion. Students take 1 or 2 credit hours (MUPD 6130 or 6230) based on projects undertaken. Prerequisite: Successful completion of the Graduate Music Theory Diagnostic Examination or Graduate Theory Review.

### **MUPD 6296 - Directed Studies in Piano Pedagogy**

*Credits: 2*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

### **MUPD 6396 - Piano Pedagogy I**

*Credits: 3*

(fall term of even-numbered years) An in-depth study of methods and curriculum for teaching piano at the elementary level. Focus on philosophical, psychological, and physiological bases of piano study. Survey and evaluation of current educational materials.

### **MUPD 6397 - Piano Pedagogy II**

*Credits: 3*

(fall term of odd-numbered years) In-depth study of methods, materials, and curriculum for teaching piano at the intermediate and advanced levels. Also, current trends (including technology), professionalism, history of piano pedagogy, and employment opportunities.

## **Recitals Courses**

### **MURE 6001 - Graduate Recital**

*Credits: 0*

Solo performance of approximately 1 hour of music. Graded pass/fail by committee.

### **MURE 6002 - Graduate Recital**

*Credits: 0*

Solo performance of approximately 1 hour of music. Graded pass/fail by committee.

### **MURE 6101 - Graduate Recital**

*Credits: 1*

Solo performance of approximately 1 hour of music. Graded pass/fail by committee.

### **MURE 6102 - Graduate Recital**

*Credits: 1*

Solo performance of approximately 1 hour of music. Graded pass/fail by committee.

### **MURE 6103 - Graduate Recital**

*Credits: 1*

Solo performance of approximately 1 hour of music. Graded pass/fail by committee.

### **MURE 6104 - Graduate Recital**

*Credits: 1*

Solo performance of approximately 1 hour of music. Graded pass/fail by committee.

### **MURE 6201 - Graduate Recital**

*Credits: 2*

Solo performance of approximately one hour of music. Graded pass/fail by committee.

### **MURE 6202 - Graduate Lecture Recital**

*Credits: 2*

Option for piano performance and pedagogy candidates. Approximately 30 minutes of music performance with 30 minutes of scholarly presentations as approved by applied teacher and head of piano pedagogy. Graded pass/fail by committee.

## **Music Composition and Theory Courses**

### **MUTH 5000 - Composition Seminar**

*Credits: 0*

Topics of common interest to all composers are presented and discussed by composition faculty, current students, and guest artists. Required each term of composition study.

### **MUTH 5010 - Keyboard Skills**

*Credits: 0*

Applies the student's knowledge of music theory to practical keyboard musicianship and explores core principles of keyboard improvisation. Prerequisites: MUTH 2130, 2230 and PERB 2132, or permission of instructor.

### **MUTH 5110 - Keyboard Skills**

*Credits: 1*

Applies the student's knowledge of music theory to practical keyboard musicianship and explores core principles of keyboard improvisation. Prerequisites: MUTH 2130, 2230 and PERB 2132, or permission of instructor.

### **MUTH 5130 - Collaborative Composition**

*Credits: 1*

Students collaborate with artists in other disciplines on composition projects. Meadows disciplines rotate periodically.

### **MUTH 5150 - Advanced Musicianship**

*Credits: 1*

Develops musicianship skills beyond the level attained in the undergraduate core musicianship courses. Includes sight reading and improvisation studies in a range of musical styles for both voice and instruments, advanced melodic and harmonic dictation exercises, aural analysis of musical examples from a wide range of style periods, and the use of the keyboard to support the continued development of skills. Repeatable for credit. Instructor consent required.

Prerequisites: MUTH 2130, MUTH 2230 for undergraduate students, or a passing score for the Graduate Music Theory Diagnostic Exam or for MUTH 6023, MUTH 6124, and MUTH 6125 for graduate students.

### **MUTH 5250 - Advanced Musicianship**

*Credits: 2*

Develops musicianship skills beyond the level attained in the undergraduate core musicianship courses. Includes sight reading and improvisation studies in a range of musical styles for both voice and instruments, advanced melodic and harmonic dictation exercises, aural analysis of musical examples from a wide range of style periods, and the use of the keyboard to support the continued development of skills. Repeatable for credit. Instructor consent required.

Prerequisites: MUTH 2130, MUTH 2230 for undergraduate students, or a passing score for the Graduate Music Theory Diagnostic Exam or for MUTH 6023, MUTH 6124, and MUTH 6125 for graduate students.

### **MUTH 5325 - Class Composition**

*Credits: 3*

A composition course for noncomposition majors. Topics include notational practices; contemporary and traditional approaches to composition through study of model works from the literature; in-class presentation, reading, and critique of projects; and professional standards for the creation and distribution of scores, parts, and recordings of compositions and arrangements. Prerequisites: MUTH 2130, MUTH 2230 or permission of instructor. Restricted to music majors.

### **MUTH 5330 - Instrumentation and Arranging**

*Credits: 3*

An overview of the ranges and performing characteristics of orchestral and band instruments and vocalists, with practical application via scoring and arranging for a variety of small instrumental and vocal ensembles. Prerequisites: MUTH 2130, MUTH 2230.

### **MUTH 5360 - Advanced Orchestration**

*Credits: 3*

Explores advanced techniques of orchestration through a series of scoring projects for a variety of ensembles.

Prerequisite: MUTH 5330 or permission of instructor.

### **MUTH 5370 - Survey of Counterpoint**

*Credits: 3*

Through exercises in analysis and composition, this course provides a study of contrapuntal techniques from the Middle Ages to the 20th century, with emphasis on traditional modal and tonal styles. Prerequisites: MUTH 2130, MUTH 2230.

### **MUTH 6000 - Graduate Theory Review**

*Credits: 0*

Intensive remedial work in aural perception and/or music theory based on the results of the Graduate Music Theory Diagnostic Examination.

### **MUTH 6081 - Thesis in Composition**

*Credits: 0*

Culminating research/creative project for music composition majors. Prerequisite: Permission of instructor.

### **MUTH 6100 - Graduate Theory Review**

*Credits: 1*

Intensive remedial work in aural perception and/or music theory based on the results of the Graduate Music Theory Diagnostic Examination.

### **MUTH 6120 - Advanced Composition**

*Credits: 1*

Individual study with the composition faculty and regularly scheduled seminars with faculty and visiting guests for students with atypical degree plans. Prerequisites: Permission of instructor and departmental approval.

### **MUTH 6156 - Practicum in Theory Pedagogy**

*Credits: 1*

Teaching experience supervised by department faculty. Prerequisite: MUTH 6355.

### **MUTH 6184 - Directed Studies in Theory**

*Credits: 1*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

### **MUTH 6190 - Directed Studies in Composition**

*Credits: 1*

Composition projects under the direction of faculty. Prerequisite: Approval of instructor.

### **MUTH 6220 - Advanced Composition**

*Credits: 2*

Individual study with the composition faculty and regularly scheduled seminars with faculty and visiting guests for students with atypical degree plans. Prerequisites: Permission of instructor and departmental approval.

### **MUTH 6250 - Final Project in Theory Pedagogy**

*Credits: 2*

Independent research project in an area of theory pedagogy. Topic must be approved by department faculty. Prerequisite: MUTH 6355.

### **MUTH 6281 - Thesis in Composition**

*Credits: 2*

Culminating research/creative project for music composition majors. Prerequisite: Permission of instructor.

### **MUTH 6284 - Directed Studies in Theory**

*Credits: 2*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

### **MUTH 6290 - Directed Studies in Composition**

*Credits: 2*

Composition projects under the direction of faculty. Prerequisite: Approval of instructor.

### **MUTH 6300 - Analysis of Contemporary Music**

*Credits: 3*

Detailed analysis of recent music written in a variety of styles and using diverse techniques. The course also explores early 20th-century antecedents of more recent music. Analysis and discussion are supported by readings from theoretical articles and composers' writings. Prerequisite: Successful completion of the Graduate Music Theory Diagnostic Examination or Graduate Theory Review.

### **MUTH 6310 - Introduction to Electro-Acoustic Music**

*Credits: 3*

Covers historical and emerging concepts and techniques of composing, performing, and listening to fixed and interactive electro-acoustic music via lectures and laboratory projects. Topics include basic acoustics; hardware and software tools for the generation, processing, and reproduction of musical sound; and the history and literature of electronically generated music. Students complete individual and collaborative projects applying their studies to the recording, creation, and performance of fixed and real-time interactive creative projects. Prerequisite: Approval of instructor.

### **MUTH 6311 - Advanced Topics in Music Technology**

*Credits: 3*

Advanced investigation into topics in electro-acoustic music and technology-related art forms. Topics are announced each term the course is offered and may include film music, MIDIstration, real-time interactive performance using Max/MSP/Jitter, algorithmic composition, and technology-related interdisciplinary collaboration. Repeatable. Prerequisite: MUTH 6310 or approval of instructor.

### **MUTH 6320 - Advanced Composition**

*Credits: 3*

Individual study with the composition faculty and regularly scheduled seminars with faculty and visiting guests. Prerequisite: Permission of instructor.

### **MUTH 6326 - Seminar in Music Analysis**

*Credits: 3*

A study of analytical methods applicable to music from a specific repertoire to be determined with each course offering. Offered irregularly. Prerequisite: Successful completion of the theory portions of the Graduate Music Diagnostic Examination or Graduate Theory Review.

### **MUTH 6330 - Analytical Techniques**

*Credits: 3*

A survey of analytical methods applicable to music from a wide range of style periods. Prerequisite: Successful completion of the Graduate Music Theory Diagnostic Examination or Graduate Theory Review.

### **MUTH 6355 - Pedagogy of Theory**

*Credits: 3*

Exploration of philosophies and methods, review of materials and resources available to the theory instructor, curriculum and syllabus design, practice teaching experience. Prerequisites: Successful completion of the Graduate Music Theory Diagnostic Examination or Graduate Theory Review; EDU 6322 or substitute; or permission of instructor.

### **MUTH 6360 - Analysis of Tonal Music**

*Credits: 3*

The study of harmony, voice leading, and form with techniques of reduction in music of the Baroque, Classical, and Romantic periods. Applications of theoretical ideas to performance and pedagogy are also discussed. Prerequisite: Successful completion of the Graduate Music Theory Diagnostic Examination or Graduate Theory Review.

## **MUTH 6384 - Directed Studies in Theory**

*Credits: 3*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

## **MUTH 6390 - Directed Studies in Composition**

*Credits: 3*

Composition projects under the direction of faculty. Prerequisite: Approval of instructor.

## **Oboe Courses**

### **OBOE 6100 - Private Study: Oboe**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **OBOE 6200 - Private Study: Oboe**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Organ Courses**

### **ORG 6100 - Private Study: Organ**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **ORG 6105 - Organ Improvisation**

*Credits: 1*

Development of organ improvisation skills including introduction to Baroque counterpoint, figured bass, harmonizations, sequences, cantus firmus techniques, and other styles of improvisation. Permission of organ professor required.

### **ORG 6200 - Private Study: Organ**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **ORG 6205 - Organ Improvisation**

*Credits: 2*

Development of organ improvisation skills including introduction to Baroque counterpoint, figured bass,

harmonizations, sequences, cantus firmus techniques, and other styles of improvisation. Permission of organ professor required.

## **Class Instruction for Performance Courses**

### **PERB 5006 - Singers' Diction Review**

*Credits: 0*

A review course required of all students not passing an entrance assessment for proficiency in the pronunciation of Italian, French, and German.

### **PERB 5011 - Directed Studies in Performance**

*Credits: 0*

Directed studies or approved internships in performance or pedagogy. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **PERB 5019 - Music Theatre Workshop**

*Credits: 0*

Preparation and performance of musical theatre as an American art form. Prerequisite: By audition.

### **PERB 5022 - Music Theatre Acting and Performance**

*Credits: 0*

Fundamentals of acting in musical theatre: script analysis, blocking, character development, and scene study. Introduces musical theatre movement and audition techniques. Culminates with a series of performed musical scenes. Prerequisite: By audition.

### **PERB 5101 - Directed Studies in Voice**

*Credits: 1*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

### **PERB 5107 - Keyboard Skills for Conductors I**

*Credits: 1*

Keyboard competencies for conductors, including basic technical patterns, harmonization, and relevant score reading. Review course for the M.S.M. and the M.M. in conducting keyboard proficiency requirement.

### **PERB 5108 - Keyboard Skills for Conductors II**

*Credits: 1*

Advanced keyboard competencies for conductors, including basic technical patterns, harmonization, and relevant score reading. Review course for the M.S.M. and the M.M. in conducting keyboard proficiency requirement.

### **PERB 5111 - Directed Studies in Performance**

*Credits: 1*

Directed studies or approved internships in performance or pedagogy. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **PERB 5118 - Introduction to the Harpsichord**

*Credits: 1*

(spring term of odd-numbered years) Presents a variety of topics related to the harpsichord and its music. Provides

keyboard musicians, especially pianists, with knowledge and practical experience at the harpsichord to enable them to face future contacts with the instrument in a more informed, confident, and artistic manner.

### **PERB 5119 - Music Theatre Workshop**

*Credits: 1*

Preparation and performance of musical theatre as an American art form. Prerequisite: By audition.

### **PERB 5122 - Music Theatre Acting and Performance**

*Credits: 1*

Fundamentals of acting in musical theatre: script analysis, blocking, character development, and scene study. Introduces musical theatre movement and audition techniques. Culminates with a series of performed musical scenes. Prerequisite: By audition.

### **PERB 5170 - Chamber Music Workshop**

*Credits: 1*

Focuses on a specific work or cycle of works from the chamber music repertory and includes regular rehearsals led by the instructor. Students discuss the historical background and performance practices related to the work(s) as well as engage in the analysis of musical structure and style. Instructor consent required.

### **PERB 5201 - Directed Studies in Voice**

*Credits: 2*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

### **PERB 5208 - Advanced Acting for Voice Majors**

*Credits: 2*

Acting and performance tools, character development, monologue study, and repertoire preparation and research. Prerequisites: Concurrent enrollment in VOIC and consent of instructor.

### **PERB 5211 - Directed Studies in Music Performance**

*Credits: 2*

Directed studies or approved internships in performance or pedagogy. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **PERB 5213 - Studies Continuo Playing**

*Credits: 2*

(fall term of even-numbered years) Designed for the harpsichord major, to fill the need for a well-developed skill in playing Baroque through bass accompaniments from an unrealized figured bass and/or from an unfigured bass with style performance suitable to the period.

### **PERB 5215 - Introduction to Jazz Theory and Improvisation**

*Credits: 2*

Introduces jazz improvisation through applied theory. Students gain theoretical and practical experience in jazz improvisation using common jazz chord progressions and chord and scale relationships. Includes the study of jazz recordings to explore and understand the links among chords, scales, and melodies. May be repeated for credit. Prerequisite: Music major or minor, or instructor consent.

### **PERB 5319 - Music Theatre Workshop**

*Credits: 3*

Preparation and performance of musical theatre as an American art form. Prerequisite: By audition.

### **PERB 6001 - Departmental Performance Class**

*Credits: 0*

Departmental recitals, performance classes, master classes, guest artist performances, and lectures related to performance specialization. Students enroll concurrently with studies in applied music.

### **PERB 6009 - Program Notes**

*Credits: 0*

Research for and preparation of program notes for required M.M. degree recitals following specified departmental requirements and timelines.

### **PERB 6101 - Directed Studies in Voice**

*Credits: 1*

A close collaboration between a faculty member and an advanced student who conducts a rigorous project that goes beyond the experience available in current course offerings. Prerequisite: Approval of instructor.

### **PERB 6111 - Introduction to the Organ**

*Credits: 1*

(fall term of even-numbered years) A practical initiation to the organ: its design, sound, liturgical functions, and musical capabilities. A hands-on introduction to organ playing technique, easy literature, and simple hymn-playing. Primarily for students in the choral/vocal track of the M.S.M. program, with others admitted by permission of the instructor.

### **PERB 6112 - Piano Improvisation**

*Credits: 1*

(spring term of even-numbered years) Designed to provide the graduate-level student with a pedagogical and musical approach to a fascinating skill. Through class participation and group interaction, students develop their creative capabilities. In addition to developing skill at improvising, students sharpen their skill at harmonizing, transposing, sight-reading, and playing by ear.

### **PERB 6113 - Advanced Piano Improvisation**

*Credits: 1*

Refinement and further development of improvisation skills.

### **PERB 6212 - Organ Improvisation and Service Playing**

*Credits: 2*

(spring term of odd-numbered years) Practical skills for the church organist; hymn-playing, transposition, and anthem accompaniment; and hymn-based improvisations in the small forms.

### **PERB 6213 - Advanced Organ Improvisation**

*Credits: 2*

(fall term of even-numbered years) Development of keyboard and musical skills for hymn-based and free improvisation in various forms. Prerequisite: PERB 6212 or permission of instructor.

## **Percussion Courses**

### **PERC 6100 - Private Study: Percussion**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **PERC 6200 - Private Study: Percussion**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Performance Ensembles Courses**

### **PERE 5010 - Point: Interdisciplinary Project and Performance Ensemble**

*Credits: 0*

An interdisciplinary ensemble for inventive artists of all interests, exploring the future of personal expression through collaborative projects and performances. Innovative technologies are utilized and created. Open to all SMU students with instructor consent. May be repeated for credit.

### **PERE 5011 - Mustang Strings: An SMU Campus Orchestra**

*Credits: 0*

Open to all students and community members. Does not meet the large ensemble requirement for music majors. Prerequisite: Audition or permission of instructor.

### **PERE 5012 - Mustang Marching Band**

*Credits: 0*

Preparation and performance of music for field performances.

### **PERE 5013 - Meadows Chorale**

*Credits: 0*

This large mixed choir is open through audition to all undergraduate and graduate students, regardless of major. Fulfills large ensemble requirements for Music Division degree programs.

### **PERE 5014 - Meadows Chamber Singers**

*Credits: 0*

A select vocal ensemble comprised of the most advanced vocal talent in the university; open through audition to all undergraduate and graduate students, regardless of major. Fulfills large ensemble requirements for Music Division degree programs.

### **PERE 5015 - Meadows Jazz Orchestra**

*Credits: 0*

Rehearsal and performance of standard and original works for jazz ensembles. By audition.

### **PERE 5016 - Diva Dolce**

*Credits: 0*

A treble choir that performs an eclectic mix of repertoire from chamber works to opera excerpts to standard choral

works. Open to all female students (regardless of major) through audition. Fulfills large ensemble requirements for Music Division degree programs.

### **PERE 5017 - SMU Symphony Band**

*Credits: 0*

Open to all students and community members. Provides a concert band experience exploring band music ranging from transcriptions to original works. Does not meet the large ensemble requirement for music majors. Prerequisite: Audition or permission of instructor.

### **PERE 5018 - Meadows Symphony Orchestra**

*Credits: 0*

Open to all students through audition, although most participants are music majors. Includes public performances of a wide variety of orchestral repertoire each season.

### **PERE 5019 - Meadows Wind Ensemble**

*Credits: 0*

Open to all students through audition, although most participants are music majors or minors. Includes performance of a wide variety of literature that encompasses the symphonic band and wind orchestra idioms.

### **PERE 5021 - Meadows World Music Ensemble**

*Credits: 0*

Exploration of rhythms, melodies, forms, and basic ethnic percussion techniques from Africa, Asia, Latin America, and a variety of cultures. Includes composition, improvisation, and performances within forms of ethnic traditions adapted to Western instruments. Prerequisite: Music major or consent of instructor.

### **PERE 5022 - Meadows Opera Ensemble**

*Credits: 0*

Musical preparation, dramatic coaching, role study, rehearsal, and performance of opera (one-act operas and opera excerpts) and scenes from musical theatre. Eligibility, by audition, for the annual main stage production. Prerequisites: By audition. Requires two consecutive terms of PERB 2017 or PERB 2117, or consent of instructor.

### **PERE 5023 - Directed Studies in Chamber Music**

*Credits: 0*

Preparation and performance of repertoire for various ensembles of three to nine mixed instruments, one to a part, without conductor. Reserved for projects that exceed the standard chamber music requirements.

### **PERE 5025 - Jazz Combo Performance Workshop**

*Credits: 0*

Preparation and performance of jazz repertoire in small-group settings developing improvisation and fake book reading skills and gig protocol. Does not fulfill ensemble requirements for music majors. Prerequisite: Audition or consent of instructor.

### **PERE 5030 - Meadows Guitar Ensemble**

*Credits: 0*

Preparation and performance of guitar ensemble literature. Prerequisite: Guitar major or consent of instructor.

### **PERE 5068 - Chamber Ensemble: Piano Duos**

*Credits: 0*

Preparation and performance of piano duets for one piano, four hands and two pianos, four hands. Does not fulfill chamber music requirements for music majors.

### **PERE 5069 - Chamber Ensemble: Sonatas**

*Credits: 0*

Preparation and performance of repertoire for one instrument and piano. With adviser approval, one term may be counted toward chamber music requirements for undergraduate piano majors. Does not fulfill chamber music requirements for graduate students.

### **PERE 5071 - Chamber Ensemble**

*Credits: 0*

Preparation and performance of repertoire for various ensembles of three to nine mixed instruments, one to a part, without conductor.

### **PERE 5072 - Additional Chamber Ensemble**

*Credits: 0*

Preparation and performance of repertoire for various ensembles of three to nine mixed instruments, one to a part, without conductor. Requires simultaneous participation in at least one additional chamber ensemble.

### **PERE 5073 - Meadows Percussion Ensemble**

*Credits: 0*

Rehearsal and performance of standard percussion ensemble literature. By audition.

### **PERE 5077 - Syzygy Contemporary Chamber Ensemble**

*Credits: 0*

Preparation and performance of the music of living and local composers as well as seminal works of the 20th century for various mixed ensembles, typically without conductor. Fulfills one term of chamber music requirement.

Prerequisite: Audition or consent of instructor.

### **PERE 5110 - Point: Interdisciplinary Project and Performance Ensemble**

*Credits: 1*

An interdisciplinary ensemble for inventive artists of all interests, exploring the future of personal expression through collaborative projects and performances. Innovative technologies are utilized and created. Open to all SMU students with instructor consent. May be repeated for credit.

### **PERE 5111 - Mustang Strings: An SMU Campus Orchestra**

*Credits: 1*

Open to all students and community members. Does not meet the large ensemble requirement for music majors.

Prerequisite: Audition or permission of instructor.

### **PERE 5112 - Mustang Marching Band**

*Credits: 1*

Preparation and performance of music for field performances.

### **PERE 5113 - Meadows Chorale**

*Credits: 1*

This large mixed choir is open through audition to all undergraduate and graduate students, regardless of major. Fulfills large ensemble requirements for Music Division degree programs.

### **PERE 5114 - Meadows Chamber Singers**

*Credits: 1*

A select vocal ensemble comprised of the most advanced vocal talent in the university; open through audition to all

undergraduate and graduate students, regardless of major. Fulfills large ensemble requirements for Music Division degree programs.

### **PERE 5115 - Meadows Jazz Orchestra**

*Credits: 1*

Rehearsal and performance of standard and original works for jazz ensembles. By audition.

### **PERE 5116 - Diva Dolce**

*Credits: 1*

A treble choir that performs an eclectic mix of repertoire from chamber works to opera excerpts to standard choral works. Open to all female students (regardless of major) through audition. Fulfills large ensemble requirements for Music Division degree programs.

### **PERE 5117 - SMU Symphony Band**

*Credits: 1*

Open to all students and community members. Provides a concert band experience exploring band music ranging from transcriptions to original works. Does not meet the large ensemble requirement for music majors. Prerequisite: Audition or permission of instructor.

### **PERE 5118 - Meadows Symphony Orchestra**

*Credits: 1*

Open to all students through audition, although most participants are music majors. Includes public performances of a wide variety of orchestral repertoire each season.

### **PERE 5119 - Meadows Wind Ensemble**

*Credits: 1*

Open to all students through audition, although most participants are music majors or minors. Includes performance of a wide variety of literature that encompasses the symphonic band and wind orchestra idioms.

### **PERE 5121 - Meadows World Music Ensemble**

*Credits: 1*

Exploration of rhythms, melodies, forms, and basic ethnic percussion techniques from Africa, Asia, Latin America, and a variety of cultures. Includes composition, improvisation, and performances within forms of ethnic traditions adapted to Western instruments. Prerequisite: Music major or consent of instructor.

### **PERE 5122 - Meadows Opera Ensemble**

*Credits: 1*

Musical preparation, dramatic coaching, role study, rehearsal, and performance of opera (one-act operas and opera excerpts) and scenes from musical theatre. Eligibility, by audition, for the annual main stage production. Prerequisites: By audition. Requires two consecutive terms of PERB 2017 or PERB 2117, or consent of instructor.

### **PERE 5123 - Directed Studies in Chamber Music**

*Credits: 1*

Preparation and performance of repertoire for various ensembles of three to nine mixed instruments, one to a part, without conductor. Reserved for projects that exceed the standard chamber music requirements.

### **PERE 5125 - Jazz Combo Performance Workshop**

*Credits: 1*

Preparation and performance of jazz repertoire in small-group settings developing improvisation and fake book reading

skills and gig protocol. Does not fulfill ensemble requirements for music majors. Prerequisite: Audition or consent of instructor.

### **PERE 5130 - Meadows Guitar Ensemble**

*Credits: 1*

Preparation and performance of guitar ensemble literature. Prerequisite: Guitar major or consent of instructor.

### **PERE 5168 - Chamber Ensemble: Piano Duos**

*Credits: 1*

Preparation and performance of piano duets for one piano, four hands and two pianos, four hands. Does not fulfill chamber music requirements for music majors.

### **PERE 5169 - Chamber Ensemble: Sonatas**

*Credits: 1*

Preparation and performance of repertoire for one instrument and piano. With adviser approval, one term may be counted toward chamber music requirements for undergraduate piano majors. Does not fulfill chamber music requirements for graduate students.

### **PERE 5171 - Chamber Ensemble**

*Credits: 1*

Preparation and performance of repertoire for various ensembles of three to nine mixed instruments, one to a part, without conductor.

### **PERE 5172 - Additional Chamber Ensemble**

*Credits: 1*

Preparation and performance of repertoire for various ensembles of three to nine mixed instruments, one to a part, without conductor. Requires simultaneous participation in at least one additional chamber ensemble.

### **PERE 5173 - Meadows Percussion Ensemble**

*Credits: 1*

Rehearsal and performance of standard percussion ensemble literature. By audition.

### **PERE 5177 - Syzygy Contemporary Music Ensemble**

*Credits: 1*

Preparation and performance of the music of living and local composers as well as seminal works of the 20th century for various mixed ensembles, typically without conductor. Fulfills one term of chamber music requirement. Prerequisite: Audition or consent of instructor.

## **Piano Courses**

### **PIAN 6100 - Private Study: Piano**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **PIAN 6200 - Private Study: Piano**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree

requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Saxophone Courses**

### **SAX 6100 - Private Study: Saxophone**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **SAX 6200 - Private Study: Saxophone**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Trombone Courses**

### **TROM 6100 - Private Study: Trombone**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **TROM 6200 - Private Study: Trombone**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Trumpet Courses**

### **TRPT 6100 - Private Study: Trumpet**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **TRPT 6200 - Private Study: Trumpet**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to

availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Tuba Courses**

### **TUBA 6100 - Private Study: Tuba**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **TUBA 6200 - Private Study: Tuba**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Violin Courses**

### **VIOL 6100 - Private Study: Violin**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **VIOL 6200 - Private Study: Violin**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Viola Courses**

### **VLA 6100 - Private Study: Viola**

*Credits: 1*

One half-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall, spring, and summer. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **VLA 6200 - Private Study: Viola**

*Credits: 2*

One 1-hour lesson each week (14 per term) with a jury examination at the conclusion of each term. These repeatable course numbers are offered each fall and spring. Majors are required to enroll in private studies each term until degree requirements are completed. Students are required to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

## **Voice and Vocal Coaching Courses**

### **VOIC 6005 - Vocal Coaching**

*Credits: 0*

Intensive and detailed work on language inflection and diction. Phrasing, style, and interpretation as applied to art songs, Lieder, operatic arias, and the concert repertoire.

### **VOIC 6007 - Vocal Coaching**

*Credits: 0*

Intensive and detailed work on language inflection and diction. Phrasing, style, and interpretation as applied to art songs, Lieder, operatic arias, and the concert repertoire.

### **VOIC 6100 - Private Study: Voice**

*Credits: 1*

One half-hour lesson each week (14 per term), with a jury examination at the conclusion of each term. Repeatable course offered each fall, spring, and summer. Requires students to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

### **VOIC 6106 - Vocal Coaching**

*Credits: 1*

Intensive and detailed work on language inflection and diction. Phrasing, style, and interpretation as applied to art songs, Lieder, operatic arias, and the concert repertoire.

### **VOIC 6108 - Vocal Coaching**

*Credits: 1*

Intensive and detailed work on language inflection and diction. Phrasing, style, and interpretation as applied to art songs, Lieder, operatic arias, and the concert repertoire.

### **VOIC 6200 - Private Study: Voice**

*Credits: 2*

One 1-hour lesson each week (14 per term), with a jury examination at the conclusion of each term. Repeatable course offered each fall, spring, and summer. Majors must enroll in private studies each term until degree requirements are completed. Requires students to accept internships in performance or private teaching, subject to availability and/or scheduling conflicts with other SMU courses. Internships may begin prior to the beginning of the term.

# Theatre

**Associate Professor** Gretchen Smith, **Division Chair**

**Professors:** Rhonda Blair, Kevin Paul Hofeditz, Bill Lengfelder, Stanley Wojewodski, Jr., Steve Woods

**Associate Professors:** Michael Connolly, Benard Cummings, Blake Hackler, Russell Parkman, Sara Romersberger, Anne Schilling, Gretchen Smith, Claudia Stephens

**Assistant Professors:** Kara-Lynn Vaeni

**Lecturer:** Brad Cassil

**Adjunct Lecturers:** Dawn Askew, Jason Biggs, Linda Blase, Steve Leary, Melissa Panzarello, Steven Piechocki, Kathy Windrow

**Interim Production Manager:** Dawn Askew

**Projections and Media Specialist:** Steven Piechocki

**Costume Shop Manager:** Melissa Panzarello

**Costumer:** Eugenie Stallings

**Prop Master:** JT Ringer

**Scene Shop Foreman:** Eliseo Gutierrez

**Master Electrician:** Dawn Askew

**Associate Master Electrician:** Steven Piechocki

**Technical Director:** *TBD*

**Assistant Technical Director:** Steve Leary

## General Information

The Division of Theatre offers three-year specialized professional training programs in acting and stage design leading to the Master of Fine Arts degree. The graduate training programs are committed to professionalism in attitude and practice. Only students with a serious interest in the theatre as an art – those committed to self-development and prepared to work responsibly and collaboratively in their discipline – should expect to enter and continue in graduate study.

## Instructional Facilities

The Division of Theatre is part of the Meadows School of the Arts, housed in the well-equipped facilities of the Owen Arts Center. These include the Bob Hope Theatre (a 392-seat proscenium theatre), the Margo Jones Theatre (a 125-seat "black box" theatre), the Greer Garson Theatre (a 366-seat theatre with a classical thrust stage), the Ruth Collins Sharp Drama Building, and the Jake and Nancy Hamon Arts Library.

The Division of Theatre presents an annual subscription season of full-scale public productions chosen for their suitability for training, timeliness and public appeal. All theatre students are considered members of the Division of Theatre, and practical experience is considered a vital part of the theatre-training program.

## Admission and Financial Aid

The Division of Theatre observes a highly selective admissions policy in its graduate programs. The acting program admits eight students in alternating years. The design program admits approximately four students each year. Prospective students in all areas are strongly encouraged to visit the campus to gain a keener appreciation of the division's training, the environment and the University.

## Acting Interview: Audition

The acting faculty auditions applicants for graduate study in acting. Applicants can choose to audition in Dallas, at the University/Resident Theatre Association's three venues or at a number of the division's own national sites. Appointments for on-campus auditions can be made by contacting the Meadows Student Affairs Office. On-campus auditions require the preparation of two monologues: one taken from a classical play and one from a modern or contemporary play for a total of four minutes or less. Students may sing but are not required to do so.

## **Stage Design Interview: Portfolio Review**

The design faculty interviews applicants for graduate study in scenery, costume and lighting design. Applicants can choose to interview in Dallas, at the University/Resident Theatre Association's three venues or at a number of the division's own national sites. Appointments for on-campus interviews can be made by contacting the Division of Theatre.

## **Theatre, M.F.A.**

### **Acting**

The M.F.A. acting program balances the development of the actor's unique skills with the acquisition of technique. The program seeks to train actors of integrity, capable of artistic excellence in a variety of venues. The acting studios form the program's spine. First-year studio focuses on the actor's self, identifying habitual performance behaviors and reshaping the instrument to respond more organically and efficiently to psychophysical stimuli. Second-year studio emphasizes the development of classical technique through immersion in Shakespeare and other classical authors. The third year addresses the remaining and unique needs of each class and augments students' skills with classes in professional development. Comprehensive training in movement, voice, speech and textual analysis augments and enriches every term of the studio process.

Third-year students participate in showcase in New York. Additional professional outreach is provided by annual professional auditions, in which casting directors, agents and artistic directors from regional and summer theatres audition students in the graduate program. Internships, both formal and informal, with professional theatres in Dallas provide students with significant opportunities for professional growth.

### **Stage Design**

The M.F.A. stage design program is committed to the philosophy of supporting the development of artists who will passionately embrace the interpretation of words into visual imagery. The program emphasizes the process of artistic collaboration, especially with directors; the pursuit of artistic skills, including drawing, painting and drafting, necessary for communication; the development of critical thought and the ability to articulate ideas; and the acquisition of professional standards that prepare the student for a meaningful and productive life in the theatre.

Training in design is based on a balance of classroom work and fully realized productions. The first year of study includes extensive classroom projects and the development of foundational artistic and collaborative skills, culminating in the design of the playwrights' New Visions, New Voices festival. All students acquire comprehensive skills in scenery, costume and lighting design. The second year will focus on the student as a theatre designer, drawing upon prestigious programs of excellence in the Meadows School of the Arts and including designing in the Theatre Division season. During the third and master year, the student prepares for the professional world with opportunities to exercise collaborative, artistic and management skills not only in the Theatre Division, but also at professional venues that include, but are not limited to, the Dallas Theater Center and the Shakespeare Festival of Dallas.

## **Degree Requirements**

### **Residency**

The Theatre Division normally expects graduate students to be in residence for six terms during the regular academic year. Since the program of study includes both classroom and production activities, graduate students must obtain permission through the division chair before engaging in any other study, production work or outside employment. The M.F.A. degree requires a minimum of 66 credit hours.

### **Graduate Review**

At the end of each term, the faculty of the division evaluates the development of each graduate student. All aspects of the student's work come under scrutiny. The heads of the respective programs oversee and coordinate the review process, collating faculty evaluations into a review document.

The review process culminates in an assessment of the student's overall progress toward degree completion. Students who receive unsatisfactory reviews will be placed on probation. Failure to address the concerns raised in the review within the following term will result in the probationary student's dismissal from the program.

At the end of the first year, a faculty evaluation of the progress and potentiality of each student determines whether that student should continue into the second year.

## **Conferral of Degree**

The faculty reserves the privilege of recommending candidates for the M.F.A. degree only when it has been satisfied that students have demonstrated unquestionable professional competencies in the area of study.

## **Theatre Courses**

### **THEA 5000 - Rehearsal and Performance Laboratory**

*Credits: 0*

Embodied application in the processes of rehearsal and performance.

### **THEA 5001 - Design Laboratory I**

*Credits: 0*

Exploration of techniques in advanced design.

### **THEA 5002 - Design Laboratory II**

*Credits: 0*

Continuing exploration of techniques in advanced design.

### **THEA 5003 - Design Laboratory III**

*Credits: 0*

Continuing exploration of techniques in advanced design.

### **THEA 5004 - Design Laboratory IV**

*Credits: 0*

Continuing exploration of techniques in advanced design.

### **THEA 5005 - Rehearsal and Performance Laboratory**

*Credits: 0*

Embodied application in the processes of rehearsal and performance.

### **THEA 5101 - Directed Study**

*Credits: 1*

Directed study courses are not required and are taken only as needed; form and content are not predetermined. The student and the adviser decide what kind of activity or learning experience should occur. Before the end of the add-drop period, the student must arrange the course content and grading basis with the supervising faculty. Numbers are assigned to the student's year status rather than by the subject matter.

### **THEA 5103 - Projects I**

*Credits: 1*

Performance/production workshops for first-year graduate acting students, directed by faculty.

### **THEA 5104 - Projects II**

*Credits: 1*

Performance/production workshops for first-year graduate acting students, directed by faculty.

## **THEA 5106 - Singing For Actors**

*Credits: 1*

Provides fundamental techniques for the embodiment and exploration of melody, rhythm, sustaining sound, shaping lyrics, etc.

## **THEA 5201 - Directed Study**

*Credits: 2*

Directed study courses are not required and are taken only as needed; form and content are not predetermined. The student and the adviser decide what kind of activity or learning experience should occur. Before the end of the add-drop period, the student must arrange the course content and grading basis with the supervising faculty. Numbers are assigned to the student's year status rather than by the subject matter.

## **THEA 5204 - Acting II**

*Credits: 2*

Furthering the embodiment of a fundamental acting process through exercise, discussion, reading, improvisation, and scene study. Dramaturgical materials are drawn primarily from the works of Chekhov, Ibsen, and early modern American realism.

## **THEA 5205 - Movement I**

*Credits: 2*

Exploration of the actor's self through immersion in physical skills for the theatre, including t'ai chi ch'uan, corporal mime, improvisation, juggling, hatha yoga, unarmed stage combat, animal-style wu shu, and foil fencing.

## **THEA 5206 - Movement 2**

*Credits: 2*

Exploration of the actor's self through immersion in physical skills for the theatre, including t'ai chi ch'uan, corporal mime, improvisation, juggling, hatha yoga, unarmed stage combat, animal-style wu shu, and foil fencing.

## **THEA 5207 - Voice For the Stage I**

*Credits: 2*

Introduces basic principles of physical, vocal, and imaginative freedom through a series of progressive exercises and experiences. Encourages the removal of psychophysical barriers to sound production and develops the voice's sensitivity to impulse, power, flexibility, and range. Includes organic exploration of sounds of speech, using IPA pillows and sound and movement improvisations. Students develop self-scripted solo pieces, explore poetry and song, and apply voice work to modern dramatic texts.

## **THEA 5208 - Voice For the Stage II**

*Credits: 2*

Introduces basic principles of physical, vocal, and imaginative freedom through a series of progressive exercises and experiences. Encourages the removal of psychophysical barriers to sound production and develops the voice's sensitivity to impulse, power, flexibility, and range. Includes organic exploration of sounds of speech, using IPA pillows and sound and movement improvisations. Students develop self-scripted solo pieces, explore poetry and song, and apply voice work to modern dramatic texts.

## **THEA 5209 - Applied Movement I**

*Credits: 2*

Bodywork as it pertains to economy of movement, alignment, proper use, kinesthetic awareness, strength, flexibility, and freeing the physical instrument. Includes acrobatics, the Lecoq 20 movements, neutral mask, the physicalization of text, improvisation, and ensemble projects employing the physical work investigated throughout the term.

## **THEA 5210 - Applied Movement II**

*Credits: 2*

Continuation of bodywork as it pertains to economy of movement, alignment, proper use, kinesthetic awareness,

strength, flexibility, and freeing the physical instrument. Includes acrobatics, the Lecoq 20 movements, neutral mask, the physicalization of text, improvisation, and ensemble projects employing the physical work investigated throughout the term.

### **THEA 5215 - Text Analysis For Actors I**

*Credits: 2*

Fundamentals of decoding play texts, from reading and comprehension to personalized embodiment, in order to facilitate and render efficiently imaginative the move of the actor. Dramaturgical focus falls on realism texts from the 19th and 20th centuries.

### **THEA 5216 - Text Analysis For Actors II**

*Credits: 2*

Decoding and embodying the texts of Shakespeare.

### **THEA 5221 - Scene Design I**

*Credits: 2*

An introductory course for designers focusing on the communication skills (visual and verbal) necessary for collaborating with the director and the other artists in the theatre. Includes a design seminar that explores the text relative to its literary, musical, social, and historical influences.

### **THEA 5222 - Scene Design II**

*Credits: 2*

An introductory course for designers focusing on the communication skills (visual and verbal) necessary for collaborating with the director and the other artists in the theatre. Includes a design seminar that explores the text relative to its literary, musical, social, and historical influences.

### **THEA 5223 - Costume Design I**

*Credits: 2*

An introductory course for designers with emphasis on the application of design principles and the use of research materials.

### **THEA 5224 - Costume Design II**

*Credits: 2*

An introductory course for designers with emphasis on the application of design principles and the use of research materials.

### **THEA 5225 - Lighting Design I**

*Credits: 2*

The fundamentals of learning how to see, exploring the mind's eye, and painting with light. Includes translating theatrical moments and music into lighting sketches, storyboards, and atmospheres, and developing points of view and approaches. Also, the fundamentals of the tools of the lighting designer and assistant skills and techniques.

### **THEA 5226 - Lighting Design II**

*Credits: 2*

The fundamentals of learning how to see, exploring the mind's eye, and painting with light. Includes translating theatrical moments and music into lighting sketches, storyboards, and atmospheres, and developing points of view and approaches. Also, the fundamentals of the tools of the lighting designer and assistant skills and techniques.

### **THEA 5241 - Collaboration: Directors and Designers**

*Credits: 2*

Team taught by directing and design faculty, this course emphasizes the building of a collaborative process among theatre artists. Students research historical collaborative relationships, create and conceptualize approaches to various texts, and familiarize themselves with the approaches of artists currently working in the theatre.

### **THEA 5258 - Photoshop**

*Credits: 2*

A continuation of the exploration of tools for computer image creation (e.g., AutoCAD, MiniCAD, and Adobe Photoshop) and their applications.

### **THEA 5259 - Advanced Design Skills**

*Credits: 2*

Students learn advanced skills in theatrical design practice, including hand drafting, theatrical model-making, set sketching, and digital tablet drawing. Also, fashion illustration and an introduction to textiles.

### **THEA 5275 - Lighting Automation I**

*Credits: 2*

Advanced study in the field of automated lighting and control systems.

### **THEA 5298 - Product Research and Development I**

*Credits: 2*

Script analysis, background research, and performance design for the actor, designer, director, and dramaturg.

### **THEA 5299 - Production Research and Development II**

*Credits: 2*

Script analysis, background research, and performance design for the actor, designer, director, and dramaturg.

### **THEA 5301 - Directed Study**

*Credits: 3*

Directed study courses are not required and are taken only as needed; form and content are not predetermined. The student and the adviser decide what kind of activity or learning experience should occur. Before the end of the add-drop period, the student must arrange the course content and grading basis with the supervising faculty. Numbers are assigned to the student's year status rather than by the subject matter.

### **THEA 5303 - Acting I**

*Credits: 3*

Focuses on defining a fundamental acting process, identifying behavioral blocks, channeling impulses into uncluttered and organic psychophysical connections, and using the text as a blueprint for action. Combines a mix of exercise, improvisation, and scene study with materials drawn from modern American realism and the early modernist plays of Ibsen, Strindberg, and Chekhov.

### **THEA 5304 - Acting II**

*Credits: 3*

Focuses on defining a fundamental acting process, identifying behavioral blocks, channeling impulses into uncluttered and organic psychophysical connections, and using the text as a blueprint for action. Combines a mix of exercise, improvisation, and scene study with materials drawn from modern American realism and the early modernist plays of Ibsen, Strindberg, and Chekhov.

### **THEA 5319 - History of Design**

*Credits: 3*

How and why do elements of design describe a culture? Students study design elements and their role in various historical cultures, including the relationships among fashion, art, architecture, and the decorative arts of selected time periods. For majors and nonmajors.

### **THEA 5321 - Topics in Design I: Lighting**

*Credits: 3*

Presents approaches to lighting design and poses specific design problems for the students to solve, with attention given to color composition, cueing, and production values. Focuses on Vari-Lite, Robe, and Martin experimentation.

### **THEA 5341 - The Art of Storytelling in Everyday Life**

*Credits: 3*

Guides students towards a deeper understanding of ancient principles of narrative, while equipping them to identify and explore the stories that exist in their own lives. Develops personal, historical, contemporary, as well as biblical tales, and examines the creative nexus of the theology and mythology they all have in common. Students analyze stories from literature as well as the oral traditions, and discuss tales that exist in both the secular and the sacred realms. Moves students towards mastery of the foundational techniques of Story, and enables them to apply this knowledge in their chosen professions.

### **THEA 5351 - Scene Design III**

*Credits: 3*

A continuation of the study of scene design incorporating individual class projects with the intensive study of style and genre.

### **THEA 5352 - Scene Design IV**

*Credits: 3*

A continuation of the study of scene design incorporating individual class projects with the intensive study of style and genre.

### **THEA 5353 - Costume Design III**

*Credits: 3*

An intermediate course with emphasis on play analysis, character relationships, and techniques of presentation.

### **THEA 5354 - Costume Design IV**

*Credits: 3*

An intermediate course with emphasis on play analysis, character relationships, and techniques of presentation.

### **THEA 5355 - Lighting Design III**

*Credits: 3*

Continued study in the art of lighting design. Explores advanced atmosphere creation, professional techniques, and specialized approaches. Professional assistantships are assigned to selected students.

### **THEA 5356 - Lighting Design IV**

*Credits: 3*

Continued study in the art of lighting design. Advanced atmosphere creation, professional techniques, and specialized approaches are explored. Professional assistantships are assigned to select students.

### **THEA 5357 - Designing with Computers: Stage Photography**

*Credits: 3*

An exploration of the tools for computer image creation (e.g., AutoCAD, MiniCAD, and Adobe Photoshop) and their applications.

### **THEA 5371 - Automated Lighting 2**

*Credits: 3*

Students work with Vari-Lite, Robe, and Martin automated lighting fixtures while learning advanced programming skills.

### **THEA 5373 - Draping I**

*Credits: 3*

A study of pattern making that utilizes the three-dimensional approach of draping fabric on a dress form and the approach of drafting patterns by formula. Students learn to drape a basic bodice, skirt, and collars, to create a basic sleeve pattern by formula, and to manipulate these patterns to achieve a variety of shapes.

### **THEA 5374 - Draping II**

*Credits: 3*

Exploration of period dress from a draping point of view.

### **THEA 5375 - Theatre Technology 5: Lighting Automation**

*Credits: 3*

Advanced studies in the field of automated lighting and control systems. Students will explore top brands of intelligent lighting equipment, learning to program and provide simple repair and upkeep of equipment.

### **THEA 5379 - Computer-Assisted Design I**

*Credits: 3*

Students learn the fundamentals of computer-assisted design, using VectorWorks and Spotlight, in application for the theatre. Emphasizes 2-D work and includes 3-D work. Prerequisite: Knowledge of mechanical drawing and its conventions.

### **THEA 5380 - Computer-Assisted Design II**

*Credits: 3*

Uses VectorWorks as the primary drafting software, with a focus on modeling scenic and lighting designs, organization of the drawing layouts, rendering techniques, and lighting-specific CAD tools.

### **THEA 5382 - Automated Lighting 3: Busking**

*Credits: 3*

Focuses on creating a library of techniques that will permit the lighting designer to Busk.

### **THEA 5398 - Production Research and Development I**

*Credits: 3*

Script analysis, background research, and performance design for actors, designers, and directors.

### **THEA 5399 - Production Research and Development II**

*Credits: 3*

Script analysis, background research, and performance design for actors, designers, and directors.

### **THEA 6001 - Directed Study**

*Credits: 0*

Directed study courses are not required and are taken only as needed. Their form and content are not predetermined. The student and the adviser decide what kind of activity or learning experience should occur. Before the end of the add-drop period, the student must arrange the course content and grading basis with the supervising faculty. Numbers are assigned to the student's year status rather than by the subject matter. The section number indicates the professor with whom the course is undertaken.

### **THEA 6002 - Rehearsal and Performance Laboratory**

*Credits: 0*

Embodied application in the processes of rehearsal and performance.

### **THEA 6003 - Rehearsal and Performance Laboratory**

*Credits: 0*

Embodied application in the processes of rehearsal and performance.

### **THEA 6004 - Rehearsal and Performance Laboratory**

*Credits: 0*

Embodied application in the processes of rehearsal and performance.

### **THEA 6017 - Transitioning to the Profession**

*Credits: 0*

An introduction to business skills and self-marketing for the freelance professional designer entering the job market. Topics include union memberships, pension and health care, contracts, taxes, job opportunities, and portfolio development.

### **THEA 6101 - Directed Study**

*Credits: 1*

Directed study courses are not required and are taken only as needed. Their form and content are not predetermined. The student and the adviser decide what kind of activity or learning experience should occur. Before the end of the add-drop period, the student must arrange the course content and grading basis with the supervising faculty. Numbers are assigned to the student's year status rather than by the subject matter. The section number indicates the professor with whom the course is undertaken.

### **THEA 6103 - Shakespeare Character**

*Credits: 1*

The actor takes on a single character from Shakespeare or his contemporaries, creating a 20-30 minute, one-person performance piece.

### **THEA 6104 - Shakespeare Quartets**

*Credits: 1*

An advanced acting course in which student cadres choose a play by Shakespeare or his contemporaries, cut the text for a 1-hour presentation, divide the roles among no more than four actors, rehearse the work, and then present the play as a studio production.

### **THEA 6105 - Movement V**

*Credits: 1*

Continuation of bodywork, improvisation, and ensemble projects as they apply to acting. Also, additional Lecoq-based technique using character mask, physical inquiry in youth and age, partnership, and physical characterization and connectedness.

### **THEA 6107 - Voice for the Stage V**

*Credits: 1*

A continuation of the voice and speech curriculum to further enhance the actor's technique, reinforce good vocal usage, and address any outstanding habits or issues in the actor's process.

### **THEA 6111 - Applied Voice I**

*Credits: 1*

The application and acquisition of speech sounds and the International Phonetic Alphabet to expand the actors' technique, flexibility, and range. Ideas of standardization and the identification of habits and regionalisms are addressed.

### **THEA 6113 - Business and Professional Aspects of Theatre**

*Credits: 1*

An introduction to business skills and self-marketing for the professional, including audition preparation, compiling résumés, photographs, cold readings, and monologues. Also, scene work for repertory, summer theatre, and professional theatre casting.

### **THEA 6114 - Theatre Lab I**

*Credits: 1*

An advanced course in the exercise of actor spontaneity and intuition through theatre games and improvisation.

### **THEA 6119 - Drawing for Designers I**

*Credits: 1*

Beginning drawing and painting for life with emphasis on developing designers for the stage. Emphasis is on the exploration of various media, development of the individual artist and collaborative projects. Each student advances at her/his own pace.

### **THEA 6120 - Drawing for Designers II**

*Credits: 1*

Intermediate drawing and painting from life, with a focus on developing designers for the stage. Emphasizes the exploration of various media, development of the individual artist, and collaborative projects. Each student advances at her/his own pace.

### **THEA 6125 - Theatre Lab II**

*Credits: 1*

Deepens individual abilities (e.g., listen, respond, surrender to the moment, hear) with respect to what is being sent, etc., and heightens the ensemble skills needed in working imaginatively and courageously together.

### **THEA 6201 - Directed Study**

*Credits: 2*

Directed study courses are not required and are taken only as needed. Their form and content are not predetermined. The student and the adviser decide what kind of activity or learning experience should occur. Before the end of the add-drop period, the student must arrange the course content and grading basis with the supervising faculty. Numbers are assigned to the student's year status rather than by the subject matter. The section number indicates the professor with whom the course is undertaken.

### **THEA 6205 - Movement III**

*Credits: 2*

Teaches extension of energy and physical listening skills. Skills taught include quarterstaff, rapier and dagger, court sword, and broad sword.

### **THEA 6206 - Movement IV**

*Credits: 2*

Allows the student to process personal experience into the movement and sound of a character. Skills taught include clowning, Lecoq figures, and neutral mask.

### **THEA 6207 - Voice for the Stage III**

*Credits: 2*

Continued exploration and reinforcement of basic physical, vocal, and imaginative freeing processes through the classic Linklater voice progression. Introduces structural analysis of Shakespearean text. Also, the application of voicework to the speaking of Shakespeare and other period texts, including scenes, monologues, and sonnets.

### **THEA 6208 - Voice for the Stage IV**

*Credits: 2*

Further deepening of the voice foundation work set out in previous terms, expanding the breath connection, range, and resonance using a variety of challenging texts. Uses texts such as Shakespeare, Shaw, and Milton to enlarge the actor's palette and to explore ways to use the voice in different venues, spaces, and media.

### **THEA 6209 - Applied Movement III**

*Credits: 2*

Continuation of bodywork, improvisation, and ensemble projects as they apply to acting. Includes additional Lecoq-based work using character mask; physical inquiry into the young, old, and animals; and their relationship to creation of a physical characterization and connectedness (word to action).

### **THEA 6211 - Applied Voice I**

*Credits: 2*

Students refine their ability to execute detailed speech actions and to identify specific phonetic changes using the International Phonetic Alphabet.

### **THEA 6212 - Applied Voice II**

*Credits: 2*

An extension from speech sounds and IPA into the research and application of dialects and accents.

### **THEA 6214 - Applied Voice III**

*Credits: 2*

A continuation of the extension from speech sounds and IPA into the research and application of dialects and accents.

### **THEA 6215 - Text Analysis for Designers**

*Credits: 2*

Offers design students an interdisciplinary and integrated approach to the analysis of modern and postmodern dramatic literature. Students acquire the skills necessary to use texts as the blueprints for interpretation and/or departure. Reading, discussion, and written analyses of selected texts form the basis of class interaction, but secondary critical literature is used selectively to foreground key issues. Texts range from Dumas fils (c. 1850) to contemporary dramatists.

### **THEA 6217 - Text Analysis II**

*Credits: 2*

Development of analytical skills in verse drama from Aeschylus to Derrick Walcott, with a focus on the text as a blueprint for action.

### **THEA 6257 - Designing with Computer**

*Credits: 2*

Explores the tools for computer image creation and their applications (e.g., AutoCAD, MiniCAD, and Adobe Photoshop).

### **THEA 6258 - Advanced Designing with Computer**

*Credits: 2*

Further exploration of the tools for computer image creation and their applications (e.g., AutoCAD, MiniCAD, and Adobe Photoshop).

### **THEA 6301 - Directed Study**

*Credits: 3*

Directed study courses are not required and are taken only as needed. Their form and content are not predetermined. The student and the adviser decide what kind of activity or learning experience should occur. Before the end of the add-drop period, the student must arrange the course content and grading basis with the supervising faculty. Numbers are assigned to the student's year status rather than by the subject matter. The section number indicates the professor with whom the course is undertaken.

### **THEA 6303 - Acting III**

*Credits: 3*

Focuses on the actor in the classics. Scene study work begins with the Greeks; moves to Shakespeare; and culminates with work in Moliere, Restoration drama, and Shaw.

### **THEA 6304 - Acting IV**

*Credits: 3*

Focuses on the actor in the classics. Scene study work begins with the Greeks; moves to Shakespeare; and culminates with work in Moliere, Restoration drama, and Shaw.

### **THEA 6305 - Movement III**

*Credits: 3*

The extension of energy and physical listening skills. Skills taught include quarterstaff, rapier and dagger, court sword, and broadsword.

### **THEA 6306 - Movement IV**

*Credits: 3*

An opportunity for the student to process personal experience into the movement and sound of a character. Skills taught include clowning, Lecoq figures, and neutral mask.

### **THEA 6308 - Voice for the Stage VI**

*Credits: 3*

Culmination of voice training with forays into other media. Addresses cold readings and the use of a microphone for commercial and radio work to prepare the actor for entry into the profession.

### **THEA 6313 - Acting V**

*Credits: 3*

Stresses expansion of the actor's technique through extensive exposure to contemporary dramatic texts and performance demands.

### **THEA 6314 - Acting VI**

*Credits: 3*

Stresses expansion of the actor's technique through extensive exposure to contemporary dramatic texts and performance demands.

### **THEA 6315 - Text Analysis I**

*Credits: 3*

Offers acting, design, and directing students an interdisciplinary and integrated approach to the analysis of modern and postmodern dramatic literature. Students acquire the skills necessary to use texts as the blueprints for interpretation and/or departure. Reading, discussion, and written analyses of selected texts form the basis of class interaction, but secondary critical literature is used selectively to foreground key issues. Texts range from Dumas fils (c. 1850) to contemporary dramatists.

### **THEA 6316 - Portfolio**

*Credits: 3*

Preparation of the designer's portfolio for entry into the profession. Presentation, layout, and content are discussed, planned, and executed according to each student's primary adviser.

### **THEA 6317 - Business Aspects for Designers**

*Credits: 3*

An introduction to business skills and self-marketing for the freelance working professional designer, including information about union membership, contracts, agents, portfolio presentation, résumés, pension and health plans, and taxes.

### **THEA 6318 - Movement VI**

*Credits: 3*

Continuation of bodywork as it pertains to economy of movement, alignment, proper use of kinesthetic awareness, strength, and flexibility. Applies previous clown and comic mask techniques to comedy, farces, and contemporary plays, with a focus on finding and playing the implied and embedded physical storytelling in the text while integrating comic techniques into the acting process.

### **THEA 6319 - History of Design: Fashion, Architecture and Interiors**

*Credits: 3*

A historical survey of fashion, interior design, and architecture and how they relate to designing costumes and scenery for theatre, film, and television.

### **THEA 6325 - Solo Performance**

*Credits: 3*

Students construct and perform compelling and revealing solo performance pieces. Research into contemporary practitioners and solo practice and writing, both formally discursive and personally creative, contributes to the construction of the culminating solo play.

### **THEA 6351 - Scene Design V**

*Credits: 3*

Master class in scene design. Practical study of the integration, collaboration, and exploration of the design process with other theatre artists.

### **THEA 6352 - Scene Design VI**

*Credits: 3*

Master class in scene design. Practical study of the integration, collaboration, and exploration of the design process with other theatre artists.

### **THEA 6353 - Costume Design V**

*Credits: 3*

Master class in costume design. An advanced course with emphasis on the design and execution of both theoretical and practical costume projects for the various theatrical media.

### **THEA 6354 - Costume Design VI**

*Credits: 3*

Master class in costume design. An advanced course with emphasis on the design and execution of both theoretical and practical costume projects for the various theatrical media.

### **THEA 6355 - Lighting Design V**

*Credits: 3*

Master class in lighting design. Practical study of the integration, collaboration, and exploration of the design process with other theatre artists. Professional assistantships and internships are assigned to select students.

### **THEA 6356 - Lighting Design VI**

*Credits: 3*

Master class in lighting design. Practical study of the integration, collaboration, and exploration of the design process with other theatre artists. Professional assistantships and internships are assigned to select students.

### **THEA 6357 - Designing with Computers: Stage Projection**

*Credits: 3*

Working with the tools necessary to create projected scenery, students learn the fundamentals of creating projected images for the stage.

### **THEA 6358 - Advanced Stage Projection**

*Credits: 3*

Working with the tools necessary to create projected scenery, students learn the advanced technology of creating projected images for the stage.

### **THEA 6361 - Textiles**

*Credits: 3*

Explores various fabrics and materials used in costume construction, millinery, and crafts for theatre and film. Includes skills such as dyeing, distressing, fabric painting, and various methods of fabrication. Completes the training for the designer beyond the sketch.

### **THEA 6362 - Advanced Skills in Painting**

*Credits: 3*

The study of specific technical skills for the practical application of painting on scenery and costumes.

### **THEA 6365 - Advanced Digital Rendering**

*Credits: 3*

An advanced exploration of a popular style of rendering for costume designers. Students learn advanced skills in Photoshop 2015, organization, digital design, and drawing.

### **THEA 6366 - Advanced Digital Rendering II**

*Credits: 3*

Further studies in rendering for costume designers. Students continue to master advanced skills in digital design, drawing, organization and Photoshop.

### **THEA 6375 - Lighting Automation I**

*Credits: 3*

Presents approaches to lighting design and poses specific design problems for students to solve. Attention is given to color composition, queuing, and production values. Focuses on Vari-Lite, Robe, and Martin experimentation.

### **THEA 6376 - Lighting Automation II**

*Credits: 3*

Presents approaches to lighting design and poses specific design problems for students to solve. Attention is given to color composition, queuing, and production values. Focuses on Vari-Lite, Robe, and Martin experimentation.

# Meadows School of the Arts: Tuition, Fees and Financial Aid

## Tuition, Fees and Living Expenses

The *Financial Information Bulletin* is issued each academic year. It provides the general authority and reference for SMU financial regulations and obligations, as well as detailed information concerning tuition, fees and living expenses.

Continuing students registering must ensure that payment for the full amount of charges is posted to their account by the payment due date showing on their bill. The due dates are also published on the Bursar website.

Billing notifications are sent to the student's SMU email address and to the designated authorized payer(s) email address when a bill is generated. The billing notification will provide instructions on how to view the bill online through SMUpay. If notification is not received two weeks prior to the due date, the student and/or designated authorized payer(s) should contact the Office of the University Bursar.

Payments made in person or mailed must be received by the Office of the University Bursar, located on the first floor of the Laura Lee Blanton Student Services Building, no later than 4 p.m. Central Time on the payment due date. Payments made online via electronic check or credit card must be posted no later than 11:59 p.m. Central Time on the payment due date. Students and/or those paying on behalf of students who pay online automatically receive an electronic confirmation of payment; students and/or designated authorized payer(s) paying through other methods can also verify receipt of payment online.

Students enrolling after the payment due date must pay at the time of enrollment. Students whose accounts are not cleared by the payment due date or at the time of enrollment are subject to a late payment fee of \$50 for balances between \$250 and \$999.99, and \$150 for balances between \$1,000 and \$5,000. Balances more than \$5,000 are charged 3 percent of the outstanding balance, not to exceed \$750. Also, after the monthly payment due date has passed, a 1.5 percent past due fee will be assessed on the unpaid student and/or miscellaneous account each month until the balance is paid. The enrollment of students whose accounts remain unpaid after the payment due date may be canceled at the discretion of the University. Students are individually responsible for their financial obligations to the University.

All refunds except federal Parent PLUS loans, prepayment accounts, the SMU Monthly TuitionPay Payment Plan and international wires will be made payable to the student. A credit card payment will only be refunded to the student if federal student loans have been applied to their account. International wires will be refunded by wire to the originating wire account less a \$35 wire-processing fee. The Parent PLUS loan borrower can request the refund to be processed to the student by submitting a Parent PLUS Release form, located on the Bursar website. If the refund is issued by check, the student may request, in writing, that the refund be sent to another party.

Any outstanding debts to the University will be deducted from the credit balance prior to issuing a refund. Any outstanding debts to the University that include Title IV funds must have an Authorization to Credit Account form and/or an Authorization to Credit Account Parent form on file in order to transfer funds to cover current award year debts. Students need to sign the ACA form and the federal parent PLUS loan borrower needs to sign the ACAP form.

Any outstanding debts to the University that do not include Title IV funds will be deducted from the credit balance prior to issuing a refund. All other debts should be paid directly by the student.

A student whose University account is overdue or who in any other manner has an unpaid financial obligation to the University will be denied the recording and certification services of the Office of the Registrar, including the issuance of a transcript or diploma, and may be denied readmission until all obligations are fulfilled. The Division of Enrollment Services may stop the registration, or may cancel the completed registration, of a student who has a delinquent account or debt, and may assess all attorney's fees and other reasonable collection costs (up to 50 percent) and charges necessary for the collection of any amount not paid when due. Matriculation in the University constitutes an agreement by the student to comply with all University rules, regulations and policies.

Applications for financial assistance should be submitted well in advance of registration in accordance with recommended filing dates set forth by the Division of Enrollment Services, Office of Financial Aid. Applications received after the recommended deadline can expect a delay in application processing time due to the increased volume. This will ultimately delay disbursement of financial aid to the student account. Students and families are expected to clear all billed charges by the published billing due dates regardless of the status of their financial aid application. Any funds that disburse to the student account after the payment due date has passed, will be applied to any outstanding charges first. Remaining financial aid funds will be refunded to the student.

During the registration process, students will be prompted to read and agree to the Student Rights and Responsibilities, which provides information regarding financial rights and obligations, SMU's Honor Code, the Code of Conduct, and the student appeals and complaints process.

Students who elect to register for courses outside of their school of record will pay the tuition rate of their school of record.

## **Tuition Refunds for Withdrawal from the University**

No refunds of tuition or fees will be considered without an official withdrawal. Policies for official withdrawal, including medical and mandatory administrative withdrawal, are found under Withdrawal From the University in the Academic Records and General and Enrollment Standards section of this catalog. Reduction of tuition and fees is determined by the effective date of the withdrawal and is based on the schedule listed in the *Financial Information Bulletin* and the SMU Bursar website.

## **Financial aid implications of withdrawing from the University**

Federal regulations require schools to adjust financial aid when a student officially withdraws from the University before completing 60% of the term. Financial aid is reduced to a pro-rated amount based on the amount of time the student was enrolled in classes in that specific term, thus "earning" financial aid proportionate to the amount of time enrolled. The "unearned" portion of aid will be returned to the funding source. Students completing 60% or more of a term are considered to have earned 100% of their financial aid for that term. This federally mandated calculation is completely independent of university's refund policies for withdrawals and may require a reduction in financial aid even if there is no reduction in tuition charges. The end result could create a substantial student account balance after the withdrawal is processed. For this reason, students are strongly encouraged to contact their financial aid adviser, before initiating a withdrawal, to discuss the financial implications of withdrawing. For additional information on the University's tuition refund policies, see the SMU *Financial Information Bulletin* or the University Bursar's website.

Information on the implications of withdrawing on your financial aid can be found on the Office of Financial Aid website.

Medical withdrawals and mandatory administrative withdrawals allow a prorated refund of tuition and fees and must be initiated through the academic adviser or academic Dean's office.

## **Payment Plan Options**

### **SMU Monthly Payment Plan**

SMU offers several payment plan options to assist students and families. Refer to the Bursar's website for detailed payment plan information: [www.smu.edu/paymentplans](http://www.smu.edu/paymentplans).

Annual payment plans are available in 12-month and 10-month formats. Term payment plans are available in 6-month and 5-month formats. The summer payment plan is three months. Payment plan options are not available for short terms including JanTerm, MayTerm, August Term and Winter Term.

## **Graduate and Professional Student Aid**

University grants, scholarships, fellowships and assistantships are awarded in the school or department in which the graduate student will enroll. Schools and departments that offer master's or Ph.D. degrees offer a significant number of

tuition scholarships and teaching or research assistantships each year. For more information, students should contact the appropriate school or department.

Grants and loans for Texas residents, private and federal loans, and employment programs may be available by filing the Free Application for Federal Student Aid. The FAFSA may be completed online at [www.fafsa.gov](http://www.fafsa.gov). The SMU Title IV school code number is 003613.

More information is available online at [www.smu.edu/financialaid](http://www.smu.edu/financialaid).

## **Meadows Graduate Programs Student Financial Aid**

Tuition scholarships and graduate assistantships are available in limited quantity. *No student with ability should hesitate to apply to Southern Methodist University and Meadows School because of financial need.* Information concerning these awards may be obtained by contacting Pam Henderson, [pghender@smu.edu](mailto:pghender@smu.edu), Office of Scholarships, 214-768-3314, Meadows School of the Arts, PO Box 750356, Southern Methodist University, Dallas TX 75275-0356. All candidates for graduate awards are required to file the Free Application for Federal Student Aid. The FAFSA application may be completed online at [www.fafsa.ed.gov](http://www.fafsa.ed.gov). (International students on the F1 visa are exempt from this requirement.) For primary consideration, graduate applicants should file by March 1. In addition to awards offered through Meadows School of the Arts, student loans and grants for Texas residents may be available to students who meet the financial need requirements. To obtain additional information on need-based aid, students should contact Division of Enrollment Services, Southern Methodist University, PO Box 750181, Dallas TX 75275-0181, phone 214-768-3417, email [Enrol\\_Serv@smu.edu](mailto:Enrol_Serv@smu.edu).

# Meadows School of the Arts: Enrollment and Academic Records

The standards herein are applicable to all students at the University and constitute the basic authority and reference for matters pertaining to University academic regulations and records management. Enrollment in the University is a declaration of acceptance of all University rules and regulations. A complete *University Policy Manual* is available at [www.smu.edu/policy](http://www.smu.edu/policy). Additional information regarding rules and regulations of the University can be found in this catalog. Undergraduate students must follow the University-wide requirements that are in effect for the academic year of matriculation to SMU. The applicable requirements of majors and minors are those in effect during the academic year of matriculation to SMU or those of a subsequent academic year. Students may not follow a catalog for an academic year in effect prior to their matriculation term. Students who are not enrolled for three or more years will return to SMU under the current catalog.

## General Policies

### Confidentiality of Education Records

The Family Educational Rights and Privacy Act of 1974 is a federal law that grants students the right to inspect, obtain copies of, challenge, and, to a degree, control the release of information contained in their education records. The act and regulations are very lengthy, and for that reason, SMU has issued its own FERPA-based guidelines that are available at the University Registrar's Office FERPA website [www.smu.edu/FERPA](http://www.smu.edu/FERPA). Policy 1.10 of the *University Policy Manual* also discusses this law.

In general, no personally identifiable information from a student's education record will be disclosed to any third party without written consent from the student. Several exceptions exist, including these selected examples: 1) information defined by SMU as directory information may be released unless the student requests through my.SMU Student Homepage that it be withheld, 2) information authorized by the student through my.SMU Student Homepage may be released to those individuals designated by the student and 3) information may be released to a parent or guardian if the student is declared financially dependent upon the parent or guardian as set forth in the Internal Revenue Code. Additional information is available at [www.smu.edu/FERPA](http://www.smu.edu/FERPA).

### Student File Number

The University assigns each student an eight-digit SMU identification number, which is used to verify each student's identity and is provided without additional charges. The student should furnish the SMU ID number on all forms when requested, as this number is the primary means the University has to verify the identity for each student's academic records and transactions related to the records.

### Name Change

A student who has a change in name must provide to the University Registrar's Office his or her Social Security card or the form issued by the Social Security Administration. A valid passport may also be used to complete a name change. Enrollment or records services for the student under a name different from the last enrollment cannot be accomplished without one of the above documents. All transcripts and diplomas are issued only under a person's legal name as recorded by the University Registrar's Office.

### Preferred Name

Students who wish to use a name other than their legal name can add a preferred name to their file in addition to their primary/legal name, or update a preferred name already on file, using the self service functions in the my.SMU Student Homepage. The University will make efforts to use the preferred name in communications and in the course of university business. However, there are situations that due to business practices, legal requirements or system limitations the use of a primary/legal name will be used.

SMU has many offices that keep records with student names and many data systems used for specific applications. In addition to updating their preferred name in my.SMU, students may need to notify some offices regarding their use of a preferred name.

A preferred name is a first, middle and/or last name that may be chosen to be used instead of legal first, middle and last name. There is no documentation required to create or change a preferred name. Students are advised that if they choose to use a preferred name, they should use it consistently and resist changing it frequently. Students also are advised that the use of a preferred last name can lead to confusion with employers and organizations in attempting to match official educational records with applications and it is recommended that students provide both their preferred and legal names on applications.

Here is a partial list of standard name usage:

Display name – my.SMU Student Homepage	Preferred name, if provided
Instructor Class Roster	Preferred name, if provided
Instructor Grade Roster	Preferred name, if provided
Canvas	Preferred name, if provided
Global Directory of email addresses	Preferred name, if provided
SMU online directory	Preferred name, if provided
SMU ID Card	Primary (legal) name -- under review
Financial Aid related forms and documents	Primary (legal) name
Official Academic Transcript	Primary (legal) name
Diploma	Primary (legal) name or derivative
Degree Verifications	Primary (legal) name
Housing / Residence Life	Preferred first name, Primary last name
SEVIS Reporting (international students)	Primary (legal) name

## **Email and Mailing Addresses, Telephone, and Emergency Contact**

Each student must provide the University Registrar's Office with both a home and local (mailing) address, both a home and local telephone number and contact information of a designated emergency contact using the self-service functions in the my.SMU Student Homepage. Students enrolling at SMU authorize the University to notify their emergency contacts in the event of a situation affecting their health, safety, or physical or mental well-being, and to provide these contacts with information related to the situation.

Students who enroll in an arranged section course will be asked to provide the University Registrar's Office with an off-campus study address. This is the physical location the student is living while enrolled in this course.

When a student applies for graduation and becomes a candidate they can provide a diploma address (address to which they would like their diploma mailed) to the University Registrar's Office.

International students are required to provide a residence address (physical street address where they are currently living) as their mailing (local) address. International students will be prevented from enrolling if a U.S. address is not provided.

Students are expected to keep current all their addresses and telephone numbers, including emergency contact details, through my.SMU, the University's Web-based self-service system. Students may be prevented from enrolling if their information is insufficient or outdated. Changes to parent information should be reported by contacting records@smu.edu, and the email should include the student's full name and SMU student ID number.

The University issues all students an email address. Students may have other email addresses, but the University-assigned email address is the official address for University electronic correspondence, including related communications with faculty members and academic units.

Official University correspondence may be sent to students' mailing addresses or SMU email addresses on file. It is the responsibility of students to keep all their addresses current and to regularly check communications sent to them since they are responsible for complying with requests, deadlines and other requirements sent to any of their mailing addresses on file or to their SMU email.

## Cell Phones

The University requests that students provide mobile/cell telephone numbers, as they are one means of communicating with students during an emergency. Mobile/cell telephone numbers may also be used by University officials conducting routine business. Students who do not have mobile/cell telephone or do not wish to report the numbers should provide this information to the University through my.SMU Student Homepage. Students may be prevented from enrolling if their mobile/cell telephone numbers are not on file or if they have not declared "no cell" or "prefer not to report" in my.SMU.

## Ethnicity

SMU requires that a valid ethnic group category be on file for all students. SMU's policies and the Family Educational Rights and Privacy Act of 1974 protect the confidentiality and privacy of this information. A student's ethnic group category can be viewed in my.SMU, Student Homepage.

**U.S. Citizens or Permanent Residents.** Ethnicity is self-determined. Students of multiple ethnic backgrounds may select multiple ethnic group categories. If the ethnic group value is incorrect, the student should go to the University Registrar's Office in the Laura Lee Blanton Student Services Building and complete an Ethnic/Racial Category Update Form.

**International Students Living in the U.S. While Attending School.** Selecting an ethnic group category is not required unless the student becomes a U.S. citizen or permanent resident.

## Transcript Service

A transcript is an official document of the permanent academic record maintained by the University Registrar's Office. The permanent academic record includes all SMU courses attempted, all grades assigned, degrees received and a summary of transfer hours accepted. Official transcripts and certifications of student academic records are issued by the University Registrar's Office for all students. Copies of high school records and transfer transcripts from other schools must be requested from the institutions where the coursework was taken.

Transcripts are \$12.25 per copy. Additional copies in the same request mailed to the same address are \$3.50. Additional copies mailed to different addresses are \$12.25 a copy. PDF transcripts are \$16.00 per email address and are available only for students who attended after summer 1996.

**Note:** No incomplete or partial transcripts, including only certain courses or grades, are issued.

Transcripts cannot be released unless the student has satisfied all financial and other obligations to the University. Instructions for requesting a transcript to be mailed or picked up on campus are available at [www.smu.edu/registrar](http://www.smu.edu/registrar) ("Transcript Requests" link). A student may request his or her official transcript through the online my.SMU Student Homepage. Requests are processed through the National Student Clearinghouse. Telephone and email requests are not accepted. Students or their specified third party can pick up their transcripts at the University Registrar's Office, 101 Blanton Student Services Building.

Transcripts may be released to a third party as specified by the student on the Student's Consent for SMU to Release Information to Student's Specified Third Party form accessible at [www.smu.edu/LegalDisclosures/FERPA/Forms](http://www.smu.edu/LegalDisclosures/FERPA/Forms).

**Note:** Chapter 675, S.B. 302. Acts of the 61st Texas Legislature, 1969 Regular Session, provides as follows: *Section I.* No person may buy, sell, create, duplicate, alter, give or obtain; or attempt to buy, sell, create, duplicate, alter, give or obtain a diploma, certificate, academic record, certificate of enrollment or other instrument which purports to signify merit or achievement conferred by an institution of education in this state with the intent to use fraudulently such document or to allow the fraudulent use of such document. *Section II.* A person who violates this act or who aids

another in violating this act is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than \$1,000 and/or confinement in the county jail for a period not to exceed one year.

## **Veterans**

The University Registrar's Office certifies veterans each term for their benefits under federal programs, including the Yellow Ribbon Program. Most academic programs at SMU qualify for U.S. Department of Veterans Affairs benefits, making an SMU education accessible and affordable. Veterans are required to provide specific documents before they can be certified with the VA's Veterans Benefits Administration. Specific information regarding the certification process is available from the University Registrar's Office at [www.smu.edu/EnrollmentServices/Veterans](http://www.smu.edu/EnrollmentServices/Veterans).

The University complies with Title 38 United States Code Section 3679(e) which states that any individual who is entitled to educational assistance under chapter 31 (Vocational Rehabilitation and Employment) or chapter 33 (Post 9/11 GI Bill®) benefits will be permitted to attend or participate in the course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement (or "Statement of Benefits" obtained from the Department of Veterans Affairs' website – eBenefits, or a VAF 28-1905 form for chapter 31 authorization purposes) for said entitlement and ending on the earlier of the following dates: a) the date on which payment from VA is made to the institution; or b) 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility. SMU will not impose any penalties, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or require that a covered individual borrow additional funds to meet his/her financial obligation due to delayed disbursement funding from VA under chapter 31 or 33. However, if the anticipated funding from VA will not cover all tuition and fees, then the student is responsible for paying the difference immediately. Failure to do so may result in late or past due fees. Students who wish to be certified under chapter 31 or 33 must request in writing each semester that they wish to be certified and provide an updated statement of benefits. Additional documents are required to be submitted to the University upon initial request to be certified. See our website at [www.smu.edu/enrollmentservices/veterans](http://www.smu.edu/enrollmentservices/veterans).

## **Final Examinations**

Final course examinations shall be given in all courses where they are appropriate, must be administered as specified on the official examination schedule and shall not be administered during the last week of classes. Exceptions to the examination schedule may be made only upon written recommendation of the chair of the department sponsoring the course and with the concurrence of the dean of that school, who will allow exceptions only in accordance with guidelines from the Office of the Provost.

## **Complaint Procedures for Students With Disabilities**

The complaint procedures for students with disabilities are available in the Disability Accommodations and Success Strategies office, Loyd Center, Suite 202, and online at [www.smu.edu/Provost/ALEC/DASS](http://www.smu.edu/Provost/ALEC/DASS).

## **Credit Hour Loads**

The unit of measure for the valuation of courses is the credit hour. Based upon the federal definition of a credit hour, each credit hour requires one hour of direct faculty instruction and a minimum of two hours per week of preparation on the part of students for approximately 15 weeks a term. Most courses are valued for three credit hours, i.e., three contact hours per week and at least six hours of preparation. For three credit hour courses deployed via different course types, modes of delivery, or calendars, total number of direct contact hours should be equal to or greater than 45 hours with the total of out of class work total equal to or greater than 90 hours. Courses that deviate from this standard must provide documentation illustrating how the number of contact hours and/or work outside the course equate to this standard within the term in which the course is offered.

A full-time load in the fall and spring terms is 9 credit hours for a graduate student. For the summer term (all sessions in the summer term combined) a full-time load is 6 credit hours for a graduate student. On request a graduate student can be certified as full-time for the first or second session of the summer term at 3 credit hours. Individuals who enroll for fewer than these minimum hours are designated as part-time students.

A graduate student

- working on the completion of a thesis, dissertation or performance recital requirement on a full-time or part-time basis;
- enrolled in an internship or co-op program;
- enrolled as a third-year theatre major working on the completion of required production projects;
- or having an instructor appointment as part of a teaching fellowship, but not enrolled for the required number of hours;

may be certified as a full-time or part-time student if the student

- is enrolled officially for at least one course and
- is recognized by his or her director or academic dean or the dean for the Office of Research and Graduate Studies as working on the completion of the thesis, dissertation or internship requirement on a full-time or part-time basis.

In other special situations, a student not enrolled for the required number of hours may be certified as a full-time or part-time student if the student is officially enrolled for at least one course and is recognized by the academic dean or director as a full-time or part-time student, and if such recognition is approved by the provost.

**Cautionary Note:** Federal financial aid agencies and some other agencies require a minimum number of hours of enrollment for full-time status and do not make exceptions for summer, internship, co-op or student-teaching enrollments. Students on financial aid should consult an adviser in the Financial Aid Office regarding minimum enrollment requirements for their situation.

Likewise, international students on an F-1 or J-1 visa should consult an adviser in the International Student & Scholar Services office regarding minimum enrollment requirements for their situation.

**Minimum and Maximum Course Loads.** Minimum and maximum course loads allowed are based on the school of record.

## Stop Enrollment/Administrative Withdrawal

Insufficient or improper information given by the student on any admission or enrollment form – or academic deficiencies, disciplinary actions and financial obligations to the University – can constitute cause for the student to be determined ineligible to enroll or to be administratively withdrawn.

## Transfer Courses From Other Institutions

Policies for transfer credit are found under Transfer Credit in the General Information section of this catalog.

## Enrollment Policies

### Course Scheduling and Enrollment Cycles

When students enter their school of record and into a specific degree program, they are assigned an academic adviser. Students should consult with the adviser for course scheduling, schedule changes, petitions, degree requirements and other such academic concerns. Advisers normally will have established office hours. The school's records office monitors progress and maintains official degree plans for all students in a school. Students should schedule conferences with their academic advisers and the school's records office upon admission to a school and prior to their final term to ensure that they are meeting all University and graduation requirements.

Each fall, spring and summer term has an enrollment period during which the formal process of enrollment in the University is completed. Prior to each enrollment period, the University Registrar's Office will publish enrollment instructions.

Each student is personally responsible for complying with enrollment procedures and for ensuring the accuracy of his or her enrollment. Students are expected to confirm the accuracy of their enrollment each term. Students who discover a discrepancy in their enrollment records after the close of enrollment for the term should immediately complete a Petition for Enrollment Policy Exception. Petitions are to be submitted to the appropriate records office within six

months of the term in which the discrepancy appeared; contact information for submitting a Petition for Enrollment Policy Exception can be viewed on the University Registrar's Office website at [www.smu.edu/EnrollmentServices/Registrar/Enrollment/EnrollmentPolicyException](http://www.smu.edu/EnrollmentServices/Registrar/Enrollment/EnrollmentPolicyException). Petitions submitted later than six months after the discrepancy may not be considered.

## **Undergraduates Enrolling for Graduate Courses**

### **Accelerated Pathway Programs**

The Accelerated Pathway Programs policy applies to undergraduate students who enroll in one of SMU's Accelerated Pathway Programs. Institutional aid may be eligible for covering tuition costs associated with graduate courses as described below.

Students may not enroll for any graduate level course work to be applied toward their master's degree, prior to the accumulation of 90 credit hours toward their baccalaureate degree. Students must apply and be admitted as a graduate student at least one fall or spring term prior to receiving their master's degree having had their baccalaureate degree conferred prior to that term. Students must enroll and be in good standing as a full-time status graduate student for at least one fall or spring term prior to receiving their master's degree.

Graduate hours earned as an undergraduate are included in the determination of full-time status for the term. Graduate hours and grades earned as an undergraduate that count towards their baccalaureate degree are included in the undergraduate scholastic totals and the graduate scholastic totals. Graduate hours and grades earned as an undergraduate that do not count towards that baccalaureate degree are excluded from the undergraduate scholastic totals but are included in the graduate scholastic totals. The maximum number of graduate hours (up to 30 hours) that may be taken in the final year of the baccalaureate degree is mandated by SMU's accrediting agency. The number of graduate hours which may be counted toward the baccalaureate degree is determined by the school to which the master's degree belongs. An undergraduate is limited to earning a maximum of 30 graduate hours as an undergraduate student after the completion of 90 credit hours towards their baccalaureate degree. A student must earn a minimum 150 combined hours to be conferred both a baccalaureate and master's degree.

Students considering an Accelerated Pathway Program should consult with the Office of Financial Aid about its effect on federal, state and institutional aid.

### **Other Graduate Course Enrollment by Undergraduate Students**

In addition to the Accelerated Pathway Programs, with the written permission of their academic dean and permission of the dean of the graduate courses, an excelling undergraduate student may enroll for graduate level coursework that will be part of their undergraduate record, count towards the undergraduate degree and be included in the undergraduate scholastic totals. The undergraduate student must have accumulated 90 credit hours toward their baccalaureate degree. Graduate hours enrolled as an undergraduate are included in the determination of full-time status for the term. An undergraduate is limited to earning a maximum of 30 graduate hours as part of their undergraduate record.

## **Schedule Changes**

The deadline for adding courses, dropping courses without grade record and changing sections for each enrollment period is listed on the Official University Calendar ([www.smu.edu/registrar](http://www.smu.edu/registrar)). Students are encouraged to seek assistance from their advisers when considering whether to add or drop a course. A student may drop a course with a grade of *W* (Withdraw) through approximately midterm by using the my.SMU Student Homepage. The specific deadline is listed on the Official University Calendar.

After the deadline date on the Official University Calendar, the student may not drop a class. All schedule changes must be processed by the deadline date specified on the Official University Calendar. **Note:** Schedule changes are not complete for official University record purposes unless finalized in the University Registrar's Office.

**Student-Athletes.** Students must consult with the Athletic Compliance Office prior to dropping a course. In the consultation, the student will review the effects the drop might have on his or her athletic participation and financial aid. After the consultation, the Athletic Compliance Office will update my.SMU to allow the student to process the drop, if necessary. The consultation is advisory; students are responsible for their enrollment. For assistance regarding

scholarships or other aspects of being a student-athlete, students should contact the Office of the Assistant Athletic Director for Student-Athlete Development.

**International Students.** Students must consult with the International Student & Scholar Services office prior to dropping a course. (Contact [iss@smu.edu](mailto:iss@smu.edu) for consultation.) If dropping a course will cause the student to be enrolled in fewer than the required number of hours to remain a full-time student, the student's immigration status could be affected. After the consultation, the International Student & Scholar Services office will update my.SMU to allow the student to process the drop, if necessary. The consultation is advisory; students are responsible for their enrollment.

**Students on Merit or Need-based Financial Aid.** Students should consult with their financial aid adviser prior to dropping a course. (See [www.smu.edu/EnrollmentServices/FinancialAid](http://www.smu.edu/EnrollmentServices/FinancialAid) for information regarding your financial aid counselor.) If dropping a course will cause the student to be enrolled in fewer than the required number of hours to remain a full-time student, the student's financial aid status may be affected. After the consultation, the student may drop a course through my.SMU Student Homepage. The consultation is advisory; students are responsible for their enrollment. Questions regarding this procedure or financial aid should be directed to the Office of Financial Aid.

## Withdrawal From the University

Policies on refunds for withdrawal from the University are found in the Financial Information section and in the *Financial Information Bulletin*. Online/distance students who reside outside of Texas should visit the SMU Right to Know Web page to learn about state-specific refund policies. No refunds are made without an official withdrawal.

Students should be aware of the difference between a *drop* and a *withdrawal* and remember that they have different deadlines and separate financial policies. The deadlines for each are posted each term on the Official University Calendar at [www.smu.edu/registrar](http://www.smu.edu/registrar). A *drop* occurs when a student removes one or more courses from his or her schedule and remains enrolled in at least one credit hour for the term. A *withdrawal* occurs when removing the course or courses will result in the student being enrolled in zero hours for the term.

If a student removes all courses from his or her schedule **prior to the first day of the term**, the transaction is considered a *cancellation* and does not result in financial penalty or impact the student's transcript.

A student who wishes to withdraw (resign) from the University before the end of a term or session must initiate a Student Petition for Withdrawal form and secure approval from his/her school's records office. The records office will then submit the form to the Office of the University Registrar. The effective date of the withdrawal is the date on which the Student Petition for Withdrawal is processed in the University Registrar's Office. Discontinuance of class attendance or notification to the instructors of intention to withdraw does not constitute an official withdrawal.

The enrollment of students who withdraw on or before the tenth class day of fall or spring semester as listed on the Official University Calendar will be canceled. Courses and grades are not recorded for canceled enrollments; however, the student will owe a portion of his/her tuition and fees. Additional information is available in the *Financial Information Bulletin*. A student who withdraws after the tenth class day of the fall or spring semester will receive the grade of *W* in each course in which he or she enrolled.

Medical withdrawals allow a prorated refund of tuition and fees and have conditions that must be met prior to re-enrollment at SMU. Medical withdrawals can only be authorized by professionals in the Dr. Bob Smith Health Center, Dean of Student Life, or Vice President for Student Affairs. The last day for a medical withdrawal is the last day of class instruction for the term from which the student is withdrawing. Retroactive medical withdrawals cannot be granted.

Mandatory administrative withdrawals occur when a student is not suspended but current and/or future enrollments are canceled or withdrawn. A student's academic record is annotated with "mandatory administrative withdrawal" and the effective dates for this withdrawal. Mandatory administrative withdrawals allow a prorated refund of tuition and fees and have conditions that must be met prior to re-enrollment at SMU. Mandatory administrative withdrawals can be

authorized only by the Provost and Vice President for Academic Affairs, Vice President for Student Affairs or Dean of Student Life.

Withdrawing students living in SMU housing must check out of the residence halls with the Department of Residence Life and Student Housing per established procedures.

## **Audit Enrollment (Course Visitor)**

Individuals desiring to audit (visit) a class, including those concurrently enrolled for regular coursework, are required to process an Audit Permit form. Audit Permit forms must be completed, approved and received in the University Registrar's Office no later than the last day to enroll for the term. **Forms are available at** [www.smu.edu/EnrollmentServices/Registrar/FormsLibrary](http://www.smu.edu/EnrollmentServices/Registrar/FormsLibrary). Space must be available in the class. The following regulations are applicable:

1. Classroom recitation and participation are restricted; availability of course handouts, tests and other materials is restricted; no grade is assigned and no credit is recorded; no laboratory privileges are included.
2. The individual's name does not appear on class rosters or grade rosters.
3. Regular admission and enrollment procedures are not conducted for auditors.
4. The audit fee is nonrefundable.
5. If credit is desired, the course must be enrolled for and repeated as a regular course, and the regular tuition must be paid.

## **No-Credit Enrollment**

Enrollment for no credit is accomplished in the conventional manner of enrollment, with regular admission and enrollment procedures being required. The student pays the regular tuition and fees, participates in class activities, and receives the grade of *NC* upon completion of the coursework. The student must indicate in writing no later than the 12th day of classes (the fourth day of classes in summer sessions; the second day of classes in intersession terms) that he or she wishes to take a course for no credit. Permission of the instructor or department is required for this type of enrollment, and the student is listed on class rolls. This enrollment is different from audit enrollments, for which no enrollment or grade is recorded.

## **Class Attendance**

Regular class attendance is required. At the beginning of the course, the instructor announces policies regarding the effect of class attendance and tardiness on the student's standing in the course via the course syllabus. These policies may include dropping a student from the course for nonattendance or tardiness as described below.

All reasons for absence or tardiness should be submitted at once to the instructor.

The satisfactory explanation of absence may release a student from disciplinary action but does not relieve a student from responsibility for the work of the course during his or her absence. A student who misses an announced test, examination or laboratory period in a regular course of study and has the permission of the instructor may be given an opportunity to make up the work at the instructor's convenience. The instructor determines in all instances the extent to which absences and tardiness affect each student's grade.

Students who miss two successive class meetings during the official add-drop period at the beginning of each term are subject to being dropped from the course. To avoid this possibility, students should contact the instructor or the department immediately following such a series of absences.

Students may be dropped by a course instructor or academic dean for nonattendance or tardiness with a grade of *W* until the University deadline to drop. Department chair approval is required. After the deadline, students must remain enrolled in the course.

Students may also be dropped by a course instructor for inappropriate classroom behavior. The instructor must submit the Administrative Drop Request to drop a student from the course by the University deadline to drop indicated in the official Academic Calendar. Department Chair approval is required. After the deadline, the student must remain enrolled in the course and receive a final grade of *F*.

## Excused Absences for University Extracurricular Activities and Religious Holidays

Students who participate in officially sanctioned, scheduled University extracurricular activities or observe a religious holiday should be given an opportunity to make up class examinations or other graded assignments missed as a result of this participation or related travel. The manner in which examinations or other assignments missed because of these activities are to be made up is left to the discretion of each individual faculty member. However, students should not be penalized in any way for these excused absences and should be informed by the instructor at the beginning of the term, preferably in writing, of the instructor's makeup policy. It is the responsibility of the student to make arrangements with the instructor prior to any missed scheduled examination or other missed assignment for making up this work, and to obtain any class notes or other course material missed due to absence prior to taking any subsequent examinations or submitting any subsequent graded assignments.

This statement of University policy applies for all students. To minimize the difficulties caused for both student-athletes and their instructors by excused absences due to University-sanctioned athletic activities or related travel, the Athletic Department shall 1) make available to all student-athletes and their academic advisers prior to registration a copy of the student's activity and travel schedule for the upcoming term, so as to facilitate the student's enrollment in class sections that will minimize activity and travel conflicts; and 2) require all student-athletes to provide a copy of that term's activity and travel schedule, and a copy of this Statement of University Policy, to each of their instructors at the first class meeting of the term.

Other University colleges and departments whose students will miss classes because of their participation in officially sanctioned, scheduled University extracurricular activities, related travel, or observing of religious holidays are encouraged to adopt similar procedures to minimize the difficulties caused by such absences.

A list of religious holidays for use in requesting excused absences is available on the Official University Calendar. Students must notify the class instructor in writing by the 12th day of the term of any such absences that will occur during that term. Accommodations are to be made without penalty. More information can be found in the *University Policy Manual*, available at [www.smu.edu/policy](http://www.smu.edu/policy).

## Absence Due to Illness

The Dr. Bob Smith Health Center does not provide documentation for granting excused absences from class. If students are absent for illness, they should talk to their professors about how they might catch up with the material missed. If students are seriously ill and require hospitalization or an extended absence, students should talk to their professors and the Office of Student Life to decide how to deal with the interruption in their studies.

## Interpretation of Course Numbers

Each SMU course has a four-digit course number. The first number indicates the general level of the course.

1000–1999	First-year
2000–2999	Sophomore
3000–3999	Junior
4000–4999	Senior
5000–5999	Senior or Graduate
6000–9999	Graduate

The second digit specifies the number of credit hours; exceptions are noted below.

<i>Digit</i>	<i>Credit Hours</i>
0	0, .5 or 10-15
1	1 or 1.5

The third and fourth digits are used to make the course number unique within the department.

## Grade Policies

A student's grades are available to him or her through my.SMU Student Homepage.

### Grade Scale

The grade of a student in any course is determined by the instructor of the course. The following grades are authorized for recording on the student's official graduate academic record maintained by the University Registrar's Office.

<i>Grades</i>	<i>Description</i>	<i>Grade Points per Term Hour</i>
<i>A</i>	Excellent Scholarship	4.000
<i>A-</i>	Excellent Scholarship	3.700
<i>B+</i>	Good Scholarship	3.300
<i>B</i>	Good Scholarship	3.000
<i>B-</i>	Good Scholarship	2.700
<i>C+</i>	Fair Scholarship	2.300
<i>C</i>	Fair Scholarship	2.000
<i>C-</i>	Fair Scholarship	1.700
<i>D+</i>	Poor Scholarship	1.300
<i>D</i>	Poor Scholarship	1.000
<i>D-</i>	Poor Scholarship	0.700
<i>F</i>	Fail	0.000
<i>P, CR, S</i>	Pass, Credit, Satisfactory	*
<i>I</i>	Incomplete	*
<i>NC, U</i>	No Credit Received, Unsatisfactory	*
<i>X</i>	No Grade Received in Registrar's Office	*
<i>W</i>	Withdrew	*

**Note:** Asterisks denote grades not included in a student's GPA.

### Grade of F, D, W, X and Missing/Blank

Failing is graded *F*. If the student's work is incomplete, poor quality and not acceptable, a grade of *F* will be given. After such a grade, credit may be obtained only by repeating the course.

The grade of *D* represents performance below average expectations. Students receiving a *D* in a course that is a prerequisite to another course should consult with their advisers about repeating the course so that they will be adequately prepared for work in the following course. Courses passed with a grade of *D*, *D-* or *D+* will generally not count toward major or minor requirements.

The grade of *W* cannot be recorded unless completion of the official drop or withdrawal process has occurred by the applicable deadline *during the term of enrollment*. Only the grade of *W* may be recorded if the student has officially dropped courses from the schedule or withdrawn (resigned) from the University for the term. The grade of *W* may not be revoked or changed to another grade because the act of officially dropping/withdrawing is irrevocable.

The grade of *X* is a temporary administrative grade used when an official grade has not been received from the instructor. The grade of *X* will be changed to *F* if a grade is not received within 60 days of the end of the term. Graduation candidates must clear all *X*'s prior to the deadline on the Official University Calendar, which may allow less time than 60 days. Failure to do so can result in removal from the degree candidacy list and/or conversion of the grade of *X* to the grade of *F*.

A final official grade must be recorded for each enrollment. An *F* will be assigned for a missing or blank grade also indicates an official grade has not been received from the instructor. Graduation candidates must receive a grade for all course enrollments prior to the deadline on the Official University Calendar. Failure to do so can result in removal from the degree candidacy list and/or the assignment of a grade of *F*.

## Grade of Incomplete

A student may temporarily receive a grade of Incomplete (*I*) if a substantial portion of the course requirements have been completed with passing grades, but for some justifiable reason acceptable to the instructor, the student has been unable to complete the full requirements of the course.

The grade of *I* is normally changed to a final grade within one year but no later than the time of graduation.

At the time a grade of *I* is given, the instructor must stipulate the requirements and completion date that are to be met and the final grade that will be given if the requirements are not met by the completion date.

The maximum period of time allowed to clear the Incomplete is 12 months. If the Incomplete grade is not cleared by the date set by the instructor or by the end of the 12-month deadline, whichever is earlier, the grade of *I* will be changed to the grade provided by the instructor at the time the Incomplete was assigned or to a grade of F if no alternate grade was provided.

The grade of *I* is not given in lieu of a grade of *F* or *W*, or other grade, each of which is prescribed for other specific circumstances.

The grade of *I* in a course does not authorize a student to attend or enroll in the course during a later term. Graduation candidates must clear all Incompletes prior to the deadline on the Official University Calendar . Failure to do so can result in removal from the degree candidacy list and/or conversion of the grade of *I* to the grade indicated by the instructor at the time the grade of *I* was given.

## Grade Point Average

A student's grade point average (cumulative GPA) is computed by multiplying the credit hours of each course attempted by the grade points earned in the particular course and then dividing the total number of grade points by the total number of hours attempted, excluding those hours for which grades are shown with an asterisk on the grade chart. The GPA is truncated, not rounded, at three decimal places.

For assistance estimating your GPA see the GPA calculator on the SMU website.

## Grade Changes

Changes of grades, including change of the grade of *I*, are initiated by the course instructor and authorized by the academic chair and by the academic dean of the school in which the course was offered. If a student requests a grade change, the instructor may ask the student to provide the request as a written petition, which may become an official part of any further process at the instructor's discretion. Changes of grades may be made only for the following authorized reasons: to clear a grade of *I*, to correct a processing error or to reflect a re-evaluation of the student's original work. A change of grade will not be based on additional work options beyond those originally made available to the entire class.

Changes of grades of *I* should be processed within a calendar year of the original grade assignment unless the grade is for thesis work. Other changes of grades must be processed by the end of the next regular term. No grade will be changed after 12 months or after a student's graduation, except in cases where a grade is successfully appealed – provided that written notice of appeal is given within six months following graduation – and in extenuating circumstances authorized by the academic dean and approved by the University Registrar's Office.

## Grades for Repeated Courses

Students will be allowed to repeat courses according to the following rules: Both the initial and the second grades will be recorded on the student's permanent academic record (transcript). Both grades will be included in the calculation of the student's cumulative GPA and in the determination of academic probation, suspension, dismissal, honors and graduation. Only the repeated course and not the initial credit hours count toward the number of hours needed for graduation.

## Pass/Fail Option

Students should consult with their advisers before declaring the pass/fail option for any course, as some courses may not be taken pass/fail.

## Grade Appeals

A student who feels that an assigned grade is other than the grade earned must first discuss the matter with the course instructor to determine if the discrepancy is caused by error or misunderstanding. At the time of the initial discussion, the student may be asked to provide a written petition requesting the change of grade.

A student who is not satisfied by the instructor's decision on a request for a grade change, and who maintains that the original grade was capriciously or unfairly determined, may appeal to the chair of the department in which the course was offered (or, in the case of a nondepartmental course, to a faculty agent designated by the dean of the school offering the course). After discussing the matter with the student, and bearing in mind that the final authority in matters of academic judgment in the determination of a grade rests with the course instructor, the chair (or faculty agent) will consult with the course instructor, who will subsequently report to the student the disposition of the appeal.

A student who is not satisfied by the disposition of the appeal may appeal the decision to the dean of the school offering the course. The dean will take action as he or she deems appropriate. A student may appeal the dean's decision to the provost. In their actions, the dean and the provost must respect the principle that the determination of a grade rests with the course instructor.

## Academic Advising and Satisfactory Progress Policies

### Academic Advising

For an effective advising relationship, the student must be prepared when meeting with the adviser. The student must initiate the advising appointment. The adviser will give assistance to the student, but the student has the final responsibility for the accuracy of the enrollment, the applicability of courses toward the degree requirements, and his or her academic performance.

Students are assigned an academic adviser by their academic dean's office, records office or major department. A student who enrolls without first meeting with his or her assigned academic adviser may be subject to sanctions including, but not limited to, cancellation of the term enrollment and restriction from the self-service enrollment functions.

### Leave of Absence

A leave of absence is a temporary leave from the University – a kind of "timeout" – that may be necessary during an academic career. Students may elect to take leaves of absence for a variety of reasons, including 1) medical reasons due to accident or illness, 2) family crises or other personal situation that requires an extended absence from school, 3) financial issues that may take time to resolve, and 4) academic difficulties that may best be handled by taking time to refocus on college work.

Typically, a leave of absence is for one term or one academic year. A student may extend a leave of absence by contacting his or her academic department representative. The process to return to SMU after a leave-of-absence period can be an easy one, especially if the student has gone through the steps to file for a leave of absence and planned ahead for the return. Following SMU's leave-of-absence guidelines helps 1) assure that the degree requirements per the catalog of record when the student initially matriculated at SMU still apply upon return, 2) assist with financial aid processing, and 3) provide the support needed to return to SMU and successfully finish the degree.

The SMU Leave of Absence Policy provides students with a formal process to "stop out" of SMU for either voluntary or involuntary reasons. Typically, a *leave of absence* is for a temporary departure from the institution; however, *intended permanent withdrawals* from SMU will also be processed under the Leave of Absence Policy.

The first step to effect a leave of absence is for the student to arrange an appointment to meet with his or her academic adviser, who will then assist the student with the process.

## **Academic Progress**

Failure to meet established minimum acceptable standards of academic or disciplinary performance can result in probation, suspension or dismissal. Information regarding disciplinary action can be found under Code of Conduct in the Student Affairs section of this catalog.

Graduate students must maintain a cumulative GPA of 3.000. If in any term the student falls below this cumulative GPA, the student will be placed on probation for one regular term. If at the end of the term of probation the cumulative GPA is not up to 3.000, the student may be removed from the program at the discretion of the dean's office or records office.

## **Definitions: Academic Probation, Academic Suspension, Academic Reinstatement and Academic Dismissal**

**Academic Probation.** Academic probation is a serious warning that the student is not making satisfactory academic progress. A student on academic probation is still eligible to enroll and is considered in good standing for enrolling in classes and for certification purposes. Academic probation is not noted on the permanent academic record; however, a student on academic probation may be subject to certain conditions during the period of probation and will be subject to academic suspension if he or she does not clear academic probation.

**Academic Suspension.** Academic suspension is an involuntary separation of the student from SMU. Academic suspension is for at least one regular term. The term of suspension might be for a longer period depending on the policy of the school of record or the terms of the individual student's suspension. Students suspended from one school are suspended from the University.

The status of academic suspension is recorded on a student's permanent academic record. While on academic suspension, a student is not in good academic standing for certification purposes and is not eligible to enroll at SMU. Students who have served their suspension and who are eligible to return may not enroll for any intersession terms without permission from their school of record.

Credits earned at another college or university during a term of suspension may not be applied toward an SMU degree. A grade point deficiency must be made up through enrollment at SMU.

**Academic Reinstatement.** A student who has been on academic suspension once may apply for reinstatement to SMU. If reinstated, the student may enroll in classes, and he or she is considered in good academic standing for purposes of certification. A student who is reinstated remains on academic probation until the conditions of academic probation are satisfied.

**Academic Dismissal.** A second suspension results in an academic dismissal from the University. Academic dismissal is final, with no possibility of reinstatement or readmission to the University. Academic dismissal is recorded on the student's permanent academic record.

## **Academic Petitions and Waivers**

Petitions and/or requests for waivers concerning University requirements, graduation requirements and the evaluation of transfer work should be submitted to the student's school of record office.

## **Transfer Coursework**

Policies for transfer credit are found under Transfer Credit in the Admission section of this catalog.

## **Graduation Policies**

### **Apply to Graduate**

Students must file an Application for Candidacy to Graduate with their school's records office no later than the last day of the first week of the term in which they will complete all degree requirements. Applications are filed through my.SMU Student Homepage by the deadline date on the Official University Calendar.

Students who file an application after the published deadline may be required to pay a nonrefundable late fee. Late applications may be denied after the start of the next term, and the Application for Candidacy to Graduate applied to the next conferral date. Students taking coursework at another institution and transferring the course(s) back to SMU are responsible for ensuring that the University Registrar's Office receives their official transcript in order for their degree to be conferred for the anticipated graduation term.

SMU has three degree conferral periods for most programs: fall (December), spring (May) and summer (August). In addition, students who complete their degree requirements during a Jan Term (January), May term or August term will have their degrees conferred at the conclusion of the intersessions.

### **Commencement Participation**

An All-University Commencement Convocation is held in May for students enrolled and on schedule to complete degree requirements during the spring term. Students enrolled and on schedule to complete all degree requirements during the following summer session may also participate in the University Commencement Convocation, although their degrees will not be conferred until August. Students may also participate in departmental or school ceremonies according to the policies of the departments or schools. Doctoral candidates may participate in commencement only after all degree requirements are complete.

An All-University December Commencement Convocation is held each year for students completing degree requirements during the fall term. Students who completed degree requirements during the previous summer session may also participate. Students on schedule and enrolled to complete all degree requirements during the following Jan Term (January) intersession may also participate in the December ceremony, although their degrees will be conferred in January.

A student may participate once in either the All-University Commencement Convocation in May or the All-University December Commencement Convocation for a given degree, but not both.

To participate in a ceremony, a student must apply online and file with their school's records office an Application for Candidacy to Graduate or Intent to Participate Form.

### **Statute of Limitations for Degree Plans**

A student who has been readmitted to the University following an absence of more than three years will be expected to meet all requirements for graduation current at the time of readmission.

## **Meadows Graduate Programs Policies and Procedures**

### **Concurrent Enrollment**

A student who wishes to enroll concurrently in another college or university should first obtain written approval from the dean of graduate studies that the courses taken will be transferable.

### **Approved Courses**

Normally all graduate-level courses are numbered 6000 and above. Graduate students may take courses numbered below 6000 if they are part of the program of study or with the approval of the faculty adviser. For the 6000 level or above, the general prerequisite, in addition to admission to graduate studies, is 12 credit hours of advanced work in the department, or six credit hours in the department and six in a closely related program approved by the major

department and the dean for the Office of Research and Graduate Studies. If other specific prerequisites are needed, these are stated in departmental listings of courses.

## **Readmission**

Students already matriculated into a program who were not enrolled in the previous term must file a readmission application. This form must be received in the graduate office **no later than three weeks before the enrollment date** for the desired term of re-entrance.

## **Thesis/Praxis/Dissertation**

Several master's degree programs require theses for completion; several others leave theses as an option. Dissertation is required of all Ph.D. programs.

Students submit a final copy of the thesis/praxis/dissertation electronically as partial fulfillment of degree requirements. The final thesis must be uploaded to the SMU Scholar website (<https://scholar.smu.edu>). SMU Scholar showcases SMU's research and scholarly achievements by providing open access to research, online journals, articles, conferences, articles, white papers, and other scholarly works of the SMU academic community. Placing items in the repository compliments peer-reviewed publication by providing unrestricted access to materials that are either previously published (with permission) or seeking a publisher. SMU Scholar is a partnership between Central University Libraries (CUL), the Office of Research and Graduate Studies, and the Office of Information Technology (OIT).

# Meadows School of the Arts: Student Life and Housing

## The Division of Student Affairs

The Division of Student Affairs ([www.smu.edu/studentaffairs](http://www.smu.edu/studentaffairs)) creates and supports a robust student experience and forges strategic partnerships to best serve the entire SMU community. As educators and scholar-practitioners, we create purposeful learning and leadership opportunities for students to clarify and develop their knowledge, values, skills, and identities – challenging each to become a world changer. The Division of Student Affairs is comprised of five different organizational units that each provide unique educational and supportive resources for students during their time at SMU: Student Wellbeing and Support, Student Engagement and Success, Residence Life and Student Housing, Religious Life, and the Hegi Family Career Development Center.

## Student Wellbeing and Support

### Health Services

[www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)

The Dr. Bob Smith Health Center provides SMU students with campus access to quality, comprehensive and student-centered medical care, mental health services, and outreach programs designed to promote their health and wellbeing. The new 33,000 square foot state-of-the-art clinic facility is centrally located on campus at 6211 Bishop Boulevard. The Health Center is certified by the Accreditation Association for Ambulatory Health Care (AAAHC) for meeting rigorous nationally recognized standards and committing to delivering the highest quality of care.

**Medical Services.** The Dr. Bob Smith Health Center provides a wide range of health services allowing students to receive primary care on campus. Services available include the treatment of acute illnesses, care of injuries, minor medical procedures, physical exams, STD testing, vaccinations, allergy injections, and limited specialty services. Additional ancillary services include a clinical laboratory, an on-site pharmacy, X-ray imaging and diagnostic services, and a part-time sports medicine clinic. For appointments and health information, students may call 214-768-2141 or visit [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter).

**Acute/After Hours Care.** Students should call 911 for immediate response to life-threatening injuries or illnesses. For other urgent concerns after clinic hours, students should seek a local hospital or urgent care center. A listing of several hospital emergency rooms and after-hours urgent care facilities is provided for general reference on the Health Center website ([www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)).

**Costs.** The Health Services Fee, which is included in general student fees, covers routine medical visits and counseling appointments at the Health Center. Charges are assessed separately for lab services, x-rays, immunizations, medical supplies, pharmacy and specialty care. Claims are filed for students participating in the SMU Student Health Insurance Plan. Students with other insurance plans may request an itemized receipt in order to submit a claim for insurance reimbursement. The Pharmacy files claims for most insurance plans.

**Mandatory Health Insurance Policy.** SMU students are required to maintain insurance coverage as a condition of their enrollment. The University offers the SMU Student Health Insurance Plan (SHIP), which is administered by the Health Center's Student Insurance Office. The plan provides coverage at a reasonable cost for most on- and off-campus health care. Information is available at [www.smu.edu/healthinsurance](http://www.smu.edu/healthinsurance).

Domestic students taking nine or more credit hours and international students taking one credit hour or more are automatically enrolled in the Student Health Insurance Plan (SHIP) each semester unless they expressly waive coverage in their my.SMU account. Information about the waiver deadline is available online at [smu.edu/healthinsurance](http://smu.edu/healthinsurance). Domestic students taking between one and eight credit hours are eligible to enroll in the Student Health Insurance Plan on a voluntary basis.

**Pharmacy.** A full service pharmacy is conveniently located in the Dr. Bob Smith Health Center to meet students' prescription needs from 8:30 a.m. to 5:00 p.m., Monday through Friday. The pharmacy is in network with most insurance plans. Prescriptions and refills may be transmitted directly to the pharmacy from the student's physician.

**Immunizations.** All students (undergraduate, graduate, part-time and full-time, to include international and IEP/ESL students) are required to have an SMU medical history form on file in the Dr. Bob Smith Health Center before registration. (Health history forms are available on the Health Center's website at [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)). All students must also submit - to the Health Center - immunization records that provide proof of two doses of the vaccine against measles, mumps and rubella. These MMR immunizations must be documented by a physician, public health record, military health record or school health record. Students will not be allowed to register without immunization compliance.

Texas state law requires all new students entering an institution of higher education under the age of 22 to provide proof of immunization for bacterial meningitis. The meningitis vaccine or a booster dose must have been received during the five-year period prior to enrollment and not less than ten days before the start of classes. Students seeking exemption from this requirement due to health risk or conscience, including religious belief, should see the second page of the SMU medical history health form. More information is found under Final Matriculation to the University in the Admission to the University section of this catalog.

All required immunizations may be obtained at the Health Center.

**Class Absence Due to Illness.** The Health Center does not issue excuses from classes for illness. Please refer to the Health Center website ([www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)) for the Class Excuse Policy.

**Confidentiality and Privacy.** Confidentiality and privacy of student health information is of paramount importance at the Dr. Bob Smith Health Center. The Health Center follows all applicable state and federal laws related to the disclosure of medical and mental health information, and applies to the highest professional standards of care and privacy. All student-patient health service records are confidential. No information about a student can be released to any third party without the student's written permission.

**Release of Medical Information.** Patient health information and medical records are released only with a written release by the student. Students may sign a release allowing the Health Center to provide specific medical information with their parents, significant others or health care representatives.

**Health Education and Promotion.** The Health Center's Office for Community Health and Promotion serves as a resource to enhance the well-being of SMU students in support of their learning and success. Health information is presented through engaging programs and services to help students make informed and healthy choices. The Health Center works with students to promote activities that create a healthy environment for the SMU community.

**Counseling Services.** The Health Center provides crisis intervention, individual and group therapy, psychiatric evaluation and counseling referrals for SMU students. Use of all services is voluntary and strictly confidential. There is no charge to students who have paid the University health fee. Students can seek confidential help for concerns such as anxiety, depression, relationships, career/life planning, sexual identity, eating/body image and sexual assault/sexual harassment. Alcohol and drug prevention is a free and confidential source of help and information to the SMU community, covering issues related to substance abuse and addiction. Any laboratory tests or pharmaceuticals ordered will be charged to the student. For more information regarding scheduling appointments, students should call 214-768-2277 or visit [www.smu.edu/counseling](http://www.smu.edu/counseling).

**Testing Services.** Testing Services offers fee-based testing to the Dallas-area community. These services include on-campus administration of national testing programs such as the LSAT, MPRE, GRE and others. Other testing offered includes credit by exam (CLEP), and correspondence examinations for local distance learners enrolled in other universities. For additional information, students should visit [www.smu.edu/testingprogram](http://www.smu.edu/testingprogram) or call the center at 214-768-2269.

## **Dedman Center for Lifetime Sports**

[www.smu.edu/recsports](http://www.smu.edu/recsports)

The Dedman Center for Lifetime Sports provides aerobic studios, an indoor running track, basketball courts, volleyball courts (indoor and outdoor), racquetball courts, a climbing wall, a bouldering wall, a 25-yard recreational pool with

five lanes, 15,000 square feet of fitness and weight equipment and a Starbucks in the lobby area. These facilities are open to SMU students, faculty, staff and paying members.

**Facilities/Operations.** The center is a 170,000 square foot facility designed for recreational sports, wellness, programs and the traditions and spirit of SMU.

**Aquatics.** SMU Aquatics features a five-lane, indoor recreational pool and an out-door, zero-depth entry fountain pool known as "The Falls." Students have opportunities to participate year-round in recreational swimming, sunbathing and water sports such as water basketball, volleyball and polo. Classes offered include water fitness, adult and child swimming lessons, children's group lessons, and American Red Cross lifeguard training.

**Programs.** A variety of services and programs are available, including club sports, fitness classes, intramural sports and the Outdoor Adventure program.

**Club Sports.** Club sports offer an opportunity for students interested in concentrated training and participation in a sport. These recognized student organizations offer competition with other university/college club teams in baseball, cycling, ice hockey, men's and women's lacrosse, polo, rugby, men's and women's soccer, triathlon, ultimate Frisbee, volleyball, wakeboarding and water polo.

**Fitness.** SMU Fitness offers group exercise classes and personal training sessions. Group X exercise classes are offered throughout the day to accommodate a variety of schedules. Different types of cardio, strength and flexibility classes are available. Experienced and knowledgeable personal trainers offer sessions to train members of the University community, either one-on-one or in groups, to meet their personal fitness goals. All SMU Fitness programs have a fee for participation.

**Intramural Sports.** Many opportunities for team and individual competition are available through intramural sports such as golf, racquetball, tennis, and dodgeball. The five major sports are flag football, volleyball, basketball, soccer and softball. Leagues provide year-round opportunities to participate in a wide variety of sports and activities. Additional leadership opportunities are available for those interested in officiating or supervising various activities.

**Outdoor Adventure.** SMU Outdoor Adventures is the campus source for outdoor recreation and adventure, offering fun and challenging recreational adventure activities, community-building programs, and student leadership and personal growth opportunities. Students can sign up for SMU OA trips offering traditional and non-traditional outdoor adventure pursuits such as backpacking, rock climbing, caving and canoeing. SMU OA also manages the SMU Climbing Center, the indoor climbing and bouldering facility and the Portable Challenge and Team Development course.

**Spirit/Traditions.** The Recreational Sports Department houses the spirit and traditions of SMU including the Cheer Squad, Mustang Band, Peruna, Pom Squad and the Rotunda Yearbook.

**Mustang Band.** Founded in 1917, the Mustang Band was named the "Best College Marching Band" in Texas in Kirk Dooley's Book of Texas Bests. Long known as "the hub of SMU spirit," the band represents the University at football and basketball games, produces the Pigskin Revue during Homecoming and performs at special University- and community-related events. Membership is open to all SMU students by audition, regardless of major and scholarships based on need and ability are available.

**Rotunda Yearbook.** For over 100 years, the Rotunda Yearbook has chronicled the history of Southern Methodist University. Named in December 1915 after the architecture of Dallas Hall, the Executive Council of the Student Association voted for the annual's name after seven different students suggested it. From its beautiful art to captivating themes, the Rotunda has evolved with the times, earning national awards and recognition from the Associated Collegiate Press (ACP) and Columbia Scholastic Press Association (CSPA).

**Spirit Squads.** Members are full-time students who dedicate their time, energy and athleticism to support Mustang Athletics.

The Cheerleading Squad is a highly competitive team consisting of 20 to 30 young men and women. Twenty of the team's members compete at NCA College Nationals held in Daytona Beach, Florida where the squad placed first in 2016, 2017 and once again in 2018.

The Pom Squad is well known for their energetic performances and their ability to entertain a crowd. The dancing style of the team includes jazz, pom and hip-hop.

Peruna IX (2011-PRESENT) is the beloved mascot of the university and is accompanied by Peruna handlers that lead him across the field during football games. The Human Peruna Mascot is the costumed hero that represents SMU, and is a traditional accessory to Peruna IX.

## **Academic Integrity and Code of Conduct**

### **The Honor Code of Southern Methodist University**

Intellectual integrity and academic honesty are fundamental to the processes of learning and of evaluating academic performance, and maintaining them is the responsibility of all members of an educational institution. The inculcation of personal standards of honesty and integrity is a goal of education in all the disciplines of the University.

The faculty has the responsibility of encouraging and maintaining an atmosphere of academic honesty by being certain that students are aware of the value of it, understand the regulations defining it and know the penalties for departing from it. The faculty should, as far as is reasonably possible, assist students in avoiding the temptation to cheat. Faculty members must be aware that permitting dishonesty is not open to personal choice. A professor or instructor who is unwilling to act upon offenses is an accessory with the student offender in deteriorating the integrity of the University.

Students must share the responsibility for creating and maintaining an atmosphere of honesty and integrity. Students should be aware that personal experience in completing assigned work is essential to learning. Permitting others to prepare their work, using published or unpublished summaries as a substitute for studying required material, or giving or receiving unauthorized assistance in the preparation of work to be submitted are directly contrary to the honest process of learning. Students who are aware that others in a course are cheating or otherwise acting dishonestly have the responsibility to inform the professor and/or bring an accusation to the Honor Council.

Students and faculty members must share the knowledge that any dishonest practices permitted will make it more difficult for the honest students to be evaluated and graded fairly and will damage the integrity of the whole University. Students should recognize that their own interests and their integrity as individuals would suffer if they condone dishonesty in others.

### **The Honor System**

All SMU undergraduate students and graduate students with the exception of those enrolled in the Schools of Law, Theology, Business, or Education are subject to the Honor Code and as such are required to demonstrate an understanding of and to uphold the Honor Code. Honor codes for graduate students enrolled in the Cox School of Business, Dedman School of Law, Perkins School of Theology and Simmons School of Education and Human Development are explained in their graduate catalogs.

In support of the Honor Code, the Honor Council has the responsibility to maintain and promote academic integrity. The Honor Council is composed of a minimum of 27 members selected through an application and interview process organized by the Honor Council Executive Board.

Academic dishonesty includes plagiarism, cheating, academic sabotage, facilitating academic dishonesty and fabrication. Plagiarism is prohibited in all papers, projects, take-home exams or any other assignments in which the student submits another's work as being his or her own. Cheating is defined as intentionally using or attempting to use unauthorized materials, information or study aids in any academic exercise. Academic sabotage is defined as intentionally taking any action that negatively affects the academic work of another student. Facilitating academic dishonesty is defined as intentionally or knowingly helping or attempting to help another to violate any provision of the Honor Code. Fabrication is defined as intentional and unauthorized falsification or invention of any information or citation in an academic exercise.

Suspected cases of academic dishonesty may be handled administratively by the appropriate faculty member in whose class the alleged infraction occurred or referred to the Honor Council for resolution. Suspected violations reported to the Honor Council by a student or by an instructor will be investigated and, if the evidence warrants, a hearing will be held by a board composed of a quorum of four members of the Honor Council.

Any appeal of an action taken by the Honor Council shall be submitted to the University Conduct Council in writing no later than four calendar days (excluding school holidays) after notification of the Honor Council's decision.

## **Code of Conduct**

The following are University procedures and standards with which every student must become familiar. The University considers matriculation at SMU an implicit covenant and a declaration of acceptance on the part of the student of all University regulations. The Student Conduct & Community Standards Office, website [www.smu.edu/studentconduct](http://www.smu.edu/studentconduct), promotes community, scholarship and civility by holding students accountable to the Student Code of Conduct and the Honor Code.

Standards of conduct are established through faculty, student and administrative efforts and are under continuous evaluation by the entire University community in order to assure reasonable and fair limits. At SMU, the student is assumed to have a high degree of loyalty and responsibility to the University and its well-being, as well as to himself or herself in personal, social and intellectual pursuits; the student's behavior both on and off campus is evidence of this.

Students at SMU will discover that they are encouraged to exercise a great amount of personal freedom as well as accompanying responsibilities. Through their personal capacities for intelligent thought and action, mature students understand that there are situations in which certain behavior must be modified for the benefit of others. The University stands firm in its commitments to the rights and freedoms of students, expecting in return the same respect and concern.

Due respect for the entire University community, faculty, staff and one's fellow students is always expected. The University expects all students to be responsible citizens and to abide by all federal, state and local laws. The University Code of Conduct applies to students both on and off campus. It is the University's expectation that students will avoid behaviors such as, but not limited to, the misuse of drugs and alcohol, dishonesty, gambling, hazing, or behavior that endangers or threatens to endanger the health and safety of any person.

Students are required to identify themselves when asked by a properly identified faculty or staff member, or by another student serving as a University staff member. Persons who are not members of the University community and without business on campus may be asked to leave.

## **Conduct Review Process**

Clear disciplinary procedures are an important part of the mission of SMU as an educational institution. The intent of the system of due process at SMU is to be educational and not merely punitive for students. The goal continues to be to produce quality citizens. The purpose of the conduct review process is to encourage personal responsibility.

Depending on the degree of misconduct, a student may be subject to sanctions ranging from an informal warning to expulsion from the University. In addition, a student may be assigned educational sanctions designed to promote personal growth and development. Should a student be asked to leave the University, he or she should do so in an expeditious and peaceful manner. The student should remain off campus until he or she receives written permission from the Office of Student Conduct & Community Standards to return to campus. In the event of such separation, a student is still responsible for University financial obligations.

To ensure fairness and due process for all students in the conduct process, the student is granted an impartial hearing and the right to appeal to the University Conduct Council. A student who is appealing a sanction may remain in school until the decision and penalty are reviewed, unless otherwise determined by the Dean of Students, the Vice President for Student Affairs, or their designee. All actions related to the conduct review process are subject to presidential review.

Having voluntarily enrolled as students at Southern Methodist University and assumed a place in the University community, all students are presumed to be knowledgeable of, and have agreed to abide by the rules and regulations set

forth in the Student Code of Conduct as outlined in the SMU Student Handbook, which is available online at [www.smu.edu/StudentAffairs/StudentLife/StudentHandbook](http://www.smu.edu/StudentAffairs/StudentLife/StudentHandbook).

## **Student Engagement and Success**

### **Department of Student Development**

#### **Office of the Student Experience**

The Office of the Student Experience designs a comprehensive student experience supporting students and their families from orientation to graduation. Using a leadership framework, all students are guided through collegiate transitions. With recognition of the unique needs of veterans, graduate, transfer, and international students, the office advocates for and provides support to these special populations.

#### **Leadership**

The leadership programs available to students include the Emerging Leaders First-Year Leadership Development Program, the Crain Leadership Summit, and the Lonestar LeaderShape Institute. The Office of the Student Experience also supports student leadership development through the Caswell Leadership Program, for a group of selected students to develop projects focused on organizational leadership, faith-based leadership, community-based leadership, environmental leadership, fraternity and sorority leadership or culturally competent leadership.

#### **Parent and Family Programs**

Parents and families are supported through the Office of the Student Experience with a focus on assisting families to assist their students. Our office supports the SMU Mothers' and Dads' clubs, welcomes and supports new students and families during orientation, and supports family weekend.

#### **Special Population Support**

The Office of the Student Experience is committed to supporting all SMU students in their transitions into and through SMU. Additional support is coordinated for special student populations who may have unique factors that impact their transitions including Veteran, Transfer, International, and Graduate students.

#### **Women & LGBT Center**

[www.smu.edu/womenandlgbtcenter](http://www.smu.edu/womenandlgbtcenter)

The Women & LGBT Center works to increase awareness and understanding of gender, sexuality, and women's issues on campus through social, cultural and academic programming and outreach. We provide empowering spaces for students to develop as leaders through purposeful learning, educational, and advocacy opportunities. We also advise, support, and develop student organizations focused on gender, sexuality, and women's issues. Some of the organizations we advise include the Feminist Equality Movement, Women in Science and Engineering, and Spectrum: the lesbian, gay, bisexual, transgender and ally organization. Also housed in the center is the SMU Women's Symposium ([www.smu.edu/womsym](http://www.smu.edu/womsym)), which is part of the Education of Women for Social and Political Leadership series, established in 1966.

#### **Office of Social Change and Intercultural Engagement**

The Office of Social Change and Intercultural Engagement exists to connect students with opportunities to engage with and learn from the SMU campus, Dallas community, and beyond. The office prioritizes advocacy and awareness through immersive community engagement experiences and social justice education. There are two major functional areas of the office: community engagement and intercultural engagement.

The community engagement side of the office has signature service programs including The Big Event, Mustang Heroes, and Alternative Breaks—which provide students the opportunity to participate in immersive service experiences in Dallas and throughout the United States. The office also provides consulting services to individuals, classes, and offices to help connect them to meaningful and educational community engagement opportunities.

In addition, the office sponsors intercultural engagement and social justice education programs to provide opportunities for the exchange of ideas and experiences that enhance student perspectives, and offers various leadership opportunities through culturally based student organizations, student coordinator positions, and the CONNECT Mentoring Program.

For more information about our programs, please visit [www.smu.edu/socialchange](http://www.smu.edu/socialchange).

## **Department of Student Involvement**

[connect.smu.edu](http://connect.smu.edu)

The mission of Student Involvement is to foster experiences and create spaces encouraging students to discover their interests and find a sense of belonging through involvement. Research shows that students who get involved, regardless of the type of activity, tend to be more successful during their college experience. Student Involvement supports more than 200 opportunities for SMU students through academic and professional associations, campus programming boards, community service coalitions, fraternities and sororities, governing boards, honor societies, multicultural organizations, political clubs, club sports, religious organizations, and special interest groups. Professional staff are available to answer student's questions about getting involved and student organization operations.

The Student Involvement Office is located on the third floor of the Hughes-Trigg Student Center, Suite 314. Campus activities and organizations are an integral part of the developmental experience for students and a long-standing SMU tradition. Participation can help students develop leadership skills and provide inter-personal, social and cultural experiences.

Additional information is available online, including organization interests or type, membership requirements, contact information and event calendars. Student Involvement can also assist students in forming a new organization. To learn more visit [connect.smu.edu](http://connect.smu.edu).

**Eligibility Requirements.** Students who hold office in a student organization or represent the University as a member of a sponsored campus group (Mustang Band, Alternative Breaks, etc.) must be matriculated in a University degree-granting program, maintain a minimum 2.0 GPA, and may not be on academic probation.

## **Student Government**

Through SMU's system of representative governance, students participate with faculty and administration in the University's decision-making process. The primary voice of students in this process is the student-elected Student Senate comprised of senators, committee chairs, general members, and student body officers.

## **Hughes-Trigg Student Center**

[www.smu.edu/htrigg](http://www.smu.edu/htrigg)

The Hughes-Trigg Student Center supports the University's mission by serving as the hub of student life and activities. The Student Center enhances the student experience by providing services, conveniences, amenities, and resources to facilitate programming. The Student Involvement staff strives to provide a safe and community-focused environment to meet the diverse needs of all individuals. Our space offerings include a 6,400 square-foot ballroom, a tiered, amphitheater-style forum classroom, a 470-person capacity auditorium, a convenience store, a food court with a multifunction dining space, a post office, office and meeting space for student organizations, several lounging and quiet areas for studying, and six meeting rooms.

## **Residence Life and Student Housing**

[www.smu.edu/housing](http://www.smu.edu/housing)

The Department of Residence Life and Student Housing supports the goals of the University by creating residential communities that empower residents to value learning, citizenship and leadership in comfortable, well-maintained facilities. The department is responsible for the campus residential community, including all Residential Commons, Upper Division Housing, SMU-owned apartments, and SMU-owned Greek chapter houses.

## Hegi Family Career Development Center

[www.smu.edu/career](http://www.smu.edu/career)

The Hegi Family Career Development Center at SMU is dedicated to serving the needs of SMU students and alumni and assisting employers in reaching qualified candidates from SMU. The Career Development Center staff guides and encourages students and alumni in the development of skills necessary for lifelong career management and offers opportunities for employers to recruit students through campus events and online resources. At Hegi, the staff cares about helping students develop into well-rounded individuals, and is dedicated to values of consistency, authenticity and commitment to excellence.

**Career Express Drop-in Hours.** The Career Center offers 15-minute drop-in sessions on a first-come, first-served, basis. In these sessions, students can discuss career options or get help editing a resume. Additional information is available on our website at [www.smu.edu/career](http://www.smu.edu/career).

**Counseling Appointments.** The Career Center also provides opportunities for counseling appointments with a staff member. These longer sessions can help students navigate more complex issues, including major exploration, career exploration, professional skill building, and more.

**Peer Mentors.** Peer Mentors are highly trained student leaders who help fellow students navigate the career development process, including assisting with drop-ins, editing cover letters and resumes, and representing Hegi at campus events.

**Career Development Ambassadors.** CDA is a student organization designed to provide career development opportunities on the SMU Campus. CDAs organize events for the SMU community, which inspire engagement in the career development process, develop students' career tools, and provide networking opportunities.

**Experiential Learning.** Want to learn more about an industry, company or specific job? Experiential learning is the best way to do so. Below are some easy ways to get connected:

- **Coffee Chats/Lunch 'n Learns:** Meet an employer in an informal setting to learn about their career journey.
- **Mentors:** Connect and develop a relationship with an industry professional that is in a career you are interested in.
- **Employer Site Visits/Externships:** Shadow professionals and SMU alumni for the day and learn about their career path and what they do on a daily basis. Mustang and SMU Connection programs partner with top regional employers and alumni providing student exposure to today's competitive and ever-changing job market.
- **Informational Interviews:** Have a conversation with an alum and/or employer to build your network and learn about their education and career path.

**Employer Events.** Our Office cultivates meaningful relationships with organizations and employers who are invested in networking with dynamic, talented and skilled students across SMU's liberal and communication arts communities. Throughout the year, the Career Center hosts 2-4 Career and Internship Fairs, along with a host of Employer Industry Panels, Company Information Sessions and Industry Training and Development Workshops. These events offer students an opportunity to work with employers and alumni and to learn the skills necessary to be successful in the workplace.

## Office of the Chaplain and Religious Life

[www.smu.edu/chaplain](http://www.smu.edu/chaplain)

The Office of the Chaplain and Religious Life offers resources of pastoral care and theological reflection that nurture spiritual and vocational development as well as the moral and ethical vision and character of students, faculty and staff. Dr. Stephen W. Rankin is the chaplain and minister to the University community. Chaplain Rankin leads and preaches at weekly chapel service, an ecumenically Christian, all-University service of worship, each Wednesday during the term. Students, faculty and staff are invited to participate in this service through music, scripture readings or other

expressions of worship. Other services, including the University Service of Memory, Ash Wednesday Service and memorial services as needed, are also planned and implemented by the Office of the Chaplain.

Presently, there are more than 28 religious life organizations. Alongside the Christian groups aligned with denominations, local Dallas-area congregations or national parachurch ministries, SMU also has an active Hillel chapter for Jewish students, a bustling Muslim Student Association and other faith groups of various traditions. A large number of undergraduate, graduate and professional students, as well as many of SMU's faculty, staff and administrators, participate in these religious communities.

Additionally, the Office of the Chaplain partners with faculty members across campus to direct the Faith and Learning Scholars, a cohort of students who want the experience of integrating their faith with their academic pursuits. Participants can qualify for the community engagement proficiency. Similarly, the Civil Rights Pilgrimage, founded in 2004, is an eight-day spring break journey through the South whereby students encounter shrines of freedom and meet heroes of the civil rights movement. This collaboration with Dedman College offers students a transformative opportunity while earning academic credit.

Chaplains are available for personal counseling and spiritual direction with students, faculty and staff during office hours. The Office of the Chaplain is located in the Hughes-Trigg Student Center, Suite 316. Nearby are two rooms for prayer, one designated for Muslim community members and the other for all others.

## **Residence Accommodations**

The University prides itself on offering a full living and learning experience for its resident students. The mission of the Department of Residence Life and Student Housing is to advance the goals and objectives of the University by creating residential communities that empower residents to value learning, citizenship and leadership. To this end, RLSH seeks opportunities to promote an intellectual culture in SMU's residential communities that complements an already flourishing campus social culture. RLSH is responsible for residence halls, 11 Residential Commons and 10 SMU-owned Greek chapter houses. This responsibility includes making sure that facilities are well maintained and that students have opportunities to grow personally and excel academically.

## **Housing Policy for All Students**

All incoming first-year undergraduate students are required to live on campus during their first two years at SMU. Exceptions may be granted on the basis of a financial, medical or personal hardship at the discretion of the dean of RLSH to those students from Dallas/Fort Worth who live with a parent or legal guardian in the primary residence of the parent or guardian. For housing purposes, the two years means the first two years of college. Incoming transfer students who are over the age of 16 and under the age of 20 are required to live on-campus for their first year at SMU. For 2018–2019, upperclass and graduate students are not required to live on campus but may apply on a space-available basis.

## **Applications for Residence**

New graduate students should submit the completed application and housing license agreement to RLSH with a check or money order for \$100 made payable to Southern Methodist University for the nonrefundable housing deposit. Notification of assignment will be made by RLSH.

The housing license agreement is for the full academic year (fall and spring terms). Room charges for the fall term will be billed and are payable in advance of the term for students who register before August 1, and room charges for the spring term will be billed and are payable in advance of that term for students who register before December 1. Students who register after these dates must pay at the time of registration. Room charges for the full academic year will be due and payable should a student move out at any time during the school year. Accommodations for shorter periods are available only by special arrangement with RLSH before acceptance of the housing license agreement. It is important that applicants become familiar with the license agreement, as it is a legally binding document.

## **Graduate Residence Accommodations**

The Department of Residence Life and Student Housing operates one apartment residence hall designated for graduate students. Martin Hall, a single occupancy, efficiency apartment facility, houses single graduate students and senior undergraduates.

## **Special Housing Needs**

Students having special housing needs because of a disability should contact the SMU Office of Disability Accommodations and Success Strategies in order to establish eligibility for accommodations. When applying for housing, students should also submit information to RLSH regarding a request for accommodations. DASS and RLSH will work together with the student on their specific situation to make necessary accommodations.

## **General Housing Information**

Each apartment is furnished with a Murphy bed, desk, dresser, kitchen dining table and chairs. All university residences have wired and wireless Ethernet connections to the University's computer system. All residence halls are air-conditioned and some have individually climate-controlled rooms. Washing machines and dryers are located in all residence halls. Meal plans are not required in the graduate hall. For more information, students should visit [www.smu.edu/housing](http://www.smu.edu/housing) or contact the Department of Residence Life and Student Housing, Southern Methodist University, PO Box 750215, Dallas TX 75275-0215; phone 214-768-2407; fax 214-768-4005; [housing@smu.edu](mailto:housing@smu.edu).

# Meadows School of the Arts: Faculty and Staff

## Office of the Academic Dean

Samuel S. Holland, *Dean, Algur H. Meadows Deanship*

Kevin Paul Hofeditz, *Senior Associate Dean for Academic Affairs*

David Sedman, *Associate Dean for Administration*

Karen Drennan, *Associate Dean for Communications and Strategic Initiatives*

Corinna Nash-Wnuk, *Associate Dean for Admissions and Enrollment Management*

## Administration

Mark Roglán, *Linda P. and William A. Custard Director of the Meadows Museum and Centennial Chair*

Deanna Johnson, *Executive Assistant to the Dean*

Jessica Whitt Garner, *Director of Development*

Chuck Donaldson, *Undergraduate Degree Counselor*

Ira Greenberg, *Director, Center of Creative Computation*

Pam Henderson, *Director of Scholarships and Financial Aid*

Jay Hengst, *Director of Operations and Events*

Joe Hoselton, *Director of Graduate Admissions and Institutional Research*

Jennifer R. Smith, *Student Academic Services Coordinator*

Janet Stephens, *Undergraduate Degree Counselor*

Cynthia Watson, *Financial Business Manager*

Clyde Valentín, *Director, Ignite/Arts Dallas*

Zannie Giraud Voss, *Director, SMU DataArts*

## Meadows Faculty

Joaquín Achúcarro, *Professor of Music, Joel Estes Tate Chair in Piano*

Carter Alexander, *Visiting Artist-in-Residence in Dance*

Mark Allen, *Lecturer of Advertising, M.A., Southern Evangelical Seminary*

Sarah Allen, *Associate Professor of Music Education, Ph.D., Texas*

Patricia Alvey, *Professor of Advertising, Ph.D., Texas*

Christopher Anderson, *Associate Professor of Sacred Music, Ph.D., Duke*

Willie Baronet, *Stan Richards Creative Chair in Advertising, M.F.A., Texas (Dallas)*

Jacob Batsell, *Associate Professor of Journalism, William J. O'Neil Chair in Business Journalism, ad interim, M.A., Texas*

Amber Bemak, *Assistant Professor of Film and Media Arts, M.F.A., Art Institute of Chicago*

Amber Benson, *Executive-in-Residence in Advertising, M.A., Savannah College*

Shelley C. Berg, *Professor of Dance, Ph.D., New York*

Caitlin Berrigan, *Assistant Professor of Art, M.S., M.I.T.*

Rhonda Blair, *Professor of Theatre, Ph.D., Kansas*

Emanuel Borok, *Artist-in-Residence in Violin, Concertmaster DSO 1985-2010, B.M., Gnessin Academy of Music*

Aaron Boyd, *Professor of Practice in Violin, Director of Chamber Music, B.M. Juilliard*

Courtney Brown, *Assistant Professor of Creative Computing, DMA, Arizona State*

Mark Burrell, *Visiting Artist-in-Residence in Dance, M.F.A., Wisconsin*

Brad Cassil, *Lecturer of Theatre, B.F.A., California Institute of the Arts*

Melanie Clemmons, *Assistant Professor of Art, M.F.A., Colorado*

Brandi Coleman, *Artist in Residence in Dance, M.F.A., Wisconsin*

Roberto Conduru, *Endowed Distinguished Research Chair in Art History*, Ph.D., Universidade Federal Fluminense, (Brazil)

Michael Connolly, *Associate Professor of Theatre*, Ph.D., Indiana

Michael Corris, *Professor of Art*, Ph.D., University College London

Benard Cummings, *Associate Professor of Theatre*, M.F.A., Yale

Kristin Dana, *Assistant Professor of Voice*, MFA, Brooklyn College of the City University of New York

Jack Delaney, *Professor of Music, Meadows Wind Ensemble Director*, D.M.A., Cincinnati College-Conservatory of Music

Patricia Harrington Delaney, *Associate Professor of Dance*, M.F.A., SMU

Andrés Díaz, *Professor of Cello*, B.M., Artist Diploma, New England Conservatory

Dale Dietert, *Senior Lecturer of Voice*, M.M., Texas

Maria Dixon Hall, *Associate Professor of Corporate Communication and Public Affairs*, Ph.D., Missouri

Christopher Dolder, *Associate Professor of Dance, Chair, Division of Dance*, M.F.A., Mills

Sandra Duhé, *Associate Professor of Corporate Communication and Public Affairs, Division of Corporate Communication and Public Affairs Chair*, Ph.D., Texas (Dallas)

Virginia Dupuy, *Professor of Voice*, M.M., Texas

LaShonda Eaddy, *Assistant Professor of Corporate Communication and Public Affairs*, Ph.D., Georgia

Elizabeth Eager, *Assistant Professor of Art History*, Ph.D., Harvard

Steven Edwards, *Distinguished Chair and Professor of Advertising, Director of the Temerlin Advertising Institute for Education and Research*, Ph.D., Texas

Stefan Engels, *Professor of Music, Leah Young Fullinwider Centennial Chair in Music Performance*, D.M.A., Northwestern

Valerie Evans, *Professor of Practice in Journalism*, B.A., Northern Illinois

Mark Feezell, *Senior Lecturer in Music Theory*, Ph.D., North Texas

Barnaby Fitzgerald, *Professor of Art*, M.F.A., Yale

Hugh Clifton Forbis, *Professor of Voice*, M.M., SMU

Robert Frank, *Associate Professor of Music Theory and Composition*, Ph.D., North Texas

Amy Freund, *Assistant Professor of Art History, Kleinheinz Family Endowment for the Arts and Education Endowed Chair in Art History*, Ph.D., California (Berkeley)

Kathleen Gallagher, *Assistant Professor of Arts Management and Arts Entrepreneurship*, Ph.D., Colorado (Denver)

Paula Goldberg, *Lecturer of Film and Media Arts*, M.F.A., Rutgers

Ira Greenberg, *Professor of Art and Creative Computation*, M.F.A., Pennsylvania

Randall C. Griffin, *University Distinguished Professor of Art History*, Ph.D., Delaware

Sean Griffin, *Professor of Film and Media Arts*, Ph.D., Southern California

Jo Guldi, *Associate Professor of Creative Computing*, Ph.D., California (Berkeley)

Kevin Gunter, *Lecturer in Piano and Class Piano*, M.M., SMU

Pam Harris Hackett, *Executive-in-Residence in Journalism*, B.S., Texas

Blake Hackler, *Associate Professor of Theatre*, M.F.A., Yale

Hank Hammett, *Senior Lecturer in Music, Director of Lyric Theatre*, M.M., Texas

Kevin Hanlon, *Associate Professor of Music Theory and Composition*, D.M.A., Texas

Lane Harder, *Lecturer in Music Theory and Composition*, D.M.A., Texas

Jim Hart, *Professor of Practice of Arts Management and Arts Entrepreneurship, Arts Entrepreneurship Director*, M.F.A., Yale

Kevin Heffernan, *Associate Professor of Film and Media Arts*, Ph.D., Wisconsin (Madison)

Adam Herring, *Department of Art History Chair, Emily Rich Summers Endowed Professor in Art History*, Ph.D., Yale

Kevin Paul Hofeditz, *Professor of Theatre, Senior Associate Dean, Meadows School of the Arts*, M.F.A., Missouri (Kansas City)

Samuel S. Holland, *Professor of Music, Algur H. Meadows Deanship, Meadows School of the Arts*, Ph.D., Oklahoma

Derrick Horne, *Professor of Practice in Music*, M.M., SMU

Michele Houston, *Professor of Practice in Journalism*, M.A., North Texas

Yan Huang, *Assistant Professor of Advertising*, Ph.D., Pennsylvania State University

Pamela Elrod Huffman, *Associate Professor of Music, Director of Choral Activities*, D.M.A., Illinois

Hyae-jin Hwang, *Lecturer in Piano Performance and Pedagogy, Piano Preparatory Department*, D.M.A., Michigan

Adam Jasienski, *Assistant Professor of Art History*, Ph.D., Harvard

Tamara Johnson, *Visiting Lecturer in Sculpture*, M.F.A., Rhode Island School of Design

David Karp, *Professor of Piano*, D.M.A., Colorado

Alice Kendrick, *Professor of Advertising*, Ph.D., Tennessee (Knoxville)

Mark Kerins, *Associate Professor of Film and Media Arts*, Ph.D., Northwestern

Rita Kirk, *Professor of Corporate Communication and Public Affairs*, Ph.D., Missouri

Derek Kompare, *Associate Professor of Film and Media Arts, Division of Film and Media Arts Chair*, Ph.D., Wisconsin (Madison)

Camille Kraeplin, *Associate Professor of Journalism*, Ph.D., Texas

Peter Kupfer, *Associate Professor of Musicology*, Ph.D., Chicago

Carrie La Ferle, *Marriott Family Endowed Professor and Altshuler Distinguished Teaching Professor*, Ph.D., Texas

Stephanie Langin-Hooper, *Assistant Professor of Art History, Karl Kilinski, II Endowed Chair in Hellenic Visual Culture*, Ph.D., California (Berkeley)

Miles Ethan Lascity, *Assistant Professor of Journalism*, Ph.D., Drexel

Steve Lee, *Professor of Practice in Corporate Communication and Public Affairs*, B.J., Texas

Bill Lengfelder, *Professor of Theatre*, M.F.A., Lindenwood College

Carol Leone, *Professor of Piano*, D.M.A., North Texas

Janice Lindstrom, *Lecturer in Music Therapy*, M.A., Texas Women's University

Michael Lively, *Lecturer in Music Theory*, Ph. D, North Texas

Anna Lovatt, *Assistant Professor of Art History*, Ph.D. Courtauld Institute of Art

Owen Lynch, *Associate Professor of Corporate Communication and Public Affairs*, Ph.D., Texas A&M

Catharine Lysinger, *Professor of Practice in Piano Performance and Pedagogy, Piano Preparatory Department Director*, D.M.A., Houston

David Mancini, *Associate Professor of Music Theory, Division of Music Director*, Ph.D., Yale

Stephanie Martin, *Assistant Professor of Corporate Communication and Public Affairs*, Ph.D., California (San Diego)

Eileen Maxson, *Senior Lecturer in Photography*, M.F.A., Carnegie Mellon

Cheryl Mendenhall, *Senior Lecturer of Advertising, Graphic Design Minor Program Director*, M.F.A., Tennessee (Knoxville)

Brian Molanphy, *Associate Professor of Art*, M.F.A., Pennsylvania State

Barbara Hill Moore, *Professor of Voice*, M.S., Illinois

Alfred Mouledous, *Professor of Piano*, M.M., Eastman School of Music

Sidharth Muralidharan, *Associate Professor of Advertising*, Ph.D., Southern Mississippi (Hattiesburg)

Melissa Murray, *Senior Lecturer in Music Theory, Division of Music Associate Director*, M.M., SMU

Sarah Nance, *Assistant Professor of Art*, M.F.A., University of Oregon

Kristina Nielsen, *Assistant Professor of Musicology*, Ph.D. California (Los Angeles)

Peter-J.E. Noble, *Professor of Practice in Advertising, Graduate Program Coordinator*, M.A., Texas

Russell Parkman, *Associate Professor of Theatre*, M.A., Illinois

Leslie Peck, *Associate Professor of Dance, Balanchine Trust Repetiteur and Principal Dancer*

Tony Pederson, *Professor of Journalism, Belo Foundation Endowed Distinguished Chair in Journalism*, M.A., Ohio State

Troy Perkins, *Associate Professor of Film and Media Arts*, M.F.A., New York

Paul Phillips, *Professor of Music, Martha Raley Peak Centennial Chair and Director of the Meadows Symphony Orchestra*, D.M.A., Eastman School of Music

Sara Romersberger, *Associate Professor of Theatre*, M.A. (Certified in Mime), Illinois

Christopher Salinas, *Senior Lecturer of Corporate Communication and Public Affairs*, Ph.D., Wayne State

Anne Schilling, *Associate Professor of Theatre*, M.A., Central School of Speech and Drama (London)

Jared Schroeder, *Assistant Professor of Journalism*, Ph.D., Oklahoma

Julie Scott, *Professor of Practice in Music Education*, Ph.D., Eastman School of Music

David Sedman, *Associate Professor of Film and Media Arts*, Ph.D., Bowling Green

Lauren Smart, *Professor of Practice in Journalism*, M.A., Syracuse

David Smith, *Visiting Lecturer of Creative Computing*, M.S., Embry-Riddle Aeronautical

Gretchen Smith, *Associate Professor and Interim Chair of Theatre*, Ph.D., Indiana

Jason Smith, *Lecturer in Music, Vocal Coach*, M.M., Florida State

Claudia Stephens, *Associate Professor of Theatre*, M.F.A., Carnegie Mellon

Abbey Stockstill, *Assistant Professor of Art History*, Ph.D., Harvard University

Nishiki Sugawara-Beda, *Assistant Professor of Art*, M.F.A., Indiana

Daniel Tague, *Assistant Professor of Music Therapy*, Ph.D., Florida State

Karen Thomas, *Professor of Practice in Journalism*, M.S., Columbia

Alex Turrini, *Visiting Professor of Arts Management and Arts Entrepreneurship, Interim Chair*, Ph.D., Bocconi (Milan)

Kara-Lynn Vaeni, *Assistant Professor of Theatre*, M.F.A., Yale

Philip Van Keuren, *Professor of Art*, M.F.A., SMU

Mary Vernon, *Professor of Art*, M.A., New Mexico

Zannie Giraud Voss, *Professor of Arts Management and Arts Entrepreneurship, Director, SMU DataArts*, Ph.D., IAE, Aix-en-Provence (France)

Ben Voth, *Associate Professor of Corporate Communication and Public Affairs, Debate and Speech Director*, Ph.D., Kansas

Zachary Wallmark, *Assistant Professor of Musicology*, Ph.D., California (Los Angeles)

Xi Wang, *Associate Professor of Music Theory and Composition*, Ph.D., Cornell

Xie, Quan, *Assistant Professor of Advertising*, Ph.D., Ohio (Athens)

Anne Westwick, *Professor of Practice of Dance*, M.F.A., Mills College

Pawel Wnuk, *Professor of Practice in Bassoon and Instrumental Music, Performer Diploma*, Indiana

Stanley Wojewodski, Jr., *Meadows Distinguished Professor of Directing*, M.F.A., Catholic

Myra Woodruff, *Professor of Dance*, B.A., New York, International Artist, Instructor and Choreographer, Graham Technique Scholar

Steve Woods, *Professor of Theatre*, M.F.A., New Orleans

Rick Worland, *Professor of Film and Media Arts*, Ph.D., California (Los Angeles)

Jessie Zarazaga, *Lecturer of Creative Computing*, Ph.D. candidate, SMU

## **Meadows Emeritus Faculty**

Robert Beard, *Professor Emeritus of Dance*, M.F.A., SMU

Janis Bergman-Carton, *Professor Emeritus of Art History*, Ph.D., Texas

Danny Buraczeski, *Professor Emeritus of Dance*, B.A., Bucknell

Annemarie Weyl Carr, *Professor Emeritus of Art History*, Ph.D., Michigan

Robert B. Chambers, *Professor Emeritus of Stage Design*, M.A., Kansas

Alessandra Comini, *Professor Emeritus of Art History*, Ph.D., Columbia

Charles Eagle, *Professor Emeritus of Music Therapy*  
 John Gartley, *Professor Emeritus of Cinema*, Ph.D., Michigan  
 Kenneth Hart, *Professor Emeritus of Sacred Music*, D.M.A., Cincinnati  
 Charley Helfert, *Professor Emeritus of Theatre*, Ph.D., Wisconsin (Madison)  
 Debora Hunter, *Professor Emeritus of Art*, M.F.A., Rhode Island School of Design  
 Arthur B. Koch, *Professor Emeritus of Art*, M.S.A., Washington  
 Robert Krout, *Professor Emeritus of Music Therapy*, Ed.D., Columbia, MT-BC  
 Margaret Loft, *Professor Emeritus of Theatre*  
 David McHam, *Professor Emeritus of Communications*, M.S., Columbia  
 Dale Moffitt, *Professor Emeritus of Theatre*, Ph.D., Washington State  
 Jim Morris, *Professor Emeritus of Communications*, Ed.D., North Texas  
 James A. Ode, *Professor Emeritus of Music Education*, D.M.A., Performer's Certificate, Eastman School of Music  
 Cecil O'Neal, *Professor Emeritus of Theatre*, B.A., Wisconsin  
 Larry Palmer, *Professor Emeritus of Organ/Harpsichord*, A.Mus.D., Eastman School of Music  
 G. Donald Pasquella, *Professor Emeritus of Communications*, M.A., Iowa  
 Darwin Payne, *Professor Emeritus of Communications*, Ph.D., Texas  
 Simon Sargon, *Professor Emeritus of Composition*, M.S., Juilliard School of Music  
 James W. Sullivan, *Professor Emeritus of Art*, M.F.A., California State (Long Beach)  
 Martin Sweidel, *Professor Emeritus of Music*, D.M.A. University of Cincinnati College-Conservatory of Music  
 Thomas W. Tunks, *Professor Emeritus of Music*, Ph.D., Michigan State  
 Don Umphrey, *Professor Emeritus of Advertising*, Ph.D., Texas  
 Mary Vernon, *Professor Emeritus of Art*, M.A., New Mexico  
 P. Gregory Warden, *Professor Emeritus of Art History*, Ph.D., Bryn Mawr  
 Stephen D. Wilder, *Professor Emeritus of Art*, M.F.A., Wisconsin

## **Meadows Artist Staff**

Richard Abrahamson, *Staff Musician*, Juilliard School of Music  
 David Brown, *Piano Technician, Division of Music Assistant Director for Operations*, B.A., Coe College  
 Tara Emerson, *Accompanist*, M.M., South Carolina  
 Ryan Goolsby, *Studio Technician*, M.F.A., Texas Christian  
 Eliseo Gutierrez, *Scene Shop Foreman*  
 Christopher Ham, *Director of Dance Production*, M.F.A., SMU  
 Don Hopkins, *Mustang Band Director*  
 Mina Polevoy, *Part-time Staff Musician*  
 JT Ringer, *Prop Master*, B.F.A., Emerson College  
 Eugenie Stallings, *Costumer*, B.A., Texas  
 Tommy Tucker, *Mustang Band Staff*

## **Meadows Adjunct Faculty**

*Note: The list of faculty adjuncts provided here is advisory only. In any given term, a particular adjunct may not be able to teach because of other commitments. This is especially true because many of SMU's adjuncts are professionals and scholars who are in high demand.*

Christopher Adkins, *Adjunct Professor of Cello, Principal Cello DSO*, M.M.A., Yale  
 Ryan Anthony, *Adjunct Associate Professor of Trumpet*, M.M., Cleveland Institute of Music  
 Dawn Askew, *Adjunct Lecturer of Theatre, Master Electrician*, B.A., Southwestern Oklahoma State  
 Deborah Baron, *Adjunct Assistant Professor of Flute, Assistant Principal Flute DSO*, M.M., Juilliard School of Music

Brian Bentley, *Adjunct Lecturer, Vocal Coach*, M.M., SMU  
 Lars Berg, *Adjunct Lecturer of Creative Computing*, M.Arch., Pratt Institute  
 Jason Biggs, *Adjunct Lecturer of Theatre*, B.M., SMU  
 Linda Blase, *Adjunct Lecturer of Theatre*, M.F.A., Trinity  
 Christie Bondade, *Adjunct Lecturer of Dance*, M.F.A., California Institute of the Arts  
 Ann Marie Brink, *Adjunct Associate Professor of Viola, Associate Principal Viola, DSO*, M.M., Juilliard  
 John Bryant, *Adjunct Lecturer in Percussion*  
 David Buck, *Adjunct Associate Professor of Flute, Principal Flute, DSO, B.M., Juilliard*  
 Christina Coats, *Adjunct Lecturer of Corporate Communication and Public Affairs*, B.S., Wyoming  
 Kim Corbet, *Adjunct Assistant Professor of Music History and Literature*, M.M., Texas Christian  
 Janet Clarkson Davis, *Adjunct Professor of Arts Management and Arts Entrepreneurship*, B.F.A., Michigan  
 Scott Dettra, *Adjunct Associate Professor of Organ*, M.M., Westminster Choir College  
 Zenetta Drew, *Adjunct Professor of Arts Management and Arts Entrepreneurship*, B.B.A., Texas A&M (Commerce)  
 Sandi Edgar, *Adjunct Lecturer of Advertising*, M.A., Texas (Dallas)  
 Donald Fabian, *Adjunct Assistant Professor of Saxophone*, M.M., Michigan State  
 Kevin Finamore, *Adjunct Associate Professor of Trumpet*, M.M., Juilliard  
 Rebecca Flores, *Adjunct Lecturer of Film and Media Arts, M.F.A.*, University of Southern California  
 Paul Garner, *Adjunct Associate Professor of Clarinet, Associate Principal Clarinet DSO*, M.M., Kansas  
 Jean Larson Garver, *Adjunct Professor of Flute, Principal Flute DSO (retired)*, M.M., Texas  
 Liudmila Georgievskaya, *Adjunct Lecturer, Coordinator of Accompanying*, Moscow State Conservatory  
 Matthew Good, *Adjunct Associate Professor of Tuba, Principal Tuba DSO*, B.M., Curtis Institute of Music  
 Robert Guthrie, *Adjunct Professor of Guitar, Guitar Ensemble Director*, B.M., North Carolina School of the Arts  
 David Hader, *Adjunct Lecturer of Advertising*, M.A., North Texas  
 John Hall, *Adjunct Lecturer of Advertising*, B.A., Oklahoma  
 Erin Hannigan, *Adjunct Professor of Oboe, Principal Oboe DSO*, M.M., Eastman School of Music  
 Robert Hart, *Adjunct Lecturer of Journalism*, B.A., Texas (Arlington)  
 Barry Hearn, *Adjunct Associate Professor of Trombone and Euphonium, Principal Trombone, DSO*, M.M., Illinois  
 Sally Helpie, *Adjunct Lecturer of Film and Media Arts*, J.D., California (Los Angeles)  
 Nora Henson, *Adjunct Associate Professor of Music Education*, M.A., Sam Houston State  
 Haley Hoops, *Adjunct Associate Professor of Horn, DSO*, M.M., Northwestern  
 Gregory Hustis, *Adjunct Professor of Horn, Principal Horn DSO (retired)*, B.M., Curtis Institute of Music  
 Tearlach Hutcheson, *Adjunct Lecturer of Film and Media Arts*, M.A., Colorado  
 Lynne Jackson, *Adjunct Assistant Professor of Music Education*, M.M., Michigan  
 Matthew Jacob, *Adjunct Lecturer of Corporate Communication and Public Affairs*, M.A., Missouri  
 Brian Jones, *Adjunct Lecturer in Percussion, Principal Timpani DSO*, Professional Certificate, Temple  
 Elif Kavakci, *Adjunct Lecturer of Journalism*, M.L.S., SMU  
 Camille King, *Adjunct Assistant Professor of Voice*, B.A., California  
 Diane Kitzman, *Adjunct Associate Professor of Violin, Principal Violin DSO*, B.A., Michigan  
 John Kitzman, *Adjunct Professor of Trombone, Principal Trombone DSO (retired)*, B.M., Michigan  
 Susan Kress, *Adjunct Professor of Art*, M.F.A., Southern Illinois  
 Drew Lang, *Adjunct Lecturer in Percussion*, M.M., Arizona  
 Gordon Law, *Adjunct Lecturer of Advertising*, B.S., Oklahoma State  
 Steve Leary, *Adjunct Lecturer of Theatre, Assistant Technical Director*, B.A., Cameron  
 Linda Leavell, *Adjunct Lecturer of Journalism*, B.A., Texas  
 Thomas Lederer, *Adjunct Associate Professor of Double Bass, Co-principal Double Bass DSO*, B.F.A., Carnegie Mellon

Jon Lee, *Adjunct Assistant Professor of Music, Percussion Ensemble Director*, M.M., SMU  
Emily Levin, *Adjunct Associate Professor of Harp, Principal Harp, DSO*, M.M. Juilliard  
Alan Lidji, *Adjunct Lecturer of Advertising*, B.F.A., Colorado State  
Peter Ligon, *Adjunct Lecturer of Art*, M.F.A., SMU  
David Matthews, *Adjunct Assistant Professor of Music*, B.M., North Texas  
Darren McHenry, *Adjunct Assistant Professor of Trombone, Bass Trombone, DSO*, M.M., Juilliard  
Meredith McKee, *Adjunct Lecturer of Corporate Communication and Public Affairs*, B.A., SMU  
Matthew McKinney, *Adjunct Lecturer of Theatre, Technical Director*, MFA, San Diego State University  
Michele Meitl, *Adjunct Lecturer of Corporate Communication and Public Affairs*, J.D., Catholic  
Kimberly Millea, *Adjunct Lecturer of Corporate Communication and Public Affairs*, M.A., New York  
Maureen Mixtacki, *Adjunct Lecturer of Arts Management and Arts Entrepreneurship*, B.B.A., Notre Dame  
Jamal Mohamed, *Adjunct Lecturer in Percussion, World Music Ensemble Director*  
Bryon Morrison, *Adjunct Lecturer of Advertising*, B.A., Iowa State  
Naoko Nakamura, *Adjunct Assistant Professor of Harp*, M.M., Rice  
Nathan Olson, *Adjunct Professor of Violin, Co-Concertmaster, DSO*, M.M., Cleveland Institute of Music  
Morgan Palmer, *Adjunct Lecturer of Dance*, B.F.A., SMU  
Melissa Panzarello, *Adjunct Lecturer in Theatre, Costume Shop Manager*, M.F.A., Florida State  
Andrea Perez, *Adjunct Lecturer of Arts Management and Arts Entrepreneurship*, J.D., South Texas College of Law Houston  
Brian Perry, *Adjunct Associate Professor of Double Bass, DSO*, M.M., Boston  
Steven Piechocki, *Adjunct Lecturer in Theatre, Associate Master Electrician*, M.F.A., Utah State  
Gregory Raden, *Adjunct Associate Professor of Clarinet, Principal Clarinet DSO*, B.M., Curtis Institute of Music  
James Richman, *Adjunct Lecturer in Harpsichord, Dallas Bach Society Director*, M.M., Juilliard  
Wilfred Roberts, *Adjunct Professor of Bassoon, Principal Bassoon DSO (retired)*, B.M., Oberlin College Conservatory of Music  
Jill Robinson, *Adjunct Professor of Arts Management and Arts Entrepreneurship*, MBA, University of Colorado  
Mark Roglán, *Adjunct Associate Professor of Art History*, Ph.D., Autónoma de Madrid  
Ellen Rose, *Adjunct Associate Professor of Viola, Principal Viola DSO*, M.M., Juilliard School of Music  
Paul Schmidt, *Adjunct Assistant Professor of Music Education*, M.M., North Texas  
Jason Shipp, *Adjunct Lecturer of Advertising*, B.A., SMU  
David Smith, *Adjunct Instructor of Creative Computing*, M.S., Embry-Riddle Aeronautical  
Edward Lee Smith, *Adjunct Lecturer in Percussion*  
Ted Soluri, *Adjunct Associate Professor of Bassoon, Principal Bassoon, DSO*, M.M., Cleveland Institute of Music  
Barbara Sudweeks, *Adjunct Associate Professor of Viola, Associate Principal Viola DSO*, Curtis Institute of Music  
Jayne Suhler, *Adjunct Professor of Practice in Journalism*, M.A., Texas  
Jean-Jacques Taylor, *Adjunct Lecturer of Journalism*, B.A., Ohio State  
Bruce Tomaso, *Adjunct Lecturer of Journalism*, B.A., Texas  
Tabatha Trolli, *Adjunct Lecturer of Art*, M.F.A., University of North Texas  
Frank Troyka, *Adjunct Associate Professor of Music Education*, M.M., Sam Houston State  
Brittany Merrill Underwood, *Adjunct Lecturer of Corporate Communication and Public Affairs*, M.A., Fuller Theological Seminary  
Brittni Watkins, *Adjunct Lecturer of Creative Computing, Master of Science in Computer Science*, SMU  
Kara Kirkendoll Welch, *Adjunct Associate Professor of Flute, DSO*, M.M., SMU  
Kathy Windrow, *Adjunct Lecturer of Theatre*, M.A., M.F.A., SMU

# Perkins School of Theology

## Academic Calendar

### Fall 2019

#### August

13–14, **Tuesday–Wednesday:** Intern orientation

17, **Saturday:** Houston Lay School

19, **Monday:** New Student Orientation (Houston)

19–24, **Monday–Saturday:** Houston hybrid classes meet face to face at Houston Methodist Hospital

23, **Friday:** New Student Orientation (Dallas)

22–23, **Thursday–Friday:** Late registration, 206 Kirby Hall, Registrar's Office

23, **Friday:** Last day to withdraw from all classes without any tuition charge

26, **Monday:** First day of classes in Dallas

30, **Friday:** Last day to enroll, add courses or drop a course without grade record or tuition billing while remaining enrolled for the term.

30, **Friday:** Last day to file for December graduation

#### September

2, **Monday:** Labor Day - University holiday (offices closed and no classes)

9, **Monday:** Last Day to drop a course without academic record (tuition charges apply)/withdraw from university without academic record (withdrawal refund schedule applies)

13, **Friday:** Faculty conference

19, **Thursday:** Inside Perkins in Dallas

20, **Friday:** Divisional meetings, 11:30 a.m.

30, **Monday:** Perkins faculty meeting, 9:30 a.m.

#### October

11, **Friday:** Divisional meetings, 11:30 a.m.

14–15, **Monday–Tuesday:** Perkins fall break (no classes)

17, **Thursday:** Inside Perkins in Dallas

21, **Monday:** Faculty as Guild, 9:30 a.m.

#### November

4, **Monday:** Perkins faculty meeting, 9:30 a.m.

4, **Monday:** 60% point of the term that federal financial aid has been earned if a student officially withdraws from SMU; prior to this date a partial calculated return to federal programs will be required.

4–9, **Monday–Saturday:** Houston hybrid classes meet face to face at Houston Methodist Hospital.

4–22, **Monday–Friday:** Advance registration for Houston spring term and interterm

8, **Friday:** Last day to drop a class for fall term (grade of *W*)

8, **Friday:** Divisional meetings, 11:30 a.m.

9–22, **Saturday–Friday:** Advance registration for all Perkins spring term and interterm

11–12, **Monday–Tuesday:** Fall Convocation

12, **Tuesday:** Inside Perkins in Dallas

26, **Tuesday:** Last day to withdraw from the University (grade of *W*)

27, **Wednesday:** Perkins Thanksgiving recess (no classes)

**28-29, Thursday–Friday:** Thanksgiving holiday – University holidays (no classes and offices closed)

## **December**

**2, Monday:** Perkins faculty meeting, 9:30 a.m.

**3, Tuesday:** Houston/Galveston information session (Houston)

**5, Thursday:** Advent worship service, Perkins Chapel, 4 and 8 p.m.

**5, Thursday:** Inside Perkins in Dallas (evening event)

**9, Monday:** Last day of classes in Dallas

**10-11, Tuesday-Wednesday:** Reading and writing period

**11, Wednesday:** Last day for submission of all written work, 5 p.m.

**12-18, Thursday-Wednesday:** Final examinations in Dallas

**19, Thursday:** Grades must be posted by noon

**21, Saturday:** Official University close of term and conferral of degrees

**23-January 1, Monday –Wednesday:** Winter break – University holidays (offices closed)

## **Jan Term 2020**

### **January**

**1, Wednesday:** New Year's Day – University holiday (offices closed).

**2, Thursday:** First day of classes

**2–14, Thursday–Tuesday:** Perkins January interterm for masters and doctoral programs

**3, Friday:** Last day to enroll, add or drop a course without grade record for January interterm

**3–10, Friday–Friday:** United Methodist Certification in Christian Education, Children's Ministry, and Older Adult Ministries

**5–10, Sunday–Friday:** Youth Ministry Certification Courses

**6, Monday:** Last day to drop a class or withdraw from the University for January interterm (grade of *W*)

**6–9, Monday–Thursday:** Perkins School of Youth Ministry

**8, Wednesday:** Doctor of Ministry Information Session

**10, Friday:** 60% point of the term that federal financial aid has been earned if a student officially withdraws from SMU; prior to this date a partial calculated return to federal programs will be required.

**14, Tuesday:** Last Day of class (includes exam); conferral of degrees

## **Spring 2020**

### **January**

**TBA:** New Student Orientation (Dallas)

**TBA:** New Student Orientation (Houston)

**TBA:** Houston hybrid classes meet face to face at Houston Methodist Hospital

**15, Wednesday:** Last day to withdraw from all classes without any tuition charge

**15-16, Wednesday–Thursday:** Late registration, 206 Kirby Hall, Registrar's Office

**16, Thursday:** First day of classes in Dallas

**20, Monday:** Martin Luther King, Jr. Day – University holiday (offices closed)

**23, Thursday:** Last Day to enroll, add a course, or drop a course without tuition billing while remaining enrolled for the term

**24, Friday:** Last day to file for May graduation

**27, Monday:** Perkins faculty meeting, 9:30 a.m.

**30, Thursday:** Last Day to drop a course without academic record (tuition charges apply)/withdraw from university without academic record (withdrawal refund schedule applies)

## February

- 6, Thursday:** Inside Perkins in Dallas.
- 14, Friday:** Divisional meetings, 11:30 a.m.
- 18, Tuesday:** Doctor of Ministry Information Session (Houston)

## March

- 2, Monday:** Perkins faculty meeting, 9:30 a.m.
- 13, Friday:** Divisional meetings, 11:30 a.m.
- 14-22, Saturday–Sunday:** Perkins and SMU Spring Break
- 26, Thursday:** Inside Perkins (evening event)
- 26-28, Thursday-Saturday:** Perkins Theological School for the Laity
- 31, Tuesday:** 60% point of the term that federal financial aid has been earned if a student officially withdraws from SMU; prior to this date a partial calculated return to federal programs will be required.

## April

- 6, Monday:** Perkins faculty meeting, 9:30 a.m.
- 6-24, Monday–Friday:** Advance registration for Houston summer and fall terms
- 6, Monday:** Faculty as Guild, 9:30 a.m.
- 7, Tuesday:** Last day to drop a class for spring term (grade of *W*)
- 9, Thursday:** Easter recess (no classes)
- 10, Friday: Good Friday** – University holiday (no classes and offices closed)
- 11-24, Saturday–Friday:** Advance registration for all summer and fall terms
- 23, Thursday:** Inside Perkins in Dallas
- 24, Friday:** Divisional meetings, 11:30 a.m.
- 24, Friday:** Last day to withdraw from the University (grade of *W*)
- TBA:** Houston hybrid classes meet face to face at Houston Methodist Hospital.

## May

- 4, Monday:** Last day of classes in Dallas
- 4, Monday:** Perkins faculty meeting, 9:30 a.m.
- 5, Tuesday:** Reading and writing period
- 5, Tuesday:** Last day for submission of all written work, 5 p.m.
- 6-12, Wednesday–Tuesday:** Final examinations in Dallas
- 15, Friday:** Grades must be posted by noon.
- 16, Saturday:** Commencement Convocation, 9:30 a.m., Moody Coliseum. Official close of term and degree conferrals.
- 16, Saturday:** A Celebration of Degrees and Academic Achievements, 2 p.m., Highland Park United Methodist Church.

## Summer 2020

### May

- 18–August 4, Monday-Tuesday:** Perkins full summer session (Houston only)
- TBA:** Houston hybrid classes meet face to face at Houston Methodist Hospital.
- 21, Thursday:** Last day to enroll, add courses or drop courses without grade record for Summer (Houston only)
- 25, Monday:** Memorial Day – University holiday (offices closed)

## June

**1–August 4, Monday–Tuesday:** Perkins full summer session (Main Campus and Immersion Courses)

**4, Thursday:** Last day to enroll, add courses or drop courses without grade record for Summer (Main Campus and Immersion Courses)

**4, Thursday:** Last day to file for August graduation

**6–13, Saturday-Saturday:** FaithCalls Summer Academy

**8–19 Monday–Friday:** Doctor of Ministry and Doctor of Pastoral Music classes meet (Dallas)

**16 Tuesday:** Doctor of Ministry Information Session

## July

**3, Friday: Independence Day** – University holiday (offices closed)

**5, Sunday:** 60% point of the term that federal financial aid has been earned if a student officially withdraws from SMU; prior to this date a partial calculated return to federal programs will be required. (Houston only)

**5–17, Sunday-Friday:** Course of Study School

**10, Friday:** Last day to drop a class for summer (grade of *W*) (Houston only)

**10, Friday:** 60% point of the term that federal financial aid has been earned if a student officially withdraws from SMU; prior to this date a partial calculated return to federal programs will be required. (Main Campus and Immersion Courses)

**16, Thursday:** Last day to withdraw from the University for Summer (grade of *W*) (Houston only)

**23, Thursday:** Last day to drop a class for Summer (grade of *W*) (Main Campus and Immersion Courses)

**29, Wednesday:** Last day to withdraw from the University for Summer (grade of *W*) (Main Campus and Immersion Courses)

**TBA:** Houston hybrid classes meet face to face at Houston Methodist Hospital.

## August

**4, Tuesday:** Last day of class (includes exam), official close of term and conferral of degrees

More information about the academic calendar for the Houston-Galveston program is available at [www.smu.edu/Perkins/FacultyAcademics/housgal/schedules](http://www.smu.edu/Perkins/FacultyAcademics/housgal/schedules) and from the program's office in Houston.

## Major Religious Holidays

*(August 2019-August 2020)*

Listing of religious holidays for use in requesting excused absences according to University Policy, Excused Absences for University Extracurricular Activities and Religious Holidays. For religious holidays not listed, the instructor or supervisor may contact the Office of the Chaplain.

## Christian

**Christmas:** December 25, 2019

**Good Friday:** April 10, 2020

**Easter Sunday:** April 12, 2020

**Easter Sunday (Orthodox):** April 19, 2020

## Hindu

**Janmashtami:** August 23, 2019

**Dasera:** October 7, 2019

**Diwali:** October 27, 2019

## **Jewish\***

**Rosh Hashanah:** September 30, 2019

**Yom Kippur:** October 9, 2019

**Sukkot/Simchat Torah:** October 14-15, 2019

**Hanukkah:** December 23, 2019

**Purim:** March 10, 2020

**Pesach (Passover):** April 9-10, 2020

**Shavuot:** May 29, 2020

## **Muslim**

**Eid al-Adha:** August 12, 2019

**Islamic New Year:** August 31, 2019

**Ashura:** September 10, 2019

**Mawlid an-Nabi:** November 10, 2019

**Ramadan:** April 24, 2020

**Eid al-Fitr:** May 24, 2020

\* All holidays begin at sundown before the first day noted and conclude at sundown on the day(s) noted.

Tuition and fees payment due dates are set for each term by the Office of the University Bursar.

# Perkins School of Theology: General Information

## The Mission of Perkins School of Theology

The primary mission of Perkins School of Theology, as a community devoted to theological study and teaching in the service of the church of Jesus Christ, is to prepare women and men for faithful leadership in Christian ministry.

Perkins School of Theology affirms its relationships to the community of learning that is Southern Methodist University, to the universal church (inclusive, ecumenical and global), to the United Methodist Church specifically and to its particular geographical and cultural setting in the southwestern United States.

These relationships are sources of strength and avenues of service for the school as it pursues its twin tasks of theological reflection and theological education to the glory of God.

## Accreditation

Southern Methodist University is accredited by the Southern Association of Colleges and Schools commission on Colleges. Perkins School of Theology is accredited by the Commission on Accrediting of the Association of Theological Schools in the United States and Canada, 10 Summit Park Drive, Pittsburgh PA 15275-1110, Telephone 412-788-6505, Fax 412-788-6510. The following degree programs are approved by the Commission on Accrediting: M.Div., M.A.M., M.S.M., M.T.S., Th.M., D.Min., and D.P.M.

## History

The School of Theology has been an integral part of Southern Methodist University since the latter's founding in 1911. It grew out of a movement led by Bishop Seth Ward of the Methodist Episcopal Church, South, to establish a theological school west of the Mississippi. Dr. E.D. Mouzon, dean of the Theological Department of Southwestern University and later bishop, became its first dean in 1914. With the opening of the University in the following year, the school of theology began its work as the church's official theological school for the region west of the Mississippi. When ownership of the University was vested in the South Central Jurisdiction of the Methodist Church at the Uniting Conference of 1939, the school of theology became the official theological school of that jurisdiction.

Dean Mouzon was followed by Deans Hoyt M. Dobbs (1917), Paul B. Kern (1920), James Kilgore (1926), Eugene B. Hawk (1933), Merrimon Cuninggim (1951), Joseph D. Quillian, Jr., (1960), James E. Kirby (1981), Robin W. Lovin (1994), William B. Lawrence (2002) and Craig C. Hill (2016).

## Community Life

Theological reflection and education for ministry are the purpose of the school. However, these imply a concern for the total development of people in the community. This concern is manifest not only in the classroom and library, but also in a wide range of activities and associations, which make up the life of the school.

Worship is a central element in the life of the school. During fall and spring terms, community worship is held on Wednesdays and Thursdays. Shorter prayer services are often held, according to a schedule that varies by the term. Community lunches are held Tuesday through Friday during the term. Common meals, celebrating holidays or highlighting special groups or themes, take place several times each year.

There are a number of student organizations and groups. Every regularly enrolled student is a member of the Perkins Student Association, which assumes responsibility for those aspects of student life and government that are not directly under the jurisdiction of the Perkins faculty. An elected PSA council governs the association. Student representatives also serve on the standing committees of the faculty. Committees of the PSA council deal with social justice, social life, ecumenical affairs, academic concerns and worship. Several active student groups are recognized and funded by the PSA council, including Black Seminars Association, L@S Seminaristas, the Order of St. Luke, Affirming Religious Community and International Students of Perkins.

Seminary Singers is a choral group open to all Perkins students, under the leadership of the Master of Sacred Music program. The group sings in the weekly chapel services and on other occasions throughout the year.

Special programming and events for the Perkins community, as well as other groups and activities for Perkins students and their families, are organized under the leadership of the PSA council and the assistant dean of student life.

# Perkins School of Theology: Admission

## Degrees Offered

Perkins offers a variety of degree programs. Education for church leadership is provided through the Master of Divinity program, intended primarily, although not exclusively, for persons seeking ordination. The Master of Arts in Ministry program has as its main objective the preparation of people for specialized church ministry. The Master of Sacred Music program is offered in cooperation with the SMU Meadows School of the Arts for the education of leaders in church music. A student seeking ordination as a deacon within the United Methodist Church may pursue required courses within any of the above degree programs. The Master of Theological Studies program is primarily for people who wish to engage in serious theological study, especially for those considering a doctoral degree. The Master of Theology program is designed for students to fulfill one or more of three goals: enhancing the practice of ministry through advanced study of a particular theological or pastoral discipline, examining a specific aspect of the Christian religion/traditions or function of Christian ministry, and preparing for more advanced study at the doctoral level. The Doctor of Ministry degree program provides advanced education for church leadership and is available for students who hold the M.Div. or an equivalent degree. The Doctor of Pastoral Music degree is intended to provide an environment for the vocational renewal of practicing and experienced church musicians, and equip them for changes in the profession of church music in the areas of liturgy, cultural diversity, theological perspectives, congregational song, contextual musical analysis, and additional skills related to the performance of music in worship.

Perkins also cooperates in the Graduate Program in Religious Studies of Dedman College, which offers the M.A. and Ph.D. degrees. These degree programs are intended chiefly for those interested in college and university teaching and scholarship in religious studies. Further information concerning them can be obtained from the director of the Graduate Program in Religious Studies.

Perkins School of Theology offers the graduate degrees listed below.

Transcript		Degree or Diploma	
<i>School</i>	<i>Major Area</i>	<i>Master</i>	<i>Doctor</i>
Perkins	Ministry	M.A.M. M.Div.	
Perkins	Sacred Music	M.S.M.	D.P.M.
Perkins	Theological Studies	M.T.S.	
Perkins	Theology	Th.M.	D.Min.
Dedman College	Religious Studies	M.A.	Ph.D.

## Houston-Galveston Extension Program

Courses to fulfill the requirements of the Master of Divinity (M.Div) and the Master of Arts in Ministry (M.A.M) degrees are offered in the Houston-Galveston Extension Program. All courses in this program are offered in either hybrid or one-week intensive formats. Each hybrid course will meet for ten hours face-to-face (student-professor) at the beginning of the term and for an additional ten hours at the end of the term. The remainder of the course will be taught online. One week intensive courses will usually be offered during the January term and during the summer.

The Houston-Galveston Extension Program will offer three courses per term (fall and spring) and three courses during the summer. Students who successfully complete each of these courses in the regular sequence should be able to earn the M.Div. degree in three years or the M.A.M. degree in two years.

Taking courses in Dallas will be optional. An internship requirement may be fulfilled through the Houston-Galveston Extension Program.

The admission process is outlined below. Degree program requirements are found in other sections of the catalog. Students in the Houston-Galveston program must complete registration for fall and spring H-G courses 6 weeks before

the first face- to- face class session. Newly admitted Houston-Galveston students may not register for January term or Summer classes. The Associate Dean for Academic Affairs may determine exceptions to this policy.

## The Admission Process

Requirements for admission to each of the Perkins degree programs are specified in other sections of this catalog. Click here to find programs and their requirements.

Persons seeking admission may apply online. The application requires supporting documents which can be uploaded online. Such documents include transcripts, resume, recommendation letters, and essay.

Application for admission also serves as your application for financial aid/scholarships. Completing the Free Application for Federal Student Aid by January 1, is strongly encouraged. Be mindful of the following dates if you are seeking financial aid:

- Early fall admission: November 1
- Merit scholarship: November 1
- Spring admission: November 1
- Need-based grants: March 1

For more information, contact Stephen Bagby, Director of Recruitment and Admission, 214.768.2139, or [sbagby@smu.edu](mailto:sbagby@smu.edu).

Information and applications for the Doctor of Ministry and Doctoral of Pastoral Ministry is available by contacting Pamela Hogan at 214.768.2432, or [phogan@smu.edu](mailto:phogan@smu.edu).

## Before You Begin Your Application

To get started, you will need to:

1. create an account by clicking here,
2. check your email to retrieve your temporary PIN, and activate your account.

Your application does not have to be completed at one sitting. Be sure to save your session by logging out in accordance with the instructions within the application.

## Application Outline

**Personal Information:** Email, phone number(s), and address; demographic, biographical, and citizenship information; church affiliation. If you are United Methodist, please provide your Annual Conference.

**Admission Information:** Degree program, campus location, start term, housing needs

**Academic History:** List all colleges and universities, and dates attended.

**Recommendations (3):**

1. Clergy (ordained)
2. Professor from your college or university. Applicants who have been out of school for five years or more should substitute a professional reference.
3. Lay Leader or non-clergy individual who can speak to your faith, ministry, or potential for ministry

**Resume:** Attach your complete work history.

**Essay:**

1. Topic Choice #1: Interactive Essay
2. Topic Choice #2: Critical theological question you hope to examine

**Review and Submit:** Once you submit your application, you will not be able to return to your application.

## **International Students**

SMU|Perkins does not require the GRE for any degree. Please supply TOEFL or IELTS scores if English is not the official language of your home country. You will need an Institutional Official recommendation.

## **Perkins Contacts**

Stephen Bagby, Director of Recruitment and Admission, sbagby@smu.edu, or 214.768.2139  
SMU International Student & Scholar Services Office  
SMU Residence Life & Student Housing Office

## **Criminal Background Check**

A criminal background check is required for admission. Upon acceptance of admission, student applicants will complete a request for a background check, which will be administered and paid for by the student via her/his application account to the third party vendor.

Should something questionable arise in the background check, the Associate Dean of Enrollment Management will follow up with the applicant about her/his background check and report any substantial findings to the Associate Dean of Academic Affairs and Director of the Internship Program, as appropriate.

The Intern Program will require a second criminal background check of all students in the MAM and MDiv programs no later than April 1 of the spring semester prior to the start of the internship at the student's expense, just as in the admission process.

## **Admission by Transfer**

The procedures and standards for admission for students who wish to transfer from other theological schools are the same as for all new students. In such a case, the student's academic record in seminary as well as in undergraduate study or other graduate programs will be considered. A transcript of academic credits and a letter of good standing will be required from the theological school of record. The design of the Perkins M.Div. curriculum is such that transfer into that program after more than a year of study elsewhere is ordinarily not encouraged.

A student may apply for transfer credit from schools accredited by the Association of Theological Schools. The work must have been completed within the past seven years and earned a grade of 2.000 or better. The registrar in consultation with the associate dean for academic affairs will determine, in each case, the number of credit hours that a student may transfer to a Perkins degree program and their allocation to the requirements of the program. The maximum number of hours that will ordinarily transfer toward a degree is as follows: 30 credit hours for the M.Div., 18 credit hours for the M.A.M. and 21 credit hours for the M.T.S. By action of the University Senate of the United Methodist Church, only online courses offered by an official United Methodist seminary or Asbury Theological Seminary may count toward a degree for a candidate seeking ordination in the United Methodist Church. Transfer credit toward the M.S.M. degree is discussed under the requirements for admission to that program in another section of this catalog.

Courses in United Methodist studies, including history, doctrine, polity and evangelism, required for United Methodist ordination are transferable only from theological schools approved by the United Methodist University Senate.

## **Admission by Transfer with Shared Credit**

Students who wish to enter Perkins following the completion of a graduate theological degree at another school accredited by the Association of Theological Schools may be eligible for transfer with shared credit. Transfer with shared credit reduces the number of hours required for completion of a Perkins degree. In each case, a transcript of academic credits is required. The transcript must show the awarding of a degree in the last seven years with a grade of 2.000 or better. No more than half of the credits required for the degree already completed and no more than half of the credits required for the Perkins degree may be granted on the basis of transfer with shared credit. A student interested in the possibility of transfer with shared credit should notify the registrar prior to the beginning of coursework.

## **Admission With Advanced Standing Without Credit**

A student who, by means of coursework prior to entering Perkins, has achieved competence in a given field equivalent to that normally gained through one or more of the required courses in an academic division may seek advanced standing in the work of that division. Advanced standing is granted without credit, and it does not reduce the amount of credit that must be earned in the division or in the degree program as a whole, but it enables the student to use his or her time to better advantage. A transcript of academic credits is required and, in some cases, an oral or written assessment of competence may be required. Students interested in the possibility of advanced standing should notify the associate dean for academic affairs in writing as early as possible and no later than the beginning of their first term at Perkins. Courses taken by advanced standing to satisfy the general requirements in a division may not be counted toward the hours of elective work required in the M.Div. degree program.

## **Withdrawal, Re-entry and Readmission**

A student who withdraws from school for any reason for part or all of a regular academic year and who has been away from the University for less than three years must apply in writing to the associate dean for academic affairs for re-entry. A student who withdraws from school for any reason for part or all of a regular academic year and who has been away from the University for three years or more must re-apply through the office of admissions for readmission. For the re-entry and readmission of a previously enrolled student, the Committee on Student Development may be consulted. The committee may require information about the student beyond that which was furnished at the time of admission.

The faculty may, at any time, require the withdrawal of any student whose conduct is, in the judgment of the faculty, inconsistent with the standards of the school and the University or with the objectives of the degree program in which the student is enrolled.

## **Change of Degree Program**

A student who is currently enrolled in the M.Div., M.A.M., M.S.M. or M.T.S. program and who wants to transfer to another of these programs must formally put forward a Request for Change of Degree form through the Office of the Registrar for admission to the new degree program. The registrar should be consulted regarding the appropriate procedure. The transfer of credit hours is subject to the direction and approval of the registrar and the associate dean for academic affairs. Ordinarily, credit is fully transferable between programs. A current student wanting to change degrees to the Th.M. degree program must formally apply for admission to the new degree program, meeting the requirements for the Th.M. degree program.

## **Combined Degree Programs**

One may pursue two Perkins professional master's degrees concurrently in any of several combinations. A student considering such an option should consult with the associate dean for academic affairs. No more than half the credits required for the shorter of two degree programs may be applied to both degrees.

## **Admission of Non-degree seeking Students and Auditors**

People who have a B.A. or equivalent degree and who wish to take courses for credit but who do not wish to enter a degree program may seek admission to Perkins as a non-degree seeking student. The student must submit a completed application (available from the Office of Enrollment Services) along with official transcripts of all undergraduate and graduate academic work, two letters of reference and an explanation of the proposed plan of study indicating the courses desired.

Admission as a non-degree seeking student is for one year (two terms) only. A student desiring to continue beyond the one-year limit must formally ask the associate dean for academic affairs to continue beyond the two terms. Admission as a non-degree seeking student does not guarantee, nor does it preclude, later admission to any degree program offered by Perkins. Non-degree seeking students are not eligible for any form of financial assistance from the school.

People desiring to audit a course must secure permission from the registrar and the course instructor, and must pay an audit fee before completing registration.

## **Other Programs of Study**

In addition to its degree programs, Perkins offers various other programs of study, formal and informal. Some of these may be pursued in conjunction with a degree program, while others are independent. Some lead to ordination while others are simply opportunities for continuing education. All are described in the following sections of this catalog: Special Programs for Academic Credit, Areas of Concentration and Services in Continuing Education.

# Perkins School of Theology: Academic Programs

## Ministry, D.Min.

### Purpose

The Doctor of Ministry degree provides the opportunity for advanced study in the areas of vocational and leadership formation and community building. Integrating theological reflection and ministerial practice with these areas of study, Christian leaders build their theological knowledge and gain skills to effectively engage in ministerial work in contexts of change and transition.

The goals of the degree are to (1) seek vocational depth and direction; (2) gain theological knowledge and understanding of vocational and leadership identity in tandem with developing skills for relevant practices of ministry that build communities in context; and (3) acquire knowledge, critical insights and skills to exercise leadership grounded in Christian vocation in contexts of transition and change within the Church and the community.

The D.Min. curriculum follows a cohort system for students. Cohorts will progress through 24 credit hours of courses that integrate the areas of Christian vocation, leadership, and community building. Students then work independently in the final six credit hours, preparing for and completing the writing project that brings the course work to bear on a specific practice of ministry.

### Learning Outcomes

1. Students will demonstrate expertise in the theology of vocation, leadership and community building in the context of ministry.
2. Students will demonstrate superior ministerial skills in adaptive leadership and community building.
3. Students will integrate practice based on sound theological and contextual analysis.
4. Students will demonstrate professional integrity and ongoing growth.

### Requirements for Admission

The professional nature of the D.Min. requires that students have leadership responsibilities in their ministry setting. Application deadline is March 15 for June admission to a cohort. Applicants wishing to enter the D.Min. program must have:

1. An Association of Theological Schools-approved M.Div. degree or equivalent with a cumulative GPA in the master's-level program of at least 3.000 on a 4.000 scale (grade of B or 80). In cases of demonstrated extraordinary ability in the practice of ministry, applicants with a lower grade average may be considered for conditional admission with the requirement to complete the first term with a grade of B or better in order to be granted full admission and continuation in the program.
2. Significant experience and demonstrated competence in ministry and leadership, as attested by two references.
3. A minimum of three years of full-time experience following completion of the M.Div. degree (or its equivalent). Applicants who have demonstrated years of ministry or Christian leadership in a community or an organization before or while completing the M.Div. (or its equivalent) will also be considered.
4. The ability to reflect theologically and communicate effectively as reflected in a short essay addressing the theological meaning of vocation, leadership, and community building. The essay should include (a) a statement of objectives in pursuing the D.Min. degree, and (b) the anticipated contribution of the writing project to the applicant's vocation, understanding of leadership and commitment to community building.

International applicants who hold a religious worker visa (R-1) may be considered for admission. International applicants must demonstrate proficiency in English with a minimum score of 600 paper-based or 250 computer-based TOEFL score. NOTE: No Perkins funded financial aid is available to international students.

Because the Doctor of Ministry is a degree given in the context of ministry, generally no transfer credit is accepted.

## Requirements for Graduation

The D.Min program requires 30 credit hours including the completion of a writing project.

A minimum cumulative GPA of 3.000 is required for graduation.

The D.Min. degree is a 3 year program. Under extraordinary circumstances, a student may petition for a one year leave of absence. The director may approve a one year leave of absence, but such a leave is not guaranteed. During the writing of the thesis, a student may petition for an additional year to complete the thesis. The director may approve an additional year to complete the thesis, but such an extension is not guaranteed.

## Course Requirements

### Required Courses

The course requirements, by term, are as follows:

#### First term, June

- DM 9370 – The Person and Role of a Leader in Ministry
- DM 9380 – Vocation, Leadership and Community

#### Second term, January

- DM 9369 – Leadership and Vocation in Church and Community: A Theological/Historical Exploration
- DM 9379 – Models of Leadership, Social Institutions and Community Engagement

#### Third term, June

- DM 9359 – Vocation, Leadership and the Bible in Contexts
- DM 9350 – Ecclesiology, Community and Models of Leadership

#### Fourth term, January

- DM 9309 – Integrative Seminar and Strategic Planning in Contexts of Change and Transitions
- DM 9347 – Contextual Analysis

#### Fifth term, June

- DM 9390 – Directed Study
- DM 9394 – Thesis Seminar

## Total: 30 Credit Hours

## Writing Project/Thesis

During the fifth term of academic course work, the final 6 credits of the total 30 credits, students are required to complete the following courses: DM 9390 – Directed Study and DM 9394 – Thesis Seminar. Both of these courses serve the purpose of preparing the students to embark in the writing of a research thesis. The completion and approval of the writing project/thesis signals the recognition of a professional doctorate in Christian ministry in the field of vocation, leadership and community building.

The writing project/thesis combines research, a comprehensive evaluation and integration of course work, and a written doctoral-level project that addresses both the nature and dynamics of vocation and leadership in the practice of ministry, including application for communities and churches in transition and change. It also evaluates the capacity of the student's own ministries for building and sustaining communities and churches using substantive biblical and theological reflection, and applying competencies in contextual analysis, adaptive leadership skills and strategic planning.

The writing project/thesis is a research thesis of 120-150 pages, double-spaced, 12 point font with appropriate research notes, bibliography, and appendices (if needed) that integrates an area of the student's interest with the areas in the curriculum, namely, vocation, leadership and community building. The writing project/thesis offers an analysis of the explicit and implicit theological underpinnings of models of vocation, leadership and community building in differing contexts of ministry, employing a range of theological disciplines and other relevant disciplines. It also argues for the most theologically integrated and effective approach to ministry in particular circumstances.

With the supervision of an adviser and the critical assessment of a second reader, the writing project/thesis fulfills the professional requirement of a contextual and academic degree grounded in practical theology that contributes to the life and mission of Christian communities in contexts.

## **Pastoral Music, D.P.M.**

### **Purpose**

The Doctor of Pastoral Music (D.P.M.) degree is intended to provide an environment for the vocational renew of practicing and experienced church musicians, and equip them for changes in the profession of church music in the areas of liturgy, cultural diversity, theological perspectives, congregational song, contextual musical analysis, and additional skills related to the performance of music in worship.

### **Learning Outcomes**

1. Students will be able to identify critical issues in pastoral ministry related to worship and church music and implement holistic strategies for improvement in relationships and performance.
2. Students will be able to evaluate research that integrates various musical traditions with recent developments in liturgy, culture and worship, ritual studies, and hymnody.
3. Students will be able to demonstrate refined skills in an applied area including, but not limited to, organ service playing, keyboards in worship, congregational song, choral conducting, guitar, and percussion, in conjunction with their primary focus.
4. Students will be able to apply these methodologies and performance skills in the context of their social location, including their congregation and community.

### **Requirements for Admission**

1. An accredited (NASM/ATS) MM, MSM, MCM degree (48 credit hrs.) or equivalent with a cumulative GPA of at least 3.00 on a 4.00 scale (B=80) in addition to graduate courses in music theory, musicology, applied music study, and a minimum of five courses in Bible (6 credit hrs.), theology (3 credit hrs.), liturgy (3 credit hrs.), and hymnology (3 credit hrs.).
2. At least five years of full-time music ministry experience post-master's degree.

### **Requirements for Graduation**

The D.P.M program requires 39 credit hours of academic credit: 30 credit hours of coursework and nine credit hours earned through the satisfactory completion of a practicum and thesis.

Only course grades of 80 or higher will qualify toward meeting the requirements for graduation.

All degree requirements must be completed within seven years from the time when coursework began. Under special circumstances, the director of the D.P.M. program may be petitioned in writing for an extension. People who do not complete the degree within eight years of initial matriculation will be required to repeat all coursework. All financial obligations must be met before graduation.

### **Course Requirements**

#### **Required Courses**

##### *Summer Term*

- CM 9370 - The Person and Role of the Minister
- CM 9380 - Seminar in Practical Theology

Total: 6 Credit Hours

### *Seminars*

Taken in sequence

- CM 9392 - Professional Project I
- CM 9394 - Professional Project II

Total: 6 Credit Hours

### *Concentration Courses*

- CM 9323 - Applied Studies in Church Music (conducted in student's parish)
- CM 9373 - Issues in Liturgical Theology and Practice
- CM 9324 - Issues in Pastoral Music
- CM 9344 - Music in Worship and Renewal

Total: 12 Credit Hours

### *Electives*

Choose from the following suggested courses:

- CM 9325 - Seminar in Worship Arts
- CM 9321 - Cross-Cultural Immersion in Music and Worship
- CM 9307 - Conflict Transformation in Congregational Life
- CM 9308 - Making Sense of the American Spiritual Landscape
- CM 9359 - Understanding Congregations: An Introduction to Congregational Studies
- CM 9369 - Leadership in Church and Community
- CM 9390 - Directed Studies in Pastoral Music

Total: 6 Credit Hours

### *Practicum/Thesis*

- CM 9696 - Pastoral Music Practicum
- CM 9398 - Doctor of Pastoral Music Thesis

Total: 9 Credit Hours

Total: 39 Credit Hours

## **The Doctor of Pastoral Music Committee**

During the first year of study, the student will invite, in consultation with the director of the Doctor of Ministry Program, three people to serve on a committee to supervise the approved project practicum and the written project thesis. The committee will consist of an adviser, a reader and a field supervisor. Either the adviser or the reader must be a member of the Perkins regular faculty, with the other committee member selected from the regular or adjunct faculty. It is recommended that a Perkins regular faculty member serve as adviser. The field supervisor should be recognized as having gifts and experience in ministry that are applicable to the practicum and be available to consult with the student during the practicum as well as to evaluate the student's practicum. The entire committee will guide, read and evaluate the student's professional practicum and project thesis.

When the professional project is completed satisfactorily as determined by the committee in consultation with the director of the Doctor of Ministry Program, the student will participate in an oral evaluation on the school campus by the committee on the professional project thesis. At a minimum, both the student and adviser must be physically

present for the oral evaluation. It is recommended that all committee members be physically present with the student for the evaluation. All committee members must be present for the evaluation, either in person or by electronic means.

## **Project Practicum and Thesis**

The professional project practicum and thesis combine research, a designed ministerial field experience and a written doctoral-level project that addresses both the nature and the practice of ministry and has the potential for application in other ministry contexts.

1. The professional project is an approved practicum experience and written thesis that articulates the theological and theoretical rationale for the practicum with theological reflection on the experience.
2. The professional project in both its parts (practicum and written thesis) should demonstrate the student's ability to identify a specific theological topic in ministry, organize an effective research model, use appropriate resources, evaluate the results and reflect the student's depth of theological insight in relation to ministry.
3. The written project thesis must be submitted in an approved style and format.
4. Upon completion of the professional project and with the student's Doctor of Pastoral Music committee's permission, the student will sit for an oral examination administered by the project committee and open to the public covering the project and the student's integration of her or his theology and practice of ministry. This examination will take place on campus, with at a minimum the student and adviser present. Other committee members may participate via electronic means if necessary.

At completion of the D.P.M. thesis and successful oral evaluation, the completed written project thesis will be accessioned in Bridwell Library. A summary of the thesis proposal and its results will be posted on the D.P.M. website.

## **Divinity, M.Div. Purpose**

The Master of Divinity degree is designed primarily for students who plan to be ordained clergy and serve in Word, sacrament, service and order. It may also equip a person for other specialized ministries.

## **Learning Outcomes**

1. *Interpret scripture.* Students will interpret scripture effectively, using a wide variety of approaches informed by an understanding of biblical history, the social and cultural realities of ancient Israel and the early church, and the interpreter's own context.
2. *Comprehension of history and culture.* Students will demonstrate an understanding of the life and thought of the Christian community in its historical expressions and of the interrelations between Christianity and global culture.
3. *Theological and ethical reflection.* Students will be able to engage in constructive theological and ethical reflection, informed by an understanding of the content of the Christian faith in its historical and contemporary articulations, as well as current Christian thinking on philosophical, scientific, political and cultural developments.
4. *Ordained leadership roles.* Students will demonstrate the capacity to function successfully and effectively in the various roles of ordained leadership, evidencing critical awareness of the social context of their ministry and the capacity to have an impact on that context.
5. *Worship leadership.* Students will demonstrate the ability to plan, lead, and assess the basic rituals of the church in ways appropriate to local community and to the wider Christian tradition.
6. *Effective preaching.* Students will preach effective sermons that are exegetically faithful to the biblical text and fitting to the congregation, utilizing an appropriate range of style, form, and sequence appropriate to the substance of each sermon.
7. *Spiritual formation.* Students will demonstrate familiarity with and appreciation for the church's spiritual tradition and the disciplines of prayer and devotion, and exhibit a capacity to evaluate specific instances of spiritual practice from a theological standpoint.

## Requirements for Admission

The number of new students to be admitted each year is determined by policies of selection established by the faculty. The following considerations are decisive:

1. Seriousness of purpose, emotional stability and likelihood of satisfactory performance in the degree program and of responsible membership in the Perkins and Southern Methodist University community.
2. Presence of and potential for growth in those emotional, moral and spiritual qualities requisite for the profession of ministry and the absence of patterns of personal behavior tending to be seriously disabling to ministry.
3. Academic ability as shown by a minimum GPA of 2.750 (on a 4.000 scale) in a well-balanced curriculum. Normally, an applicant must hold the B.A. or equivalent degree from a college or university which is accredited by one or more of the organizations recognized by the Council for Higher Education Accreditation (chea.org). An applicant with a degree from an unaccredited school may be considered if the case is exceptional. It is particularly important that the student have an adequate liberal arts preparation. In keeping with the recommendations of the Association of Theological Schools concerning pretheological studies, the following 60 hours of liberal arts coursework are highly recommended for admission to the M.Div. degree program:
  - a. Three credit hours of philosophy (preferably historical or introductory courses or logic).
  - b. Twelve credit hours of English (especially courses that include grammar, composition and creative writing).
  - c. Three credit hours of history.
  - d. Three credit hours of social science.
  - e. Thirty-nine additional hours of liberal arts.

The following are considered highly desirable for admission to the M.Div. degree program:

- Three credit hours of a natural science or mathematics.
  - Six credit hours of a foreign language.
  - Six credit hours in religion (such as Bible, church history, history of religions, theology or ethics).
4. A reasonable program of financial support that will enable the student to be devoted properly to the main business of his or her theological training.

Persons who have already graduated from college or who are considering the ministry as a second career are given special consideration by the admissions committee, especially with regard to the adequacy of their pretheological curriculum.

Beyond the evidence of ability furnished by transcripts, applicants may be asked to demonstrate their preparation for theological study by adequate performance on either the GRE graduate school entry exam or the Miller Analogies Test.

To supplement the data furnished by transcripts, letters of reference and other written material, a personal interview with the associate dean for enrollment management or with a person designated by the associate dean may be required of the applicant.

## Requirements for Graduation

The M.Div. program requires 73 credit hours of academic credit, inclusive of a supervised internship. Each M.Div. student will also enroll in a spiritual formation group for two terms, normally the first year of study, for one credit hour for the second term.

A minimum cumulative GPA of 2.000 on all coursework is required for graduation to the M.Div. degree. A minimum cumulative average of 2.000 is likewise required for continuation beyond the second term and for continuation in school beyond the fourth term.

All degree requirements must be completed within seven calendar years from the time of initial registration.

## Course Requirements

Students may use electives to concentrate in an area of theological studies, to study Hebrew and/or Greek, and/or to complete requirements for ordination. The course requirements, totaling 64 credit hours, are as follows:

### Required Courses

#### Biblical Studies

- OT 6301 - Interpretation of the Old Testament I
- OT 6302 - Interpretation of the Old Testament II  
or
- HB 7302 - Hebrew Exegesis (if taking HB 7300 - Hebrew I, HB 7301 - Hebrew II as electives)
- NT 6301 - Interpretation of the New Testament I
- NT 6302 - Interpretation of the New Testament II  
or
- GR 7302 - Greek Exegesis (if taking GR 7300 - Greek I, GR 7301 - Greek II as electives)

Total: 12 Credit Hours

#### History of Christianity

- HX 6305 - The Christian Heritage I
- HX 6306 - The Christian Heritage II

Total: 6 Credit Hours

#### Theology

- ST 6301 - Interpretation of the Christian Message I
- ST 6302 - Interpretation of the Christian Message II
- MT 6303 - Moral Theology

Total: 9 Credit Hours

#### Ministerial Studies

- PR 6300 - Introduction to Preaching
- WO 6313 - Introduction to Christian Worship

Total: 6 Credit Hours

#### Contextual Studies

- XS 6310 - The Church in Its Social Context (must be taken prior to or concurrently with the first courses in ministry)
- HR 6302 - Interfaith Studies, Comparative Theology, and Ministry

Total: 6 Credit Hours

## Spiritual Formation

- XX 6003 - Spiritual Formation I
- XX 6004 - Spiritual Formation II

Total: 1 Credit Hour

## Electives

Students may choose to complete an area of concentration as part of the 24-hour elective requirement. In order to complete a concentration, students must:

1. Formally register for the concentration through the office of the Perkins Registrar and the concentration adviser or Perkins Associate Dean for Academic Affairs.
2. Have sufficient hours remaining in their degree program.
3. Not yet have applied for their internships (M.Div. candidates)

The following concentrations require a minimum GPA of 3.0 in order to register for the concentration:

- African-American Church Concentration
- Church/Nonprofit Management Concentration
- Pastoral Care Concentration
- Social Innovation and Nonprofit Engagement Concentration
- Urban Ministry Concentration
- Women's and Gender Studies Concentration

The following concentrations require an internship in an appropriate setting for the concentration approved by the Internship Office:

- African-American Church Concentration
- Pastoral Care Concentration
- Hispanic Studies Concentration
- Social Innovation and Nonprofit Engagement Concentration
- Urban Ministry Concentration

Total: 24 Credit Hours

## *Christian Education Concentration Courses*

- CE 7304 - The Church's Educational Ministry
- ST 6302 - Interpretation of the Christian Message II
- 3 credit hours of concentration-specific courses

One course from the following:

- CE 8320 - Ministry with Children
- CE 8330 - Youth Ministry
- CE 8332 - Speed Dating Spirituality: Ministry with Young Adults
- Another appropriate age-level course

Total: 12 Credit Hours

## *Urban Ministry Concentration Courses*

- ST 6302 - Interpretation of the Christian Message II
- XS 7302 - Issues in Urban Ministry

- or
- XS 8332 - Contemporary Issues in Urban Ministry
- 9 credit hours of concentration-specific courses

Total: 15 Credit Hours

### *Social Justice Concentration Courses*

- HR 6302 - Interfaith Studies, Comparative Theology, and Ministry
- HX 7380/TC 7380 - Theology and Social Justice
- MT 6303 - Moral Theology
- XS 8326 - Broad-based Community Organizing: Holiness and Politics in the Church
- 6 credit hours of concentration-specific courses

Total: 18 Credit Hours

### *Evangelism and Mission Concentration Courses*

- BB 8321/TC 8321/WX 8321/XS 8321 (immersion course)
- EV 7307 - The Theory and Practice of Evangelism
- WX 7310 - World Christianity
- WX 8332 - Mission Studies
- or
- HR 6302 - Interfaith Studies, Comparative Theology, and Ministry
- 6 credit hours of concentration-specific courses

Total: 18 Credit Hours

### *Christian Spirituality Concentration Courses*

- MN 7310 - Spirituality and Christian Ministry
- or
- MN 7311 - Prayer and Spirituality
- 12 credit hours of concentration-specific courses

Total: 15 Credit Hours

### *Custom Concentration Courses*

- 15 credit hours of concentration-specific courses  
(Note: The Custom Concentration must be planned out at the beginning of the student's career necessitating academic advising upon entry into the program.)

Total: 15 Credit Hours

### *African-American Church Concentration Courses*

- MN 7320 - Ministry in the Black Church

## Elective Courses

12 credit hours of concentration-specific courses from the following list:

- BB 8330 - African-American Perspectives on the Bible
- CA 8317 - The Theology and Practice of Stewardship
- CA 8319 - Dynamics of Pastoral Leadership
- CE 8320 - Ministry with Children
- CE 8330 - Youth Ministry
- CE 8338 - Emancipatory Educational Ministry with Adolescent Girls
- MN 7329 - Issues in Practical Theology
- MT 8345 - African-American Liberation Theology
- MT 8375 - The Poor in John Wesley's Ethics
- MT 8385 - Malcolm and Martin and Theological Ethics
- PC 8333 - Pastoral Care and Counseling of Women
- PC 8335 - Sexual and Domestic Violence: Theological and Pastoral Concerns
- ST 8375 - Feminist, Womanist, and Mujerista Theologies
- TC 8310 - Theology, Religion, and Cultural Studies
- TC 8375 - Advanced Feminist Theory
- XS 7302 - Issues in Urban Ministry
- XS 8302 - Race Relations and the Church
- XS 8326 - Broad-based Community Organizing: Holiness and Politics in the Church
- XS 8332 - Contemporary Issues in Urban Ministry
- XS 8339 - Christian Ministry in a Multicultural Society
- WX 8332 - Mission Studies

## Note

The African-American Church Concentration requires completion of an internship in an approved African-American church or related setting.

Total: 15 Credit Hours

## *Church/Nonprofit Management Courses*

14 credit hours of concentration-specific courses from the following list:

- CA 8317 - The Theology and Practice of Stewardship
- CA 8319 - Dynamics of Pastoral Leadership
- MKTG 6201 - Marketing Management
- MKTG 6233 - Nonprofit Marketing Strategy
- MNO 6201 - Organizational Behavior: Managing and Leading People
- MNO 6202 - Leading Teams and Organizations

## Elective Courses

4 credit hours from any two of the following:

- MKTG 6204 - Consumer Behavior
- MKTG 6232 - Digital and Social Media Marketing
- MNO 6210 - Leader as Coach
- MNO 6214 - Strategic Management of Human Capital
- MNO 6215 - Master Negotiation

- MNO 6218 - Leadership in a Complex World
- MNO 6222 - Leading Organizational Change

Total: 18 Credit Hours

### *Hispanic Studies Concentration Courses*

15 credit hours of concentration-specific courses from the following list:

- BB 8329 - Immigration, the Bible, and Practical Theology  
or
- MN 8329 - Immigration, the Bible, and Practical Theology
- EV 7307 - The Theory and Practice of Evangelism
- MN 7026 - Ministry in the Hispanic Church
- MN 7326 - Ministry in the Hispanic Church
- MT 8375 - The Poor in John Wesley's Ethics
- PC 7321 - The Caring Congregation
- PC 7322 - Pastoral Care and Family Systems
- ST 8327 - North American Hispanic Theology
- XS 7302 - Issues in Urban Ministry
- XS 8302 - Race Relations and the Church
- XS 8326 - Broad-based Community Organizing: Holiness and Politics in the Church
- XS 8332 - Contemporary Issues in Urban Ministry
- XS 8339 - Christian Ministry in a Multicultural Society

### Note

The Hispanic Studies Concentration requires the completion of an internship in a Hispanic setting if possible, or, if that is not possible, serve an internship in which, by agreement, no less than one-third of the student's working time is spent in a Hispanic congregation or project within the community. If neither of these is possible, the student must do a 40- to 60-hour interethnic experience in a Hispanic church under supervision arranged by the director of the Hispanic/Latin@ Ministries Program.

Total: 15 Credit Hours

### *Pastoral Care Concentration Courses*

15 credit hours of concentration-specific courses from the following list:

- PC 7321 - The Caring Congregation
- PC 7322 - Pastoral Care and Family Systems
- PC 8348 - Pastoral Self-Care

### Elective Courses

6 credit hours from any two of the following:

- PC 7301 - Introduction to Pastoral Care
- PC 7639 - Level 1 Clinical Pastoral Education (Level one cannot be counted as both internship and elective hours.)
- PC 8301 - Pastoral Care: Special Problems
- PC 8318 - Mental Health Skills
- PC 8326 - Pastor's Crisis Ministry

- PC 8330 - Pastoral Care and Counseling of Adolescents
- PC 8333 - Pastoral Care and Counseling of Women
- PC 8335 - Sexual and Domestic Violence: Theological and Pastoral Concerns
- PC 8336 - Premarital Counseling
- PC 8341 - Spirituality and the Human Life Cycle
- NT 8365 - Evil, Suffering, and Death in the New Testament
  
- PR 8355 - Preaching and Worship in Life's Transitions  
or
- WO 8355 - Preaching and Worship in Life's Transitions
  
- XS 8321 - Witness and Ministry in a Global Context

### Note

Students in the Pastoral Care Concentration must:

1. Complete a practicum in an appropriate setting.
2. Submit a paper to the concentration adviser at the end of the program. This paper should explore the interdisciplinary nature of the pastoral care field, focusing on all four divisions within Perkins' course of study. In this paper, the student is expected to articulate her or his biblical paradigm in pastoral care. The appendix to the paper should include a description of the student's efforts/participation in proactive self-care activities related to spiritual, physical and emotional health. Counseling by staff at the SMU Memorial Health Center or a licensed therapist of the student's choice is strongly encouraged as a part of the certificate program and as a means of self-care.
3. Engage in an oral defense of the interdisciplinary paper. Faculty from divisions I, II and III will be invited on a rotation basis to participate in the oral defense. Students working on the concentration should prepare for this integrative exercise from their very first introduction to courses in Division I – The Biblical Witness, Division II – The Heritage of the Christian Witness in Its Religious and Cultural Context, and Division III – Interpretation of the Christian Witness.

Total: 15 Credit Hours

### *Social Innovation and Nonprofit Engagement Concentration Courses*

15 credit hours of concentration-specific courses:

- CA 6320 - Business and Professional Communication

### Elective Courses

12 credit hours from courses on the following list:

- XS 6320 - Social Innovation: Creating World Changers
- XS 6321 - Social Innovation II: From Idea to Organization
- XS 6322 - Social Innovation III: Funding, Donors, and Financing for The Social Good
- XS 7320 - Social Entrepreneurship and Stewardship in the Faith-Based Organization
- XS 7321 - Social Entrepreneurship, Capitalism and the Wesleyan Tradition
- Other Perkins course options: Students may select from a wide array of courses in the Perkins catalog that enhance biblical and theological inquiry into contemporary domestic and global issues.

### Note

The Social Innovation and Nonprofit Engagement Concentration requires the completion of an internship in an appropriate nonprofit setting identified and approved by the Intern Office.

Total: 15 Credit Hours

### *Women's and Gender Studies Concentration Courses*

15 credit hours of concentration-specific courses:

- 3 credit hours for TC 8375 Advanced Feminist Theory
- 12 credit hours of concentration-specific courses that are Women's and Gender Studies graduate-level approved core courses and Dedman College undergraduate departmental courses.

#### Note

The Women's and Gender Studies Concentration requires the completion a major research project that addresses issues concerning women and/or gender. A performance or exhibit may also constitute the major project, with approval of the director of the Women's and Gender Studies Program.

Students may substitute an internship for one of the four courses and the associated major research project. The supervised internship must involve an organization or setting that addresses issues concerning women and/or gender.

Total: 15 Credit Hours

Total: 64 Credit Hours

### **Spiritual Formation**

All students completing the M.Div. are required to register for the program in spiritual formation. Students are required to attend a daylong orientation held in conjunction with the new student orientation program and are then enrolled in formation groups. These groups meet weekly throughout the fall and spring terms during the first year of the program. Led by facilitators in groups of five to 10, students share in a formative experience designed to provide them with the framework of a common experience, emphasizing the following:

- The opportunity to explore the vital connection between spiritual formation and ministry.
- Opportunities to explore the central genius of spiritual traditions.
- The development of a critical capacity that will allow the student to evaluate those traditions theologically.
- Broad-based exposure to a variety of spiritual disciplines.
- Experience in prayer and devotion.

Students are evaluated and given credit by the group facilitators on the basis of attendance and engagement with the subject matter of the formation process. Students should register in both the fall and spring of the first year. Exceptions to this rule must be requested in writing from the director of spiritual life and formation.

### **Internship**

The M.Div. program requires the satisfactory completion of a supervised internship carrying nine credit hours of academic credit. While the student registers for four and one-half hours of internship course credit during each of two consecutive terms, the internship degree requirement is satisfied only upon completion of the nine credit hours.

ST 6301 – Interpretation of the Christian Message I and ST 6302 – Interpretation of the Christian Message II are prerequisites for the internship course. The following courses are recommended in preparation for the internship course: two courses in biblical studies, XS 6310 - The Church in Its Social Context, HX 6305 - The Christian Heritage I and HX 6306 - The Christian Heritage II, PR 6300 - Introduction to Preaching, WO 6313 - Introduction to Christian Worship, and participation in a spiritual formation group. United Methodist students, who are required by the Book of Discipline to take courses in United Methodist history, doctrine and polity, are advised but not required to take these courses prior to the internship. Comparable advice is given to students from other traditions.

M. Div. students may choose either a full-time or part-time internship. Both are nine months long, over the fall and spring terms of one academic year. Full-time is defined as a minimum of 35 hours per week (inclusive of the internship seminar) of work in the internship setting. Part-time is defined as a minimum of 25 hours per week (inclusive of the internship seminar) of work in the internship. A third option is a full-time Clinical Pastoral Education residency, which is 12 months long. All interns receive a stipend.

All internships are coordinated through the Perkins Intern Office. The placement process begins in September when a prospective intern is invited to apply for an internship that would begin in August of the following year. A student completes an application and interviews with the intern faculty who will determine throughout the placement process the student's readiness for internship. If at any point during the placement process, the student exhibits patterns of behavior that suggests that the student needs further preparation prior to participating in an internship, the intern faculty may conclude that a student is not ready for an internship. The intern faculty will engage in a consultative process to determine appropriate measures to help the student become prepared for internship.

If a student declines two faculty-approved intern placements in a year, the Intern Program will remove the student from the placement process for that year. A student who is removed from the placement process is encouraged to re-apply for an internship the following year; however, the student must accept a subsequent faculty approved intern placement.

A student demonstrating readiness for an internship is encouraged to pursue placement possibilities for discussion in the initial interview with the intern faculty. Internship placements include church, agency and hospital chaplaincy settings. During the placement process serious consideration is given to the student's denominational preference.

While interns are not prohibited from taking additional Perkins courses beyond the internship course or from holding employment outside the internship placement, the intern faculty will consult individually with students to help them make the choice between full-time and part-time internship in order to balance life and learn successfully on internship.

Students who hope to do internships outside the immediate five-state area (Texas, Arkansas, Louisiana, New Mexico and Oklahoma) must initiate an early conversation with an intern faculty member, preferably in the first year of their degree program.

**Note:** Student pastors who are appointed as the sole or senior pastor of a church may choose to apply for either the full-time or part-time internship. The student pastor's salary replaces the required internship stipend.

Master of Divinity students may complete the Perkins internship requirement (nine credit hours) by successful completion of a Clinical Pastoral Education residency that consists of three units of CPE (Level II). Typically, CPE residency consists of four units (a full calendar year). However, the Perkins requirement is only nine months (mid-August to mid-May). Eligibility for consideration into a CPE residency normally requires the completion of the introductory unit of CPE (Level I).

Master of Divinity students may receive elective academic credit for PC 7639 – Basic Clinical Pastoral Education for an introductory unit of CPE (Level I) if they choose.

An intern faculty member will be assigned to the CPE intern and will consult with the CPE certified educator regarding satisfactory completion of the internship requirement.

During internship, students do ministry under supervision and reflect theologically on their experiences. As the interns become more competent and self-confident in carrying out the tasks of ministry and gain theological, emotional and spiritual maturity in their understanding of it, they prepare themselves to provide resourceful, faithful Christian leadership in the world.

The design of the Perkins Intern Program assumes interns to be adult learners who can assess and value their past experiences and vocational goals and build on these creatively and systematically in pursuing the learning opportunities offered at their particular internship site. To that end, the internship course curriculum specifies a set of required competencies under each of three categories: be aware, think theologically and lead faithfully.

The Perkins Intern Program faculty partners with pastoral staff and laity at congregations and agencies and with mental health professionals experienced in church family systems to provide supportive supervision for students during internship. The mentor pastor and lay teaching committee assigned to each intern receive orientation and training as part of the intern program.

A student's internship begins with a required two-day Intern Orientation conducted in August by the intern faculty.

## **Global Theological Education**

Through cultural immersion courses, the Global Theological Education Program offers students a study of theology, Scripture, missions, ministry or interreligious relationships in a cultural context different from the students' own, usually outside the United States. These elective courses give special attention to the role of theological reflection in an environment affected by globalization in all its dimensions through focused, on-site study in a particular culture or region of the world.

## **Admission to Candidacy**

M.Div. students will be reviewed for admission to formal candidacy for the degree in the spring term following the completion of 27 credit hours of academic work. A student will be admitted to candidacy provided he or she is not on probation and is not disqualified for having given evidence of patterns of personal behavior tending to seriously hinder ministry. Admission to formal candidacy signifies that the student is proceeding satisfactorily in his or her course requirements, including admission to and continuation in internship courses, and possesses a seriousness of purpose, emotional stability, and likelihood of satisfactory performance of Christian leadership. Formally, the presence of patterns of personal behavior tending to seriously hinder ministry may be grounds for the faculty to disqualify a student from graduation with the M.Div. degree, or, if the prognosis justifies it, to defer awarding the degree until such time as the hindering pattern is overcome. A student may be considered for the degree upon completion of all the requirements, but admission to formal candidacy does not oblige Perkins to grant the degree.

## **Ordination Requirements**

Students preparing for ordination should become aware as early as possible of any specific educational requirements their denomination or judicatory may expect them to satisfy in the course of their M.Div. work (e.g., in the biblical languages or in denominational history, doctrine, polity and evangelism). They should explore, with their academic advisers, how best to deal with these expectations.

The requirements of the current United Methodist Book of Discipline concerning work in United Methodist history, doctrine and polity may be met by satisfactorily completing the following three courses: HX 7365 - United Methodist History (three credit hours), ST 7034 - United Methodist Doctrine (1.5 credit hours) and CA 7013 - United Methodist Polity (1.5 credit hours). These courses are not required for the M.Div. degree; they are provided as a means of satisfying these requirements of the church in the context of the programs. The Book of Discipline also indicates that these requirements may be met in ways other than through regular coursework, and students may wish to explore these other options.

In the United Methodist Church, the provisions for education and preparation for all forms of professional status in ministry are expressed in detail in the books *The Christian as Minister: An Exploration into the Meaning of God's Call* (2009–2012), General Board of Higher Education and Ministry, The United Methodist Church, Nashville, Tennessee, and *Understanding God's Call: A Ministry Inquiry Process* (2009), GBHEM, The United Methodist Church, Nashville, Tennessee.

## **Ministry, M.A.M.**

### **Purpose**

The Master of Arts in Ministry degree program is intended to prepare students faith-based ministry. The goal of the program is to increase students' knowledge about the heritage of the Christian faith, the church, and its ministries.

## Learning Outcomes

1. *Interpret scripture:* Students will interpret scripture effectively, using a wide variety of approaches informed by an understanding of biblical history, the social and cultural realities of ancient Israel and the early church, and the interpreter's own context.
2. *Comprehension of history and culture:* Students will demonstrate an understanding of the life and thought of the Christian community in its historical expressions and of the interrelations between Christianity and global culture.
3. *Theological and ethical reflection:* Students will be able to engage in constructive theological and ethical reflection, informed by an understanding of the content of the Christian faith in its historical and contemporary articulations, as well as current Christian thinking on philosophical, scientific, political and cultural developments.
4. *Leadership roles:* Students will function successfully and effectively in leadership roles, evidencing critical awareness of the social context of their ministry and the capacity to have an impact on that context.
5. *Spiritual formation:* Students will demonstrate familiarity with and appreciation for the church's spiritual tradition and the disciplines of prayer and devotion, and exhibit a capacity to evaluate specific instances of spiritual practice from a theological standpoint.

## Requirements for Admission

The number of new students to be admitted each year is determined by policies of selection established by the faculty.

The following considerations are decisive:

1. Seriousness of purpose, emotional stability and likelihood of satisfactory performance in the degree program and of responsible membership in the Perkins and Southern Methodist University community.
2. Presence of and potential for growth in those emotional, moral and spiritual qualities requisite for the profession of ministry and the absence of patterns of personal behavior tending to be seriously disabling to ministry.
3. Academic ability as shown by a minimum GPA of 2.750 (on a 4.000 scale) in a well-balanced curriculum. Normally, an applicant must hold the B.A. or equivalent degree from a college or university which is accredited by one or more of the organizations recognized by the Council for Higher Education Accreditation (chea.org). An applicant with a degree from an unaccredited school may be considered if the case is exceptional. It is particularly important that the student have an adequate liberal arts preparation.
4. A reasonable program of financial support that will enable the student to be devoted properly to the main business of his or her theological training.

Persons who have already graduated from college or who are considering the ministry as a second career are given special consideration by the admissions committee, especially with regard to the adequacy of their pretheological curriculum.

Beyond the evidence of ability furnished by transcripts, applicants may be asked to demonstrate their preparation for theological study by adequate performance on either the GRE graduate school entry exam or the Miller Analogies Test.

To supplement the data furnished by transcripts, letters of reference and other written material, a personal interview with the director of student services or with a person designated by the director may be required of the applicant.

## Requirements for Graduation

The M.A.M. degree requires 37 credit hours of academic credit, inclusive of a supervised internship. Students are also required to participate in a spiritual formation group for two terms, normally beginning during the first year of study, for one credit hour, one half hour earned in the fall term and one half hour earned in the spring term.

A minimum cumulative GPA of 2.000 is required for graduation. The same average is required for continuation in the program beyond the first year.

All requirements for the M.A.M. degree must be completed within five calendar years from the time of initial registration.

## Course Requirements

The required 37 credit hours are distributed as follows:

### Required Courses

#### *Core Courses (22 Credit Hours)*

- HX 6305 - The Christian Heritage I
  
- NT 6301 - Interpretation of the New Testament I  
or
- NT 6302 - Interpretation of the New Testament II
  
- OT 6301 - Interpretation of the Old Testament I  
or
- OT 6302 - Interpretation of the Old Testament II
  
- ST 6301 - Interpretation of the Christian Message I
- XS 6310 - The Church in Its Social Context
- XX 6003 - Spiritual Formation I
- XX 6104 - Spiritual Formation II
- XX 8365 - Master of Arts in Ministry Internship I
- XX 8366 - Master of Arts in Ministry Internship II

#### *Electives (15 Credit Hours)*

- 15 hours of unrestricted electives

#### Custom Concentration Option (15 Credit Hours)

- 15 credit hours of concentration-specific courses

**Note:** The Custom Concentration must be planned out at the beginning of the student's career necessitating academic advising upon entry into the program.

### Total: 37 Credit Hours

**Note:** Those seeking ordination as a deacon in the United Methodist Church will need to take a worship course (three credit hours), United Methodist studies courses (six credit hours) and an evangelism course (three credit hours). These hours satisfy most of the unrestricted elective hours.

## Spiritual Formation

All students completing the M.A.M. degree are required to register for the program in spiritual formation. Students are required to attend a daylong orientation held in conjunction with the new student orientation program and are then enrolled in formation groups. These groups meet weekly throughout the fall and spring terms during the first year of the program.

Led by facilitators in groups of five to 10, students share in a formative experience designed to provide them with the framework of a common experience, emphasizing the following:

- The opportunity to explore the vital connection between spiritual formation and ministry.
- Opportunities to explore the central genius of spiritual traditions.
- The development of a critical capacity that will allow the student to evaluate those traditions theologically.
- Broad-based exposure to a variety of spiritual disciplines.

- Experience in prayer and devotion.

Students are evaluated and given credit by the group facilitators on the basis of attendance and engagement with the subject matter of the formation process. Students should register in both the fall and spring of the first year. Exceptions to this rule must be requested in writing from the director of spiritual life and formation.

## **Internship**

The M.A.M. program requires the satisfactory completion of a supervised internship in a church or agency setting appropriate to the student's area of specialization. The internship is nine months long, over the fall and spring terms of one academic year, and it carries six credit hours of academic credit. While the student registers for three hours of internship course credit during each of the two consecutive terms, the internship degree requirement is satisfied only upon completion of the six credit hours.

ST 6301 – Interpretation of the Christian Message I is a prerequisite for the Internship course. The following courses are recommended in preparation for the internship course: XS 6310 - The Church in Its Social Context, two courses in biblical studies, spiritual formation and at least one of the foundational courses for the student's specialized degree concentration.

All internships are coordinated through the Perkins Intern Office. The placement process begins in September when a prospective intern is invited to apply for an internship that would begin in August of the following year. A student completes an application and interviews with the intern faculty who will determine throughout the placement process the student's readiness for internship. If at any point during the placement process, the student exhibits patterns of behavior that suggests that the student needs further preparation prior to participating in an internship, the intern faculty may conclude that a student is not ready for an internship. The intern faculty will engage in a consultative process to determine appropriate measures to help the student become prepared for internship.

If a student declines two faculty-approved intern placements in a year, the Intern Program will remove the student from the placement process for that year. A student who is removed from the placement process is encouraged to re-apply for an internship the following year; however, the student must accept a subsequent faculty approved intern placement.

A student demonstrating readiness for an internship is encouraged to pursue placement possibilities for discussion in the initial interview with the intern faculty. Internship placements include church, agency and hospital chaplaincy settings. During the placement process serious consideration is given to the student's denominational preference.

The M.A.M. internship is part-time, requiring 20 hours per week (inclusive of the internship seminar) of work in the internship setting. All interns receive a stipend.

Master of Arts in Ministry students may complete the Perkins internship requirement (six credit hours) by successful completion of either:

1. An introductory unit of Clinical Pastoral Education (Level 1), or
2. An extended unit of Clinical Pastoral Education (Level 1). In most cases the unit schedule is 20 hours per week, between seven and nine months, within the span of August and May.

Master of Arts in Ministry students who choose either option to fulfill the Perkins internship requirement may not also receive academic credit for PC 7639 – Basic Clinical Pastoral Education .

An intern faculty member will be assigned to the CPE intern and will consult with the CPE certified educator regarding satisfactory completion of the internship requirement.

During the internship course, students do ministry under supervision and reflect theologically on their experiences. As the interns become more competent and self-confident in carrying out the tasks of ministry and gain theological, emotional and spiritual maturity in their understanding of it, they prepare themselves to provide resourceful, faithful Christian leadership in the world.

The design of the Perkins Intern Program assumes interns to be adult learners who can assess and value their past experiences and vocational goals and build on these creatively and systematically in pursuing the learning opportunities

offered at their particular internship site. To that end, the internship course curriculum specifies a set of required competencies under each of three categories (*be aware, think theologically and lead faithfully*), tailored to the student's particular degree concentration.

The Perkins Intern Program faculty partners with staff and laity at congregations and agencies and with mental health professionals experienced in church family systems to provide supportive supervision for students during internship. The mentor pastor and lay teaching committee assigned to each intern receive orientation and training as part of the intern program.

A student's internship begins with a required two-day Intern Orientation conducted in August by the intern faculty.

## **Admission to Candidacy**

M.A.M. students will be reviewed for admission to formal candidacy for the degree following the completion of 12 credit hours of academic work. A student will be admitted to candidacy provided that he or she is not on probation and is not disqualified for having given evidence of patterns of personal behavior tending to seriously hinder ministry. Admission to formal candidacy signifies that the student is proceeding satisfactorily in his or her course requirements, including admission to and continuation in internship courses, and possesses a seriousness of purpose, emotional stability, and likelihood of satisfactory performance of Christian leadership. Formally, the presence of patterns of personal behavior tending to seriously hinder ministry may be grounds for the faculty to disqualify a student from graduation with the M.A.M. degree, or, if the prognosis justifies it, to defer awarding the degree until such time as the hindering pattern is overcome. A student may be considered for the degree upon completion of all the requirements, but admission to formal candidacy does not oblige Perkins to grant the degree.

## **Ordination Requirements**

Students preparing for ordination should become aware as early as possible of any specific educational requirements their denomination or judicatory may expect them to satisfy in the course of their M.A.M. work. They should explore, with their academic advisers, how best to deal with these expectations. Students who are preparing for ordination as deacons in the United Methodist Church should take as their electives HX 7365 - United Methodist History, ST 7034 - United Methodist Doctrine, CA 7013 - United Methodist Polity, WO 6313 - Introduction to Christian Worship, and EV 7307 - The Theory and Practice of Evangelism.

## **Sacred Music, M.S.M.**

### **Purpose**

The Master of Sacred Music degree program is jointly sponsored by Perkins School of Theology and the Division of Music of Meadows School of the Arts for the preparation of professional music and arts leadership in the church and, if one chooses, ordination as a deacon. Recognizing the existence of several models of professional church music leadership, this program provides a wide range of graduate-level training in performance, professional and academic skills.

High priority is placed upon the preparation of the church musician as enabler of congregational singing and conductor of various ensembles in both the church and the community. Professional church music courses, supervised practicum, worship leadership opportunities, conducting projects and other work offered in the School of Theology and the Division of Music provide opportunities to learn a wide range of literature, performance practices and skills and to apply this learning in both academic and churchly settings.

### **Learning Outcomes**

1. *Discernment*: Students will demonstrate musical, theological, liturgical and contextual discernment, including the ability to make sound musical and theological judgments about works performed, (e.g., questions of validity, quality and contextual appropriateness on the twin levels of text and music) and the capability to situate a musical work in a local context.
2. *Skill*: Students will demonstrate musical skills, including advanced accomplishment in an applied area appropriate to a faith community's piety, and informed by the history and analysis of the genres of church

music as well as by sensitivity to the ways current technologies can aid the realization of the music's goals in its contexts.

3. *Pedagogy*: Students will practice effective pedagogy, including an understanding of faith formation through music for musicians of all types and ages, and application of processes for engaging musical participation by choirs and the congregation in worship.
4. *Theological framework*: Students will demonstrate an understanding of the discipline of sacred music within a larger theological and cultural framework.
5. *Theology*: Students will demonstrate clarity toward a theology that positions music in all its dimensions as praise to God and service to neighbor, as biblically based offering and prophecy, and as proclamation of Gospel.
6. *Interpersonal and organizational skill*: Students will practice interpersonal sensitivity and organizational skills, including the ability to foster professional interpersonal relationships, Christian community in musical ensembles, and skills to effectively administer a music and worship ministry that supports the mission of a congregation in its context.

## Requirements for Admission

Applicants for the M.S.M. program must hold a Bachelor of Music or Bachelor of Music Education degree, or its equivalent, from a regionally accredited institution. Their undergraduate preparation must include credited work in choral conducting and at least 30 credit hours of courses in the liberal arts.

A cumulative GPA of at least 3.000 (on a 4.000 scale) is required for admission to the Division of Music. Admission to the School of Theology further requires that a minimum GPA of 2.750 be achieved in the student's liberal arts work. The concentration in liturgical musicology requires a cumulative GPA of at least 3.500 for admittance and requires that the student maintain at least a 3.500 GPA for all graduate work. Although one application is made through Perkins School of Theology, successful applicants for the M.S.M. program are accepted by both the Division of Music in the Meadows School of the Arts and the Perkins School of Theology.

The applicant is expected to bring capabilities in one of the seven concentrations offered, demonstrating potential for success for study at the graduate level. Admission to the applied concentrations (choral conducting, keyboards, organ, and composition and arranging) requires that the applicant demonstrate performance capabilities by a personal audition (for organists and for keyboards) or by an online Web link (for choral conductors). All academic concentrations (music education, worship arts and liturgical musicology) include applied instruction in choral conducting and organ and a keyboard proficiency exam. In addition, the application should include a description of previous experience or written work that demonstrates the applicant's ability to pursue graduate level work in the chosen concentration.

Applicants who already hold graduate degrees in music (Master of Music, Master of Music Education or other comparable degree) or who have completed some coursework at the graduate level may, upon the approval of the director of the program, apply up to nine credit hours (or the equivalent) of nonperformance graduate musical or theological study toward the M.S.M. degree. However, this work must also meet the approval of the Committee on Graduate Studies of the Division of Music (if the work is in music) or of the registrar of the Perkins School of Theology (if the work is in theology). Applicants who have already earned a graduate degree in music may also qualify for the Master of Theological Studies degree with a concentration in church music and worship, a program that focuses specifically on church music skills and repertoire and on theological studies. Applicants interested in such options should consult with the director of the M.S.M. program.

With the approval of the appropriate admissions committees, a student may pursue a second M.M. degree following the completion of the M.S.M. The applicant must satisfy the audition requirements of the Division of Music faculty in the Meadows School of the Arts. Depending on the field of study chosen for the M.M., an additional master's degree usually requires only one additional year because of the overlap in the programs. Hours in the M.S.M. may also apply toward the M.Div., Master of Theology or M.A. degrees offered by the Perkins School of Theology. Consultation with the director of the M.S.M. program is recommended.

## Requirements for Graduation

The requirements for the M.S.M. total 48 credit hours.

During the student's final term of enrollment, he or she will be given a set of comprehensive written examinations covering the major areas of study and related fields. Satisfactory performance on these examinations and a minimum cumulative GPA of 3.000 or a grade of B on all M.S.M. work are required for graduation.

All requirements for the M.S.M. degree must be completed within seven calendar years from the time of initial registration

## **Planning a Program of Study**

The course of study includes some work taken in common by all M.S.M. students and some work that is designed to serve the individual student's particular needs and interests. Each student elects one of seven options for concentration. All entering students must take graduate placement examinations administered by the Division of Music. These examinations aid in determining the student's strengths and weaknesses in the areas of music history, literature, theory, aural perception and, for choral conductors, keyboard proficiency. The results are used by the student and his or her adviser in planning a proposed course of study for the degree. After successfully completing 12 credit hours of approved coursework, each student, in consultation with his or her adviser, will prepare and submit a Proposed Course of Study to the director of the M.S.M. program. Any subsequent alterations to this proposal must be submitted in writing for approval.

## **Course Requirements**

The requirements for the M.S.M. total 48 credit hours, and they may be completed in two years (usually including summers) depending on the results of the Graduate Placement Examinations. Placement exams in music history and theory will be administered during the week before classes begin in Meadows School of the Arts. Those pursuing an additional graduate music degree in Meadows School of the Arts or fulfilling the requirements for deacon's ordination in the United Methodist Church will require up to an extra year of study.

Students are required to participate in a spiritual formation group for two terms during the first year of study. The required supervised practicum includes musical/liturgical leadership in a local congregation and work with a church music mentor.

The 48 credit hours for the M.S.M. are distributed as follows:

### **Required Courses**

#### **Theological Studies**

- NT 6301 - Interpretation of the New Testament I  
or
- NT 6302 - Interpretation of the New Testament II
  
- OT 6301 - Interpretation of the Old Testament I  
or
- OT 6302 - Interpretation of the Old Testament II
  
- WO 6313 - Introduction to Christian Worship

#### **One from the following:**

- HX 6305 - The Christian Heritage I
- HX 6306 - The Christian Heritage II
- ST 6301 - Interpretation of the Christian Message I
- ST 6302 - Interpretation of the Christian Message II

#### **Spiritual Formation**

- XX 6003 - Spiritual Formation I
- XX 6004 - Spiritual Formation II

Total: 13 Credit Hours

### Church Music

- CM 8108 - Cantoring in Worship
- CM 8120 - Supervised Practicum
- CM 8330 - Congregational Song History and Theology (Hymnology)
- CM 8331 - Introduction to Church Music: Graduate Studies
- CM 8332 - Music Genres of Western Christianity

Total: 11 Credit Hours

### Professional Skills and Methods

- MUAS 6010 - Music Engagement (four terms)
- Participation in a Meadows choral ensemble, as determined by placement audition (two consecutive terms within the same academic year)

One from the following:

- MUTH 6300 - Analysis of Contemporary Music
- MUTH 6326 - Seminar in Music Analysis
- MUTH 6330 - Analytical Techniques
- MUTH 6360 - Analysis of Tonal Music

Total: 3 Credit Hours

### Perkins or Meadows Electives

The eight elective hours will be determined in consultation with the student's adviser on the basis of the outcome objectives of the M.S.M. program and the student's competency to meet these objectives.

Total: 8 Credit Hours

### Choral Concentration Requirements

- Elective course in choral conducting (2 credit hours)
- MUCO 6211 - Instrumental Techniques for Choral Conductors
- MUCO 6252 - Vocal and Choral Techniques
- MUCO 6307 - Choral Conducting I (by placement evaluation)
- MUCO 6384 - Directed Study in Conducting (or other music history course approved by the student's adviser)
- PERB 6111 - Introduction to the Organ

Total: 13 Credit Hours

### Composition and Arranging Concentration Requirements

- PERB 6111 - Introduction to the Organ
- CM 8201 - Instruction in Conducting (audition required)
- MUTH 5325 - Class Composition
- MUTH 5330 - Instrumentation and Arranging

or

- MUTH 5360 - Advanced Orchestration
- MUTH 6190 - Directed Studies in Composition (2 hours over two semesters)
- MUTH 6281 - Thesis in Composition

Total: 13 Credit Hours

### **Keyboards Concentration Requirements**

- PERB 6111 - Introduction to the Organ
- CM 8140 - Practicum in Keyboards
- CM 8201 - Instruction in Conducting (audition required)
- CM 8240 - Keyboards in Ensemble
- Private instruction in Keyboard (7 hours)

Total: 13 Credit Hours

### **Liturgical Musicology Concentration Requirements**

- Nine hours in Meadows School of the Arts or Perkins School of Theology in an appropriate field of study to be determined by the student's goals in consultation with the student's adviser, etc., musicology, liturgical studies.
- PERB 6111 - Introduction to the Organ
- CM 8300 - Thesis in Sacred Music

Total: 13 Credit Hours

### **Music Education Concentration Requirements**

- CM 8107 - Youth Choir and the Church
- CM 8124 - Music Ministry with Children
- CM 8201 - Instruction in Conducting (audition required)
- MUED 5250 - Workshop in Music Education
- PERB 6111 - Introduction to the Organ

6 credit hours from the following:

- MUED 6361 - Orff Schulwerk Level I
- MUED 6362 - Orff Schulwerk Level II
- MUED 6363 - Orff Schulwerk Level III
- MUED 6364 - Kodály Level I
- MUED 6365 - Kodály Level II
- MUED 6366 - Kodály Level III

Total: 13 Credit Hours

### **Organ Concentration Requirements**

- Private organ study (four 2-hour terms)

- MUHI 6320 - Organ History and Literature
- PERB 6212 - Organ Improvisation and Service Playing

Total: 13 Credit Hours

### **Worship Arts Concentration Requirements**

- CM 8121 - Practicum in Worship Arts
- CM 8201 - Instruction in Conducting (audition required)
- CM 8321 - Seminar in Worship Arts I (Focus on Ritual Studies and Arts)
- CM 8322 - Seminar in Worship Arts II (Focus on Liturgical Theology and Arts)
- CM 8323 - Seminar in Worship Arts III (Focus on Aesthetics and Arts)
- PERB 6111 - Introduction to the Organ

Total: 13 Credit Hours

Total: 48 Credit Hours

#### **Notes**

- For United Methodist students pursuing deacon's orders, the 12 credit hours under "Theological Studies" may count toward the 24 credit hour requirement. It may be possible to use hours under "Perkins or Meadows Electives" to satisfy more of the 24-hour requirement.
- The prerequisite course for WO 6313, XS 6310 - The Church in Its Social Context, is not required for the M.S.M. degree.
- Elective courses for the choral or organ concentration will be determined in consultation with the student's adviser on the basis of the outcome objectives of the M.S.M. program and the student's competency to meet these objectives.
- Candidates in the M.S.M. choral concentration must take a keyboard proficiency exam before classes begin during their first year. Those who are unable to pass the proficiency exam must take PERB 5107, PERB 5108 Keyboard Skills for Choral Conductors. Information on the exam will be sent to all incoming students in this concentration.
- A portion of the hours for the organ concentration under "Perkins or Meadows Electives" may be used for choral conducting, depending on the placement evaluation. No more than three elective hours of applied study in Meadows may be counted toward the M.S.M. degree requirements.
- Private vocal instruction for M.S.M. students will be offered only for those who have also been accepted into the Master of Music in voice major as a concurrent degree program or by audition with the voice faculty. Private vocal instruction for M.S.M. students is subject to the availability of voice faculty.

During the student's final term of enrollment, he or she will be given a set of comprehensive written examinations covering the major areas of study and related fields. Satisfactory performance on these examinations and a minimum cumulative GPA of 3.000 or a grade of B on all M.S.M. work are required for graduation.

Students seeking ordained deacon status in the United Methodist Church will need 12 additional credit hours beyond the required coursework for the M.S.M. degree. For specific information, students should contact the director of the M.S.M. program.

### **Entrance Exams and Proficiency Requirements**

All students will be required to take entrance exams in music history and music theory before beginning their first term of study. If exams are not passed, the following courses are required in the respective areas:

- MUHI 6100 - Music History Review (music history)
- MUTH 6000 - Graduate Theory Review (music theory)

- MUTH 6100 - Graduate Theory Review (music theory)

## **Spiritual Formation**

All students completing the M.S.M. are required to register for the program in spiritual formation. Students are required to attend a daylong orientation held in conjunction with the new student orientation program and are then enrolled in formation groups. These groups meet weekly throughout the fall and spring terms during the first year of the program.

Led by facilitators in groups of five to 10, students share in a formative experience designed to provide them with the framework of a common experience, emphasizing the following:

- The opportunity to explore the vital connection between spiritual formation and ministry.
- Opportunities to explore the central genius of spiritual traditions.
- The development of a critical capacity that will allow the student to evaluate those traditions theologically.
- Broad-based exposure to a variety of spiritual disciplines.
- Experience in prayer and devotion.

Students are evaluated and given credit by the group facilitators on the basis of attendance and engagement with the subject matter of the formation process. Students should register in both the fall and spring of the first year. Exceptions to this rule must be requested in writing from the director of spiritual life and formation.

## **The Supervised Practicum**

Students enroll in the course CM 8120 - Supervised Practicum during the spring term of their first or second year. Students should have secured positions in a local church setting by no later than the second year of study. The Sacred Music Office provides assistance in securing placement in view of each student's pedagogical and financial needs. A professor in the Sacred Music Program will serve as a liaison between Perkins and the student's church so that the student has sufficient support to meet the requirements of the practicum.

In the second or third year, with the approval of the M.S.M. faculty, the student will present a service of worship in her/his church to complete CM 8120. This service becomes the graduate project for the M.S.M. degree and will be given a pass or fail grade by an evaluating M.S.M. faculty member.

## **Admission to Candidacy**

M.S.M. students will be reviewed for admission to formal candidacy for the degree in the fall term following the completion of 18 credit hours of academic work. A student will be admitted to candidacy provided that he or she has achieved a grade average of 3.00, is not on academic probation and is not disqualified for having given evidence of patterns of personal behavior tending to seriously hinder ministry. Admission to formal candidacy signifies that the student is proceeding satisfactorily in his or her course requirements, including admission to and continuation in internship courses, and possesses a seriousness of purpose, emotional stability, and likelihood of satisfactory performance of Christian leadership. Formally, the presence of patterns of personal behavior tending to seriously hinder ministry may be grounds for the faculty to disqualify a student from graduation with the M.S.M. degree, or, if the prognosis justifies it, to defer awarding the degree until such time as the hindering pattern is overcome. A student may be considered for the degree upon completion of all the requirements, but admission to formal candidacy does not oblige Perkins to grant the degree.

## **Financial Aid**

In addition to the financial aid described elsewhere in this catalog, a limited number of scholarships, fellowships and work grants are available specifically to M.S.M. students. Inquiries should be addressed to the director of the M.S.M. program. In addition, most M.S.M. students are employed by a local congregation as a part of the supervised practicum requirement for the M.S.M. degree.

# Theological Studies, M.T.S.

## Purpose

The Master of Theological Studies degree program is designed to provide a basic understanding of the theological disciplines as a foundation for further graduate study, for enhancement of lay leadership roles or for personal enrichment. The degree requirements are designed to ensure some breadth of exposure to the various disciplines of theological study, while at the same time allowing each student to fashion a plan of study that serves her or his particular interests and goals.

## Learning Outcomes

1. Survey and focused knowledge. Students will demonstrate the attainment of a survey knowledge of various theological disciplines, focused knowledge in a specific discipline, or interdisciplinary knowledge.

The following outcomes will be met as they apply to each individual M.T.S. project:

1. Knowledge of scripture. Students will demonstrate knowledge of biblical history, literature, culture, and interpretive theory.
2. Comprehension of history and culture. Students will demonstrate an understanding of the life and thought of the Christian community in its historical expressions.
3. Theological and ethical reflection. Students will be able to engage in constructive theological and ethical reflection, informed by an understanding of the content of the Christian faith in its historical and contemporary articulations, as well as current Christian thinking on philosophical, scientific, political and cultural developments.
4. Integrative contextual reflection: Students will engage in integrative contextual reflection in an area of ministerial practice, including evangelism, preaching, worship, pastoral care, and/or congregational leadership.

## Requirements for Admission

The number of new students to be admitted each year is determined by policies of selection established by the faculty. The following considerations are decisive:

1. Seriousness of purpose, emotional stability and likelihood of satisfactory performance in the degree program and of responsible membership in the Perkins and Southern Methodist University community.
2. Academic ability as shown by a minimum GPA of 2.750 (on a 4.000 scale) in a well-balanced curriculum. Normally, an applicant must hold the B.A. or equivalent degree from a college or university which is accredited by one or more of the organizations recognized by the Council for Higher Education Accreditation (chea.org). An applicant with a degree from an unaccredited school may be considered if the case is exceptional. It is particularly important that the student have an adequate liberal arts preparation. In keeping with the recommendations of the Association of Theological Schools concerning pretheological studies, the following 60 hours of liberal arts coursework are highly recommended for admission to the M.T.S. degree program:
  - a. Three credit hours of philosophy (preferably historical or introductory courses or logic).
  - b. Twelve credit hours of English (especially courses that include grammar, composition and creative writing).
  - c. Three credit hours of history.
  - d. Three credit hours of social science.
  - e. Thirty-nine additional hours of liberal arts.

The following are considered highly desirable for admission to the M.T.S. degree program:

- Three credit hours of a natural science or mathematics.
  - Six credit hours of a foreign language.
  - Six credit hours in religion (such as Bible, church history, history of religions, theology or ethics).
3. A reasonable program of financial support that will enable the student to be devoted properly to the main business of his or her theological training.

Persons who have already graduated from college or who are considering the ministry as a second career are given special consideration by the admissions committee, especially with regard to the adequacy of their pretheological curriculum.

Beyond the evidence of ability furnished by transcripts, applicants may be asked to demonstrate their preparation for theological study by adequate performance on either the GRE graduate school entry exam or the Miller Analogies Test.

To supplement the data furnished by transcripts, letters of reference and other written material, a personal interview with the director of student services or with a person designated by the director may be required of the applicant.

## Requirements for Graduation

The requirements for graduation are that the student must complete 48 credit hours of approved coursework, with a minimum cumulative GPA of 2.000. All requirements for the degree must be completed within six calendar years of the time of initial registration.

## Course Requirements

The course requirements totaling 48 credit hours are as follows:

### Required Courses

#### Foundational Courses

- HX 6305 - The Christian Heritage I  
or
- HX 6306 - The Christian Heritage II
  
- ST 6301 - Interpretation of the Christian Message I
  
- XS 6310 - The Church in Its Social Context  
or
- HR 6302 - Interfaith Studies, Comparative Theology, and Ministry

Choose two from the following:

- NT 6301 - Interpretation of the New Testament I
- NT 6302 - Interpretation of the New Testament II
- OT 6301 - Interpretation of the Old Testament I
- OT 6302 - Interpretation of the Old Testament II

**Total: 15 Credit Hours**

### Concentration Courses

Selected from one area of study

- Biblical studies: from BB, GR, HB, NT, and OT courses
- Church history: from HX courses
- Moral theology/theology and culture: from MT and TC courses
- Practical theology/Christianity and society: from CA, CE, CM, EV, HH, MN, PC, PR, PS, WO, and XS courses.
- Systematic theology: HX 8321, HX 8322 and from ST courses
- World Christianity/world religions: from HR and WX courses

**Total: 12 Credit Hours**

## Electives

- The prerequisites for each course must be met.

Total: 21 Credit Hours

Total: 48 Credit Hours

## Thesis or Summative Project

In the final year of study, the student must complete either a written thesis or a summative project. Students completing a thesis receive three credit hours of credit. The thesis normally focuses on a topic in the student's chosen area of concentration. Students who choose to complete a summative project do so in conjunction with a course in which they are enrolled. The summative project integrates the student's learning and provides evidence of growth. The project may be completed in a number of formats, such as a paper, a public lecture, a website or a pilot project. No additional credit hours are given for a summative project.

## Church Music and Worship Emphasis, M.T.S.

This degree offers basic theological, liturgical and church music education to students who have already completed graduate work in some area of music and are seeking a vocation in church music in the parish (perhaps as an ordained deacon in the United Methodist context) or are preparing for graduate study at the doctoral level in church music. A Master of Music, Master of Music Education or equivalent degree is required for admission. Those with a B.M., B.M.E. or equivalent degree need to pursue the M.S.M. because of the basic graduate courses that are offered in Meadows School of the Arts. Generally, the following courses are suggested, allowing for some variations according to denominational background, professional goals and previous coursework:

The 48 credit hours of coursework are distributed as follows:

## Suggested Courses

### Basic Ministerial Studies (24 Credit Hours)

- HX 6305 - The Christian Heritage I
- HX 6306 - The Christian Heritage II
- NT 6301 - Interpretation of the New Testament I
- NT 6302 - Interpretation of the New Testament II
- OT 6301 - Interpretation of the Old Testament I
- OT 6302 - Interpretation of the Old Testament II
- ST 6301 - Interpretation of the Christian Message I
- WO 6313 - Introduction to Christian Worship

### Church Music and Worship (12 Credit Hours)

- CM 8300 - Thesis in Sacred Music
- CM 8330 - Congregational Song History and Theology (Hymnology)
- CM 8331 - Introduction to Church Music: Graduate Studies
- CM 8332 - Music Genres of Western Christianity

### Two from the following: (6 Credit Hours)

Two from the following, or other worship seminar courses:

- WO 8313 - The Church Year
- WO 8317 - The Daily Prayer of Christians

- WO 8355 - Preaching and Worship in Life's Transitions

Two from the following: (6 Credit Hours)

Two from the following, or advanced courses in music history, music theory, or worship arts:

- CM 8321 - Seminar in Worship Arts I
- CM 8322 - Seminar in Worship Arts II
- CM 8323 - Seminar in Worship Arts III
- CM 8348 - Theological Perspectives in Music

Total: 48 Credit Hours

## Theology, Th.M

### Purpose

The Master of Theology program is designed for students to fulfill one or more of three goals: enhancing the practice of ministry through advanced study of a particular theological or pastoral discipline, examining a specific aspect of the Christian religion/traditions or function of Christian ministry, and preparing for more advanced study at the doctoral level. Students may choose to focus within one of the following broad divisions:

1. The Biblical Witness.
2. The Heritage and Context of Christianity.
3. The Interpretation of the Christian Witness.
4. The Theology and Practice of Ministry.

### Learning Outcomes

1. Students will be able to demonstrate advanced understanding of their stated area of focus.
2. Students will be able to identify and evaluate the primary methods of research in the stated area of focus.
3. Students will be able to formulate useful research questions and develop research strategies in the stated area of focus

### Requirements for Admission

1. The successful completion of an Association of Theological Schools-accredited degree at the master's level requiring at least two years of full-time study or the equivalent credential from an institution outside the U.S. or Canada.
2. Academic ability, as shown by a minimum GPA of 3.000 (on a 4.000 scale) in a previous master's-level program.

### Requirements for Graduation

The Th.M. program requires 24 credit hours. As part of the program students must complete either a thesis or a portfolio as described under Course Requirements.

Th.M. candidates must maintain a B (3.000) GPA in order to continue in the program and graduate.

All requirements for the Th.M. degree must be completed within five calendar years from the time of initial registration

### Course Requirements

The Th.M. program requires 24 credit hours. Given the open nature of the inquiry that students in the Th.M. program will pursue, there are no explicitly required courses. The student will prepare a plan for study establishing the parameters of study for the degree program, including a specific area of focus and courses to be taken, to be approved before final enrollment. These courses will meet the following guidelines:

- All courses will be at the 7000 level or above.
- At least two courses will be at the 8000 level.

- One course may be a directed reading course. This course will require a minimum of one research paper of at least 5,000 words.

Th.M. candidates must maintain a B (3.000) GPA in order to continue in the program and graduate. Students may choose one of two options to fulfill the requirements of the program:

1. A thesis of 12,500 to 18,750 words (50–75 pages) on a topic related to the student's plan of study. If the thesis option is chosen, an approved thesis proposal is required to proceed after the completion of 12 credit hours of coursework. Preparation of the thesis will count three hours toward the completion of the degree.
2. A portfolio that includes written and other material submitted in fulfillment of the student's course requirements. The material chosen must represent all the courses taken and cover all aspects of the approved plan for study. The portfolio must include at least two research papers of not less than 5,000 words (20 pages) each.

# Perkins School of Theology: Course Descriptions

## Bible Courses

### **BB 7320 - The Holy Spirit in a Biblical Perspective**

*Credits: 3*

An analysis of pneumatology — a study of the Holy Spirit - in the Hebrew Bible, the literature of early Judaism, and the New Testament, with an eye toward contemporary relevance.

### **BB 7321 - Topics in Bible and Politics**

*Credits: 3*

Examination of the sociopolitical matrix in which biblical writings came into being and critical reflection on the use of the Bible in politics. Prerequisite: NT 6301/OT 6301 or NT 6302/OT 6302.

### **BB 7330 - Disability Studies, the Bible, and Theology**

*Credits: 3*

An exploration of the intersection of disability studies, biblical studies, and theology to equip students with a nuanced approach to disability in contemporary culture, biblical interpretation, and theological construction. Prerequisite: NT 6301, NT 6302, OT 6301, or OT 6302.

### **BB 8315 - Biblical Exegesis from a Hispanic Perspective**

*Credits: 3*

An interpretation of Old and New Testament passages in terms of the cultural and historical situation of Hispanic peoples in the United States. Prerequisites: OT 6301 or OT 6302 and NT 6301 or NT 6302.

### **BB 8321 - The Bible in a Global Context**

*Credits: 3*

A focused study of biblical hermeneutics in a cultural context different from the students' own, on-site in a region usually outside the U.S. or Europe, with attention given to the role of theological reflection in an environment affected by globalization in all its dimensions. Includes reading assignments and a daylong orientation before travel and a debriefing afterward. The specific topic varies with each offering. May be repeated for additional academic credit when topics vary. In accordance with the decision of the Perkins Faculty this course will be offered pass/fail if the student chooses. Prerequisite: NT 6301/OT 6301.

### **BB 8329 - Immigration, the Bible, and Practical Theology**

*Credits: 3*

A biblical and theological exploration of contemporary debates, in church and society, surrounding immigration and the calls for policy reform, with special attention to implications for preaching, teaching, and public praxis. Prerequisites: HX 6305, XS 6310, and NT/OT 6301 and 6302.

### **BB 8330 - African-American Perspectives on the Bible**

*Credits: 3*

An exploration of the variety of approaches used by African-American biblical scholars to explore scripture and the reception history of the Bible in African-American arts and letters. Prerequisites: NT 6301/OT 6301, NT 6302/OT 6302.

### **BB 8345 - Ethics of Biblical Interpretation**

*Credits: 3*

An examination of the hermeneutical issues that are involved when Scripture is employed as a guide for Christian ethics. After a consideration of some recent, representative proposals and models, a few selected topics will be explored. Prerequisites: NT 6301, NT 6302, OT 6301, OT 6302, and MT 6303.

## **Church Administration Courses**

### **CA 6320 - Business and Professional Communication**

*Credits: 3*

Emphasizes the role that communication plays in recruiting and selecting project team members, motivating employees, and making a project team productive.

### **CA 7013 - United Methodist Polity**

*Credits: 1.5*

A study of the Methodist Church and its historical emphases, structure, polity, discipline, and leadership. Special attention is given to the United Methodist Church today. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **CA 8317 - The Theology and Practice of Stewardship**

*Credits: 3*

Examines a range of issues related to the theology and practice of stewardship, including the ways theology informs church stewardship programs and fundraising. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **CA 8319 - Dynamics of Pastoral Leadership**

*Credits: 3*

A study of the nature and function of pastoral leadership in a local church setting. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

## **Christian Education Courses**

### **CE 7304 - The Church's Educational Ministry**

*Credits: 3*

An introduction to the church's educational ministry, with attention given to the biblical/theological, psychological, and philosophical foundations of Christian education. Covers the planning, administering, supervising, and evaluating of a local church program. Also, ministry with children, youth, adults, the aging, and singles. Includes lectures, case studies, roleplaying, simulations, workshops, and other experiential procedures. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **CE 8301 - Teaching the Bible in the Local Church**

*Credits: 3*

An examination and practice of a variety of approaches to the study of the Bible with youth and adults in the local church. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **CE 8320 - Ministry with Children**

*Credits: 3*

A consideration of the church's educational ministry with children, including developmental theory, the nature of teaching, and comprehensive planning for ministry with children. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **CE 8330 - Youth Ministry**

*Credits: 3*

A consideration of the church's educational ministry with youth, including the observation of or participation with young people. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **CE 8332 - Speed Dating Spirituality: Ministry with Young Adults**

*Credits: 3*

A critical exploration of the intersection between popular culture and the spiritual beliefs, values, and practices of young people ages 18-30 from diverse social contexts. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **CE 8338 - Emancipatory Educational Ministry with Adolescent Girls**

*Credits: 3*

An interdisciplinary inquiry of the experiences of teenage girls, focusing on the impact of race, class, and gender oppression. Feminist, womanist, and mujerista perspectives inform the construction of a critical educational ministry with teenage girls in the church. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **CE 8375 - Spiritual Formation in the Church**

*Credits: 3*

An exploration of a variety of historic and contemporary practices that support and guide Christian formation and spirituality in a pluralistic world. Special attention is given to leadership of small groups in the congregation, and to the interrelationship between spirituality and justice. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

## **Church Music Courses**

### **CM 8021 - Supervised Practicum**

*Credits: 0*

First of a four-course sequence required of all M.S.M. students. The practicum provides professional field supervision in music and ministry during the first 2 years of study, and requires completing a church music project and other agreed-upon activities during the last spring term. Includes a final evaluation with supervisors and the M.S.M. director and Practicum Committee.

### **CM 8022 - Supervised Practicum**

*Credits: 0*

Second of a four-course sequence required of all M.S.M. students. The practicum provides professional field supervision in music and ministry during the first 2 years of study, and requires completing a church music project and other agreed-upon activities during the last spring term. Includes a final evaluation with supervisors and the M.S.M. director and Practicum Committee.

### **CM 8023 - Supervised Practicum**

*Credits: 0*

Third of a four-course sequence required of all M.S.M. students. The practicum provides professional field supervision in music and ministry during the first 2 years of study, and requires completing a church music project and other agreed-upon activities during the last spring term. Includes a final evaluation with supervisors and the M.S.M. director and Practicum Committee.

### **CM 8025 - Supervised Practicum**

*Credits: 0*

Fourth of a four-course sequence required of all M.S.M. students. The practicum provides professional field supervision in music and ministry during the first 2 years of study, and requires completing a church music project and other agreed-upon activities during the last spring term. Includes a final evaluation with supervisors and the M.S.M. director and Practicum Committee.

### **CM 8106 - Handbells and Worship**

*Credits: 1*

A comprehensive study of the techniques of English handbell ringing and the pedagogy of handbell choir directing. Includes the use of handbells and handbell repertoire in a liturgical setting. M.Div. students by permission.

### **CM 8107 - Youth Choir and the Church**

*Credits: 1*

A comprehensive study of the philosophy and techniques for working with church youth choirs, including recruiting, touring, and building effective groups. Also, vocal development and literature, and work with changing voices. M.Div. students by permission.

### **CM 8108 - Cantoring in Worship**

*Credits: 1*

A course on leading congregational singing in a variety of styles, including psalmody, African-American song, Taizé prayer, and global music. Includes issues of basic vocal pedagogy.

### **CM 8120 - Supervised Practicum**

*Credits: 1*

Required of all M.S.M. students. Activities in the course occupy both years of study. During the first spring term of study, one class session a week focuses on issues of pastoral care and problems in human relationships met in church music work. Professional field supervision in music and ministry is given during all terms. A special church music project and other agreed-upon activities take place the last spring term of study. A final evaluation is held with supervisors, the M.S.M. director, and the practicum committee.

### **CM 8121 - Practicum in Worship Arts**

*Credits: 1*

The design and implementation of a worship arts experience in the student's church, in the community, or at Perkins Chapel, drawing upon local resources. Required for the M.S.M. with a concentration in worship arts. Prerequisite: CM 8321, CM 8322, or CM 8323.

### **CM 8124 - Music Ministry with Children**

*Credits: 1*

Designed for musicians and educators interested in developing a church music-education program for children ages 3-12. Includes vocal development and literature, children's choir curricula, music reading skills, children in worship, and music in the church school. Music reading skills are helpful but not necessary. M.Div. students by permission.

### **CM 8140 - Practicum in Keyboards**

*Credits: 1*

The student plans, coordinates, and presents worship in Perkins Chapel during community worship or another appropriate worship setting, applying keyboard and improvisational in liturgy. Prerequisite or corequisite: WO 6313.

### **CM 8201 - Instruction in Conducting**

*Credits: 2*

Specialized instruction in choral conducting for M.S.M. students who have not been admitted to the choral conducting concentration.

### **CM 8202 - Instruction in Conducting**

*Credits: 2*

A three-term sequence of specialized instruction in church music conducting required for M.S.M. students with a performance concentration in choral conducting. The course includes specialized class and private instruction and a repertoire lab.

### **CM 8240 - Keyboards in Ensemble**

*Credits: 2*

Students form ensembles of four-five musicians and lead, plan, coordinate, and present worship in Perkins Chapel or another appropriate worship setting, applying keyboard and improvisational in liturgy. Prerequisite: CM 8140.

Prerequisite or corequisite: WO 6313.

### **CM 8300 - Thesis in Sacred Music**

*Credits: 3*

A summative research paper on an aspect of sacred music approved by the thesis adviser. Available to all M.S.M. students. Required for the M.S.M. with a concentration in liturgical musicology. Usually taken in the student's final term. Prerequisites or corequisites: CM 8330, CM 8331, CM 8332.

### **CM 8321 - Seminar in Worship Arts I**

*Credits: 3*

An introduction to arts in worship, focusing on ritual studies and developing a basic vocabulary in one of the following disciplines: art history, theatre, dance, or the area of arts management. Prerequisite: WO 6313 recommended.

### **CM 8322 - Seminar in Worship Arts II**

*Credits: 3*

An introduction to arts in worship, focusing on theological aesthetics and developing a basic vocabulary in one of the following disciplines: art history, theater, dance, or the area of arts management. Prerequisite: WO 6313 recommended.

### **CM 8323 - Seminar in Worship Arts III**

*Credits: 3*

An introduction to arts in worship, focusing on liturgical theology and developing a basic vocabulary in one of the following disciplines: art history, theater, dance, or the area of arts management. Prerequisite: WO 6313 recommended.

### **CM 8330 - Congregational Song History and Theology (Hymnology)**

*Credits: 3*

A survey of the history, theology, and practice of congregational song (e.g., hymns of the classical Western tradition, recent developments in Western congregational practice, and songs of the world church). Special attention is given to analyzing current hymnals, understanding the theology of song texts, performing the various styles of music employed in Christian hymnody, and selecting congregational songs for worship and the seasons of the Christian year.

### **CM 8331 - Introduction to Church Music: Graduate Studies**

*Credits: 3*

A survey of theological and philosophical assumptions undergirding church music. This course examines primary historical hymnal writings, philosophical and theological writings, and theoretical treatises on the theology and practice of church music. Selected congregational songs and choral works are analyzed in light of their theological and musical assumptions.

### **CM 8332 - Music Genres of Western Christianity**

*Credits: 3*

A study of the history and development of musical genres used throughout church music history. Genres include Western chant, early polyphony, Mass, requiem Mass, Lutheran church cantata, passion, oratorio, Anglican anthem and service, and motet. The course connects the historical narrative of the church - from its early days to the present - with the major genres of church music.

### **CM 8348 - Theological Perspectives in Music**

*Credits: 3*

An examination of a musical repertory or issue contextualized in the theological worldview that informs it. Students

probe issues such as the relation of music to text, the influence of theology on music theory, aesthetics, intersections between style and theology, and the implications of historical context for the contemporary experience of music. Prerequisites: HX 6305, XS 6310, MUHI 6335, and NT 6301/OT 6301.

### **CM 8349 - The Hymn: Word and Music**

*Credits: 3*

A study of the role of music in worship from historical, theological, and cultural perspectives, focusing primarily on congregational song. Students attend a variety of worship experiences and analyze the various ritual contexts. Does not require reading music or a knowledge of music. Recommended: WO 6313.

### **CM 9344 - Music in Worship and Renewal**

*Credits: 3*

Focuses on recent trends and resources in music and worship in order to gain a historical perspective and greater understanding of the nature and role of congregational song in worship and ways to improve congregational singing. Required of all DPM students.

### **CM 9350 - Ecclesiology, Community, and Models of Leadership**

*Credits: 3*

An examination of the contemporary and theological foundations, strategies, and manifestations of Christian ecclesiologies and ministerial vocation and leadership. Attention is given to models of ministerial leadership at church level as well as non-parish models of response to the social environment.

### **CM 9373 - Issues in Liturgical Theology and Practice**

*Credits: 3*

A critical examination of the complex juxtaposition of Christian ritual practices and theology, with attention paid to specific historical and contemporary praxis within cultures and discussion of pathways to reform.

### **CM 9379 - Models of Leadership, Social Institutions, and Community Engagement**

*Credits: 3*

Focuses on the characteristics and strategic planning of organizational leaders in churches and/or non-profit organizations who develop social and self-sustaining programs for congregations and communities.

### **CM 9380 - Vocation, Leadership, and Community**

*Credits: 3*

Using a Practical Theology framework, this course explores the theological meanings and intersections between vocation, leadership, and community. Particular emphasis is given to the relationship between gospel and vocation, leadership and practices of ministry, and community and the world. Required of all DPM students.

### **CM 9394 - Thesis Seminar**

*Credits: 3*

Equips students with tools to complete their thesis and/or a portfolio based on completed course work that demonstrates growth in the goals of the program.

### **CM 9398 - Doctor of Pastoral Music Thesis**

*Credits: 3*

Building upon the project practicum, the written project thesis is a contribution to the understanding and practice of pastoral music ministry through the completion of a doctoral-level thesis. Taken during the student's fourth year of the program. Required of all DPM students.

## **CM 9696 - Doctor of Pastoral Music Practicum**

*Credits: 6*

A supervised experience in pastoral music ministry in an agreed-upon setting. Requires a congregational supervisory committee that evaluates students' pastoral music ministry within the congregation (fall semester), and a professional advisory committee, consisting of a minister, musician(s), and other appropriate persons in the community, that evaluates students' pedagogical process, performance, and effectiveness within the community, and proposes strategies for effective community outreach (spring semester). Taken during students' third year of the program. Required of all DPM students.

## **Doctor of Ministry Courses**

### **DM 9302 - Ministry in the Black Church**

*Credits: 3*

Explores the ministry of the black church. Examines the underlying theological rationale and its practical implications for ministry in the black church from the perspective of cultural pluralism in the black experience. Includes an experience in the context of the black church.

### **DM 9321 - Witness and Ministry in Context**

*Credits: 3*

A focused study of Christian witness and ministry in a cultural context, on-site within a region, with attention given to the role of theological reflection in an environment affected by globalization in all its dimensions. Includes reading assignments and a daylong orientation before the course begins and a debriefing after the travel portion of the course.

### **DM 9350 - Ecclesiology, Community, and Models of Leadership**

*Credits: 3*

An examination of the contemporary and theological foundations, strategies, and manifestations of Christian ecclesiologies and ministerial vocation and leadership. Attention is given to models of ministerial leadership at church level as well as non-parish models of response to the social environment.

### **DM 9359 - Vocation, Leadership, and Bible in Contexts**

*Credits: 3*

Examines the interpretations of selected biblical traditions that offer meanings of vocation, leadership roles, and community character for contexts of ministry.

### **DM 9370 - The Person and Role of a Leader in Ministry**

*Credits: 3*

An integrative approach that provides emotional and cultural competence assessment for personal and professional issues in ministry. Enables a clear sense of self in respect to emotional and cultural dynamics. Equips leaders with effective communication skills to enhance practices of ministry for organizational settings.

### **DM 9375 - Advanced Sacramental Praxis**

*Credits: 3*

A critical examination of sacramental praxis, with particular attention given to implications for ecclesiology, formation, and mission. Also covers pathways to reform.

### **DM 9379 - Models of Leadership, Social Institutions, and Community Engagement**

*Credits: 3*

Focuses on the characteristics and strategic planning of organizational leaders in churches and/or non-profit organizations who develop social and self-sustaining programs for congregations and communities.

## **DM 9381 - Font, Table, and Mission: Baptism and the Lord'S Supper**

*Credits: 3*

Biblical, historical, theological, and praxis reflection on baptism, the Holy Eucharist, and their interrelationship. Attention is given to leadership roles among the priesthood of all believers, along with the formational and missional dynamics related to these sacraments.

## **DM 9392 - Research Methodology**

*Credits: 3*

An introduction to quality research and writing in the field of professional degrees, particularly in the areas of religion, theology, and Christian ministry. Provides materials for expanding the field of online church-based research with academic rigor and professionalism. Offers an opportunity for students and instructors to integrate writing, rhetoric, and theology improving communication skills for the writing of the final project.

## **DM 9394 - Thesis Seminar**

*Credits: 3*

Equips students with tools to complete their thesis and/or a portfolio based on completed course work that demonstrates growth in the goals of the program.

## **Evangelism Courses**

### **EV 7307 - The Theory and Practice of Evangelism**

*Credits: 3*

A study of the theological, biblical, historical, and practical foundations of evangelism in order to develop effective strategies of evangelism in the local church and other ministry contexts. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **EV 8310 - Issues in Evangelism**

*Credits: 3*

An examination of various issues in the theory and practice of evangelism, such as postmodernism, evangelism and the emerging church, feminism and evangelism, evangelism and spiritual direction, and evangelism and popular culture. Prerequisite: EV 7307.

## **Greek Language Courses**

### **GR 7300 - Greek I**

*Credits: 3*

An introduction to the fundamentals of the grammar and syntax of Koine Greek.

### **GR 7301 - Greek II**

*Credits: 3*

A continuation of GR 7300, with extensive reading in a variety of New Testament writings and with special attention to the syntax of Koine Greek, as well as to the tools, methods, and skills needed for exegesis.

### **GR 7302 - Greek Exegesis**

*Credits: 3*

Translation and exegesis of a selected letter from the Pauline corpus. Prerequisites: GR 7300, GR 7301 or equivalent.

## **Hebrew Courses**

### **HB 7300 - Hebrew I**

*Credits: 3*

An introduction to the grammar, syntax, and vocabulary of Biblical Hebrew.

## **HB 7301 - Hebrew II**

*Credits: 3*

A continuation of HB 7300, with extensive reading in the Hebrew Bible and with special attention to the syntax of Biblical Hebrew, as well as to the tools, methods, and skills needed for exegesis. Prerequisite: HB 7300.

## **HB 7302 - Hebrew Exegesis**

*Credits: 3*

Selected texts from the Prophets and the Writings. Prerequisites: HB 7300, HB 7301 or equivalent.

## **History of Religions Courses**

### **HR 6302 - Interfaith Studies, Comparative Theology, and Ministry**

*Credits: 3*

A study of world religious traditions, their interaction with Christianity, and their implications for the mission and ministry of the church in the contemporary world. Examines cultural and religious diversity as issues for theological reflection and for interreligious cooperation.

### **HR 8037 - The Multicultural Alliance: Seminarians Sharing Faith Traditions**

*Credits: 1.5*

Students from theological schools of various Christian denominations in the Southwest and representatives of the Jewish community participate in a 4-day seminar on a particular theme in Jewish-Christian relations, addressing the topic in the context of scriptural, doctrinal, ethical, and practical perspectives. Topics vary each year; examples include the theology of creation, issues in scriptural hermeneutics, faith and justice, and approaches to religious pluralism.

### **HR 8360 - Eastern Spiritual Traditions and Christian Mysticism**

*Credits: 3*

Examines Eastern spiritual traditions that developed in India, Tibet, China, and Japan, and Christian mystical expressions from the New Testament and Christian history, to discover resonating themes that can ground an understanding of spirituality in interfaith dialogue. Prerequisite: HR 6302.

### **HR 8375 - World Religions Encounter**

*Credits: 3*

Students participate in a scheduled interfaith gathering - the Parliament of the World's Religions, an International Buddhist-Christian Conference, an interfaith conference among the Abrahamic faith traditions, etc. - where representatives, leaders, and/or scholars of different religious traditions address various themes such as doctrinal, ethical, ritual, or praxeological issues faced by religious communities in the global society. Prerequisite: HR 6302.

## **History of Christianity Courses**

### **HX 6305 - The Christian Heritage I**

*Credits: 3*

An introductory study of modes of piety, patterns of thought, and styles of practice that have shaped and reshaped the Christian heritage in its major variations, from its beginnings to the present.

### **HX 6306 - The Christian Heritage II**

*Credits: 3*

An introductory study of modes of piety, patterns of thought, and styles of practice that have shaped and reshaped the Christian heritage in its major variations, from its beginnings to the present.

### **HX 7334 - Eastern Christianity**

*Credits: 3*

An overview of the history, theology, spirituality, and worship of various forms of Eastern Christianity, including Greek, Syriac, and Coptic sources. Prerequisites: HX 6305, HX 6306.

### **HX 7365 - United Methodist History**

*Credits: 3*

A historical survey of the polity and doctrine of Methodism: its beginnings in Wesley's "Societies," the evolution of British Methodism in its first hundred years, and the development of American Methodism from its origin to the present.

### **HX 7366 - Presbyterian History, Doctrine, and Polity**

*Credits: 3*

This course is designed to equip Presbyterian students to meet Presbyterian (U.S.A.) ordination requirements with respect to understanding The Book of Confessions and The Book of Order.

### **HX 7370 - Anglican History and Theology**

*Credits: 3*

An introduction to Anglican Church history and theological developments, and the development of the Anglican Communion.

### **HX 7371 - Episcopal History and Canon Law**

*Credits: 3*

An introduction to Episcopal Church history and canon law.

### **HX 7380 - Theology and Social Justice**

*Credits: 3*

Critical reflection on historical and theological foundations for Christian social justice ministries.

### **HX 8308 - Varieties of Medieval Theology**

*Credits: 3*

An exploration of the diverse approaches to basic issues of Christian faith among the monastic, scholastic, and mystical theologians of the Middle Ages, especially the 12th-14th centuries. May include readings from Anselm, Abelard, Bernard of Clairvaux, the Victorines, Bonaventure, Aquinas, Scotus, Ockham, Eckhart, Julian of Norwich, and others. Prerequisites: HX 6305, HX 6306.

### **HX 8321 - The History of Christian Doctrine I**

*Credits: 3*

An examination of the basic doctrines and theologies that have shaped the Christian tradition. Surveys the formation of the patristic, Byzantine, and medieval Western theological traditions.

### **HX 8322 - The History of Christian Doctrine II**

*Credits: 3*

Examines the basic doctrines and theologies that have shaped the Christian tradition. Also, the Protestant Reformation and the Counter (Catholic) Reformation, with certain 19th-century developments. Prerequisite: HX 8321.

### **HX 8325 - Ecumenical Movement**

*Credits: 3*

An examination of the current major developments in the ecumenical movement, which includes the World Council of Churches, the evangelical movement, regional councils, the Second Vatican Council, the Church of South India and

other unions, and the proposed Church of Christ United in the United States and Methodist involvement. Prerequisites: HX 6305, HX 6306.

### **HX 8328 - Women in the History of Christianity**

*Credits: 3*

An evaluation of the evidence of women's leadership, particularly ecclesiological ordination, in various aspects of early church life, including spiritual/monastic, liturgical, theological, political, and missionary. Focuses on the first-sixth centuries of the common era with emphasis on the formal suppression of earlier historical evidence and canonical exclusion of women in the Western European medieval church. Includes analysis of canonical and noncanonical scriptures; literary texts; and archaeological sources such as funerary, baptismal, and dedicatory inscriptions, mosaics, artifacts, and frescoes. Prerequisites: HX 6305 and HX 6306.

### **HX 8334 - The Theology of Augustine**

*Credits: 3*

A study of major issues in Augustine's theology (e.g., the Trinity, sin, grace and free will, church and state, marriage, and biblical interpretation), including the historical context and influence of his ideas. Prerequisites: HX 6305, HX 6306.

### **HX 8335 - Early Christian Spirituality and the Bible**

*Credits: 3*

An exploration of biblical exegesis in the early Church, East and West, and the formation of Christian spirituality (e.g., practices of worship, monasticism, and mysticism) according to the interpretation of Scripture. Prerequisite: HX 6305 or HX 6306.

### **HX 8336 - The Theology of Thomas Aquinas**

*Credits: 3*

A critical study of major issues in Aquinas' theology (e.g., faith and reason, God, human nature, grace, Christ, and the sacramental life), including the historical context and influence of his ideas. Prerequisites: HX 6305, HX 6306.

### **HX 8338 - Patristic Anthropology and Soteriology**

*Credits: 3*

An examination of Greek and Latin early Christian views of the human person as the image of God and related understandings of salvation, with analysis of primary sources and modern scholarly works. Prerequisites: HX 6305, HX 6306.

### **HX 8339 - The Church in Early Christianity**

*Credits: 3*

An exploration of the history, polity, growth, and development of the church (ecclesia) in early Christianity, with attention to the praxis and theology of diverse Christian communities in the East and the West. Prerequisite: HX 6305, HX 6306.

### **HX 8345 - The English Reformation**

*Credits: 3*

A study of the origins, major expressions, and continuing significance of reform movements in English religion during the 16th and 17th centuries, including the via media tradition, Puritanism, Deism, and Pietism. Prerequisites: HX 6305, HX 6306.

### **HX 8354 - History of African-American Christianity**

*Credits: 3*

A study and appraisal of selected topics and problems in African-American Christianity, integrating historical studies and current concerns to provide a fuller understanding of the African-American religious experience. Emphasis

includes the ancient African Christian traditions of Egypt, Ethiopia (Axum and Nubia), and North Africa; the African origins of Christian thought; and pre-colonial West African Christianity. Prerequisites: HX 6305 and HX 6306.

### **HX 8360 - Studies in Wesley**

*Credits: 3*

Studies in the sources and development of Wesley's theology, with special reference to theological methods, norms, and ecumenical relevance. Prerequisite: HX 7365 or permission of the instructor.

### **HX 8361 - Wesley as Evangelist**

*Credits: 3*

A study of the evangelistic theology and methods of 18th-century Methodism, especially those of John Wesley, and their implications for contemporary practice. Prerequisites: HX 6305, HX 6306, and HX 7365.

### **HX 8364 - Studies in the History of Christianity in the Southwestern United States**

*Credits: 3*

A seminar focusing on particular topics in the history of Christianity in the southwestern United States, with an emphasis on original research into these historical subjects. Prerequisite: HX 6306.

### **HX 8367 - Studies in World Methodism**

*Credits: 3*

A general survey of the worldwide growth of Methodism, exploring issues in mission, culture, and theology. Examines past and current Methodist writings from around the world, including documents from the World Methodist Council and the Oxford Institute of Methodist Theological Studies. Research projects in original materials are integral to the course. Prerequisites: HX 6305, HX 6306.

### **HX 8368 - The Articles of Religion and Confession of Faith of the United Methodist Church**

*Credits: 3*

A historical and theological analysis of the Articles of Religion and the Confession of Faith of the United Methodist Church. Prerequisites: HX 6305, HX 6306.

### **HX 8385 - Christian Mysticism: in Quest of God**

*Credits: 3*

An examination of the rich tradition of Christian mysticism and its teachings as an integral part of the Christian life and the working out of Christian theology. Prerequisites: HX 6305, HX 6306.

## **General Ministries Courses**

### **MN 7026 - Ministry in the Hispanic Church**

*Credits: 1.5*

Introduces the practice of ministry in the Hispanic church. Topics include the Hispanic community in the contexts of Bible reading, the role of the church, mission strategy, leadership, and the dominant culture. Offers methodological tools and practice that allow students to be ready to participate with Hispanics in team-developing ministries.

Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **MN 7310 - Spirituality and Christian Ministry**

*Credits: 3*

Introduces the practice of ministry in the Hispanic church. Topics include the Hispanic community in the contexts of an exploration of forms of spiritual practice for those engaged in Christian ministry, with a focus on contemplative prayer toward integrating personal, social, and ecological dimensions of the Gospel message. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **MN 7311 - Prayer and Spirituality**

*Credits: 3*

Explores various traditions of Christian prayer and spiritual life, the relationship between prayer and everyday life, and various forms of spiritual practice and discipline appropriate to people of differing temperaments and life circumstances. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **MN 7316 - Music and Arts in the Church**

*Credits: 3*

A study of the role of music and additional arts in worship and other ministries of the church. After an introduction to aesthetic and theological foundations, students participate in hands-on workshops that explore specific art forms, including dance, drama, visual arts, and music. The class also covers acoustics for worship. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **MN 7320 - Ministry in the Black Church**

*Credits: 3*

A course designed for all students interested in knowing more about the ministry of the black church. Examines the underlying theological rationale and its practical implications for ministry in the black church from the perspective of cultural pluralism in the black experience. Includes an experience in the context of the black church. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **MN 7323 - Survey of Christian Spirituality**

*Credits: 3*

A study of the biblical roots, historical grounding, theological implications, and contemporary context of Christian spirituality and formation in light of God's action in creation. Students appropriate an integrated and reflective praxis of spirituality for leadership in their context of ministry. Emphasis is given to the formative possibilities of preaching, worship, pastoral care, and mission. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **MN 7324 - Issues in Liturgical Theology and Practice**

*Credits: 3*

A critical examination of the complex juxtaposition of Christian ritual practices and theology, with attention paid to specific historical and contemporary praxis within cultures and discussion of pathways to reform. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **MN 7326 - Ministry in the Hispanic Church**

*Credits: 3*

Introduces the practice of ministry in the Hispanic church. Topics include the Hispanic community in the contexts of Bible reading, the role of the church, mission strategy, leadership, and the dominant culture. Offers methodological tools and practice that allow students to be ready to participate with Hispanics in team-developing ministries. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **MN 7329 - Issues in Practical Theology**

*Credits: 3*

A practical theological inquiry into the church's contemporary engagement in the ancient faith practice of remembering the poor. Includes theological-ethical considerations and examination of best practices. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

## **MN 8329 - Immigration, the Bible, and Practical Theology**

*Credits: 3*

A biblical and theological exploration of contemporary debates in church and society surrounding immigration and the calls for policy reform, with special attention to implications for preaching, teaching, and public praxis. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

## **Moral Theology Courses**

### **MT 6303 - Moral Theology**

*Credits: 3*

An introduction to ethical inquiry from a Christian point of view. The course examines selected past and present methods in moral theology, basic concepts and criteria developed in moral philosophy, and selected situations as opportunities for concrete embodiment of Christian moral reflection. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302.

### **MT 8305 - Historical Studies in Christian Ethics**

*Credits: 3*

A study and reading of the original texts of the most significant historical figures in the history of Christian ethics (e.g., Augustine, Aquinas, Luther, Calvin, Edwards) as well as philosophers whose work has been most important for the Christian tradition such as Plato, Aristotle, Locke, Hobbes, and Kant. Prerequisite: MT 6303.

### **MT 8311 - Christian Ministry in a Multicultural Society**

*Credits: 3*

A historical, theological, and ethical examination of the foundations for ministry in a diverse and pluralistic society. Helps students develop Christian ministry models in a multicultural and/or pluralistic society. Prerequisites: XS 6310, HX 6305, and NT 6301/OT 6301 or NT 6302/OT 6302.

### **MT 8313 - History of Christian Ethics/Politics**

*Credits: 3*

An historical study of the ways that Christians have understood their relationship to the political order, from the Greek and Hebrew roots of Western culture through modern Social Gospel, liberation, and Christian conservative perspectives. Prerequisite: MT 6303.

### **MT 8332 - Ethics, Theology, and Children**

*Credits: 3*

An exploration of Western understandings of childhood and the formation of moral children, recent changes in parenting and childhood, and implications for ministry. Draws on classical and contemporary resources in ethics, theology, and sociocultural analysis.

### **MT 8335 - Ethics, Theology, and Family**

*Credits: 3*

Drawing on classical and contemporary resources in ethics, theology, and sociocultural analysis, students review Western models of family, examine ethical issues confronting U.S. families, and identify the implications for ministry. Prerequisite: MT 6303.

### **MT 8345 - African-American Liberation Theology**

*Credits: 3*

A study of contemporary North American "black theology," with special attention to both its characteristic features and its development of social ethics. Principal readings include works by James Cone, Deotis Roberts, Major Jones, and Katie Cannon.

### **MT 8352 - Contemporary Moral Issues**

*Credits: 3*

A study of selected moral issues concerning abortion, crime and punishment, the environment, sexuality, war and peace, and other subjects. Each issue is examined in relation to moral-theological questions and to the morally relevant circumstances. Prerequisite: MT 6303.

### **MT 8354 - Studies in Theological Ethics**

*Credits: 3*

A study of recent developments in Christian ethics, with a focus on representative figures. Prerequisite: MT 6303.

### **MT 8375 - The Poor in John Wesley's Ethics**

*Credits: 3*

An examination of Wesley's ethics in response to the needs of the poor (and other marginalized groups in church and society) and the challenges they pose for ministry and theological reflection. Prerequisite: MT 6303.

### **MT 8377 - Studies in Reinhold Niebuhr**

*Credits: 3*

An examination of some major issues and themes in Niebuhr's work, with a focus on "The Nature and Destiny of Man: A Christian Interpretation." Prerequisite: MT 6303.

### **MT 8383 - Process Theology and Social Ethics**

*Credits: 3*

An examination of process theology, with a focus on ethical and metaethical implications for social ethics. Prerequisites: HX 6305, HX 6306 and two from NT 6301/OT 6301, NT 6302/OT 6302.

### **MT 8385 - Malcolm and Martin and Theological Ethics**

*Credits: 3*

A theological, ethical study of selected works by and about Martin Luther King, Jr., and Malcolm X.

## **New Testament Courses**

### **NT 6301 - Interpretation of the New Testament I**

*Credits: 3*

Examines texts and issues representative of the Gospels and Acts, with attention to exegetical method and to historical, literary, and theological problems. Acquaints students with the content of these biblical writings and develops their competence in the critical analysis and interpretation of the texts.

### **NT 6302 - Interpretation of the New Testament II**

*Credits: 3*

Examines texts and issues representative of the Epistles and Revelation, with attention to exegetical method and to historical, literary, and theological problems. Acquaints students with the content of these biblical writings and develops their competence in the critical analysis and interpretation of the texts.

### **NT 7310 - The Gospel of Mark**

*Credits: 3*

Critical analysis of the Gospel of Mark, with attention given to its continuing significance, its reception history, and the politics of interpretation in general. Prerequisite: NT 6301.

### **NT 7311 - The Gospel of Matthew**

*Credits: 3*

Detailed exploration of the Gospel of Matthew, with attention given to its historical effects and to exegetical and interpretation methods. Prerequisite: NT 6301.

### **NT 7312 - The Gospel of Luke**

*Credits: 3*

Critical analysis of the Gospel of Luke, with attention given to its reception history and the politics of interpretation in general. Prerequisite: NT 6301.

### **NT 7313 - The Gospel of John**

*Credits: 3*

Detailed analysis of the Fourth Gospel, with attention given to its reception history and to exegetical and interpretation methods. Prerequisite: NT 6301.

### **NT 7320 - The Book of Romans**

*Credits: 3*

An examination of the exegetical and historical issues of Paul's letter to the Romans and recent methodological approaches to the letter. Prerequisite: NT 6301 or NT 6302.

### **NT 7329 - Exegesis of the Passion Narratives**

*Credits: 3*

Examines the reception history of the Passion Narratives and the ways they reflect the theologies and primary concerns of each Gospel author. Prerequisite: NT 6301.

### **NT 8365 - Evil, Suffering, and Death in the New Testament**

*Credits: 3*

An exploration of views on evil, suffering, death, and afterlife evinced by various New Testament authors. Prerequisites: NT 6301, NT 6302.

### **NT 8379 - Issues in Pauline Theology**

*Credits: 3*

Examines various issues in Pauline theology, such as the law, faith/fullness, resurrection, and Judaism. Traces methodological options, the historical development of Pauline studies, and major theological issues in Paul's undisputed letters. Prerequisites: NT 6301, NT 6302.

## **Old Testament Courses**

### **OT 6301 - Interpretation of the Old Testament I**

*Credits: 3*

Examines texts and issues representative of the Pentateuch and Former Prophets, with attention to exegetical method and to historical, literary, and theological problems. Acquaints students with the content of these biblical writings and develops their competence in the critical analysis and interpretation of the texts.

### **OT 6302 - Interpretation of the Old Testament II**

*Credits: 3*

Examines texts and issues representative of the Latter Prophets and the Writings, with attention to exegetical method and to historical, literary, and theological problems. Acquaints students with the content of these biblical writings and develops their competence in the critical analysis and interpretation of the texts.

### **OT 7301 - The Book of Genesis**

*Credits: 3*

Examines texts and issues in the book of Genesis, with attention given to exegetical method and to historical, literary, cultural, and theological matters. Develops competence in critical analysis and interpretation. Prerequisite: OT 6301.

### **OT 7305 - The Book of Exodus**

*Credits: 3*

Examines texts and issues in the book of Exodus, with attention given to exegetical method and to historical, literary, cultural, and theological matters. Develops competence in critical analysis and interpretation. Prerequisite: OT 6301.

### **OT 7316 - The Psalms**

*Credits: 3*

Explores the poetic, critical, and interpretative issues concerning Psalms, with attention to form criticism and the use of psalms in Christian life, prayer, and worship. Prerequisite: OT 6302.

### **OT 7326 - The Book of Judges**

*Credits: 3*

Examines texts and issues in the book of Judges, with attention given to exegetical method and to historical, literary, cultural, and theological matters. Develops competence in critical analysis and interpretation. Prerequisite: OT 6301.

### **OT 8317 - Queer Bible Hermeneutics**

*Credits: 3*

Study of the historical, political, cultural, and religious-theological discourses about gender and sexuality in the context of the interpretation of the Hebrew Bible. Grounded in an interdisciplinary approach, the course develops self-critical perspectives about the influence of biblical meanings on hermeneutically dynamic, politically, and religiously charged conversations over sociocultural practices related to LGBTQ communities. Prerequisite: OT 6301 or OT 6302.

### **OT 8345 - Ancient Text and the Modern Reader**

*Credits: 3*

Explores various contemporary reading methods, their political underpinnings, and the biblical interpretations they produce, with a focus on recent readings of Genesis 1-3. Also examines recent readings of selected Old Testament texts. Prerequisites: OT 6301, OT 6302.

### **OT 8351 - Major Motifs of Biblical Theology**

*Credits: 3*

Thematic study in the Old Testament of one or more major aspects of biblical theology. May examine the relation of the Old Testament witness to that of the New Testament, as well. The selection of topics varies from time to time. Prerequisites: OT 6301, OT 6302.

### **OT 8368 - Film and the Hebrew Bible**

*Credits: 3*

An examination of the interface between biblical literature and its representations through film, especially movies, documentaries, and educational materials. Explores how this relationship has developed since the emergence of film in the 20th century, with special attention to the ethics, politics, and economics of biblical texts, themes, and characters in film. Prerequisite: OT 6301 or OT 6302.

## **Pastoral Care Courses**

### **PC 7301 - Introduction to Pastoral Care**

*Credits: 3*

An introduction to the caring aspects of pastoral ministry, including biblical and theological foundations of care, the

development of pastoral identity, various models of care, and essential communication skills necessary for entering diverse situations of crisis and need. Also, prepares participants for Clinical Pastoral Education as well as the Resident Community Chaplaincy Initiative at SMU.

### **PC 7321 - The Caring Congregation**

*Credits: 3*

An introduction to the church's ministry of pastoral care. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **PC 7322 - Pastoral Care and Family Systems**

*Credits: 3*

An introduction the church's ministry of pastoral care by means of theological reflection upon, and application of, relevant family systems theories in the nurture of congregations. The role of the minister/counselor in his or her family of origin is addressed as well as the minister's or counselor's role in the "church family".

### **PC 7639 - Level 1 Clinical Pastoral Education**

*Credits: 6*

Supervised pastoral experience approved by the Association for Clinical Pastoral Education. Normally offered during a 10-week summer term of 40 hours/week. Requires prior consultation with a faculty member in pastoral care.

### **PC 8301 - Pastoral Care: Special Problems**

*Credits: 3*

An examination of several major areas of pastoral work and of the relationship between pastoral care and some of the other functions of ministry. Specific topics are selected by the instructor or class itself.

### **PC 8318 - Mental Health Skills**

*Credits: 3*

Covers basic skills, concepts, and knowledge needed to evaluate mental health problems presented by parishioners, to intervene in problem situations, and to make effective referrals. Pastoral experience required. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **PC 8326 - Pastor's Crisis Ministry**

*Credits: 3*

Introduces the church's ministry of pastoral care, with an emphasis on crisis theory and intervention and theological reflection upon human crisis. Intervention procedures are practiced and then applied to typical crises in which the minister is called upon to help: illness, dying, bereavement, spousal and child abuse, natural disasters, hospitalization, family emergencies and others. There is a training component in this course at the Genesis Shelter and Outreach for the prevention of domestic violence.

### **PC 8333 - Pastoral Care and Counseling of Women**

*Credits: 3*

Addresses pastoral care and counseling concerns of women through exploration of issues such as women's psychological, social, and spiritual development; women's roles and functions in families and relationships; women's bodies and sexuality; and women in the church. There is a training component in this course at the Dallas Area Rape Crisis Center, Presbyterian Hospital.

### **PC 8335 - Sexual and Domestic Violence: Theological and Pastoral Concerns**

*Credits: 3*

Introduces the issues of domestic violence, child sexual abuse, rape, and elder abuse, with a focus on theological and ethical concerns and the church's pastoral and educational responses. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **PC 8336 - Premarital Counseling**

*Credits: 3*

An exploration of the educational, psychological, and pastoral perspectives on counseling persons for marriage in the light of an overview of the meaning of marriage in the Christian tradition. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **PC 8341 - Spirituality and the Human Life Cycle**

*Credits: 3*

An introduction to intersections of spirituality and developmental psychology. Includes case analysis of autobiographies, novels, and film. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **PC 8348 - Pastoral Self-Care**

*Credits: 3*

An exploration of the search for spiritual symmetry - the healthy balance between caring for self and caring for others - with attention given to the ministerial role of the caregiver and the good Samaritan's example of finishing the journey while caring for the hurting.

## **Preaching Courses**

### **PR 6300 - Introduction to Preaching**

*Credits: 3*

An introduction to preaching, focusing on the preparation and delivery of the sermon. Attention is given to the theology of preaching, form, content, and style of the sermon; the liturgical and social context in which the sermon is preached; and the person of the preacher. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **PR 8301 - Seminar in Preaching**

*Credits: 3*

Designed for those who desire additional work in preaching. Special attention is given to specific areas of preaching. Prerequisite: PR 6300.

### **PR 8303 - Preaching from the Bible**

*Credits: 3*

An exegetical-expository study of a book of the Bible with reference to pulpit proclamation. Prerequisite: PR 6300.

### **PR 8313 - Preaching and Worship for the Church Year**

*Credits: 3*

A historical and practical study of the witness of the church year to the Christian faith. Prerequisite: PR 6300.

### **PR 8340 - Preaching Biblical Wisdom Literature**

*Credits: 3*

An exploration of biblical wisdom themes and genres from the Hebrew Scriptures for Christian preaching, with special attention to placing biblical wisdom in conversation with contemporary secular wisdom. Prerequisite: PR 6300.

### **PR 8345 - Preaching and Public Issues**

*Credits: 3*

A biblical and theological analysis of the practice of public issues preaching in the mission of contemporary congregations to their communities with reference to three occasions of pulpit address: chronic social problems, controversial issues, and social crises. Prerequisite: PR 6300.

## **PR 8352 - Creative Sermon Design**

*Credits: 3*

An exploration of the rhetorical and theological implications of sermonic form in 21st-century congregations. Attention is given to the power of form to gain and hold attention, to convey essential biblical and theological knowledge, and to shape faith. Prerequisite: PR 6300.

## **PR 8355 - Preaching and Worship in Life's Transitions**

*Credits: 3*

A historical, theological, and practical reflection on Christian weddings, funerals, healing rites, and related occasional services. Attention is given to the pastor's critical role in preaching and leading these rites/services within particular contexts and consideration of the church's ongoing work of developing and reforming such rites. Prerequisites: PR 6300, WO 6313.

## **Prayer and Spirituality Courses**

### **PS 8310 - Sports and Spirituality**

*Credits: 3*

A critical reflection on the nature of play and its expressions in organized sports. Explores the place of sports in faithful Christian living. Prerequisites: HX 6305 or HX 6306; NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **PS 8355 - Introduction to Monastic Spirituality**

*Credits: 3*

An introduction to the theology and spiritual practice of the monastery, exploring the genesis and genius of monastic spirituality and its possible relevance for those living beyond the boundaries of the monastery. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **PS 8365 - Mary, Mystics, and Martyrs: Models and Mentors of the Faith**

*Credits: 3*

"Faith of our fathers (and mothers) living still" is the focus of this seminar exploring Christian models, spiritual mentors, and religious leaders. Supplements the usual emphases in the Reformed tradition by highlighting the role of Mary, mother of Jesus, and her living legacy as well as the classical and continuing contributions of mystics and martyrs. Students view - and correlate with primary sources - documentaries and films on Mother Teresa of Calcutta, Dietrich Bonhoeffer, Thomas Merton, St. Therese of Lisieux, and Howard Thurman. Includes discussions on the contemporary controversy surrounding the private papers of Mother Teresa. The seminar allows time for work on religious role models and forerunners in the faith. Prerequisites: HX 6305 or HX 6306, and NT 6301 /OT 6301 or OT 6302. Prerequisite or corequisite: XS 6310.

## **Systematic Theology Courses**

### **ST 6301 - Interpretation of the Christian Message I**

*Credits: 3*

A study, through lectures and preceptorials, of the methods and insights of systematic theology, aimed at aiding students in their understanding of the content of the Christian faith. The lectures undertake to develop basic perspectives in theological analysis of the cardinal issues. The preceptorials provide opportunities for small-group discussion, examination of doctrinal standards, and the formulation of the student's credo. Prerequisites and/or corequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302.

### **ST 6302 - Interpretation of the Christian Message II**

*Credits: 3*

A study, through lectures and preceptorials, of the methods and insights of systematic theology, aimed at aiding students in their own understanding of the content of the Christian faith. The lectures undertake to develop basic

perspectives in theological analysis of the cardinal issues. The preceptorials provide opportunities for small-group discussion, examination of doctrinal standards, and formulation of the student's credo. Prerequisite: ST 6301.

### **ST 7034 - United Methodist Doctrine**

*Credits: 1.5*

A study of doctrinal standards in United Methodism, with attention to Wesley's thought, subsequent theological transitions, and contemporary guidelines for doctrinal reflection in an ecumenical context.

### **ST 8309 - The God of Jews and Christians**

*Credits: 3*

Theological analysis of Jewish and Christian ideas of God in light of past and present Jewish-Christian relations. Topics include divine election, monotheism and the Trinity, law, biblical interpretation, incarnation, suffering, and resurrection. Prerequisite: HX 6305 or HX 6306.

### **ST 8311 - Modern and Contemporary Theologies**

*Credits: 3*

A comparison of liberal, neo-orthodox, postmodern, liberation, and other theologies (approaches to theological methodology), exploring their implications for the present as well as the question of their social and historical locations.

### **ST 8314 - The Christian Doctrine of God**

*Credits: 3*

An inquiry in systematic theology directed toward the formulation of an adequate constructive statement of the Christian understanding of God.

### **ST 8316 - Christian Doctrine of Reconciliation**

*Credits: 3*

An examination of classical and contemporary theologies of reconciliation. Covers medieval, modern, and contemporary understandings of the doctrine of reconciliation and the grounds thereof, and related topics such as justice, charity, mercy, forgiveness, trauma, and community.

### **ST 8318 - The Person and Work of Jesus Christ**

*Credits: 3*

A consideration of selected themes, images, issues, and problems, both past and present, in the area of Christological doctrine. Attempts to draw some guidelines for present-day thinking about Christ.

### **ST 8321 - Christian Doctrine of Providence**

*Credits: 3*

A systematic theological study of the Christian doctrine of providence, aimed at the development of an adequate contemporary understanding of the doctrine.

### **ST 8327 - North American Hispanic Theology**

*Credits: 3*

An exploration of the development of North American Hispanic theology and the dynamics of doing theology from a Hispanic perspective as a distinctive style of theology. Attention is given to the issues, concerns, and beliefs of the Hispanic community and the major developments of this style of doing theology. Requires a group project and participation in a Hispanic event. No previous knowledge of Spanish is required.

### **ST 8345 - African-American Liberation Theology**

*Credits: 3*

A study of contemporary North American "black theology," with special attention to both its characteristic features and its development of social ethics. Principal readings include works by James Cone, Deotis Roberts, Major Jones, and Katie Cannon.

### **ST 8359 - God and Creation**

*Credits: 3*

An examination of 20th- and 21st-century process and relational understandings of God and creation in response to the problem of sin against creation. Attention to the significance of a relational god in response to questions of manyness and oneness in God and creation.

### **ST 8365 - Process Theology and Christian Thought**

*Credits: 3*

An overview of the development and concepts involved in process theology, and its impact upon and compatibility with Christian beliefs. Attention is given to the background, concerns, and topics addressed by process thought and to its value for Christian theologies that seek to bring about change.

### **ST 8375 - Feminist, Womanist, and Mujerista Theologies**

*Credits: 3*

An exploration of the critique and vision brought to contemporary theology by women's perspectives represented in texts by feminist and womanist theologians, and in women's fiction and essays.

## **Theology and Culture Courses**

### **TC 7330 - Disability Studies, the Bible, and Theology**

*Credits: 3*

An exploration of the intersection of disability studies, biblical studies, and theology to equip students with a nuanced approach to disability in contemporary culture, biblical interpretation, and theological construction. Prerequisite: NT 6301, NT 6302, OT 6301, or OT 6302.

### **TC 7380 - Theology and Social Justice**

*Credits: 3*

Critical reflection on historical and theological foundations for Christian social justice ministries.

### **TC 8308 - Contemporary Issues in the Philosophy of Religion**

*Credits: 3*

Critical investigation of a selected issue in philosophy of religion based on current literature in the field.

### **TC 8310 - Theology, Religion, and Cultural Studies**

*Credits: 3*

An exploration of recent developments in critical theory and cultural studies and their implications for religion, theology, and ethics. Special attention is given to constructive proposals and issues related to global change.

### **TC 8321 - Theology and Ministry in a Global Context**

*Credits: 3*

A focused study of theology in a cultural context different from the students' own, on-site in a region usually outside the U.S., with a focus on the role of theological reflection in an environment affected by globalization in all its dimensions. Includes reading assignments and a daylong orientation before travel and a debriefing afterward. In accordance with the decision of the Perkins Faculty this course will be offered pass/fail if the student chooses. Prerequisite: Permission of instructor.

### **TC 8325 - Bioethics**

*Credits: 3*

A study of critical religious and moral issues affected by recent developments in the biological sciences and in medical technologies and practices. Topics include experimentation on human subjects, abortion, physician—patient relationships, and access to the health care system by the poor and ethnic minorities. Also, the decision to let someone die, the nature and determination of death, and the concept of health.

### **TC 8331 - The Theology and Ethics of 19Th-Century Holiness Women**

*Credits: 3*

An exploration of the knowledge and experience of God in the writings of 19th-century holiness women, with attention to their Christian thought and practice, and including their understanding and experience of issues such as calling, prayer, and social justice.

### **TC 8340 - The Christian, the Church, and the Public Good**

*Credits: 3*

A study of how the Christian and the church should work for a more just society and the public good in the light of the church's self-understanding from a theological and ethical perspective and in the light of the First Amendment and pluralistic society in the U.S.

### **TC 8346 - Spiritual Autobiography**

*Credits: 3*

A theological exploration of spiritual autobiographies, drawing on a variety of sources.

### **TC 8350 - Theology in a Latin American Context**

*Credits: 3*

Examines aspects of the theological imagination and religions that came together in Latin America to create an emancipative religious faith hermeneutic. Gives particular attention to the emergence of theological thought in the Latin American world, beginning in the middle of the 20th century and how it changed Christian theological reflection for faith communities.

### **TC 8351 - Theology and Literature**

*Credits: 3*

An examination of the methods by which various theologians employ literary resources to articulate and elaborate their concepts of God. Includes a sampling of literary resources.

### **TC 8353 - African-American Literature and Religion**

*Credits: 3*

An examination of African-American literature as a resource for theological reflection and ministry.

### **TC 8360 - Issues in Science and Theology**

*Credits: 3*

An overview and examination of the interaction of science and theology, with an emphasis on selected areas of study. Specific attention is given to the historical interaction of science and theology, as well as to their mutual concerns and respective methods.

### **TC 8372 - Theology and Economics: Contemporary Perspectives**

*Credits: 3*

An exploration of the economic aspects of theology and the theological aspects of economics. Examines contemporary perspectives on the relationship between these two fields and their mutual involvement.

## **TC 8375 - Advanced Feminist Theory**

*Credits: 3*

Examines classic literature from feminist, womanist, and "mujerista" perspectives, and addresses current theoretical issues across relevant disciplines. Taught by Perkins faculty and University faculty associated with the Women's and Gender Studies Program.

## **Christian Worship Courses**

### **WO 6313 - Introduction to Christian Worship**

*Credits: 3*

An introduction to the history and theology of Christian worship. Attention is given to the identification and function of prayer, praise, proclamation, and sacramental action. Students develop a practical theology of worship and gain experience in constructing and leading worship. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **WO 8313 - The Church Year**

*Credits: 3*

A historical and practical study of the witness of the church year to the Christian faith. Prerequisite: WO 6313.

### **WO 8316 - Font, Table, and Mission: Baptism and the Lord's Supper**

*Credits: 3*

Biblical, historical, theological, and praxis reflection on baptism, the Holy Eucharist, and their interrelationship. Attention is given to leadership roles among the priesthood of all believers, along with the formational and missional dynamics related to these sacraments. Prerequisite: WO 6313.

### **WO 8317 - The Daily Prayer of Christians**

*Credits: 3*

A study of the historical development of Christian daily worship, with particular attention to its use as a school of Christian spiritual formation. Allows students to examine historical documents and contemporary revision of the daily office and to consider the theological significance and pastoral possibilities of daily prayer. Prerequisite: WO 6313.

### **WO 8318 - Worship in A Global Perspective**

*Credits: 3*

A study of worship resources (e.g., prayers, stories, litanies, music) from Asia, Africa, Spanish-speaking countries of Central and South America, Native American cultures, and global ecumenical movements such as the Taizé Community of France and the Iona Community of Scotland. May be taught as an overview course on campus or as a focused, on-site study of a particular tradition off campus. Prerequisite: WO 6313.

### **WO 8324 - Issues in Liturgical Theology and Practice**

*Credits: 3*

A critical examination of the complex juxtaposition of Christian ritual practices and theology, with attention paid to specific historical and contemporary praxis within cultures and discussion of pathways to reform. Prerequisite: WO 6313.

### **WO 8349 - Advanced Sacramental Praxis**

*Credits: 3*

A critical examination of sacramental praxis, with a focus on the implications for ecclesiology, formation, and mission. Includes pathways to reform. Prerequisite: WO 6313.

## **WO 8355 - Preaching and Worship in Life's Transitions**

*Credits: 3*

A historical, theological, and practical reflection on Christian weddings, funerals, healing rites, and related occasional services. Attention is given to the pastor's critical role in preaching and leading these rites and services, both within particular contexts and in consideration of the church's ongoing work of developing and reforming such rites.

Prerequisites: PR 6300, WO 6313.

## **World Christianity Courses**

### **WX 7310 - World Christianity**

*Credits: 3*

Examines the world Christian community in a changing global context, with consideration of the expansion of Christianity from the perspective of the recipients and the missionary senders. Studies the formation of churches and theologies within cultural diversity, Christian interaction with other religions, the ecumenical impulse and movements toward unity, and the struggles for renewal on each continent. Special attention is given to new publications from African, Asian, and Latin American sources. Prerequisites: HX 6305, HX 6306.

### **WX 7350 - Pentecostals in Global Perspectives**

*Credits: 3*

Explores the history and theologies of Pentecostals in Africa, Latin America, and Asia and in immigrant extensions in the United States, with a focus on religious encounters, missiological methods and practices, and pentecostalization of mainline traditions. Prerequisites: HX 6305, HX 6306.

### **WX 8321 - Christian Mission in a Cultural Context**

*Credits: 3*

A study of the mission, development, and influence of Christianity in various cultures, with attention given to the role of the church amid societal tensions, nationalism, and social change. May be an on-campus overview course or a focused study on-site in a particular region of the world. Specific topics vary. May be repeated for additional academic credit. In accordance with the decision of the Perkins Faculty this course will be offered pass/fail if the student chooses. Prerequisite: HX 6305 and HX 6306. Permission of the instructor for off-campus offerings.

### **WX 8328 - Theological Issues in World Christianity**

*Credits: 3*

A survey of important present and emerging theological issues confronting the world Christian community. Includes world religious pluralism, Christian views of other religions, interreligious dialogue, women's consciousness worldwide, concern for the natural environment, world economic and political structures, cultures and Christianity, contemporary re-examinations of Christian doctrines, and mission theology in the midst of diversity and tension. Also, Christian theologies from Africa, Asia, Latin America, and other areas. Prerequisites: HX 6305, HX 6306.

### **WX 8332 - Mission Studies**

*Credits: 3*

A comprehensive study of Christian mission, including a review of the historical background; a survey of mission presence in a world with religious plurality and new theologies; and a theological analysis of mission theories, paradigms, and practice. Provides an opportunity for research into areas of special concern. Prerequisites: HX 6305, HX 6306.

## **Christianity and Society Courses**

### **XS 6310 - The Church in Its Social Context**

*Credits: 3*

An examination of social structures, trends, and dynamics affecting contemporary life, local communities, and the mission of the church. Prepares students to understand and respond to specific sources of social structure and power,

including economic, racial, ethnic, and gender differences. Emphasis is given to the analysis of the local community as the context of ministry.

### **XS 6320 - Social Innovation: Creating World Changers**

*Credits: 3*

Encourages students to think dynamically about social action and their role as global citizens. Course projects and exercises provide a unique opportunity for the development of idea generation and innovative plans to address social problems.

### **XS 6321 - Social Innovation II: From Idea to Organization**

*Credits: 3*

Explores the discourses and practices necessary to move beyond an idea to do good toward the development of a sustainable socially innovative or non-profit endeavor. Topics examined include board development and governance; strategic planning and budgeting; branding and communication strategy; and staff and volunteer recruitment and development.

### **XS 6322 - Social Innovation III: Funding, Donors, and Financing for The Social Good**

*Credits: 3*

Examines the financial communication practices necessary to fund organizations that work for the social good. Explores traditional donor and development models as well as Mission Related Financing and impact investing. Prerequisites: XS 6320 and XS 6321.

### **XS 7302 - Issues in Urban Ministry**

*Credits: 3*

Examines ministry issues in urban multicultural contexts, with emphasis on the connections among theories of urbanization, the reality of urban life, and the praxis of ministry. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **XS 7320 - Social Entrepreneurship and Stewardship in the Faith-Based Organization**

*Credits: 3*

Focuses on the unique nonprofit strategic communication, management and funding demands of the 21st century church and faith-based organizational leader. Ideal for students interested in creating or serving in innovative, responsive, and fiscally sound religious based contexts. Topics explored will cover strategic planning, branding, power and influence, staff and volunteer management and communication, and stewardship and donor relations.

### **XS 7321 - Social Entrepreneurship, Capitalism and the Wesleyan Tradition**

*Credits: 3*

Explores the extraordinary contributions of John Wesley, Wilbur Wilberforce, and the Clapham Sect to our contemporary understandings of money, philanthropy, and capitalism. Examines the practices of the Clapham Sect in Victorian England and explores current developments in social innovation, entrepreneurship, and the challenge of funding nontraditional community-based ministries in the 21st century.

### **XS 8321 - Witness and Ministry in a Global Context**

*Credits: 3*

A focused study of Christian witness and ministry in a cultural context, on-site in a region usually outside the U.S., with attention given to the role of theological reflection in an environment affected by globalization in all its dimensions. Includes reading assignments and a daylong orientation before the course begins and a debriefing after the travel portion of the course. In accordance with the decision of the Perkins Faculty this course will be offered pass/fail if the student chooses. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **XS 8326 - Broad-based Community Organizing: Holiness and Politics in the Church**

*Credits: 3*

An examination of the principles and practices of ministers and churches in shaping the political life of their communities. Explores why and how churches organize, and teaches the art of organizing. Prerequisites: HX 6305 or HX 6306, XS 6310, and NT 6301/OT 6301 or NT 6302/OT 6302.

### **XS 8331 - Health Care/Holy Care**

*Credits: 3*

A high impact/in-depth engagement with people from a variety of social locations within the faith-based healthcare community of the Houston Methodist Hospital. In this immersion course, students concentrate on doing pastoral care "in the moment." Drawing on theological theory, students will take what they have learned and apply a theology of care to a variety of human needs and crisis situations. Prerequisites: HX 6305 or HX 6306, and NT 6301, OT 6301, NT 6302, or OT 6302. Prerequisite or corequisite: XS 6310.

### **XS 8332 - Contemporary Issues in Urban Ministry**

*Credits: 3*

A study of urban poverty, racism, crime, youth gangs, housing, education, immigration, policies, politics, and economics. Attention is given to the cultural and religious values reflected in the inner city as positive resources for urban revitalization. Offers a single topic focus during each term. May be repeated for academic credit. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

### **XS 8339 - Christian Ministry in a Multicultural Society**

*Credits: 3*

A historical, theological, and ethical examination of the foundations for ministry in a diverse and pluralistic society to assist students in developing Christian ministry models in a multicultural and/or pluralistic society. Prerequisites: HX 6305 or HX 6306, and NT 6301/OT 6301 or NT 6302/OT 6302. Prerequisite or corequisite: XS 6310.

## **Extra-Divisional Courses**

### **XX 6003 - Spiritual Formation I**

*Credits: .5*

Students sharing in a formative experience designed to provide them with the framework of a common experience.

### **XX 6004 - Spiritual Formation II**

*Credits: .5*

Students sharing in a formative experience designed to provide them with the framework of a common experience. Prerequisite: XX 6003.

### **XX 6104 - Spiritual Formation II**

*Credits: 1*

Students sharing in a formative experience designed to provide them with the framework of a common experience.

### **XX 8300 - Master of Theological Studies Thesis**

*Credits: 3*

Completed during a student's final year of study and normally produced on a topic within the student's chosen area of concentration.

### **XX 8320 - Master of Theology Thesis**

*Credits: 3*

Completed during a student's final year of study and normally produced on a topic within the student's chosen area of concentration.

### **XX 8365 - Master of Arts in Ministry Internship I**

*Credits: 3*

Supervised ministry in a local church or alternative ministry setting; required of all M.A.M. students during a fall and spring term in the second year of study or thereafter. Students work with a local church mentor, under general supervision provided by the Perkins staff. Individual learning covenants are drawn up with the approval of the church mentor, the lay teaching committee, and the Perkins supervising personnel.

### **XX 8366 - Master of Arts in Ministry Internship II**

*Credits: 3*

Supervised ministry in a local church or alternative ministry setting; required of all M.A.M. students during a fall and spring term in the second year of study or thereafter. Students work with a local church mentor, under general supervision provided by the Perkins staff. Individual learning covenants are drawn up with the approval of the church mentor, the lay teaching committee, and the Perkins supervising personnel.

### **XX 8451 - Full-Time Internship I**

*Credits: 4.5*

The first half of a supervised experience of full-time ministry in a local church or alternative ministry setting.

### **XX 8452 - Full-Time Internship II**

*Credits: 4.5*

The second half of a supervised experience of full-time ministry in a local church or alternative ministry setting. Students attend an internship seminar and work with a trained mentor pastor and lay teaching committee under the general supervision of the intern faculty.

### **XX 8458 - Part-Time Internship I**

*Credits: 4.5*

The first half of a supervised experience of part-time ministry (25 hours/week) in a local church or alternative ministry setting.

### **XX 8459 - Part-Time Internship II**

*Credits: 4.5*

The second half of a supervised experience of part-time ministry (25 hours/week) in a local church or alternative ministry setting.

### **XX 8600 - Full-Time Internship I**

*Credits: 6*

The first half of a supervised experience of full-time ministry in a local church or alternative ministry setting.

### **XX 8601 - Full-Time Internship II**

*Credits: 6*

The second half of a supervised experience of full-time ministry in a local church or alternative ministry setting. Students attend an internship seminar and work with a trained mentor pastor and lay teaching committee under the general supervision of the intern faculty.

### **XX 8610 - Part-Time Internship I**

*Credits: 6*

The first half of a supervised experience of part-time ministry (25 hours/week) in a local church or alternative ministry setting.

**XX 8611 - Part-Time Internship II**

*Credits: 6*

The second half of a supervised experience of part-time ministry (25 hours/week) in a local church or alternative ministry setting.

**XX 8650 - National Capital Semester for Seminarians**

*Credits: 6*

A semester-long, intensive program of study in ethics, theology, and public policy at Wesley Theological Seminary.

# Perkins School of Theology: Special Programs

## Basic Graduate Theological Studies

The basic graduate theological studies required for those seeking ordination as deacons in the United Methodist Church include courses in the areas of Old Testament; New Testament; church history; theology; mission; worship; evangelism; and United Methodist history, doctrine and polity. These courses are offered regularly on the Dallas campus and in the Houston-Galveston extension program. The following courses satisfy these requirements:

- CA 7013 - United Methodist Polity
- EV 7307 - The Theory and Practice of Evangelism
- HX 6305 - The Christian Heritage I
- HX 6306 - The Christian Heritage II
- HX 7365 - United Methodist History
- NT 6301 - Interpretation of the New Testament I
- NT 6302 - Interpretation of the New Testament II
- OT 6301 - Interpretation of the Old Testament I
- OT 6302 - Interpretation of the Old Testament II
- ST 6301 - Interpretation of the Christian Message I
- ST 7034 - United Methodist Doctrine
- WO 6313 - Introduction to Christian Worship
- XS 6310 - The Church in Its Social Context
- WX 8332 - Mission Studies

## Hispanic/Latin@ Ministries Program

The Hispanic/Latin@ Ministries Program (HLMP) was founded in 1974 to prepare church leaders with the knowledge and skills for effective ministry in Spanish-speaking contexts and cultures. The Hispanic/Latin@ Ministries Program includes oversight of the concentration in Hispanic studies and support of L@s Seminaristas, a student organization for Perkins students focused on ministry with Hispanics/Latin@s. The program publishes the semi-annual journal *Apuntes: Theological Reflections from the Hispano-Latino Context*. It also offers biennially the Local Pastors Licensing School in Spanish.

## Hispanic Summer Program

In collaboration with several other seminaries, Perkins sponsors the Hispanic Summer Program, which takes place for two weeks each summer at a different site in the United States or Puerto Rico. Hispanic students, as well as others who are bilingual and who are interested in Hispanic ministries, may attend this academic program and take a maximum of one course for three credits. Courses in the Hispanic Summer Program cover a wide range of the theological curriculum, and they are always taught with the Latino church in mind. The program provides students with the opportunity to study and reflect with other seminarians who are from across the nation and Puerto Rico and who are preparing to do ministry in the Hispanic context. Perkins students who are accepted into the program pay a reduced registration fee.

## International Studies

Students with sufficient Spanish language skills may be able to do a term of studies in Costa Rica or an internship in Mexico or Central America. Immersion experiences in Mexico, Central America and South America are also periodically offered through the Global Theological Education program.

## Spanish Language

Perkins does not offer instruction in Spanish for credit. Students are encouraged to seek instructional programs in Dallas and/or attend a Spanish-language school in Cuernavaca, Mexico, or elsewhere. The director of the

Hispanic/Latin@ Ministries Program maintains information on these opportunities and assists students in making appropriate plans to gain the necessary competence.

## Global Theological Education

Through cultural immersion courses, the GTE program offers students a study of theology, scripture, missions, ministry or interreligious relationships in a cultural context different from the students' own, usually outside the United States. These courses give special attention to the role of theological reflection in an environment affected by globalization in all its dimensions through a focused, on-site study in a particular cultural environment and region of the world.

## Perkins Centers

Perkins School of Theology is home to four centers approved by the Office of the Provost for teaching and research.

The central mission of the **Center for the Study of Latino/a Christianity and Religions** is to promote a deeper understanding of the varieties of religious life and expression within the Latino/a communities in the United States and in Latin America. Building upon the rich history of its Hispanic/Latin@ Ministries Program, Perkins seeks to strengthen its engagement with Latino/a realities through its educational programs, the generation and conduct of research, and the dissemination of knowledge. The director is Dr. Hugo Magallanes, associate professor of Christianity and cultures.

The **Center for Religious Leadership** provides training in the theology of leadership and practical skills for leadership. This training is based in an understanding of leadership as a spiritual vocation cultivated, strengthened and lived out within communities of faith and the other contexts in which the church exists, including legal, business, political, social and cultural contexts. The center draws on the skills of the SMU faculty from Perkins School of Theology, Cox School of Business and Dedman School of Law, along with church leaders (both lay and clergy) and business and nonprofit leaders. Bishop D. Max Whitfield is the appointed director.

The **Center for Methodist Studies at Bridwell Library** was established in 1984 to encourage research, study and reflection upon the Methodist movement, including the sources that influenced its origin, the forces that shaped its development and the features that determine its character and influence. To foster these goals, the center sponsors and supports a variety of programs, publications and exhibitions. J.S. Bridwell Foundation Endowed Librarian Roberta A. Schaafsma is the director of Bridwell Library.

The **Perkins Center for Preaching Excellence** at SMU exists to foster excellence in preaching through innovative courses at Perkins, continuing education events, mentoring relationships, peer groups focused on preaching and coaching for individuals and church staffs. The Hardin Family Preaching Mentor Program pairs seasoned practitioners from the area with Introduction to Preaching students. Peer groups throughout the Southwest bring together groups of pastors who meet monthly to work on their preaching skills. The Geo. W. and Nell Ayers LeVan Endowed Chair of Preaching and Worship and Altshuler Distinguished Teaching Professor Dr. Alyce M. McKenzie is the center's director.

## The Council of Southwestern Theological Schools

For several years, a number of seminaries in the Southwest cooperated in various joint activities. In the summer of 1958, their cooperative work was put on a permanent basis by the organization of the Council of Southwestern Theological Schools Inc. The current members of the council, in addition to Perkins, are as follows: Austin Graduate School of Theology, Austin Presbyterian Theological Seminary, Baptist Missionary Association Theological Seminary, B. H. Carroll Theological Institute, Brite Divinity School, Dallas Theological Seminary, the Episcopal Theological Seminary of the Southwest, George W. Truett Seminary, Houston Graduate School of Theology and Oblate School of Theology. The council is also affiliated with the Multicultural Alliance.

# **Perkins School of Theology: Fellowships, Awards and Prizes**

## **Dr. John H. Hicks Memorial Endowed Scholarship Fund**

The Hicks Scholarship was established in memory of Dr. John Hicks, former Old Testament professor at Perkins School of Theology. The scholarship is offered to students engaged in Old Testament or archaeological research and is especially designed to provide travel to the Bible lands to aid in that research. The scholarship is open to any qualified student enrolled in any degree program in Perkins.

The deadline for applications is December 15 or six months prior to the beginning of the project, whichever comes first. Inquiries should be addressed to any member of the biblical faculty or the associate dean for academic affairs.

## **John Moore Endowed Scholarship Fund**

In 1946, the late Bishop John M. Moore established a fellowship fund, the income from which was to be used to give aid for postgraduate work in theology to United Methodist graduates of the theological schools of the United Methodist Church, with preference given to graduates of Perkins.

The fellowship is for one year. The committee and the directorate base their judgments on academic accomplishments, promise of teaching and research ability, and Christian character. Those seniors and recent graduates who wish to be considered must submit their application by February 15 to the associate dean for academic affairs at Perkins School of Theology.

## **B'nai B'rith Award in Social Ethics**

In the spring of 1953, the Harold M. Kaufman Memorial Foundation of the George Levy Lodge of B'nai B'rith, the oldest Jewish service organization, established an annual prize in social ethics for Perkins students. Winners are to be determined under the supervision of the Committee on Student Development on the basis of scholarly competence in the field and personal commitment as shown in voluntary activity in support of worthy social causes. The establishment of the awards by the George Levy Lodge of Dallas, led by Dr. Herman Kantor, Mrs. Harold Kaufman and Stanley Kaufman, is only one in a series of generous acts on the part of the Jewish community for Perkins School of Theology.

## **Dr. and Mrs. J.P. Bray Award**

Endowed by the estate of Charles Kiely Hegarty, II, in honor of the Brays, this award is made to the student who ranks highest in Hebrew scholarship.

## **W.B. DeJernett Award in Homiletics**

Endowed by the estate of Dr. W.B. DeJernett of Commerce, Texas, the award is given to a senior theological student, based on the student's scholastic record and ability in the field of homiletics.

## **Charles T. and Jessie James Bible Awards**

Awards are given each year to students on the basis of their grades in biblical courses and on papers assigned, together with their general scholastic record. These awards are provided from an endowment established in 1949 by Mr. and Mrs. C.T. James of Ferris, Texas.

## **Jerry W. Hobbs Award in Worship**

The Jerry W. Hobbs Award in Worship is awarded to the graduating student who has demonstrated academic excellence in worship combined with personal commitment to the worship life of the Perkins community during her or his time at Perkins.

## **Paul Quillian Award**

In 1945, Dr. and Mrs. Paul W. Quillian created the fund to be awarded to the senior student in homiletics presenting the best-written sermon.

## **William K. McElvaney Preaching Award**

Established by Reverend and Mrs. William K. McElvaney, the award is given to the student who has presented the best-written sermon on a public issue, which includes a social crisis, a controversial issue or a chronic social problem.

## **Charles Claude Selecman Award in New Testament Greek**

A prize is awarded annually in memory of Bishop Charles C. Selecman to the student who ranks highest in New Testament Greek scholarship. This award is made only when, in the judgment of the professor, the class is large enough to evince a competitive interest.

## **Albert C. Outler Award**

Established by Robert A. and Barbara Field West, in honor of Professor Outler, this award is given to the student contributing the most outstanding essay in theology during the academic year.

## **Dr. and Mrs. Glenn Flinn Award**

The award was established by Dr. and Mrs. Glenn Flinn in 1959 to honor that member of the graduating class each year who, in the judgment of the faculty, best exemplifies the aims and aspirations of the school and the church for its ministry. The recipient will be one who gives promise of possessing, in unusual measure, the gifts and graces of the Christian minister. The student should possess well-rounded interests and be serious in the stewardship of talents and deeply committed to his or her calling.

## **Karis Stahl Fadely Memorial Fund**

This award was established by the family and friends of Karis Stahl Fadely, alumna of Perkins, who died in Liberia in April 1978 while serving as a minister of the Gospel. The award is made to students who exhibited qualities that were exemplified by Karis Fadely: commitment to Jesus Christ and the mission of her or his church, ability in a wide range of ministerial functions, a high sense of responsibility and good management of time. Preference is given to students who have served in international or intercultural internships.

## **Elsa Cook Award**

The award was established in 1967 by students and friends to honor Elsa Cook when she retired from the Perkins staff. The recipient is chosen by the members of the senior class and is awarded each year at the annual spring banquet.

## **Master of Sacred Music Alumni Scholarship Fund**

The scholarship is awarded to the graduating M.S.M. student who has maintained a high honors level in music studies and performance and who has contributed to the community life of Perkins School of Theology.

## **W.B.J. Martin Endowed Scholarship Fund**

Established by the First Community Church of Dallas, this award is given each year in recognition of the outstanding student in the introductory preaching classes.

## **Roger Deschner Prize in Sacred Music Fund**

Established by friends and family in memory of Roger Deschner, longtime professor of sacred music at Perkins, the prize is to be awarded to an M.S.M. student who, at the end of his or her first year of study, has excelled in academic work, musical ability and overall achievement in the Sacred Music program.

## **Robert Weatherford Prize for Internship Preaching Endowment Fund**

Established to provide an award to a theology student for excellence in preaching during internship, the prize is given to a recipient chosen by the intern faculty of Perkins School of Theology and a representative from the preaching faculty.

## **Bert Affleck Award**

The Bert Affleck Award is given to a student for creativity in ministry during internship.

## **Philip Schaff Prize in Church History**

Established by Professor Emeritus of Church History Klaus Penzel, this annual award is given to benefit a student who has demonstrated excellence in the historical study of Christianity, while participating in courses in church history. It is named for the founder of the American Society of Church History.

## **Jane Marshall Student Support Fund in Worship and Music**

Funded by a gift from Jane and Elbert Marshall, this award provides research and study support for third-year M.Div. students selected by the dean of Perkins School of Theology who have demonstrated excellence in the study of worship and music.

## **Harry Hosier Spirit Award**

The Harry Hosier Spirit Award, established by Perkins alumnus Reverend Dr. Henry Masters, is given to a graduating student who best exemplifies the spirit of Harry Hosier expressed in what is described as his "elocution of faith: I sing by faith, preach by faith, pray by faith, and do everything by faith."

# Perkins School of Theology: Tuition, Fees and Financial Aid

## Tuition, Fees and Living Expenses

The *Financial Information Bulletin* is issued each academic year. It provides the general authority and reference for SMU financial regulations and obligations, as well as detailed information concerning tuition, fees and living expenses.

Continuing students registering must ensure that payment for the full amount of charges is posted to their account by the payment due date showing on their bill. The due dates are also published on the Bursar website.

Billing notifications are sent to the student's SMU email address and to the designated authorized payer(s) email address when a bill is generated. The billing notification will provide instructions on how to view the bill online through SMUpay. If notification is not received two weeks prior to the due date, the student and/or designated authorized payer(s) should contact the Office of the University Bursar.

Payments made in person or mailed must be received by the Office of the University Bursar, located on the first floor of the Laura Lee Blanton Student Services Building, no later than 4 p.m. Central Time on the payment due date. Payments made online via electronic check or credit card must be posted no later than 11:59 p.m. Central Time on the payment due date. Students and/or those paying on behalf of students who pay online automatically receive an electronic confirmation of payment; students and/or designated authorized payer(s) paying through other methods can also verify receipt of payment online.

Students enrolling after the payment due date must pay at the time of enrollment. Students whose accounts are not cleared by the payment due date or at the time of enrollment are subject to a late payment fee of \$50 for balances between \$250 and \$999.99, and \$150 for balances between \$1,000 and \$5,000. Balances more than \$5,000 are charged 3 percent of the outstanding balance, not to exceed \$750. Also, after the monthly payment due date has passed, a 1.5 percent past due fee will be assessed on the unpaid student and/or miscellaneous account each month until the balance is paid. The enrollment of students whose accounts remain unpaid after the payment due date may be canceled at the discretion of the University. Students are individually responsible for their financial obligations to the University.

All refunds except federal Parent PLUS loans, prepayment accounts, the SMU Monthly TuitionPay Payment Plan and international wires will be made payable to the student. A credit card payment will only be refunded to the student if federal student loans have been applied to their account. International wires will be refunded by wire to the originating wire account less a \$35 wire-processing fee. The Parent PLUS loan borrower can request the refund to be processed to the student by submitting a Parent PLUS Release form, located on the Bursar website. If the refund is issued by check, the student may request, in writing, that the refund be sent to another party.

Any outstanding debts to the University will be deducted from the credit balance prior to issuing a refund. Any outstanding debts to the University that include Title IV funds must have an Authorization to Credit Account form and/or an Authorization to Credit Account Parent form on file in order to transfer funds to cover current award year debts. Students need to sign the ACA form and the federal parent PLUS loan borrower needs to sign the ACAP form.

Any outstanding debts to the University that do not include Title IV funds will be deducted from the credit balance prior to issuing a refund. All other debts should be paid directly by the student.

A student whose University account is overdue or who in any other manner has an unpaid financial obligation to the University will be denied the recording and certification services of the Office of the Registrar, including the issuance of a transcript or diploma, and may be denied readmission until all obligations are fulfilled. The Division of Enrollment Services may stop the registration, or may cancel the completed registration, of a student who has a delinquent account or debt, and may assess all attorney's fees and other reasonable collection costs (up to 50 percent) and charges necessary for the collection of any amount not paid when due. Matriculation in the University constitutes an agreement by the student to comply with all University rules, regulations and policies.

Applications for financial assistance should be submitted well in advance of registration in accordance with recommended filing dates set forth by the Division of Enrollment Services, Office of Financial Aid. Applications received after the recommended deadline can expect a delay in application processing time due to the increased volume. This will ultimately delay disbursement of financial aid to the student account. Students and families are expected to clear all billed charges by the published billing due dates regardless of the status of their financial aid application. Any funds that disburse to the student account after the payment due date has passed, will be applied to any outstanding charges first. Remaining financial aid funds will be refunded to the student.

During the registration process, students will be prompted to read and agree to the Student Rights and Responsibilities, which provides information regarding financial rights and obligations, SMU's Honor Code, the Code of Conduct, and the student appeals and complaints process.

Students who elect to register for courses outside of their school of record will pay the tuition rate of their school of record.

## **Tuition Refunds for Withdrawal from the University**

No refunds of tuition or fees will be considered without an official withdrawal. Policies for official withdrawal, including medical and mandatory administrative withdrawal, are found under Withdrawal From the University in the Academic Records and General and Enrollment Standards section of this catalog.

Reduction of tuition and fees is determined by the effective date of the withdrawal and is based on the schedule listed in the *Financial Aid Bulletin* and the SMU Bursar website.

## **Financial aid implications of withdrawing from the University**

Federal regulations require schools to adjust financial aid when a student officially withdraws from the University before completing 60% of the term. Financial aid is reduced to a pro-rated amount based on the amount of time the student was enrolled in classes in that specific term, thus "earning" financial aid proportionate to the amount of time enrolled. The "unearned" portion of aid will be returned to the funding source. Students completing 60% or more of a term are considered to have earned 100% of their financial aid for that term. This federally mandated calculation is completely independent of university's refund policies for withdrawals and may require a reduction in financial aid even if there is no reduction in tuition charges. The end result could create a substantial student account balance after the withdrawal is processed. For this reason, students are strongly encouraged to contact their financial aid adviser, before initiating a withdrawal, to discuss the financial implications of withdrawing. For additional information on the University's tuition refund policies, see the SMU *Financial Information Bulletin* or the University Bursar's website.

Information on the implications of withdrawing on your financial aid can be found on the Office of Financial Aid website.

Medical withdrawals and mandatory administrative withdrawals allow a prorated refund of tuition and fees and must be initiated through the academic adviser or academic Dean's office.

## **Payment Plan Options**

### **SMU Monthly Payment Plan**

SMU offers several payment plan options to assist students and families. Refer to the Bursar's website for detailed payment plan information: [www.smu.edu/paymentplans](http://www.smu.edu/paymentplans).

Annual payment plans are available in 12-month and 10-month formats. Term payment plans are available in 6-month and 5-month formats. The summer payment plan is three months. Payment plan options are not available for short terms including JanTerm, MayTerm, August Term and Winter Term.

## **Graduate and Professional Student Aid**

University grants, scholarships, fellowships and assistantships are awarded in the school or department in which the graduate student will enroll. Schools and departments that offer master's or Ph.D. degrees offer a significant number of

tuition scholarships and teaching or research assistantships each year. For more information, students should contact the appropriate school or department.

Grants and loans for Texas residents, private and federal loans, and employment programs may be available by filing the Free Application for Federal Student Aid. The FAFSA may be completed online at [www.fafsa.gov](http://www.fafsa.gov). The SMU Title IV school code number is 003613.

More information is available online at [www.smu.edu/financialaid](http://www.smu.edu/financialaid).

## **Perkins School of Theology Financial Aid**

Financial aid in the form of grants is available to students enrolled in the M.Div., M.A.M., M.S.M. and M.T.S., Th.M. and Th.M. Spanish programs. Aid is granted solely on the basis of demonstrated need as determined from use of the Free Application for Federal Student Aid.

In addition to financial aid grants, a number of tuition scholarships are available each year for members of each entering class of M.Div., M.A.M., M.S.M., M.T.S., Th.M., and Th.M. Spanish students. These awards are granted on the basis of academic excellence, qualities of character and leadership, and vocational clarity. Your application for admission is the application for these awards.

All applicants for financial aid are expected to have a reasonable plan of financial self-help. Information on scholarships available from sources outside the school is available online at [www.smu.edu/Perkins/Admissions/financial](http://www.smu.edu/Perkins/Admissions/financial). All students are responsible for securing the appropriate applications and applying for scholarships.

Grants are applied only to courses necessary to a specific degree program. If you receive financial aid from Perkins and withdraw, drop or fail in your courses, financial aid is not granted for those hours.

# Perkins School of Theology: Enrollment and Academic Records

The standards herein are applicable to all students at the University and constitute the basic authority and reference for matters pertaining to University academic regulations and records management. Enrollment in the University is a declaration of acceptance of all University rules and regulations. A complete *University Policy Manual* is available at [www.smu.edu/policy](http://www.smu.edu/policy). Additional information regarding rules and regulations of the University can be found in this catalog. Undergraduate students must follow the University-wide requirements that are in effect for the academic year of matriculation to SMU. The applicable requirements of majors and minors are those in effect during the academic year of matriculation to SMU or those of a subsequent academic year. Students may not follow a catalog for an academic year in effect prior to their matriculation term. Students who are not enrolled for three or more years will return to SMU under the current catalog.

## General Policies

### Confidentiality of Education Records

The Family Educational Rights and Privacy Act of 1974 is a federal law that grants students the right to inspect, obtain copies of, challenge, and, to a degree, control the release of information contained in their education records. The act and regulations are very lengthy, and for that reason, SMU has issued its own FERPA-based guidelines that are available at the University Registrar's Office FERPA website [www.smu.edu/FERPA](http://www.smu.edu/FERPA). Policy 1.10 of the *University Policy Manual* also discusses this law.

In general, no personally identifiable information from a student's education record will be disclosed to any third party without written consent from the student. Several exceptions exist, including these selected examples: 1) information defined by SMU as directory information may be released unless the student requests through my.SMU Student Homepage that it be withheld, 2) information authorized by the student through my.SMU Student Homepage may be released to those individuals designated by the student and 3) information may be released to a parent or guardian if the student is declared financially dependent upon the parent or guardian as set forth in the Internal Revenue Code. Additional information is available at [www.smu.edu/FERPA](http://www.smu.edu/FERPA).

### Student File Number

The University assigns each student an eight-digit SMU identification number, which is used to verify each student's identity and is provided without additional charges. The student should furnish the SMU ID number on all forms when requested, as this number is the primary means the University has to verify the identity for each student's academic records and transactions related to the records.

### Name Change

A student who has a change in name must provide to the University Registrar's Office his or her Social Security card or the form issued by the Social Security Administration. A valid passport may also be used to complete a name change. Enrollment or records services for the student under a name different from the last enrollment cannot be accomplished without one of the above documents. All transcripts and diplomas are issued only under a person's legal name as recorded by the University Registrar's Office.

### Preferred Name

Students who wish to use a name other than their legal name can add a preferred name to their file in addition to their primary/legal name, or update a preferred name already on file, using the self service functions in the my.SMU Student Homepage. The University will make efforts to use the preferred name in communications and in the course of university business. However, there are situations that due to business practices, legal requirements or system limitations the use of a primary/legal name will be used.

SMU has many offices that keep records with student names and many data systems used for specific applications. In addition to updating their preferred name in my.SMU, students may need to notify some offices regarding their use of a preferred name.

A preferred name is a first, middle and/or last name that may be chosen to be used instead of legal first, middle and last name. There is no documentation required to create or change a preferred name. Students are advised that if they choose to use a preferred name, they should use it consistently and resist changing it frequently. Students also are advised that the use of a preferred last name can lead to confusion with employers and organizations in attempting to match official educational records with applications and it is recommended that students provide both their preferred and legal names on applications.

Here is a partial list of standard name usage:

Display name – my.SMU Student Homepage	Preferred name, if provided
Instructor Class Roster	Preferred name, if provided
Instructor Grade Roster	Preferred name, if provided
Canvas	Preferred name, if provided
Global Directory of email addresses	Preferred name, if provided
SMU online directory	Preferred name, if provided
SMU ID Card	Primary (legal) name -- under review
Financial Aid related forms and documents	Primary (legal) name
Official Academic Transcript	Primary (legal) name
Diploma	Primary (legal) name or derivative
Degree Verifications	Primary (legal) name
Housing / Residence Life	Preferred first name, Primary last name
SEVIS Reporting (international students)	Primary (legal) name

## **Email and Mailing Addresses, Telephone, and Emergency Contact**

Each student must provide the University Registrar's Office with both a home and local (mailing) address, both a home and local telephone number and contact information of a designated emergency contact using the self-service functions in the my.SMU Student Homepage. Students enrolling at SMU authorize the University to notify their emergency contacts in the event of a situation affecting their health, safety, or physical or mental well-being, and to provide these contacts with information related to the situation.

Students who enroll in an arranged section course will be asked to provide the University Registrar's Office with an off-campus study address. This is the physical location the student is living while enrolled in this course.

When a student applies for graduation and becomes a candidate they can provide a diploma address (address to which they would like their diploma mailed) to the University Registrar's Office.

International students are required to provide a residence address (physical street address where they are currently living) as their mailing (local) address. International students will be prevented from enrolling if a U.S. address is not provided.

Students are expected to keep current all their addresses and telephone numbers, including emergency contact details, through my.SMU, the University's Web-based self-service system. Students may be prevented from enrolling if their information is insufficient or outdated. Changes to parent information should be reported by contacting records@smu.edu, and the email should include the student's full name and SMU student ID number.

The University issues all students an email address. Students may have other email addresses, but the University-assigned email address is the official address for University electronic correspondence, including related communications with faculty members and academic units.

Official University correspondence may be sent to students' mailing addresses or SMU email addresses on file. It is the responsibility of students to keep all their addresses current and to regularly check communications sent to them since they are responsible for complying with requests, deadlines and other requirements sent to any of their mailing addresses on file or to their SMU email.

## Cell Phones

The University requests that students provide mobile/cell telephone numbers, as they are one means of communicating with students during an emergency. Mobile/cell telephone numbers may also be used by University officials conducting routine business. Students who do not have a mobile/cell telephone or do not wish to report the numbers should provide this information to the University through my.SMU Student Homepage. Students may be prevented from enrolling if their mobile/cell telephone numbers are not on file or if they have not declared "no cell" or "prefer not to report" in my.SMU.

## Ethnicity

SMU requires that a valid ethnic group category be on file for all students. SMU's policies and the Family Educational Rights and Privacy Act of 1974 protect the confidentiality and privacy of this information. A student's ethnic group category can be viewed in my.SMU, Student Homepage.

**U.S. Citizens or Permanent Residents.** Ethnicity is self-determined. Students of multiple ethnic backgrounds may select multiple ethnic group categories. If the ethnic group value is incorrect, the student should go to the University Registrar's Office in the Laura Lee Blanton Student Services Building and complete an Ethnic/Racial Category Update Form.

**International Students Living in the U.S. While Attending School.** Selecting an ethnic group category is not required unless the student becomes a U.S. citizen or permanent resident.

## Transcript Service

A transcript is an official document of the permanent academic record maintained by the University Registrar's Office. The permanent academic record includes all SMU courses attempted, all grades assigned, degrees received and a summary of transfer hours accepted. Official transcripts and certifications of student academic records are issued by the University Registrar's Office for all students. Copies of high school records and transfer transcripts from other schools must be requested from the institutions where the coursework was taken.

Transcripts are \$12.25 per copy. Additional copies in the same request mailed to the same address are \$3.50. Additional copies mailed to different addresses are \$12.25 a copy. PDF transcripts are \$16.00 per email address and are available only for students who attended after summer 1996.

**Note:** No incomplete or partial transcripts, including only certain courses or grades, are issued.

Transcripts cannot be released unless the student has satisfied all financial and other obligations to the University. Instructions for requesting a transcript to be mailed or picked up on campus are available at [www.smu.edu/registrar](http://www.smu.edu/registrar) ("Transcript Requests" link). A student may request his or her official transcript through the online my.SMU Student Homepage. Requests are processed through the National Student Clearinghouse. Telephone and email requests are not accepted. Students or their specified third party can pick up their transcripts at the University Registrar's Office, 101 Blanton Student Services Building.

Transcripts may be released to a third party as specified by the student on the Student's Consent for SMU to Release Information to Student's Specified Third Party form accessible at [www.smu.edu/LegalDisclosures/FERPA/Forms](http://www.smu.edu/LegalDisclosures/FERPA/Forms).

**Note:** Chapter 675, S.B. 302. Acts of the 61st Texas Legislature, 1969 Regular Session, provides as follows: *Section I.* No person may buy, sell, create, duplicate, alter, give or obtain; or attempt to buy, sell, create, duplicate, alter, give or obtain a diploma, certificate, academic record, certificate of enrollment or other instrument which purports to signify merit or achievement conferred by an institution of education in this state with the intent to use fraudulently such document or to allow the fraudulent use of such document. *Section II.* A person who violates this act or who aids

another in violating this act is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than \$1,000 and/or confinement in the county jail for a period not to exceed one year.

## **Veterans**

The University Registrar's Office certifies veterans each term for their benefits under federal programs, including the Yellow Ribbon Program. Most academic programs at SMU qualify for U.S. Department of Veterans Affairs benefits, making an SMU education accessible and affordable. Veterans are required to provide specific documents before they can be certified with the VA's Veterans Benefits Administration. Specific information regarding the certification process is available from the University Registrar's Office at [www.smu.edu/EnrollmentServices/Veterans](http://www.smu.edu/EnrollmentServices/Veterans).

The University complies with Title 38 United States Code Section 3679(e) which states that any individual who is entitled to educational assistance under chapter 31 (Vocational Rehabilitation and Employment) or chapter 33 (Post 9/11 GI Bill®) benefits will be permitted to attend or participate in the course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement (or "Statement of Benefits" obtained from the Department of Veterans Affairs' website – eBenefits, or a VAF 28-1905 form for chapter 31 authorization purposes) for said entitlement and ending on the earlier of the following dates: a) the date on which payment from VA is made to the institution; or b) 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility. SMU will not impose any penalties, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or require that a covered individual borrow additional funds to meet his/her financial obligation due to delayed disbursement funding from VA under chapter 31 or 33. However, if the anticipated funding from VA will not cover all tuition and fees, then the student is responsible for paying the difference immediately. Failure to do so may result in late or past due fees. Students who wish to be certified under chapter 31 or 33 must request in writing each semester that they wish to be certified and provide an updated statement of benefits. Additional documents are required to be submitted to the University upon initial request to be certified. See our website at [www.smu.edu/enrollmentservices/veterans](http://www.smu.edu/enrollmentservices/veterans).

## **Final Examinations**

Final course examinations shall be given in all courses where they are appropriate, must be administered as specified on the official examination schedule and shall not be administered during the last week of classes. Exceptions to the examination schedule may be made only upon written recommendation of the associate dean of academic affairs, who will allow exceptions only in accordance with guidelines from the Office of the Provost.

## **Complaint Procedures for Students With Disabilities**

The complaint procedures for students with disabilities are available in the Disability Accommodations and Success Strategies office, Loyd Center, Suite 202, and online at [www.smu.edu/Provost/ALEC/DASS](http://www.smu.edu/Provost/ALEC/DASS). Additional information is found under Students With Disabilities in the Perkins Graduate Programs Policies and Procedures section of this catalog.

## **Credit Hour Loads**

The unit of measure for the valuation of courses is the credit hour. Based upon the federal definition of a credit hour, each credit hour requires one hour of direct faculty instruction and a minimum of two hours of preparation on the part of students per week for approximately 15 weeks a term. Most courses are valued for three credit hours, i.e., three contact hours per week and at least six hours of preparation. For three credit hour courses deployed via different course types, modes of delivery, or calendars, total number of direct contact hours should be equal to or greater than 45 hours with the total of out of class work total equal to or greater than 90 hours. Courses that deviate from this standard must provide documentation illustrating how the number of contact hours and/or work outside the course equate to this standard within the term in which the course is offered.

A full-time load in the fall and spring terms is nine hours. For the summer term (all sessions in the summer term combined) a full-time load is six hours.

Normally, the maximum course load is 13 credit hours per term. With the permission of the Committee on Student Development or of the associate dean for academic affairs acting for the committee, a student with an average grade of

*B* (3.000) or above may register for up to 14.5 credit hours, and a student with an average grade of *A-* (3.700) or above may register for as many as 16 credit hours. No student may register for more than 16 credit hours.

**Cautionary Note:** Federal financial aid agencies and some other agencies require a minimum number of hours of enrollment for full-time status and do not make exceptions for summer, internship, co-op or student-teaching enrollments. Students on financial aid should consult an adviser in the Financial Aid Office regarding minimum enrollment requirements for their situation. Likewise, international students on an F-1 or J-1 visa should consult an adviser in the International Student & Scholar Services office regarding minimum enrollment requirements for their situation.

**Minimum and Maximum Course Loads.** Minimum and maximum course loads allowed are based on the school of record.

## **Stop Enrollment/Administrative Withdrawal**

Insufficient or improper information given by the student on any admission or enrollment form – or academic deficiencies, disciplinary actions and financial obligations to the University – can constitute cause for the student to be determined ineligible to enroll or to be administratively withdrawn.

## **Transfer Courses From Other Institutions**

Additional policies for transfer coursework are found in the Admissions section of this catalog.

# **Enrollment Policies**

## **Course Scheduling and Enrollment Cycles**

When students enter Perkins and into a specific degree program, they are assigned an academic adviser. Students should consult with their adviser or the associate dean for academic affairs for course scheduling, schedule changes, petitions, degree requirements and other such academic concerns. The Perkins director of academic services monitors academic progress and maintains degree plans for all Perkins students. Students should schedule a conference with the Perkins director of academic services prior to their final year as a student to ensure that they are meeting all University and graduation requirements.

Each student is personally responsible for complying with enrollment procedures and for ensuring the accuracy of his or her enrollment. Students are expected to confirm the accuracy of their enrollment each term. Students who discover a discrepancy in their enrollment records after the close of enrollment for the term should immediately complete a Petition for Enrollment Policy Exception. Petitions are to be submitted to the appropriate records office within six months of the term in which the discrepancy appeared; contact information for submitting a Petition for Enrollment Policy Exception can be viewed on the University Registrar's Office website at [www.smu.edu/EnrollmentServices/Registrar/Enrollment/EnrollmentPolicyException](http://www.smu.edu/EnrollmentServices/Registrar/Enrollment/EnrollmentPolicyException). Petitions submitted later than six months after the discrepancy may not be considered.

## **Undergraduates Enrolling for Graduate Courses**

### **Accelerated Pathway Programs**

The Accelerated Pathway Programs policy applies to undergraduate students who enroll in one of SMU's Accelerated Pathway Programs. Institutional aid may be eligible for covering tuition costs associated with graduate courses as described below.

Students may not enroll for any graduate level course work to be applied toward their master's degree, prior to the accumulation of 90 credit hours toward their baccalaureate degree. Students must apply and be admitted as a graduate student at least one fall or spring term prior to receiving their master's degree having had their baccalaureate degree conferred prior to that term. Students must enroll and be in good standing as a full-time status graduate student for at least one fall or spring term prior to receiving their master's degree.

Graduate hours earned as an undergraduate are included in the determination of full-time status for the term. Graduate hours and grades earned as an undergraduate that count towards their baccalaureate degree are included in the undergraduate scholastic totals and the graduate scholastic totals. Graduate hours and grades earned as an undergraduate that do not count towards that baccalaureate degree are excluded from the undergraduate scholastic totals but are included in the graduate scholastic totals. The maximum number of graduate hours (up to 30 hours) that may be taken in the final year of the baccalaureate degree is mandated by SMU's accrediting agency. The number of graduate hours which may be counted toward the baccalaureate degree is determined by the school to which the master's degree belongs. An undergraduate is limited to earning a maximum of 30 graduate hours as an undergraduate student after the completion of 90 credit hours towards their baccalaureate degree. A student must earn a minimum 150 combined hours to be conferred both a baccalaureate and master's degree.

Students considering an Accelerated Pathway Program should consult with the Office of Financial Aid about its effect on federal, state and institutional aid.

### **Other Graduate Course Enrollment by Undergraduate Students**

In addition to the Accelerated Pathway Programs, with the written permission of their academic dean and permission of the dean of the graduate courses, an excelling undergraduate student may enroll for graduate level coursework that will be part of their undergraduate record, count towards the undergraduate degree and be included in the undergraduate scholastic totals. The undergraduate student must have accumulated 90 credit hours toward their baccalaureate degree. Graduate hours enrolled as an undergraduate are included in the determination of full-time status for the term. An undergraduate is limited to earning a maximum of 30 graduate hours as part of their undergraduate record.

### **Schedule Changes**

The deadline for adding courses, dropping courses without grade record and changing sections for each enrollment period is listed on the Perkins Academic Calendar, which is available at [www.smu.edu/Perkins/FacultyAcademics](http://www.smu.edu/Perkins/FacultyAcademics) ("Academic Services" link). Students are encouraged to seek assistance from their advisers when considering whether to add or drop a course. A student may drop a course with a grade of *W* (Withdrawn) through approximately midterm by using the my.SMU Student Homepage. The specific deadline is listed on the Perkins Academic Calendar.

After the deadline date on the Perkins Academic Calendar, the student may not drop a class. All schedule changes must be processed by the deadline date specified on the Perkins Academic Calendar. Note: Schedule changes are not complete for official University record purposes unless finalized in the University Registrar's Office.

**Student-Athletes.** Students must consult with the Athletic Compliance Office prior to dropping a course. In the consultation, the student will review the effects the drop might have on his or her athletic participation and financial aid. After the consultation, the Athletic Compliance Office will update my.SMU to allow the student to process the drop, if necessary. The consultation is advisory; students are responsible for their enrollment. For assistance regarding scholarships or other aspects of being a student-athlete, students should contact the Office of the Assistant Athletic Director for Student-Athlete Development.

**International Students.** Students must consult with the International Student & Scholar Services office prior to dropping a course. (Contact [iss@smu.edu](mailto:iss@smu.edu) for consultation.) If dropping a course will cause the student to be enrolled in fewer than the required number of hours to remain a full-time student, the student's immigration status could be affected. After the consultation, the International Student & Scholar Services office will update my.SMU to allow the student to process the drop, if necessary. The consultation is advisory; students are responsible for their enrollment.

**Students on Merit or Need-based Financial Aid.** Students should consult with their financial aid adviser and the financial aid coordinator at Perkins prior to dropping a course.

(See [www.smu.edu/EnrollmentServices/FinancialAid](http://www.smu.edu/EnrollmentServices/FinancialAid) for information regarding your financial aid counselor.) If dropping a course will cause the student to be enrolled in fewer than 12 hours, the student's financial aid status may be affected. After the consultation, the student may drop a course through my.SMU Self-Service. The

consultation is advisory; students are responsible for their enrollment. Questions regarding this procedure or financial aid should be directed to the Office of Financial Aid and the financial aid coordinator at Perkins.

## Withdrawal From the University

Policies on refunds for withdrawal from the University are found in the Financial Information section of this catalog and in the *Financial Information Bulletin*. No refunds are made without an official withdrawal.

Students should be aware of the difference between a *drop* and a *withdrawal* and remember that they have different deadlines and separate financial policies. The deadlines for each are posted each term on the Perkins Academic Calendar. A *drop* occurs when a student removes one or more courses from his or her schedule and remains enrolled in at least one credit hour for the term. A *withdrawal* occurs when removing the course or courses will result in the student being enrolled in **zero** hours for the term.

If a student removes all courses from his or her schedule **prior to the first day of the term**, the transaction is considered a *cancellation* and does not result in financial penalty or impact the student's transcript.

A student who wishes to withdraw (resign) from the University before the end of a term or session must initiate a Student Petition for Withdrawal form and secure approval from his/her school's records office. The records office will then submit the form to the Office of the University Registrar. The effective date of the withdrawal is the date on which the Student Petition for Withdrawal is processed in the University Registrar's Office. Discontinuance of class attendance or notification to the instructors of intention to withdraw does not constitute an official withdrawal.

The enrollment of students who withdraw on or before the tenth class day of the fall or spring semester as listed on the Official University Calendar will be canceled. Courses and grades are not recorded for canceled enrollments; however, the student will owe a portion of his/her tuition and fees. Additional information is available in the *Financial Information Bulletin*. A student who withdraws after the tenth class day of the fall or spring semester will receive the grade of *W* in each course in which he or she enrolled.

Medical withdrawals allow a prorated refund of tuition and fees and have conditions that must be met prior to re-enrollment at SMU. Medical withdrawals can only be authorized by professionals in the Dr. Bob Smith Health Center, Dean of Student Life, or Vice President for Student Affairs. The last day for a medical withdrawal is the last day of class instruction for the term from which the student is withdrawing. Retroactive medical withdrawals cannot be granted.

Mandatory administrative withdrawals occur when a student is not suspended but current and/or future enrollments are canceled or withdrawn. A student's academic record is annotated with "mandatory administrative withdrawal" and the effective dates for this withdrawal. Mandatory administrative withdrawals allow a prorated refund of tuition and fees and have conditions that must be met prior to re-enrollment at SMU. Mandatory administrative withdrawals can be authorized only by the Provost and Vice President for Academic Affairs, Vice President for Student Affairs or Dean of Student Life.

Withdrawing students living in SMU housing must check out of the residence halls with the Department of Residence Life and Student Housing per established procedures.

## Audit Enrollment (Course Visitor)

Individuals desiring to audit (visit) a class, including those concurrently enrolled for regular coursework, must consult with the Perkins director of academic services first and then must process an Audit Permit form. Audit Permit forms must be completed, approved and received in the University Registrar's Office no later than the last day to enroll for the term. **Forms are available at** [www.smu.edu/EnrollmentServices/Registrar/FormsLibrary](http://www.smu.edu/EnrollmentServices/Registrar/FormsLibrary). Space must be available in the class. The following regulations are applicable:

1. Classroom recitation and participation are restricted; availability of course handouts, tests and other materials is restricted; no grade is assigned and no credit is recorded; no laboratory privileges are included.
2. The individual's name does not appear on class rosters or grade rosters.

3. Regular admission and enrollment procedures are not conducted for auditors.
4. The audit fee is nonrefundable.
5. If credit is desired, the course must be enrolled for and repeated as a regular course, and the regular tuition must be paid.

## Excused Absences for University Extracurricular Activities and Religious Holidays

Students who participate in officially sanctioned, scheduled University extracurricular activities or observe a religious holiday should be given an opportunity to make up class examinations or other graded assignments missed as a result of this participation or related travel. The manner in which examinations or other assignments missed because of these activities are to be made up is left to the discretion of each individual faculty member. However, students should not be penalized in any way for these excused absences and should be informed by the instructor at the beginning of the term, preferably in writing, of the instructor's makeup policy. It is the responsibility of the student to make arrangements with the instructor prior to any missed scheduled examination or other missed assignment for making up this work, and to obtain any class notes or other course material missed due to absence prior to taking any subsequent examinations or submitting any subsequent graded assignments.

This statement of University policy applies for all students. To minimize the difficulties caused for both student-athletes and their instructors by excused absences due to University-sanctioned athletic activities or related travel, the Athletic Department shall 1) make available to all student-athletes and their academic advisers prior to registration a copy of the student's activity and travel schedule for the upcoming term, so as to facilitate the student's enrollment in class sections that will minimize activity and travel conflicts; and 2) require all student-athletes to provide a copy of that term's activity and travel schedule, and a copy of this Statement of University Policy, to each of their instructors at the first class meeting of the term.

Other University colleges and departments whose students will miss classes because of their participation in officially sanctioned, scheduled University extracurricular activities, related travel, or observing of religious holidays are encouraged to adopt similar procedures to minimize the difficulties caused by such absences.

A list of religious holidays for use in requesting excused absences is available on the Official University Calendar. Students must notify the class instructor in writing by the 12th day of the term of any such absences that will occur during that term. Accommodations are to be made without penalty. More information can be found in the *University Policy Manual*, available at [www.smu.edu/policy](http://www.smu.edu/policy).

## Absence Due to Illness

The Dr. Bob Smith Health Center does not provide documentation for granting excused absences from class. If students are absent for illness, they should talk to their professors about how they might catch up with the material missed. If students are seriously ill and require hospitalization or an extended absence, students should talk to their professors and the associate dean to decide how to deal with the interruption in their studies.

## Interpretation of Course Numbers

Each SMU course has a four-digit course number. The first number indicates the general level of the course.

1000–1999	First-year
2000–2999	Sophomore
3000–3999	Junior
4000–4999	Senior
5000–5999	Senior or Graduate
6000–9999	Graduate

The second digit specifies the number of credit hours; exceptions are noted below.

<i>Digit</i>	<i>Credit Hours</i>
0	0, .5 or 1.5

The third and fourth digits are used to make the course number unique within the department.

## Grade Policies

A student's grades are available to him or her through my.SMU Student Homepage. Additional information is found under Grade Policies for Master's Programs in the Perkins Graduate Programs Policies and Procedures section of this catalog.

## Grade Scale

The grade of a student in any course is determined by the instructor of the course. The following grades are authorized for recording on the student's official graduate academic record maintained by the University Registrar's Office.

<i>Grades</i>	<i>Description</i>	<i>Grade Points per Term Hour</i>
<i>A</i>	Excellent Scholarship	4.000
<i>A-</i>	Excellent Scholarship	3.700
<i>B+</i>	Good Scholarship	3.300
<i>B</i>	Good Scholarship	3.000
<i>B-</i>	Good Scholarship	2.700
<i>C+</i>	Fair Scholarship	2.300
<i>C</i>	Fair Scholarship	2.000
<i>C-</i>	Fair Scholarship	1.700
<i>D+</i>	Poor Scholarship	1.300
<i>D</i>	Poor Scholarship	1.000
<i>D-</i>	Poor Scholarship	0.700
<i>F</i>	Fail	0.000
<i>P, CR, S</i>	Pass, Credit, Satisfactory	*
<i>I</i>	Incomplete	*
<i>NC, U</i>	No Credit Received, Unsatisfactory	*
<i>X</i>	No Grade Received in Registrar's Office	*
<i>W</i>	Withdrew	*

**Note:** Asterisks denote grades not included in a student's GPA.

## Grade of F, W, X and Missing/Blank

Failing is graded *F*. If the student's work is incomplete, poor quality and not acceptable, a grade of *F* will be given. After such a grade, credit may be obtained only by repeating the course.

The grade of *W* carries no grade value. Students desiring to withdraw from a course must make their intention known to the Perkins director of academic services before the last day for withdrawing as indicated in the Perkins Academic Calendar. Any request for an exception to this rule must be addressed, with supporting evidence, to the associate dean for academic affairs.

The grade of *W* cannot be recorded unless completion of the official drop or withdrawal process has occurred by the applicable deadline during the term of enrollment. Only the grade of *W* may be recorded if the student has officially dropped courses from the schedule or withdrawn (resigned) from the University for the term. The grade of *W* may not be revoked or changed to another grade because the act of officially dropping/withdrawing is irrevocable.

The grade of *X* is a temporary administrative grade used when an official grade has not been received from the instructor. The grade of *X* will be changed to *F* if a grade is not received within 60 days of the end of the term.

Graduation candidates must clear all *X*'s prior to the deadline on the Official University Calendar, which may allow less time than 60 days. Failure to do so can result in removal from the degree candidacy list and/or conversion of the grade of *X* to the grade of *F*.

A missing or blank grade also indicates an official grade has not been received from the instructor. Graduation candidates must receive a grade for all course enrollments prior to the deadline on the Official University Calendar. Failure to do so can result in removal from the degree candidacy list and/or the assignment of a grade of *F*.

## **Grade of Incomplete**

A student may temporarily receive a grade of Incomplete (*I*) if a substantial portion of the course requirements have been completed with passing grades, but for some justifiable reason acceptable to the Committee on Student Development, the student has been unable to complete the full requirements of the course.

The grade of *I* is granted by the committee only on written request by the student and only on the rare occasion when the student has suffered a serious illness or has experienced some other untoward hardship that the committee judges to be adequate grounds. The student's written request must be submitted to the associate dean for academic affairs no later than the deadline specified in the school's official calendar for the submission of all written work.

The grade of *I* is normally changed to a final grade within 30 days. At the time a grade of *I* is given, the instructor must stipulate in writing the requirements and completion date that are to be met and the final grade that will be given if the requirements are not met by the completion date.

The maximum period of time allowed to clear the Incomplete is 30 days. If the Incomplete grade is not cleared by the date set by the associate dean for academic affairs or by the end of the 30-day deadline, the grade of *I* will be changed to a grade of *F*.

The grade of *I* is not given in lieu of a grade of *F* or *W*, or other grade, each of which is prescribed for other specific circumstances.

The grade of *I* in a course does not authorize a student to attend or enroll in the course during a later term. Graduation candidates must clear all Incompletes prior to the deadline on the Official University Calendar, which may allow less time than 12 months. Failure to do so can result in removal from the degree candidacy list and/or conversion of the grade of *I* to the grade of *F*.

## **Grade Point Average**

A student's grade point average (cumulative GPA) is computed by multiplying the credit hours of each course attempted by the grade points earned in the particular course and then dividing the total number of grade points by the total number of hours attempted, excluding those hours for which grades are shown with an asterisk on the grade chart. The GPA is truncated, not rounded, at three decimal places.

For assistance estimating your GPA see the GPA calculator on the SMU website.

## **Grade Changes**

Changes of grades, including change of the grade of *I*, are initiated by the course instructor and authorized by the associate dean of academic affairs. If a student requests a grade change, the instructor may ask the student to provide the request as a written petition, which may become an official part of any further process at the instructor's discretion. Changes of grades may be made only for the following authorized reasons: to clear a grade of *I*, to correct a processing error or to reflect a re-evaluation of the student's original work. A change of grade will not be based on additional work options beyond those originally made available to the entire class.

Changes of grades of *I* should be processed within a calendar year of the original grade assignment. Other changes of grades must be processed by the end of the next regular term. No grade will be changed after 12 months or after a student's graduation, except in cases where a grade is successfully appealed – provided that written notice of appeal is

given within six months following graduation – and in extenuating circumstances authorized by the academic dean and approved by the University Registrar's Office.

## **Grade Appeals**

By University regulations, final authority in the determination of grades lies with the course instructor. With this understanding, a student may appeal a grade by following these procedures:

1. The normal procedure for grade appeals is to begin with the course instructor. The student should make an appeal in writing to the instructor indicating what it is that is being appealed and the rationale for that appeal. Evidence or information to support the appeal should be provided. The appeal must be initiated no later than the end of the following long term.
2. The instructor will review the appeal and provide the decision to the student in writing.
3. If the student is not satisfied with the outcome, the student may appeal in writing to the Associate Dean for Academic Affairs. This appeal should indicate the nature of the appeal, the rationale and all relevant documentation.
4. The associate dean will review the case individually with the student and the instructor, and, if desirable to both student and instructor, will hold a joint meeting with both parties. The associate dean may also ask the Committee on Student Development for a consultation on the matter. The goal is to be certain that both parties have a clear understanding of the issue and access to all relevant information.
5. Final authority in the determination of the grade rests with the instructor.

## **Satisfactory Progress Policies**

### **Academic Probation**

Academic probation is a serious warning that the student is not making satisfactory academic progress. A student on academic probation is still eligible to enroll and is considered in good standing for enrolling in classes and for certification purposes. Academic probation is not noted on the permanent academic record; however, a student on academic probation may be subject to certain conditions during the period of probation and will be subject to academic dismissal if he or she does not clear academic probation. For academic probation periods and guidelines, students should see the Academic Probation sections below under the appropriate school of record.

A student who fails a course or whose cumulative, fall or spring term grade average falls below a grade of C will be placed on academic probation. In this circumstance, the student will receive written correspondence from the chair of the Committee on Student Development or the associate dean for academic affairs suggesting a plan of study designed to improve his or her academic performance. Such a plan of study may include, in addition to a reduced course load, a reduction in non-academic activities, special tutoring, remedial work in reading or writing, or such other provisions as may seem appropriate in each case.

Students on probation may be required to reduce their academic course load and may be required to take a noncredit reading/study skills course. A student who, while on probation, fails a course or fails to achieve a minimum GPA of C on his or her work in any given term shall be liable to dismissal from school. Likewise, a student with a pattern of recurring probation shall be liable to dismissal. The student is automatically removed from probation upon successfully completing an academic term in which he or she does not fail any classes and when his or her cumulative or fall or spring term grade average is C or higher.

### **Academic Dismissal**

Academic dismissal is final, with no possibility of reinstatement or readmission to the University. Academic dismissal is recorded on the student's permanent academic record.

### **Academic Petitions and Waivers**

Petitions and/or requests for waivers concerning University requirements, graduation requirements and the evaluation of transfer work should be submitted to the associate dean's office or Perkins director of academic services.

## **Transfer Coursework**

Policies for transfer coursework are found in this catalog in the Admissions section and under Transfer Courses From Other Institutions in the General Policies section.

## **Graduation Policies**

### **Apply to Graduate**

Students must file an Application for Candidacy to Graduate with their school's records office no later than the last day of the first week of the term in which they will complete all degree requirements. Applications are filed through my.SMU Student Homepage by the deadline date on the Official University Calendar.

Students who file an application after the published deadline may be required to pay a nonrefundable late fee. Late applications may be denied after the start of the next term, and the Application for Candidacy to Graduate applied to the next conferral date. Students taking coursework at another institution and transferring the course(s) back to SMU are responsible for ensuring that the Perkins director of academic services office receives their official transcript in order for their degree to be conferred for the anticipated graduation term.

SMU has three degree conferral periods for most programs: fall (December), spring (May) and summer (August). In addition, students who complete their degree requirements during a Jan Term (January) will have their degrees conferred at the conclusion of the intersessions.

### **Commencement Participation**

An All-University Commencement Convocation is held in May for students enrolled and on schedule to complete degree requirements during the spring term. Students enrolled and on schedule to complete all degree requirements during the following summer session may also participate in the University Commencement Convocation, although their degrees will not be conferred until August. Students may also participate in the afternoon ceremony at Highland Park United Methodist Church following the University commencement.

An All-University December Commencement Convocation is held each year for students completing degree requirements during the fall term. Students who completed degree requirements during the previous summer session may also participate. Students on schedule and enrolled to complete all degree requirements during the following Jan Term (January) intersession may also participate in the December ceremony, although their degrees will be conferred in January.

A student may participate once in either the All-University Commencement Convocation in May or the All-University December Commencement Convocation for a given degree, but not both.

To participate in a ceremony, a student must apply online and file with their school's records office an Application for Candidacy to Graduate or Intent to Participate Form.

### **Statute of Limitations for Degree Plans**

A student who has been readmitted to the University following an absence of more than three years will be expected to meet all requirements for graduation current at the time of readmission.

## **Perkins Graduate Programs Policies and Procedures**

### **The Academic Year**

The academic year is divided into fall and spring terms. In addition, Perkins holds a summer term and a January interterm. All course requirements for the M.Div., M.A.M., M.S.M., M.T.S. and Th.M. degrees may be satisfied during the regular academic year, although courses fulfilling certain requirements in these programs are normally available in the summer term as well.

## Course Loads

Students holding pastoral charges or other employment requiring 20 hours or more per week should consider carefully, with their academic advisers, the advantages and disadvantages of a reduced course load. A load of nine credit hours per term may be advisable in such circumstances. Students considering any further reduction in course load should keep in mind, among other things, the effects of such a reduction upon their overall curricular planning and the time limit established in each degree program for the completion of all degree requirements.

In considering course load, students should be guided by the principle that the number of hours of a student's time to be devoted to any course per week should be approximately four times the number of credit hours of credit assigned to the course. For example, a three-term-hour course should occupy about 12 hours of the student's time each week, counting the time spent in class. Assignments are made accordingly.

## Coursework

Regular attendance is expected in all classes. In the event of unavoidable absences, students are responsible for securing from their colleagues any information about lectures or assignments missed, and, if their absence is unexcused, they assume the risk of missing quizzes or other graded in-class work. A student who anticipates an unavoidable extended absence from school should notify the associate dean for academic affairs, who will in turn notify the instructors involved. An excessive number of unexcused absences may result in a reduction in the student's grade or failure of the course, despite successful completion of all the assigned reading and written work. In no case will a student be allowed credit for a seminar if she or he is absent for as much as 25 percent of the seminar sessions, even if the absences are excusable.

All course assignments are to be completed on time. Work submitted late may be accepted at the instructor's discretion, and the student may incur a penalty in grade. Students are advised to consult the instructor in advance if circumstances make it impossible to meet an assignment deadline.

The calendar calls for a designated reading and writing period at the end of each term, during which time formal classes will not be held. This period is an integral part of the term's work, and students are expected to use it for research, writing and study in connection with the term's courses.

Final examinations are held on the dates indicated in the calendar. An examination schedule is published toward the end of each term. According to University regulations, no student may take a final examination ahead of the scheduled date. If it is not possible for a student to take an examination at the regular time, a postponement may be granted by the Committee on Student Development, or by the associate dean for academic affairs acting for the committee, if the student submits to the associate dean a written request approved by the instructor.

## Grade Requirements

A cumulative grade average of C (2.000) or above is required for graduation in the M.Div., M.A.M., M.T.S. and Th.M. programs, and a grade of B (3.000) is required for the M.S.M. program.

Students with course grades below 2.000 are in serious difficulty. Additional information is found in the Grade Policies section of this catalog.

## Academic Responsibility

Each student at Perkins is expected to adhere to rigorous standards of academic honesty. Plagiarism and other acts of academic dishonesty are regarded as serious offenses and are treated accordingly. Students are advised to consult with their course instructors if they have any questions about expectations and procedures in this regard. Each student is required to adhere to the Honor Code as referenced in the Student Rights and Responsibilities statement. The faculty has adopted the following statement on academic responsibility for the general guidance of students in these matters:

Each course at Perkins School of Theology has different requirements. Sometimes the differences are merely those of quantity, e.g., the number or length of papers and exams. Other differences are more subtle, such as the acceptability of submitting the same piece of work to more than one course. Some instructors insist that work done in their course be

original to that course. Other instructors, however, will permit relevant work done for another course, with appropriate modifications, to be submitted. It is the student's responsibility in pertinent cases to determine the preference of the instructors involved and to abide by it.

We in the Perkins community have become increasingly aware in recent years that there are many who do not understand what is meant by academic dishonesty and that there are others who understand but who have become lax in maintaining the necessary standards and disciplines. The following paragraphs are intended to set forth clearly this institution's understanding of academic honesty and to spell out in detail what is meant by plagiarism, to provide some relative resources and procedures for dealing with such issues.

What is academic dishonesty?

According to the Constitution of the SMU Honor Council, academic dishonesty includes (but is not limited to) the following:

1. **Academic Sabotage** - Intentionally taking any action which negatively affects the academic work of another student.
2. **Cheating** - Intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise.
3. **Fabrication** - Intentional and unauthorized falsification or invention of any information or citation in an academic exercise.
4. **Facilitating Academic Dishonesty** - Intentionally or knowingly helping or attempting to help another to violate any provision of the Honor Code.
5. **Plagiarism** - Intentionally or knowingly representing the words or ideas of another as one's own in any academic exercise.

### What is Plagiarism?

The general principles for all honest writing can be summarized briefly. Acknowledge indebtedness:

1. Whenever you quote another person's actual words.
2. Whenever you use another person's idea, opinion, or theory, even if it is completely paraphrased in your own words.
3. Whenever you borrow facts, statistics, or other illustrative material – unless the information is common knowledge.

Plagiarism also encompasses the notions of citing quotations and materials from secondary sources that were not directly consulted in the preparation of the student's work, and copying the organizational and argumentation structure of a work without acknowledging its author. [The Constitution of the Honor Council of Southern Methodist University, last revision July 1, 2008, <http://www.smu.edu/StudentAffairs/StudentLife/StudentHandbook/HonorCode>.]

### Resources

In addition to the required academic honesty online tutorial on Canvas, students are urged to consult the following resources for examples of plagiarism and suggestions for ways to avoid it:

- [owl.english.purdue.edu/owl/resource/589/01/](http://owl.english.purdue.edu/owl/resource/589/01/)
- Charles Lipson, *Doing Honest Work in College* (Chicago: University of Chicago Press, 2008); <http://press.uchicago.edu/books/lipson/honestcollege/index.html>.

### What happens if a student is involved in academic dishonesty?

The Faculty of Perkins School of Theology has established the following procedures for dealing with incidents of academic dishonesty. (Adopted by the Perkins faculty, February 28, 1986; revised May 5, 2008):

1. When an instructor determines that a student has committed an act of academic dishonesty on a course assignment (see "What is Academic Dishonesty"), the instructor will normally (a) assign a grade penalty for the offense and (b) notify the associate dean of the incident. The normal penalty for a first offense is a zero on

the assignment, though in the case of a particularly flagrant offense a more severe penalty, up to failure in the course, can be assessed. A second offense can be grounds for dismissal.

2. The student involved can appeal the decision of the instructor to the associate dean of academic affairs. After consulting with the instructor, the associate dean of academic affairs may arrange a meeting with the student and the instructor to discuss the case. The student can appeal the decision reached through this review to the faculty, through its Committee on Student Development, which will establish a procedure for review appropriate to the nature of the incident. In any case, final authority in the determination of grades rests with the instructor.

## **Students With Disabilities**

Students with disabilities, including learning disabilities, should know that their instructors at Perkins welcome being informed of the situation, particularly as it might bear upon a student's coursework. Upon request, and within reasonable limits, alternative arrangements may be worked out between instructor and student regarding examinations and other assignments, when that seems appropriate. A written statement from a health professional attesting to the disability is required. A student who wishes to pursue this possibility should notify the instructor(s) concerned well in advance. For further information and counsel, students should consult the associate dean for academic affairs and SMU's Office of Disability Accommodations and Success Strategies Office at 214-768-1470.

## **Special Courses**

Perkins students may register for graduate-level courses in other schools of the University after consultation with the associate dean for academic affairs. M.Div. students may register for a total of nine credit hours and M.T.S. students for six credit hours.

It is possible, in exceptional situations, to register for a directed study course. Ordinarily, no more than three directed study courses may be taken during a student's program of study. The student must have completed the required coursework in the pertinent field, the course must be on a subject not covered by regularly scheduled courses and the procedure for application must be completed by the end of the advance registration period in the term preceding that in which the directed study course is to be taken. Further information may be obtained from the Perkins registrar.

After matriculation at Perkins, a student may take one or more courses at another Association of Theological Schools member school and have the credit transferred to her or his Perkins degree program. However, these courses must be approved in advance by the Committee on Student Development or by the associate dean, acting for the committee. The total number of hours transferred to a Perkins degree program from courses taken before and after matriculation should not exceed the maximum allowed for students transferring from another institution. Additional information is found under Admission by Transfer in the Admission section of this catalog.

## **Exceptional Cases**

The faculty has invested the Committee on Student Development with authority to act upon all requests for exceptions to these regulations and for any variation from regular academic procedures. All requests are to be addressed in writing to the committee and submitted to the associate dean for academic affairs.

# Perkins School of Theology: Student Life and Housing

## The Division of Student Affairs

The Division of Student Affairs ([www.smu.edu/studentaffairs](http://www.smu.edu/studentaffairs)) creates and supports a robust student experience and forges strategic partnerships to best serve the entire SMU community. As educators and scholar-practitioners, we create purposeful learning and leadership opportunities for students to clarify and develop their knowledge, values, skills, and identities – challenging each to become a world changer. The Division of Student Affairs is comprised of five different organizational units that each provide unique educational and supportive resources for students during their time at SMU: Student Wellbeing and Support, Student Engagement and Success, Residence Life and Student Housing, Religious Life, and the Hegi Family Career Development Center.

## Student Wellbeing and Support

### Health Services

[www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)

The Dr. Bob Smith Health Center provides SMU students with campus access to quality, comprehensive and student-centered medical care, mental health services, and outreach programs designed to promote their health and wellbeing. The new 33,000 square foot state-of-the-art clinic facility is centrally located on campus at 6211 Bishop Boulevard. The Health Center is certified by the Accreditation Association for Ambulatory Health Care (AAAHC) for meeting rigorous nationally recognized standards and committing to delivering the highest quality of care.

**Medical Services.** The Dr. Bob Smith Health Center provides a wide range of health services allowing students to receive primary care on campus. Services available include the treatment of acute illnesses, care of injuries, minor medical procedures, physical exams, STD testing, vaccinations, allergy injections, and limited specialty services. Additional ancillary services include a clinical laboratory, an on-site pharmacy, X-ray imaging and diagnostic services, and a part-time sports medicine clinic. For appointments and health information, students may call 214-768-2141 or visit [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter).

**Acute/After Hours Care.** Students should call 911 for immediate response to life-threatening injuries or illnesses. For other urgent concerns after clinic hours, students should seek a local hospital or urgent care center. A listing of several hospital emergency rooms and after-hours urgent care facilities is provided for general reference on the Health Center website ([www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)).

**Costs.** The Health Services Fee, which is included in general student fees, covers routine medical visits and counseling appointments at the Health Center. Charges are assessed separately for lab services, x-rays, immunizations, medical supplies, pharmacy and specialty care. Claims are filed for students participating in the SMU Student Health Insurance Plan. Students with other insurance plans may request an itemized receipt in order to submit a claim for insurance reimbursement. The Pharmacy files claims for most insurance plans.

**Mandatory Health Insurance Policy.** SMU students are required to maintain insurance coverage as a condition of their enrollment. The University offers the SMU Student Health Insurance Plan (SHIP), which is administered by the Health Center's Student Insurance Office. The plan provides coverage at a reasonable cost for most on- and off-campus health care. Information is available at [www.smu.edu/healthinsurance](http://www.smu.edu/healthinsurance).

Domestic students taking nine or more credit hours and international students taking one credit hour or more are automatically enrolled in the Student Health Insurance Plan (SHIP) each semester unless they expressly waive coverage in their my.SMU account. Information about the waiver deadline is available online at [smu.edu/healthinsurance](http://smu.edu/healthinsurance). Domestic students taking between one and eight credit hours are eligible to enroll in the Student Health Insurance Plan on a voluntary basis.

**Pharmacy.** A full service pharmacy is conveniently located in the Dr. Bob Smith Health Center to meet students' prescription needs from 8:30 a.m. to 5:00 p.m., Monday through Friday. The pharmacy is in network with most insurance plans. Prescriptions and refills may be transmitted directly to the pharmacy from the student's physician.

**Immunizations.** All students (undergraduate, graduate, part-time and full-time, to include international and IEP/ESL students) are required to have an SMU medical history form on file in the Dr. Bob Smith Health Center before registration. (Health history forms are available on the Health Center's website at [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)). All students must also submit - to the Health Center - immunization records that provide proof of two doses of the vaccine against measles, mumps and rubella. These MMR immunizations must be documented by a physician, public health record, military health record or school health record. Students will not be allowed to register without immunization compliance.

Texas state law requires all new students entering an institution of higher education under the age of 22 to provide proof of immunization for bacterial meningitis. The meningitis vaccine or a booster dose must have been received during the five-year period prior to enrollment and not less than ten days before the start of classes. Students seeking exemption from this requirement due to health risk or conscience, including religious belief, should see the second page of the SMU medical history health form. More information is found under Final Matriculation to the University in the Admission to the University section of this catalog.

All required immunizations may be obtained at the Health Center.

**Class Absence Due to Illness.** The Health Center does not issue excuses from classes for illness. Please refer to the Health Center website ([www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)) for the Class Excuse Policy.

**Confidentiality and Privacy.** Confidentiality and privacy of student health information is of paramount importance at the Dr. Bob Smith Health Center. The Health Center follows all applicable state and federal laws related to the disclosure of medical and mental health information, and applies to the highest professional standards of care and privacy. All student-patient health service records are confidential. No information about a student can be released to any third party without the student's written permission.

**Release of Medical Information.** Patient health information and medical records are released only with a written release by the student. Students may sign a release allowing the Health Center to provide specific medical information with their parents, significant others or health care representatives.

**Health Education and Promotion.** The Health Center's Office for Community Health and Promotion serves as a resource to enhance the well-being of SMU students in support of their learning and success. Health information is presented through engaging programs and services to help students make informed and healthy choices. The Health Center works with students to promote activities that create a healthy environment for the SMU community.

**Counseling Services.** The Health Center provides crisis intervention, individual and group therapy, psychiatric evaluation and counseling referrals for SMU students. Use of all services is voluntary and strictly confidential. There is no charge to students who have paid the University health fee. Students can seek confidential help for concerns such as anxiety, depression, relationships, career/life planning, sexual identity, eating/body image and sexual assault/sexual harassment. Alcohol and drug prevention is a free and confidential source of help and information to the SMU community, covering issues related to substance abuse and addiction. Any laboratory tests or pharmaceuticals ordered will be charged to the student. For more information regarding scheduling appointments, students should call 214-768-2277 or visit [www.smu.edu/counseling](http://www.smu.edu/counseling).

**Testing Services.** Testing Services offers fee-based testing to the Dallas-area community. These services include on-campus administration of national testing programs such as the LSAT, MPRE, GRE and others. Other testing offered includes credit by exam (CLEP), and correspondence examinations for local distance learners enrolled in other universities. For additional information, students should visit [www.smu.edu/testingprogram](http://www.smu.edu/testingprogram) or call the center at 214-768-2269.

## **Dedman Center for Lifetime Sports**

[www.smu.edu/recsports](http://www.smu.edu/recsports)

The Dedman Center for Lifetime Sports provides aerobic studios, an indoor running track, basketball courts, volleyball courts (indoor and outdoor), racquetball courts, a climbing wall, a bouldering wall, a 25-yard recreational pool with

five lanes, 15,000 square feet of fitness and weight equipment and a Starbucks in the lobby area. These facilities are open to SMU students, faculty, staff and paying members.

**Facilities/Operations.** The center is a 170,000 square foot facility designed for recreational sports, wellness, programs and the traditions and spirit of SMU.

**Aquatics.** SMU Aquatics features a five-lane, indoor recreational pool and an out-door, zero-depth entry fountain pool known as "The Falls." Students have opportunities to participate year-round in recreational swimming, sunbathing and water sports such as water basketball, volleyball and polo. Classes offered include water fitness, adult and child swimming lessons, children's group lessons, and American Red Cross lifeguard training.

**Programs.** A variety of services and programs are available, including club sports, fitness classes, intramural sports and the Outdoor Adventure program.

**Club Sports.** Club sports offer an opportunity for students interested in concentrated training and participation in a sport. These recognized student organizations offer competition with other university/college club teams in baseball, cycling, ice hockey, men's and women's lacrosse, polo, rugby, men's and women's soccer, triathlon, ultimate Frisbee, volleyball, wakeboarding and water polo.

**Fitness.** SMU Fitness offers group exercise classes and personal training sessions. Group X exercise classes are offered throughout the day to accommodate a variety of schedules. Different types of cardio, strength and flexibility classes are available. Experienced and knowledgeable personal trainers offer sessions to train members of the University community, either one-on-one or in groups, to meet their personal fitness goals. All SMU Fitness programs have a fee for participation.

**Intramural Sports.** Many opportunities for team and individual competition are available through intramural sports such as golf, racquetball, tennis, and dodgeball. The five major sports are flag football, volleyball, basketball, soccer and softball. Leagues provide year-round opportunities to participate in a wide variety of sports and activities. Additional leadership opportunities are available for those interested in officiating or supervising various activities.

**Outdoor Adventure.** SMU Outdoor Adventures is the campus source for outdoor recreation and adventure, offering fun and challenging recreational adventure activities, community-building programs, and student leadership and personal growth opportunities. Students can sign up for SMU OA trips offering traditional and non-traditional outdoor adventure pursuits such as backpacking, rock climbing, caving and canoeing. SMU OA also manages the SMU Climbing Center, the indoor climbing and bouldering facility and the Portable Challenge and Team Development course.

**Spirit/Traditions.** The Recreational Sports Department houses the spirit and traditions of SMU including the Cheer Squad, Mustang Band, Peruna, Pom Squad and the Rotunda Yearbook.

**Mustang Band.** Founded in 1917, the Mustang Band was named the "Best College Marching Band" in Texas in Kirk Dooley's Book of Texas Bests. Long known as "the hub of SMU spirit," the band represents the University at football and basketball games, produces the Pigskin Revue during Homecoming and performs at special University- and community-related events. Membership is open to all SMU students by audition, regardless of major and scholarships based on need and ability are available.

**Rotunda Yearbook.** For over 100 years, the Rotunda Yearbook has chronicled the history of Southern Methodist University. Named in December 1915 after the architecture of Dallas Hall, the Executive Council of the Student Association voted for the annual's name after seven different students suggested it. From its beautiful art to captivating themes, the Rotunda has evolved with the times, earning national awards and recognition from the Associated Collegiate Press (ACP) and Columbia Scholastic Press Association (CSPA).

**Spirit Squads.** Members are full-time students who dedicate their time, energy and athleticism to support Mustang Athletics.

The Cheerleading Squad is a highly competitive team consisting of 20 to 30 young men and women. Twenty of the team's members compete at NCA College Nationals held in Daytona Beach, Florida where the squad placed first in 2016, 2017 and once again in 2018.

The Pom Squad is well known for their energetic performances and their ability to entertain a crowd. The dancing style of the team includes jazz, pom and hip-hop.

Peruna IX (2011-PRESENT) is the beloved mascot of the university and is accompanied by Peruna handlers that lead him across the field during football games. The Human Peruna Mascot is the costumed hero that represents SMU, and is a traditional accessory to Peruna IX.

## **Academic Integrity and Code of Conduct**

### **The Honor Code of Southern Methodist University**

Intellectual integrity and academic honesty are fundamental to the processes of learning and of evaluating academic performance, and maintaining them is the responsibility of all members of an educational institution. The inculcation of personal standards of honesty and integrity is a goal of education in all the disciplines of the University.

The faculty has the responsibility of encouraging and maintaining an atmosphere of academic honesty by being certain that students are aware of the value of it, understand the regulations defining it and know the penalties for departing from it. The faculty should, as far as is reasonably possible, assist students in avoiding the temptation to cheat. Faculty members must be aware that permitting dishonesty is not open to personal choice. A professor or instructor who is unwilling to act upon offenses is an accessory with the student offender in deteriorating the integrity of the University.

Students must share the responsibility for creating and maintaining an atmosphere of honesty and integrity. Students should be aware that personal experience in completing assigned work is essential to learning. Permitting others to prepare their work, using published or unpublished summaries as a substitute for studying required material, or giving or receiving unauthorized assistance in the preparation of work to be submitted are directly contrary to the honest process of learning. Students who are aware that others in a course are cheating or otherwise acting dishonestly have the responsibility to inform the professor and/or bring an accusation to the Honor Council.

Students and faculty members must share the knowledge that any dishonest practices permitted will make it more difficult for the honest students to be evaluated and graded fairly and will damage the integrity of the whole University. Students should recognize that their own interests and their integrity as individuals would suffer if they condone dishonesty in others.

### **Code of Conduct**

The following are University procedures and standards with which every student must become familiar. The University considers matriculation at SMU an implicit covenant and a declaration of acceptance on the part of the student of all University regulations. The Student Conduct & Community Standards Office, website [www.smu.edu/studentconduct](http://www.smu.edu/studentconduct), promotes community, scholarship and civility by holding students accountable to the Student Code of Conduct and the Honor Code.

Standards of conduct are established through faculty, student and administrative efforts and are under continuous evaluation by the entire University community in order to assure reasonable and fair limits. At SMU, the student is assumed to have a high degree of loyalty and responsibility to the University and its well-being, as well as to himself or herself in personal, social and intellectual pursuits; the student's behavior both on and off campus is evidence of this.

Students at SMU will discover that they are encouraged to exercise a great amount of personal freedom as well as accompanying responsibilities. Through their personal capacities for intelligent thought and action, mature students understand that there are situations in which certain behavior must be modified for the benefit of others. The University stands firm in its commitments to the rights and freedoms of students, expecting in return the same respect and concern.

Due respect for the entire University community, faculty, staff and one's fellow students is always expected. The University expects all students to be responsible citizens and to abide by all federal, state and local laws. The

University Code of Conduct applies to students both on and off campus. It is the University's expectation that students will avoid behaviors such as, but not limited to, the misuse of drugs and alcohol, dishonesty, gambling, hazing, or behavior that endangers or threatens to endanger the health and safety of any person.

Students are required to identify themselves when asked by a properly identified faculty or staff member, or by another student serving as a University staff member. Persons who are not members of the University community and without business on campus may be asked to leave.

## **Conduct Review Process**

Clear disciplinary procedures are an important part of the mission of SMU as an educational institution. The intent of the system of due process at SMU is to be educational and not merely punitive for students. The goal continues to be to produce quality citizens. The purpose of the conduct review process is to encourage personal responsibility.

Depending on the degree of misconduct, a student may be subject to sanctions ranging from an informal warning to expulsion from the University. In addition, a student may be assigned educational sanctions designed to promote personal growth and development. Should a student be asked to leave the University, he or she should do so in an expeditious and peaceful manner. The student should remain off campus until he or she receives written permission from the Office of Student Conduct & Community Standards to return to campus. In the event of such separation, a student is still responsible for University financial obligations.

To ensure fairness and due process for all students in the conduct process, the student is granted an impartial hearing and the right to appeal to the University Conduct Council. A student who is appealing a sanction may remain in school until the decision and penalty are reviewed, unless otherwise determined by the Dean of Students, the Vice President for Student Affairs, or their designee. All actions related to the conduct review process are subject to presidential review.

Having voluntarily enrolled as students at Southern Methodist University and assumed a place in the University community, all students are presumed to be knowledgeable of, and have agreed to abide by the rules and regulations set forth in the Student Code of Conduct as outlined in the SMU Student Handbook, which is available online at [www.smu.edu/StudentAffairs/StudentLife/StudentHandbook](http://www.smu.edu/StudentAffairs/StudentLife/StudentHandbook).

## **Student Engagement and Success**

### **Department of Student Development**

#### **Office of the Student Experience**

The Office of the Student Experience designs a comprehensive student experience supporting students and their families from orientation to graduation. Using a leadership framework, all students are guided through collegiate transitions. With recognition of the unique needs of veterans, graduate, transfer, and international students, the office advocates for and provides support to these special populations.

#### **Leadership**

The leadership programs available to students include the Emerging Leaders First-Year Leadership Development Program, the Crain Leadership Summit, and the Lonestar LeaderShape Institute. The Office of the Student Experience also supports student leadership development through the Caswell Leadership Program, for a group of selected students to develop projects focused on organizational leadership, faith-based leadership, community-based leadership, environmental leadership, fraternity and sorority leadership or culturally competent leadership.

#### **Parent and Family Programs**

Parents and families are supported through the Office of the Student Experience with a focus on assisting families to assist their students. Our office supports the SMU Mothers' and Dads' clubs, welcomes and supports new students and families during orientation, and supports family weekend.

#### **Special Population Support**

The Office of the Student Experience is committed to supporting all SMU students in their transitions into and through

SMU. Additional support is coordinated for special student populations who may have unique factors that impact their transitions including Veteran, Transfer, International, and Graduate students.

### **Women & LGBT Center**

[www.smu.edu/womenandlgbtcenter](http://www.smu.edu/womenandlgbtcenter)

The Women & LGBT Center works to increase awareness and understanding of gender, sexuality, and women's issues on campus through social, cultural and academic programming and outreach. We provide empowering spaces for students to develop as leaders through purposeful learning, educational, and advocacy opportunities. We also advise, support, and develop student organizations focused on gender, sexuality, and women's issues. Some of the organizations we advise include the Feminist Equality Movement, Women in Science and Engineering, and Spectrum: the lesbian, gay, bisexual, transgender and ally organization. Also housed in the center is the SMU Women's Symposium ([www.smu.edu/womsym](http://www.smu.edu/womsym)), which is part of the Education of Women for Social and Political Leadership series, established in 1966.

### **Office of Social Change and Intercultural Engagement**

The Office of Social Change and Intercultural Engagement exists to connect students with opportunities to engage with and learn from the SMU campus, Dallas community, and beyond. The office prioritizes advocacy and awareness through immersive community engagement experiences and social justice education. There are two major functional areas of the office: community engagement and intercultural engagement.

The community engagement side of the office has signature service programs including The Big Event, Mustang Heroes, and Alternative Breaks—which provide students the opportunity to participate in immersive service experiences in Dallas and throughout the United States. The office also provides consulting services to individuals, classes, and offices to help connect them to meaningful and educational community engagement opportunities.

In addition, the office sponsors intercultural engagement and social justice education programs to provide opportunities for the exchange of ideas and experiences that enhance student perspectives, and offers various leadership opportunities through culturally based student organizations, student coordinator positions, and the CONNECT Mentoring Program.

For more information about our programs, please visit [www.smu.edu/socialchange](http://www.smu.edu/socialchange).

### **Department of Student Involvement**

[connect.smu.edu](http://connect.smu.edu)

The mission of Student Involvement is to foster experiences and create spaces encouraging students to discover their interests and find a sense of belonging through involvement. Research shows that students who get involved, regardless of the type of activity, tend to be more successful during their college experience. Student Involvement supports more than 200 opportunities for SMU students through academic and professional associations, campus programming boards, community service coalitions, fraternities and sororities, governing boards, honor societies, multicultural organizations, political clubs, club sports, religious organizations, and special interest groups. Professional staff are available to answer student's questions about getting involved and student organization operations.

The Student Involvement Office is located on the third floor of the Hughes-Trigg Student Center, Suite 314. Campus activities and organizations are an integral part of the developmental experience for students and a long-standing SMU tradition. Participation can help students develop leadership skills and provide inter-personal, social and cultural experiences.

Additional information is available online, including organization interests or type, membership requirements, contact information and event calendars. Student Involvement can also assist students in forming a new organization. To learn more visit [connect.smu.edu](http://connect.smu.edu).

**Eligibility Requirements.** Students who hold office in a student organization or represent the University as a member of a sponsored campus group (Mustang Band, Alternative Breaks, etc.) must be matriculated in a University degree-granting program, maintain a minimum 2.0 GPA, and may not be on academic probation.

## Student Government

Through SMU's system of representative governance, students participate with faculty and administration in the University's decision-making process. The primary voice of students in this process is the student-elected Student Senate comprised of senators, committee chairs, general members, and student body officers.

## Hughes-Trigg Student Center

[www.smu.edu/htrigg](http://www.smu.edu/htrigg)

The Hughes-Trigg Student Center supports the University's mission by serving as the hub of student life and activities. The Student Center enhances the student experience by providing services, conveniences, amenities, and resources to facilitate programming. The Student Involvement staff strives to provide a safe and community-focused environment to meet the diverse needs of all individuals. Our space offerings include a 6,400 square-foot ballroom, a tiered, amphitheater-style forum classroom, a 470-person capacity auditorium, a convenience store, a food court with a multifunction dining space, a post office, office and meeting space for student organizations, several lounging and quiet areas for studying, and six meeting rooms.

## Residence Life and Student Housing

[www.smu.edu/housing](http://www.smu.edu/housing)

The Department of Residence Life and Student Housing supports the goals of the University by creating residential communities that empower residents to value learning, citizenship and leadership in comfortable, well-maintained facilities. The department is responsible for the campus residential community, including all Residential Commons, Upper Division Housing, SMU-owned apartments, and SMU-owned Greek chapter houses.

## Hegi Family Career Development Center

[www.smu.edu/career](http://www.smu.edu/career)

The Hegi Family Career Development Center at SMU is dedicated to serving the needs of SMU students and alumni and assisting employers in reaching qualified candidates from SMU. The Career Development Center staff guides and encourages students and alumni in the development of skills necessary for lifelong career management and offers opportunities for employers to recruit students through campus events and online resources. At Hegi, the staff cares about helping students develop into well-rounded individuals, and is dedicated to values of consistency, authenticity and commitment to excellence.

**Career Express Drop-in Hours.** The Career Center offers 15-minute drop-in sessions on a first-come, first-served, basis. In these sessions, students can discuss career options or get help editing a resume. Additional information is available on our website at [www.smu.edu/career](http://www.smu.edu/career).

**Counseling Appointments.** The Career Center also provides opportunities for counseling appointments with a staff member. These longer sessions can help students navigate more complex issues, including major exploration, career exploration, professional skill building, and more.

**Peer Mentors.** Peer Mentors are highly trained student leaders who help fellow students navigate the career development process, including assisting with drop-ins, editing cover letters and resumes, and representing Hegi at campus events.

**Career Development Ambassadors.** CDA is a student organization designed to provide career development opportunities on the SMU Campus. CDAs organize events for the SMU community, which inspire engagement in the career development process, develop students' career tools, and provide networking opportunities.

**Experiential Learning.** Want to learn more about an industry, company or specific job? Experiential learning is the best way to do so. Below are some easy ways to get connected:

- **Coffee Chats/Lunch 'n Learns:** Meet an employer in an informal setting to learn about their career journey.

- **Mentors:** Connect and develop a relationship with an industry professional that is in a career you are interested in.
- **Employer Site Visits/Externships:** Shadow professionals and SMU alumni for the day and learn about their career path and what they do on a daily basis. Mustang and SMU Connection programs partner with top regional employers and alumni providing student exposure to today's competitive and ever-changing job market.
- **Informational Interviews:** Have a conversation with an alum and/or employer to build your network and learn about their education and career path.

**Employer Events.** Our Office cultivates meaningful relationships with organizations and employers who are invested in networking with dynamic, talented and skilled students across SMU's liberal and communication arts communities. Throughout the year, the Career Center hosts 2-4 Career and Internship Fairs, along with a host of Employer Industry Panels, Company Information Sessions and Industry Training and Development Workshops. These events offer students an opportunity to work with employers and alumni and to learn the skills necessary to be successful in the workplace.

## Office of the Chaplain and Religious Life

[www.smu.edu/chaplain](http://www.smu.edu/chaplain)

The Office of the Chaplain and Religious Life offers resources of pastoral care and theological reflection that nurture spiritual and vocational development as well as the moral and ethical vision and character of students, faculty and staff. Dr. Stephen W. Rankin is the chaplain and minister to the University community. Chaplain Rankin leads and preaches at weekly chapel service, an ecumenically Christian, all-University service of worship, each Wednesday during the term. Students, faculty and staff are invited to participate in this service through music, scripture readings or other expressions of worship. Other services, including the University Service of Memory, Ash Wednesday Service and memorial services as needed, are also planned and implemented by the Office of the Chaplain.

Presently, there are more than 28 religious life organizations. Alongside the Christian groups aligned with denominations, local Dallas-area congregations or national parachurch ministries, SMU also has an active Hillel chapter for Jewish students, a bustling Muslim Student Association and other faith groups of various traditions. A large number of undergraduate, graduate and professional students, as well as many of SMU's faculty, staff and administrators, participate in these religious communities.

Additionally, the Office of the Chaplain partners with faculty members across campus to direct the Faith and Learning Scholars, a cohort of students who want the experience of integrating their faith with their academic pursuits. Participants can qualify for the community engagement proficiency. Similarly, the Civil Rights Pilgrimage, founded in 2004, is an eight-day spring break journey through the South whereby students encounter shrines of freedom and meet heroes of the civil rights movement. This collaboration with Dedman College offers students a transformative opportunity while earning academic credit.

Chaplains are available for personal counseling and spiritual direction with students, faculty and staff during office hours. The Office of the Chaplain is located in the Hughes-Trigg Student Center, Suite 316. Nearby are two rooms for prayer, one designated for Muslim community members and the other for all others.

## Residence Accommodations

The University prides itself on offering a full living and learning experience for its resident students. The mission of the Department of Residence Life and Student Housing is to advance the goals and objectives of the University by creating residential communities that empower residents to value learning, citizenship and leadership. To this end, RLSH seeks opportunities to promote an intellectual culture in SMU's residential communities that complements an already flourishing campus social culture. RLSH is responsible for residence halls, 11 Residential Commons and 10 SMU-owned Greek chapter houses. This responsibility includes making sure that facilities are well maintained and that students have opportunities to grow personally and excel academically.

## **Housing Policy for All Students**

All incoming first-year undergraduate students are required to live on campus during their first two years at SMU. Exceptions may be granted on the basis of a financial, medical or personal hardship at the discretion of the dean of RLSH to those students from Dallas/Fort Worth who live with a parent or legal guardian in the primary residence of the parent or guardian. For housing purposes, the two years means the first two years of college. Incoming transfer students who are over the age of 16 and under the age of 20 are required to live on-campus for their first year at SMU. For 2018–2019, upperclass and graduate students are not required to live on campus but may apply on a space-available basis.

## **Applications for Residence**

New graduate students should submit the completed application and housing license agreement to RLSH with a check or money order for \$100 made payable to Southern Methodist University for the nonrefundable housing deposit. Notification of assignment will be made by RLSH.

The housing license agreement is for the full academic year (fall and spring terms). Room charges for the fall term will be billed and are payable in advance of the term for students who register before August 1, and room charges for the spring term will be billed and are payable in advance of that term for students who register before December 1. Students who register after these dates must pay at the time of registration. Room charges for the full academic year will be due and payable should a student move out at any time during the school year. Accommodations for shorter periods are available only by special arrangement with RLSH before acceptance of the housing license agreement. It is important that applicants become familiar with the license agreement, as it is a legally binding document.

## **Graduate Residence Accommodations**

The Department of Residence Life and Student Housing operates one apartment residence hall designated for graduate students. Martin Hall, a single occupancy, efficiency apartment facility, houses single graduate students and senior undergraduates.

## **Special Housing Needs**

Students having special housing needs because of a disability should contact the SMU Office of Disability Accommodations and Success Strategies in order to establish eligibility for accommodations. When applying for housing, students should also submit information to RLSH regarding a request for accommodations. DASS and RLSH will work together with the student on their specific situation to make necessary accommodations.

## **General Housing Information**

Each apartment is furnished with a Murphy bed, desk, dresser, kitchen dining table and chairs. All university residences have wired and wireless Ethernet connections to the University's computer system. All residence halls are air-conditioned and some have individually climate-controlled rooms. Washing machines and dryers are located in all residence halls. Meal plans are not required in the graduate hall. For more information, students should visit [www.smu.edu/housing](http://www.smu.edu/housing) or contact the Department of Residence Life and Student Housing, Southern Methodist University, PO Box 750215, Dallas TX 75275-0215; phone 214-768-2407; fax 214-768-4005; [housing@smu.edu](mailto:housing@smu.edu).

# Perkins School of Theology: Faculty and Staff

## Office of the Academic Dean

Craig C. Hill, *Dean of Joe and Lois Perkins School of Theology*

# Simmons School of Education and Human Development

## Academic Calendar

### Academic Year 2019-2020

[www.smu.edu/registrar/academic\\_calendar.asp](http://www.smu.edu/registrar/academic_calendar.asp)

This calendar includes an addendum listing religious holidays for use in requesting excused absences according to University Policy, Excused Absences for University Extracurricular Activities and Religious Holidays. For religious holidays not listed, contact the Office of the Chaplain.

Graduate programs in the Cox School of Business, Perkins School of Theology, Dedman School of Law, and Research and Graduate Studies have different calendars.

A comprehensive schedule of holiday dates that the offices of the University will be closed will be announced at a later date.

### Fall Term 2019

*(August 26 - December 21, 2019)*

**April 8–26, Monday–Friday:** Enrollment for fall 2019 continuing students for all undergraduates and for graduates in Dedman College, Lyle and Meadows.

**May, July, August (TBA):** Academic Advising, Enrollment and Orientation conferences for new first-year and transfer undergraduate students. Conference dates to be announced. More information about AARO is available from the Office of the Student Experience, Student Affairs, 214-768-4560, [www.smu.edu/studentaffairs/newstudent](http://www.smu.edu/studentaffairs/newstudent).

**August 24, Saturday:** Residence halls officially open at 9:00 a.m.

**August 25, Sunday:** Opening Convocation, McFarlin Auditorium.

**August 26, Monday:** First day of classes.

**August 30, Friday:** Last day to enroll, add a course, or drop a course without tuition billing while remaining enrolled for the term. Last day to file for graduation in December.

**September 2, Monday:** Labor Day. University offices closed.

**September 9, Monday:** Last day to drop a course without academic record (**tuition charges apply**). Last day to withdraw from the university without academic record (**withdrawal refund schedule applies**). See Bursar's website for more information.

**September 11, Wednesday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**October 1, Tuesday:** Early intervention grades due for first-year undergraduate students.

**October 4-5, Friday-Saturday:** Family Weekend

**October 14-15, Monday-Tuesday:** Fall Break.

**October 16, Wednesday:** Last day for continuing undergraduate students to change their majors before November enrollment.

**October 27, Sunday:** Midterm grades due for first-year and sophomore students.

**November 4, Monday:** 60 percent point of the term that federal financial aid has been earned if a student officially withdraws from SMU; prior to this date a partial calculated return to federal programs will be required.

**November 4-22, Monday–Friday:** Enrollment for spring 2020 continuing students for all undergraduates and graduates in Dedman College, Lyle, Meadows and Simmons.

**November 8, Friday:** Last day to drop a course (grade of W).

**November 8-9, Friday-Saturday:** Homecoming Weekend.

**November 14, Thursday:** Last day for December graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**November 18, Monday:** Students should file for May graduation. The last day to file is January 24, 2020.

**November 26, Tuesday:** Last day to withdraw from the University.

**November 27, Wednesday:** No classes.

**November 28–29, Thursday–Friday:** Thanksgiving holiday. University offices closed.

**December 4-9, Wednesday–Monday:** No final examinations or unscheduled tests and papers.

**December 5, Thursday:** Last day for oral/written examinations for December graduate degree candidates.

**December 9, Monday:** Last day of classes.

**December 10-11, Tuesday-Wednesday:** Reading days.

**December 12-18, Thursday–Wednesday:** Examinations. (No examinations scheduled for Sunday).

**December 19, Thursday:** Residence halls close at 10:00 a.m. for winter break. (December graduates should contact the Department of Residence Life and Student Housing).

**December 20, Friday:** December Rotunda Recessional.

**December 21, Saturday:** December Commencement Convocation. Official close of term and conferral of degrees.

**December 23 - January 1, Monday - Wednesday:** University closed.

**December 25, Wednesday:** Christmas Day.

## January Term 2020

*(December 19, 2019 – January 16, 2020)*

The January Term consists of two primary sessions: Dallas January Session and SMU-in-Taos January Session. Each primary session has different deadline dates. Some areas of instruction may offer a limited number of selected courses during the January Term, December 19, 2019 – January 16, 2020 with unique start, end, deadline dates and class meeting times to accommodate the particular needs of the course.

**January 1, Wednesday:** New Year's Day. University offices closed.

## Dallas January Session 2020

**Note:** *Classes meet six hours per day, Monday through Friday. See Intersessions website for specific class information.*

**January 5, Sunday:** Last day to enroll, add a course, or drop a course without academic record. Last day to file for graduation in January Term.

**January 6, Monday:** First day of classes.

**January 7, Tuesday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**January 9, Thursday:** Last day for January Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term

**January 15, Wednesday:** Last day to drop a course or withdraw from the University (grade of W).

**January 16, Thursday:** Last day of classes, including examinations. Official close of the term and conferral of degrees.

## SMU-in-Taos January Session 2020

*Note: Permission of SMU-in-Taos required for all enrollments.*

**January 2, Thursday:** Last day to enroll, add a course, or drop a course without academic record.

**January 2, Thursday:** Student travel/arrival.

**January 3, Friday:** First day of classes.

**January 6, Monday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**January 9, Thursday:** Last day for January Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**January 14, Tuesday:** Last day to drop a course or withdraw from the University (grade of W).

**January 15, Wednesday:** Last day of classes, including examinations. Travel Day.

**January 16, Thursday:** Unofficial Taos Travel.

## Spring Term 2020

*(January 17 - May 16, 2020)*

**November 4-January 24, Monday–Friday:** Enrollment for spring 2020 continuing students for all undergraduates and graduates in Dedman College, Lyle, Meadows and Simmons.

**January (TBA):** Residence halls officially open at 9:00 a.m.

**January (TBA):** Academic Advising, Enrollment and Orientation conferences for new first-year and transfer undergraduate students. Conference dates to be announced. More information about AARO is available from the Office of the Student Experience, Student Affairs, 214-768-4560, [www.smu.edu/studentaffairs/newstudent](http://www.smu.edu/studentaffairs/newstudent).

**January 1, Wednesday:** New Year's Day. University offices closed.

**January 15, Wednesday:** Spring Rotunda Passage (*Tentative; subject to change*)

**January 17, Friday:** First day of classes.

**January 20, Monday:** Martin Luther King, Jr. Day. University offices closed.

**January 24, Friday:** Last day to enroll, add a course, or drop a course without tuition billing while remaining enrolled for the term. Last day to file for graduation in May.

**January 31, Friday:** Last day to drop a course without academic record (**tuition charges apply**). Last day to withdraw from the university without academic record ([withdrawal refund schedule applies](#)). See Bursar's website for more information.

**February 4, Tuesday:** Last day to declare pass/fail or no credit grading options. Also, last day to request an excused absence for the observance of a religious holiday.

**February 24, Monday:** Early intervention grades due for first-year undergraduate students.

**March 6, Friday:** Last day for continuing undergraduate students to change their majors before April enrollment.

**March 16-22, Monday-Sunday:** Spring Break.

**March 24, Tuesday:** Midterm grades due for first-year and sophomore students.

**March 31, Tuesday:** 60 percent point of the term that federal financial aid has been earned if a student officially withdraws from SMU; prior to this date a partial calculated return to federal programs will be required.

**April 6-24, Monday–Friday:** Enrollment for summer 2020 and fall 2020 continuing students for all undergraduates and graduates in Dedman College, Lyle, Meadows and Simmons.

**April 7, Tuesday:** Last day to drop a course (grade of W).

**April 10, Friday:** Good Friday. University offices closed.

**April 12, Sunday:** Easter Sunday.

**April 13, Monday:** Last Day for May graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**April 13, Monday:** Honors Convocation, 5:30 p.m.

**April 22, Wednesday:** Students should file for August or December graduation. Last day to file for August graduation is June 4. Last day to file for December graduation is the last day to enroll for fall 2020.

**April 24, Friday:** Last day to withdraw from the University.

**April 29-May 4, Wednesday–Monday:** No final examinations or unscheduled tests and papers.

**April 30, Thursday:** Last day for oral/written examinations for graduate students who are May degree candidates.

**May 4, Monday:** Last day of classes.

**May 5, Tuesday:** Reading Day.

**May 6-12, Wednesday–Tuesday:** Examinations (No examinations scheduled for Sunday).

**May 13, Wednesday:** Residence halls officially close for non-graduating students.

**May 15, Friday:** Baccalaureate.

**May 16, Saturday:** May Commencement Convocation. Official close of term and conferral of degrees.

**May 17, Sunday:** Residence halls officially close for graduating seniors.

## May Term 2020

*(May 14 - 29, 2020)*

The May Term consists of two primary sessions: Dallas May Session and SMU-in-Taos May Session. Each primary session has different deadline dates. Some areas of instruction may offer a limited number of selected courses during the May Term, May 14 - 29, 2020 with unique start, end, deadline dates, and class meeting times to accommodate the particular needs of the course.

## Dallas May Session 2020

*Note: Classes meet four hours per day, Monday through Friday.*

**May 14, Thursday:** First day of classes.

**May 14, Thursday:** Last day to enroll, add a course, or drop a course without academic record (tuition charges apply). See Bursar's website for more information. Last day to declare pass/fail or no credit grading options. Last day to file for graduation in May Term. Last day to request an excused absence for the observance of a religious holiday.

**May 22, Friday:** Last day for May Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**May 25, Monday:** Memorial Day. University offices closed.

**May 26, Tuesday:** Last day to drop a course or withdraw from the University (grade of W).

**May 29, Friday:** Last day of classes, including examinations. Official close of term and conferral of degrees.

## SMU-in-Taos May Session 2020

*Note: Permission of SMU-in-Taos required for all enrollments.*

**May 13, Wednesday:** Travel day and arrival of students, 2–6 p.m.

**May 14, Thursday:** First day of classes.

**May 14, Thursday:** Last day to enroll, add a course, or drop a course without academic record (tuition charges apply). See Bursar's website for more information. Last day to declare pass/fail or no credit grading options. Last day to file for graduation in May Term. Last day to request an excused absence for the observance of a religious holiday.

**May 22, Friday:** Last day for May Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**May 26, Tuesday:** Last day to drop a course or withdraw from the University (grade of W).

**May 29, Friday:** Last day of classes, including examinations.

**May 30, Saturday:** Travel Day.

## Summer Term 2020

*(June 1 – August 4, 2020)*

The summer term consists of four primary sessions: Dallas Full Session, Dallas First Session (June), SMU-in-Taos First Session, and Dallas Second Session (July). Each primary session has different deadline dates. There are also four shorter sessions within the first and second sessions. Some areas of instruction may offer a limited number of selected courses during the Summer Term, June 1 – August 4, with unique start, end, deadline dates and class meeting times to accommodate the particular needs of the course.

### Dallas Full Session

**Note:** *Classes meet 2 hours, 15 minutes twice a week or 1 hour, 30 minutes three times a week.*

**May 25, Monday:** Memorial Day. University offices closed.

**June 1, Monday:** First day of classes.

**June 4, Thursday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information. Last day to file for August graduation.

**June 10, Wednesday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**July 3, Friday:** Independence Day observed. University offices closed.

**July 16, Thursday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**July 23, Thursday:** Last day to drop a course (grade of W).

**July 29, Wednesday:** Last day to withdraw from the University.

**August 4, Tuesday:** Last day of classes, including examinations. Official close of term and conferral of degrees.

### Dallas First Session (June)

**Note:** *Classes meet 2 hours a day, Monday–Friday*

**May 25, Monday:** Memorial Day. University offices closed.

**June 1, Monday:** First day of classes.

**June 2, Tuesday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information.

**June 4, Thursday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday. Last day to file for August graduation.

**June 16, Tuesday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**June 23, Tuesday:** Last day to drop a course (grade of W).

**June 24, Wednesday:** Last day to withdraw from the University.

**June 30, Tuesday:** Last day of classes, including examinations.

**August 4, Tuesday:** Official close of term and conferral of degrees.

## June A (11-day June Session)

*Classes meet four hours per day, Monday through Friday.*

**June 1, Monday:** First day of classes.

**June 1, Monday:** Last day to add/enroll and to declare pass/fail or no credit grading options.

**June 10, Wednesday:** Last day to drop/withdraw from the University (grade of W).

**June 15, Monday:** Last day of classes, including examinations.

## June B (11-day June Session)

*Classes meet four hours per day, Monday through Friday.*

**June 16, Tuesday:** First day of classes.

**June 16, Tuesday:** Last day to add/enroll and to declare pass/fail or no credit grading options.

**June 25, Thursday:** Last day to drop/withdraw from the University (grade of W).

**June 30, Tuesday:** Last day of classes, including examinations.

## SMU-in-Taos First Session

*Note: Permission of SMU-in-Taos required for all enrollments.*

*(Regular Session)*

**June 2, Tuesday:** Travel day and arrival of students, 2-6 p.m.

**June 3, Wednesday:** First day of classes.

**June 3, Wednesday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information.

**June 4, Thursday:** Last day to file for August graduation.

**June 8, Monday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**June 11, Thursday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**June 16, Tuesday:** Last day to drop a course or withdraw from the University (grade of W).

**June 18, Thursday:** Last day of classes, including examinations.

**June 19, Friday:** Departure of students.

**August 4, Tuesday:** Official close of term and conferral of degrees.

*(Field Session)*

**June 2, Tuesday:** Travel day and arrival of students, 2-6 p.m.

**June 3, Wednesday:** First day of classes.

**June 3, Wednesday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information.

**June 4, Thursday:** Last day to file for August graduation.

**June 8, Monday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**June 16, Tuesday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**June 25, Thursday:** Last day to drop a course or withdraw from the University (grade of W).

**June 30, Tuesday:** Last day of classes, including examinations.

**July 1, Wednesday:** Departure of students.

**August 4, Tuesday:** Official close of term and conferral of degrees.

## Dallas Second Session (July)

*Note: Classes meet 2 hours a day, Monday–Friday.*

**June 4, Thursday:** Last day to file for August graduation.

**July 3, Friday:** Independence Day observed. University offices closed.

**July 6, Monday:** First day of classes.

**July 7, Tuesday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information.

**July 9, Thursday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**July 14, Tuesday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**July 27, Monday:** Last day to drop a course (grade of W).

**July 29, Wednesday:** Last day to withdraw from the University.

**August 4, Tuesday:** Last day of classes, including examinations. Official close of term and conferral of degrees.

## July A (11-day July Session)

*Classes meet four hours per day, Monday through Friday.*

**July 6, Monday:** First day of classes.

**July 6, Monday:** Last day to add/enroll and to declare pass/fail or no credit grading options.

**July 15, Wednesday:** Last day to drop/withdraw from the University (grade of W).

**July 20, Monday:** Last day of classes, including examinations.

## July B (11-day July Session)

*Classes meet four hours per day, Monday through Friday.*

**July 21, Tuesday:** First day of classes.

**July 21, Tuesday:** Last day to add/enroll and to declare pass/fail or no credit grading options.

**July 30, Thursday:** Last day to drop/withdraw from the University (grade of W).

**August 4, Tuesday:** Last day of classes, including examinations.

## August Term 2020

*(August 6 – 21, 2020)*

The August Term consists of one primary session: SMU-in-Taos August Session. Some areas of instruction may offer a limited number of selected courses during the August Term, August 6 – 21, 2020 with unique start, end, and deadline dates to accommodate the particular needs of the course.

## SMU-in-Taos August Session

*Note: Permission of SMU-in-Taos required for all enrollments.*

**August 5, Wednesday:** Travel day and arrival of students, 2-6 p.m.

**August 6, Thursday:** First day of classes.

**August 7, Friday:** Last day to enroll, add a course, or drop a course without academic record (tuition charges apply). See Bursar's website for more information. Last day to declare pass/fail or no credit grading options. Last day to file for graduation in August Term. Last day to request an excused absence for the observance of a religious holiday.

**August 14, Friday:** Last day for August Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**August 20, Thursday:** Last day to drop a course or withdraw from the University (grade of W).

**August 21, Friday:** Last day of classes, including examinations. Official close of term and conferral of degrees.

**August 22, Saturday:** Travel Day.

## Major Religious Holidays

*(August 2019-August 2020)*

Listing of religious holidays for use in requesting excused absences according to University Policy, Excused Absences for University Extracurricular Activities and Religious Holidays. For religious holidays not listed, the instructor or supervisor may contact the Office of the Chaplain.

### Christian

**Christmas:** December 25, 2019

# **Simmons School of Education and Human Development: General Information**

## **General Information**

The Annette Caldwell Simmons School of Education and Human Development comprises research institutes, undergraduate and graduate programs, and community enrichment and service centers that focus on areas of professional education, school leadership, dispute resolution, counseling, applied physiology and health management, sport management, sport performance leadership, personal responsibility and wellness, and graduate liberal studies. The mission of the school is to integrate the theory, research and practice of education and human development; to promote academic rigor and interdisciplinary study; to prepare students for initial certification and professional practice; and to nurture collaboration across the academic community.

Undergraduate programs include a major and three minors in applied physiology and sport management and a major and a minor in educational studies. The school offers three doctoral degrees, nine master's degrees and a number of graduate professional-preparation programs. Its academic departments include Teaching and Learning, Applied Physiology and Wellness, Education Policy and Leadership, Dispute Resolution and Counseling, and Graduate Liberal Studies.

The school is housed in Annette C. Simmons Hall and Harold C. Simmons Hall, which are two of several LEED-certified buildings on campus. Key features include the Locomotor Performance Laboratory; an integrated physiology laboratory; an applied physiology laboratory equipped with a data acquisition system, an environmental research chamber, and teaching pods; a cerebrovascular research lab; a curriculum design lab; and a teaching assessment center.

In an annual awards ceremony, the Simmons School recognizes those students, faculty and staff members who are regarded as leaders among their peers. Awards are given to students who have excelled academically, demonstrated uncommon leadership or engaged in community service in unique and meaningful ways. The faculty and staff members who have distinguished themselves through their research activities, teaching or professional accomplishments are honored. Additionally, a select number of University alumni who have made significant contributions of their time and resources to the school during the year are recognized.

The Department of Teaching and Learning represents SMU's commitment to the professional development of educators through innovative, research-based under-graduate and graduate programs. The department's teaching and research practices are grounded in multiple perspectives that encompass behaviorist, cognitive, social-constructivist and sociocultural approaches to scholarship. All Teaching and Learning programs prepare educators who are scholars and leaders in professionalism, experts in high-quality differentiated instruction, and able to translate research into practice. The department's undergraduate curriculum prepares students for initial teacher certification. Graduate programs focus on research, literacy and language acquisition, teaching and learning, special education, giftedness, Montessori, bilingual education, ESL, STEM, and mathematics. A variety of enrichment opportunities serve the continuing education needs of practicing educators. The school promotes high-quality research that combines quantitative and qualitative methodologies, generates new hypotheses, and influences pedagogical practices in early childhood (or "EC") through grade 12 schools.

The Department of Applied Physiology and Wellness offers undergraduate and graduate degrees. The undergraduate B.S. in applied physiology and sport management offers three concentrations within the APSM major: applied physiology and health management, sport management, and sport performance leadership. Graduate programs include an M.S. in sport management, an M.S. in health promotion management, and a Ph.D. in education with an emphasis in applied physiology. The department also offers the personal responsibility and wellness courses that are required of all undergraduate students as part of the University Curriculum and a selection of sports and fitness activity courses that are available as electives. The undergraduate and graduate programs have access to the department's four laboratories. The Applied Physiology Laboratory is a teaching laboratory developed with experiential learning in mind and comprises three complete and functional exercise physiology laboratories (teaching pods), a biochemistry lab, in-ground force plates, and a temperature- and humidity-controlled environmental chamber. The Cerebrovascular

Research Laboratory is focused on understanding the relationship between brain flow regulation and functional outcome in health and diseased/injured individuals. The Integrative Physiology Laboratory is dedicated to research that measures cardiovascular, neural and thermoregulatory function in human health and disease. The Locomotor Performance Laboratory specializes in terrestrial locomotion and in relating muscle function to metabolic energy expenditure and performance.

The Department of Education Policy and Leadership focuses on preparing educators for leadership roles in complex educational settings, including colleges and universities. Coursework and systematic applications of knowledge are designed to ensure that the education leaders of tomorrow are able to develop and support effective teachers and other education service providers; to select and implement effective curricula and instructional programs; and to identify, implement and sustain effective organizational practices that ensure high levels of student learning and achievement. In service to this mission, the department offers the following M.Ed. degrees: an M.Ed. in accelerated school leadership, an M.Ed. in educational leadership with a specialization in higher education and an M.Ed. in educational leadership with a specialization in urban school leadership. Two doctoral programs are also offered: an Ed.D. in higher education and an Ed.D. in pre-K through grade 12 educational leadership. The department is also dedicated to the preparation and continued education of education policy leaders; to the promotion of research, development and analysis; and to the translation of research into policy and practice at the local, state, national and international levels.

The Department of Dispute Resolution and Counseling offers an M.S. in counseling, an M.A. in dispute resolution and a graduate certificate in dispute resolution, all of which draw on social and behavioral science theories to teach the communication skills necessary for the resolution of personal and interpersonal conflicts. Additionally, the department operates four community resource centers: the SMU Mediation Center, the Center for Family Counseling, the Resource Center and the Frisco ISD Center.

The Department of Graduate Liberal Studies offers the Doctor of Liberal Studies, the Master of Liberal Studies and Certificate of Advanced Graduate Study, all of which broaden students' perspectives, insights and understandings of the world. At the heart of the two graduate liberal studies degrees is the belief that people can continue to grow intellectually, personally and professionally throughout their lives with the opportunity to make greater contributions to society.

## **Policies and Procedures**

Except where noted, policies and procedures are the same for all of the graduate programs within the Simmons School.

## **Admission Requirements**

Admission requirements differ among programs within the Simmons School. Students should refer to the individual program sections in this catalog for information regarding each program's respective admission procedures.

## **Transfer Policy**

Ordinarily, students will not be allowed to transfer more than six credit hours from other SMU schools or from other institutions. Only courses with grades of *A* or *B* may be transferred, and all are subject to the approval of the academic department. An official record of such work must be on file in the student's department office by the end of the first term of study. All transferred work must be completed within six years prior to entering a graduate program. Any exceptions to these requirements and policies must have the approval of the dean of the Simmons School of Education and Human Development.

## **Degree Requirements**

Degree requirements differ among the Simmons School's graduate degree programs. Students should refer to the individual program sections for specific requirements.

# Institutes, Centers and Research

## Center on Research and Evaluation

[www.smu.edu/CORE](http://www.smu.edu/CORE)

Akihito Kamata, **Executive Director**

CORE's mission is to improve the well-being of children, adults and families through knowledge creation and dissemination and through evaluations of programs designed to enhance positive outcomes for individuals and communities. This interaction between knowledge creation and the work of organizations and individuals is essential for these organizations to improve lives and communities. CORE adheres to principles of science to understand how best to improve education and human development and believes the evidence exists to substantially increase the number of individuals who are equipped to make a positive contribution to society. The center supports Simmons' faculty in its research efforts and conducts third-party evaluations for clients such as nonprofits and schools, as well as internal SMU entities. CORE provides undergraduate and graduate students with real-world opportunities to participate in research and evaluation.

## Research in Mathematics Education

[www.smu.edu/RME](http://www.smu.edu/RME)

Leanne Ketterlin Geller, **Director**

RME conducts and disseminates high quality, evidence-based research to improve students' mathematics performance in Texas. Formed in 2011 under the direction of Dr. Leanne Ketterlin Geller, RME is committed to engaging in research and outreach that will make a significant and lasting difference at the student, classroom, school, district, state and national levels. RME's mission is to cultivate positive change by educating and empowering teachers and administrators through the provision of evidence-based practices and systems to support mathematics achievement through academic growth and development of all students. Key focal areas include

- Creating systems of formative assessment to inform teacher decision-making.
- Designing evidence-based interventions for students struggling in mathematics.
- Designing and delivering professional development to support teachers' and administrators' implementation of best practices.
- Offering a dynamic community where researchers and educators can collaborate and share ideas and resources.

RME's externally funded research and development budget has grown beyond \$5 million. Efforts by RME researchers have directly impacted thousands of students across Texas and the nation. Through participation in research activities and conferences, engagement with professional development courses, dissemination of materials through the RME website, and collaborations with other organizations and publications, RME has impacted more than 25,000 educators since 2011.

RME's director actively collaborates with the Bush Institute's Middle School Matters Initiative and the Meadows Center for Preventing Educational Risk at the University of Texas in Austin, and she was named director of K-12 STEM initiatives for SMU's Caruth Institute for Engineering Education in 2014.

RME faculty members teach in the Simmons School's Department of Education Policy and Leadership as well as the Department of Teaching and Learning. Additionally, faculty members disseminate their research findings locally, nationally and globally.

## **The Budd Center: Involving Communities in Education**

[www.smu.edu/CCE](http://www.smu.edu/CCE)

Regina Nippert, **Executive Director**

The mission of The Budd Center is to equip schools and nonprofits with tools and information so they can work together to meet the extraordinary social, emotional and educational needs of children living in poverty. The Budd Center uses the following strategies to accomplish its mission:

- Develops processes to drive collaboration between school systems, nonprofits and SMU.
- Trains teachers and nonprofits to use individualized student information to create curricula and targeted intervention plans.
- Connects SMU faculty and students to meaningful teaching and learning experiences.

## **Center for Family Counseling**

[www.smu.edu/FamilyCounseling](http://www.smu.edu/FamilyCounseling)

The Center for Family Counseling offers a variety of counseling services to members of the community, including adults, adolescents, children, groups, couples, and families struggling with personal, social or career-related issues, while providing SMU graduate counseling students with meaningful training experience via supervised therapeutic interactions.

## **SMU Mediation and Conflict Resolution Services**

[www.smu.edu/ADRservices](http://www.smu.edu/ADRservices)

Mediation, arbitration, facilitation and conflict coaching services are available to parties involved in civil, family and community disputes. Alumni, current students of the Dispute Resolution Program who have completed at least 200 training hours, and other conflict resolution professionals serve as volunteer mediators and arbitrators.

## **The Writer's Path**

[www.smu.edu/CreativeWriting](http://www.smu.edu/CreativeWriting)

The Writer's Path is a creative writing program that guides individuals in the process of writing for fiction or nonfiction publication. Progressive noncredit courses take students from the development of writing ideas, through the preparation of a draft, to the revisions and then the polish. Qualified students are eligible to participate in a trip to New York where they meet professionals in the publishing industry.

## **Institute for Leadership Impact**

Eric Bing, **Executive Director**

A growing demand for skilled leaders that create social impact and empower organizations and communities to grow, learn and prosper spurred the development of the Institute for Leadership Impact. The Institute provides educational opportunities that equip emerging and established leaders with the essential skills needed to be more effective in leading organizations and solving real-world problems. Institute offerings focus on training leaders in school districts, independent schools, hospitals, clinics and health-related organizations.

# Simmons School of Education and Human Development: Academic Programs

## Applied Physiology and Wellness

[www.smu.edu/apsm](http://www.smu.edu/apsm)

**Professor** Lynn Romejko Jacobs, **Department Chair**

**Professors:** Eric Bing, Lynn Romejko Jacobs, Peter Weyand

**Associate Professor:** Scott L. Davis

**Assistant Professor:** Sushmita Purkayastha

**Clinical Associate Professors:** Megan Murphy, David Bertrand

**Clinical Assistant Professor:** Sarah Brown, Peter Carton, Daniel Yost

**Senior Lecturers:** Caitlin Anderson, Brian Fennig, Donna Gober

**Lecturers:** Piotr Chelstowski, Laura Robinson-Doyle, Kelyn Rola, Mark Rudich, Bradley Warren

## Department Information

The Department of Applied Physiology and Wellness offers both undergraduate and graduate programs. Its undergraduate programs include a major and four minors in applied physiology and sport management. Its graduate programs include a Master of Science in Health Promotion Management, a Master of Science in Sport Management, and a Ph.D. in education with an emphasis in applied physiology. The department also offers personal responsibility and wellness (PRW) courses, two of which are required of all undergraduate students as part of the University Curriculum, and a large selection of sports and fitness activity courses available as electives. The undergraduate and graduate programs have access to the department's laboratories, which include an integrated physiology laboratory, an applied physiology laboratory equipped with a data acquisition system, an environmental research chamber with teaching pods, and a cerebrovascular research lab. The Locomotor Performance Laboratory specializes in terrestrial locomotion and in relating muscle function to metabolic energy expenditure and performance.

**Doctor of Philosophy in Education.** The Ph.D. in education is a schoolwide degree. Currently three areas of emphasis are available within this degree: teaching and learning, education policy and leadership, and applied physiology. For more information on this degree, students should see the description of the Ph.D. program at [www.smu.edu/EducationPhD](http://www.smu.edu/EducationPhD) or in this catalog.

## Health Promotion Management, M.S.H.P.M.

SMU's Master of Science in Health Promotion Management (M.S.H.P.M.) degree provides a multidisciplinary, evidence-based program for those seeking leadership positions within the field of Health Promotion. The M.S.H.P.M. program is offered jointly by the Simmons School of Education and Human Development and the Cox School of Business and provides a highly-focused theoretical and pragmatic education in understanding the health management industry, including population health, behavior theory and program development along with the business and technological acumen required of these professionals.

The program is led by Simmons School academic leaders in health and behavior theory, corporate wellness professionals with extensive experience in the health management industry, and distinguished faculty from the Cox School. It is a 2-year, 38-credit-hour program with evening classes located in the heart of Dallas, a city with outstanding and burgeoning health management marketplace opportunities.

The capstone course is a 150-hour internship at a health management department or company, chosen by the student based on his/her aspiring area of interest. Prospective students include graduates of business, exercise physiology, kinesiology, community health and wellness, and biology programs as well as professionals working in the health management or business industries seeking to enhance their skill sets.

## Curriculum and Term Sequencing

Due to the hybrid nature of the M.S.H.P.M. program, courses are offered in two formats. Courses taken within the Simmons school are traditional 3-credit-hour courses offered once per week for the 16-week term. Courses taken within the Cox School follow an abbreviated academic term, 2-credit-hour courses offered once per week for eight weeks. Module A courses are offered in the first 8 weeks of a term, and Module B courses are offered in the second 8 weeks of a term. Most semesters include both course-offering formats.

Students are admitted to the program during the fall term only. Students complete a combination of Simmons and Cox courses each semester. The course sequence requires that students enroll in 9-10 credit hours per semester. A student must be enrolled in a minimum of 9 credit hours to have full-time academic status.

**Note:** Course sequencing for fall and spring modules is subject to change.

## Admission Requirements

The admissions process is highly selective and follows the admissions standards of the Cox M.B.A. program. The admissions committee is seeking a diverse group of candidates with significant professional and life experiences; strong academic capabilities and leadership potential; interpersonal and communication skills; and personal qualities such as maturity, integrity, self-confidence, and motivation. Preferred candidates typically have full-time work experience, a strong undergraduate record, and competitive scores on the GRE and/or GMAT graduate school admissions tests.

Application deadlines are in the spring, and students are admitted to the program during the fall term only. Applicants are required to submit a completed application form ([www.smu.edu/MSHPM](http://www.smu.edu/MSHPM)), a cover letter and résumé, an essay, an official GRE or GMAT score report, transcripts from all colleges and universities attended, and a minimum of two letters of recommendation.

[www.smu.edu/MSHPM](http://www.smu.edu/MSHPM)  
214-768-2776

## Requirements for the Degree

### Year 1 - Fall Term

- HPM 6301 - Health Promotion in the Workplace
- HPM 6302 - Epidemiology and Current Issues in Health
- ACCT 6201 - Financial Accounting I (Module A, Cox School)
- MNO 6201 - Organizational Behavior: Managing and Leading People (Module B, Cox School)

### Year 1 - Spring Term

- HPM 6303 - Behavior Theory in Health Promotion
- HPM 6321 - Health Promotion Programming and Evaluation I
- MNO 6212 - Introduction to Consulting (Module A, Cox School)
- FINA 6201 - Managerial Finance (Module B, Cox School)

### Year 2 - Fall Term

- HPM 6310 - Research Methods and Biostatistics
- HPM 6322 - Health Promotion Programming and Evaluation II
- HPM 6331 - Communication in Business and Health

## Year 2 - Spring Term

- HPM 6332 - The U.S. Healthcare System
- HPM 6430 - Internship
- MNO 6218 - Leadership in a Complex World (Module A, Cox School)

Total: 38 Credit Hours

## Sport Management, M.S.S.M.

SMU's M.S.S.M. degree is designed for individuals who have a passion for the business of sport and aspire to hold senior management positions in the billion-dollar sports industry. Developed collaboratively by the Cox School of Business and the Simmons School of Education and Human Development, the full-time, one-year program is led and taught by professionals with extensive experience in a variety of sport segments, including professional leagues and teams, media and broadcasting, marketing and sponsorship, facilities, and sports equipment and apparel. The primary student audience includes business graduates, graduates of sport management programs and professionals working in the world of sport who seek to increase their skills.

The program's unique features address the needs of working professionals.

- Students enter as part of a cohort in the fall term of an academic year.
- All classes are taught in the evening and on Saturdays.
- Students are trained in evidence-based practices associated with sport management.
- The curriculum includes 17 sequenced courses and one internship that are taught in four eight-week modules over a 12-month period that begins in the fall and concludes with a summer-long internship.
  - Eight of the courses are part of the top-ranking Cox School of Business' M.B.A. curriculum.
  - Nine of the courses are taught through the Simmons School of Education and Human Development.
  - The 200-hour summer internship serves as a capstone to the program.

## Curriculum and Term Sequencing

Because the M.S.S.M. program has an abbreviated academic term (eight weeks rather than the traditional 16 weeks) and because nearly half of the program's classes are offered through the Cox School of Business, the credit hour load requirements for the M.S.S.M. program are different from those of other Simmons School programs.

The M.S.S.M. program has two eight-week modules in each of the fall and spring terms, and two credit hours are earned by 24 classroom contact hours in each eight-week module. Each classroom contact hour generally requires a minimum of two to three hours of advance preparation time on the part of the student. The M.S.S.M. course sequence requires that students enroll in 16 credit hours in the fall term (comprising two modules) and 17 credit hours in the spring term (two modules); a student must be enrolled in at least 10 credit hours in a spring or fall term to have full-time academic status. M.S.S.M. students are allowed to transfer up to four credit hours (equivalent to two M.S.S.M. courses) from other institutions. The following provisions apply: (1) the institution must be accredited by AACSB International, (2) course grades must be B- or better, (3) the course(s) must have been completed within the three years prior to matriculation to Simmons, and (4) the course(s) were not credited toward a previous degree.

A maximum of 44 credits may be applied toward the academic requirements of the degree. Additional courses are limited to two Cox electives and one Simmons elective.

**Note:** Course sequencing for fall and spring modules is subject to change.

## Admission Requirements

Students are admitted to the M.S.S.M. program during the fall term only. The highly selective process follows the admission standards of the Cox School of Business M.B.A. program. The M.S.S.M. admissions committee seeks a diverse group of candidates demonstrating the following attributes:

- Significant professional and life experiences.
- Strong academic capabilities, leadership potential, and interpersonal and communication skills.
- Personal qualities such as maturity, integrity, self-confidence and motivation.
- A strong commitment to learning and achievement.

Preferred applicants typically have full-time work experience, a strong undergraduate record, and competitive scores on the GMAT or GRE graduate school admission tests. Applicants are required to submit the following items for admission consideration:

1. A completed application form ([www.smu.edu/MSSportManagement](http://www.smu.edu/MSSportManagement)) and fee.
2. A cover letter and résumé.
3. An essay.
4. An official GMAT or GRE score report.
5. Transcripts from all colleges and universities attended.
6. A maximum of two letters of recommendation (optional).

Although the Simmons School and the Cox School are not obligated to accept any transfer credit, in certain cases coursework may be transferred when entering the program, thereby reducing the number of credit hours that must be taken at SMU for the M.S.S.M. degree. Transferable hours and up to two equivalent courses (one sport management and one business) can be considered. For complete details, students should contact the M.S.S.M. office.

## Spring Module B

- FINA 6201 - Managerial Finance
- SPRT 6222 - Case Studies in Sports Law
- SPRT 6226 - Research Design in Sport Management
- SPRT 6228 - Ethics in Sport

Total: 8 Credit Hours

## Summer

For students beginning the MS in Sport Management program before summer 2020, SPRT 6430 - Master of Science in Sport Management Internship (200 contact hours) is required. For students beginning the MS in Sport Management program in summer 2020, SPRT 6435 - Master of Science in Sport Management Internship is required.

Total: 4 Credit Hours\*

\* For students beginning the program in the summer of 2020, the total credit hours will be 4.5.

Total: 37 Credit Hours\*\*

\*\*For students beginning the program in the Summer of 2020, the total credit hours will be 37.5

## Applied Physiology and Sport Management Courses

### **APSM 7103 - Doctoral Research Seminar**

*Credits: 1*

Students acquire feedback and input to improve their original research. Students acquire experience presenting, explaining, and defending research findings. Students gain exposure to research projects in progress within and beyond their own areas. Prerequisite: Enrollment in the PhD program.

### **APSM 7104 - Research Hours and Dissertation Hours**

*Credits: 1*

Original research hours.

### **APSM 7204 - Research Hours and Dissertation Hours**

*Credits: 2*

Original research hours.

### **APSM 7301 - Biomechanics Research Tutorial**

*Credits: 3*

This doctoral level, seminar-style course introduces the practice of research in biomechanics, beginning with the scientific method as practiced in modern experimental biology and basic knowledge in musculoskeletal biology. Most

individual classes involve students reading and critiquing original papers in the field of biomechanics to understand 1) how knowledge is acquired through experimentation and 2) how the body of working knowledge in biomechanics has been brought about by the practice of the scientific method. An emphasis is placed on the integration of knowledge across levels of biological organization and the wide array of experimental techniques that has contributed to knowledge in the field.

### **APSM 7302 - Physiology Research Tutorial**

*Credits: 3*

This doctoral-level, seminar-style course introduces the practice of research in physiology, beginning with hypothesis testing as practiced in modern experimental physiology and basic knowledge in systems physiology of the cardiorespiratory, nervous, and musculoskeletal systems. Most individual classes involve students reading and critiquing original papers in the field of physiology to understand 1) how knowledge is acquired through experimentation and 2) how the body of working knowledge in physiology has been brought about by the practice of the scientific method. An emphasis is placed on the integration of knowledge across levels of physiological organization and the wide array of experimental techniques that has contributed to knowledge in the field.

### **APSM 7304 - Research Hours and Dissertation Hours**

*Credits: 3*

Original research hours.

### **APSM 7404 - Research Hours and Dissertation Hours**

*Credits: 4*

Original research hours.

### **APSM 7504 - Research Hours and Dissertation Hours**

*Credits: 5*

Original research hours.

### **APSM 7604 - Research Hours and Dissertation Hours**

*Credits: 6*

Original research hours.

### **APSM 7704 - Research Hours and Dissertation Hours**

*Credits: 7*

Original research hours.

### **APSM 7804 - Research Hours and Dissertation Hours**

*Credits: 8*

Original research hours.

### **APSM 7904 - Research Hours and Dissertation Hours**

*Credits: 9*

Original research hours.

## **Health Promotion Management Courses**

### **HPM 6301 - Health Promotion in the Workplace**

*Credits: 3*

An introduction to corporate and community health promotion through an examination of the impact of wellbeing and health management on organizational culture. Explores the larger scale implications of successful workplace programs

and provides an understanding of how evidence-based programs can positively impact business and reduce healthcare costs.

### **HPM 6302 - Epidemiology and Current Issues in Health**

*Credits: 3*

Examines the patterns, causes, and effects of health and disease in defined populations. Course topics include evidence-based practice for identifying risk factors for disease and targets for preventative healthcare.

### **HPM 6303 - Behavior Theory in Health Promotion**

*Credits: 3*

A comprehensive study of health behavior theories that are the foundation of health promotion programs. Introduces the practical application of theory and approaches to health promotion research and practice that are essential to understanding the relationship between human behavior and health.

### **HPM 6310 - Research Methods and Biostatistics**

*Credits: 3*

Provides an understanding of basic research methods, quantitative research design, and statistical analysis used in health promotion program design. Focuses on the development of the scientific method, data analysis and interpretation, and graphic representation of data.

### **HPM 6321 - Health Promotion Programming and Evaluation I**

*Credits: 3*

Teaches the skills required to plan, design and implement health management programs in a corporate environment. Course topics include needs assessment, goal and objective formulation, instructional methods and materials, program implementation, and evaluation. Introduces current technological methods used to assess and implement health promotion programs. Provides the skills necessary to establish program models based on the culture and needs of the environment. Prerequisite: HPM 6301.

### **HPM 6322 - Health Promotion Programming and Evaluation II**

*Credits: 3*

Provides the tools and skills needed to effectively assess and evaluate programs and interventions that assist individuals and groups in maintaining and improving their health. Topics include engagement metrics, satisfaction metrics, health behavior change, biometric health and clinical impacts, population-level health risk reduction, productivity impacts, health care cost impacts, and return on investment. Prerequisites: HPM 6301, HPM 6321.

### **HPM 6331 - Communication in Business and Health**

*Credits: 3*

Explores the importance of a people-centered and participatory approach to health communication interventions. Introduces students to corporate language and effective communication techniques. Examines key social determinants of health such as: health equity, new media and technology platforms, strategic partnerships, policy communication and public advocacy, cultural competence, and health literacy.

### **HPM 6332 - The U.S. Healthcare System**

*Credits: 3*

Examines the structure, financing, and operation of the American healthcare system, specifically covering the impact of health management programs on the cost of providing healthcare to employees in small, medium, and large companies.

### **HPM 6430 - Internship**

*Credits: 4*

Students apply what they've learned through an internship experience at an agency or institution involved in the planning and/or evaluation of a health promotion program.

## **Sport Management Courses**

### **SPRT 6049 - Graduate Full-Time Status**

*Credits: 0*

Allows graduate students full-time status without credit.

### **SPRT 6220 - Sport Organizational Design**

*Credits: 2*

Covers sport organizational design alternatives and their relationships to corporate objectives, with a focus on theoretical models of organization and their efficacy in meeting the needs of modern sport organizations. Examines contemporary issues and their impact on organizations.

### **SPRT 6221 - Sports Law**

*Credits: 2*

Enables students to expand their knowledge of some of the laws, rules, and regulations that apply to the sport industry and affect the work-setting of sport organizations. Covers sports law issues in professional and amateur sports, including tort and contract law, Title IX, drug testing, NCAA compliance, and the role of amateurism and agents.

### **SPRT 6222 - Case Studies in Sports Law**

*Credits: 2*

Addresses the often unique manner in which substantive law applies to the business of sports, with a focus on case law such as antitrust law, constitutional law, contract law, intellectual property law, Title IX, and tort law.

### **SPRT 6223 - Sports Sponsorship**

*Credits: 2*

Students gain an understanding of sports sponsorship, sponsor prospecting, sponsor needs, and the financial implications of sponsorship decisions. Includes an overview of various sports marketing strategies used in meeting the needs of consumers and the ways sport is used in the marketing of sport-related products.

### **SPRT 6224 - Case Studies in Sports Sponsorship**

*Credits: 2*

Covers the process and rationale of corporate sponsorship, sponsor needs, and the financial implications of sponsorship decisions. Evaluates the use of various sponsorship techniques that allow corporations to most effectively utilize sponsorship as part of their integrated marketing and communications strategy.

### **SPRT 6225 - Advanced Sport Communication**

*Credits: 2*

Recognition and insightful resolution of ethical dilemmas confronting modern sport organizations. Students apply public relations and sport communication theory in a community-based project where they serve as public relations consultants.

### **SPRT 6226 - Research Design in Sport Management**

*Credits: 2*

Concepts and skills needed to effectively read and apply research in sport management to real-world problems.

### **SPRT 6227 - Sports Facility Management**

*Credits: 2*

Concepts of sports facility planning, organizational development, and operations management. Provides an advanced overview and dissemination of the sport facility management industry. Topics include strategic planning, budgeting, staff management, marketing, revenue development, and operations.

**SPRT 6228 - Ethics in Sport**

*Credits: 2*

Recognition and insightful resolution of ethical dilemmas confronting modern sport organizations.

**SPRT 6430 - Master of Science in Sport Management Internship**

*Credits: 4*

This 200-hour internship provides an experiential learning opportunity in the sports industry and the ability to apply concepts learned in the classroom to real-world settings.

**SPRT 6435 - Master of Science in Sport Management Internship**

*Credits: 4.5*

Provides experiential learning for students in the sports industry.

# Dispute Resolution and Counseling

**Clinical Assistant Professor** Greta Davis, *Interim Department Chair*

**Clinical Professors:** Thomas Hartsell

**Clinical Associate Professors:** Betty Snyder, Margaret Jacome, Colleen Logan, Cynthia Matthews, John Potter, Edita Ruzgyte, Brandy Schumann, Misty Solt

**Clinical Assistant Professors:** Greta Davis, Mario De La Garza, Terra Wagner

**Visiting Clinical Assistant Professors:** Gary Clayton, Suzanne Maxwell

## Department Information

The Department of Dispute Resolution and Counseling comprises programs that share a focus on the resolution of problems, from personal conflicts that could benefit from the guidance of professional counselors to interpersonal conflicts that require the intervention of professional mediators. These programs – which include a Master of Arts in Dispute Resolution, a graduate certificate in dispute resolution, a graduate certificate in healthcare collaboration and conflict engagement, and a Master of Science in Counseling – offer the education and tools that allow practitioners to resolve problems.

## Contact Information

### **Dispute Resolution, Master's Degree and Graduate Certificates Program Office**

Harold Clark Simmons Hall, Suite 201  
6401 Airline Rd.  
Box 750509  
Dallas, TX 75275-0509  
214-768-4500  
[www.smu.edu/resolution](http://www.smu.edu/resolution)

### **Counseling, Master's Degree Program Office**

6116 N. Central Expy., Suite 300  
Dallas, TX 75206  
[www.smu.edu/mastercounseling](http://www.smu.edu/mastercounseling)

## Study Abroad

During the summer term, students may earn credit toward the certificate or master's program by completing coursework at off-site venues such as Italy, Dublin, Geneva and Croatia. In addition, counseling students may complete one-week intensive courses on a Disney Cruise, in Australia or at the University's campus in Taos, New Mexico.

## Client Services: SMU Mediation and Conflict Resolution Services

[www.smu.edu/ADRservices](http://www.smu.edu/ADRservices)

Mediation and arbitration services are available to parties involved in a dispute. Dispute Resolution Program alumni, faculty, current students with at least 200 hours of training, as well as alternative dispute resolution professionals within the community serve as volunteer mediators.

Parties may use SMU conflict resolution services whether or not a lawsuit is filed, either by contacting SMU directly or in compliance with an order from the court. Mediation is a process that helps disputants resolve a problem and reach a solution that is mutually agreeable. Those in dispute remain in control of the outcome by crafting an agreement with the help of a mediator. In arbitration, the disputants control the process by presenting their case informally under rules of procedure they determine, but the arbitrator determines the outcome. Both mediation and arbitration are confidential.

### **SMU Mediation and Conflict Resolution Services**

6116 N. Central Expy., Suite 410  
Dallas, TX 75206  
[www.smu.edu/adrservices](http://www.smu.edu/adrservices)

## **Client Services: Center for Family Counseling**

[www.smu.edu/FamilyCounseling](http://www.smu.edu/FamilyCounseling)

The Center for Family Counseling offers a variety of counseling services to individuals (e.g., geriatric/adult, adolescents and children); groups; couples; and families struggling with personal, social or career-related issues, while providing SMU graduate counseling students with meaningful training experiences via supervised therapeutic interactions. Some of the general issues that counseling can address include (but are not limited to) grief and loss, depression, anxiety, attention deficit disorder/attention deficit hyperactivity disorder, self-concept, relationships, stress, trauma, parent education and career exploration. The clinic offers counseling services that are tailored to the developmental needs of clients, such as play therapy for children ages 2–8 and activity therapy for children ages 9–12. The clinic also has a satellite branch housed in the Resource Center that offers both personal and group counseling, specializing in the lesbian, bisexual, gay and transgender community. A second satellite branch housed within the nearby Frisco Independent School District offers counseling services to students in the school system and to their parents.

## **Counseling, M.S.CNS**

Maggie Jacome, **Director**

The Master of Science in Counseling program prepares students for the counseling profession, which involves the application of the developmental and social sciences in assisting children and adults with psychological growth and social adjustment problems. Counselors work in schools, community agencies, churches, hospitals, industry and private practice.

Students acquire knowledge in the disciplines that underlie counseling, including education, psychology, human development, sociology, learning and social change. They develop clinical skills in therapy and assessment and become familiar with the legal, ethical and clinical considerations confronting practitioners. Repeated practice and role-playing with feedback and strategic modification are critical to mastery of the skills and are, consequently, an essential part of the program.

The Counseling program offers three specialty areas of study including Clinical Mental Health; Marriage, Couple and Family; and School Counseling. In addition, students may pursue elective concentrations in Addiction, Child and Adolescent, Expressive Arts Therapies, and LGBT Affirmative Therapy.

Successful graduates are able to pursue state licensure as Licensed Professional Counselors, Licensed Marriage and Family Therapists, and/or Licensed Chemical Dependency Counselors, as well as obtaining the Certified School Counselor credential, depending on designated specialization and electives.

## Admission Requirements

Students applying to the master's program must attend a group interview. Program applicants must also submit the following:

1. A baccalaureate degree from an accredited institution of higher education.
2. Official transcripts from all institutions of higher education previously attended.
3. Three letters of recommendation.
4. A 250-word essay explaining why the applicant wants to study counseling.
5. An acceptable GRE graduate school entry exam score for an undergraduate GPA lower than 3.000 (on a 4.000 scale).

**English Proficiency Requirements.** If English is not your native language, you must take the Test of English as a Foreign Language (TOEFL).

## Requirements for the Degree

The Master of Science degree in counseling is a 63 credit hour degree that includes a common core curriculum of 54 credit hours across all three specialties.

## Common Core Curriculum

Applicable to all:

- HDCN 6301 - Counseling Theories: Individual and Systemic Perspectives
- HDCN 6302 - Basic Clinical Methods for Individuals, Couples, and Families
- HDCN 6303 - Group Counseling
- HDCN 6304 - Counseling Diverse Communities
- HDCN 6305 - Advanced Clinical Methods for Individuals, Couples, and Families
- HDCN 6316 - Family Therapy I: Intergenerational Models and Treatment
- HDCN 6318 - Ethics I and Professional Orientation
- HDCN 6319 - Ethics II and Mental Health
- HDCN 6320 - Life Span Human Development: Individual and Family
- HDCN 6321 - Lifestyle and Career Development: Individual and Systemic Perspectives
- HDCN 6330 - Psychopathology: Adult
- HDCN 6331 - Psychopathology: Child and Adolescent
- HDCN 6340 - Assessment of Individuals, Couples, and Families
- HDCN 6349 - Research Design and Statistics
- HDCN 6352 - Psychology of Addictions
- HDCN 6395 - Supervised Clinical Practicum
- HDCN 6398 - Internship I
- HDCN 6399 - Internship II

Total: 54 Credit Hours

## Clinical Mental Health Specialty

This Specialty fulfills the educational requirements for licensure as a Licensed Professional Counselor in the state of Texas. Students must take three elective courses. Elective courses may be taken according to student interest, or may be taken to concentrate in particular areas. Students should be aware that some courses that count as electives may be required in order to work with certain populations in the Center for Family Counseling. Electives for the Clinical Mental Health Specialty should be chosen from the following list:

- HDCN 6311 - Couples Therapy: Theories and Treatment

- HDCN 6314 - Sexual Counseling and Therapy
- HDCN 6317 - Family Therapy II: Contemporary Models and Treatment
- HDCN 6323 - Pre-Adolescent and Adolescent Counseling: Play Therapy
- HDCN 6325 - Child/Adolescent Parent Relationship Development Using Play Therapy Techniques
- HDCN 6326 - Advanced Sexuality/Counseling Therapy
- HDCN 6327 - Family Play Therapy
- HDCN 6328 - Family Violence
- HDCN 6343 - Child Counseling: Play Therapy
- HDCN 6344 - Expressive Arts Therapy: Creative and Therapeutic Processes
- HDCN 6347 - Mindfulness-Based Expressive Art Therapy
- HDCN 6348 - Embodied Expressive Therapies
- HDCN 6351 - Psychopharmacology and Substance Misuse
- HDCN 6353 - Treatment Management
- HDCN 6355 - Affirmative Therapy with Lesbian, Gay, and Bisexual Clients
- HDCN 6356 - Affirmative Therapy with Transgender Clients
- HDCN 6357 - Affirmative Therapy with LGBT Couples and Families
- HDCN 6370 - Crisis Intervention
- HDCN 6372 - Gender Issues
- HDCN 6382 - Psychology of Conflict
- HDCN 6383 - Negotiation and Dispute Resolution
- HDCN 6384 - Mediation and Dispute Resolution

Total: 9 Credit Hours

## Marriage, Couple and Family Specialty

The Marriage, Couple and Family (MCF) Specialty fulfills the educational requirements for licensure as a Licensed Professional Counselor (LPC) as well as Licensed Marriage and Family Therapist (LMFT) licensure in the state of Texas. In addition to the common core curriculum, students following the Marriage, Couple and Family Specialty will also need to complete three of the four following courses for a total of 63 credit hours:

- HDCN 6311 - Couples Therapy: Theories and Treatment
- HDCN 6314 - Sexual Counseling and Therapy
- HDCN 6317 - Family Therapy II: Contemporary Models and Treatment
- HDCN 6326 - Advanced Sexuality/Counseling Therapy

Total: 9 Credit Hours

## School Counseling Specialty

The School Counseling Specialty prepares students to pursue certification as elementary or secondary School Counselors. The School Counseling Specialty also fulfills the educational requirements for licensure as a Licensed Professional Counselor (LPC) in the state of Texas. Students considering this specialty must have teaching experience prior to starting the program. In addition to the common core curriculum, students following the School Counseling Specialty will also need to complete two of the three courses listed below plus one additional class from the list of electives for a total of 63 credit hours:

- HDCN 6308 - Counseling: Elementary School  
or
- HDCN 6309 - Counseling: Secondary School

- HDCN 6342 - Cognitive, Career, and Educational Assessment
- One elective course

Total: 9 Credit Hours

Total: 63 Credit Hours

## Study Abroad

During the summer term, students may earn credit toward the master's degree program by completing Dispute Resolution coursework at off-site venues such as Italy and Croatia. In addition, students may complete one-week intensive courses on a Disney Cruise, in Australia or at the University's campus in Taos, New Mexico.

## Dispute Resolution, M.A.D.R.

Betty Snyder, **Director**

During the spring of 2006, SMU became the first university in the Southwest to offer an interdisciplinary master's degree in dispute resolution. The M.A.D.R. degree emphasizes the development of skills vital to the resolution of disputes in business, domestic, education, public policy, religious, legal and healthcare settings. The program's quality and uniqueness stem, in significant measure, from its multidisciplinary approach to conflict management and its commitment to integrating ethics throughout the curriculum. Rooted in the social and behavioral sciences, the faculty and curriculum integrate such diverse fields as psychology, law, sociology, public policy and economics.

The master's curriculum provides a greater depth of study than the certificate program in dispute resolution, as described below. It also offers additional specialization of skills and a level of professional scholarship that allow graduates to contribute to as well as practice in the profession. Students are able to practice and refine their resolution skill sets through fieldwork in the program's Mediation Clinic (described in the Client Services section below). Corporate internships, offered in some of the Dallas-Fort Worth area's largest companies, also provide opportunity for professional practice.

## Admission Requirements

Applicants to the M.A.D.R. program must submit the following:

1. A baccalaureate degree from an accredited institution of higher education.
2. Official undergraduate transcripts from all institutions of higher education previously attended.
3. Three letters of recommendation.
4. A 250-word essay explaining why the applicant wants to study dispute resolution.
5. A minimum undergraduate GPA of 2.750 (on a 4.000 scale). If the GPA is lower than 2.750, the applicant must submit acceptable GRE graduate school exam, LSAT law school aptitude test or GMAT scores and interview with the center director or associate director.
6. If applying to the master's program after completing the graduate certificate program in dispute resolution, a 3.500 GPA from the certificate program and evidence of compliance *with all other admission requirements*.
7. Resume or curriculum vitae (CV)

## Degree Requirements

The M.A.D.R. program requires the completion of 42 credit hours in human development dispute resolution, 18 of which are required and 24 of which are electives chosen from the entire pool of HDDR courses. Students must complete the requirements for the degree within six years of the program start date.

## Requirements for the Degree

### Required Courses

- HDDR 6302 - Negotiation and Dispute Resolution
- HDDR 6303 - Mediation and Dispute Resolution
  
- HDDR 6305 - Foundations of the American Legal System  
or
- HDDR 6315 - Communication and Dispute Resolution
  
- HDDR 6310 - Research Methods
  
- HDDR 6307 - Practicum I  
or
- HDDR 6322 - Independent Study
  
- HDDR 6319 - Psychology of Conflict

Total: 18 Credit Hours

### Electives by Area:

#### General Application

- HDDR 6304 - Arbitration and Dispute Resolution
- HDDR 6311 - Techniques and Skills in Mediation
- HDDR 6312 - Advanced Negotiation
- HDDR 6313 - Advanced Mediation
- HDDR 6315 - Communication and Dispute Resolution
- HDDR 6316 - Decision Theory
- HDDR 6317 - Online Dispute Resolution
- HDDR 6320 - Selected Topics in Dispute Resolution
- HDDR 6323 - Engaging in Conflict
- HDDR 6324 - Engaging in Conflict: Advanced Studies Using Current Events

#### Legal Concentration

- HDDR 6331 - Domestic Relations
- HDDR 6336 - Selected Dispute Resolution Topics
- HDDR 6341 - Employment Law

#### Organizational Concentration

- HDDR 6344 - Organizational Change Management
- HDDR 6346 - Organizational Consulting Skills
- HDDR 6347 - Systems Design in Dispute Resolution
- HDDR 6348 - Team-Building Theory and Practice
- HDDR 6349 - The Role of the Ombudsman in Organizational Conflict
- HDDR 6351 - Workplace Conflict
- HDDR 6352 - Selected Organizational Topics
- HDDR 6353 - Generational Conflict

- HDDR 6354 - Managing Conflict in Traditional and Social Media
- HDDR 6370 - Assessment and Interviewing
- HDDR 6371 - Transitional and Developmental Coaching
- HDDR 6372 - Performance Coaching

### Social Service Concentration

- HDDR 6361 - Cross-Cultural and Gender Negotiation
- HDDR 6364 - International Conflict Management
- HDDR 6367 - Selected Social Service Topics

### Field and Clinical Experiences

- HDDR 6307 - Practicum I
- HDDR 6322 - Independent Study

Total: 24 Credit Hours

Total: 42 Credit Hours

### Study Abroad

During the summer term, students may earn credit toward the certification or master's program by completing coursework at off-site venues such as Italy, Dublin, Geneva and Croatia.

## Dispute Resolution, Graduate Certificate

Betty Snyder, **Director**

SMU's 21-credit-hour Dispute Resolution Graduate Certificate program offers classroom instruction in the practical application of principles and techniques under the guidance of a master instructor. Through interdisciplinary study, students learn formal conflict management skills in negotiation, mediation, domestic relations and dispute resolution to achieve improved relationships among individuals and organizations.

Students gain theoretical and practical knowledge that is applicable in both social and psychological environments. They learn the art of negotiation, problem-solving, mediation, arbitration, systems design, team building, executive coaching and many other applications of dispute resolution. The program incorporates active role-playing from varied aspects of human relationships in order to engage students in class participation and also provides the skill and training necessary to become adept at the art of conflict resolution.

Completion of HDDR 6303 satisfies the Texas statutory requirement for being a court-connected mediator.

### Admission Requirements

Applicants to the Dispute Resolution Graduate Certificate Program must submit the following:

1. A completed application.
2. A baccalaureate degree from an accredited institution of higher education.
3. Official undergraduate transcripts from all institutions of higher education previously attended.
4. Resume or curriculum vitae (CV)

### Study Abroad

During the summer term, students may earn credit toward the certification or master's program by completing coursework at off-site venues such as Italy, Dublin, Geneva and Croatia.

## Certificate Requirements

The Dispute Resolution Graduate Certificate program requires the completion of 21 credit hours in human development dispute resolution, nine of which are required and 12 of which are electives chosen from the entire pool of HDDR courses. Students must complete the requirements for the program within three years of the program start date.

### Requirements for the Certificate

#### Required Courses

- HDDR 6302 - Negotiation and Dispute Resolution
- HDDR 6303 - Mediation and Dispute Resolution
- HDDR 6319 - Psychology of Conflict

Total: 9 Credit Hours

#### Electives

- offer focused study in subspecialties of dispute resolution and include descriptive readings, observations, simulated exercises and discussion

Total: 12 Credit Hours

Total: 21 Credit Hours

## Healthcare Collaboration and Conflict Engagement, Graduate Certificate

SMU's Graduate Certificate in Healthcare Collaboration and Conflict Engagement is a three-course, nine-credit-hour cohort program designed for physicians, nurses, administrative professionals, human resource professionals or those who see healthcare leadership roles in their future. The program allows students to challenge their thinking in a constructive environment surrounded by peers and colleagues and under the guidance of dispute resolution instructors with healthcare backgrounds. While there are a number of ways to consider healthcare leadership in this climate of change, our program focuses upon evidence-based social science, engagement and collaborative skills, fundamentals of neuroscience, emotional and social intelligence, as well as an understanding of the fundamental concepts of conflict and how it escalates and de-escalates.

Students gain theoretical and practical knowledge that is specific to the conflict and upheaval found in the healthcare setting. The program incorporates active role-playing in order to engage students in class participation and teaches the skills necessary to resolve conflicts in healthcare settings.

### Admission Requirements

Applicants to the Healthcare Collaboration and Conflict Engagement Graduate Certificate Program must submit the following:

1. A completed application.
2. A baccalaureate degree from an accredited institution of higher education.
3. Official undergraduate transcripts from all institutions of higher education previously attended.
4. Resume or curriculum vitae (CV)

### Requirements for the Certificate

#### Core Courses

- HDDR 6380 - Introduction to Conflict in Health Care Settings

- HDDR 6381 - Engaging in Conflict in the Health Care Workplace
- HDDR 6382 - The New Role of the Health Care Leader: Managing Change, Culture, and Conflict

Total: 9 Credit Hours

## Counseling Courses

### **HDCN 6049 - Graduate Full-Time Status**

*Credits: 0*

Allows full-time status for graduate students without credit.

### **HDCN 6301 - Counseling Theories: Individual and Systemic Perspectives**

*Credits: 3*

An advanced study of the major theories in the field of counseling and an exploration of the historical perspectives and philosophies upon which they are based.

### **HDCN 6302 - Basic Clinical Methods for Individuals, Couples, and Families**

*Credits: 3*

Examines the major methods and techniques used in counseling, with a focus on applicability to different client needs in a variety of settings. Assesses the relationship between specific theories and their counseling applications.

### **HDCN 6303 - Group Counseling**

*Credits: 3*

Explores various group modalities, including group guidance, task-groups, group counseling, and group psychotherapy. Various theoretical approaches to group counseling are reviewed. Emphasis is on how to effectively start, lead, terminate, and evaluate a therapy group process. Students develop an understanding of the skills requisite to group membership and leadership. Students examine their approach to group counseling, exploring the dynamics of relationships unique to a group setting. As a result, group skill development opportunities, observation experiences, and mandatory laboratory group experience occur each week. Examines a variety of different groups, including children, adolescents, adults, and the elderly, in diverse settings. Evaluation is based on several factors including strengths and deficits in intrapersonal and interpersonal group counseling skills as demonstrated via role-plays, class exercises, examination, and/or written assignments. Prerequisite: HDCN 6302.

### **HDCN 6304 - Counseling Diverse Communities**

*Credits: 3*

Students become familiar with culturally competent, socially just counseling practices through an examination of contexts including culture, class, race/ethnicity, gender, sexual orientation, religion, ability, and differing life styles.

### **HDCN 6305 - Advanced Clinical Methods for Individuals, Couples, and Families**

*Credits: 3*

Focuses on polishing the skills learned in HDCN 6302 and on amplifying the techniques applicable to different client needs in a variety of settings. Prerequisite: HDCN 6302.

### **HDCN 6308 - Counseling: Elementary School**

*Credits: 3*

Focuses on planning, organizing, implementing, and evaluating an elementary developmental guidance program in accordance with the Texas model, applicable state law, and the American School Counselor Association model. Required for the elementary school counseling track.

### **HDCN 6309 - Counseling: Secondary School**

*Credits: 3*

Focuses on planning, organizing, implementing, and evaluating the secondary developmental guidance program in accordance with the Texas model, applicable state law, and the American School Counselor Association model.

Required for the secondary school counseling track.

### **HDCN 6311 - Couples Therapy: Theories and Treatment**

*Credits: 3*

Addresses the principles and techniques of effective therapy with couples, primarily utilizing the approach of John Gottman. Explores various other models, with a focus on applicability to different client needs in a variety of settings.

### **HDCN 6314 - Sexual Counseling and Therapy**

*Credits: 3*

A study of sexual issues, positive sexual functioning, sexual problems, and sexual disorders that confront the counselor or therapist, with a focus on sexual experiences as a part of life experiences. Also, the development of the skills and tools necessary to strengthen within a therapeutic setting a client's positive relational and sexual functioning.

### **HDCN 6316 - Family Therapy I: Intergenerational Models and Treatment**

*Credits: 3*

Provides a theoretical and clinical foundation that employs systemic, relational, and contextual perspectives for counseling individuals, couples, families, and other groups. Examines foundational models of family therapy (FT), the history and development of family therapy models, and the application of these models to clinical situations. Emphasizes traditional FT models that focus on family of origin functioning and intergenerational dynamics. Promotes recognition of the family as an emotional unit, understanding of the individual client within the context of his or her family of origin, and strategies for applying this knowledge in a clinical setting.

### **HDCN 6317 - Family Therapy II: Contemporary Models and Treatment**

*Credits: 3*

Offers continued theoretical and clinical foundations for counseling with individuals, couples, families, and other groups from the perspective of contemporary systemic models. Examines models influenced by social constructionist and postmodern philosophies, the history and development of contemporary models, and the application of all of these models to clinical situations. Prerequisite: HDCN 6316.

### **HDCN 6318 - Ethics I and Professional Orientation**

*Credits: 3*

Presents fundamental ethical principles and their application to legal and related professional issues in the field of counseling. Reviews ethical rules, standards of conduct, and the law. Examines ethical canons and guidelines promulgated by the American Counseling Association, American Association for Marriage and Family Therapy, American School Counselor Association, Texas Ethics Commission, Texas State Board of Examiners of Professional Counselors, Texas State Board of Examiners of Marriage and Family Therapists, Texas State Chemical Dependency Counselors Program, and Texas State Board of Education.

### **HDCN 6319 - Ethics II and Mental Health**

*Credits: 3*

Prepares students for Texas state licensure or certification and practice consistent with federal and Texas rules and laws. Designed to meet the content requirements for the second ethics class required for licensure by the Texas State Board of Examiners of Professional Counselors. Prerequisite: HDCN 6318.

### **HDCN 6320 - Life Span Human Development: Individual and Family**

*Credits: 3*

Examines physical, cognitive, communicative and linguistic, and social and emotional development processes through

the life span. Topics are addressed within the context of the major theories of development, with a focus on chronological and developmental age and cultural and socioeconomic diversity. Students learn appropriate developmental practices useful in employing interventions across the life span.

### **HDCN 6321 - Lifestyle and Career Development: Individual and Systemic Perspectives**

*Credits: 3*

The major theories of vocational choice, career decision-making, and lifestyle development are examined with sources of occupational and educational information and career decision-making processes.

### **HDCN 6323 - Pre-Adolescent and Adolescent Counseling: Play Therapy**

*Credits: 3*

Theoretical and practical approaches specifically for adolescents are presented.

### **HDCN 6325 - Child/Adolescent Parent Relationship Development Using Play Therapy Techniques**

*Credits: 3*

Students actively engage parents as partners in the play therapeutic process in working with minors in a counseling setting. Explores a variety of parenting approaches, with emphasis on Landreth's "Child Parent Relationship Therapy (CPRT): A 10 Session Filial Therapy Model." Reviews current literature on how brain development can be enhanced by caretakers of children and teenagers. Also, various parenting issues, including developmental concerns, DSM diagnoses, resistance, and external circumstances affecting the parent-child relationship.

### **HDCN 6326 - Advanced Sexuality/Counseling Therapy**

*Credits: 3*

Explores the theoretical, clinical, and interpersonal skills required of therapists and the importance of a counselor's sexual health-informed identity. Examines the six fundamental principles of sexual health with a focus on physiology, psychology, sociology of sexual health, and sexual trauma. Examines the cultural influences that inform clients' understandings of their sexual attitudes, values, and behaviors. Reviews the language and terms of sexual health and provides opportunities for students to apply this knowledge in classroom activities. Clinical experiential role plays followed by group processing are included in every class session.

### **HDCN 6327 - Family Play Therapy**

*Credits: 3*

Explores ways to work with children and families in a counseling context using play. A variety of learning activities develop and hone proficiency in the use of play techniques to help assess and counsel families with minor children. Students examine the clinical importance of relating to and working with families through play; explore the various dynamics involved in observing families and individuals in play therapy contexts; review the range of available play therapy techniques; and learn the basic family play therapy skills that are imperative for building a relationships with families with children. Students are encouraged to self-explore and self-understand.

### **HDCN 6328 - Family Violence**

*Credits: 3*

Explores family violence with an emphasis on spouse abuse and child abuse. Analysis of each area of family violence focuses on the epidemiology of the problem, characteristics of afflicted families, etiological theories, and treatment approaches. \*This class may be taken by individuals who do or do not have knowledge about family abuse. The class will not constitute a counseling session for those personally familiar with abuse. However, due to the sensitive nature of family violence, assignments and classroom activities or discussions may be disturbing for those who have experienced domestic abuse or know someone who has.

### **HDCN 6330 - Psychopathology: Adult**

*Credits: 3*

Examines the principles of understanding dysfunction in human behavior, with an emphasis on the criteria of psychiatric diagnosis using the current "Diagnostic and Statistical Manual of Mental Disorders" and empirical theories of psychopathology.

### **HDCN 6331 - Psychopathology: Child and Adolescent**

*Credits: 3*

Abnormal behavior in children and adolescents is examined.

### **HDCN 6339 - Behavioral Science**

*Credits: 3*

Introduces fundamental principles, terms, and formulas in research. Includes the history of research, basic statistics, and ethics, plus the methods and designs commonly employed to collect and analyze data. May be required or recommended prior to HDCN 6349.

### **HDCN 6340 - Assessment of Individuals, Couples, and Families**

*Credits: 3*

A comprehensive overview of the essentials of assessment principles, concepts, ethics, standards, statistical concepts, instruments, and systemic appraisal of an individual's attitudes, aptitudes, achievements, interests, and personal characteristics using both formal and informal approaches frequently used by counselors. Prerequisite: HDCN 6349.

### **HDCN 6342 - Cognitive, Career, and Educational Assessment**

*Credits: 3*

Career, intelligence, and academic assessment for school-age population (K-12) presented for application in school settings. Prerequisite: HDCN 6340.

### **HDCN 6343 - Child Counseling: Play Therapy**

*Credits: 3*

Designed to promote self-exploration and self-understanding and to help students 1) learn the clinical importance of relating to and working with children through play, 2) understand the major theories of play therapy, 3) develop an awareness of the child's world as viewed by the child, 4) increase their understanding of children and their behavior, 5) engender their facility in working with caregivers of child clients, and 6) develop an effective philosophy of and approach to play therapy.

### **HDCN 6344 - Expressive Arts Therapy: Creative and Therapeutic Processes**

*Credits: 3*

Explores theories and techniques for fostering creativity and therapeutic change in the counseling process through the use of expressive arts, particularly visual art forms and expressive writing.

### **HDCN 6347 - Mindfulness-Based Expressive Art Therapy**

*Credits: 3*

Examines expressive arts therapies that cultivate mindfulness and the ways mindfulness benefits mental health and well-being, with a particular focus on evidence-based therapies and the neurobiological mechanisms of such approaches.

### **HDCN 6348 - Embodied Expressive Therapies**

*Credits: 3*

Investigates expressive therapies that highlight the mind-body connection through body awareness, movement and/or dance, drama, physiological processes, and physical action. Instruction emphasizes evidence-based methods and neurobiological research supporting these practices.

### **HDCN 6349 - Research Design and Statistics**

*Credits: 3*

Examines the methods and types of research design and statistics commonly used in human development, education, and counseling research, with an emphasis on the process, ethics, and steps required to conduct and read research critically.

### **HDCN 6351 - Psychopharmacology and Substance Misuse**

*Credits: 3*

Examines the pharmacological, psychological, and sociological impact of drug-taking behavior; introduces the major drug categories; explores major theories of addiction with application to the process of misuse, dependency, and recovery; and identifies the continuum of care and various treatment approaches utilized in the field with people who present with substance misuse and with their families.

### **HDCN 6352 - Psychology of Addictions**

*Credits: 3*

Covers the origins and trends of addictive behavior, including addiction to substances, gambling, the Internet, and relationships. Explores the origins of addictions, treatment options, and barriers to treatment. Also, addiction comorbidity with mental health issues and addictive patterns in minority and culturally diverse communities.

### **HDCN 6353 - Treatment Management**

*Credits: 3*

This course prepares the counseling student to take the state licensing exam as an alcohol and drug abuse counselor. Substance abuse assessment, case management, documentation, legal concerns, practice management, and treatment options will be addressed.

### **HDCN 6355 - Affirmative Therapy with Lesbian, Gay, and Bisexual Clients**

*Credits: 3*

Focuses on the development of professional competency in behavioral health assessment and affirmative intervention with sexual minorities. Examines cultural context and practice implications of heteronormativity in therapists and clients. Addresses the external and internal factors and processes that can affect the lives and mental health of LGB persons. Reviews current understandings of microaggression and minority stress. Explores implications of intersecting identities of race, ethnicity, age, socioeconomic status, and religion on the development of sexual orientation and identity integration. Also, affirming and culturally responsive strategies for addressing co-occurring diagnoses of major mental health, substance misuse, and major physical health issues such as HIV and AIDS.

### **HDCN 6356 - Affirmative Therapy with Transgender Clients**

*Credits: 3*

Focuses on affirmative counseling practices for transgender individuals, including how to support a person through a gender transition and concomitant adjustment to cultural, social, familial, biological, and psychological responses.

### **HDCN 6357 - Affirmative Therapy with LGBT Couples and Families**

*Credits: 3*

Focuses on developing affirmative therapy skills in working with LGBT couples and families.

### **HDCN 6370 - Crisis Intervention**

*Credits: 3*

Examines crisis intervention for individuals, couples, families, and groups through an in-depth analysis of diverse client experiences such as population trends, lifestyle changes, individual and/or family challenges, barriers to services, and unique needs. Also, intervention for specific topics such as court-ordered services, homelessness, domestic violence, child abuse, sexual assault, bullying, self-harming behaviors, suicidal and homicidal ideation and/or intention, and school shootings. Counselors learn clinical skills in professional responsibility and plan of action such as reporting

abuse or no-harm contract usage, as well as practical resource inventories for clients in crisis. All strategies are centered on best practices and evidence-based practices, including the empirically founded solution-focused approach.

### **HDCN 6372 - Gender Issues**

*Credits: 3*

Feminist theory taught within the historical context of society and culture, individuals, couples, and family counseling.

### **HDCN 6382 - Psychology of Conflict**

*Credits: 3*

The focus of this course is on the psychological context of negotiation, the personal and social influences on the parties in negotiation, and the impact of these conditions and behaviors on the outcome.

### **HDCN 6383 - Negotiation and Dispute Resolution**

*Credits: 3*

Introduces contemporary theories of negotiation. Students develop practical skills through simulated exercises.

### **HDCN 6384 - Mediation and Dispute Resolution**

*Credits: 3*

Examines mediation in which a neutral third party facilitates in solving disputes through lectures, role-playing, and videotape to meet the state of Texas requirement for mediators.

### **HDCN 6386 - Family Law**

*Credits: 3*

The Texas family code and other legal issues pertaining to family relations are presented.

### **HDCN 6387 - Domestic Relations**

*Credits: 3*

Presents mediation techniques for divorcing couples.

### **HDCN 6391 - Selected Topics: Counseling**

*Credits: 3*

Varied counseling topics taught for application with specific populations.

### **HDCN 6392 - Selected Topics: Marriage and Family**

*Credits: 3*

Various topics in marriage and family therapy are selected for advanced study.

### **HDCN 6393 - Selected Topics: School Counseling**

*Credits: 3*

Various topics in school psychology are selected for advanced study.

### **HDCN 6395 - Supervised Clinical Practicum**

*Credits: 3*

Builds the counselor's knowledge and skills in an applied clinic setting while under the direct supervision of a fully licensed SMU instructor. Counselors gain experience with actual clients, develop the ability to handle a variety of clinical issues and responsibilities, evaluate practice, observe others in a constructive manner, develop a healthy embracing and mastery of ethical practice, and begin to establish professional relationships with fellow practicum students, clients, supervisors, and other professionals in the field. Prerequisites: 42 credit hours; permission of a cooperating professor and the chair of the department.

### **HDCN 6398 - Internship I**

*Credits: 3*

Refines counseling skills in real-world settings under close supervision. Qualified supervisors at the student-selected internship site provide direct supervision. Types of direct and indirect service hours vary according to LPC, LMFT, LCDC, and school counseling requirements and populations served at the internship site. The curriculum is focused on group supervision and professional development. Prerequisite: HDCN 6395.

### **HDCN 6399 - Internship II**

*Credits: 3*

Refines counseling skills in real-world settings under close supervision. Qualified supervisors at the student-selected internship site provide direct supervision. Types of direct and indirect service hours vary according to LPC, LMFT, LCDC, and school counseling requirements and populations served at the internship site. The curriculum is focused on group supervision and professional development. Prerequisite: HDCN 6398.

## **Dispute Resolution Courses**

### **HDDR 6302 - Negotiation and Dispute Resolution**

*Credits: 3*

Introduces contemporary theories of negotiation. Students develop practical skills through simulation exercises.

### **HDDR 6303 - Mediation and Dispute Resolution**

*Credits: 3*

Examines the function, process, and theory of mediation, in which a neutral third party facilitates the resolution of disputes. Participants gain a functional knowledge of the practice of mediation through lecture, discussion, video simulations, interactive exercises, and role-playing. Satisfies the Texas statutory requirement for mediators.

Prerequisite: HDDR 6302 is recommended but not required.

### **HDDR 6304 - Arbitration and Dispute Resolution**

*Credits: 3*

Covers the arbitration process and the discipline necessary to hear and render decisions. Arbitration is intended to avoid the formalities, delay, expense, and uncertainty involved in litigation.

### **HDDR 6305 - Foundations of the American Legal System**

*Credits: 3*

The structure and procedures of the U.S. court system, with a focus on the ways alternative dispute resolution methods augment, coordinate, and sometimes clash with the goals of traditional litigation. Students learn legal concepts and terminology essential to successfully working within the field of dispute resolution. Introduction to basic legal skills, including legal reasoning and interpretation of case law, statutes, and administrative codes, and a primer on research materials and tools used by judges and lawyers to evaluate the merits of a legal dispute.

### **HDDR 6307 - Practicum I**

*Credits: 3*

This course combines advanced classroom instruction in mediation with observations of courtroom proceedings and mediation, culminating with students participating in joint mediation of real conflicts. Prerequisites: HDDR 6302, HDDR 6303, HDDR 6305, HDDR 6310, HDDR 6319.

### **HDDR 6310 - Research Methods**

*Credits: 3*

This course provides students with a fundamental understanding of research methods, allowing them to be discerning consumers of literature in the dispute resolution field and empowering them to judge for themselves the value, validity, and reliability of studies they read. Students learn sound research design, inference from data to conclusions, and the assumptions underlying various methods.

### **HDDR 6311 - Techniques and Skills in Mediation**

*Credits: 3*

Expansion of HDDR 6303, with particular emphasis on advancing mediation skills and providing in-depth exploration and analysis into alternate, often advanced, techniques for dispute resolution professionals.

### **HDDR 6312 - Advanced Negotiation**

*Credits: 3*

Examines the dynamics, constraints, and skills needed in the negotiation process. Studies current literature on the theories of negotiation and uses simulated exercises to teach specific techniques. Participants develop the skills needed to negotiate effectively for their vital interests and to choose among a range of procedural options. Course content is drawn from the fields of law, psychology, business, and communication. Prerequisites: HDDR 6302, HDDR 6319.

### **HDDR 6313 - Advanced Mediation**

*Credits: 3*

Continuation of HDDR 6303, in which students gained a basic understanding of the most prominent dispute resolution process - mediation. This course provides an in-depth examination of important issues in mediation practice, such as convening, multiparty mediation, mediator bias, mediator ethics, and mediator qualifications. Highly interactive, the course moves far beyond introductory lectures and simple role-playing. Prerequisites: HDDR 6302, HDDR 6303.

### **HDDR 6315 - Communication and Dispute Resolution**

*Credits: 3*

Focuses on human communication in the context of conflict. Addresses the challenges of effective communication and its role in resolving conflict. Attention is paid to the most effective methods of communication used in dealing with differences, particularly methods used by dispute resolution professionals in the processes of negotiation and mediation.

### **HDDR 6316 - Decision Theory**

*Credits: 3*

Examines the use of psychology, neuroscience, behavioral economics, game theory, and statistical analysis in the resolution of disputes by settlement rather than impasse. Participants learn to recognize cognitive biases and to identify factors that correlate significantly with poor quality decisions; participants also learn advanced methods to improve decision-making and problem-solving skills.

### **HDDR 6317 - Online Dispute Resolution**

*Credits: 3*

Due to challenges of costs, speed, and jurisdiction, courts are not the best choice to handle online disputes. Rapidly expanding e-commerce, the growth in cross-boundary transactions, and the inability of traditional legal processes to deal with disputes arising over the Web have created a need for redress options. ODR connects capable neutrals with parties in ways that bring efficiencies to inefficient online marketplaces. Students examine the development of ODR and the new challenges it poses to neutrals and systems designers. Also, the major providers, administrative agencies, and international organizations currently involved. Includes a series of simulations with state-of-the-art ODR technologies.

### **HDDR 6319 - Psychology of Conflict**

*Credits: 3*

What happens when one party in a conflict wants something that another party resists doing or giving? Conflict can arise in groups, between individuals, and in many different settings. Students study the psychological context of negotiation, personal and social influences on the parties in negotiation, and the impact of these conditions and behaviors on the outcome.

## **HDDR 6320 - Selected Topics in Dispute Resolution**

*Credits: 3*

With variable course content, students will explore topics of interest as related to the general application of dispute resolution.

## **HDDR 6322 - Independent Study**

*Credits: 3*

Off-site corporate internship opportunities for the practical application of dispute resolution training.

## **HDDR 6323 - Engaging in Conflict**

*Credits: 3*

A challenge for conflict specialists is to address people and situations as they are experienced realistically by the people involved and to subsequently help them deal with each other in a constructive manner. This course prepares students to identify constructive and destructive conflict, to skillfully engage conflict, and to use specific methods to work toward conflict resolution. The course offers advanced techniques and improved abilities to students who find engagement in conflict to be intriguing and rewarding. Students who find engagement in conflict to be frightening gain insight that could help them find the strength to challenge their fears and to face conflict when it arises. Numerous case examples are used to highlight and expand on the readings.

## **HDDR 6324 - Engaging in Conflict: Advanced Studies Using Current Events**

*Credits: 3*

Conflict is an unavoidable and essential part of existence in this complex world. This course uses essential models of conflict applied specifically to current events that are timely and coincident with or overlapping time spent in the classroom. Students develop skills and techniques to understand and to learn how they might engage in conflict in a more meaningful manner. They also try to predict what will happen next in the conflicts studied and to learn from whatever occurs as it actually unfolds and is reported in the media. Prerequisites: HDDR 6302, HDDR 6303, HDDR 6319. Recommended: HDDR 6367.

## **HDDR 6325 - Neuroscience: The Role of the Brain in Emotion, Collaboration, and Conflict**

*Credits: 3*

Provides insight into the critical role that neuroscience plays in conflict, collaboration, and emotion. Explores ways the brain processes decision-making, cognition, compassion, empathy, problem-solving, behavior, and risk. Students learn how instinctual responses can be tempered by connecting these important elements with strategies that utilize various conflict resolution processes.

## **HDDR 6326 - Family Conflict: The 21st Century Family**

*Credits: 3*

Provides the theoretical knowledge of "family dynamics" and the practical skills necessary to manage family conflict. Instructs students how to dissect conflict, analyze family resilience, determine successful strategies for dealing with emotions, apply golden rules for conflict, and employ basic intervention skills in dealing with family matters. Involves lecture, videos, exercises, role plays, and guest speakers.

## **HDDR 6327 - Conflict Coaching**

*Credits: 3*

Teaches a seven-stage structured approach for preventing or managing disputes and enhancing a coachee's conflict management skills. The approach, which is based on the CINERGY® Conflict Management Coaching model, can be used in organizational contexts and to coach individuals to participate in mediation, negotiation, and relational conflicts. Students are expected to bring examples of real, interpersonal conflict situations, which they in turn use to coach and be coached in this highly experiential course. Students who successfully complete this course receive a basic level CINERGY® Certificate of Completion with 28 hours of Continuing Education Credits (CEU) from the

International Coach Federation. Those who wish to be accredited as a CINERGY® Conflict Management Coaches can do so within 9 months by completing an additional 2-hour competency assessment process.

### **HDDR 6331 - Domestic Relations**

*Credits: 3*

Delves into the many disputes arising from divorce, child custody, and family violence. This course meets the state requirement to practice family mediation in Texas. Prerequisite: HDDR 6303.

### **HDDR 6336 - Selected Dispute Resolution Topics**

*Credits: 3*

Students explore various topics of interest concerning the dispute resolution field.

### **HDDR 6341 - Employment Law**

*Credits: 3*

The employer-employee relationship drives the economic engine of society. In this relationship that engages so many significant interests, it is no surprise that serious conflicts occur. Through employment law, legislatures and judges attempt to regulate the complex competing interests of employers and employees. This course covers the most significant statutes and cases that apply to the employment life cycle from recruitment through termination, with an emphasis on the rights and responsibilities of employers and individual employees. Includes at will employment, fair labor standards and pay, discrimination, work conditions, and disability and illness. Collective bargaining is not included.

### **HDDR 6344 - Organizational Change Management**

*Credits: 3*

Provides a model for organizational change and change management. Students learn the sources of conflict and disruption that accompany traumatic organizational transitions. Includes how the facilitation skills employed in micro-interventions (the facilitation of single teams) must be adapted to meet the facilitation needs of large-scale organizational change projects. Contrasts more traditional problem-solving approaches to change management with those represented by the social constructionist perspective and the use of appreciative inquiry.

### **HDDR 6346 - Organizational Consulting Skills**

*Credits: 3*

Students apply dispute resolution skills as either external consultants or internal consultants and business partners. The course introduces the basic core elements of organizational consulting, including establishing trust with clients, establishing expectations of the consulting problems, planning a consulting intervention, and managing a consulting intervention.

### **HDDR 6347 - Systems Design in Dispute Resolution**

*Credits: 3*

Executives in the new millennium are facing an ever-increasing number of organizational disputes in the form of customer complaints, employee grievances, charges of discrimination, contractual disagreements, lawsuits, and unhealthy competition within and between work groups. Organizations often handle these conflicts on a case-by-case basis or with adversarial approaches that can escalate the situation and result in expensive solutions later on. Effective dispute resolution systems offer a constructive approach to managing a wide range of organizational conflicts, and provide an integrative and comprehensive way to minimize conflict and resolve disputes when they arise.

### **HDDR 6348 - Team-Building Theory and Practice**

*Credits: 3*

Introduces team performance models and explores research regarding the structural and interpersonal factors that impact teams. Students diagnose team performance issues and dysfunctional dynamics through application of a five-step model and address challenges within work teams.

## **HDDR 6349 - The Role of the Ombudsman in Organizational Conflict**

*Credits: 3*

Organizations implement ombuds programs to address workplace conflict. This course explores ombuds programs as essential components of an integrated dispute resolution system. It covers the history and development of the ombuds profession, theoretical and practical concepts, professional standards of practice, ethics, legal, and regulatory considerations, while acknowledging individual, group, and systemic issues that contribute to conflict. Students learn practical skills and strategies that are unique to the ombuds practice and review conflict management skills. Through lecture, discussion, interactive exercises, role-playing, and case studies, participants gain a functional knowledge of the ombuds practice and profession.

## **HDDR 6351 - Workplace Conflict**

*Credits: 3*

This course provides an introduction to the sources and causes of conflict within business organizations, and explains some of the implementation issues, such as working with multiple and often polarized senior stakeholders, that must be addressed when implementing mediation and conflict resolution services within business settings. Exercises and case studies are used to help students assess workplace conflicts, and to determine the most effective processes for applying dispute resolution support to business clients.

## **HDDR 6352 - Selected Organizational Topics**

*Credits: 3*

With variable course content, students will explore topics of interest as related to the organizational concentration of dispute resolution.

## **HDDR 6353 - Generational Conflict**

*Credits: 3*

An extensive study of the concepts of conflict management directly addressing generationally generated conflict. Pays particular attention to generational theory and systems theory, applying dispute resolution skills and principles to these common problems. Introduces the culture of conflict in the workplace that develops between employees from different generations, as well as the process approaches for managing these difficult moments in order to establish a collaborative environment.

## **HDDR 6354 - Managing Conflict in Traditional and Social Media**

*Credits: 3*

Examines how the media can create, contribute to, magnify, worsen, and conversely, alleviate conflict within communities and organizations. The decline in traditional media such as newspapers and radio is changing how individuals and organizations receive new information and/or distribute it to internal and external audiences. The recent rise of mass self-communication through new media such as email, blogs, texting, Facebook, Instagram, Twitter, and YouTube has created dangerous risks for conflicts to go viral even before they can be fully understood by community or organization leaders. Explores how new media presents interesting, nontraditional opportunities for conflict resolution. Students engage in structured practice in conflict resolution techniques and message creation under media deadline pressure. Examples of media-driven conflict and misunderstanding are explored along with action planning to mitigate conflict.

## **HDDR 6361 - Cross-Cultural and Gender Negotiation**

*Credits: 3*

Examines the relationship of identity, gender, culture, and ethnicity to conflict dynamics in the negotiation process, with a focus on increasing students' sensitivity to and awareness of negotiation issues. Compares individual- and collective-oriented cultures, and explores the use of body language and physical spacing in negotiation. Includes discussions on the use of language, narratives, and metaphors. Also, how the concept of apology and forgiveness is a culture- and gender-dependent issue. Students practice the skills needed to be more effective in resolving conflicts.

## **HDDR 6364 - International Conflict Management**

*Credits: 3*

Discusses the provocative topic of international relations and dispute resolution. The world is rapidly changing, and these changes are opening the door for the application of negotiation and mediation as well as other dispute resolution mechanisms. Students probe national and international human rights in the coming global and politically realigned world.

## **HDDR 6367 - Selected Social Service Topics**

*Credits: 3*

With variable course content, students will explore topics of interest as related to the social service concentration of dispute resolution.

## **HDDR 6370 - Assessment and Interviewing**

*Credits: 3*

This course serves as the foundation for the three-course executive coaching series and certification program in executive coaching. Includes the basics of coaching, including its purpose, applications, and comparison to counseling or mediation. Covers how to make certain that all parties (coachee, coachee's manager, and sponsoring organization) share the same expectations of the coaching process, and how to conduct in-depth assessment interviews with coachees and with other organizational stakeholders. Introduces 360 degree feedback tools, and shows how to integrate 360 degree and interview data into a consolidated assessment report. Also, developing a coaching contract and conducting an initial postcontracting interview.

## **HDDR 6371 - Transitional and Developmental Coaching**

*Credits: 3*

This is the second course in the executive coaching series. Focuses on coaching leaders who are making transitions into new work settings (transitional coaching), or who are preparing to take on broader organizational roles (developmental coaching). Students learn to identify underlying organizational and leadership factors that could contribute to a transitional leader's success or failure in a new work setting. Also, assessing leadership style, experience, and communication factors associated with a leader's potential to succeed within high-level job assignments. Involves comparing and contrasting development hurdles leaders must overcome as they prepare for different organizational levels, and identifying the behaviors and learning approaches demonstrated by leaders who perform well.

## **HDDR 6372 - Performance Coaching**

*Credits: 3*

This is the third course in the executive coaching series, which leads to the Certificate in Executive Coaching. Performance coaching helps managers address significant behavioral problems or leadership style issues that adversely impact their work performance. Introduces research on interpersonal and leadership style issues that play key roles in leadership success or failure, and research related to leadership derailment and failure patterns observed in managers previously assessed as high-potential leaders. Covers the most common performance coaching challenges encountered in performance coaching and ways to address resistance to coaching. Also, the intricacies of client contracting, with a focus on establishing clear and detailed expectations for performance improvement. Students practice conducting performance coaching sessions.

## **HDDR 6380 - Introduction to Conflict in Health Care Settings**

*Credits: 3*

An overview of three models appropriate for engaging and managing conflict in health care settings: prevent model, resolve model, and contain model. Participants apply their understanding of conflict and consider the constructive and destructive conflict models. Provides engagement through simulated exercises, role-playing, and class discussion. Using these methods for diagnostic thinking, participants learn treatment strategies and tactics appropriate to the circumstances. Focuses on the roles of the patient, provider, and organization, with a special emphasis on the patient.

## **HDDR 6381 - Engaging in Conflict in the Health Care Workplace**

*Credits: 3*

The health care industry's struggle with provider-administration trust, physician-nurse relations, and patient satisfaction comprises the backdrop of this course. Explores challenging, high-stakes relationships that affect all health care stakeholders. Focuses on the complex and potentially adversarial interactions among patients, providers, and organizations, with an emphasis on provider contributions. Addresses problems such as bullying, burnout, disruptive behavior, nonproductive communication, and resistance to change. Students develop and practice skills drawn from negotiation, mediation, facilitation, and executive coaching to address these and other critical health care conflict issues. Assigned readings are augmented with class exercises and pertinent case studies.

## **HDDR 6382 - The New Role of the Health Care Leader: Managing Change, Culture, and Conflict**

*Credits: 3*

Focuses on the importance of managing culture change in the health care industry. Using case studies, readings, assessments, and skills practice, students build on previous courses and focus on increasing self-awareness, identifying ways to successfully interact with others, dealing with resistance to change, and adapting one's managerial style to the situation and individual. Participants learn how human resources offices can facilitate change and align culture. The ability to lead in health care organizations is a developed skill that requires self-awareness and training. Considers the patient as well as the providers, but focuses largely on the organizational challenges of the changing health care landscape. Specific role-plays and exercises designed from a human resources perspective allow participants to learn to adapt the organizational culture and dynamic to address the health care workplace.

# Education, Ph.D.

[www.smu.edu/EducationPhD](http://www.smu.edu/EducationPhD)

The Simmons School offers a research-intensive Ph.D. in education that prepares graduates to work in academic areas; to perform research; and to make significant contributions to research, policy and practice in their fields of interest. The program offers the following:

- Apprenticeships with top scholars across fields of study in education and human development.
- Career mentoring in the professional work of publishing, teaching, presenting and grant writing.
- Courses of study emphasizing strong training in research methodology, with options to tailor courses and experiences to align with individual research interests.
- Opportunities for professional enhancement and experiences collaborating across disciplines and on community-, school- and agency-based projects (Center on Research in Education, Budd Center: Involving Communities in Education, Research in Mathematics Education, Bush Institute and Institute for Evidence-Based Education).

## Contact Information

### Doctor of Philosophy in Education

PO Box 750455

Dallas TX 75725-0455

214-768-1715

[www.smu.edu/EducationPhD](http://www.smu.edu/EducationPhD)

## Curriculum

Doctoral students must complete a minimum of 60 credit hours during a three-year full-time program prior to the dissertation year. The program is a model in which students complete a core set of courses as a cohort and a unique set of electives and research experiences. The core curriculum includes the following courses:

- EDU 7306 - Historical and Social Foundations of Education
- EDU 7311 - Quantitative Statistics for Education Research (with lab)
- EDU 7312 - Intermediate Quantitative Statistics in Education (with lab)
- EDU 7314 - Advanced Multivariate Statistics
- EDU 7313 - Advanced Assessment Methods
- EDU 7302 - Advanced Quantitative Research Methods
- EDU 7305 - Introduction to Qualitative Research in Education
- EDU 7119 - Synthesis and Integration of Knowledge and Skills in Education Policy and Leadership
- EDU 7318 - Program Evaluation
- EDU 7321 - Quantitative Research Methods II

## Admission

Applications submitted by January 1 receive priority review; applications received after January 15 are reviewed on a rolling basis until admission decisions are complete. The Ph.D. program is designed to augment an existing master's degree or equivalent preparation.

Applications should include the following:

1. Official undergraduate and graduate transcripts.
2. GRE graduate school entry exam scores taken within the last five years, with institution code 7464 (and TOEFL English language proficiency test scores if the student's native language is not English).
3. A statement of professional purpose.
4. An academic writing sample.

5. Three letters of recommendation.
6. CV or resume.

## Degree Requirements

Students must enroll in a minimum of nine credit hours of coursework per term and be full-time residents in the Dallas area for the first three academic years of the program. In addition to completing coursework, students apprentice on research projects for 20 hours each week during the academic calendar year, for which they typically receive fellowship pay, benefits and waived tuition. Degree requirements include the following milestones:

- A total of 60 credit hours of coursework (up to six credit hours can be transferred).
- Qualifying exams (literature synthesis, research design, & statistics).
- Major area paper.
- Conference presentation.
- Manuscript submission.
- Dissertation with an oral defense.
- Teaching competency.

# Education Policy and Leadership

**Clinical Professor** Dawson Orr, **Department Chair**

**Professors:** Frank Hernandez, Leanne Ketterlin Geller, Akihito Kamata

**Associate Professor:** Michael Harris

**Assistant Professors:** Dominique Baker, Sondra Barringer, Denisa Gandara, Alexandra Pavlakis, Meredith Richards

**Clinical Professor:** Watt Lesley Black, Jr., Dawson Orr

**Clinical Associate Professors:** S. Kiersten Ferguson, Milan Sevak, Ashley Tull

**Clinical Assistant Professor:** Roxanne Burleson,

**Research Associate Professor:** David Deggs

## Department Information

The Department of Education Policy and Leadership cultivates and supports leaders and researchers who seek to improve educational outcomes and the cultures of learning in schools, colleges and educational systems through leadership development, scholarship and service.

Coursework and systematic applications of knowledge are designed to ensure that the education leaders of tomorrow acquire expertise in developing and supporting effective teachers and other education service providers; selecting and implementing effective curricula and instructional programs; and identifying, implementing and sustaining effective organizational practices to ensure high levels of student learning and achievement. In service to this mission, the department offers Ed.D. and M.Ed. programs with a focus on either higher education or pre-K to grade 12 leadership. The department is also dedicated to the preparation and continued education of education policy leaders. The department seeks to improve the quality and rigor of education policy research and education policy development and analysis, and to encourage and facilitate the translation of research into policy and practice at local, state, national and international levels.

**Doctor of Philosophy in Education.** The Ph.D. in education is a schoolwide degree. For more information on this degree, students should see the description of the Ph.D. program in this catalog or online at [www.smu.edu/EducationPhD](http://www.smu.edu/EducationPhD).

## Educational Leadership, Ed.D.

**Includes Preparation for Superintendent Certification**

The Ed.D. in educational leadership (pre-K to grade 12) is designed to prepare mid-career professionals for a variety of leadership roles in school districts, independent schools, charter management organizations, public agencies and nonprofit organizations. Students are engaged with program faculty members and their cohort in all course content, which includes the individual development and execution of a problem-based dissertation. Program activities benefit the students in their roles as system-level leaders or policy professionals, as well as the organizations they serve. The program is designed to allow individuals to continue working as they complete this three-year doctoral program.

**Program Structure.** The Ed.D. curriculum is delivered in a three-year executive-style format in which students meet 10 weekends each year in addition to summer intensive sessions. The schedule is designed for midcareer professionals to further their education while continuing to work. Students remain together in a cohort as they progress through the

program. Some online assignments are given between weekend sessions. Five cross-cutting themes infuse courses and other learning opportunities:

- Academic leadership.
- Strategic and organizational leadership.
- Policy and political leadership.
- Evidence-based leadership.
- Personal and ethical leadership.

An applied dissertation that serves as a capstone experience is designed for students to build upon and demonstrate leadership competencies through engaging in a multifaceted inquiry project based on a problem of practice.

## Requirements for the Major

### Core Courses

- EPL 7350 - Methods of Systematic Inquiry
- EPL 7351 - Quantitative Inquiry
- EPL 7352 - Qualitative Inquiry
- EPL 7355 - Applied Dissertation (twice)

Total: 15 Credit Hours

### Content Courses

- EPL 7354 - Pre-K to 16 Comparative International Policy
- EPL 7358 - Ethical and Moral Leadership
- EPL 7359 - Leading Organizations
- EPL 7360 - Strategic Management of Change
- EPL 7361 - Academic Leadership 1: Research on Teaching and Learning
- EPL 7362 - Academic Leadership 2: Improving Student and Adult Learning At Scale
- EPL 7363 - Policymaking and Politics in Education
- EPL 7364 - Contemporary Education Policy
- EPL 7365 - Legal and Ethical Issues in Education
- EPL 7366 - Education Budgeting and Finance
- EPL 7368 - Strategic Talent Management
- EPL 7369 - Governance, Partnerships, and Community Engagement
  
- EPL 7372 - Leadership Practicum (for students who are not pursuing superintendent certification). Must take twice.  
or
- EPL 7371 - Superintendent Internship (for students who are pursuing superintendent certification). Must take twice.
  
- EPL 7395 - Leading for Equity and Diversity

Total: 45 Credit Hours

Total: 60 Credit Hours

## Admission Requirements

- The online SMU application.
- A master's or post-baccalaureate degree.
- Official undergraduate and graduate transcripts with a GPA of 3.0 or higher desired for all degrees.
- GRE (Graduate Record Exam) scores taken within the last five years, with the institution code 7464.
- Applicants with a degree from countries where the predominant language is not English are required to supply scores on the Test of English as a Foreign Language (TOEFL) administered by the Educational Testing Service. The minimum scores for admission speaking 26, listening/reading 22, and writing 21.
- Statement of professional purpose with no more than 2 pages ((double-spaced, 12-point font, one-inch margins) on each of the following parts:
  - (Part one) Why are you pursuing the SMU Ed.D. at this time in your career and how will it help you achieve your goals? What personal and professional experience have prepared you for doctoral study?
  - (Part two) In reflecting on your personal and professional experiences, what do you consider to be your greatest talents and strengths and how will you use these to contribute to enriching the cohort experience?
  - (Part three) What is a problem of practice in PK-12 education that you might want to explore further through the SMU Ed.D.? How might you systematically investigate this problem in order to work towards a plan of action to address it?
- Three letters of recommendation. Letters should be from individuals who can speak to the candidate's academic and professional skills and potential. One letter should be from a direct supervisor in the candidate's organization. The supervisor will also be asked to indicate agreement for the student to miss work in order to attend classes (for time on Fridays and summer terms).
- A resume/curriculum vita
- Official transcripts must be sent directly by the institution to SMU.

Promising applicants may be invited to engage in an interview and additional selection processes.

Electronic transcripts should be sent directly by the institution to: [gradappmaterials@smu.edu](mailto:gradappmaterials@smu.edu)

Paper transcripts should be sent directly by the institution to:

Graduate Application Processing  
PO Box 518  
Dallas, TX 75275-0518

If applying for the Superintendent certificate, please provide the following as well:

- A letter of agreement from the superintendent or other system-level administrator indicating that the school district will provide internship activities and a district mentor for the candidate
- A copy of a Principal certificate or the equivalent issued by the TEA, another state or country.

## Higher Education, Ed.D.

The Ed.D. in Higher Education is designed to prepare midcareer professionals from a variety of postsecondary institutional types and settings. These include public and private institutions; community colleges; and state, regional and national governance systems and organizations. Students are engaged with program faculty and their cohort in all course content, which includes the individual development and execution of a problem-based dissertation. Program activities benefit the students in their roles as postsecondary leaders, as well as the organizations they serve.

## Degree Requirements

The Ed.D. curriculum is delivered in a three-year executive-style format in which students meet 10 weekends each year in addition to summer intensive sessions. The schedule is designed for midcareer professionals to further their education while continuing to work. Students remain in a cohort as they progress through the program. Some online

assignments are given between weekend sessions. Five cross-cutting themes infuse courses and other learning opportunities:

- Academic leadership.
- Strategic and organizational leadership.
- Policy and political leadership.
- Evidence-based leadership.
- Personal and ethical leadership.

An applied dissertation that serves as a capstone experience is designed for students to build upon and demonstrate leadership competencies through engaging in a multifaceted inquiry project based on a problem of practice.

## Requirements for the Major

### Core Courses

- EPL 7350 - Methods of Systematic Inquiry
- EPL 7351 - Quantitative Inquiry
- EPL 7352 - Qualitative Inquiry
- EPL 7353 - Topics in Advanced Inquiry
- EPL 7354 - Pre-K to 16 Comparative International Policy
- EPL 7355 - Applied Dissertation (twice)

Total: 21 Credit Hours

### Content Courses

- EPL 7380 - History of Higher Education
- EPL 7381 - Academic Leadership in Higher Education
- EPL 7382 - Contemporary Issues in Higher Education
- EPL 7383 - Financial Strategy and Management in Higher Education
- EPL 7384 - Legal Issues in Higher Education
- EPL 7385 - The College Student
- EPL 7386 - Leading Student Affairs
- EPL 7387 - Leading Diverse Campuses and Systems of Postsecondary Education
- EPL 7388 - Leading Organizational Change in Higher Education
- EPL 7390 - Public Policy in Higher Education
- EPL 7392 - Special Topics in Higher Education Policy
- EPL 7393 - Organizational Theory in Higher Education
- EPL 7394 - The American Community College

Total: 39 Credit Hours

Total: 60 Credit Hours

## Admission Requirements

All applicants must possess a master's or post-baccalaureate degree by August and complete the online SMU application. The application requires the following:

1. Official undergraduate and graduate transcripts with a GPA of 3.0 or higher
2. GRE (Graduate Record Exam) scores taken within the last five years with the institution code 7464
3. TOEFL English language proficiency test scores for students whose native language is not English

4. Statement of professional purpose For Ed.D. in Higher Education: The response for each part below should not exceed 2 pages in length (double-spaced, 12-point font, one-inch margins):
  - (Part one) Why are you pursuing the SMU Ed.D. at this time in your career and how will it help you achieve your goals? What personal and professional experience have prepared you for doctoral study?
  - (Part two) In reflecting on your personal and professional experiences, what do you consider to be your greatest talents and strengths and how will you use these to contribute to enriching the cohort experience?
  - (Part three) What is a problem of practice in higher education that you might want to explore further through the SMU Ed.D.? How might you systematically investigate this problem in order to work towards a plan of action to address it?
5. Three letters of recommendation. Letters should be from individuals who can speak to the candidate's academic and professional skills and potential. One letter should be from a direct supervisor in the candidate's organization. The supervisor will also be asked to indicate agreement for the student to miss work to attend classes (for time on Fridays and summer terms).
6. A resume/curriculum vita.
7. Official transcripts must be sent directly by the institution to SMU.

Promising applicants may be invited to engage in an interview and additional selection processes.

## **Education Leadership, M.Ed., EC-Grade 12 Accelerated School Leadership Specialization**

### **Includes Preparation for Principal Certification**

This master's degree in educational leadership is designed to prepare educators for leadership positions in early childhood through grade 12 schools, including public, charter, private, secular and religious schools. Through study and research in the areas of organizational leadership, academic leadership and teacher effectiveness, graduates of the program are well prepared to develop and support effective teachers; to select and implement effective curricula and instructional programs; and to identify, implement and sustain effective organizational practices. The M.Ed. in educational leadership curriculum is designed in accordance with certification requirements established by the state of Texas and is consistent with national standards and empirical evidence on effective school leadership knowledge and skills.

To this end, the program offers the following unique features.

- Instructional Leadership Courses with a focus on Literacy and STEM
- Field-based projects (internship experiences) integrated throughout the program and completed on each student's campus of employment
- A cohort model allowing the student to complete the M.Ed. program in 14 months.
- A focus on ensuring that all graduates have the knowledge and skills to evaluate the impact of their leadership on the schools in which they serve.

## **Degree Requirements**

This 30-credit-hour program is designed for working professionals and can be completed within 14 months. This program begins in June and ends the following July. During the fall and spring academic terms, students take courses, plus an internship (Field Studies). The Field Studies course each semester involves internship activities on the student's campus of employment. During the final summer, students take one additional course and complete their Capstone paper. Candidates for Principal Certification in the state of Texas must take and pass the 268 Principal as Instructional Leader and Performance Assessment for School Leaders (PASL), which are state-administered assessments required for principal certification.

While applicants may request consideration for transfer of up to six hours of graduate credit, students should note that this is a cohort program with a tightly structured and integrated design, and it is not likely that traditional three-hour courses will be accepted for transfer. Requests for transfer credit are evaluated on a case-by-case basis. Students need

to submit a transfer request as soon as they are accepted into the program in order to be considered. Only courses with a grade of *B* or above can be transferred. Generally, no credit is allowed toward the master's degree for courses taken more than six years before acceptance into the program.

## Requirements for the Major

### Core Content Courses

- EPL 6140 - Instructional Leadership Development
- EPL 6340 - Legal and Ethical Aspects of Leadership
- EPL 6354 - Leading Organizational Change
- EPL 6246 - Instructional Leadership STEM
- EPL 6350 - Developing Human Capital
- EPL 6355 - School Culture and Student Support
- EPL 6367 - Instructional Leadership Literacy
- EPL 6375 - Leading with Values
- EPL 6391 - Collaborative Leadership

Total: 24 Credit Hours

### Field Courses and Portfolio

- EPL 6143 - Field Studies 1
- EPL 6247 - Field Studies 2
- EPL 6251 - Field Studies 3
- EPL 6193 - Capstone Experience

Total: 6 Credit Hours

Total: 30 Credit Hours

## Admission Requirements

1. A baccalaureate degree from an accredited institution;
2. A minimum undergraduate grade point average of 3.0 (on a 4.0 scale). Applicants not meeting this requirement must provide GRE scores (see below), as well as other qualifications, such as long-term experience or expertise in a related specialized field as justification for consideration for admission;
3. For applicants with a GPA below 3.0: Scores from the verbal, quantitative, and analytical writing sections of the Graduate Record Exam (GRE), taken within the last five years. To ensure that we receive your GRE scores, please use the institution code 7464 for the ACSSEHD. For the GRE taken after August 1, 2011: Preferred scores are 144 or higher for Quantitative Reasoning, 153 or higher for Verbal Reasoning, and 4.5 or higher for Analytical Writing.
4. Copy of valid Texas teacher certification
5. Copy of service record reflecting two years teaching experience in an accredited public, private or charter school;
6. Applicants with a degree from countries where the predominant language is not English are required to supply scores on the Test of English as a Foreign Language (TOEFL) administered by the Educational Testing Service. The minimum scores for admission speaking 26, listening/reading 22, and writing 21;
7. Recommendations and evidence of a high degree of support from the school of employment, including a commitment on the part of the applicant's principal (or an equivalent supervisor) to serve as a mentor for internship activities;
8. Evidence of leadership capacity and demonstration of leadership role in the applicant's school.
9. The application includes essays, recommendations, and an interview with the Admissions Committee.

10. Official Transcripts of all graduate and undergraduate transcripts where a degree has been conferred.

## Higher Education, M.Ed.

The M.Ed. in Higher Education prepares students for leadership positions in colleges and universities. The higher education master's degree program is designed to provide students with the foundation and resources necessary to understand and analyze how universities and colleges work. Graduates of our program are prepared to take on roles in a wide range of higher education settings and assume many key roles in activities such as admissions, advising, student activities, administration, and policy analysis.

The higher education program utilizes a cohort model that offers full-time and part-time options. Our full-time track is ideal for students who hold graduate assistantships on SMU's campus, while our part-time track is designed for working professionals interested in advancing their careers, to be completed in no more than five years.

**Program Structure.** This 36-hour degree program is designed to be completed in 2 years on a full-time schedule or 3-5 years for part-time students. All courses will be delivered in 3-credit hour semester long courses. Candidates must complete the required hours at the 6000-level that have not been used to fulfill an undergraduate requirement.

Students are required to select and complete one field studies experience under the supervision of a faculty member of record and a supervisor. The course prepares graduate students for professional practice in various higher education settings through supervised experiences in a setting appropriate to the student's projected career aspirations and areas of specialization.

Students are also required to select and complete one of the following culminating experiences. Students may choose from either EPL 6347 Capstone Project (which may be substituted for one of the elective/special topics courses) or EPL 6001 Comprehensive Program Exam and a second elective/special topics course.

While applicants may request consideration for transfer of up to six hours of relevant graduate credit, please be advised that applicants should not expect to receive more than six hours of transfer credit from other institutions. Requests for transfer credit will be evaluated on a case-by-case basis. Students need to submit a transfer request as soon as they are accepted into the program in order to be considered. Only courses with a grade of B or above can be transferred. Generally, no credit will be allowed toward the Master's degree for courses taken more than six years before acceptance into the program. Any exceptions to the requirements and policies stated above must have the approval of the academic adviser and department chair.

## Requirements

### Core Courses

- EPL 6343 - Field Studies 1
- EPL 6358 - Equity and Access in Higher Education
- EPL 6360 - The College Student
- EPL 6363 - Faculty and Academic Governance
- EPL 6373 - Special Topics
- EPL 6374 - Interpreting Educational Research
- EPL 6376 - Public Policy and Higher Education
- EPL 6379 - Student Affairs Administration
- EPL 6392 - History of Higher Education
- EPL 6394 - Emerging Issues in Higher Education
- EPL 6396 - Higher Education Finance

Total: 33 Credit Hours

### Select one of two options:

- EPL 6001 - Comprehensive Program Exam  
and
- EPL 6373 - Special Topics  
or
- EPL 6347 - Capstone Project  
or
- EPL 6356 - Legal Issues in Higher Education

Total: 3 Credit Hours

Total: 36 Credit Hours

## Admission Requirements

Admission is based on the following criteria; any exceptions to these requirements must have the approval of the academic adviser and department chair:

1. A baccalaureate degree from an accredited institution.
2. Official copies of all graduate and undergraduate transcripts where a degree has been conferred or you have received 9 or more credit hours.
  - Official Transcripts must be sent directly by the institution to SMU.
  - Electronic transcripts should be sent directly by the institution to: [gradappmaterials@smu.edu](mailto:gradappmaterials@smu.edu)
  - Paper transcripts should be sent directly by the institution to:  
Graduate Application Processing  
PO Box 518  
Dallas, TX 75275-0518
3. A minimum undergraduate grade point average of 3.0 (on a 4.0 scale)
4. Essay Writing Sample. Submit an academic paper from prior coursework that demonstrates your analytic and written communication abilities. In lieu of a prior paper, you may submit a five-page paper that addresses specific issues facing higher education today.
5. Personal Statement. Applicants should prepare a statement of purpose, which should be between 750-1,000 words. This statement should address the factors that encouraged you to seek a degree with the SMU Higher Education Program. You may wish to address your background, personal and professional experiences that prepared you for the study of higher education, what strengths you bring to the program, and your professional goals after the completion of the M.Ed. Your responses should be saved and uploaded as the following:
  - 12 point Times New Roman font
  - Single-spaced
  - One inch margins
6. If English is not your native language, you should take the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless either: (1) your entire secondary was administered solely in English or (2) your entire undergraduate education was administered solely in English.
7. Three letters of recommendation from academic and/or professional references.
8. The Graduate Record Examination (GRE) is not required for your admissions packet. Applicants who have taken the

GRE general test or another standardized test (i.e. GMAT, LSAT) are welcome to submit scores. To ensure that we receive your GRE scores, please use the institution code 7464.

## Urban Education Leadership, M.Ed., EC-Grade 12

### Includes Preparation for Principal Certification

The M.Ed. in Urban Educational Leadership, also known as the Aspiring Leaders Program, is designed to prepare candidates for leadership positions in urban schools. The program is designed to take a competency and experiential approach to educational leadership that emphasizes the unique and complex challenges leaders face in urban schools. This highly selective program seeks candidates who are committed to increasing social equity through public education.

Benefits of the program include preparation for Texas Principal Certification, practical experience with an emphasis on action learning, a second-year residency on an urban campus (in partnership with Teaching Trust), mentoring supported by a successful school leader and an emphasis on organizational leadership featuring experienced practitioners. Substantial scholarship support for virtually all students ensures the affordability of this program. Because scholarship availability is significant, a contract of commitment to work a specified amount of time in select urban school districts is required of candidates for acceptance into the program.

**Program Structure.** This 36-hour degree program is designed for working professionals and can be completed in two years (including two summer sessions). Students take courses in a prescribed sequence. During the fall and spring academic terms, classes usually meet on Saturdays. **Note:** Some classes meet all day in the summer sessions. Candidates for Principal Certification in the state of Texas must meet all state requirements, including taking and passing the TExES Principal 268 exam and Performance Assessment for School Leaders (PASL).

The Aspiring Leaders Program is a cohort program with a tightly structured and integrated design. Courses taken outside the degree are generally not accepted for transfer.

## Degree Requirements

### Core Content Courses

- EPL 6140 - Instructional Leadership Development
- EPL 6240 - Legal and Ethical Aspects of Leadership
- EPL 6241 - Organizational Behavior
- EPL 6252 - Academic Leadership: Special Populations and Student Success
- EPL 6266 - Performance Standards and Goals
- EPL 6267 - Instructional Leadership 1
- EPL 6270 - Instructional Leadership 2
- EPL 6271 – Instructional Leadership 3 (offered in spring 2020)
- EPL 6272 - Strategic Management of Human Capital
- EPL 6280 – Leading Holistic Development (offered in spring 2020)
- EPL 6281 - Planning and Managing Change
- EPL 6355 - School Culture and Student Support
- EPL 6375 - Leading with Values

Total: 24 Credit Hours

### Field Courses

- EPL 6255 - Field Studies 4 (three times)
- EPL 6395 - Urban School Residency (two times)

Total: 12 Credit Hours

Total: 36 Credit Hours

## Admission Requirements

Admission is based on the following criteria; any exceptions to these requirements must have the approval of the academic adviser and department chair:

1. A baccalaureate degree from an accredited institution.
2. A minimum cumulative undergraduate and graduate (if applicable) grade point average of 2.5\* (on a 4.0 scale)
3. For applicants with a GPA below 2.5, GRE (Graduate Record Exam) scores within the last five years are required. Please use the institution code 7464.
4. Copy of valid Texas teacher certification
5. Copy of service record reflecting two years teaching experience in an accredited public, private or charter school
6. Applicants with a degree from countries where the predominant language is not English are required to supply scores on the Test of English as a Foreign Language (TOEFL) administered by the Educational Testing Service. The minimum scores for admission speaking 26, listening/reading 22, and writing 21. Employed by a partner district/charter management organization.
7. Commitment to being a school leader. All participants commit to serving in a partner district for one year beyond graduation.
8. Official copies of all graduate and undergraduate transcripts where a degree has been conferred or you have received 9 or more credit hours.\*

- Official Transcripts must be sent directly by the institution to SMU.
- Electronic transcripts should be sent to: [gradappmaterials@smu.edu](mailto:gradappmaterials@smu.edu)
- Paper transcripts should be sent to:  
Graduate Application Processing  
PO Box 518  
Dallas, TX 75275-0518

\* calculated in accordance with current TEA guidelines. Simmons reserves the right to rescind an offer of admission should any misrepresentation occur.

## Education Leadership Courses

### EPL 6001 - Comprehensive Program Exam

*Credits: 0*

All students in the M.Ed. Higher Education program are required to select and complete either the zero-credit Comprehensive Program Exam or a 3-credit Capstone Project.

### EPL 6140 - Instructional Leadership Development

*Credits: 1*

Required training for the Texas principal certification. The seminar is conducted by certified trainers from the SMU faculty.

### **EPL 6143 - Field Studies 1**

*Credits: 1*

Internship activities directly aligned to the coursework in each module of the program. Field studies projects are part of a summative portfolio assessment.

### **EPL 6193 - Capstone Experience**

*Credits: 3*

Upon completion of a year-long campus improvement initiative, students compose a final capstone paper in which they synthesize the project portfolio components, analyze final data, and make recommendations for future consideration. Although this class occurs during the summer term of the second year, the capstone paper is the culmination of a school improvement project completed throughout the year.

### **EPL 6200 - Independent Study**

*Credits: 2*

The student works independently on a personalized system of instruction.

### **EPL 6240 - Legal and Ethical Aspects of Leadership**

*Credits: 2*

Focuses on the legal and policy issues critical to effective school leadership. Students explore the constitutional and statutory rights of key stakeholders and develop strategies to make legally and ethically defensible decisions. Topics include equity and access; compliance; ethics; and the development, communication, and implementation of effective policy.

### **EPL 6241 - Organizational Behavior**

*Credits: 2*

An examination of behavior in educational organizations. Topics include organizational culture and climate, motivation, and decision-making.

### **EPL 6246 - Instructional Leadership STEM**

*Credits: 2*

Addresses trends and issues impacting instructional programs in math and science. Topics include program development, evaluation, and compliance issues, as well as implications for budget, facilities, and staffing. (*Title change effective Spring 2020.*)

### **EPL 6247 - Field Studies 2**

*Credits: 2*

Internship activities directly aligned to the coursework in each module of the program. Field studies projects are part of a summative portfolio assessment.

### **EPL 6248 - Academic Leadership: World Languages and Social Studies**

*Credits: 2*

Addresses trends and issues impacting instructional programs in world languages and social studies. Topics include program development, evaluation, and compliance issues, as well as implications for budget, facilities, and staffing.

### **EPL 6249 - Academic Leadership: Fine Arts/PE/Career**

*Credits: 2*

Addresses trends and issues affecting instructional programs for fine arts, physical education, and career and technology education. Topics include program development, evaluation, and compliance issues, as well as implications for budget, facilities, and staffing.

### **EPL 6250 - Leadership Development Coaching**

*Credits: 2*

Provides experience in using collaborative tools to build self-awareness, clarify goals, and formulate action plans with accountability.

### **EPL 6251 - Field Studies 3**

*Credits: 2*

Internship activities directly aligned to the coursework in each module of the program. Field studies projects are part of a summative portfolio assessment.

### **EPL 6252 - Academic Leadership: Special Populations and Student Success**

*Credits: 2*

Addresses trends and issues affecting student success for special populations. Topics include program development, evaluation, and compliance issues, as well as implications for budget, facilities, and staffing.

### **EPL 6253 - Personal and Professional Development**

*Credits: 2*

Covers the selection, development, supervision, and retention of effective teachers. Topics include effective professional development models, teacher leadership roles, and equitable personnel policies and procedures.

### **EPL 6255 - Field Studies 4**

*Credits: 2*

Internship activities directly aligned to the coursework in each module of the program. Field studies projects are part of a summative portfolio assessment.

### **EPL 6266 - Performance Standards and Goals**

*Credits: 2*

Candidates learn to utilize meaningful systems and measurements for embedding a culture of achievement, to set performance goals and benchmark against them, and to prioritize actions that produce results.

### **EPL 6267 - Instructional Leadership 1**

*Credits: 2*

Examines instructional leadership through effective instruction, standards-based planning, and other skills needed to lead data-driven instruction and professional development.

### **EPL 6270 - Instructional Leadership 2**

*Credits: 2*

This course examines school improvement planning, the strategic use of data, the use of assessments to measure and support student achievement, continuous school improvement, and observation and feedback.

### **EPL 6272 - Strategic Management of Human Capital**

*Credits: 2*

Focuses on high-leverage practices and policies for building the school and staff capacity required to ensure student achievement: recruiting, selecting, developing, evaluating, rewarding, and retaining talent and teams through the support of core competencies.

### **EPL 6281 - Planning and Managing Change**

*Credits: 2*

Focuses on practical models and change tactics that leaders can use to make their organizations more effective.

Students learn to develop, communicate, and effectively implement change through clear and strategic action plans aligned with the priorities and goals of their schools and districts.

### **EPL 6300 - Independent Study**

*Credits: 3*

The student works independently on a personalized system of instruction.

### **EPL 6340 - Legal and Ethical Aspects of Leadership**

*Credits: 3*

Focuses on the legal and policy issues critical to effective school leadership. Students explore the constitutional and statutory rights of key stakeholders and develop strategies to make legally and ethically defensible decisions. Topics include equity and access; compliance; ethics; and the development, communication, and implementation of effective policy.

### **EPL 6343 - Field Studies 1**

*Credits: 3*

Internship activities directly aligned to the coursework in each module of the program. Field studies projects are part of a summative portfolio assessment.

### **EPL 6347 - Capstone Project**

*Credits: 3*

Substantive capstone thesis or initiative project, under the supervision of a faculty member, which integrates learning and knowledge from across the courses in the program.

### **EPL 6350 - Developing Human Capital**

*Credits: 3*

Focuses on the recruitment, selection, coaching, development, supervision, and retention of effective teachers and other employees. Topics include recruitment strategies, hiring and induction practices, professional development models, building personal and employee capacity through coaching, and the effective and ethical management of personnel.

### **EPL 6354 - Leading Organizational Change**

*Credits: 3*

Focuses on practical frameworks and strategies for change that leaders use to enhance the effectiveness of their organizations. Topics include effective approaches and potential barriers to change.

### **EPL 6355 - School Culture and Student Support**

*Credits: 3*

Assists students in understanding and applying proactive strategies that build an inclusive, equitable campus culture to promote students' wellbeing and student learning. Discusses the relationship between a strong, positive culture and highly effective classroom instruction that fosters student social-emotional growth and academic learning.

### **EPL 6356 - Legal Issues in Higher Education**

*Credits: 3*

Addresses the legal process as well as the legal rights, duties, and limitations of persons in the higher education community.

### **EPL 6358 - Equity and Access in Higher Education**

*Credits: 3*

Explores strategies for restructuring institutions of higher education with the goal of improving student support and achievement among diverse and historically marginalized groups.

### **EPL 6360 - The College Student**

*Credits: 3*

Offers a contemporary overview and understanding of college students and provides an overview of student development and learning in contemporary postsecondary educational institutions.

### **EPL 6363 - Faculty and Academic Governance**

*Credits: 3*

An overview of academic and faculty governance of colleges and universities in the U.S., with an emphasis on the roles and responsibilities of institutional stakeholders.

### **EPL 6367 - Instructional Leadership Literacy**

*Credits: 3*

Upon completion of a year-long campus improvement initiative, students compose a final capstone paper in which they synthesize the project portfolio components, analyze final data, and make recommendations for future consideration. Although this class occurs during the summer term of the second year, the capstone paper is the culmination of a school improvement project completed throughout the year.

### **EPL 6373 - Special Topics**

*Credits: 3*

Elective courses that address a current topic or specialized content in higher education.

### **EPL 6374 - Interpreting Educational Research**

*Credits: 3*

Focuses on basic quantitative research methods used in higher education administration and research. Students become familiar with a variety of statistical techniques and learn to apply them to real-world problems.

### **EPL 6375 - Leading with Values**

*Credits: 3*

Enables participants to examine their identity as a leader and the ways their decisions and actions impact values-driven behavior, organizational resilience, adaptability, and an achievement-based culture.

### **EPL 6376 - Public Policy and Higher Education**

*Credits: 3*

Focuses on the antecedents and consequences of public policy for higher education at the state and federal levels of American government.

### **EPL 6379 - Student Affairs Administration**

*Credits: 3*

An overview of student affairs administration and leadership in contemporary postsecondary educational institutions.

### **EPL 6391 - Collaborative Leadership**

*Credits: 3*

Strategies to engage families and communities in campus improvement. Candidates review how governmental entities and business partners can promote student achievement.

### **EPL 6392 - History of Higher Education**

*Credits: 3*

An examination of the purposes of higher education based on the historical influences on the development of colleges and universities.

### **EPL 6394 - Emerging Issues in Higher Education**

*Credits: 3*

Addresses emerging issues, trends, and debates in higher education.

### **EPL 6395 - Urban School Residency**

*Credits: 3*

During residency, candidates have authentic opportunities to lead adults, make mistakes, and grow through meaningful assessments, ongoing coaching and feedback, and identification of candidates' strengths and weaknesses.

### **EPL 6396 - Higher Education Finance**

*Credits: 3*

Considers the critical components of higher education finance and economics, including the key theories, issues, challenges, and structures of financing colleges and universities.

### **EPL 7350 - Methods of Systematic Inquiry**

*Credits: 3*

Explores different research designs, including case study, program evaluation, policy analysis, and survey. Students develop research questions for applied dissertation.

### **EPL 7351 - Quantitative Inquiry**

*Credits: 3*

Investigates quantitative research methods, including descriptive and inferential statistics. Students apply quantitative procedures to real-world data.

### **EPL 7352 - Qualitative Inquiry**

*Credits: 3*

Explores qualitative research methods, including data collection and analysis in real-world contexts.

### **EPL 7353 - Topics in Advanced Inquiry**

*Credits: 3*

Examines advanced quantitative and qualitative research methods as needed for applied dissertation.

### **EPL 7354 - Pre-K to 16 Comparative International Policy**

*Credits: 3*

Explores policies and practices in schools and universities internationally, with a focus on identifying implications for education in the U.S.

### **EPL 7355 - Applied Dissertation**

*Credits: 3*

Supports the completion of the applied dissertation through advising and accountability processes.

### **EPL 7358 - Ethical and Moral Leadership**

*Credits: 3*

Examines historical, philosophical, and ethical perspectives to inform crafting personal and organizational visions as well as strategies to enact these visions in practice.

### **EPL 7359 - Leading Organizations**

*Credits: 3*

Explores and analyzes theories, frameworks, and critical attributes of leadership and organizational behavior and their impact on an organization's success.

### **EPL 7360 - Strategic Management of Change**

*Credits: 3*

Investigates theories of organizational change and implications for leaders' skills in initiating and sustaining change efforts.

### **EPL 7361 - Academic Leadership 1: Research on Teaching and Learning**

*Credits: 3*

Explores research on how students learn and on effective teaching strategies for different content areas and student subgroups.

### **EPL 7362 - Academic Leadership 2: Improving Student and Adult Learning At Scale**

*Credits: 3*

Integrates adult learning theory and systems theory in exploring central-office theories of action to support development of capacity at all levels of the organization.

### **EPL 7363 - Policymaking and Politics in Education**

*Credits: 3*

Explores theories of policy enactment and implementation as well as the process of policy analysis at local, regional, state, and national levels.

### **EPL 7364 - Contemporary Education Policy**

*Credits: 3*

An overview of current issues in K-12 education policy with a focused examination of some policy issues.

### **EPL 7365 - Legal and Ethical Issues in Education**

*Credits: 3*

Examines critical legal topics for leaders of school systems and explores the relationship between law, public policy, and current issues in education.

### **EPL 7366 - Education Budgeting and Finance**

*Credits: 3*

Examines public education finance, district budgeting processes and policies (including strategic allocation, stakeholder engagement, monitoring, containment, and bonds), and emerging issues.

### **EPL 7368 - Strategic Talent Management**

*Credits: 3*

Examines systems for recruiting, selecting, developing, evaluating, retaining, and compensating talent. Various coaching models are explored.

### **EPL 7369 - Governance, Partnerships, and Community Engagement**

*Credits: 3*

Explores the roles of the various constituencies in education, with a focus on building effective board relationships, developing strategic partnerships, and leveraging and managing community assets.

### **EPL 7370 - Entrepreneurship, Technology, and Innovation in Education**

*Credits: 3*

Examines entrepreneurship in the education sector, the cultivation of innovation in organizations, and recent trends related to the use of technology.

### **EPL 7371 - Superintendent Internship**

*Credits: 3*

Required of candidates for the Texas Superintendent Certificate. This course includes a minimum of 160 hours of supervised internship activities aligned to the state standards for certification.

### **EPL 7372 - Leadership Practicum**

*Credits: 3*

Students engage in deep reflection on their leadership practice through the design of experiences aligned with program competencies and professional interests.

### **EPL 7380 - History of Higher Education**

*Credits: 3*

Examines the purposes of higher education based on the historical influences on the development of colleges and universities.

### **EPL 7381 - Academic Leadership in Higher Education**

*Credits: 3*

Explores the major tenets of academic decision-making, faculty norms and motivations, and the unique academic missions of higher education institutions.

### **EPL 7382 - Contemporary Issues in Higher Education**

*Credits: 3*

Addresses emerging issues, trends, research, and debates in higher education.

### **EPL 7383 - Financial Strategy and Management in Higher Education**

*Credits: 3*

Examines principles and practices in higher education finance and promotes the assessment and improvement of financial management of postsecondary institutions.

### **EPL 7384 - Legal Issues in Higher Education**

*Credits: 3*

Examines critical legal topics for leaders of postsecondary institutions and explores the relationship between law, public policy, and current issues in education.

### **EPL 7385 - The College Student**

*Credits: 3*

Examines students in all types of postsecondary settings, specifically their academic and cocurricular experiences.

### **EPL 7386 - Leading Student Affairs**

*Credits: 3*

Provides an overview of student affairs administration and leadership in contemporary postsecondary educational institutions.

### **EPL 7387 - Leading Diverse Campuses and Systems of Postsecondary Education**

*Credits: 3*

Explores the sociohistorical, legal, political, and institutional contexts impacting equity and access in higher education.

### **EPL 7388 - Leading Organizational Change in Higher Education**

*Credits: 3*

Investigates theories of organizational change and implications for leaders' skills in initiating and sustaining change efforts.

### **EPL 7389 - Strategic Enrollment Planning and Management**

*Credits: 3*

Explores the interconnected strategies and approaches for enrollment management, ranging from recruitment, to admissions, to student success.

### **EPL 7390 - Public Policy in Higher Education**

*Credits: 3*

Examines the evolution and formation of public policy for higher education in the U.S. Also, the impacts of changes in public policy on students and postsecondary institutions.

### **EPL 7391 - Public Policy Analysis in Higher Education**

*Credits: 3*

Provides strategies to evaluate, interpret, design, and conduct policy analysis.

### **EPL 7392 - Special Topics in Higher Education Policy**

*Credits: 3*

Identifies current trends and issues in local, state, and federal education policy. Historical and contemporary policies and their impact on postsecondary institutions are compared.

### **EPL 7393 - Organizational Theory in Higher Education**

*Credits: 3*

Provides a general understanding of organizational theory with specific application to problems and issues in higher education.

### **EPL 7394 - The American Community College**

*Credits: 3*

Provides an overview of how various types of two-year, postsecondary American institutions have evolved and function.

### **EPL 7395 - Leading for Equity and Diversity**

*Credits: 3*

Provides students with the research, theory, and practical guidance to lead "socially just" schools and organizations.

# Graduate Liberal Studies

[www.smu.edu/gls](http://www.smu.edu/gls)

**Professor John Mears, Faculty/Program Chair**

**Graduate Liberal Studies Academic Council, 2019–2020 Professor:** Robert Hunt (Theology)

**Associate Professors:** Bill Barnard (Religious Studies), Crista DeLuzio (History), Sara Romersberger (Theater), Nick Tsarvesky (Chemistry)

**Senior Lecturer:** Bruce Levy (English)

**Professor of Practice:** Rick Halperin (History)

**Adjunct Faculty:** Janet Harris (English), Candice Bledsoe (Education), Carmen Smith (Art Education)

**Emeritus Professors:** John Mears (History)

## Department Information

Graduate liberal studies education allows each student the intellectual and personal freedom to chart his or her own self-directed course to a master's degree, advanced certificate, and/or doctoral degree without the typical constraints or requirements of a traditional graduate program. Students are encouraged to cultivate their own passions with the opportunity to personally distinguish themselves personally and professionally to make greater contributions to society.

## Liberal Studies, D.L.S.

### Contact Information

**Doctor of Liberal Studies**

PO Box 750253

Dallas, TX 75275-0253

214.768.4273

[www.smu.edu/dls](http://www.smu.edu/dls)

Michele Mrak, **Executive Director**

John Mears, **Faculty/Program Chair**

The D.L.S. program is designed for part-time or full-time adult learners with a master's degree who are interested in rigorous advanced study. Under the guidance of senior faculty members, students engage in focused scholarly reading and research on an interdisciplinary topic or issue, culminating in a doctoral thesis that demonstrates interdisciplinary analysis, synthesis and interpretation.

## Curriculum

Doctoral students must complete 36 credit hours of coursework, 18 hours of which are required core courses and 18 hours of which are chosen based on the student's declared focal area of study. Following the coursework, students must complete a comprehensive exam, a thesis (totaling a minimum of 9 credit hours), and an oral defense. Completion of the 45 credit hour program typically requires 5 years of study. A full-time track is available for international students or those wishing to pursue their studies at an accelerated pace. Students enroll in the required courses listed below for their first two years each fall, spring and following fall.

D.L.S. courses are taught in lecture and seminar format and are in some cases available for enrollment to both D.L.S. and M.L.S. students. For D.L.S. students enrolling in M.L.S. courses, students are given additional reading and writing assignments and a leadership component. Students are allowed to engage in as many as nine credit hours of directed reading/tutorial study.

Up to nine hours of transfer credit or advanced standing may be awarded, as determined by the executive director and faculty/program chair. Such credits must derive from graduate-level academic work earned at SMU or another accredited university.

## Core Courses

- HUMN 7391 - To Be Human: Perspectives on Common Historical Experience
- HUMN 7392 - To Be Human: The Transformation of the Psyche
- HUMN 7393 - To Be Human: The Art of Creativity and Expression
- HUMN 7394 - To Be Human: East Meets West - Intelligence, History, Culture, and Society
- HUMN 7395 - To Be Human: The Struggle for Human Rights
- HUMN 7396 - To Be Human: Science and Society

## Admission Requirements

Students enroll in cohort groups, and cohorts begin in the fall only. Applications submitted by March 1 receive priority review; applications received after March 1 are reviewed on a rolling basis until the fall class is full. To maintain the high degree of individualized attention expected in doctoral programs, admission is limited to approximately 15-20 students per cohort. Applications can be submitted online at [www.smu.edu/dls](http://www.smu.edu/dls) or emailed to [smudls@smu.edu](mailto:smudls@smu.edu).

Applications are accepted for fall term only. Admission requirements include the following:

1. Completion of the D.L.S. application.
2. An application fee.
3. Official undergraduate transcripts with a GPA of 3.000 or higher and graduate transcripts with a GPA of 3.500 or higher (preferred).
4. A letter of purpose clearly and specifically outlining the focal area to be explored by the doctoral thesis.
5. An academic writing sample.
6. Three letters of recommendation, including one from a professor from a prior graduate program who can attest to the applicant's academic proficiency to participate in a doctoral program and one from a direct supervisor in the candidate's organization.
7. A résumé/curriculum vita.
8. An interview with the program director or faculty chair (mandatory).

## Degree Requirements

Students must enroll in a minimum of six credit hours of coursework per term for the first three terms to complete foundational seminars (18 credit hours). Thereafter, students must enroll in at least three credit hours per term.

Maintenance of good standing requires a 3.000 average GPA. Degree requirements include the following:

- A total of 36 credit hours of traditional graduate coursework (up to nine hours may be transferred).
- Comprehensive exams.
- A minimum of an additional nine credit hours of doctoral thesis research and writing. The doctoral thesis will have an oral defense.
- A D.L.S. doctoral thesis is expected to demonstrate a level of mastery and academic rigor in interdisciplinary studies comparable to, though distinct from, the equivalent level of mastery and rigor expected of a Ph.D. dissertation in a disciplinary field.

## Liberal Studies, M.L.S.

### Contact Information

**Master of Liberal Studies**

PO Box 750253

Dallas TX 75275-0253

214-768-4273

[www.smu.edu/MLS](http://www.smu.edu/MLS)

Michele Mrak, **Executive Director**

John Mears, **Faculty/Program Chair**

The M.L.S. program is an interdisciplinary program designed to offer participants freedom and flexibility in planning a course of study. Its coursework encourages critical and imaginative thinking on intellectual, social, political, historical, literary and artistic issues within a broad humanistic perspective. Seminar-style courses are taught by professors noted for teaching excellence.

The M.L.S. program requires 36 credit hours of graduate study to be completed within six years, although most students complete their study in three to four years. The course of study is very flexible and allows students to design individual programs that best reflect their needs and interests. Most M.L.S. program classes meet in the evenings with spring and fall classes meeting one night a week and summer session courses meeting three times weekly.

The curriculum includes courses in the behavioral sciences, fine arts, humanities, science and culture, and social sciences. With 18 credit hours or six classes in a specific curricular field, students can concentrate in the following areas: humanities; human rights and social justice; the arts and cultural traditions; global studies; gender studies; American studies; creative writing; organizational dynamics; environmental sustainability; communication, media and technology; and self-designed.

## Curriculum

**Behavioral Sciences.** Behavioral sciences courses examine the individual and his or her behavior in various environmental settings such as family and the workplace. Courses blend psychology, sociology, organizational behavior and anthropology to introduce students to issues in human behavior as it is influenced by cultural values and expectations.

**Fine Arts.** Fine arts courses offer a variety of perspectives on artistic expression throughout history and across cultures. The variety of courses encourages students to study Western and non-Western visual arts, dramatic arts, and music within a broad socio-historical context.

**Humanities.** Humanities courses offer the broadest possible treatments of literature, philosophy, religion and communications. By connecting the history of human ideas as presented and disseminated through poetry and imaginative literature and the development of religious and philosophical thought, humanities courses provide insight into the nature and development of humankind.

**Science and Culture.** Science and culture courses present issues pertaining to health, the environment, the understanding of the natural world and the implications of technological advancement as approached by professors of chemistry, geology, physics and biology.

**Social Science.** Social science courses provide a blend of history, economics and political science in the study of wealth, power and status. Courses explore the nature of citizenship as it has evolved over time.

## Admission Requirements

The M.L.S. program seeks to enroll motivated and enthusiastic students prepared for and interested in graduate-level study. All applicants must have the following:

1. A bachelor's degree (or equivalent) from an accredited college or university.
2. An official transcript from the school that awarded the degree.
3. A completed application form and application fee.
4. A critical analysis essay.
5. A personal statement that reflects an interest in the M.L.S. program.
6. Two letters of recommendation (preferably one academic and one professional).
7. A personal interview is required.
8. Optional: resume.

Applications online are considered on a rolling basis for the fall, summer and spring terms. Applications for M.L.S. program admission must be completed and online in the M.L.S. Office before the beginning of the term. A student must receive official acceptance into the program before enrolling in classes. In some cases, a provisional acceptance

may be tendered for one term while awaiting the arrival of an official transcript or in other situations in which it is deemed appropriate by the dean of the Simmons School.

The GRE graduate school entry exam is not required for admission. Admission decisions are based on the applicant's previous academic record, the level of writing ability demonstrated in the essay and an interview regarding the applicant's academic goals and expectations.

## Degree Requirements

Thirty-six credit hours of approved graduate study are normally completed within six years after beginning the program.

1. Students must take two foundational courses within the first 12 hours of their coursework: HUMN 6316 (three credits) and a designated three-credit writing-intensive course. These courses may not be waived.
2. Students must complete their coursework with at least a B (3.000 GPA) average. All courses attempted for credit on a student's graduate program must average B (3.000) or better, with no grade less than C (2.000) applying toward the degree.
3. Within the 36 hours, students may include up to six hours of transfer graduate credit from another accredited institution or another academic department at SMU (explained below).
4. Within the 36 hours, students may also include up to six hours of independent study (explained below).
5. Students must conclude their degree program with a capstone course or thesis during the last year of the program.
6. Students may elect to specialize or concentrate in a particular curricular area through the course of the degree. If a student elects to concentrate or specialize in a specific curricular area, she or he must complete the following requirements:
  - a. Three credit hours for the required introductory course, HUMN 6316.
  - b. Three credit hours for a designated writing-intensive course.
  - c. Eighteen credit hours of approved courses from the chosen area of concentration, selected in consultation with the director for academic advisement.
  - d. Three credit hours for the required capstone course/experience.
  - e. Nine elective credit hours.

Once the student satisfies the requirements for a given concentration, the concentration area will appear on the student's final transcripts. Double concentrations may be possible upon consultation with the director and/or faculty/program chair.

In addition to a self-designed concentration, the curricular concentrations include the humanities, the arts and cultural traditions, global studies, human rights and social justice, gender studies, creative writing, American studies, organizational dynamics, communication, media and technology, and environmental sustainability.

## Transfer Credit

The student must file with the M.L.S. Office a Petition for Transfer Credit, accompanied by a course description and official transcript. Transfer credit is accepted by the dean under the following requirements:

1. The course is compatible with the overall curriculum of liberal studies.
2. The course is graduate level (6000 or above or institutional equivalent).
3. The student has earned a grade of *A* or *B* in the course.
4. The course has not been used in attaining a previous degree.
5. The course has been taken within the past six years.

Courses taken prior to matriculation must be approved within one year of beginning the M.L.S. program. Transfer credit for study by correspondence or online study is considered on a case-by-case basis.

## Independent Study

Students may earn up to six credit hours through independent study in a subject area relevant to the M.L.S. program curriculum. Students must first complete the two required courses and must be in good academic standing to be eligible

to undertake an independent study. To enroll in an independent study, students must work with an M.L.S. program faculty member to define specific course requirements and complete an Independent Study Contract subject to the approval of the faculty/program chair. Independent study courses may be taken for one, two or three credit hours. The deadline to submit proposals to the M.L.S. Office is at least three weeks before the beginning of the term for which the study is requested. The form is available online in the M.L.S. Forms Library.

## Certificate of Advanced Graduate Study

The purpose of the Certificate of Advanced Graduate Study program is to provide adults the opportunity to pursue advanced studies in the liberal arts in a focused and disciplined manner. The certificate program encourages in-depth study of a core topic while drawing upon various disciplines to provide a broad understanding of the subject.

The certificate program is an 18-hour course of study beyond the master's degree. With the guidance of an adviser, students select a topic and design a program of study consisting of courses from the M.L.S. program curriculum, departmentally based graduate courses and independent study under the guidance of the adviser. A student's course of study will conclude with a research paper or creative project.

## Academic Requirements

The course of study as detailed in this catalog must be completed within four years, and students must maintain a 3.000 GPA throughout the program. A core curriculum of 18 credit hours is drawn from

- The M.L.S. program course offerings.
- A maximum of three credit hours in approved departmentally based graduate courses.
- A maximum of three credit hours of independent study.

## Admission Requirements

This program is designed for applicants with a Master's degree who wish to pursue advanced integrated and interdisciplinary, humanities-based graduate work, with a GPA of 3.00 (preferred). The completed online application for admission must be accompanied by:

1. A 750-word draft proposal that identifies the student's interest area, purposes for advanced study, previous study or background knowledge of the topic, and a tentative course of study. This document is used by the program director and faculty/program chair to determine whether the student's study proposal is appropriate for the program.
2. Official transcripts from SMU's M.L.S. program or another graduate program.
3. Application fee.

## Behavioral Sciences Courses

### BHSC 6100 - Independent Study

*Credits: 1*

Research and writing in behavioral sciences on special topics at the forefront of current intellectual interest.

### BHSC 6115 - Special Topics Seminar

*Credits: 1*

This seminar focuses on a single topic in the behavioral sciences through directed reading, seminar discussion, and a final paper.

### BHSC 6200 - Independent Study

*Credits: 2*

Research and writing in behavioral sciences on special topics at the forefront of current intellectual interest.

### BHSC 6300 - Independent Study

*Credits: 3*

Research and writing in behavioral sciences on special topics at the forefront of current intellectual interest.

### **BHSC 6302 - The Art of Public Speaking**

*Credits: 3*

Provides training in speech performance and speech evaluation skills in order to improve students' public-speaking skills and skills as discerning consumers of public communication. Covers historical speeches and theory and practical applications related to the formulation, presentation, and evaluation of public speeches. May be applied to the following curricular field concentrations: communication, media, and technology; humanities; arts and cultural traditions.

### **BHSC 6303 - The Future of Intimate Partnerships, Marriage, and Family**

*Credits: 3*

Debates about the future of families and family values continue to occupy a central place in economic, political, and religious discussions about Western society's aspirations and future prospects. The course equips students to enter the discussions and the debates knowledgeably and with an eye toward influencing their quality and outcome. May be applied to the following curricular field concentrations: organizational dynamics; humanities.

### **BHSC 6315 - The Lively Mind: Creative and Critical Thinking**

*Credits: 3*

Explores ways to develop intellectual powers through an examination of the biological and historical evolution of the human mind, and the development of perception, memory, imagination, and judgment. May be applied to the following curricular field concentration: humanities.

### **BHSC 6319 - Professional Ethics and Organizational Responsibility**

*Credits: 3*

Students study ethical issues connected with organizational management to develop their capacity to recognize and reason through ethical dilemmas. Cases and readings integrate ethical reflection and decision-making. Materials are selected based on topical relevance to contemporary managers, curricular relevance to liberal studies, and conceptual relevance to applied ethics. May be applied to the following curricular field concentrations: organizational dynamics; humanities; global studies; American studies; communication, media, and technology.

### **BHSC 6320 - Organizational Leadership**

*Credits: 3*

Describes and analyzes a wide variety of different theoretical approaches to leadership, with a focus on how each theory can be, or has been, employed in real-world situations. Special application is made through the readings of contemporary leadership books, classic cases, and great films. May be applied to the following curricular field concentrations: organizational dynamics; humanities; communication, media, and technology.

### **BHSC 6322 - Abnormal Psychology of Mind, Body, and Health**

*Credits: 3*

This course explores the relationship between emotions and illness and the role of psychological factors in health and illness. Methods of coping with and treating illness are discussed as an introduction to major concepts and issues of abnormal health psychology.

### **BHSC 6331 - The Psychology of Hate**

*Credits: 3*

Reviews and specifically details the leading and most recent theories of hate and examines the depth of hate-related utility and its futility. Covers topics such as in-group and/or out-group bias, aggression and its origins, physiology of aggression, history of hate groups and hate crimes, hate on the Internet and in the media, pop culture's representations of hate, hate speech, implications for victims of hate crimes, and motivations of perpetrators of hate-motivated crimes. Also, the relationship among aggression, hate, and violence; the pros and cons of group distinctions; the distinctions in hate crime and hate speech; the pros and cons of enhanced penalty legislation for hate crimes; the justifications for "isms;" and the brain chemistry and physiology behind aggression and anger. Students debate controversial topics in

the areas of race, sexual orientation, gender, identity or expression, and religion. In addition, students develop personal ways to combat hate and violence. This course may be applied to the following concentrations: humanities; human rights and social justice; gender studies.

### **BHSC 6355 - Psychology: The Discovery of Self**

*Credits: 3*

This course examines the nature of personality development and explores the contributing factors of heredity vs. environment relative to birth order, intelligence, family, and cultural forces. Students have the opportunity to learn and reflect on their own personalities using the Keirsey-Bates Temperament Sorter and Survey. The course explores the many aspects of the personality through learning, behavioral changes, human interactions, and personal growth. The course also offers multiple perspectives with which to view and understand the characteristic changes in personality that make life so interesting. This course may be applied to the following curricular field concentration: humanities.

### **BHSC 6363 - The Immigrant Experience**

*Credits: 3*

An interdisciplinary approach to immigration in the U.S. that explores the historical, ethical, social, cultural, legal, and political dimensions of the immigrant experience, as well as America's ambivalent and changing attitudes toward the immigrant. Topics include the peopling of America before the Civil War, current waves of immigration, the causes of migration, the growth of ethnic communities, the role of women, bilingual education, illegal immigration, and America as a multicultural society. May be applied to the following curricular field concentrations: global studies; American studies; human rights and social justice; humanities; organizational dynamics; gender studies.

### **BHSC 7158 - Conflict and Communication**

*Credits: 1*

Examines the psychological dynamics associated with the process and consequences of interpersonal conflict. Explores the moral, political, and cultural dimensions of conflict as they shape the identity of individuals and groups. May be applied to the following curricular field concentrations: humanities; communication, media, and technology; organizational dynamics.

### **BHSC 7165 - Power of Negotiation**

*Credits: 1*

Examines how to prepare for negotiation, maximize resources in a negotiation, enhance powers in negotiation, and sharpen creative thinking with emphasis on developing an appropriate negotiating style. May be applied to the following curricular field concentrations: organizational dynamics; communication, media, and technology; humanities.

### **BHSC 7170 - Human-Centered Leadership**

*Credits: 1*

Examines the human-centered dimensions associated with the process and consequences of leadership. Explores the theories, communication, emotional intelligence, and leadership in teams and in the twenty-first century. May be applied to the following curricular field concentrations: organizational dynamics; communication, media, and technology; humanities.

### **BHSC 7330 - Psychology of Sport**

*Credits: 3*

Explores psychological theories and research related to sport and exercise behavior in the context of motivation, team building and leadership, psychological skills training, and current issues and trends in sport psychology. Students learn how the application of sport psychology can improve human performance. May be applied to the following curricular field concentrations: humanities; organizational dynamics.

### **BHSC 7331 - Communication in Sport**

*Credits: 3*

Enhances knowledge of interpersonal and group dynamics and communication skills as well as conflict resolution and negotiation. Students apply the theories, concepts, and information to a communication plan for themselves as future sport leaders. May be applied towards the following curricular field concentrations: communication, media, and technology; organizational dynamics; humanities.

### **BHSC 7335 - Sustainability Leadership: An Introduction to Organizational Sustainability Leadership**

*Credits: 3*

Engages students interested in leading their companies and organizations in sustainability. Students study the three pillars of sustainability: environmental, economic, and social, by addressing the complex issues leaders face while balancing these competing interests to affect a more equitable and sustainable future. Students will explore leadership roles, dialogues, and mechanisms for implementing sustainability principles and empowerment across a variety of sectors: business, government, Main Street or community, non-profits, and religious organizations. May be applied to the following curricular field concentrations: organizational dynamics; humanities; environmental sustainability; American studies; global studies; communication, media, and technology.

### **BHSC 7341 - Coaching for Educational and Organizational Leaders**

*Credits: 3*

Builds on BHSC 7368 and BHSC 7369 by refining the practice of coaching and leadership, as well as deepening an understanding of how individual and organizational change happens. Pays special attention to the role of the coach leader and how those serving in leadership roles can positively impact performance at the individual and organizational level by effectively using the coaching mindset and skillset. Fully explores the power of questions, not only to spur individual growth but also to create cultures of learning and innovation. Finally, continues to investigate the theoretical bases of coaching, which together comprise the intellectual frame for the practice. May be applied to the following curricular field concentrations: organizational dynamics; communication, media, and technology; humanities.

### **BHSC 7350 - Special Topics in Behavioral Science**

*Credits: 3*

Covers special topics in the status of behavioral science.

### **BHSC 7355 - Cultural Intelligence: Understanding Leadership in Culturally Complex Situations**

*Credits: 3*

An academic exploration of an emerging field in the science of business and a seminar in the practical means by which people can increase their own cultural intelligence and teach cultural intelligence in a workplace environment. Explores theories of culture, cultural competence and cultural intelligence, methods for teaching cultural intelligence, and emerging pedagogies of cultural intelligence for the workplace. This course may be applied to the following curricular field concentrations: global studies; human rights and social justice; humanities; gender studies; organizational dynamics.

### **BHSC 7357 - The Moral and Spiritual Landscape of Childhood and Adolescence**

*Credits: 3*

This course offers for discussion and critical reflection a developmental perspective on moral reasoning and religious experience in childhood and adolescence, in light especially of the theories of Jean Piaget, Erik Erikson, Lawrence Kohlberg, and James Fowler. These theories are supplemented by a close look at the research of psychoanalyst Ana-Maria Rizzuto on the God-ideas of early childhood. A particular focus of the course is on how moral and religious development can be impeded by impositions of adult teaching on children and adolescents before their cognitive development is sufficient to permit assimilation and independent assessment of them. This course may be applied to the following curricular field concentration: humanities.

### **BHSC 7358 - Conflict and Communication**

*Credits: 3*

Examines psychological dynamics associated with the process and consequences of interpersonal conflict. Students learn how people understand, explain, and respond to the various conflicts that comprise their reality: internal, interpersonal, and intergroup struggles. Cognitive, affective, and motivational processes are presented and discussed in the context of different philosophical and scientific explanations. The course explores the moral, political, and cultural dimensions of conflict as they shape the identity of individuals and groups. Emphasizes didactic and experiential learning. May be applied to the following curricular field concentrations: humanities; communication, media, and technology; organizational dynamics.

### **BHSC 7361 - Gender and Psychopathology Across Cultures**

*Credits: 3*

Explores how people experience psychological distress and what its varied manifestations (psychiatric symptoms, somatic complaints, spirit afflictions, relational disruptions) reveal about the social and cultural construction of psychopathology. While the suffering of psychological illnesses is an excruciating reality in the lives of many people, its amelioration necessitates an understanding of how the conception and experience of psychopathology are shaped by local values and conditions. This advanced course draws upon the fields of anthropology, psychology, psychiatry, history, religion, and gender and sexuality studies to explore the interrelationships among culture, gender, and the conceptualization of madness in North America and other parts of the world. May be applied to the following curricular field concentrations: global studies; gender studies; arts and cultural traditions; humanities.

### **BHSC 7362 - Understanding Strategy: Government, Business, and Social Movements**

*Credits: 3*

Explores concepts of military, business, and social strategies through the ages. Provides an in-depth examination of the strategy of two case studies each in the military, business, and social movements. Students learn how to think more strategically. May be applied to the following curricular field concentrations: organizational dynamics; global studies; humanities; communication, media, and technology.

### **BHSC 7365 - The Power of Negotiation: Mastering Negotiation for Personal and Professional Success**

*Credits: 3*

Presents a step-by-step process for successful transactional behaviors. Students learn how to prepare for negotiation by maximizing resources, enhancing their powers in negotiation, and sharpening their creative thinking, with an emphasis on developing an appropriate negotiating style. May be applied to the following curricular field concentrations: organizational dynamics; communications, media, and technology; humanities.

### **BHSC 7366 - Adolescent Psychology**

*Credits: 3*

Explores adolescent growth and development as a period of self-discovery. Students reflect back and develop a new understanding of their past and present selves. Fosters critical and incisive thinking about issues that have a significant impact on adolescent development in the 21st century. Provides perspectives on adolescents and what they think about the world around them by examining how different experiences shape adolescent growth across diverse cultures. Examines the modern transitional stage of emerging adulthood, where the end of adolescence and the preparation for adult roles are postponed. May be applied to the following curricular field concentration: humanities.

### **BHSC 7368 - Educational Coaching: Ensuring Success for All Learners**

*Credits: 3*

Enhances the leadership and coaching styles of educational professionals in management positions through self-reflection and interactive and experiential learning focused on educational effectiveness, innovation, and success. Explores concepts such as the mind and skill sets needed to facilitate transformation within individuals and systems to ensure high-quality teaching and learning for all students, including English language learners. May be used to fulfill

the writing intensive requirement or applied to the following curricular field concentrations: organizational dynamics; communication, media, and technology; humanities.

### **BHSC 7369 - Potential and Performance: Coaching for Individual and Organizational Effectiveness**

*Credits: 3*

Builds on BHSC 7368 in a continued investigation of the theory and practice of coaching in an effort to develop and deepen students' coaching mindset and skillset. Students gain practice and feedback as they use coaching tools and implement, analyze, and synthesize the coaching model, as well as the coaching relationship and the role of coaching in facilitating organizational transformation. Emphasizes coaching that closes the gaps between potential and performance. Also, the transformation coaches experience in that one must change in profound ways ("get bigger") to move to higher levels of effectiveness. In addition to becoming masterful coaches, students work to increase their capacity for systems thinking and leading organizational change. May be used to fulfill the writing intensive requirement or applied to the following curricular field concentrations: organizational dynamics; communication, media, and technology; humanities.

### **BHSC 7370 - Death, Dying, and Grief**

*Credits: 3*

Examines the development of attitudes toward death throughout the life cycle and the ways variables such as gender, occupation, religion, social class, and culture affect these attitudes. Provides an overview of the stages of the dying process typically experienced by the terminally ill individual. Addresses the importance of grief and the process of grieving. Examines ethical issues related to death and dying in contemporary society. May be applied to the following curricular field concentrations: humanities; organizational dynamics; and communication, media, and technology.

### **BHSC 7371 - Responding and Coping with Public Tragedy**

*Credits: 3*

Discusses healthy responses to coping with the risks of death in the modern world. Examines various types of public tragedies such as accidents, natural disasters, homicide, violence, and terrorism. Explores factors influencing public perceptions, the role of media, and first responders. Identifies strategies for survivors and how different cultures and faith traditions respond. May be applied to the following curricular field concentrations: humanities; organizational dynamics; and communication, media, and technology.

## **Fine Arts Courses**

### **FNAR 6100 - Independent Study**

*Credits: 1*

Directed study.

### **FNAR 6110 - Special Topics in Fine Arts**

*Credits: 1*

Focuses on a special topic in the fine arts through lectures, seminar discussion, and writing assignments.

### **FNAR 6200 - Independent Study**

*Credits: 2*

Directed study.

### **FNAR 6300 - Independent Study**

*Credits: 3*

Directed study.

### **FNAR 6301 - Action! Dramatic Screenwriting**

*Credits: 3*

Hands-on writing course for beginners and for those already writing screenplays or plays. Focuses on basic requirements for dramatic writing (film, theatre, and solo performance): action, dialogue, and narrative. Includes a series of in-class exercises and writing assignments on how to create a new work or rewrite a work in progress. Scenes from classic plays are studied and emulated. May be applied to the following curricular field concentrations: arts and cultural traditions; creative writing; humanities.

### **FNAR 6305 - From Sunrise to Psycho: Form and Meaning in the Cinema**

*Credits: 3*

Examines the evolution of cinematic methods of expression, from the end of the silent era, through the transition to sound and the subsequent development of the movie industry, to 1960. Students screen and closely examine sequences from 14 masterpieces of world cinema, beginning with F.W. Murnau's great silent film "Sunrise" (1927) and concluding with Jean-Luc Godard's "A Bout de Souffle (Breathless)" and Alfred Hitchcock's "Psycho" (1960). Selected readings and screenings of short sequences from other relevant films explore the economic, social, and cultural context for these major artistic achievements. May be applied to the following curricular field concentrations: humanities; communication, media, and technology; arts and cultural traditions.

### **FNAR 6306 - Reading to Write: Learning From the Masters**

*Credits: 3*

Good writing is never imitative, but good writers always learn from other writers. Whether analyzing the successful techniques of a classic work by Hemingway, Warren, Munro, or the latest best-seller, writers of fiction and nonfiction benefit from the study of others' storytelling. Through literary analysis and application of techniques studied, writers enhance their creative projects. This course is a combination of close reading and creative writing. The course may be applied to the following curricular field concentration: creative writing or humanities.

### **FNAR 6307 - Chemistry and Technology in Art: From Antiquity to the Industrial Revolution**

*Credits: 3*

Students become acquainted with the major developments in science and technology through the ages and learn how these developments influenced materials and techniques used in art. Includes discussions on various artists' materials such as dyes and pigments, clays, metals and alloys, glasses, and coatings and adhesives. The major art forms that employ these materials include painting, dyeing of textiles, manuscript illumination, glass and metalwork, and ceramics. Original sources from antiquity, the Middle Ages, the Renaissance, and more modern periods are used to learn how various materials were prepared and applied in art. This course may be applied to the following curricular field concentrations: communication, media, and technology; arts and cultural traditions.

### **FNAR 6308 - Creating Truths**

*Credits: 3*

Narratives explore the margins of humanity, and they are a means of expressing, celebrating, and instructing others. Students explore factual and fictional stories and how they work, how people read and appropriate what they read, and how narratives are important to everyday life. Conducted in a workshop setting, the course focuses on the analysis and creation of stories, with in-seminar writing exercises. Interchanges between two genres (short fiction and creative nonfiction) assist in the crafting of stories in either or both genres. May be applied to the following curricular field concentrations: arts and cultural traditions; creative writing; humanities.

### **FNAR 6313 - Approaching Contemporary Art, Facing the Millennium: 1980-2010**

*Credits: 3*

This course encompasses the 30 years of contemporary art straddling the turn of the century, 1980-2010. The art combines materials, methods, concepts, and subjects that challenge traditional boundaries and defy easy definition. Students witness ever-growing, new ideas developed by adventurous, mostly young artists worldwide. Contemporary art is the art of today produced by artists living in the 21st century. It is a window on contemporary society that helps

people understand the world and themselves. This course may be applied to the following curricular field concentrations: humanities; arts and cultural traditions.

### **FNAR 6315 - Creating the Memoir**

*Credits: 3*

The memoir, a subgenre of creative nonfiction, explores the methodologies for writing about the self. Through analysis of existing memoirs, suggested strategies for such writing, and a hands-on workshop setting, this seminar enables students to tell their stories. May be applied to the following curricular field concentrations: arts and cultural traditions; creative writing; humanities. Repeatable for credit.

### **FNAR 6316 - History, Humanity, and Humor: Physical Comedy and Beyond**

*Credits: 3*

Explores the roots of comedy and asks why comedy has historically made people laugh. After researching comedies in historical dramatic literature, masks of the commedia dell' arte, comic scenarios, and comedic problem-solving, students recreate classical physical comedy and investigate their own personal clown. Examines the ways man's humanity is revealed through humor and the similarities between centuries-old humor, physical comedy, and that of popular culture today. May be applied to the following curricular field concentrations: humanities; arts and cultural traditions.

### **FNAR 6333 - Approaching Contemporary Art: Post-World War II, 1950-1980**

*Credits: 3*

Presents art from the end of World War II to the close of the 20th century and sets the stage for students to explore new art. Students become familiar with artists, their signature styles, and their effect on the course of art history. Students also develop confidence looking at new art, enhancing their own aesthetic judgment, and enriching their lives culturally. May be applied to the following curricular field concentrations: humanities; arts and cultural traditions; global studies; American studies.

### **FNAR 6387 - Inspiring Creative Minds Through Original Art**

*Credits: 3*

Most encounters with works of art are limited to learning objective information about them - when, where, why, and by whom they were created. Seldom are visitors invited to spend thoughtful time with the works and explore their complexities, and rarely are they encouraged to discover personal connections and construct their own meanings. This course invites students to consider works of art in a variety of contexts, to learn through them, and to be inspired to think and respond creatively to them. May be applied to the following curricular field concentration: arts and cultural traditions.

### **FNAR 6390 - Evocation, Narratives, and Nature: Understanding 18th-19th Century Romanticism**

*Credits: 3*

Examines late 18th to early 19th century paintings by European and American artists who embraced the ideals of Romanticism. Presents select works by philosophers, critics, poets, and composers to help students develop a broader understanding of the intellectual and cultural climate of the time period. May be applied to the following curricular field concentrations: arts and culture; humanities.

### **FNAR 6394 - Creating Poetry**

*Credits: 3*

In this workshop, students read and interpret a wide variety of poems, craft poetry using different poetic forms, and critique and evaluate their classmates' poems. Repeatable for credit. This course may be applied to the following curricular field concentrations: creative writing; arts and cultural traditions; humanities.

## **FNAR 6396 - Time Past, Time Present: Storytelling with a Backdrop of History**

*Credits: 3*

All writing reflects a backdrop of history, and storytelling in fiction and nonfiction becomes richer, more dramatic, and closer to the "truth" when a writer researches, explores, and incorporates historical context. By mining the past for stories waiting to be told, writers spark their creativity and enhance the richness of their creations. When writers attempt to capture the significance of historical events, often the more dramatic approach is the most personal - a momentous event through the eyes of a single individual just living daily life in interesting times and struggling with personal challenges and demons. Whether an author uses fiction or nonfiction to capture that experience, dramatic storytelling can be the best way to explore time past, time present. The course combines creative writing with literary analysis and historical research to reflect the benefits of close reading, learning from the masters, exploring the "presentness" of the past, and enhancing the creative process. May be applied to the following curricular field concentrations: creative writing; humanities; arts and cultural traditions.

## **FNAR 7320 - Creative Nonfiction: Shaping Experience into Narrative**

*Credits: 3*

Explores what it means to "create truth"—to shape real experiences and events into stories. Strives to acquire unique stylistic approaches for constructing individual bodies of work. Goals are twofold: seek to understand the rhetorical and ethical importance of constituting identities and/or experiences in nonfiction, and work to identify and hone the fundamental techniques of nonfiction writing. May be applied to the following curricular field concentrations: humanities; creative writing; arts and cultural traditions.

## **FNAR 7321 - Creative Nonfiction: From Long-Form Article to Flash Lyric Hybrid and Everything In-Between**

*Credits: 3*

Explores the wide variety of forms available to nonfiction writers in order to construct nonfiction pieces. Goals are twofold: map the broad spectrum of formal approaches to nonfiction writing and work to identify and hone the stylistic techniques that best complement each form. May be applied to the following curricular field concentrations: humanities; creative writing; arts and cultural traditions.

## **FNAR 7350 - Special Topics in Fine Arts**

*Credits: 3*

Covers special topics in the status of the fine arts.

## **FNAR 7360 - Creating the Short Story**

*Credits: 3*

Students explore and create the short, short story (or flash fiction) and the longer short story. Conducted as a workshop, participants read and interpret a wide variety of short stories, craft short stories, and critique the stories written by their colleagues. The goal of the course is to move student work toward potential publication. This course may be applied to the following curricular field concentrations: creative writing; arts and cultural traditions; humanities. (This course may be repeated for credit.)

## **FNAR 7361 - Creating Compelling Narrative**

*Credits: 3*

Writers of thrillers, literary novels, and memoirs face a common challenge: compelling readers to continue reading. Powerful narrative results from an intriguing combination of what happens, who is involved, and why the characters act as they do. Students explore how narrative techniques like conflict, suspense, character motivation, plot complications, and resolution combine to engage readers, whether used in prominent ways as in a mystery or with more subtlety as in literary fiction. Through examination of classic fiction and current best sellers, students analyze effective storytelling and create compelling narratives, scene by scene. May be applied for the following curricular field concentrations: humanities; creative writing; arts and cultural traditions.

## **FNAR 7365 - Creating the Novel**

*Credits: 3*

The craft of writing a novel is explored through workshops that focus on writing exercises and the analysis of novels relative to structure, characterization, theme, and the development of plotline. Students write the beginning 45-60 pages of a novel, with the primary intention of writing toward the completion of a novel. Significant reading and writing are essential to successful achievement in this seminar. May be applied to the following curricular field concentrations: humanities; creative writing; arts and cultural traditions.

## **FNAR 7366 - Creating the Stage Play**

*Credits: 3*

Focuses on analyzing and writing one-act plays and explores a variety of stage play types, including tragedy, comedic tragedy, comedy, and one-person monologue. Seriously examines drama of all types other than the musical. Special attention is given to character, story lines, theatricality, and theme. Conducted as a workshop that includes in-seminar and out-of-seminar writing exercises, with colleague critiques geared toward the goal of developing a tightly organized one-act play. May be applied to the following curricular field concentrations: humanities; creative writing; arts and cultural traditions.

## **FNAR 7367 - The Writer's Voice**

*Credits: 3*

A writer's voice is the "sound" a writer makes when telling a story, the writer's creation of characters who speak for themselves, and the distinctive dialogue of individuals. A writer's voice begins with silence, grows into sound, expands to tone, and resonates throughout narrative and style. It reflects the core identity of the writer and demonstrates an author's facility with language and storytelling. Through close reading and extensive writing, students create fiction or nonfiction concentrating on the cluster of writing features that result in unique literary voices. May be applied to the following curricular field concentrations: humanities; creative writing; arts and cultural traditions.

## **FNAR 7368 - Science on the Stage**

*Credits: 3*

Science and theatre (or, more generally art) are often seen as two disparate and incompatible products of the human mind, even though both depict and study - and are inspired by - the wonders and majesty of nature, other surroundings, and the universe. To see science as merely analytical and art as merely creative is to rather simplistically stereotype the scientist ("unemotional" etc.) and the artist ("unserious" etc.). The course demonstrates the ways stage works have made various scientific discoveries accessible, entertaining, and inspiring. Includes lectures, student projects, and discussion of theatre-worthy scientists and scientific or pseudoscientific ideas/acts ranging from great and dignified to despicable. Students analyze plays and play excerpts (texts or video). This course may be applied to the following curricular field concentrations: humanities; arts and cultural traditions.

## **FNAR 7373 - Lone Star Art Stars: Contemporary Texas Artists**

*Credits: 3*

Presents contemporary art by Texas artists, beginning with the Lone Star regionalists in the 1930s and continuing with artists of the 21st century. Students explore regional art (this area has the third-largest artist population in the U.S.) in local galleries, museums, art spaces, and private collections. They become familiar with Texas artists, their signature styles, and their continuing maturity. Looking at new art, students enhance their aesthetic judgment and gain confidence in their own personal collecting. The course seeks to expand students' awareness of how the North Texas environment impacts artists and collectors. May be applied to the following curricular field concentrations: American studies; arts and cultural traditions; humanities.

## **FNAR 7374 - Mythic Image in Pop Music and Technology**

*Credits: 3*

An in-depth analysis of myth, pop music, and contemporary music technology that includes an examination of the evolution of pop music to its current status in which it mimics and sometimes replaces the traditional functions of the culturally informing myth. Focuses on technology from 1877 to the present, addresses issues of myth's presence and

viability in a modern world, and investigates the means by which pop icons such as Lady Gaga, Rush, and Ice-T affect local and global communities of listeners. May be applied to the following curricular field concentrations: arts and cultural traditions; communication, media, and technology; global studies; humanities.

### **FNAR 7375 - Religion and Theatre**

*Credits: 3*

Born in homage to divinity, theatre in the Western world has told the stories and reflected the beliefs, practices, questions, and conflicts within and among individuals, institutions, and societies for five recorded millennia. From the Osiris Passion Plays in ancient Egypt to "Angels in America" on Broadway, this course surveys great plays and the societies they reflected. May be applied to the following curricular field concentrations: humanities; arts and cultural traditions.

### **FNAR 7377 - Representing the Real: Form and Meaning in Documentary Film**

*Credits: 3*

Examines the documentary film tradition as it has developed from the silent period to the present. Features American films as diverse in their approach as "Nanook of the North" (1922), "Salesman" (1969), "Harlan County, USA" (1976), and "The Thin Blue Line" (1988), as well as important documentary film from France, Spain, Germany, and Japan, etc. May be applied to the following curricular field areas: humanities; arts and cultural traditions; communications, media, and technology.

### **FNAR 7381 - Writers on Writing: 21st-Century Storytelling**

*Credits: 3*

Explores guidance from writers, editors, and agents about the benefits of how blending powerful storytelling and quality writing signifies that "literary/commercial" may offer a new category for authors in the twenty-first century. Students analyze literary bestsellers since 2000 to glean support for their fiction, creative nonfiction, or memoir class projects. This course may be applied to the following curricular field concentrations: arts and cultural traditions; creative writing; humanities.

### **FNAR 7383 - The Art and Culture of Spain**

*Credits: 3*

Reviews the history of Spain, the sociopolitical and economic struggles that led to the Spanish Civil War, the subsequent 36-year authoritarian government of Francisco Franco (1892-1975), Spain's modern connections to centuries-old values and customs, and Spain's associations with ideologies outside of the country. Examines critic Julius Meier-Graefe, author Camilo José Cela, and modern painter El Greco. Focuses on what constitutes the Spanish identity and what defines modernity in the context of Spanish culture and art. Examines two painters who are relatively unknown outside of Spanish art historical circles: Ignacio Zuloaga (1870-1945) from the Basque Country and Santiago Rusiñol (1861-1931) from Catalonia. Students explore art and architecture from across centuries and use their own aesthetic awareness and critical skills in expressing their opinions based primarily on the visual (versus art historical) and affective aspects of objects and space. May be applied to the following curricular field concentrations: arts and cultural traditions; global studies; humanities.

## **Humanities Courses**

### **HUMN 6049 - Graduate Full-Time Status**

*Credits: 0*

Allows full-time status for graduate students without credit.

### **HUMN 6100 - Independent Study**

*Credits: 1*

Directed study.

### **HUMN 6200 - Independent Study**

*Credits: 2*

A directed study proposed by the student, under the guidance of a faculty member.

### **HUMN 6300 - Independent Study**

*Credits: 3*

Directed study.

### **HUMN 6303 - Thesis**

*Credits: 3*

Directed study toward thesis.

### **HUMN 6304 - Technology, Humanity and Concepts of Identity**

*Credits: 3*

Explores how the use of Internet technology affects an individual's concept of identity at both personal and societal levels. Using presentations, current events, cases, and online articles, students study topics such as the digital person, digital surveillance and personal freedom, and issues of privacy in a wired world. May be applied to the following curricular field concentrations: humanities; communication, media, and technology.

### **HUMN 6308 - Women's Lives and Literature**

*Credits: 3*

Examines American and British classic texts in the women's literary tradition, with a focus on how they reflect ideals and conflicts in their portrayal of women's lives from childhood to old age. Introduces selected modes of literary theory as a context for reading women's literature. Authors include Alcott, Morrison, Austen, Bronte, and Eliot. This course fulfills the writing intensive requirement or may be applied to the following curricular field concentrations: humanities; gender studies; arts and cultural traditions; American studies; human rights and social justice.

### **HUMN 6316 - The Human Experience: An Introduction to Graduate Liberal Studies**

*Credits: 3*

Introductory course for the M.L.S. program that is required of all degree-seeking M.L.S. students. Examines issues of human existence using interdisciplinary perspectives, primary readings, large-group presentations, and discussion groups. Students learn the various disciplines of human thought and problems, and they contribute to the overall knowledge of the many ways in which humans try to understand themselves and the world around them. Also, what it means to be human, including a consideration of the nature of products of human activity and the world in which humans find themselves. Includes a close look at the human condition and human creations such as social institutions, art, literature, and science.

### **HUMN 6317 - Literature and Identity, 1530-1680**

*Credits: 3*

A study of the interplay of religion, politics, and culture in the works of major English writers, from Shakespeare to Milton. May be applied to the following curricular field concentrations: humanities; arts and cultural traditions.

### **HUMN 6319 - Ethics and Literature**

*Credits: 3*

Examines literary works that evoke questions about individual responsibility, free will, the nature of evil, and the resolution of conflicting moral claims. This course may be used to fulfill the writing intensive requirement or may be applied to the following curricular field concentrations: humanities; human rights and social justice; gender studies; global studies.

### **HUMN 6321 - International Humanitarian Aid**

*Credits: 3*

Examines modern-day international responses to the emergency needs of people affected by major natural disasters and by inter- and intra-state conflicts that have occurred since the end of the Cold War. May be applied to the following curricular field concentrations: global studies (non-Western); American studies; human rights and social justice; humanities.

### **HUMN 6323 - Creativity and Dreams**

*Credits: 3*

Do dreams contain important insights, and even messages, about living more creatively both for ourselves and for others? Can dreaming play an important role not only in the regulation of sleep but in the generation of great visions for our own and humanity's future? This course explores these questions and offers methods for applying dream interpretation to the strengthening of one's own creative aspirations and powers. This course may be applied to the following curricular field concentration: humanities.

### **HUMN 6326 - Indigenous Peoples' Rights in a Global Economy**

*Credits: 3*

Provides a critical overview of present-day issues facing indigenous peoples and how they have been categorized in relation to ethnic groups, colonization, and the international system of states. Examines the current debates within the United Nations about indigenous peoples and human rights, and looks at the law and economics of colonization and emerging issues of international trade and globalization. The course also explores the relationship between jurisprudence and tribal customs in literature, history, and anthropology. May be applied to the following curricular field concentrations: human rights and social justice; global studies (non-Western); humanities; gender studies.

### **HUMN 6330 - Wit and Humor in African-American Literature**

*Credits: 3*

The goals of this course are to reach a better understanding of the aesthetics, cultural and historical experiences, and literary conventions of African-American writers. The focus is on traditional wit and humor in the selected works. Authors include traditional writers such as Hurston and Hughes, and contemporary writers such as Toni Morrison, J. California Cooper, and Ishmael Reed. Since African-American literature is based on oral tradition, students are expected to present individual readings and/or performances. May be applied to the following curricular field concentrations: arts and cultural traditions; humanities; American studies.

### **HUMN 6336 - Paradigms of Humanity in Science Fiction**

*Credits: 3*

Examines works in the genre of science fiction using a variety of novels, films, and short stories to question what it means to be human in relation to the alien other and the alien machine. May be applied to fulfill the writing intensive requirement for the M.L.S. program or toward the following curricular field concentration: humanities.

### **HUMN 6338 - The Fire of Transformation: Exploring the Mystical Life**

*Credits: 3*

Explores how certain individuals throughout the world and during different periods of history came to have powerful and transformative spiritual experiences. Students carefully examine the ways in which different religious traditions understand mysticism. They investigate a variety of spiritual techniques designed to catalyze, deepen, and stabilize these alternate levels of consciousness. Students delve into philosophical and social-scientific analyses of the dynamics of mystical states of awareness, and they probe the metaphysical, ethical, and psychological implications of mysticism in the modern world. May be applied to the following curricular field concentrations: humanities; global studies (non-Western).

### **HUMN 6341 - The Ethical Implications of Children's Literature**

*Credits: 3*

The course examines a wide range of children's literature, both historical and current, with an emphasis on building an adult understanding of the moral and cultural themes in these works. Issues of colonialism, race, ethnicity, gender, and class are confronted. Students become acquainted with different approaches to children's literature by reviewing a variety of literary criticism. This course may be applied to the following curricular field concentrations: humanities; gender studies.

### **HUMN 6350 - The Art of African-American Storytelling**

*Credits: 3*

Explains the traditional roots of African-American storytelling from Africa through the diaspora and examines the survival, uses, and importance of verbal arts in the African-American culture. The course also explores the cultural clashes between African-American descendants whose experiences are disparate: one group dominated by respect for the oral tradition and the other dominated by reliance on authorized written texts. May be applied to the following curricular field concentrations: humanities; arts and cultural traditions; American studies; human rights and social justice; gender studies.

### **HUMN 6351 - Interpretation and Performance of African-American Poetry**

*Credits: 3*

Extends the student's knowledge and awareness of African-American literary, aesthetic, and folk traditions through an examination of early- to contemporary-period poetry that reveals historical, political, and sociological influences. May be applied to the following curricular field concentrations: humanities; arts and cultural traditions; American studies; human rights and social justice; gender studies.

### **HUMN 6352 - Interpretation of Folklore in African-American Fiction**

*Credits: 3*

This course examines selected African-American novelists whose works are strongly influenced by the legacy of the African oral tradition. Students utilize selected readings to engage in lively discourse and demonstrate basic performance skills. This course may be applied to the following curricular field concentrations: humanities; arts and cultural traditions; American studies.

### **HUMN 6354 - Remembering the 1960s: Culture and Change**

*Credits: 3*

Examines eyewitness accounts, participants' recollections, and fictional and film representations from one of the nation's most controversial decades to discover how mass media influenced cultural perceptions and how later commentators on this era have constructed nostalgic or demonized versions (e.g., it was the decade that America came unraveled or it was the dawning of the Age of Aquarius) as ammunition in continuing contests over values. May be applied to the following curricular field concentrations: humanities; communication, media, and technology; arts and cultural traditions; global studies; American studies; human rights and social justice.

### **HUMN 6356 - Oral Interpretation of Literature**

*Credits: 3*

Explores how to give professional presentations in a public-speaking venue, with a focus on talks about written content such as literature and poetry. The spoken art form that originated in the ancient oral tradition is reappearing more significantly in today's world. May be applied to the following curricular field concentrations: communication, media, and technology; humanities.

### **HUMN 6358 - Trances and Dances: Investigations Into Indigenous Religious Life**

*Credits: 3*

Introduces students to the religious beliefs and practices of several non-Western (or pre-Western) indigenous cultures such as the Australian aboriginals, African tribal peoples, and native North and South Americans. Through readings,

videos, lectures, classroom discussions, and in-class activities, students examine such phenomena as spirit possession, sacrifice, masks, shamanism, out-of-body experiences, spiritual healing, visions, and pilgrimages. Students delve into the psychological and social functions of trance, exorcism, and magic and explore the problems and possibilities of cross-cultural religious contact. They also seek out the hidden meanings of myths and dreams. May be applied to the following curricular field concentrations: humanities; global studies (non-Western); American studies.

### **HUMN 6370 - The Literate Mind At Work**

*Credits: 3*

Students enhance their reading, research, analysis, and written argument skills. Activities include the analysis of literature as a record of human experiences, the refinement of writing skills through personal responses, argumentation, and presentation of research. In group and individual projects, students explore the literature of the Southwest and classic short stories as literary responses to clashes of cultures, social and human justice, and challenges to morality and values. This writing-intensive course clarifies basic research techniques, styles of documentation, and academic integrity. May be used to fulfill the writing intensive requirement or may be applied to the following curricular field concentrations: American studies; human rights and social justice; gender studies; humanities.

### **HUMN 6374 - Writing and the Search for Self**

*Credits: 3*

What are the defining moments of students' lives, and how do students incorporate the insights gained from these critical experiences into the stories they tell about themselves? Examining memoirs and autobiographies, and offering practical advice on keeping a journal and overcoming writer's block, this course is for students interested in developing a strong individual voice, one that can address issues of personal concern with the authority that comes from experience. May be applied to the following curricular field concentrations: humanities; arts and cultural traditions; creative writing.

### **HUMN 6376 - Our Stories, Ourselves**

*Credits: 3*

How people see themselves and how others see them are not just a matter of looking in the mirror. For better or for worse, self-image is embedded in the stories people tell about themselves, both internally and in their dealings with others. Students use journal writing as a means of bringing their life stories into focus and as a tool for change, growth, and understanding, with the goal of living a more effective and happier life. May be applied to the following curricular field concentrations: humanities; arts and cultural traditions; creative writing.

### **HUMN 6395 - News in the Digital Age: From Traditional Media to Citizen Media**

*Credits: 3*

Examines the impact of digital technology on news and the free flow of information in a democratic society. Reviews the evolution of American journalism from its founding to its current-day forms. Also, the standards and practices of journalism for traditional media (print, radio, and television) and new media (online reporting, blogging, video and/or audio podcasts, live streaming, and Web-feed formats such as RSS feeds). Students discover how the different technological methods of news distribution affect who does the coverage, what is covered, who is reached, and why these are important. May be applied to the following curricular field concentrations: communication, media, and technology; humanities; American studies.

### **HUMN 6396 - Literature and the Culture of Disability**

*Credits: 3*

Explores issues of disability from literary, cultural, and philosophical perspectives. Students study current debates surrounding disability studies within a variety of contexts. This course fulfills the writing intensive requirement or may be applied to the following curricular field concentration: humanities.

### **HUMN 6397 - Troubled Youth in America**

*Credits: 3*

Examines, from an array of perspectives (history, literature, film, sociology, music, media, etc.), the transcultural and

historical categories of youth, adolescence, and young adulthood. Students focus on issues of historical change, family systems, gender roles, sexuality, rebellion, and generational conflict. May be used to fulfill the writing intensive requirement or may be applied to the following curricular field concentrations: humanities; human rights and social justice; gender studies.

### **HUMN 7300 - Thesis**

*Credits: 3*

Directed study toward thesis.

### **HUMN 7301 - Greek Mythology and Literature**

*Credits: 3*

Examines the myths and legends of Ancient Greece through ancient poetry and plays. It is through myth that ancient societies examined their most complex questions about the relationships between gods and men, the nature of mortality, war and peace, glory and ignominy, and suffering and happiness. Ancient myths changed over time, manipulated by each generation and by innovative artists, to address new questions and to answer old questions in new ways. Students read the most important literary sources for Greek myth and discuss the roles of these works in ancient Greek cultures and their legacies across time. May be applied to the following curricular field concentration: humanities.

### **HUMN 7303 - The Cultural Politics of Pop, Rock, and Rap**

*Credits: 3*

The prehistory and history of rock and roll serves as the context in which American and transnational histories are explored. Topics include the black diaspora, minstrelsy, the Great Migration, the Black Atlantic, youth culture, the sexual revolution, student uprisings, the civil rights movement, consumerism, and rock as oppositional in culture. May be applied to the following curricular field concentrations: humanities; arts and cultural traditions; American studies; global studies; human rights and social justice; gender studies.

### **HUMN 7311 - Capstone: Liberal Studies**

*Credits: 3*

The capstone course is required of all M.L.S. students not undertaking a thesis. Conducted as an independent directed study, it is the last course of a student's program for the M.L.S. degree. Students earning a concentration must pursue a capstone project related to the curricular field area of their concentration. One month in advance of their last term, students must choose a faculty member with whom to work and - in consultation with that faculty member - propose to the M.L.S. director and Simmons School dean their topic and/or project. Students have a choice among the following capstone options to satisfactorily complete their degree program and to prepare for further graduate work: the portfolio project, the graduate project, an internship and/or service experience, or a creative project.

### **HUMN 7312 - Islam in State and Society**

*Credits: 3*

The emergence of "political Islam" as a movement to reform dominantly Muslim societies and to transform those societies' relationships to non-Muslim nations has had a growing impact on American impressions of Islam and on U.S. foreign policy toward Muslim countries. Topics include the emergence of contemporary Islamic movements as they relate to the evolution of Muslim states and societies, the historical rise of Islamic states and societies, the classical Islamic legal reasoning that justifies and shapes those states and societies, and the emergence of contemporary Muslim discussions about the relationship of Islam to state and society in the modern context. Students explore issues that surround Muslim minorities in non-Muslim states and societies as well as the rights of non-Muslims in dominantly Muslim states and societies. Important to this exploration is an understanding of human rights, gender, democracy, and economic structures in contemporary Islamic thought. May be applied to the following curricular field concentrations: humanities; global studies (non-Western); gender studies; human rights and social justice.

### **HUMN 7315 - Religions of Asia**

*Credits: 3*

Since the first encounters of Europeans with India, China, and Southeast Asia, Westerners have been challenged by the

philosophies, religions, and worldviews of Asia. Over the centuries, those ideas have often transmuted into new ways of thinking about the meaning of being human and new understandings of the world. This course surveys Hinduism, Buddhism, and Chinese religions. Students are offered the opportunity to understand more fully the worldviews of traditional Asian societies, the ways in which their religions have met the spiritual and social needs of their adherents, and the present growth and relevance of those religions outside Asia. Through lectures and readings, students journey through these worldviews, learn the stories and rituals in which they are expressed, and discover the ways in which they function in individual lives and the societies as a whole. Includes visits to Hindu and Buddhist religious communities in the Dallas area, as well as meetings and discussions with their members and leaders. May be applied to the following curricular field concentrations: global studies (non-Western); humanities; human rights and social justice.

### **HUMN 7330 - Law and Literature**

*Credits: 3*

Examines literary works that have been selected for their artistic merit as well as their subject matter, including universal jurisprudential and philosophical problems such as the conflict of natural law with the development of positive law, revenge and penal theory, justice and injustice, ethical conduct and corruption, individual and public perception of the legal process, and the significance of narrative. May be applied to the following curricular concentrations: humanities; organizational dynamics; communication, media and technology.

### **HUMN 7331 - Getting Organized: Personhood in the Age of Corporate Enterprise**

*Credits: 3*

Examines historical, sociological, and artistic responses to capitalism and the organizational structures that developed within it. Explores capitalism as it emerged in the 19th century and disrupted ideas of personhood, citizenship, and social belonging. Discusses the forms of individual, social, and workplace reorganization that emerged as a consequence of capitalism. Exposes students to the relations between economic and technological change within the workplace and beyond. May be used to meet the writing intensive requirement or may be applied to the following curricular concentrations: humanities; organizational dynamics; communication, media and technology.

### **HUMN 7336 - Creativity: Historical and Personal**

*Credits: 3*

Students analyze aspects of two periods of history (i.e., the modern era and a specific historical age that varies by term), which are bound together in unique ways by creativity, in order to explore methods for advancing their own personal creativity. Materials for consideration are highly interdisciplinary. This course may be used to fulfill the writing intensive requirement or may be applied to the following curricular field concentrations: humanities; creative writing; arts and cultural traditions.

### **HUMN 7350 - Special Topics in Humanities**

*Credits: 3*

Covers special topics in the status of the humanities.

### **HUMN 7351 - War and Literature: Soldiers' Tales**

*Credits: 3*

Explores how warfare has been represented in fiction and nonfiction, with a special emphasis on recent and contemporary wars. This course may be applied as a writing intensive course or to the following curricular field concentrations: humanities; American studies; global studies.

### **HUMN 7356 - Darwin in His Time and Ours**

*Credits: 3*

Charles Darwin was not merely a great naturalist; he was also a compelling writer. After closely reading parts of Darwin's key works, students explore the scientific and philosophical currents that surrounded Darwin when he formulated his theory of evolution by means of natural selection. Also, reaction to his theory within the scientific community and the Victorian general public, the (sometimes questionable) application of his ideas to fields like economics and sociology, his impact on popular art and literature, and the revival of his ideas in the modern synthesis

that has energized and unified biology in the last several decades. This course may fulfill the writing intensive requirement or be applied to the following curricular field concentration: humanities.

### **HUMN 7357 - Intercultural Communication**

*Credits: 3*

An overview of how differing worldviews, values, attitudes, and behaviors can affect the professional communication process as well as individual and organizational success. Students gain the skills (practical knowledge) and understanding (theoretical knowledge) needed to succeed in an increasingly international environment. Through a series of readings, reading responses, activities, class discussion, and formal papers, students experiment with and apply different concepts related to the intercultural communication process. This course may be applied to the following curricular field concentration: communication, media, and technology.

### **HUMN 7359 - Just Between Sisters: Relationships of Mixed-Race Women and Girls**

*Credits: 3*

A focus on intersectional and relational questions of first-generation African/African diasporic (black) and European (white) mixed-race women and girls through the use of novels, memoirs, and film. The intersectional questions refer to Kimberlé Crenshaw's concept of intersectionality: the ways in which race and gender interact to shape the multiple dimensions of black women's lives. Crenshaw argues that the intersection of racism and sexism operate in black women's lives in ways that a single-dimensional analysis fails to reveal. The course builds on Crenshaw's concept to explore the various ways race, gender, class, and sexuality intersect in shaping the identity of mixed-race women and girls and their relationships with other women and girls. This course may be applied to the following curricular field concentrations: American studies; gender studies; human rights and social justice; humanities.

### **HUMN 7361 - Spiritual and Mystical Paths of Today: A Multifaith Exploration**

*Credits: 3*

Explores spiritual and mystical writings from different religious traditions, seeking resources that may shed light on the contemporary quest for meaning and for ways of healing a wounded Earth. Examines the lives and writings of notable figures since the last century and reflects on the contents and features of their spiritual praxis and vision and how these relate to personal and global healing. May be applied to the following curricular field concentrations: humanities; global studies (non-Western).

### **HUMN 7362 - The Art of Persuasive Writing: From Cicero to Churchill to Tweets**

*Credits: 3*

Examines the power of the written word to persuade in speeches, essays, newspaper columns, and new media. Students trace and discuss the development of commentaries that have had an impact on public culture. Includes classic compositions from Roman and Greek orators, the Founding Fathers, Winston Churchill, H.L. Mencken, Martin Luther King, broadcasters Edward R. Murrow and Andy Rooney, contemporary columnists such as Maureen Dowd and Peggy Noonan, and critic/essayists such as Christopher Hitchens and David Foster Wallace, as well as recent White House speechwriters such as Karen Hughes and Jon Favreau. Students explore the structure of effective exhortations, the importance of "voice" in a memorable argument, the use of facts versus emotion, the use of humor to disarm, the value of metaphors, and the elements involved in effectively closing an argument. May be applied to the following curricular field concentrations: humanities; arts and cultural traditions; communication, media, and technology.

### **HUMN 7376 - Latin American Literature and Culture: Revolution, Feminine Writing, Dictatorship, and Immigration**

*Credits: 3*

Literature has been used as a revolutionary tool by cultures on every continent, and it has often been a catalyst for social change and political action. This course examines the relationships between writing and politics and art and politics: How does one understand what a revolution is, specifically in the context of Latin America? How has revolution been fictionalized in Latin America? What roles have the arts played in the emergence of the imaginary in the Caribbean and Latin America? How were national consolidation and social heterogeneity reconciled in the literary discourses? Students explore poetry, novels, essays, and short stories from Colombia, Cuba, Guatemala, the Dominican

Republic, Mexico, Brazil, and Argentina to understand how different authors articulate their perspective about cultural, social, and political dynamics prevalent in their particular contexts. May be applied to the following curricular field concentrations: humanities; global studies; human rights and social justice; gender studies; American studies.

### **HUMN 7379 - Plants of the Gods: Religion and Psychedelics**

*Credits: 3*

Examines the religious use of entheogens (psychedelic substances such as peyote, psilocybin mushrooms, and ayahuasca) throughout history to catalyze powerful visionary and mystical experiences and commune with sacred beings. Explores the sometimes forceful rejection within Western culture of these natural substances and their man-made psychedelic (e.g., mescaline, DMT, and LSD) and investigates the scientific study of these substances from the 1950s through the early 1970s and then from the 1990s into the 21st century. May be applied to the following curricular field concentrations: humanities; global studies (non-Western).

### **HUMN 7380 - Waking Up: The Philosophy of Yoga and the Practice of Meditation**

*Credits: 3*

Explores the philosophical and psychological foundation assumptions of the rich (and often controversial) Hindu traditions of yoga and tantra. Emphasizes theory, experience, and practice as it relates to yogic and tantric vision, energy centers, breathing techniques, modes of meditation, and gods and goddesses. Promotes understanding of the nature of selfhood and consciousness, the sacralization of sexuality and daily life, and the goal of full awakening to one's divine nature. May be applied to the following curricular field concentrations: humanities; global studies; arts and cultural traditions; gender studies.

### **HUMN 7381 - Organizational Communications**

*Credits: 3*

Provides an in-depth exploration of the theory and research underlying the discipline of organizational communication. Particular emphasis is given to the communicative approaches and processes that exist within many past and present organizational environments. The approaches and processes include classical management theory, human relations and human resources approaches, organizational systems, organizational culture, ethics and critical theory, organizational socialization, decision-making, conflict management, organizational change, leadership, emotion in the workplace, organizational diversity, and technology in the workplace. Students explore relevant communication theory, research, and practice through lecture, discussion, and application. May be applied to the following curricular field concentrations: communications; media and technology; organizational dynamics; humanities.

### **HUMN 7382 - Cultures of Displacement: The Writing of Race, Migration, and Diaspora**

*Credits: 3*

Investigates race and ethnicity within the histories of migrations, diaspora, colonialism, postcolonialism, globalization, and gentrification. Includes historical, literary, sociological, and other disciplinary perspectives. Focuses on individual and collective identity as self-selected and imposed, fixed and flexible, located and displaced, and local and global. Provides a knowledgebase for framing and discussing political and popular culture issues. This course fulfills the writing intensive requirement or may be applied to the following curricular field areas: humanities; gender studies; human rights and social justice; American studies; global studies.

### **HUMN 7385 - Transforming Our Educational DNA**

*Credits: 3*

Examines the historical, political, and organizational structure and culture of U.S. schools from the early 20th century to the present. Explores the forces that have shaped the current educational environment, and investigates the reflective and relational lives of teachers, students, and educational leaders. As part of the work of transforming their educational DNA, students engage in self-discovery to gain clarity about themselves as learners and teachers. Includes how to create an educational system that engages all learners and meets the challenges of the 21st century. May be applied to the following curricular field concentrations: humanities; organizational dynamics; global studies; American studies; and communication, media, and technology.

### **HUMN 7391 - To Be Human: Perspectives on Common Historical Experience**

*Credits: 3*

Foundational D.L.S. course that is required of all degree-seeking D.L.S. students. Provides interdisciplinary and comparative perspectives on the continuing development of cognitive and behavioral tendencies as well as the forms of sociocultural organization that have defined the nature of humanness at different stages of evolutionary history.

### **HUMN 7392 - To Be Human: The Transformation of the Psyche**

*Credits: 3*

Foundational D.L.S. course that is required of all degree-seeking D.L.S. students. Examines the soul from the viewpoint of ancient wisdom. Explores, in contemporary terms, the process of applying insight and energy from the unconscious psyche to the human yearning for a sense of hope, meaning, and wholeness. Includes readings, presentations, and discussions that consider the soul from the perspectives of philosophy, religion, and psychology.

### **HUMN 7393 - To Be Human: The Art of Creativity and Expression**

*Credits: 3*

Foundational D.L.S. course that is required of all degree-seeking D.L.S. students. Explores human creativity and artistic expression through engaged learning experiences that challenge the advanced student to examine art through diverse perspectives and contexts, including the original contexts in which the art was created. Students visit galleries to interact directly with original objects of art that represent a variety of cultures, beliefs, and creative expression.

### **HUMN 7394 - To Be Human: East Meets West - Intelligence, History, Culture, and Society**

*Credits: 3*

Foundational course for the D.L.S. program that is required of all degree-seeking D.L.S. students. Provides a foundation for understanding culture as a key concept in the humanities and an important lens through which individuals, societies, and their behavior and artifacts can be understood.

### **HUMN 7395 - To Be Human: The Struggle for Human Rights**

*Credits: 3*

Foundational course for the D.L.S. program that is required of all degree-seeking D.L.S. students. A study of human rights from a multidisciplinary perspective that provides a cultural, intellectual, and moral framework to understand the world. Uses selections from leading historical and contemporary theorists on various aspects of human rights for the context and commentary needed to comprehend challenging rights concepts. Includes an overview of the global history and evolution of human rights, an intellectual map of the origins of human rights, a comparative global context of human rights, and the ongoing assaults on rights, with a focus on the struggle for human rights in the United States.

### **HUMN 7396 - To Be Human: Science and Society**

*Credits: 3*

Foundational D.L.S. course that is required of all degree-seeking D.L.S. students. Examines the behaviors humans use to observe, explore, and analyze themselves and their surroundings as a factor in the survival and prosperity of the species. Traces the development of science from a collection of observations and lessons learned, through progress in the fields of reasoning and logic, to the birth of the scientific method. Connections are made between the historical, political, and cultural events that characterize a given period and the development of knowledge and science. Combines history, philosophy, and science and examines the numerous and complex interactions between science and all aspects of human experience, including well-being and suffering.

### **HUMN 7397 - Under the Influence: Discourses of Intoxication, Addiction, and Recovery**

*Credits: 3*

Examines the emergent field of addiction studies through historical, literary, sociological, psychological, biological, cultural, and media approaches. Focuses on the ways in which mind-altering substances have been understood over the expanse of transatlantic and global histories. Students study cultural and personal encounters with various substances (e.g., alcohol, cocaine, opium, designer drugs, and pharmaceuticals) and examine the history of stimulants and

intoxicants entangled with issues of colonization, class formation, gender identity, subjectivity, immigration, religion, consumerism, and social conformity. Also, cultural resistances to intoxicants and the emergence of therapeutic recovery cultures in the context of contemporary human rights discourse. May be applied to the following curricular field concentrations: human rights and social justice; gender studies; American studies; global studies; humanities.

### **HUMN 7399 - The Literature of Atrocity: Literary Representations of the Struggle for Human Rights**

*Credits: 3*

Investigates literary representations of some of modern history's more horrific events such as slavery in 19th-century America, the Holocaust, colonialism in Africa, Latin American dictatorships, the Vietnam War as soldiers experienced it, Cambodia's Khmer Rouge, Mugabe's Zimbabwe, and the lingering effects of South African apartheid. Examines novels in their own right as distinctive literary creations, but also considers how they deepen human understanding of the historical events they portray and how they can contribute to the ongoing struggle for human understanding and social justice. May be applied to the following curricular field concentrations: human rights and social justice, gender studies, American studies, humanities, and global studies.

## **Science and Culture**

### **SCCL 6100 - Independent Study**

*Credits: 1*

Directed study.

### **SCCL 6200 - Independent Study**

*Credits: 2*

Directed study.

### **SCCL 6300 - Independent Study**

*Credits: 3*

Directed study.

### **SCCL 6303 - Bioethics and Public Policy**

*Credits: 3*

A study of the ethical dilemmas caused by rapidly changing medical technology. Issues include in vitro fertilization, reproductive medicine, stem cell research, genetic screening and manipulation, abortion, fetal tissue experimentation, use of human subjects in research, organ transplants, euthanasia, end-of-life care, and public policy issues related to the allocation of medical resources. May be applied to the following curricular field concentrations: environmental sustainability; global studies; humanities; gender studies; organizational dynamics; communication, media and technology.

### **SCCL 6312 - Energy and Economy**

*Credits: 3*

Examines the role of energy and economics in the development of a sustainable worldview. Surveys the fundamental sources of energy, the processes used to harness energy, and the prospects of an industrial economy dominated by fossil fuels. Also, how energy systems are woven into economic systems and how industrial capitalism began and evolved. Discusses the fundamental concepts behind sustainability (physical, philosophical, and political), with an eye to synthesizing information about the field of energetics and economic behavior in an environmentally challenged world. May be applied to the following curricular field concentrations: global studies; environmental sustainability; American studies.

### **SCCL 6397 - Earth Matters: An Introduction to Global Environmental Quality**

*Credits: 3*

A focus on the environment and how people interact with it. This course explores 1) environmental quality indicators

for air, water, land, and climate (while introducing the pros and cons of environmental issues); 2) anthropogenic activities, impacts, and societal drivers; and 3) various measures for environmental performance and sustainability. Includes a student research project on a country or region. Students learn through readings, research, case studies, presentations, class and group discussions, guest lecturers, and/or videos. This course may be applied to the following curricular field concentrations: environmental sustainability; global studies.

### **SCCL 7302 - Culture and the Environment: Humans in the Natural World**

*Credits: 3*

Uses the philosophy and science of ecology as a guide to examine the evolving relationship between the environment and human culture. Explores the definition of "nature" and whether human beings are in some way separate from the natural world, with a focus on free will, human consciousness, and humanity's responsibilities in the biosphere. May be applied to the following curricular field concentrations: environmental sustainability; humanities; global studies; American studies.

### **SCCL 7303 - Climate Change and Society**

*Credits: 3*

Explores the science of climate change, human activities and greenhouse gas emissions, the history of carbon and climate, carbon pollution and its worldwide effects, and possible ways to adapt to and/or mitigate the effects of climate change. Focuses on global activities and climate change strategies such as the United Nations Framework Convention on Climate Change and the Peoples' Sustainability treaties. May be applied to the following curricular field concentrations: environmental sustainability; global studies; human rights and social justice; humanities; organizational dynamics; American studies.

### **SCCL 7304 - The Human Ecology of Food: Sustenance and Sustainability**

*Credits: 3*

Analyzes the complexities of modern food production and consumption from ecological, biogeographical, historical, cultural, and sociopolitical perspectives. Reviews the diverse viewpoints regarding the issue of feeding a growing human population in an increasingly urbanized modern world. May be applied to the following curricular field concentrations: humanities, environmental sustainability, human rights and social justice, and global studies.

### **SCCL 7330 - Science, Technology, and Society**

*Credits: 3*

Examines modern science's distinctive modes of inquiry, the nature of technology and the emergence of a technological order, and the character of the relationship between modern science and modern technology. Students consider the interrelationship between scientific modes of inquiry, the manner in which society is imagined, and the impact of technology on ways of life and culture. Examines the science and technology of power and light in the 19th and early 20th centuries, the interaction between modern technology and biotechnology in the 20th and early 21st centuries, and movements such as transhumanism, the possibilities of artificial intelligence, and the implications of developments in robotics. May be applied to the following curricular concentrations: humanities; organizational dynamics; communication, media and technology.

### **SCCL 7350 - Special Topics in Science and Culture**

*Credits: 3*

Covers special topics in the status of science and culture.

### **SCCL 7351 - Macrocosmos Microcosmos: Big Bang Theory and Beyond**

*Credits: 3*

Focuses on big physics concepts, including the Big Bang, time travel, the Higgs boson, and Schrodinger's cat. In a non-mathematical framework, students explore modern physics ideas that influence aspects of the world around them. Students consider questions, such as the origin of the universe; the nature of space, time and matter; the role of un/certainty and evidence shaping world views; ethical responsibilities of scientists to society in light of new technology; and specific impacts of the ideas in the humanities and arts. Lectures, reading, films, and discussions

combine to make the cosmos more accessible and inspiring. This course may be applied to the following curricular field concentrations: environmental sustainability; humanities; global studies; American studies; gender studies; arts and cultural traditions.

## **Social Science**

### **SOSC 6100 - Independent Study**

*Credits: 1*

Directed study.

### **SOSC 6200 - Independent Study**

*Credits: 2*

Directed study.

### **SOSC 6300 - Independent Study**

*Credits: 3*

Directed study.

### **SOSC 6301 - Terrorism, Torture, and International Law**

*Credits: 3*

Analyzes the crimes of terror and torture from the perspective of international law, government, literature, culture, and philosophy. Examines the origins and development of terror and torture in literature; the legal status of rights under U.S. domestic law and international law; and the tensions between universal and culturally specific definitions of rights, state sovereignty, and humanitarian intervention. Looks at regulating terrorism and torture in international law in the future. May be applied to the following curricular field concentrations: humanities; global studies (non-Western); gender studies; human rights and social justice; American studies.

### **SOSC 6309 - The Struggle for Human Rights**

*Credits: 3*

Examines certain violations of human rights within their historical context. Attention is given to the evolution of civil and human rights as entities within global political thought and practice. Students learn to recognize the use of propaganda to justify or deny violations of human rights, from torture to terrorism and from slavery to genocide. May be applied to the following curricular field concentrations: humanities; human rights and social justice; gender studies; global studies; American studies.

### **SOSC 6314 - Living Through the American Revolution**

*Credits: 3*

This course explores the social history of the American Revolution and its meaning for the many different people who experienced it. Focusing on one stage in the historical process of becoming American, the course shows how these people took part in a set of large-scale transforming events that changed the course of history and themselves. This course may be applied to the following curricular field concentrations: humanities; human rights and social justice; American studies.

### **SOSC 6332 - Ideas Shaping the American Character I: 1607-1876**

*Credits: 3*

Explores the political, economic, religious, social, and intellectual ideas that have shaped the American character from the colonial era through the Civil War through the biographies and writings of key Americans. Issues given critical analysis include colonial culture, Puritan and Enlightenment thought, church/state relations, the Constitution and federalism, Marshall and Taney Supreme Court decisions, gender and racial equality, Lincoln's evolving views of slavery, and Grant's Reconstruction policies. The course may be applied to the following curricular field concentrations: humanities; human rights and social justice; American studies; gender studies. Scholarships are

available for K-12 teachers wishing to further their knowledge and enhance their roles as educators via interdisciplinary graduate coursework.

### **SOSC 6333 - Ideas Shaping the American Character II: 1877-Present**

*Credits: 3*

Explores the political, economic, religious, social, intellectual, and artistic ideas that have shaped the American character through the biographies and writings of key early Americans. Specific attention is given to the free enterprise system and democracy as twin pillars upholding the edifice of the republic. Key figures include Frederick Jackson Turner, Willa Cather, Eugene Debs, W.E.B. DuBois, Carrie Chapman Carr, Frank Lloyd Wright, Bob Dylan, Ronald Reagan, and Madeleine Albright. May be applied to the following curricular field concentrations: humanities; human rights and social justice; American studies; gender studies.

### **SOSC 6342 - America's Defining Moment: The American Civil War and Reconstruction**

*Credits: 3*

The modern South has yet to shake the tragedy of the War Between the States. Students examine the origins of this struggle and the reasons it continues to fascinate Americans. Also, the battles, the reasons for the North's victory, and the effect on today's South. May be applied to the following curricular field concentrations: humanities; human rights and social justice; American studies.

### **SOSC 6344 - Contemporary Economics**

*Credits: 3*

Examines the theoretical basis of capitalism and its variations as a means of organizing and allocating resources as well as "the market" in the context of efficiency, fairness, and moral justifications. This course may be applied to the following curricular field concentrations: global studies; humanities; American studies.

### **SOSC 6353 - Women in U.S. History**

*Credits: 3*

Surveys the history of women in the U.S. from the Colonial era to the present. Includes the diverse historical experiences of Native American women, African-American women, immigrants, workers, girls, wives, mothers, reformers, feminists, and other women. Examines the changes and continuities over time in women's roles, status, private and public experiences, and sense of self and identity, with a focus on the ways in which gender – as a conceptual category and a system of power relations – shaped and was shaped by larger currents of social, economic, cultural, intellectual, and political change during the course of U.S. history. This course may be applied to the following curricular field concentrations: humanities; gender studies; human rights and social justice; American studies.

### **SOSC 6355 - America Enraged: From Integration to Watergate, 1954-1974**

*Credits: 3*

The 20-year era spanning 1954-1974 witnessed social turbulence unseen in the earlier part of the century. In this era, Americans for the first time took to the streets by the thousands, sometimes by the tens of thousands, to resolve disputes once left to the established governmental processes. This course may be applied to the following curricular field concentrations: humanities; human rights and social justice; American studies; gender studies.

### **SOSC 6367 - Comparative Revolutions: A Historical Perspective**

*Credits: 3*

What is the nature of modern political revolutions? What are the conditions that tend to produce a revolutionary explosion? What are the characteristics of revolutionary leaders? Why do people follow them? By considering these and other related questions, this course provides interdisciplinary perspectives on a topic of special interest in this age of monumental upheaval and rapid societal change. While highlighting the unique or distinctive characteristics of particular revolutions, it utilizes comparative analysis to underscore the common denominators of the modern revolutionary experience. May be applied to the following curricular field concentrations: global studies; humanities; human rights and social justice.

## **SOSC 6376 - Cultural and Intellectual History of Modern Europe: Renaissance to Enlightenment**

*Credits: 3*

Analyzes predominant themes in the literature, philosophy, art, and music of European civilization, from the Italian Renaissance through the French Enlightenment. Emphasizes those aspects of the European heritage that have been of primary importance in shaping Western culture in the 20th century. Part one of a two-part series, but the two courses need not be taken sequentially. May be applied to the following curricular field concentrations: humanities; arts and cultural traditions; global studies.

## **SOSC 6377 - Cultural and Intellectual History of Modern Europe: Romanticism to the Present**

*Credits: 3*

Explores major trends in the development of European literature, philosophy, art, and music in the 19th and 20th centuries. Primary attention is devoted to the role of arts and ideas in the shaping of the contemporary world. Part two of a two-part series; part one is not a prerequisite. May be applied to the following curricular field concentrations: humanities; arts and cultural traditions; global studies.

## **SOSC 6378 - Mobilization and Movements in Nondemocracies**

*Credits: 3*

Examines the reasons and ways by which people engage in collective action in regimes that are not democratic and are typically characterized by the absence of open public institutions. Students study the many forms of mobilization and the power of mass action, explore how various movements interact with the state and the state's responses, and consider the types of popular change that may result in the state and in civil society. May be applied to the following curricular field concentrations: global studies (non-Western); human rights and social justice; gender studies; humanities.

## **SOSC 6382 - Women in American History, 1865 to the Present**

*Credits: 3*

Surveys the history of American women from 1865 to the present and introduces the major themes, questions, and problems organizing this period of U.S. women's history. Explores the diverse experiences of women in the past, including those of Native American women, African-American women, Asian-American women, Latinas, female workers of many kinds, female immigrants, girls, mothers, reformers, suffragists, and feminists. Examines changes and continuity in women's sense of self and identity, their private and public experiences, and their power and status in American society. Attention is given to the ways in which gender – as a conceptual category and a system of power relations – shapes and has been shaped by social, cultural, intellectual, and political life. Also, how gender came to be configured and experienced in relation to other forms of social differences, most notably race, ethnicity, class, sexual orientation, and age. This course may be applied to the following curricular field concentrations: humanities; American studies; gender studies; human rights and social justice; global studies.

## **SOSC 6392 - The Objectives and Principles of Islamic Law**

*Credits: 3*

Utilizes legal, social, and historical perspectives to give students a comprehensive understanding of Islamic law in its various manifestations. Compares interpretative frameworks and methodologies and explores how the science of deriving law has evolved in contemporary contexts. Understanding how Islamic law operates provides students greater insight into the religion of Islam as a whole, the development of Islamic civilizations, and broader legal considerations when studying the Muslim world today. May be applied towards the following curricular field concentrations: human rights and social justice; humanities; global studies (non-Western); American studies; gender studies.

## **SOSC 6395 - The Great Debates of the American Civil Rights Movement**

*Credits: 3*

Examines the historical, political, and sociological results achieved by the American Civil Rights movement of 1942 to 1968 through a communication lens known as argumentation study. Emphasizes the particular role of Southern

Methodist advocates such as James Meredith and James Farmer Jr. The Methodist social gospel of Matthew 25 is an important central pedagogy to the course. Includes a week-long Civil Rights pilgrimage over spring break to show how social change is achieved through individual advocacy. May be applied towards the following curricular field concentrations: human rights and social justice; humanities; American studies; gender studies.

### **SOSC 7305 - Special Topics in Human Rights**

*Credits: 3*

The study of human rights requires a sense of history and moral courage, for no nation or society in human history has been totally innocent of human rights abuses. Examines certain violations of human rights within their historical context, and focuses on America's human rights record with regard to its own policies and its relationship to human rights violations in other countries. Attention is given to the evolution of both civil and human rights as entities within global political thought and practice. Students are encouraged to rely on reasonable evidence and critical thinking when studying these historical controversies, rather than on biased accounts or emotional arguments. Discusses special topics in the status of human rights in the world today, from torture to terrorism and from slavery to genocide. May be applied to the following curricular field concentrations: humanities; human rights and social justice; gender studies; global studies.

### **SOSC 7324 - The Impact of the Arab Spring on Israel and the Middle East**

*Credits: 3*

Analyzes the impact of the Arab Spring on the Islamic legal system, the Muslim religion and social order, Israel, the West, and international law. Students explore numerous areas of Islamic and Israeli law, international law, culture, crimes and punishments, economic developments, fundamentalism, and moderation. Focuses on human rights in the Islamic legal tradition and in all countries of the Middle East and North Africa in light of international human rights standards and examines the Arab Spring in light of historical and present Islamic thought. May be applied to the following curricular field concentrations: human rights and social justice; global studies (non-Western); humanities; gender studies.

### **SOSC 7330 - Modernity and Crises of Identity: The Reorientation of Western Culture 1872-1917**

*Credits: 3*

Examines the fifty years prior to World War I in which modern civilization reached a great turning point, when the pervasive problems of the preceding century abruptly coalesced, bringing fundamental alterations to virtually every facet of the human experience. Explores responses to the unforeseen disruptions of established worldviews by innovative painters, poets, musicians, dramatists, philosophers, and scientists who challenged prevailing assumptions and experimented with radically new modes of thought and taste. Explains how the contemporary world is best understood in the context of late 19th and early 20th century cultural innovations whose dynamics reveal much about "our humanness." May be applied to the following curricular concentrations: humanities, global studies.

### **SOSC 7331 - Warfare in the Modern World**

*Credits: 3*

Explores the nature, origins, and evolution of modern total war, starting with developments in late medieval and Renaissance Europe and running through the democratic and industrial revolutions of the late 18th and early 19th centuries, the American civil war, and the two world wars of the 20th century. Emphasizes issues of military doctrine and theory; organization and command; tactics and strategy; political and socio-economic factors; and the scientific, technological, and psychological dimensions of recent armed conflict and its impact on cultural patterns. Treats modern total war as an evolving phenomenon shaped by a complex set of interrelated trends unfolding during an extended period of more than half a millennium. May be applied to the following curricular concentrations: humanities; global studies; organizational dynamics; communication, media and technology.

### **SOSC 7334 - Bollywood/Hollywood: Cinema in India and the West**

*Credits: 3*

Examines both the construction of national identity through Indian cinema and Western depictions of India in

American/European cinema. These films provide a comparative structure for understanding imaginings of India in Hollywood and Bollywood. Bollywood/Hollywood is divided into two parts. Part I focuses on Indian films and their role in imagining an Indian nation. Part II, Exoticizing the East, focuses on Western depictions of India. Adopts a historical perspective beginning with some of the earliest talkie films in the 1930s and ending with contemporary cinema. May be applied to the following curricular concentrations: humanities; global studies (non-Western); gender studies; arts and cultural traditions; communication, media and technology.

### **SOSC 7335 - Wrestling With God: The Triumph and Tragedy of Zionism in Israel**

*Credits: 3*

Explores Israeli politics, society, institutions, and political practice from the distinctive perspective of the development of Israeli national identity and sub-group identities. Traces the construction of Israeli identity starting from the early times of Zionism and explores direct connection between Zionist constituting ideologies, the nature of Israel's institutions and society, and the split soul of Israeli identity. Examines the main political junctions in the Israeli-Palestinian conflict and connects them to their reincarnations in contemporary times to include analysis and study of the politics, the popular culture, and the daily life of Israelis and Palestinians living in Israel/Palestine. May be applied to the following curricular field concentrations: human rights and social justice; global studies (non-Western); humanities.

### **SOSC 7336 - Mexican History Through Film**

*Credits: 3*

Examines the intersection of history and cinema as a powerful pedagogical tool. The careful analysis of films will be addressed from two perspectives: first, the historical context and degree of accuracy of each film's content, and also as a primary source and consequent product of its conception era. May be applied to the following curricular field concentrations: arts and cultural traditions; humanities; communication, media, and technology; American studies; global studies.

### **SOSC 7350 - Special Topics in Social Science**

*Credits: 3*

Covers special topics in the status of social science.

### **SOSC 7354 - The Intellectual History of Capitalism**

*Credits: 3*

Explores capitalism as the defining economic system of the modern era and reviews its intellectual history. Topics include the origins of classical liberalism vis-a-vis Adam Smith and his predecessors, the French debate on limited government and virtuous materialism, capitalism's critics (Karl Marx or Leo XIII), capitalism's skeptics (Thorstein Veblen and J.A. Hobson or Joseph Schumpeter), the Austrian school and its dual legacy, the neoliberalism of F.A. Hayek, and the economic democracy of Karl Polanyi. This course may be applied to the following curricular field concentrations: humanities; global studies; American studies.

### **SOSC 7358 - Refugees and Displaced People: Victims of War, Genocide, and Ethnic Conflict**

*Credits: 3*

An estimated 43.7 million people are currently displaced worldwide. Of the total, 15.4 million are refugees; 10.55 million refugees are under the care of the Office of the United Nations High Commissioner for Refugees, and 4.82 million are registered with the United Nations as Palestinian refugees. Some 27.5 million people are displaced internally by conflict, and 837,500 are asylum-seekers. This course focuses on the causes of the massive displacement of ordinary people; the actions of those responsible for aiding them; the modern history of forced displacement; and the legal, charitable, and political structures that deal with the problem. It examines the various governments, international organizations, and private religious and secular charities that provide help to the displaced. Students gain an understanding of this little-known humanitarian crisis and the people involved. May be applied to the following curricular field concentrations: humanities; human rights and social justice; global studies (non-Western); gender studies.

### **SOSC 7359 - International Human Rights Tribunals and Courts Post-Nuremburg**

*Credits: 3*

Examines the fairness, effectiveness, and overall merit of the various international court and tribunal models used in internal, regional, and global conflicts since World War II. Also looks at the ways different tribunals and courts function, the interaction among the current international tribunals and courts, and the applicable law in each (including due process rights and litigation). May be used to fulfill the writing intensive requirement or may be applied to the following curricular field concentrations: human rights and social justice; global studies; gender studies; humanities.

### **SOSC 7363 - The Historian's Craft and the Novelist's Art: Race in Early America**

*Credits: 3*

Explores the achievements of historical-fiction writers versus working historians in dealing with race in Colonial and Revolutionary America. Explores whether and how novels, which are an inherently Western literary form, can express the concerns of people whose cultural roots lie outside the framework of Western culture. May be applied to the following curricular field areas: humanities; arts and cultural traditions; American studies; creative writing.

### **SOSC 7364 - Communication to Reduce Human Injustice: Genocide**

*Credits: 3*

Explores the communication practices that contribute to the prevalence of genocide worldwide and how communication can play a role in solving this and other problems of severe human injustice. May be applied to the following curricular field concentrations: humanities; human rights and social justice; gender studies; organizational dynamics; communication, media, and technology; global studies.

### **SOSC 7366 - Contemporary Jihad in A Globalizing World: Isis, Al-Qaeda, and the Taliban**

*Credits: 3*

Examines the Taliban, al-Qaeda, and ISIS and their rising threat to the world. After the 9/11 World Trade Center attacks of 2001, the U.S. and its allies embarked on a war on terror whose objective was to destroy al-Qaeda and Osama bin-Laden's terrorist base in Afghanistan; to crush Afghanistan's Taliban regime; and to remove Saddam Hussein as leader of Iraq, a country proclaimed by President George W. Bush to be a member of "the axis of evil." The ultimate intention of the U.S. was to foster democratic governments that could serve as models for the undemocratic and military regimes in the Middle East. When the recent Arab Spring led to a power vacuum in several Middle Eastern countries, critics blamed the lack of a unified global response and a failure of American leadership for the birth of ISIS. ISIS has become the most powerful jihadi militant group the contemporary world has ever seen, and has declared its intention to establish itself as the leader of a worldwide terrorist Islamic movement and to restore the Islamic Caliphate that was first established in the year 632 in the Arabian Peninsula. This course may be applied to the following curricular field concentrations: American studies; global studies (non-Western); human rights and social justice; gender studies; humanities.

### **SOSC 7367 - Global and Transnational Feminism: The Struggle for Global Justice**

*Credits: 3*

Explores the meaning of feminism from diverse cultural, political, and economic perspectives and circumstances. Students examine how feminism takes on new forms of resistance in global contexts. May be applied to the following curricular field concentrations: human rights and social justice, gender studies, American studies, and global studies (non-Western).

### **SOSC 7368 - Education, Equality, and Human Rights**

*Credits: 3*

Examines the intersection of race, gender, and class in U.S. education. Topics include the racial and gender stratification of the educational system and various issues of access and equity. Students study race-based epistemological, methodological, and pedagogical approaches to an understanding of everyday inequalities in P-20 education. May be applied to the following curricular field concentrations: human rights and social justice; American studies; gender studies; humanities; global studies.

## **SOSC 7369 - India Today: Religion, Environment, and Culture**

*Credits: 3*

Addresses some of the most pressing social, political, and environmental concerns of India, using an interdisciplinary approach and focusing on history, gender, and cinema. May be applied to the following curricular field concentrations: global studies (non-Western); humanities; gender studies; environmental sustainability; human rights and social justice.

## **SOSC 7370 - Religion and Politics in 20th-Century India**

*Credits: 3*

Examines the factors that gave rise in India to religious riots and sectarian conflicts in the 20th century, the partition of India in 1947, the communal riots in Bombay during 1992-1993, and the 2002 pogroms against Muslims in Gujarat. Topics include British colonial attitudes toward religious differences, the histories of Hindu and Muslim political parties, the use of religion in film before and after independence, the partition of the subcontinent into India and Pakistan, gender and religious politics, and the revival of Hindu nationalism in postcolonial India. May be applied to the following curricular field concentrations: humanities; global studies (non-Western); human rights and social justice; gender studies.

## **SOSC 7371 - The Languages of Advertising**

*Credits: 3*

Examines the structure and mechanisms of contemporary consumer culture through the history of print advertising. Using student-based presentations and theoretical readings, students analyze the way in which advertising produces a manipulative world that privileges certain readings over others in order to attract potential spectator-buyers. May be applied to the following curricular field concentrations: humanities; communication, media, and technology; gender studies; and American studies.

## **SOSC 7372 - Advertising Unplugged: Messages, Myths, and Manipulation**

*Credits: 3*

Examines and deconstructs advertising's messages and myths from diverse and theoretical perspectives encouraging students to think differently about advertising's manipulative effect not only on the individual psyche but also on society as a whole. Students learn to decode the hidden meanings behind advertisements to expose advertising's provocative, calculating nature and its inherent powers of persuasion that promise to deliver on the fantasy. May be applied to the following curricular field concentrations: communications, media, and technology; organizational dynamics; American studies; gender studies; humanities; and arts and cultural traditions.

## **SOSC 7375 - The Ethics of Human Rights in Islamic Legal Theory**

*Credits: 3*

Examines the principles surrounding the ethics of human rights in Islam legal theory and the ways the discourse of change in the law and context affects the ethics. Explores the principles governing human rights theories in the classical Islamic legal reasoning, the justifications for the various scholarly views, and the historical conditions that shaped them. Reviews the emergence of contemporary Muslim discussions about epistemological, methodological, and philosophical underpinnings that drive Muslim scholastic thinking on this issue and examines the reasons for the break of the modern condition from the scholastic tradition, followed by attempts to reformulate a new theory of human rights. Important to this exploration is an understanding of how violations in the preservation of human rights, gender justice, democracy, and economic structures by extremists represent a gulf between the theoretical ethical framework of Islam and its practice. May be applied to the following curricular field concentrations: human rights and social justice; gender studies; global studies (non-Western); American studies; humanities.

## **SOSC 7376 - Islamic Law: Premodernity to Modernity**

*Credits: 3*

Explores the spectrum of Islamic law, with an analysis of the genealogy of the Sharia from the rise of the caliphate and the postformative period of Islamic law in the 7th century (premodernity), through the rise of the Islamic colleges and schools of law in the formative period (throughout the Middle Ages), to the transformations and destruction of the Sharia system resulting from the advent of colonial modernity. The reformist and extremist attempts at revival are

examined as well. May be applied to the following curricular field concentrations: humanities; global studies (non-Western); human rights and social justice; gender studies; and American studies.

### **SOSC 7377 - Slavery and the American Republic**

*Credits: 3*

Explores hemisphere-spanning slavery involving Africans and Native Americans; the rise of slavery as a major part of the Colonial order; and the many ways the unresolved problem of slavery underpinned, permeated, and nearly destroyed the American Republic. May be applied to the following curricular field concentrations: humanities, American studies, global studies, human rights and social justice, and gender studies.

### **SOSC 7378 - Religion and Politics: Intersections in the U.S. and the Muslim World**

*Credits: 3*

Examines the interrelationship between religion and politics, with a focus on religion and politics in the U.S. Explores a wide range of issues, including the effects of religion and American political culture on one another; the origination and consequent development of church-state separation and its effect on religious communities; the ways religion motivates political action and shapes public opinion; and the role religion has played in political debates about race, ethnicity, gender, LGBTQ issues, climate change, and education. Covers the rise of radical Islamism as a religious response to global political dynamics and the history of religion-state relations in the Islamic tradition, as well as responses by moderate Muslims to radical Islamism. May be applied to one of the following curricular field concentrations: humanities, American studies, and global studies.

### **SOSC 7379 - Ethics and Human Rights**

*Credits: 3*

Portrays the intersection of ethics and human rights as a balance point for the creation and continuation of just and healthy relationships. Specifically, the five types of relationships are explored: relationships with self, community, other, place, and career. Special emphasis is placed on the cultural perspectives of historically oppressed groups across the globe. Irrespective of the students' vocational paths, this course challenges them to recognize their inherited ethical biases in order to become more personally aware, contextually sensitive, and socially critical in the pursuit of human rights. May be applied to the following curricular field concentrations: humanities, human rights and social justice, global studies, gender studies, and organizational dynamics.

### **SOSC 7380 - The Islamic Civilization**

*Credits: 3*

A survey of Islamic civilization. Through the mediums of film, fiction, prose, poetry, and a field trip, students discover the diverse, complex, and profound aspects of Islam and the civilization it produced for over a thousand years. Each medium serves as a lens to aid the students in discovering the Islamic civilization while simultaneously functioning as a tool to eliminate the blind spots inherent in the use of a single medium for knowledge. May be applied to the following curricular field concentrations: global studies (non-Western); human rights and social justice; gender studies; American studies; arts and cultural traditions; humanities.

### **SOSC 7381 - The Black Struggle for Freedom**

*Credits: 3*

Examines the African-American experience in the United States from slavery to the hip-hop generation. Prominent themes include: slavery, the Civil War and the beginning of Reconstruction, African-American urbanization experiences, the development of the modern civil rights movement, the thought and leadership of Ida B. Wells and W.E.B. Du Bois, and the Black Lives Matter movement. This course may be applied to the following curricular field concentrations: human rights and social justice, humanities, American studies, gender studies, and global studies.

### **SOSC 7382 - Modern Islamic Movements**

*Credits: 3*

Explores modern Islamic movements in light of dilemmas experienced by Muslims around the world today. Each of these movements have different goals and underpinnings. Examines the reasons for these movements, their popularity,

and their unique hierarchical structures. May be applied to the following curricular field concentrations: human rights and social justice, global studies (non-Western), American studies, humanities.

### **SOSC 7383 - Islam and the American Civil Rights Movement**

*Credits: 3*

Examines Islam and important Muslim figures that helped shape the Civil Rights Movement. Includes discussion about orthodox Islam, the Nation of Islam, Malcolm X, H. Rap Brown, and other Muslims who played an important role in crafting both the theory and practice of black activism. Explores the current role of Islam and Muslims in the discussion of black empowerment. May be applied to the following curricular field concentrations: human rights and social justice; humanities; American studies.

### **SOSC 7384 - Engaging Difference: An Interdisciplinary Critique of American Diversity and Inclusion**

*Credits: 3*

Explores how American society has engaged those who are socially different from the majority (race, class, gender, etc.). Using the lens of public policy, historical social practice, and the social construction of implicit bias, students examine the experiences of marginalized populations within American democracy while also existentially considering the human condition from the perspective of their own social locations and identities within the larger context. May be applied towards the following curricular field concentrations: human rights and social justice; gender studies; American studies; humanities.

### **SOSC 7385 - Poverty and Wealth in America: An Interdisciplinary Critique of Economic Justice**

*Credits: 3*

Examines theories of capitalism with alternative economic systems, public policy, and scholarship and a pedagogy that engages both the interdisciplinary facets and intersectionality of race, gender, and class. Explores the critical theories that seek to better explain legislative policy and social norms. May be applied to the following curricular field concentrations: humanities; human rights and social justice; American studies.

# Teaching and Learning

[www.smu.edu/teacher](http://www.smu.edu/teacher)

**Professor** Tim Jacobbe, **Department Chair**

**Professors:** Jill Allor, Tim Jacobbe, Stephanie Knight, Stephanie Al Otaiba, Anthony Petrosino, Paige Ware, Paul Yovanoff

**Associate Professors:** Doris Baker, Ken Springer, Candace Walkington

**Assistant Professors:** Amy Gillespie Rouse, Anne Wilhelm

**Clinical Professors:** Anthony Cuevas, Abigail Pruitt

**Clinical Associate Professors:** Ann Batenburg, Nancy Montgomery

**Clinical Assistant Professors:** Sherril English, Amy Ferrell, Diane Gifford, Johnitha Watkins Johnson, Francesca Jones, Jan Mallet, Robert Rouse

**Research Assistant Professor:** Brenna Rivas, Chalie Patarapichayatham

**Visiting Clinical Assistant Professor:** Miriam Ortiz

## Department Information

The Department of Teaching and Learning represents SMU's commitment to the professional development of educators through innovative and research-based undergraduate and graduate programs.

The department's teaching and research practices are grounded in multiple perspectives that encompass behaviorist, cognitive, social-constructivist and sociocultural approaches to scholarship. All programs serve to prepare educators who are scholars and leaders in professionalism, committed to high-quality teaching and practice, and who are leaders in translating research into practice and experts in differentiated instruction.

To facilitate achievement of its objectives, the department launched a Hybrid Learning Initiative in 2012. Hybrid learning refers to the integration of traditional classroom and online learning to enhance the classroom experience and to extend learning through the innovative application of technology. The Teaching and Learning Department offers several courses in a hybrid format as well as some courses fully online each term with an emphasis on quality classroom experiences supplemented with online learning to promote collaboration.

The Bachelor of Science in Educational Studies degree program assists students in obtaining credentials for teaching in elementary, secondary or all-level (EC through grade 12) settings. At the graduate level, a student may pursue an M.Ed., an M.Ed. with Educator Preparation, a Master of Bilingual Education, an M.Ed. in special education, or a Master of Music in music education, as well as specializations in areas such as gifted education, special education, reading, mathematics, bilingual education, English as a second language, urban education, and learning therapy.

The school promotes high-quality research that combines quantitative and qualitative methodologies, generates new hypotheses and influences pedagogical practices in early childhood (or "EC") through grade-12 schools.

**Note:** Completion of any coursework in the Department of Teaching and Learning will not result in certification. Applicants are advised to visit the Texas Education Agency website at [www.tea.state.tx.us](http://www.tea.state.tx.us) ("Educator Certification" link) for more information on Texas teacher certification requirements.

**Doctor of Philosophy in Education.** The Ph.D. in education is a schoolwide degree. For more information on this degree, students should see the description of the Ph.D. program in this catalog or online at [www.smu.edu/EducationPhD](http://www.smu.edu/EducationPhD).

## Master of Bilingual Education, M.B.E.

[www.smu.edu/MBE](http://www.smu.edu/MBE)

The Master of Bilingual Education program offers a broad interdisciplinary curriculum that prepares specialists in the field of bilingual education. Designed for teachers, the 36-hour program offers evening classes during the academic

year. The program includes coursework in literacy, second-language teaching, linguistics, cultural/multicultural education, behavioral psychology and community-based educational research. The specialization courses, in particular, help participants refine their pedagogical skills and develop both expertise in use of the methods proven effective with limited English proficient students and understanding of current research in the field of bilingual education.

## Admission Requirements

Before enrolling in the M.B.E. program, all students must submit the following:

1. An official sealed transcript of academic work that reflects a baccalaureate degree with a minimum 3.000 overall GPA. Transcripts from countries outside the U.S. must be accompanied by an official evaluation of the transcript by an SMU-recognized evaluation agency. No copies will be accepted. Applicants not meeting the 3.000 GPA requirement must request an exemption in writing and provide proof of other qualifications, such as long-term experience or expertise in a related specialized field, as a justification for admission.
2. For bilingual education, proficiency in Spanish, which is used in bilingual education programs in Texas.
3. A completed application and a \$50 nonrefundable application fee payable to SMU: Department of Teaching and Learning.
4. For international students applying from countries where English is not the native language, or prior coursework was not delivered in English, official scores (earned within the previous five years) on the TOEFL English language proficiency test or the IELTS English competency test. The minimum TOEFL score for admission is 550 on a pencil-and-paper test or 92 on the Internet-based test. The IELTS minimum score is 6.5. A TOEFL or IELTS waiver may be granted on the basis of: 1) the student applicant has lived and worked full time in the US or another country where English is the official language for at least 3 of the past 5 years; or 2) the applicant holds an undergraduate and/or prior graduate degree from a college or university where English is the official language of instruction.
5. As evidence of financial support, international students must provide a Certification of Finance Form/Letter of Financial Backing. (This applies to students who are not awarded a scholarship.) This should represent that sufficient money will be available to the applicant to cover all expenses while at the University. This letter may be signed by a parent or sponsor but **must** be certified by a bank. The document must be notarized and on file before the process for visas and passport can proceed.
6. Letters of recommendation and written essays may be required for admission. Visit the Teaching and Learning website at [www.smu.edu/teacher](http://www.smu.edu/teacher) for more information.

## Degree Requirements

### Core Requirements (12 Credit Hours)

- EDU 6304 - Interpreting Educational Research
- EDU 6315 - Diverse Learners
- EDU 6322 - Educational and Behavioral Psychology
- EDU 6384 - Teaching and Learning with Technology

### Specialization Courses (12 Credit Hours)

- EDU 6312 - Applied Linguistics
- EDU 6319 - Foundations of Bilingualism
- EDU 6321 - Bilingual/Biliteracy: Critical Issues and Practices
- EDU 6339 - Bilingual Content Instruction

### Elective Courses (12 Credit Hours)

Choose one of the following options:

#### ESL (12 Credit Hours)

- EDU 6312 - Applied Linguistics

- EDU 6317 - Culture and Community in Education
- EDU 6320 - Language Teaching Research, Theory, and Practice
- EDU 6390 - Classroom Instruction and Assessment for Language Learners

### Gifted and Talented (12 Credit Hours)

- EDU 6325 - Educating Talented/Gifted
- EDU 6347 - Creativity: Theories, Models, and Applications
- EDU 6388 - Curriculum Development for the Talented and Gifted
- EDU 6397 - Growth and Development of the Gifted

### Mathematics (12 Credit Hours)

- EDU 6379 - Numerical Reasoning: Numbers and Operations
- EDU 6380 - Algebraic Reasoning and Patterns
- EDU 6381 - Geometry and Measurement
- EDU 6382 - Everyday Mathematics: Probability and Data Analysis

### Montessori (12 Credit Hours)

12 hours of transfer credit

### Literacy, Grades PK - 3 (12 Credit Hours)

- EDU 6323 - Literacy Assessment
- EDU 6364 - Early Literacy Acquisition I
- EDU 6367 - Early Literacy Acquisition II
- EDU 6368 - Evaluating and Teaching Writing

### Late Literacy, Grades 3 - 9 (12 Credit Hours)

- EDU 6323 - Literacy Assessment
- EDU 6363 - Late Literacy Acquisition
- EDU 6366 - Reading and Writing in the Content Areas
- EDU 6368 - Evaluating and Teaching Writing

### STEM (12 Credit Hours)

- STEM-related EDU courses at the 6000 level or above
- EDU 6349 - The Science of Learning in STEM Education
- EDU 6350 - Designing and Making in STEM Education
- EDU 6351 - Community-Centered STEM Integration
- EDU 6383 - Coding for Teachers

**Total: 36 Credit Hours**

# Master of Education in Special Education, M.Ed.

## General Information

[www.smu.edu/MEd](http://www.smu.edu/MEd)

<http://www.smu.edu/SpecialEd>

The M.Ed. in special education offers a rigorous interdisciplinary curriculum that prepares currently certified and/or experienced teachers to be special educators and teacher leaders for school-aged students with special needs. Through a combination of rigorous coursework and supported school-based field experiences, the program trains students to use evidence-based practices, monitor response to intervention, individualize intervention based on assessed needs, understand special education law and policy, provide positive-behavior support, and collaborate with colleagues and families.

## Admission Requirements

Before enrolling in the M.Ed. program, all students must provide the following:

1. An official sealed transcript of academic work that reflects a baccalaureate degree with a minimum 3.000 overall GPA. Transcripts from countries outside the U.S. must be accompanied by an official evaluation of the transcript by an SMU-recognized evaluation agency. No copies will be accepted. Applicants not meeting the 3.000 GPA requirement must request an exemption in writing and provide proof of other qualifications, such as long-term experience or expertise in a related specialized field, as a justification for admission.
2. For applicants from countries where the predominant language is not English, or prior coursework was not delivered in English, official scores (earned within the previous five years) on the TOEFL English language proficiency test administered by the Educational Testing Service or the IELTS English competency test. The minimum TOEFL score for admission is 550 on a pencil-and-paper test or 92 on the Internet-based test. The IELTS minimum score is 6.5. A TOEFL or IELTS waiver may be granted on the basis of: 1) the student applicant has lived and worked full time in the US or another country where English is the official language for at least 3 of the past 5 years; or 2) the applicant holds an undergraduate and/or prior graduate degree from a college or university where English is the official language of instruction
3. As evidence of financial support, international students must provide a Certification of Finance Form/Letter of Financial Backing. (This applies to students who are not awarded a scholarship.) This should represent that sufficient money will be available to the applicant to cover all expenses while at the University. This letter may be signed by a parent or sponsor but must be certified by a bank. The document must be notarized and on file before the process for visas and passport can proceed.
4. A completed application and a \$50 nonrefundable application fee payable to SMU: Department of Teaching and Learning.
5. Letters of recommendation and written essays may be required for admission to particular programs of study. Visit the Teaching and Learning website at [www.smu.edu/teacher](http://www.smu.edu/teacher) for specific admission requirements.

## Degree Requirements

Students must complete 36 graduate-level credit hours. Courses are taught after traditional school hours and in the summer to offer maximum flexibility. The primary instructional format is conventional face-to-face instructor/student contact, augmented with online delivery of relevant material. The required courses cover foundations of special education, diverse learners, assessment for special educators, and academic and behavioral interventions, and they include three supervised field experiences conducted in students' school settings. The capstone course, applied research in special education, involves an action research study.

## Requirements for the Major

### Core Courses (6 Credit Hours)

- EDU 6304 - Interpreting Educational Research
- EDU 6315 - Diverse Learners

## Content Courses (30 Credit Hours)

- EDU 6356 - Foundations of Special Education
- EDU 6357 - Assessment for Special Educators
- EDU 6358 - Instructional Interventions for Math
- EDU 6359 - Collaboration with Families and Colleagues
- EDU 6360 - Behavioral Interventions in the Classroom
- EDU 6361 - Applied Research in Special Education
- EDU 6363 - Late Literacy Acquisition
- EDU 6364 - Early Literacy Acquisition I
- EDU 6367 - Early Literacy Acquisition II
- EDU 6389 - Special Topics

Total: 36 Credit Hours

## Master of Education, M.Ed. General Information

[www.smu.edu/MEd](http://www.smu.edu/MEd)

The M.Ed. program with an option to specialize is designed to meet the needs of practicing teachers. The program offers maximum flexibility for the educator whose interest lies in broadening both academic preparation and classroom skills. The program is designed for teachers at all levels, kindergarten through grade 12.

All students must complete core courses that focus on the areas of research, diversity, psychology and teaching and learning with technology. Additional required courses expand or complement the core, specialization or master teaching assignment: either 1) 12 hours in one specialization (i.e., bilingual education, early literacy, ESL, gifted education, late literacy, mathematics, Montessori, or STEM) and 12 hours of EDU electives, or 2) two specializations. Reading Specialist and Master Math Teacher Certification Preparation is also offered.

## Admission Requirements

Before enrolling in the M.Ed. program, all students must provide the following:

1. An official sealed transcript of academic work that reflects a baccalaureate degree with a minimum 3.000 overall GPA. Transcripts from countries outside the U.S. must be accompanied by an official evaluation of the transcript by an SMU-recognized evaluation agency. No copies will be accepted. Applicants not meeting the 3.000 GPA requirement must request an exemption in writing and provide proof of other qualifications, such as long-term experience or expertise in a related specialized field, as a justification for admission.
2. For applicants from countries where the predominant language is not English, or prior coursework was not delivered in English, official scores (earned within the previous five years) on the TOEFL English language proficiency test administered by the Educational Testing Service or the IELTS English competency test. The minimum TOEFL score for admission is 550 on a pencil-and-paper test or 92 on the Internet-based test. The IELTS minimum score is 6.5. A TOEFL or IELTS waiver may be granted on the basis of: 1) the student applicant has lived and worked full-time in the US or another country where English is the official language for at least 3 of the past 5 years; or 2) the applicant holds an undergraduate and/or prior graduate degree from a college or university where English is the official language of instruction.
3. As evidence of financial support, international students must provide a Certification of Finance Form/Letter of Financial Backing. (This applies to students who are not awarded a scholarship.) This should represent that sufficient money will be available to the applicant to cover all expenses while at the University. This letter may be signed by a parent or sponsor but must be certified by a bank. The document must be notarized and on file before the process for visas and passport can proceed.
4. A completed application and a \$50 nonrefundable application fee payable to SMU: Department of Teaching and Learning.

5. Letters of recommendation and written essays may be required for admission to particular programs of study. Visit the Teaching and Learning website at [www.smu.edu/teacher](http://www.smu.edu/teacher) for specific admission requirements.

## Degree Requirements

### Core Courses (12 Credit Hours)

- EDU 6304 - Interpreting Educational Research
- EDU 6315 - Diverse Learners
- EDU 6322 - Educational and Behavioral Psychology
- EDU 6384 - Teaching and Learning with Technology

### Specialization Modules (12 Credit Hours)

Choose one from the following:

#### Bilingual Education (12 Credit Hours)

- EDU 6312 - Applied Linguistics
- EDU 6319 - Foundations of Bilingualism
- EDU 6321 - Bilingual/Biliteracy: Critical Issues and Practices
- EDU 6339 - Bilingual Content Instruction

#### ESL (12 Credit Hours)

- EDU 6312 - Applied Linguistics
- EDU 6317 - Culture and Community in Education
- EDU 6320 - Language Teaching Research, Theory, and Practice
- EDU 6390 - Classroom Instruction and Assessment for Language Learners

#### Gifted and Talented (12 Credit Hours)

- EDU 6325 - Educating Talented/Gifted
- EDU 6347 - Creativity: Theories, Models, and Applications
- EDU 6388 - Curriculum Development for the Talented and Gifted
- EDU 6397 - Growth and Development of the Gifted

#### Mathematics (12 Credit Hours)

- EDU 6379 - Numerical Reasoning: Numbers and Operations
- EDU 6380 - Algebraic Reasoning and Patterns
- EDU 6381 - Geometry and Measurement
- EDU 6382 - Everyday Mathematics: Probability and Data Analysis

#### Montessori (12 Credit Hours)

12 hours of transfer credit

#### Literacy, Grades PK - 3 (12 Credit Hours)

- EDU 6323 - Literacy Assessment
- EDU 6364 - Early Literacy Acquisition I
- EDU 6367 - Early Literacy Acquisition II
- EDU 6368 - Evaluating and Teaching Writing

### Late Literacy, Grades 3 - 9 (12 Credit Hours)

- EDU 6323 - Literacy Assessment
- EDU 6363 - Late Literacy Acquisition
- EDU 6366 - Reading and Writing in the Content Areas
- EDU 6368 - Evaluating and Teaching Writing

### STEM (12 Credit Hours)

- STEM-related EDU courses at the 6000 level or above
- EDU 6349 - The Science of Learning in STEM Education
- EDU 6350 - Designing and Making in STEM Education
- EDU 6351 - Community-Centered STEM Integration

### Urban Education (12 Credit Hours)

- EDU 6362 - Race, Power, and Politics: The History of Urban Education
- EDU 6369 - Culturally Responsive Teaching
- EDU 6395 - Community Partnerships in Urban Education

### Choose one elective below

- EDU 6360 - Behavioral Interventions in the Classroom
- EDU 6390 - Classroom Instruction and Assessment for Language Learners
- EDU 6396 - Empowering Student Voice: Unlocking Students' Potential For Learning

### Electives or Second Specialization Module (12 Credit Hours)

- EDU courses or other approved courses, or an additional specialization module from the list above

Total: 36 Credit Hours

## **Master of Education, M.Ed., Educator Preparation**

### **General Information**

[www.smu.edu/MEd](http://www.smu.edu/MEd)

[www.smu.edu/MasterEdCert](http://www.smu.edu/MasterEdCert)

The M.Ed. in educator preparation allows individuals with baccalaureate degrees to earn a master's degree while completing teacher certification requirements in early childhood through grade six, middle school or high school. Core courses expand participants' understandings of the psychological, social and cultural contexts of education. Individuals are admitted to the program as part of a cohort group; a new cohort begins each summer. Students must complete 36 hours of graduate study.

In Texas, individuals are certified to teach by the State Board for Educator Certification by passing two examinations: one that focuses on content/pedagogy and one that focuses on pedagogy and professional responsibilities. Together, the content exam and PPR exam are called the Texas Examinations of Educator Standards. For early childhood through grade six certification, the content test is the EC-6 Core Subjects Examination; for certification in grades four through eight, the test is the 4-8 Core Subjects Examination.

Students seeking certification in EC through grade six or grades four through eight must take a minimum of 24 credit hours (six hours in each of English, math, science and social studies), all with a grade no lower than C (2.000 out of 4.000) according to the State Board for Educator Certification. All candidates for high school (grades seven through 12) certification must complete at least 24 credit hours in the subject they want to teach with at least half of those

credits in upper-division courses. In all certification areas, there can be no final grade lower than a C (2.000) in any content course.

Once an individual has completed certification coursework, completed clinical student teaching or an internship, and passed the appropriate examinations, she or he submits fingerprints, passes a criminal background check and is awarded a standard teaching certificate by SBEC. General information about teacher certification in Texas is available from the State Board for Educator Certification (SBEC).

## Admission Requirements

Before enrolling in the M.Ed. program, all students must provide the following:

1. An official sealed transcript of academic work that reflects a baccalaureate degree with a minimum 3.000 overall GPA. Transcripts from countries outside the U.S. must be accompanied by an official evaluation of the transcript by an SMU-recognized evaluation agency. No copies will be accepted. Applicants not meeting the 3.000 GPA requirement must request an exemption in writing and provide proof of other qualifications, such as long-term experience or expertise in a related specialized field, as a justification for admission.
2. For applicants from countries where the predominant language is not English, or prior coursework was not delivered in English, official scores (earned within the previous five years) on the TOEFL English language proficiency test administered by the Educational Testing Service or the IELTS English competency test. The minimum TOEFL score for admission is 550 on a pencil-and-paper test or 92 on the Internet-based test. The IELTS minimum score is 6.5. Students pursuing a Masters of Education with Educator Preparation must have a minimum TOEFL (IBT) score of 92 with a minimum score of 26 on the speaking portion of the TOEFL exam. **International students pursuing the Master of Education with Educator Preparation** must have a minimum TOEFL (IBT) score of 92 with a minimum score of 26 for speaking, 22 for listening, 22 for reading, and 21 for writing. A TOEFL or IELTS waiver may be granted on the basis of: 1) the student applicant has lived and worked full time in the US or another country where English is the official language for at least 3 of the past 5 years; or 2) the applicant holds an undergraduate and/or prior graduate degree from a college or university where English is the official language of instruction.
3. As evidence of financial support, international students must provide a Certification of Finance Form/Letter of Financial Backing. (This applies to students who are not awarded a scholarship.) This should represent that sufficient money will be available to the applicant to cover all expenses while at the University. This letter may be signed by a parent or sponsor but must be certified by a bank. The document must be notarized and on file before the process for visas and passport can proceed.
4. A completed application and a \$50 nonrefundable application fee payable to SMU: Department of Teaching and Learning.
5. Letters of recommendation and written essays may be required for admission to particular programs of study. Visit the Teaching and Learning website at [www.smu.edu/teacher](http://www.smu.edu/teacher) for specific admission requirements.

## Requirements for the Concentration

### Content Courses (27 Credit Hours)

#### EC - Grade 6

- EDU 6302 - Design and Assessment of Learning
- EDU 6303 - Learning Environment and Professionalism
- EDU 6317 - Culture and Community in Education
- EDU 6326 - Content Area Studies
- EDU 6327 - Learning to Read and Write
- EDU 6329 - EC-6 Math
- EDU 6336 - Reading and Writing to Learn
- EDU 6360 - Behavioral Interventions in the Classroom
- EDU 6390 - Classroom Instruction and Assessment for Language Learners

### Grades 4 - 8 and 7 - 12

- EDU 6302 - Design and Assessment of Learning
- EDU 6303 - Learning Environment and Professionalism
- EDU 6317 - Culture and Community in Education
- EDU 6324 - Content Methods
- EDU 6360 - Behavioral Interventions in the Classroom
- EDU 6366 - Reading and Writing in the Content Areas
- EDU 6390 - Classroom Instruction and Assessment for Language Learners

### Core Courses

- EDU 6304 - Interpreting Educational Research
- EDU 6315 - Diverse Learners

### Field Experience Courses (3 Credit Hours)

#### EC–Grade 6

- EDU 6121 - Field Experience I: Elementary
- EDU 6122 - Field Experience II: Elementary
- EDU 6123 - Field Experience III: Elementary

#### Grades 4 - 8 and 7 - 12

- EDU 6124 - Field Experience I: Secondary
- EDU 6125 - Field Experience II: Secondary
- EDU 6126 - Field Experience III: Secondary

### Student Teaching or Internship Courses (6 Credit Hours)

#### EC - Grade 6

- EDU 6306 - Elementary Student Teaching  
and
- EDU 6307 - Elementary Student Teaching  
or
- EDU 6376 - Internship I: EC-6  
and
- EDU 6377 - Internship II: EC-6

#### Grades 4 - 8 and 7 - 12

- EDU 6308 - Secondary Student Teaching  
and
- EDU 6309 - Secondary Student Teaching  
or
- EDU 6374 - Internship I: High School and Middle School  
and
- EDU 6375 - Internship II: High School and Middle School

Total: 36 Credit Hours

# Master of Music, M.M. in Music Education

[www.smu.edu/Meadows/AreasOfStudy/Music](http://www.smu.edu/Meadows/AreasOfStudy/Music)

With the guidance of a faculty adviser, candidates seeking a Master of Music in music education through the Meadows School of the Arts may use elective choices to build a concentration (requiring at least six credits) in one of four areas: choral conducting, instrumental conducting, general music or piano pedagogy. In certain cases, and subject to departmental approval, up to six credit hours of the Master of Music in music education may be satisfied through involvement in the Music Educators Workshops.

Applicants traditionally enter the program with a background in teacher preparation. However, other candidates may be accepted, including those with undergraduate music degrees in performance, piano pedagogy or sacred music. The wide variety of elective choices allows the construction of individualized degree plans to fill in gaps in previous training.

## Admission and Degree Requirements

Students should contact the Meadows School of the Arts for more information.

**Music Educators Summer Workshop.** Both noncredit and credit workshops are available. Students who elect to earn graduate credit may be able to apply that credit to either SMU's Master of Music in Music Education program or SMU's M.Ed. program. More information is found at [www.smu.edu/Meadows/AreasOfStudy/Music](http://www.smu.edu/Meadows/AreasOfStudy/Music) ("Workshops and Special Programs" link).

## Contact Information

### Music Educators Summer Workshop

PO Box 750356  
Dallas TX 75725-0356  
214-768-3765

## Learning Therapy Preparation

[www.smu.edu/LearningTherapy](http://www.smu.edu/LearningTherapy)

The Learning Therapy Preparation curriculum is designed for individuals interested in working with children or adults who have dyslexia or related written-language learning disorders. Participants are trained in the structures of written English, multisensory teaching methods and sequential procedures for teaching written-language skills and learning strategies. Learning Therapy Preparation requires two years of graduate study, extensive practicum teaching hours, seminars and clinical teaching hours. All of the courses are designed to teach the knowledge and skills prescribed by the National Academic Language Therapy Association and the International Multisensory Structured Language Education Council, which accredits courses that prepare individuals in the use of multisensory structured language education programs.

Students who would like to complete the M.Ed. degree program while engaged in learning therapy preparation should apply to the Master of Education in Reading and Writing program. Although learning therapy students primarily come from elementary and secondary education, nursing, psychology, speech-language pathology, diagnostics, and counseling, a wide variety of other educational and professional fields may be appropriate backgrounds for the profession.

## Admission Requirements

Before enrolling in Learning Therapy Preparation, all students must provide the following:

1. A formal application with the \$50 nonrefundable application fee.
2. An official transcript from the school that awarded the applicant's baccalaureate degree; the transcript must show both degree status (such as bachelor's degrees completed) and an overall GPA of 3.000 or better.

3. A personal statement of goals that reflects an interest in learning and motivation for becoming an academic language therapist.
4. A written summary of work experience.
5. Admission requirements are periodically updated. Please visit the Teaching and Learning website at [www.smu.edu/teacher](http://www.smu.edu/teacher) for specific admission requirements.

## Requirements

Students must successfully complete introductory coursework as well as a minimum of 120 clinical teaching hours during the first year to continue study as a second-year student. If a student lacks any requirement of first-year study, special permission to continue in the program may be granted after a formal review process by the Clinical Teaching Board.

### First-year Introductory Courses

- EDU 6101 - Clinical Therapy Practicum I
- EDU 6102 - Clinical Therapy Practicum II
- EDU 6231 - Introductory Course C: Early Language Development
- EDU 6330 - Introductory Course A: Survey of Dyslexia and Related Learning Disorders
- EDU 6331 - Introductory Course B: Cognitive and Linguistic Structures of Written Language

Total: 10 Credit Hours

### Second-year Advanced Courses

- EDU 6103 - Clinical Therapy Practicum III
- EDU 6104 - Clinical Therapy Practicum IV
- EDU 6332 - Advanced Cognitive and Linguistic Structures of Written Language Part I
- EDU 6333 - Advanced Cognitive and Linguistic Structures of Written Language Part II
- EDU 6233 - Advanced Cognitive and Linguistic Structures of Written Language Part III

Total: 10 Credit Hours

### Elective Courses

Two from the following:

- EDU 6105 - Current Issues in Dyslexia: Dyslexia Identification Process, Kindergarten and Beyond
- EDU 6109 - Work Smart
- EDU 6110 - Automaticity and Rate
- EDU 6115 - Early Language Development: Phonological Awareness
- EDU 6116 - Procedures and Measures for Assessing Students for Dyslexia
- EDU 6118 - Characteristics of Dyslexia
- EDU 6134 - Survey of Learning Strategies

Total: 2 Credit Hours

Total: 22 Credit Hours

# Postbaccalaureate Educator Preparation

[www.smu.edu/TeacherPrep](http://www.smu.edu/TeacherPrep)

Through the Department of Teaching and Learning, postbaccalaureate students may enroll in courses that lead to teaching certification at the elementary and secondary levels. SMU offers courses in all three grade ranges: early childhood–grade six, grade four–grade eight and grade seven–grade 12. For all educator preparation questions, students should contact the Department of Teaching and Learning at [teacher@smu.edu](mailto:teacher@smu.edu) or 214-768-2346.

To become a teacher, students must pass two state examinations: one that covers content and one that covers both instruction/pedagogy and professional responsibilities. The exams are offered periodically throughout the year by the State Board for Educator Certification. Once an individual has completed preparation coursework, completed student teaching or an internship, and passed the appropriate examinations, she/he submits fingerprints, passes a criminal background check and is awarded a standard teaching certificate by SBEC. General information about educator preparation in Texas is available from the SBEC at [www.sbec.state.tx.us](http://www.sbec.state.tx.us).

An individual who already has a bachelor's degree and wants to attend SMU to become a certified teacher must satisfy most of the same curricular requirements as undergraduates and follow many of the same procedures. SMU's Educator Preparation program requires 21 credit hours of coursework plus nine credit hours of field-work (three hours of early field experience and six hours of either student teaching or internship) for a total of 30 credit hours. Students meet each term with their adviser, who guides the program of study.

The classroom courses and field experiences are based on the Texas standards for beginning teachers and can be completed in three regular terms if attending full time. Throughout the course of study, students are expected to maintain high levels of performance and to develop habits of reflection, as well as acquire knowledge and skills of practice. Professors model learning experiences that are considered best practices for all learners. Within their classes, students are expected to work collaboratively in small groups, complete simulated teacher tasks, pose questions for class inquiry and use multiple resources to answer questions.

- Early childhood-Grade 6
- Secondary Education (Middle and High School: Grades 4-8 and 7-12)
- All-Level Music, Theatre Arts or World Languages

## Postbaccalaureate Educator Preparation Entrance Requirements

Before enrolling in the Postbaccalaureate Educator Preparation courses, all students must provide the following:

1. A formal application with the \$50.00 nonrefundable application fee.
2. An official transcript showing a bachelor's degree awarded with an overall GPA of 3.000. Transcripts from countries outside the United States must be accompanied by official evaluations by an SMU-recognized evaluation agency.
  - a. Students applying for teacher preparation in EC through grade six and grade four–grade eight must have at least 24 hours of core content comprised of six credit hours in each of the following, with no grade lower than a C (2.000): math, English, science and social studies with a GPA of 3.000.
  - b. Students applying for grade seven–grade 12 must have at least 24 credit hours, with 12 hours of advanced courses in an approved teaching field with a GPA of 3.000.
3. A letter of reference from an employer or professor.
4. For international students applying from countries where English is not the native language, the TOEFL English language proficiency test must be taken. A minimum score of 92 must be earned on the IBT version of the exam with a minimum score of 26 on the speaking portion of the exam. **International students pursuing the Postbaccalaureate Educator Preparation program** must have a minimum TOEFL (IBT) score of 92 with a minimum score of 26 for speaking, 22 for listening, 22 for reading, and 21 for writing. Additionally, if you have graduated from a university or college in the United States, you do not need to take the IELTS or TOEFL for admission; this requirement will be waived.
5. A written essay.

Admission requirements are periodically updated. Please visit the Teaching and Learning website at [www.smu.edu/teacher](http://www.smu.edu/teacher) for specific admission requirements.

## **Professional Development**

The Simmons School has a distinguished history of offering special workshops, lectures and seminars that address issues of social and scholarly import. Most are noncredit, but some offer graduate or undergraduate credit.

## **Education Courses**

### **EDU 5100 - Special Topics**

*Credits: 1*

Students work on a personalized system of instruction. Most of the work in this course is done as an independent study.

### **EDU 5121 - Field Experience I: Elementary**

*Credits: 1*

This course gives students opportunities to work in appropriate school settings and allows them to observe a functioning classroom. Includes classroom setup, environment, organization, structure, and discipline.

### **EDU 5122 - Field Experience II: Elementary**

*Credits: 1*

With a focus on special populations, this course places students in elementary school settings where they observe the teaching techniques used to help children with exceptional needs.

### **EDU 5123 - Field Experience III: Elementary**

*Credits: 1*

This course gives students opportunities to work in appropriate school settings and to plan and teach lessons. Students shadow a teacher in preparation for student teaching.

### **EDU 5124 - Field Experience I: Secondary**

*Credits: 1*

This course gives students opportunities to work in appropriate school settings and allows them to observe a functioning classroom. Includes classroom setup, environment, organization, structure, and discipline.

### **EDU 5125 - Field Experience II: Secondary**

*Credits: 1*

Places students in elementary school settings where they observe the teaching techniques used to help children with exceptional or special needs.

### **EDU 5126 - Field Experience III: Secondary**

*Credits: 1*

This course gives students opportunities to work in appropriate school settings and to plan and teach lessons. Students shadow a teacher in preparation for student teaching.

### **EDU 5157 - Practicum for Teaching Early Reading and Writing**

*Credits: 1*

Provides experience applying evidence-based principles of literacy development and learning in young children, early childhood through second grade. Requires tutoring experiences in a local school. Corequisite: EDU 5257.

### **EDU 5200 - Special Topics**

*Credits: 2*

Students work on a personalized system of instruction. Most of the work in this course is done as an independent study.

### **EDU 5257 - Methods for Teaching Early Reading and Writing**

*Credits: 2*

Examines evidence-based principles of literacy development and learning in young children, early childhood through second grade. Focuses on designing, adapting, and evaluating beginning literacy instruction for children. Corequisite: EDU 5157.

### **EDU 5300 - Special Topics**

*Credits: 3*

Students work on a personalized system of instruction. Most of the work in this course is done as an independent study.

### **EDU 5318 - Formative/Summative Assessment**

*Credits: 3*

Explanation and practice of formal and informal assessment strategies, the ways assessment outcomes should inform instruction, and the methods for sharing assessment outcomes with families. All assignments relate to putting assessment skills into practice in the classroom.

### **EDU 5327 - Integrating Teaching and Learning**

*Credits: 3*

Reviews the nature and design of educational activities: theory, research, practice of unit planning, and lesson planning for active learning that meets the needs of individual students.

### **EDU 5330 - Integrated Stem Studies**

*Credits: 3*

Provides elementary- and middle-grades teachers with strategies to integrate science, technology, engineering, and mathematics in their classrooms.

### **EDU 5331 - Content Area Studies For Elementary School**

*Credits: 3*

Explores science, social studies, art, music, drama, and physical education content for students EC-grade six. Also, effective teaching strategies for each content area.

### **EDU 5348 - Introduction to Diverse Learners**

*Credits: 3*

A study of diversity, multicultural concepts, and inclusion. Also, explores issues, policies, and professional practice relevant to teaching.

### **EDU 5349 - Learning Environment and Professionalism: EC-12**

*Credits: 3*

This course focuses on major issues facing teachers in establishing and maintaining a positive and productive learning environment, as well as the professional roles and responsibilities of teachers.

### **EDU 5355 - Teaching Mathematics in Elementary School**

*Credits: 3*

Evaluates learning materials and teaching methods focusing on knowledge and skills required for students EC-grade six.

### **EDU 5357 - Emergent Literacy**

*Credits: 3*

This course examines principles of literacy learning in young children and predictable stages of oral language, writing, and reading development. All literacy classes require field experiences in local schools.

### **EDU 5358 - Conventional Literacy**

*Credits: 3*

Introduces theories, practices, and materials for teaching reading and/or writing in primary grades. All literacy classes require field experiences in local schools.

### **EDU 5363 - Elementary Student Teaching**

*Credits: 3*

Requires a 15-week assignment in an elementary school that has a diverse student population. Includes a seminar on campus every 2 weeks.

### **EDU 5364 - Elementary Student Teaching**

*Credits: 3*

This course requirement is a 15-week assignment in an elementary school that has a diverse student population. The course includes a seminar on campus every 2 weeks. Students are assigned an SMU supervisor who observes in the classroom at least four times a term. A portfolio is required.

### **EDU 5367 - Creating Successful Classrooms**

*Credits: 3*

Students will examine current research that promotes student-centered teaching and constructivist practices. Various teaching and learning strategies of teaching in effective classrooms will be the focus of the course.

### **EDU 5371 - Content Area Methods**

*Credits: 3*

Students refine content knowledge, methods, and strategies specific to their content area and level of certification.

### **EDU 5373 - Secondary Student Teaching**

*Credits: 3*

Requires a 15-week assignment in a middle school and/or high school that has a diverse student population. Includes a seminar on campus every 2 weeks. Students are assigned an SMU supervisor who observes in the classroom at least four times a term. A portfolio is required.

### **EDU 5374 - Secondary Student Teaching**

*Credits: 3*

Requires a 15-week assignment in a middle school and/or high school that has a diverse student population. Includes a seminar on campus every 2 weeks. Students are assigned an SMU supervisor who observes in the classroom at least four times a term. A portfolio is required.

### **EDU 5375 - Internship I: High School and Middle School**

*Credits: 3*

This course requirement is a full-year assignment as the teacher of record in a public or accredited private school. Supervision by SMU faculty is required.

### **EDU 5376 - Internship II: High School and Middle School**

*Credits: 3*

This course requirement is a full-year assignment as the teacher of record in a public or accredited private school. Supervision by SMU faculty is required.

**EDU 5385 - Internship I: EC-6**

*Credits: 3*

This course requirement is a full-year assignment as the teacher of record in a public or accredited private school. Supervision by SMU faculty is required.

**EDU 5386 - Internship II: EC-6**

*Credits: 3*

This course requirement is a full-year assignment as the teacher of record in a public or accredited private school. Supervision by SMU faculty is required.

**EDU 6100 - Independent Study**

*Credits: 1*

Students work independently on a personalized system of instruction.

**EDU 6101 - Clinical Therapy Practicum I**

*Credits: 1*

Provides the opportunity for clinical teaching and therapy practices. Clinical teaching reports and therapy demonstrations are required. Each student is assigned an adviser to answer questions and provide support and guidance.

**EDU 6102 - Clinical Therapy Practicum II**

*Credits: 1*

Provides the opportunity for clinical teaching and therapy practices. Clinical teaching reports and therapy demonstrations are required. Each student is assigned an adviser to answer questions and provide support and guidance.

**EDU 6103 - Clinical Therapy Practicum III**

*Credits: 1*

Provides the opportunity for clinical teaching and therapy practices. Clinical teaching reports and therapy demonstrations are required. Each student is assigned an adviser to answer questions and provide support and guidance.

**EDU 6104 - Clinical Therapy Practicum IV**

*Credits: 1*

Provides the opportunity for clinical teaching and therapy practices. Clinical teaching reports and therapy demonstrations are required. Each student is assigned an adviser to answer questions and provide support and guidance. (Learning therapy only)

**EDU 6105 - Current Issues in Dyslexia: Dyslexia Identification Process, Kindergarten and Beyond**

*Credits: 1*

This course presents an in-depth outline of steps for early identification of dyslexic students. This identification involves more than administering a battery of tests. A team approach, involving individuals with information regarding the students, is integral to the identification process. Central to the team are knowledgeable classroom teachers. The course also discusses early identification as a key to successful remediation, including current research that shows this can be accomplished for children as young as 5 years of age, before they experience real failure.

**EDU 6109 - Work Smart**

*Credits: 1*

This course explores WorkSmart, a strategy for increasing dyslexic students' self-esteem and advocacy competencies. Is it based on the premise that the biggest problem most people with dyslexia face is not the learning difference itself but the way they cope with it.

### **EDU 6110 - Automaticity and Rate**

*Credits: 1*

This course outlines explicit suggestions for helping students develop proficient decoding (reading) and encoding (spelling) skills to a level of automaticity that does not require conscious thought or effort. It also offers pointers on how students can be taught to understand how different kinds of texts are organized, as well as a repertoire of strategies for understanding these texts.

### **EDU 6115 - Early Language Development: Phonological Awareness**

*Credits: 1*

This course explores current research that confirms that children who have a greater degree of phonological awareness when they enter school are better equipped to learn to read. A more advanced form of phonological awareness is called phoneme awareness, which is the understanding that speech can be broken down into even smaller units called phonemes. Since few preschoolers spontaneously attain phonemic awareness, this course teaches appropriate activities to help build these skills by engaging preschoolers in activities that draw their attention to the existence of phonemes in spoken words.

### **EDU 6116 - Procedures and Measures for Assessing Students for Dyslexia**

*Credits: 1*

This course serves as a guide for developing a referral, assessment, and placement process for identifying the student with dyslexia. Time will be devoted to analyzing all existing information on the student, including formal test results, in order to make an educational identification of dyslexia. In addition, the course focuses on accommodations, modifications, and teaching strategies that may be used for the dyslexic student in the regular classroom.

### **EDU 6118 - Characteristics of Dyslexia**

*Credits: 1*

Students will engage in an in-depth study of dyslexia in this course. Students will examine current research related to dyslexia and topics pertaining to reading intervention and accommodations.

### **EDU 6120 - Special Topics**

*Credits: 1*

Students work on a personalized system of instruction.

### **EDU 6121 - Field Experience I: Elementary**

*Credits: 1*

Gives students opportunities to work in appropriate school settings, and allows them to observe a functioning classroom. Includes classroom setup, environment, organization, structure, and discipline.

### **EDU 6122 - Field Experience II: Elementary**

*Credits: 1*

Students are placed in elementary school settings where they observe the teaching techniques used to help children with exceptional needs.

### **EDU 6123 - Field Experience III: Elementary**

*Credits: 1*

Students plan and teach lessons in a school setting while shadowing a teacher in preparation for student teaching.

### **EDU 6124 - Field Experience I: Secondary**

*Credits: 1*

Gives students opportunities to work in appropriate school settings and allows them to observe a functioning classroom. Includes classroom setup, environment, organization, structure, and discipline.

### **EDU 6125 - Field Experience II: Secondary**

*Credits: 1*

Students are placed in secondary school settings where they observe the teaching techniques used to help children with exceptional or special needs.

### **EDU 6126 - Field Experience III: Secondary**

*Credits: 1*

Students plan and teach lessons in a school setting while shadowing a teacher in preparation for student teaching.

### **EDU 6129 - Practicum for Teaching Early Reading and Writing**

*Credits: 1*

Provides experience applying evidence-based principles of literacy development and learning in young children, early childhood through second grade. Requires students to engage in tutoring experiences in a local school. Corequisite: EDU 6229.

### **EDU 6134 - Survey of Learning Strategies**

*Credits: 1*

This course emphasizes learning styles and processes, as well as organized patterns and cognitive development of the dyslexic student. Survey study skills and learning strategies used in the classroom or in clinical practice are discussed.

### **EDU 6142 - Late Literacy Development Practicum**

*Credits: 1*

This course gives students opportunities for applying content from EDU 6363 and using materials and strategies discussed in EDU 6363 in their own school settings. Prerequisite: 2.000 GPA or better in EDU 6141. Corequisite: EDU 6363.

### **EDU 6145 - Instructional Interventions for Math Practicum**

*Credits: 1*

Students apply in a classroom setting the content modeled during EDU 6358. Corequisite: EDU 6358.

### **EDU 6146 - Applied Research in Special Education Practicum**

*Credits: 1*

Students apply in a classroom setting the content modeled during EDU 6361. Corequisite: EDU 6361.

### **EDU 6150 - Graduate Research**

*Credits: 1*

Includes supervised completion of an independent research project designed in EDU 6304.

### **EDU 6160 - Graduate Research**

*Credits: 1*

Includes supervised completion of an independent research project designed in EDU 6304.

### **EDU 6164 - Early Literacy Acquisition I Practicum**

*Credits: 1*

Provides students with supervised opportunities to apply content and skills from their early literacy courses to classroom and tutoring situations. Corequisite: EDU 6364.

### **EDU 6167 - Early Literacy Acquisition II Practicum**

*Credits: 1*

Provides students with supervised opportunities to apply content and skills from their early literacy courses to classroom and tutoring situations. Corequisite: EDU 6367.

### **EDU 6200 - Independent Study**

*Credits: 2*

Students work independently on a personalized system of instruction.

### **EDU 6225 - Planning and Managing Change**

*Credits: 2*

Topics include the development of planning, management, and communication skills needed by school leaders who help shape the changes in professional practice in order to improve student achievement.

### **EDU 6229 - Methods for Teaching Early Reading and Writing**

*Credits: 2*

Examines evidence-based principles of literacy development and learning in young children, early childhood through second grade. Focuses on designing, adapting, and evaluating beginning literacy instruction for children. Corequisite: EDU 6129.

### **EDU 6231 - Introductory Course C: Early Language Development**

*Credits: 2*

Refines techniques and procedures previously introduced, and discusses systems of record keeping and progress reporting.

### **EDU 6233 - Advanced Cognitive and Linguistic Structures of Written Language Part III**

*Credits: 2*

Students acquire additional sophisticated therapy techniques, including transition and closure, and review record keeping and student progress measurement. Includes discussion of professional dyslexia-related organizations.

### **EDU 6234 - CAS Instructor Level 3**

*Credits: 2*

Instructional assistant in the course entitled Early Language Development.

### **EDU 6235 - CAS Instructor Level 6**

*Credits: 2*

Internship in the course entitled Seminar/Practicum Curriculum Issues.

### **EDU 6280 - Advanced Linguistic Structures of English Part 2**

*Credits: 2*

This course provides teachers with evidence-based practices for teaching children who have dyslexia and related written-language disorders. Building on terminology and concepts in teaching-level and therapist-level courses, this second therapy-level course presents the most advanced linguistic structures of written English related to reading and spelling. Prerequisite: 2.000 GPA or better in EDU 6346. Reserved for the M.Ed. with a concentration in reading and writing. For Dallas cohort only.

### **EDU 6300 - Independent Study**

*Credits: 3*

Students work independently on a personalized system of instruction.

### **EDU 6302 - Design and Assessment of Learning**

*Credits: 3*

Review of research and practice in learning theory, instructional design, and assessment strategies. Students are required to investigate studies supporting best practice in the classroom. Reserved for the M.Ed. with a concentration in certification preparation.

### **EDU 6303 - Learning Environment and Professionalism**

*Credits: 3*

Investigation of student needs that teachers must meet as well as different aspects of professionalism expected of classroom teachers. Students are required to analyze studies supporting best practice in classroom management and professional development. Prerequisite: Reserved for the M.Ed. with a concentration in certification preparation.

### **EDU 6304 - Interpreting Educational Research**

*Credits: 3*

Required core course for the M.Ed. degree. The primary focus is on the interpretation of educational research studies in elementary and secondary school settings. Prerequisite: Enrollment in one of the following programs: M.Ed. with a concentration in certification preparation (plus a 2.000 or better GPA in EDU 6305 or EDU 6329), M.Ed. with a concentration in reading and writing (plus a 2.000 or better GPA in EDU 6363), Master in Bilingual Education, or M.Ed. with an unspecified track. M.B.E. students and students who are not in one of the designated tracks for the M.Ed. degree should take this course within their first two terms.

### **EDU 6305 - Differentiated Instruction**

*Credits: 3*

Introduces assessment and curriculum design concepts that facilitate differentiation by studying design principles for assessment and using data to plan and implement differentiation by modifying learning processes and student products. Prerequisite: Enrollment in one of the following programs: M.Ed. with a concentration in reading and writing (plus a 2.000 or better GPA in EDU 6304), M.Ed. with a concentration in certification preparation, Master in Bilingual Education, or M.Ed. with an unspecified track.

### **EDU 6306 - Elementary Student Teaching**

*Credits: 3*

A 15-week assignment in an elementary school that has a diverse student population. Includes a seminar on campus every 2 weeks.

### **EDU 6307 - Elementary Student Teaching**

*Credits: 3*

A 15-week assignment in an elementary school that has a diverse student population. Includes a seminar on campus every 2 weeks.

### **EDU 6308 - Secondary Student Teaching**

*Credits: 3*

A 15-week assignment in a middle school and/or high school that has a diverse student population. Includes a seminar on campus every 2 weeks. Students are assigned an SMU supervisor who observes in the classroom at least four times a term. A portfolio is required.

### **EDU 6309 - Secondary Student Teaching**

*Credits: 3*

A 15-week assignment in a middle school and/or high school that has a diverse student population. Includes a seminar on campus every 2 weeks. Students are assigned an SMU supervisor who observes in the classroom at least four times a term. A portfolio is required.

### **EDU 6310 - Foundations of Education**

*Credits: 3*

Required core course for the Master of Education degree. The primary focus is on historical and philosophical issues of the past in order for teachers to make sense of the present.

### **EDU 6311 - Literacy Leadership and Consultation**

*Credits: 3*

Provides knowledge and skills for master reading teachers in their consultative roles in schools. Prerequisite: 2.000 or better GPA in EDU 6323.

### **EDU 6312 - Applied Linguistics**

*Credits: 3*

This course provides an introduction to basic concepts in linguistics and their application in meeting practical educational goals. It includes an emphasis on first and second language learning.

### **EDU 6313 - Spanish for Bilingual Teachers**

*Credits: 3*

This course helps teachers improve their oral and aural skills in Spanish through in-class activities and through projects and assignments. Guest lecturers from the Hispanic community provide opportunities to experience the diversity of Hispanic cultures and language. Course assignments facilitate the acquisition of the social and academic vocabulary necessary to work with students and families whose first language is Spanish. Much of class lecture and discussion will take place in Spanish, and knowledge of Spanish is required.

### **EDU 6314 - Positive Psychology and Social and Emotional Learning**

*Credits: 3*

An introduction to the role of Positive Psychology in educational settings, with emphasis on how teachers can impact students through positive classroom culture and attention to social and emotional strengths.

### **EDU 6315 - Diverse Learners**

*Credits: 3*

Introduces different teaching approaches that help create equal educational opportunities for students from diverse racial, ethnic, social class, and cultural groups. Provides strategies to make teaching more effective in increasingly diverse schools. Some sections of the course require Spanish proficiency. Prerequisite: Enrollment in one of the following programs: M.Ed. with a concentration in certification preparation (plus a 2.000 or better GPA in EDU 6326 or EDU 6366), M.Ed. with a concentration in reading and writing (plus a 2.000 or better GPA in EDU 6305), Master in Bilingual Education, or M.Ed. with an unspecified track.

### **EDU 6317 - Culture and Community in Education**

*Credits: 3*

Examines relationships among schools, families, and communities from various research perspectives. Focuses on the roles of school and community in delivering culturally appropriate instruction and services to students from diverse backgrounds. Some sections of this course require Spanish proficiency.

### **EDU 6319 - Foundations of Bilingualism**

*Credits: 3*

This course offers an examination of the history and implementation of various bilingual education program models. Particular attention is given to research of bilingual program models and issues related to recruitment, training, and retention of bilingual education teachers.

### **EDU 6320 - Language Teaching Research, Theory, and Practice**

*Credits: 3*

This course introduces the methodology of second language instruction with an emphasis on current research and theory of language acquisition and teaching. ESL program designs are reviewed, and classroom applications and assessments are discussed in the context of specialized ESL classrooms.

### **EDU 6321 - Bilingual/Biliteracy: Critical Issues and Practices**

*Credits: 3*

This course provides an exploration of the theoretical foundations, methods, and materials for literacy instruction in bilingual instructional settings. Special emphasis is placed on language and literacy for students from diverse cultural and linguistic backgrounds.

### **EDU 6322 - Educational and Behavioral Psychology**

*Credits: 3*

Required core course for the M.Ed. degree. The primary focus is on psychological issues faced by teachers in the classroom setting. Content deals with instructional and behavioral concepts. Students should complete this course within their first two terms.

### **EDU 6323 - Literacy Assessment**

*Credits: 3*

Participants study multiple reading assessments and learn to use them.

### **EDU 6324 - Content Methods**

*Credits: 3*

Study of teaching strategies specific to content areas and levels of certification. Includes the examination of research promoting content instruction. Requires in-depth reading assignments unique to content areas of specialty. Reserved for the M.Ed. with a concentration in certification preparation.

### **EDU 6325 - Educating Talented/Gifted**

*Credits: 3*

This course includes surveys of the history of the field, basic terminology and definitions, major models and theories, and effective program prototypes for gifted students. Students review characteristics of the gifted and talented and overview identification and assessment procedures for gifted students. Attention is given to analyzing the traits of effective teachers and counselors and to developing models for interaction with gifted students.

### **EDU 6326 - Content Area Studies**

*Credits: 3*

Exploration of science, social studies, art, music, drama, and physical education content for pre-K through grade four students, and effective teaching strategies for each content area. Readings from research journals in the content areas are required, along with the development of research-based instructional strategies. Reserved for the M.Ed. with a concentration in certification preparation.

### **EDU 6327 - Learning to Read and Write**

*Credits: 3*

Introduces research, practices, and materials for teaching reading and writing in prekindergarten through grade one. All literacy courses require field experiences in local schools. Reserved for the M.Ed. with a concentration in certification preparation.

### **EDU 6328 - Strategic Teaching**

*Credits: 3*

Examines a variety of instructional strategies proven to engage learners in the middle and high school learning

environment. Gives students an opportunity to practice developing skills in communication and facilitating learning. Prerequisite: 2.000 GPA or better in EDU 6305. Reserved for the M.Ed. with a concentration in certification preparation.

### **EDU 6329 - EC-6 Math**

*Credits: 3*

An evaluation of teaching methods in mathematics, focusing on the knowledge and skills required for pre-K through grade six students. Requires study of the research in math concept development. Reserved for the M.Ed. with a concentration in certification preparation.

### **EDU 6330 - Introductory Course A: Survey of Dyslexia and Related Learning Disorders**

*Credits: 3*

Introduces language communication concepts and educational activities for teaching individuals with developmental dyslexia and related language learning difficulties. Includes a study of the characteristic symptoms of dyslexia, implications of the disorder, diagnosis, and multisensory and discovery language remediation techniques. Practicum opportunities are included. Reserved for the M.Ed. with a concentration in reading and writing. For Dallas cohort only.

### **EDU 6331 - Introductory Course B: Cognitive and Linguistic Structures of Written Language**

*Credits: 3*

Focuses on cognitive and linguistic structures of written language and writing and phonetic concepts related to reading and spelling. Examines the historical development of English and its relevance to language disabilities. Prerequisite: EDU 6330.

### **EDU 6332 - Advanced Cognitive and Linguistic Structures of Written Language Part I**

*Credits: 3*

An overview of advanced dyslexia instruction and instruction in the more complex aspects of the English written code. Prerequisite: EDU 6331.

### **EDU 6333 - Advanced Cognitive and Linguistic Structures of Written Language Part II**

*Credits: 3*

A continuation of EDU 6332. Refines previously developed procedures and techniques, and examines phonetic irregularities and semantic and syntactic structures.

### **EDU 6334 - The Montessori Method: Mathematics**

*Credits: 3*

Introduces Montessori mathematics, which fosters the development of the child's mathematical mind. Math exercises span numeration, operation, memorization, fractions, money, time, measurement, geometry, and problem-solving.

### **EDU 6335 - Foundations of the Montessori Method**

*Credits: 3*

Introduces the historical and theoretical foundations of the Montessori method and provides a basic understanding of pedagogical practices grounded in the Montessori method.

### **EDU 6336 - Reading and Writing to Learn**

*Credits: 3*

Introduces research, practices, and materials for teaching reading and writing in grades two through six. Requires field experiences in local schools.

### **EDU 6337 - The Montessori Method: Cultural Subjects**

*Credits: 3*

Introduces the Montessori method's cultural subjects: history, geography, geometry, biology, and aesthetic development.

### **EDU 6338 - The Montessori Method: Early Childhood Skills and Development**

*Credits: 3*

Introduces practical life and sensorial exercises for the Montessori classroom, which provide children opportunities to explore the world through the refinement of classification, problem-solving, and critical thinking skills. Students learn how to effectively apply practical life and sensorial exercises in classroom settings.

### **EDU 6339 - Bilingual Content Instruction**

*Credits: 3*

Designed for students who will be teaching in bilingual education classrooms or administering bilingual education programs. Participants review current research in reading in the content areas and strengthen their knowledge in critical content vocabulary and the mechanics of spelling and writing in Spanish. Many lectures and discussions are in Spanish, and knowledge of Spanish is required.

### **EDU 6341 - The Montessori Method: Early Childhood Classroom Management**

*Credits: 3*

Introduces the Montessori method's prepared environment. Students learn how to create the physical and psychological spaces of a prepared environment and to maintain positive classroom interactions through conflict resolution strategies and other approaches.

### **EDU 6342 - Literacy Instruction for Students with Dyslexia and Related Disorders: Introductory Course**

*Credits: 3*

Introduces the study of literacy instruction for students with dyslexia and related disorders, with a focus on the characteristics of dyslexia and related disorders, definitions, basic terminology, and research-based components of instruction. Provides practical application of the theoretical underpinnings of reading development to inform instructional decisions for students with dyslexia and related disorders. Reserved for the M.Ed. with a concentration in reading and writing. For Houston cohort only.

### **EDU 6343 - Literacy Instruction for Students with Dyslexia and Related Disorders: Reading Comprehension**

*Credits: 3*

Provides information about the implementation of research-based vocabulary and reading comprehension instruction for students with dyslexia and related disorders. Prerequisite: 2.000 GPA or better in EDU 6342. Reserved for the M.Ed. with a concentration in reading and writing. For Houston cohort only.

### **EDU 6344 - Literacy Instruction for Students with Dyslexia and Related Disorders: Written Expression**

*Credits: 3*

Provides information about the implementation of research-based written expression instruction for students with dyslexia and related disorders. Prerequisite: 2.000 GPA or better in EDU 6343. Reserved for the M.Ed. with a concentration in reading and writing. For Houston cohort only.

**EDU 6345 - Literacy Instruction for Students with Dyslexia and Related Disorders:  
Advanced Course**

*Credits: 3*

An advanced study of literacy instruction for students with dyslexia and related disorders. Specifically, an in-depth study of the theoretical underpinnings of research-based components of literacy instruction. Provides practical implementation of literacy instruction for tier-three students based on instructional needs. Prerequisite: 2.000 GPA or better in EDU 6344. Reserved for the M.Ed. with a concentration in reading and writing. For Houston cohort only.

**EDU 6347 - Creativity: Theories, Models, and Applications**

*Credits: 3*

Surveys the concept of creativity. Topics include instruments and techniques for identifying creativity, theories and models of creativity, techniques for creativity enhancement, and futuristics and challenges unique to creative persons. Prerequisite: 2.000 or better GPA in EDU 6325.

**EDU 6348 - Foundations of ESL for Secondary Teachers**

*Credits: 3*

Prepares teachers to teach content to the English language learner. Theory application covers models, informal assessments, and instructional strategies.

**EDU 6349 - The Science of Learning in STEM Education**

*Credits: 3*

Provides elementary, middle, and high school teachers with a foundation of how research in the learning sciences can inform instruction in science, technology, engineering, and mathematics.

**EDU 6350 - Designing and Making in STEM Education**

*Credits: 3*

Provides teachers with strategies for developing science, technology, engineering, and math learning environments in which their students generate and revise STEM knowledge by creatively designing and making.

**EDU 6351 - Community-Centered STEM Integration**

*Credits: 3*

Students complete a Master's Project on STEM education in this practicum-based course. Students work with a community partner and engage in hands-on exercises in order to enhance their knowledge of STEM content for K-12 students.

**EDU 6352 - CAS Instructor Level I**

*Credits: 3*

Instructional assistant in the course entitled Survey of Dyslexia and Related Disorders.

**EDU 6353 - CAS Instructor Level 2**

*Credits: 3*

Instructional assistant in the course entitled Cognitive and Linguistic Structures of Written Language.

**EDU 6354 - CAS Instructor Level 4**

*Credits: 3*

Internship in the course entitled Advanced Cognitive and Linguistic Structures of Written Language, Part I.

**EDU 6355 - CAS Instructor Level 5**

*Credits: 3*

Internship in the course entitled Advanced Cognitive and Linguistic Structures of Written Language, Part II.

### **EDU 6356 - Foundations of Special Education**

*Credits: 3*

This course focuses on educational policies, laws, and practices associated with education for individuals with disabilities. Topics cover the range of perspectives underlying school-based delivery of educational services.

### **EDU 6357 - Assessment for Special Educators**

*Credits: 3*

Focuses on current educational measurement and assessment practices associated with educational services for school-age individuals with learning-related disabilities. The study of current practices is framed in the context of special education decisions for classroom-based interventions, diagnostic and placement decisions, and school and program accountability. Participants learn measurement technologies and nomenclature necessary for preparing and interpreting technical documents. Prerequisite or corequisite: EDU 6304.

### **EDU 6358 - Instructional Interventions for Math**

*Credits: 3*

Prepares teachers to address the needs of students with exceptionalities in grades K-12 to teach mathematics skills in diverse classroom settings for a variety of learners.

### **EDU 6359 - Collaboration with Families and Colleagues**

*Credits: 3*

Explores the knowledge and skills necessary for effective collaboration with school-based personnel supporting the learning and social needs of individuals with disabilities and their families.

### **EDU 6360 - Behavioral Interventions in the Classroom**

*Credits: 3*

Covers the principles of classroom management, both proactive and reactive, within the context of special education.

### **EDU 6361 - Applied Research in Special Education**

*Credits: 3*

Focuses on using data to guide individualized and intensive intervention for students receiving special education services due to severe and persistent learning and behavioral difficulties.

### **EDU 6362 - Race, Power, and Politics: The History of Urban Education**

*Credits: 3*

Investigates the interplay of race, power, and politics in urban schools; examines the impact these factors impose on the urban community; and highlights community resilience.

### **EDU 6363 - Late Literacy Acquisition**

*Credits: 3*

Examines the evidence-based principles of literacy development and learning in intermediate, middle, and secondary grade reading and writing instruction (grades 3-12). Focuses on the theory, research base, and practitioner application of procedures for designing, implementing, adapting, and evaluating literacy instruction to meet the needs of all learners.

### **EDU 6364 - Early Literacy Acquisition I**

*Credits: 3*

First of two courses that provides an in-depth examination of early literacy acquisition based on the latest research evidence. Provides teachers with knowledge essential to effectively teach literacy to students with varying needs who are at the kindergarten to second grade developmental levels. Scientific theory about cognitive and literacy development is integrated with a deep understanding of the structure of language and applied to specific methods for teaching early literacy to students in K-2. Requires practicum experiences.

### **EDU 6365 - Technology and Discourse**

*Credits: 3*

Designed to increase students' familiarity and expertise with graduate-level academic writing genres within the fields of education and human development.

### **EDU 6366 - Reading and Writing in the Content Areas**

*Credits: 3*

Prepares content area teachers to facilitate their students' ability to gain meaning from text and to use text as a tool for content area learning. Provides practical strategies and techniques for accommodating the academic diversity faced by today's teachers. Teachers complete the term with a deeper understanding of how to integrate reading and writing to enhance student learning of content area knowledge.

### **EDU 6367 - Early Literacy Acquisition II**

*Credits: 3*

Second of two courses that provides teachers with knowledge essential to teaching literacy to students with varying needs who are at the kindergarten through second grade developmental levels. Requires practicum experiences.

Prerequisite: EDU 6364.

### **EDU 6368 - Evaluating and Teaching Writing**

*Credits: 3*

Focuses on coaching, assessing, teaching, and evaluating writing in a K-12 Response-to-Intervention framework. Students learn to assess writing and language skills, as well as learn to apply specific evidence-based instructional practices and techniques for teaching writing and enhancing students' writing outcomes. Requires practicum experiences.

### **EDU 6369 - Culturally Responsive Teaching**

*Credits: 3*

Expands teachers' repertoire of effective teaching processes by acquainting them with research, theory, and practical skills for aligning curriculum and instructional practices with students' varied social contexts.

### **EDU 6370 - Physical Science: Chemistry**

*Credits: 3*

This course focuses on developing models of effective instructional strategies designed to promote student learning and understanding of physical concepts and processes. In addition, research is utilized to help practitioners identify misconceptions and develop practical methods to help students accurately conceptualize the physical models. Topics of study include matter and elements; chemical and physical changes; acids, bases, and solutions; atomic structure; periodic properties; interpretation of chemical formulas and equations; bonding; and behavior of gases.

### **EDU 6371 - Life Sciences**

*Credits: 3*

This course involves participants in activities designed to help them achieve an understanding of - and the decision-making process based on - current research pertaining to concepts in biological science. In addition, students learn methods for communicating and collaborating with colleagues and gain leadership, mentoring, and coaching skills. Topics of study include levels of organization of living organisms, cell structure and function, mechanisms of genetics, evolution and classification, heredity and reproduction, and interdependence within environmental systems.

### **EDU 6372 - Physical Sciences: Physics**

*Credits: 3*

This course highlights the development of practical methods for demonstrating and using models, planning laboratory experiences, managing science equipment, and handling safety concerns. Students focus on processes, tenets, and

assumptions of multiple methods of inquiry leading to scientific knowledge. Topics of study include force and motion, wave, light, sound, quantum phenomena, conservation of energy and momentum, and electricity and magnetism.

### **EDU 6373 - Earth and Space Science**

*Credits: 3*

This course involves participants in activities surrounding the structure, function, and history of Earth systems, and the components and characteristics of the solar system and the universe. In addition, models of effective instructional strategies are developed to promote student learning and understanding of Earth/space science concepts and processes. Topics of study include Earth in space and time, Earth structures and composition, rocks, fossils, and Earth systems.

### **EDU 6374 - Internship I: High School and Middle School**

*Credits: 3*

The first of two internships that, together, constitute a full-year assignment as the teacher of record in a public or accredited private school. Supervision by SMU faculty is required.

### **EDU 6375 - Internship II: High School and Middle School**

*Credits: 3*

The second of two internships that, together, constitute a full-year assignment as the teacher of record in a public or accredited private school. Supervision by SMU faculty is required.

### **EDU 6376 - Internship I: EC-6**

*Credits: 3*

The first of two internships that, together, constitute a full-year assignment as the teacher of record in a public or accredited private school. Supervision by SMU faculty is required.

### **EDU 6377 - Internship II: EC-6**

*Credits: 3*

The second of two internships that, together, constitute a full-year assignment as the teacher of record in a public or accredited private school. Supervision by SMU faculty is required.

### **EDU 6378 - Supervision of Preservice Teacher Education Programs**

*Credits: 3*

Theory and practice of supervision of student teachers. Designed especially for clinical faculty, students develop supervisory skills through case studies, role-playing, and analysis of teaching.

### **EDU 6379 - Numerical Reasoning: Numbers and Operations**

*Credits: 3*

Covers number systems and their properties: integers, rational numbers, irrational numbers, and complex numbers; real number line; numerical base systems; significant historical developments; decimal representation; axiomatic systems and introductory group theory; set theory; cardinality; recurrence relations; prime numbers; the fundamental theorem of arithmetic; greatest common divisors; least common multiple; division algorithm; Euclidean algorithm; introductory number theory; modular arithmetic; and problem-solving. Topics include advanced mathematical content that informs elementary, middle, and secondary teaching. Discusses practical models for effectively teaching numerical reasoning, number systems, and operations for EC-12 mathematics. Also, components for developing effective mentoring relationships.

### **EDU 6380 - Algebraic Reasoning and Patterns**

*Credits: 3*

Covers functional relationships and their properties: patterns, variable expressions, definitions and properties of functions, graphs, one-to-one, invertibility, and compositions. Also, various linear, quadratic, polynomial, rational, trigonometric, exponential, and logarithmic models. Includes the fundamental theory of algebra, algebraic applications

of functions in everyday life, modeling, significant historical developments, rates of change, calculus, introductory analysis, and problem-solving. Topics include advanced mathematical content that informs elementary, middle, and secondary teaching. Discusses practical models for effectively teaching students about patterns, variables, and functional relationships for EC-12 mathematics, as well as components for developing effective mentoring relationships.

### **EDU 6381 - Geometry and Measurement**

*Credits: 3*

Delves into Euclidean geometry and proof: axiomatic systems; definitions, theorems, postulates, and proofs; similarity; proportional reasoning; constructions; measurement; spatial reasoning; plane isometries, translations, rotations, and reflections; dilations; trigonometric functions; inductive and/or deductive reasoning; mathematical induction; symbolic logic, proofs, and invalid arguments; significant historical developments; introductory topology; coordinate geometry; vectors; matrices; and problem-solving. Introduces the two non-Euclidean geometries, elliptic and hyperbolic. Topics include advanced mathematical content that informs elementary, middle, and secondary teaching. Discusses practical models and available technological tools for effectively teaching students about geometry, measurement, and proof for EC-12 mathematics. Also, components for developing effective mentoring relationships.

### **EDU 6382 - Everyday Mathematics: Probability and Data Analysis**

*Credits: 3*

Covers advanced mathematical content that informs elementary, middle, and secondary teaching, and focuses on methods of representing and analyzing data: measures of central tendency and measures of dispersion; introductory combinatorics; discrete and continuous random variables; expected value; statistical foundations; inference; random samples; properties of binomial, geometric, and normal distributions; law of large numbers; central limit theorem; significant historical developments; stochastic matrices; regression; and problem-solving. Discusses practical models and available technological tools for effectively teaching probability and statistics and for overcoming common student misconceptions in EC-12 mathematics. Examines components for developing effective mentoring relationships.

### **EDU 6383 - Coding for Teachers**

*Credits: 3*

Introduces students to the fundamental coding and technology skills needed to design computational computing assignments for STEM education. Course is taught through a series of hands-on tutorials and programming assignments.

### **EDU 6384 - Teaching and Learning with Technology**

*Credits: 3*

Includes models of instructional design and development; the fundamentals of technology, hardware, software, and networks; technology-based instructional tools; audio assistive technologies; blogging and other social media; laws and issues related to equity and access; and copyright, fair use, patent, trademarks, and the use of and respect for intellectual property. Students utilize a variety of software applications to create classroom-related projects.

### **EDU 6385 - Technology-Related Instructional Assessment**

*Credits: 3*

Includes instructional assessment models and strategies, rubrics, technology-based formative and summative assessments, portfolios, Web 2.0 assessments, gaming, performance-based graphic organizers, and instructional planning. Projects include designing performance-based assessments, formative and summative assessments, rubrics, and games. Students utilize data for instructional planning and improvement, and create technology-based assessments to plan for differentiation. This is the second or third course in the master technology teacher specialization, and it is a prerequisite for EDU 6387. Prerequisite: EDU 6384.

### **EDU 6386 - Multimedia Design and Development for Educators**

*Credits: 3*

Includes the design, development, and use of interactive media and multimedia in the classroom. Media explored

includes audio, video, still images, animated GIFs, photo manipulation, photography, animation, graphics, and stop motion video. Students assume the role of instructional designers in order to create multimedia productions for use in their classrooms.

### **EDU 6387 - Research and Professional Development in the Information Age**

*Credits: 3*

Includes current issues and trends in technology-related instruction; the TPACK model; and the fundamentals of mentoring, coaching, and leadership as they pertain to professional development, communication and facilitation strategies, collaborative pedagogy in technology instruction, and new Web 2.0 technologies. Students design and present a professional development workshop, demonstrating cumulative knowledge of all of the classes in the specialization. This is the final course in the master technology teacher specialization. Prerequisites: EDU 6384, and EDU 6385 or EDU 6386.

### **EDU 6388 - Curriculum Development for the Talented and Gifted**

*Credits: 3*

Builds the foundation for development of differentiated curricula for the gifted. Students study effective teaching strategies, learn how to adapt curriculum for individual differences, study the organization of curriculum and instruction for the gifted (scope and sequence, issues related to integrated and interdisciplinary curriculum, and grouping issues.) Emphasis is placed on the teaching of higher-level cognitive skills within the disciplines.

### **EDU 6389 - Special Topics**

*Credits: 3*

This course allows students to work independently with an instructor on a targeted topic. The course may be repeated.

### **EDU 6390 - Classroom Instruction and Assessment for Language Learners**

*Credits: 3*

This course focuses on classroom applications of ESL teaching and learning. Students will examine factors that influence English language and literacy development and will develop instructional approaches and pedagogical materials that meet the needs of English language learners.

### **EDU 6391 - Teacher Development in STEM Education I**

*Credits: 3*

Science teachers design grade level appropriate STEM learning environments using hands-on scientific processes that incorporate Project Based Learning, maker-based instruction, informal learning spaces, and social and emotional learning.

### **EDU 6392 - Teacher Development in STEM Education II**

*Credits: 3*

Science teachers design grade level appropriate STEM learning environments using hands-on scientific processes that incorporate Project Based Learning, maker-based instruction, informal learning spaces, and social and emotional learning.

### **EDU 6393 - Engaging Students through Inquiry in STEM Education I**

*Credits: 3*

Science teachers study teacher and student behaviors that facilitate inquiry-based science, technology, engineering, and mathematics (STEM) learning; participate in hands-on scientific practices and processes; and engage in grade-level appropriate science content instruction.

### **EDU 6394 - Engaging Students through Inquiry in STEM Education II**

*Credits: 3*

Science teachers study teacher and student behaviors that facilitate inquiry-based science, technology, engineering, and

mathematics (STEM) learning; participate in hands-on scientific practices and processes; and engage in grade-level appropriate science content instruction.

### **EDU 6395 - Community Partnerships in Urban Education**

*Credits: 3*

Exposes preservice, in-service, and other educators to culturally rich, urban community-based experiences to enhance cultural competence, ethnocentric teaching practices, and civic responsibility.

### **EDU 6396 - Empowering Student Voice: Unlocking Students' Potential For Learning**

*Credits: 3*

Uses a framework of diversity and inclusiveness to examine the benefits of "student voice" for engaging urban school students in critical conversations about their conceptions of classroom instruction.

### **EDU 6397 - Growth and Development of the Gifted**

*Credits: 3*

Examines the differentiated affective characteristics and needs of the gifted, including a review of general counseling theories, effective communication with the gifted, and the assessment of affective needs. Students develop strategies for assisting the gifted; also, developing social and interpersonal skills. Reviews issues surrounding the potential of the gifted to achieve and make significant contributions to society as a whole.

### **EDU 6398 - Teach for America Practicum 1**

*Credits: 3*

The first in a series of two courses focusing on classroom application of evidence-based concepts and strategies from the Teach for America Professional Development Institute. Prerequisite: Restricted to members of Teach for America who are enrolled in the M.Ed. program.

### **EDU 6399 - Teach for America Practicum 2**

*Credits: 3*

The second in a series of two courses focusing on classroom application of evidence-based concepts and strategies from Teach for America. Prerequisite: Restricted to members of Teach for America who are enrolled in the M.Ed. program.

### **EDU 7100 - Independent Study**

*Credits: 1*

Students work independently on a personalized system of instruction.

### **EDU 7111 - Lab for Quantitative Statistics**

*Credits: 1*

Facilitates the technical aspects of working with statistical software packages and applies concepts from the accompanying statistics lecture course, EDU 7311. Corequisite: EDU 7311.

### **EDU 7112 - Lab for Intermediate Quantitative Statistics in Education**

*Credits: 1*

Designed to facilitate the technical aspects of working with statistical software packages and to apply concepts in the statistics lecture course, EDU 7312, which is recommended as a corequisite course. Prerequisites: EDU 7111, EDU 7311.

## **EDU 7119 - Synthesis and Integration of Knowledge and Skills in Education Policy and Leadership**

*Credits: 1*

Offered each term in years one and two. Designed to integrate learning experiences and domains across courses, cognates, and internship experiences to allow students to develop facility analyzing multidimensional facets of complex systems.

## **EDU 7300 - Independent Study**

*Credits: 3*

Students work independently on a personalized system of instruction.

## **EDU 7302 - Advanced Quantitative Research Methods**

*Credits: 3*

Doctoral professional seminar emphasizing research designs in education including experimental, quasi-experimental, single-case, evaluation, survey, and other designs. Although statistical methods are discussed for various designs, the emphasis is on concepts, procedures, and internal and external validity issues. Applications to the review of research and writing of methods sections for grants and dissertations.

## **EDU 7303 - Mixed Methods: Quantitative and Qualitative Research**

*Credits: 3*

Research designs and statistical methods for studies that combine quantitative analysis with qualitative inquiry. Also, review of literature employing mixed methods and computer methods of analysis.

## **EDU 7305 - Introduction to Qualitative Research in Education**

*Credits: 3*

Introduces the historical and theoretical foundations of qualitative research and provides a basic understanding of design, application, and analysis using qualitative methods.

## **EDU 7306 - Historical and Social Foundations of Education**

*Credits: 3*

Examines the historical, social, philosophical, and economic forces that have shaped the contemporary educational landscape, from the common school movement to the market-based reforms of the 21st century.

## **EDU 7307 - Foundations of Teaching and Learning**

*Credits: 3*

This course addresses several questions. "Who are the significant teaching and learning theorists?" "Is a teaching practice evidence-based?" "What constitutes teaching and learning equity and access?"

## **EDU 7309 - Special Topics**

*Credits: 3*

This course allows students to work independently with an instructor on a targeted topic.

## **EDU 7311 - Quantitative Statistics for Education Research**

*Credits: 3*

Introduces statistical techniques for educational research, and promotes the ability to interpret statistical concepts. Techniques covered include analysis of variance, multiple comparisons, nonparametric statistics, simple linear regression, and multiple correlations.

### **EDU 7312 - Intermediate Quantitative Statistics in Education**

*Credits: 3*

Doctoral seminar that continues EDU 7311. Statistical methods including analysis of variance, basic regression, and other intermediate statistical methods.

### **EDU 7313 - Advanced Assessment Methods**

*Credits: 3*

Covers advanced topics in educational and psychological assessment, including terminology, concepts, and methods in reliability. Also, validity, fairness, and IRT, as well as interpreting tests of ability, achievement, personality, and behavior.

### **EDU 7314 - Advanced Multivariate Statistics**

*Credits: 3*

This course is designed to broaden and enrich the student's knowledge and understanding of statistical methodology as it pertains to the study of multivariate techniques used in the behavioral sciences with specific application to education.

### **EDU 7315 - Designing Learning Environments**

*Credits: 3*

This course focuses on examining causal instruments that impact student achievement and seek explanatory mechanisms that can be affected by implementing, sustaining, scaling, and evaluating evidence-based instructional practices.

### **EDU 7316 - Organizational Theory**

*Credits: 3*

Familiarizes students with theories of organizational behavior and their application to schools: how they work, how people and groups behave within them, why they change, and why they often fail to change. Major topics include leadership theory, organizational structure, power and politics, and culture.

### **EDU 7317 - Policy Analysis**

*Credits: 3*

This course focuses on examining education policy at federal, state, and local levels to articulate and evaluate essential factors that enhance or impede implementation of policy directives in complex environments.

### **EDU 7318 - Program Evaluation**

*Credits: 3*

This course focuses on developing proficiency using research design principles and integrating analytic techniques to examine and evaluate the effectiveness of programs for improving student achievement.

### **EDU 7319 - Synthesis: Integrating Domains and Areas of Emphasis**

*Credits: 3*

This course is designed to integrate learning experiences and domains across courses, cognates, and internship experiences to allow students to develop facility analyzing multidimensional facets of complex systems.

### **EDU 7320 - Advanced Assessment Methods II**

*Credits: 3*

Emphasizes statistical modeling procedures for estimating measurement reliability and scaling. Prerequisites: EDU 7313, EDU 7311 or equivalent.

## **EDU 7321 - Quantitative Research Methods II**

*Credits: 3*

A study of methods that make possible the treatment of nonexperimental and/or correlational data for supporting causal inferences, with emphasis on internal, external, construct, and statistical conclusion validity. The course is not a study of statistics. Students use statistical computing software (e.g., R, SAS, SPSS, Mplus) for analyzing quantitative data and estimating statistical models. Also, discussions of equations used, focusing carefully on notation and varying degrees of model complexity. Prerequisites: EDU 7302, EDU 7311 or equivalents.

## **EDU 7323 - Structural Equation Modeling**

*Credits: 3*

Introduces the basic theory of structural equation modeling, which is a system of regression models with observed and unobserved variables. The course focuses on behavioral and social science applications. Prerequisite: EDU 7320.

## **EDU 7324 - Advanced Structural Equation Modeling**

*Credits: 3*

Introduces advanced quantitative-method topics related to structural equation modeling (SEM) for behavioral and social science applications.

# **Simmons School of Education and Human Development: Tuition, Fees and Financial Aid**

## **Tuition, Fees and Living Expenses**

The *Financial Information Bulletin* is issued each academic year. It provides the general authority and reference for SMU financial regulations and obligations, as well as detailed information concerning tuition, fees and living expenses.

Continuing students registering must ensure that payment for the full amount of charges is posted to their account by the payment due date showing on their bill. The due dates are also published on the Bursar website.

Billing notifications are sent to the student's SMU email address and to the designated authorized payer(s) email address when a bill is generated. The billing notification will provide instructions on how to view the bill online through SMUpay. If notification is not received two weeks prior to the due date, the student and/or designated authorized payer(s) should contact the Office of the University Bursar.

Payments made in person or mailed must be received by the Office of the University Bursar, located on the first floor of the Laura Lee Blanton Student Services Building, no later than 4 p.m. Central Time on the payment due date. Payments made online via electronic check or credit card must be posted no later than 11:59 p.m. Central Time on the payment due date. Students and/or those paying on behalf of students who pay online automatically receive an electronic confirmation of payment; students and/or designated authorized payer(s) paying through other methods can also verify receipt of payment online.

Students enrolling after the payment due date must pay at the time of enrollment. Students whose accounts are not cleared by the payment due date or at the time of enrollment are subject to a late payment fee of \$50 for balances between \$250 and \$999.99, and \$150 for balances between \$1,000 and \$5,000. Balances more than \$5,000 are charged 3 percent of the outstanding balance, not to exceed \$750. Also, after the monthly payment due date has passed, a 1.5 percent past due fee will be assessed on the unpaid student and/or miscellaneous account each month until the balance is paid. The enrollment of students whose accounts remain unpaid after the payment due date may be canceled at the discretion of the University. Students are individually responsible for their financial obligations to the University.

All refunds except federal Parent PLUS loans, prepayment accounts, the SMU Monthly TuitionPay Payment Plan and international wires will be made payable to the student. A credit card payment will only be refunded to the student if federal student loans have been applied to their account. International wires will be refunded by wire to the originating wire account less a \$35 wire-processing fee. The Parent PLUS loan borrower can request the refund to be processed to the student by submitting a Parent PLUS Release form, located on the Bursar website. If the refund is issued by check, the student may request, in writing, that the refund be sent to another party.

Any outstanding debts to the University will be deducted from the credit balance prior to issuing a refund. Any outstanding debts to the University that include Title IV funds must have an Authorization to Credit Account form and/or an Authorization to Credit Account Parent form on file in order to transfer funds to cover current award year debts. Students need to sign the ACA form and the federal parent PLUS loan borrower needs to sign the ACAP form.

Any outstanding debts to the University that do not include Title IV funds will be deducted from the credit balance prior to issuing a refund. All other debts should be paid directly by the student.

A student whose University account is overdue or who in any other manner has an unpaid financial obligation to the University will be denied the recording and certification services of the Office of the Registrar, including the issuance of a transcript or diploma, and may be denied readmission until all obligations are fulfilled. The Division of Enrollment Services may stop the registration, or may cancel the completed registration, of a student who has a delinquent account or debt, and may assess all attorney's fees and other reasonable collection costs (up to 50 percent) and charges necessary for the collection of any amount not paid when due. Matriculation in the University constitutes an agreement by the student to comply with all University rules, regulations and policies.

Applications for financial assistance should be submitted well in advance of registration in accordance with recommended filing dates set forth by the Division of Enrollment Services, Office of Financial Aid. Applications received after the recommended deadline can expect a delay in application processing time due to the increased volume. This will ultimately delay disbursement of financial aid to the student account. Students and families are expected to clear all billed charges by the published billing due dates regardless of the status of their financial aid application. Any funds that disburse to the student account after the payment due date has passed, will be applied to any outstanding charges first. Remaining financial aid funds will be refunded to the student.

During the registration process, students will be prompted to read and agree to the Student Rights and Responsibilities, which provides information regarding financial rights and obligations, SMU's Honor Code, the Code of Conduct, and the student appeals and complaints process.

Students who elect to register for courses outside of their school of record will pay the tuition rate of their school of record.

## **Tuition Refunds for Withdrawal from the University**

No refunds of tuition or fees will be considered without an official withdrawal. Policies for official withdrawal, including medical and mandatory administrative withdrawal, are found under Withdrawal From the University in the Academic Records and General and Enrollment Standards section of this catalog.

Reduction of tuition and fees is determined by the effective date of the withdrawal and is based on the schedule listed in the *Financial Information Bulletin* and the SMU Bursar website.

## **Financial aid implications of withdrawing from the University**

Federal regulations require schools to adjust financial aid when a student officially withdraws from the University before completing 60% of the term. Financial aid is reduced to a pro-rated amount based on the amount of time the student was enrolled in classes in that specific term, thus "earning" financial aid proportionate to the amount of time enrolled. The "unearned" portion of aid will be returned to the funding source. Students completing 60% or more of a term are considered to have earned 100% of their financial aid for that term. This federally mandated calculation is completely independent of university's refund policies for withdrawals and may require a reduction in financial aid even if there is no reduction in tuition charges. The end result could create a substantial student account balance after the withdrawal is processed. For this reason, students are strongly encouraged to contact their financial aid adviser, before initiating a withdrawal, to discuss the financial implications of withdrawing. For additional information on the University's tuition refund policies, see the SMU *Financial Information Bulletin* or the University Bursar's website.

Information on the implications of withdrawing on your financial aid can be found on the Office of Financial Aid website.

Medical withdrawals and mandatory administrative withdrawals allow a prorated refund of tuition and fees and must be initiated through the academic adviser or academic Dean's office.

## **Payment Plan Options**

### **SMU Monthly Payment Plan**

SMU offers several payment plan options to assist students and families. Refer to the Bursar's website for detailed payment plan information: [www.smu.edu/paymentplans](http://www.smu.edu/paymentplans).

Annual payment plans are available in 12-month and 10-month formats. Term payment plans are available in 6-month and 5-month formats. The summer payment plan is three months. Payment plan options are not available for short terms including JanTerm, MayTerm, August Term and Winter Term.

## **Graduate and Professional Student Aid**

Grants and loans for Texas residents, private and federal loans, and employment programs may be available by filing the Free Application for Federal Student Aid. The FAFSA may be completed online at [www.fafsa.gov](http://www.fafsa.gov). The SMU Title IV school code number is 003613.

In order to qualify for financial aid, a graduate student must meet the requirements of halftime to full-time status as determined by the University. A student who is ineligible for financial aid should contact a student account adviser in the Bursar's Office for payment plan options.

More information is available online at [www.smu.edu/financialaid](http://www.smu.edu/financialaid).

While University-based grants, scholarships, fellowships and assistantships are not available to students in Simmons School, the Simmons School does offer tuition scholarships and assistantships. It is worth noting, as well, that the tuition rates for all of the master's degree programs in the Simmons School are substantially lower than regular SMU tuition. More information is available at [www.smu.edu/bursar](http://www.smu.edu/bursar).

# **Simmons School of Education and Human Development: Enrollment and Academic Records**

The standards herein are applicable to all students at the University and constitute the basic authority and reference for matters pertaining to University academic regulations and records management. Enrollment in the University is a declaration of acceptance of all University rules and regulations. A complete *University Policy Manual* is available at [www.smu.edu/policy](http://www.smu.edu/policy). Additional information regarding rules and regulations of the University can be found in this catalog. Undergraduate students must follow the University-wide requirements that are in effect for the academic year of matriculation to SMU. The applicable requirements of majors and minors are those in effect during the academic year of matriculation to SMU or those of a subsequent academic year. Students may not follow a catalog for an academic year in effect prior to their matriculation term. Students who are not enrolled for three or more years will return to SMU under the current catalog.

## **General Policies**

### **Confidentiality of Education Records**

The Family Educational Rights and Privacy Act of 1974 is a federal law that grants students the right to inspect, obtain copies of, challenge, and, to a degree, control the release of information contained in their education records. The act and regulations are very lengthy, and for that reason, SMU has issued its own FERPA-based guidelines that are available at the University Registrar's Office FERPA website [www.smu.edu/FERPA](http://www.smu.edu/FERPA). Policy 1.10 of the *University Policy Manual* also discusses this law.

In general, no personally identifiable information from a student's education record will be disclosed to any third party without written consent from the student. Several exceptions exist, including these selected examples: 1) information defined by SMU as directory information may be released unless the student requests through my.SMU Student Homepage that it be withheld, 2) information authorized by the student through my.SMU Student Homepage may be released to those individuals designated by the student and 3) information may be released to a parent or guardian if the student is declared financially dependent upon the parent or guardian as set forth in the Internal Revenue Code. Additional information is available at [www.smu.edu/FERPA](http://www.smu.edu/FERPA).

### **Student File Number**

The University assigns each student an eight-digit SMU identification number, which is used to verify each student's identity and is provided without additional charges. The student should furnish the SMU ID number on all forms when requested, as this number is the primary means the University has to verify the identity for each student's academic records and transactions related to the records.

### **Name Change**

A student who has a change in name must provide to the University Registrar's Office his or her Social Security card or the form issued by the Social Security Administration. A valid passport may also be used to complete a name change. Enrollment or records services for the student under a name different from the last enrollment cannot be accomplished without one of the above documents. All transcripts and diplomas are issued only under a person's legal name as recorded by the University Registrar's Office.

### **Preferred Name**

Students who wish to use a name other than their legal name can add a preferred name to their file in addition to their primary/legal name, or update a preferred name already on file, using the self service functions in the my.SMU Student Homepage. The University will make efforts to use the preferred name in communications and in the course of university business. However, there are situations that due to business practices, legal requirements or system limitations the use of a primary/legal name will be used.

SMU has many offices that keep records with student names and many data systems used for specific applications. In addition to updating their preferred name in my.SMU, students may need to notify some offices regarding their use of a preferred name.

A preferred name is a first, middle and/or last name that may be chosen to be used instead of legal first, middle and last name. There is no documentation required to create or change a preferred name. Students are advised that if they choose to use a preferred name, they should use it consistently and resist changing it frequently. Students also are advised that the use of a preferred last name can lead to confusion with employers and organizations in attempting to match official educational records with applications and it is recommended that students provide both their preferred and legal names on applications.

Here is a partial list of standard name usage:

Display name – my.SMU Student Homepage	Preferred name, if provided
Instructor Class Roster	Preferred name, if provided
Instructor Grade Roster	Preferred name, if provided
Canvas	Preferred name, if provided
Global Directory of email addresses	Preferred name, if provided
SMU online directory	Preferred name, if provided
SMU ID Card	Primary (legal) name -- under review
Financial Aid related forms and documents	Primary (legal) name
Official Academic Transcript	Primary (legal) name
Diploma	Primary (legal) name or derivative
Degree Verifications	Primary (legal) name
Housing / Residence Life	Preferred first name, Primary last name
SEVIS Reporting (international students)	Primary (legal) name

## **Email and Mailing Addresses, Telephone, and Emergency Contact**

Each student must provide the University Registrar's Office with both a home and local (mailing) address, both a home and local telephone number and contact information of a designated emergency contact using the self-service functions in the my.SMU Student Homepage. Students enrolling at SMU authorize the University to notify their emergency contacts in the event of a situation affecting their health, safety, or physical or mental well-being, and to provide these contacts with information related to the situation.

Students who enroll in an arranged section course will be asked to provide the University Registrar's Office with an off-campus study address. This is the physical location the student is living while enrolled in this course.

When a student applies for graduation and becomes a candidate they can provide a diploma address (address to which they would like their diploma mailed) to the University Registrar's Office.

International students are required to provide a residence address (physical street address where they are currently living) as their mailing (local) address. International students will be prevented from enrolling if a U.S. address is not provided.

Students are expected to keep current all their addresses and telephone numbers, including emergency contact details, through my.SMU, the University's Web-based self-service system. Students may be prevented from enrolling if their information is insufficient or outdated. Changes to parent information should be reported by contacting records@smu.edu, and the email should include the student's full name and SMU student ID number.

The University issues all students an email address. Students may have other email addresses, but the University-assigned email address is the official address for University electronic correspondence, including related communications with faculty members and academic units.

Official University correspondence may be sent to students' mailing addresses or SMU email addresses on file. It is the responsibility of students to keep all their addresses current and to regularly check communications sent to them since they are responsible for complying with requests, deadlines and other requirements sent to any of their mailing addresses on file or to their SMU email.

## Cell Phones

The University requests that students provide mobile/cell telephone numbers, as they are one means of communicating with students during an emergency. Mobile/cell telephone numbers may also be used by University officials conducting routine business. Students who do not have a mobile/cell telephone or do not wish to report the numbers should provide this information to the University through my.SMU Student Homepage. Students may be prevented from enrolling if their mobile/cell telephone numbers are not on file or if they have not declared "no cell" or "prefer not to report" in my.SMU.

## Ethnicity

SMU requires that a valid ethnic group category be on file for all students. SMU's policies and the Family Educational Rights and Privacy Act of 1974 protect the confidentiality and privacy of this information. A student's ethnic group category can be viewed in my.SMU, Student Homepage.

**U.S. Citizens or Permanent Residents.** Ethnicity is self-determined. Students of multiple ethnic backgrounds may select multiple ethnic group categories. If the ethnic group value is incorrect, the student should go to the University Registrar's Office in the Laura Lee Blanton Student Services Building and complete an Ethnic/Racial Category Update Form.

**International Students Living in the U.S. While Attending School.** Selecting an ethnic group category is not required unless the student becomes a U.S. citizen or permanent resident.

## Transcript Service

A transcript is an official document of the permanent academic record maintained by the University Registrar's Office. The permanent academic record includes all SMU courses attempted, all grades assigned, degrees received and a summary of transfer hours accepted. Official transcripts and certifications of student academic records are issued by the University Registrar's Office for all students. Copies of high school records and transfer transcripts from other schools must be requested from the institutions where the coursework was taken.

Transcripts are \$12.25 per copy. Additional copies in the same request mailed to the same address are \$3.50. Additional copies mailed to different addresses are \$12.25 a copy. PDF transcripts are \$16.00 per email address and are available only for students who attended after summer 1996.

**Note:** No incomplete or partial transcripts, including only certain courses or grades, are issued.

Transcripts cannot be released unless the student has satisfied all financial and other obligations to the University. Instructions for requesting a transcript to be mailed or picked up on campus are available at [www.smu.edu/registrar](http://www.smu.edu/registrar) ("Transcript Requests" link). A student may request his or her official transcript through the online my.SMU Student Homepage. Requests are processed through the National Student Clearinghouse. Telephone and email requests are not accepted. Students or their specified third party can pick up their transcripts at the University Registrar's Office, 101 Blanton Student Services Building.

Transcripts may be released to a third party as specified by the student on the Student's Consent for SMU to Release Information to Student's Specified Third Party form accessible at [www.smu.edu/LegalDisclosures/FERPA/Forms](http://www.smu.edu/LegalDisclosures/FERPA/Forms).

**Note:** Chapter 675, S.B. 302. Acts of the 61st Texas Legislature, 1969 Regular Session, provides as follows: *Section I.* No person may buy, sell, create, duplicate, alter, give or obtain; or attempt to buy, sell, create, duplicate, alter, give or obtain a diploma, certificate, academic record, certificate of enrollment or other instrument which purports to signify merit or achievement conferred by an institution of education in this state with the intent to use fraudulently such document or to allow the fraudulent use of such document. *Section II.* A person who violates this act or who aids

another in violating this act is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than \$1,000 and/or confinement in the county jail for a period not to exceed one year.

## **Veterans**

The University Registrar's Office certifies veterans each term for their benefits under federal programs, including the Yellow Ribbon Program. Most academic programs at SMU qualify for U.S. Department of Veterans Affairs benefits, making an SMU education accessible and affordable. Veterans are required to provide specific documents before they can be certified with the VA's Veterans Benefits Administration. Specific information regarding the certification process is available from the University Registrar's Office at [www.smu.edu/EnrollmentServices/Veterans](http://www.smu.edu/EnrollmentServices/Veterans).

The University complies with Title 38 United States Code Section 3679(e) which states that any individual who is entitled to educational assistance under chapter 31 (Vocational Rehabilitation and Employment) or chapter 33 (Post 9/11 GI Bill®) benefits will be permitted to attend or participate in the course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement (or "Statement of Benefits" obtained from the Department of Veterans Affairs' website – eBenefits, or a VAF 28-1905 form for chapter 31 authorization purposes) for said entitlement and ending on the earlier of the following dates: a) the date on which payment from VA is made to the institution; or b) 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility. SMU will not impose any penalties, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or require that a covered individual borrow additional funds to meet his/her financial obligation due to delayed disbursement funding from VA under chapter 31 or 33. However, if the anticipated funding from VA will not cover all tuition and fees, then the student is responsible for paying the difference immediately. Failure to do so may result in late or past due fees. Students who wish to be certified under chapter 31 or 33 must request in writing each semester that they wish to be certified and provide an updated statement of benefits. Additional documents are required to be submitted to the University upon initial request to be certified. See our website at [www.smu.edu/enrollmentservices/veterans](http://www.smu.edu/enrollmentservices/veterans).

## **Final Examinations**

Final course examinations shall be given in all courses where they are appropriate, must be administered as specified on the official examination schedule and shall not be administered during the last week of classes. Exceptions to the examination schedule may be made only upon written recommendation of the program director or the chair of the department sponsoring the course and with the concurrence of the dean of that school, who will allow exceptions only in accordance with guidelines from the Office of the Provost.

The examination schedule for the Master of Science in Sport Management is published at the start of each term. Students should note that an exam may be held on a day and/or at a time different from the regular class time.

## **Complaint Procedures for Students With Disabilities**

The complaint procedures for students with disabilities are available in the Disability Accommodations and Success Strategies office, Loyd Center, Suite 202, and online at [www.smu.edu/Provost/ALEC/DASS](http://www.smu.edu/Provost/ALEC/DASS).

## **Credit Hour Loads**

The unit of measure for the valuation of courses is the credit hour. Based upon the federal definition of a credit hour, each credit hour requires one hour of direct faculty instruction and a minimum of two hours of preparation on the part of students per week, for approximately 15 weeks a term. Most courses are valued for three credit hours, i.e., three contact hours per week and at least six hours of preparation. For three credit hour courses deployed via different course types, modes of delivery, or calendars, total number of direct contact hours should be equal to or greater than 45 hours with the total of out of class work total equal to or greater than 90 hours. Courses that deviate from this standard must provide documentation illustrating how the number of contact hours and/or work outside the course equate to this standard within the term in which the course is offered.

A full-time load in the fall and spring terms is 9 credit hours for a graduate student. For the summer term (all sessions in the summer term combined) a full-time load is 6 credit hours for a graduate student. On request a graduate student

can be certified as full-time for the first or second session of the summer term at 3 credit hours. Individuals who enroll for fewer than these minimum hours are designated as part-time students.

The Master of Science in Sport Management has an abbreviated eight-week term, which necessitates a few exceptions to the School's standard rules; students should refer to the Master of Science in Sport Management for exceptions regarding M.S.S.M. credit hour loads.

A graduate student

- working on the completion of a thesis, dissertation or performance recital requirement on a full-time or part-time basis;
- enrolled in an internship or co-op program;
- enrolled as a third-year theatre major working on the completion of required production projects;
- or having an instructor appointment as part of a teaching fellowship, but not enrolled for the required number of hours;

may be certified as a full-time or part-time student if the student

- is enrolled officially for at least one course and
- is recognized by his or her director or academic dean or the dean for the Office of Research and Graduate Studies as working on the completion of the thesis, dissertation or internship requirement on a full-time or part-time basis.

In other special situations, a student not enrolled for the required number of hours may be certified as a full-time or part-time student if the student is officially enrolled for at least one course and is recognized by the academic dean or director as a full-time or part-time student, and if such recognition is approved by the provost.

**Cautionary Note:** Federal financial aid agencies and some other agencies require a minimum number of hours of enrollment for full-time status and do not make exceptions for summer, internship, co-op or student-teaching enrollments. Students on financial aid should consult an adviser in Financial Aid Office regarding minimum enrollment requirements for their situation.

Likewise, international students on an F-1 or J-1 visa should consult an adviser in the International Student & Scholar Services office regarding minimum enrollment requirements for their situation.

**Minimum and Maximum Course Loads.** Minimum and maximum course loads allowed are based on the school of record.

## Stop Enrollment/Administrative Withdrawal

Insufficient or improper information given by the student on any admission or enrollment form – or academic deficiencies, disciplinary actions and financial obligations to the University – can constitute cause for the student to be determined ineligible to enroll or to be administratively withdrawn.

## Transfer Courses From Other Institutions

Official college transcripts are required for all college-level work attempted, regardless of transferability. Military transcripts are also required for students receiving VA benefits; more information is available at [www.smu.edu/registrar](http://www.smu.edu/registrar) ("Veterans Affairs" link). Students are responsible for making sure a transcript of all transfer work attempted is sent to the University Registrar's Office immediately following completion of the work.

With the possible exception of the Master of Science in Sport Management program, the following rules apply to all graduate Simmons programs; students should refer to the M.S.S.M. section of this catalog for that program's exceptions. The student must file with the degree program a Transfer Evaluation accompanied by course syllabi, official transcripts(s), and an Internal Transfer Credit form or Other Credit form. Transfer credit is accepted by the program and approved by the dean in accordance with the following: 1) the course is compatible with the overall curriculum of the program, 2) the course is graduate level (6000 or above), 3) the student earned a grade of *A* or *B* in the course, 4) the course has not been used in attaining a previous degree and 5) the course has been taken within the

past six years. Courses taken prior to matriculation must be approved within one year of beginning the program. Transfer credit for study by correspondence or online study is considered on a case-by-case basis.

Once students have matriculated at SMU, they may transfer no more than six hours to SMU from accredited colleges and universities or from other schools at SMU. Students may transfer up to 14 hours from other Simmons programs; credit may be denied for educational reasons, including the application of those credits toward a previously earned degree. Students who wish to take courses at another institution after admission to a Simmons graduate program must obtain prior approval; permission may be denied for educational reasons.

## **Enrollment Policies**

### **Course Scheduling and Enrollment Cycles**

When students enter their school of record and into a specific degree program, they are assigned an academic adviser. Students should consult with the adviser for course scheduling, schedule changes, petitions, degree requirements and other such academic concerns. Advisers normally will have established office hours. The school's records office monitors progress and maintains official degree plans for all students in a school. Students should schedule conferences with their academic advisers and the school's records office upon admission to a school and prior to their final term to ensure that they are meeting all University and graduation requirements.

Each fall, spring and summer term has an enrollment period during which the formal process of enrollment in the University is completed. Prior to each enrollment period, the University Registrar's Office will publish enrollment instructions.

Some Simmons programs, most particularly those that observe an abbreviated term, offer more than three enrollment periods per year.

Each student is personally responsible for complying with enrollment procedures and for ensuring the accuracy of his or her enrollment. Students are expected to confirm the accuracy of their enrollment each term. Students who discover a discrepancy in their enrollment records after the close of enrollment for the term should immediately complete a Petition for Enrollment Policy Exception. Petitions are to be submitted to the appropriate records office within six months of the term in which the discrepancy appeared; contact information for submitting a Petition for Enrollment Policy Exception can be viewed on the University Registrar's Office website at [www.smu.edu/EnrollmentServices/Registrar/Enrollment/EnrollmentPolicyException](http://www.smu.edu/EnrollmentServices/Registrar/Enrollment/EnrollmentPolicyException). Petitions submitted later than six months after the discrepancy may not be considered.

## **Undergraduates Enrolling for Graduate Courses**

### **Accelerated Pathway Programs**

The Accelerated Pathway Programs policy applies to undergraduate students who enroll in one of SMU's Accelerated Pathway Programs. Institutional aid may be eligible for covering tuition costs associated with graduate courses as described below.

Students may not enroll for any graduate level course work to be applied toward their master's degree, prior to the accumulation of 90 credit hours toward their baccalaureate degree. Students must apply and be admitted as a graduate student at least one fall or spring term prior to receiving their master's degree having had their baccalaureate degree conferred prior to that term. Students must enroll and be in good standing as a full-time status graduate student for at least one fall or spring term prior to receiving their master's degree.

Graduate hours earned as an undergraduate are included in the determination of full-time status for the term. Graduate hours and grades earned as an undergraduate that count towards their baccalaureate degree are included in the undergraduate scholastic totals and the graduate scholastic totals. Graduate hours and grades earned as an undergraduate that do not count towards that baccalaureate degree are excluded from the undergraduate scholastic totals but are included in the graduate scholastic totals. The maximum number of graduate hours (up to 30 hours) that may be taken in the final year of the baccalaureate degree is mandated by SMU's accrediting agency. The number of graduate hours which may be counted toward the baccalaureate degree is determined by the school to which the

master's degree belongs. An undergraduate is limited to earning a maximum of 30 graduate hours as an undergraduate student after the completion of 90 credit hours towards their baccalaureate degree. A student must earn a minimum 150 combined hours to be conferred both a baccalaureate and master's degree.

Students considering an Accelerated Pathway Program should consult with the Office of Financial Aid about its effect on federal, state and institutional aid.

## Other Graduate Course Enrollment by Undergraduate Students

In addition to the Accelerated Pathway Programs, with the written permission of their academic dean and permission of the dean of the graduate courses, an excelling undergraduate student may enroll for graduate level coursework that will be part of their undergraduate record, count towards the undergraduate degree and be included in the undergraduate scholastic totals. The undergraduate student must have accumulated 90 credit hours toward their baccalaureate degree. Graduate hours enrolled as an undergraduate are included in the determination of full-time status for the term. An undergraduate is limited to earning a maximum of 30 graduate hours as part of their undergraduate record.

## Schedule Changes

The deadline for adding courses, dropping courses without grade record and changing sections for each enrollment period is listed on the Official University Calendar ([www.smu.edu/registrar](http://www.smu.edu/registrar)). Students are encouraged to seek assistance from their advisers when considering whether to add or drop a course. A student may drop a course with a grade of *W* (Withdrawn) through approximately midterm by using the my.SMU Student Homepage. The specific deadline is listed on the Official University Calendar. **Note:** Some programs in the Simmons School of Education and Human Development have unique calendars, admission requirements and add/drop dates. Students should consult a program's Web page for calendar information. After the deadline date on the Official University Calendar, the student may not drop a class. All schedule changes must be processed by the deadline date specified on the Official University Calendar. **Note:** Schedule changes are not complete for official University record purposes unless finalized in the University Registrar's Office.

**Student-Athletes.** Students must consult with the Athletic Compliance Office prior to dropping a course. In the consultation, the student will review the effects the drop might have on his or her athletic participation and financial aid. After the consultation, the Athletic Compliance Office will update my.SMU to allow the student to process the drop, if necessary. The consultation is advisory; students are responsible for their enrollment. For assistance regarding scholarships or other aspects of being a student-athlete, students should contact the Office of the Assistant Athletic Director for Student-Athlete Development.

**International Students.** Students must consult with the International Student & Scholar Services Office prior to dropping a course. (Contact [iss@smu.edu](mailto:iss@smu.edu) for consultation.) If dropping a course will cause the student to be enrolled in fewer than the required number of hours to remain a full-time student, the student's immigration status could be affected. After the consultation, the International Student & Scholar Services Office will update my.SMU to allow the student to process the drop, if necessary. The consultation is advisory; students are responsible for their enrollment.

**Students on Merit or Need-based Financial Aid.** Students should consult with their financial aid adviser prior to dropping a course. (See [www.smu.edu/EnrollmentServices/FinancialAid](http://www.smu.edu/EnrollmentServices/FinancialAid) for information regarding your financial aid counselor.) If dropping a course will cause the student to be enrolled in fewer than the required number of hours to remain a full-time student, the student's financial aid status may be affected. After the consultation, the student may drop a course through my.SMU Self-Service. The consultation is advisory; students are responsible for their enrollment. Questions regarding this procedure or financial aid should be directed to the Office of Financial Aid.

## Withdrawal From the University

Policies on refunds for withdrawal from the University are found in the Financial Information section of this catalog and in the *Financial Information Bulletin*. No refunds are made without an official withdrawal.

Students should be aware of the difference between a drop and a *withdrawal* and remember that they have different deadlines and separate financial policies. The deadlines for each are posted each term on the Official University Calendar at [www.smu.edu/registrar](http://www.smu.edu/registrar). A *drop* occurs when a student removes one or more courses from his or her

schedule and remains enrolled in at least one credit hour for the term. A *withdrawal* occurs when removing the course or courses will result in the student being enrolled in **zero** hours for the term.

If a student removes all courses from his or her schedule **prior to the first day of the term**, the transaction is considered a *cancellation* and does not result in financial penalty or impact the student's transcript.

**Note:** Due to the specialized cohort nature of the Master of Science in Sport Management program, continuing progression through the M.S.S.M. course sequence can be seriously affected by withdrawal. M.S.S.M. students should always contact the program director prior to initiating this transaction.

A student who wishes to withdraw (resign) from the University before the end of a term or session must initiate a Student Petition for Withdrawal form and secure approval from his/her school's records office. The records office will then submit the form to the Office of the University Registrar. The effective date of the withdrawal is the date on which the Student Petition for Withdrawal is processed in the University Registrar's Office. Discontinuance of class attendance or notification to the instructors of intention to withdraw does not constitute an official withdrawal.

The enrollment of students who withdraw on or before the tenth class day of the fall or spring semester as listed on the Official University Calendar will be canceled. Courses and grades are not recorded for canceled enrollments; however, the student will owe a portion of his/her tuition and fees. Additional information is available in the *Financial Information Bulletin*. A student who withdraws after the tenth class day of the fall or spring semester will receive the grade of *W* in each course in which he or she enrolled.

Medical withdrawals allow a prorated refund of tuition and fees and have conditions that must be met prior to re-enrollment at SMU. Medical withdrawals can only be authorized by professionals in the Dr. Bob Smith Health Center, Dean of Student Life, or Vice President for Student Affairs. The last day for a medical withdrawal is the last day of class instruction for the term from which the student is withdrawing. Retroactive medical withdrawals cannot be granted.

Mandatory administrative withdrawals occur when a student is not suspended but current and/or future enrollments are canceled or withdrawn. A student's academic record is annotated with "mandatory administrative withdrawal" and the effective dates for this withdrawal. Mandatory administrative withdrawals allow a prorated refund of tuition and fees and have conditions that must be met prior to re-enrollment at SMU. Mandatory administrative withdrawals can be authorized only by the Provost and Vice President for Academic Affairs, Vice President for Student Affairs or Dean of Student Life.

Withdrawing students living in SMU housing must check out of the residence halls with the Department of Residence Life and Student Housing per established procedures.

## **Audit Enrollment (Course Visitor)**

Individuals desiring to audit (visit) a class, including those concurrently enrolled for regular coursework, are required to process an Audit Permit form. Audit Permit forms must be completed, approved and received in the University Registrar's Office no later than the last day to enroll for the term. **Forms are available**

at [www.smu.edu/EnrollmentServices/Registrar/AcademicCalendarsCourseCatalogs](http://www.smu.edu/EnrollmentServices/Registrar/AcademicCalendarsCourseCatalogs). Space must be available in the class. The following regulations are applicable:

1. Individuals may not audit courses in the Simmons master's program in counseling because a criminal background check is required of class participants.
2. Classroom recitation and participation are restricted; availability of course handouts, tests and other materials is restricted; no grade is assigned and no credit is recorded; no laboratory privileges are included.
3. The individual's name does not appear on class rosters or grade rosters.
4. Regular admission and enrollment procedures are not conducted for auditors.
5. The audit fee is nonrefundable.
6. If credit is desired, the course must be enrolled for and repeated as a regular course, and the regular tuition must be paid.

## **No-Credit Enrollment**

Enrollment for no credit is accomplished in the conventional manner of enrollment, with regular admission and enrollment procedures being required. The student pays the regular tuition and fees, participates in class activities, and receives the grade of *NC* upon completion of the coursework. The student must indicate in writing no later than the 12th day of classes (the fourth day of classes in summer sessions; the second day of classes in intersession terms) that he or she wishes to take a course for no credit. Permission of the instructor or department is required for this type of enrollment, and the student is listed on class rolls. This enrollment is different from audit enrollments, for which no enrollment or grade is recorded.

## **Class Attendance**

Regular class attendance is required. At the beginning of the course, the instructor announces policies regarding the effect of class attendance and tardiness on the student's standing in the course via the course syllabus. These policies may include dropping a student from the course for nonattendance or tardiness as described below.

All reasons for absence or tardiness should be submitted at once to the instructor.

The satisfactory explanation of absence may release a student from disciplinary action but does not relieve a student from responsibility for the work of the course during his or her absence. A student who misses an announced test, examination or laboratory period in a regular course of study and has the permission of the instructor may be given an opportunity to make up the work at the instructor's convenience. The instructor determines in all instances the extent to which absences and tardiness affect each student's grade.

Students who miss two successive class meetings during the official add-drop period at the beginning of each term are subject to being dropped from the course. To avoid this possibility, students should contact the instructor or the department immediately following such a series of absences.

Students may be dropped by a course instructor or academic dean for nonattendance or tardiness with a grade of *W* until the University deadline to drop. After the deadline, students must remain enrolled in the course.

Students may also be dropped by a course instructor for extreme inappropriate classroom behavior. The instructor must submit the Administrative Drop Request to drop a student from the course by the University deadline to drop indicated in the official Academic Calendar. Department Chair approval is required. After the deadline, the student must remain enrolled in the course and receive a final grade of *F*.

A student who has a passing grade in a course at the time of the final examination, but who misses the examination and satisfies the dean that the absence was unavoidable, may secure from the dean permission to take the examination at a time convenient for the instructor.

## **Excused Absences for University Extracurricular Activities and Religious Holidays**

Students who participate in officially sanctioned, scheduled University extracurricular activities or observe a religious holiday should be given an opportunity to make up class examinations or other graded assignments missed as a result of this participation or related travel. The manner in which examinations or other assignments missed because of these activities are to be made up is left to the discretion of each individual faculty member. However, students should not be penalized in any way for these excused absences and should be informed by the instructor at the beginning of the term, preferably in writing, of the instructor's makeup policy. It is the responsibility of the student to make arrangements with the instructor prior to any missed scheduled examination or other missed assignment for making up this work, and to obtain any class notes or other course material missed due to absence prior to taking any subsequent examinations or submitting any subsequent graded assignments.

This statement of University policy applies for all students. To minimize the difficulties caused for both student-athletes and their instructors by excused absences due to University-sanctioned athletic activities or related travel, the Athletic Department shall 1) make available to all student-athletes and their academic advisers prior to registration a

copy of the student's activity and travel schedule for the upcoming term, so as to facilitate the student's enrollment in class sections that will minimize activity and travel conflicts; and 2) require all student-athletes to provide a copy of that term's activity and travel schedule, and a copy of this Statement of University Policy, to each of their instructors at the first class meeting of the term.

Other University colleges and departments whose students will miss classes because of their participation in officially sanctioned, scheduled University extracurricular activities, related travel, or observing of religious holidays are encouraged to adopt similar procedures to minimize the difficulties caused by such absences.

A list of religious holidays for use in requesting excused absences is available on the Official University Calendar. Students must notify the class instructor in writing by the 12th day of the term of any such absences that will occur during that term. Accommodations are to be made without penalty. More information can be found in the *University Policy Manual*, available at [www.smu.edu/policy](http://www.smu.edu/policy).

## Absence Due to Illness

The Dr. Bob Smith Health Center does not provide documentation for granting excused absences from class. If students are absent for illness, they should talk to their professors about how they might catch up with the material missed. If students are seriously ill and require hospitalization or an extended absence, students should talk to their professors and the Office of Student Life to decide how to deal with the interruption in their studies. To facilitate communication with their professors about their absence, students may submit the Absence from Class Form available at [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter).

## Interpretation of Course Numbers

Each SMU course has a four-digit course number. The first number indicates the general level of the course.

1000–1999	First-year
2000–2999	Sophomore
3000–3999	Junior
4000–4999	Senior
5000–5999	Senior or Graduate
6000–9999	Graduate

The second digit specifies the number of credit hours; exceptions are noted below.

<i>Digit</i>	<i>Credit Hours</i>
0	0, .5 or 10-15
1	1 or 1.5

The third and fourth digits are used to make the course number unique within the department.

## Grade Policies

A student's grades are available to him or her through my.SMU Student Homepage.

While there are some variations between the Simmons graduate programs with respect to grading standards, the following information applies to most Simmons programs. Regardless, some exceptions exist:

1. The Master of Liberal Studies program maintains a special policy regarding the grade of *C-*, which is not considered a passing grade within the M.L.S. program.
2. No course with a grade of *C+* or lower will apply toward the M.S. in counseling program degree. If a grade of *C+* or lower is earned in a course required for the degree that course must be retaken.
3. Students in the Dispute Resolution Graduate Programs must maintain a 3.000 GPA. No course with a grade of *C* or lower will apply toward the M.A.D.R. or graduate certificate programs. If a grade of *C* or lower is earned in a course required for the degree or certificate program that course must be retaken.
4. Students who earn a grade below *C-* in any Master of Science in Sport Management course must retake the course. Any M.S.S.M. course completed with a grade below *C-* will not be applied toward fulfillment of the M.S.S.M. degree.

5. Students in the Department of Teaching and Learning or Department of Education Policy and Leadership must maintain a 3.000 GPA.

In addition, there are differences between the Simmons programs concerning the number of Incomplete grades a student may carry at any one time. For reasons such as these, students are encouraged to consult their academic advisers and/or graduate program handbooks when questions arise.

## Grade Scale

The grade of a student in any course is determined by the instructor of the course. The following grades are authorized for recording on the student's official graduate academic record maintained by the University Registrar's Office.

<i>Grades</i>	<i>Description</i>	<i>Grade Points per Term Hour</i>
<i>A</i>	Excellent Scholarship	4.000
<i>A-</i>	Excellent Scholarship	3.700
<i>B+</i>	Good Scholarship	3.300
<i>B</i>	Good Scholarship	3.000
<i>B-</i>	Good Scholarship	2.700
<i>C+</i>	Fair Scholarship	2.300
<i>C</i>	Fair Scholarship	2.000
<i>C-</i>	Fair Scholarship	1.700
<i>D+</i>	Poor Scholarship	1.300
<i>D</i>	Poor Scholarship	1.000
<i>D-</i>	Poor Scholarship	0.700
<i>F</i>	Fail	0.000
<i>P, CR, S</i>	Pass, Credit, Satisfactory	*
<i>I</i>	Incomplete	*
<i>NC, U</i>	No Credit Received, Unsatisfactory	*
<i>X</i>	No Grade Received in Registrar's Office	*
<i>W</i>	Withdrew	*

**Note:** Asterisks denote grades not included in a student's GPA.

## Grade of F, D, W, X and Missing/Blank

Failing is graded F. If the student's work is incomplete, poor quality and not acceptable, a grade of F will be given. After such a grade, credit may be obtained only by repeating the course.

The grade of D represents performance below average expectations. Students receiving a D in a course that is a prerequisite to another course should consult with their advisers about repeating the course so that they will be adequately prepared for work in the following course. Courses passed with a grade of D, D- or D+ will generally not count toward major or minor requirements.

The grade of W cannot be recorded unless completion of the official drop or withdrawal process has occurred by the applicable deadline during the term of enrollment. Only the grade of W may be recorded if the student has officially dropped courses from the schedule or withdrawn (resigned) from the University for the term. The grade of W may not be revoked or changed to another grade because the act of officially dropping/withdrawing is irrevocable.

The grade of X is a temporary administrative grade used when an official grade has not been received from the instructor. The grade of X will be changed to F if a grade is not received within 60 days of the end of the term. Graduation candidates must clear all X's prior to the deadline on the Official University Calendar, which may allow less time than 60 days. Failure to do so can result in removal from the degree candidacy list and/or conversion of the grade of X to the grade of F.

A final official grade must be recorded for each enrollment. An F will be assigned for a missing or blank grade also indicates an official grade has not been received from the instructor. Graduation candidates must receive a grade for all

course enrollments prior to the deadline on the Official University Calendar. Failure to do so can result in removal from the degree candidacy list and/or the assignment of a grade of F.

## Grade of Incomplete

A student may temporarily receive a grade of Incomplete (*I*) if a substantial portion of the course requirements have been completed with passing grades (for the Master of Science in Sport Management program, 90 percent of the course requirements completed with passing grades), but for some justifiable reason acceptable to the instructor, the student has been unable to complete the full requirements of the course.

The Department of Teaching and Learning explains in its student handbook the detailed procedure for obtaining an Incomplete grade.

The grade of *I* is normally changed to a final grade within one year but no later than the time of graduation.

At the time a grade of *I* is given, the instructor must stipulate the requirements and completion date that are to be met and the final grade that will be given if the requirements are not met by the completion date.

The maximum period of time allowed to clear the Incomplete is 12 months. If the Incomplete grade is not cleared by the date set by the instructor or by the end of the 12-month deadline, whichever is earlier, the grade of *I* will be changed to the grade provided by the instructor at the time the Incomplete was assigned or to a grade of *F* if no alternate grade was provided.

The grade of *I* is not given in lieu of a grade of *F* or *W*, or other grade, each of which is prescribed for other specific circumstances.

The grade of *I* in a course does not authorize a student to attend or enroll in the course during a later term. Graduation candidates must clear all Incompletes prior to the deadline on the Official University Calendar. Failure to do so can result in removal from the degree candidacy list and/or conversion of the grade of *I* to the grade indicated by the instructor at the time the grade of *I* was given.

A maximum of two (six hours) concurrently held Incomplete grades in courses other than thesis is allowed. If this maximum is reached, the student will be allowed to take only one three-hour course per term until the Incomplete grade total is reduced. Students who accumulate three Incomplete grades in courses other than thesis will be put on probation and will not be allowed to enroll further until the total of Incomplete grades is reduced to two.

## Grade Point Average

A student's grade point average (cumulative GPA) is computed by multiplying the credit hours of each course attempted by the grade points earned in the particular course and then dividing the total number of grade points by the total number of hours attempted, excluding those hours for which grades are shown with an asterisk on the grade chart. The GPA is truncated, not rounded, at three decimal places.

For assistance estimating your GPA see the GPA calculator on the SMU website.

## Grade Changes

Changes of grades, including change of the grade of *I*, are initiated by the course instructor and authorized by the academic chair and by the academic dean of the school in which the course was offered. If a student requests a grade change, the instructor may ask the student to provide the request as a written petition, which may become an official part of any further process at the instructor's discretion. Changes of grades may be made only for the following authorized reasons: to clear a grade of *I*, to correct a processing error or to reflect a re-evaluation of the student's original work. A change of grade will not be based on additional work options beyond those originally made available to the entire class.

Changes of grades of *I* should be processed within a calendar year of the original grade assignment unless the grade is for thesis work. Other changes of grades must be processed by the end of the next regular term. No grade will be

changed after 12 months or after a student's graduation, except in cases where a grade is successfully appealed – provided that written notice of appeal is given within six months following graduation – and in extenuating circumstances authorized by the academic dean and approved by the University Registrar's Office.

## **Grades for Repeated Courses**

Students will be allowed to repeat courses according to the following rules: Both the initial and the second grades will be recorded on the student's permanent academic record (transcript). Both grades will be included in the calculation of the student's cumulative GPA and in the determination of academic probation, suspension, dismissal, honors and graduation. Only the repeated course and not the initial credit hours count toward the number of hours needed for graduation.

## **Pass/Fail Option**

Students should consult with their advisers before declaring the pass/fail option for any course, as some courses may not be taken pass/fail.

## **Grade Appeals**

A student who feels that an assigned grade is other than the grade earned must first discuss the matter with the course instructor to determine if the discrepancy is caused by error or misunderstanding. At the time of the initial discussion, the student may be asked to provide a written petition requesting the change of grade.

A student who is not satisfied by the instructor's decision on a request for a grade change, and who maintains that the original grade was capriciously or unfairly determined, may appeal to the chair of the department in which the course was offered (or, in the case of a nondepartmental course, to a faculty agent designated by the dean of the school offering the course). After discussing the matter with the student, and bearing in mind that the final authority in matters of academic judgment in the determination of a grade rests with the course instructor, the chair (or faculty agent) will consult with the course instructor, who will subsequently report to the student the disposition of the appeal.

A student who is not satisfied by the disposition of the appeal may appeal the decision to the dean of the school offering the course. The dean will take action as he or she deems appropriate. A student may appeal the dean's decision to the provost. In their actions, the dean and the provost must respect the principle that the determination of a grade rests with the course instructor.

## **Academic Advising and Satisfactory Progress Policies**

### **Academic Advising**

Academic advising is an important process for each graduate student at SMU. Each student must meet with his or her assigned academic adviser prior to enrolling for an academic term. At this meeting, the adviser will assist the student in planning majors and minors and a program of study, understanding the Degree Progress Report, and scheduling courses that will count toward graduation requirements. After the initial required advising session, the student is encouraged to seek assistance from the adviser when considering whether to add or drop courses.

For an effective advising relationship, the student must be prepared when meeting with the adviser. The student must initiate the advising appointment. The adviser will give assistance to the student, but the student has the final responsibility for the accuracy of the enrollment, the applicability of courses toward the degree requirements, and his or her academic performance.

Students are assigned an academic adviser by their academic dean's office, records office or major department. A student who enrolls without first meeting with his or her assigned academic adviser may be subject to sanctions including, but not limited to, cancellation of the term enrollment and restriction from the self-service enrollment functions.

## Leave of Absence

A leave of absence is a temporary leave from the University – a kind of "timeout" – that may be necessary during an academic career. Students may elect to take leaves of absence for a variety of reasons, including 1) medical reasons due to accident or illness, 2) family crises or other personal situation that requires an extended absence from school, 3) financial issues that may take time to resolve, and 4) academic difficulties that may best be handled by taking time to refocus on college work.

Typically, a leave of absence is for one term or one academic year. A student may extend a leave of absence by contacting his or her academic department representative. The process to return to SMU after a leave-of-absence period can be an easy one, especially if the student has gone through the steps to file for a leave of absence and planned ahead for the return. Following SMU's leave-of-absence guidelines helps 1) assure that the degree requirements per the catalog of record when the student initially matriculated at SMU still apply upon return, 2) assist with financial aid processing, and 3) provide the support needed to return to SMU and successfully finish the degree.

The SMU Leave of Absence Policy provides students with a formal process to "stop out" of SMU for either voluntary or involuntary reasons. Typically, a leave of absence is for a temporary departure from the institution; however, *intended permanent withdrawals* from SMU will also be processed under the Leave of Absence Policy. The first step to effect a leave of absence is for the student to arrange an appointment to meet with his or her academic adviser, who will then assist the student with the process.

## Academic Progress

Failure to meet established minimum acceptable standards of academic or disciplinary performance can result in probation, suspension or dismissal. Information regarding disciplinary action can be found under Code of Conduct in the Student Affairs section of this catalog.

Graduate students must maintain a cumulative GPA of 3.000. If in any term the student falls below this cumulative GPA, the student will be placed on probation for one regular term. If at the end of the term of probation the cumulative GPA is not up to 3.000, the student may be removed from the program at the discretion of the dean's office or records office.

## Definitions: Academic Probation, Academic Suspension, Academic Reinstatement and Academic Dismissal

**Academic Probation.** Academic probation is a serious warning that the student is not making satisfactory academic progress. A student on academic probation is still eligible to enroll and is considered in good standing for enrolling in classes and for certification purposes. Academic probation is not noted on the permanent academic record; however, a student on academic probation may be subject to certain conditions during the period of probation and will be subject to academic suspension if he or she does not clear academic probation.

**Academic Suspension.** Academic suspension is an involuntary separation of the student from SMU. Academic suspension is for at least one regular term. The term of suspension might be for a longer period depending on the policy of the school of record or the terms of the individual student's suspension. Students suspended from one school are suspended from the University.

The status of academic suspension is recorded on a student's permanent academic record. While on academic suspension, a student is not in good academic standing for certification purposes and is not eligible to enroll at SMU. Students who have served their suspension and who are eligible to return may not enroll for any intersession terms without permission from their school of record.

Credits earned at another college or university during a term of suspension may not be applied toward an SMU degree. A grade point deficiency must be made up through enrollment at SMU.

**Academic Reinstatement.** A student who has been on academic suspension once may apply for reinstatement to SMU. If reinstated, the student may enroll in classes, and he or she is considered in good academic standing for purposes of

certification. A student who is reinstated remains on academic probation until the conditions of academic probation are satisfied.

**Academic Dismissal.** A second suspension results in an academic dismissal from the University. Academic dismissal is final, with no possibility of reinstatement or readmission to the University. Academic dismissal is recorded on the student's permanent academic record.

## Academic Petitions and Waivers

Petitions and/or requests for waivers concerning University requirements, graduation requirements and the evaluation of transfer work should be submitted to the student's school of record office.

## Transfer Coursework

Policies for transfer coursework are found under Transfer Courses From Other Institutions in the General Policies section of this Catalog. Graduation Policies

## Graduation Policies

### Apply to Graduate

Students must file an Application for Candidacy to Graduate with their school's records office no later than the last day of the first week of the term in which they will complete all degree requirements. Applications are filed through my.SMU Student Homepage by the deadline date on the Official University Calendar.

Students who file an application after the published deadline may be required to pay a nonrefundable late fee. Late applications may be denied after the start of the next term, and the Application for Candidacy to Graduate applied to the next conferral date. Students taking coursework at another institution and transferring the course(s) back to SMU are responsible for ensuring that the University Registrar's Office receives their official transcript in order for their degree to be conferred for the anticipated graduation term.

SMU has three degree conferral periods for most programs: fall (December), spring (May) and summer (August). In addition, students who complete their degree requirements during a Jan Term (January), May term or August term will have their degrees conferred at the conclusion of the intersessions. **Note:** Some Simmons graduate programs confer five times per year. Prior to approving a Master of Science in Sport Management student for degree conferral, M.S.S.M. faculty and administration will consider any documented judicial or disciplinary complaints on record and audit the student's academic standing, including satisfactory completion of the required but noncredit-bearing aspects of the M.S.S.M. program.

## Commencement Participation

An All-University Commencement Convocation is held in May for students enrolled and on schedule to complete degree requirements during the spring term. Students enrolled and on schedule to complete all degree requirements during the following summer session may also participate in the University Commencement Convocation, although their degrees will not be conferred until August. Students may also participate in departmental or school ceremonies according to the policies of the departments or schools.

Doctoral candidates may participate in commencement only after all degree requirements are complete.

An All-University December Commencement Convocation is held each year for students completing degree requirements during the fall term. Students who completed degree requirements during the previous summer session may also participate. Students on schedule and enrolled to complete all degree requirements during the following Jan Term (January) intersession may also participate in the December ceremony, although their degrees will be conferred in January.

Students in some of the Simmons programs that offer abbreviated terms may participate in the ceremony closest to their conferral date.

A student may participate once in either the All-University Commencement Convocation in May or the All-University December Commencement Convocation for a given degree, but not both.

To participate in a ceremony, a student must apply online and file with their school's records office an Application for Candidacy to Graduate or Intent to Participate Form.

### **Statute of Limitations for Degree Plans**

A student who has been readmitted to the University following an absence of more than three years will be expected to meet all requirements for graduation current at the time of readmission.

# Simmons School of Education and Human Development: Student Life and Housing

## The Division of Student Affairs

The Division of Student Affairs ([www.smu.edu/studentaffairs](http://www.smu.edu/studentaffairs)) creates and supports a robust student experience and forges strategic partnerships to best serve the entire SMU community. As educators and scholar-practitioners, we create purposeful learning and leadership opportunities for students to clarify and develop their knowledge, values, skills, and identities – challenging each to become a world changer. The Division of Student Affairs is comprised of five different organizational units that each provide unique educational and supportive resources for students during their time at SMU: Student Wellbeing and Support, Student Engagement and Success, Residence Life and Student Housing, Religious Life, and the Hegi Family Career Development Center.

## Student Wellbeing and Support

### Health Services

[www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)

The Dr. Bob Smith Health Center provides SMU students with campus access to quality, comprehensive and student-centered medical care, mental health services, and outreach programs designed to promote their health and wellbeing. The new 33,000 square foot state-of-the-art clinic facility is centrally located on campus at 6211 Bishop Boulevard. The Health Center is certified by the Accreditation Association for Ambulatory Health Care (AAAHC) for meeting rigorous nationally recognized standards and committing to delivering the highest quality of care.

**Medical Services.** The Dr. Bob Smith Health Center provides a wide range of health services allowing students to receive primary care on campus. Services available include the treatment of acute illnesses, care of injuries, minor medical procedures, physical exams, STD testing, vaccinations, allergy injections, and limited specialty services. Additional ancillary services include a clinical laboratory, an on-site pharmacy, X-ray imaging and diagnostic services, and a part-time sports medicine clinic. For appointments and health information, students may call 214-768-2141 or visit [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter).

**Acute/After Hours Care.** Students should call 911 for immediate response to life-threatening injuries or illnesses. For other urgent concerns after clinic hours, students should seek a local hospital or urgent care center. A listing of several hospital emergency rooms and after-hours urgent care facilities is provided for general reference on the Health Center website ([www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)).

**Costs.** The Health Services Fee, which is included in general student fees, covers routine medical visits and counseling appointments at the Health Center. Charges are assessed separately for lab services, x-rays, immunizations, medical supplies, pharmacy and specialty care. Claims are filed for students participating in the SMU Student Health Insurance Plan. Students with other insurance plans may request an itemized receipt in order to submit a claim for insurance reimbursement. The Pharmacy files claims for most insurance plans.

**Mandatory Health Insurance Policy.** SMU students are required to maintain insurance coverage as a condition of their enrollment. The University offers the SMU Student Health Insurance Plan (SHIP), which is administered by the Health Center's Student Insurance Office. The plan provides coverage at a reasonable cost for most on- and off-campus health care. Information is available at [www.smu.edu/healthinsurance](http://www.smu.edu/healthinsurance).

Domestic students taking nine or more credit hours and international students taking one credit hour or more are automatically enrolled in the Student Health Insurance Plan (SHIP) each semester unless they expressly waive coverage in their my.SMU account. Information about the waiver deadline is available online at [smu.edu/healthinsurance](http://smu.edu/healthinsurance). Domestic students taking between one and eight credit hours are eligible to enroll in the Student Health Insurance Plan on a voluntary basis.

**Pharmacy.** A full service pharmacy is conveniently located in the Dr. Bob Smith Health Center to meet students' prescription needs from 8:30 a.m. to 5:00 p.m., Monday through Friday. The pharmacy is in network with most insurance plans. Prescriptions and refills may be transmitted directly to the pharmacy from the student's physician.

**Immunizations.** All students (undergraduate, graduate, part-time and full-time, to include international and IEP/ESL students) are required to have an SMU medical history form on file in the Dr. Bob Smith Health Center before registration. (Health history forms are available on the Health Center's website at [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)). All students must also submit - to the Health Center - immunization records that provide proof of two doses of the vaccine against measles, mumps and rubella. These MMR immunizations must be documented by a physician, public health record, military health record or school health record. Students will not be allowed to register without immunization compliance.

Texas state law requires all new students entering an institution of higher education under the age of 22 to provide proof of immunization for bacterial meningitis. The meningitis vaccine or a booster dose must have been received during the five-year period prior to enrollment and not less than ten days before the start of classes. Students seeking exemption from this requirement due to health risk or conscience, including religious belief, should see the second page of the SMU medical history health form. More information is found under Final Matriculation to the University in the Admission to the University section of this catalog.

All required immunizations may be obtained at the Health Center.

**Class Absence Due to Illness.** The Health Center does not issue excuses from classes for illness. Please refer to the Health Center website ([www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)) for the Class Excuse Policy.

**Confidentiality and Privacy.** Confidentiality and privacy of student health information is of paramount importance at the Dr. Bob Smith Health Center. The Health Center follows all applicable state and federal laws related to the disclosure of medical and mental health information, and applies to the highest professional standards of care and privacy. All student-patient health service records are confidential. No information about a student can be released to any third party without the student's written permission.

**Release of Medical Information.** Patient health information and medical records are released only with a written release by the student. Students may sign a release allowing the Health Center to provide specific medical information with their parents, significant others or health care representatives.

**Health Education and Promotion.** The Health Center's Office for Community Health and Promotion serves as a resource to enhance the well-being of SMU students in support of their learning and success. Health information is presented through engaging programs and services to help students make informed and healthy choices. The Health Center works with students to promote activities that create a healthy environment for the SMU community.

**Counseling Services.** The Health Center provides crisis intervention, individual and group therapy, psychiatric evaluation and counseling referrals for SMU students. Use of all services is voluntary and strictly confidential. There is no charge to students who have paid the University health fee. Students can seek confidential help for concerns such as anxiety, depression, relationships, career/life planning, sexual identity, eating/body image and sexual assault/sexual harassment. Alcohol and drug prevention is a free and confidential source of help and information to the SMU community, covering issues related to substance abuse and addiction. Any laboratory tests or pharmaceuticals ordered will be charged to the student. For more information regarding scheduling appointments, students should call 214-768-2277 or visit [www.smu.edu/counseling](http://www.smu.edu/counseling).

**Testing Services.** Testing Services offers fee-based testing to the Dallas-area community. These services include on-campus administration of national testing programs such as the LSAT, MPRE, GRE and others. Other testing offered includes credit by exam (CLEP), and correspondence examinations for local distance learners enrolled in other universities. For additional information, students should visit [www.smu.edu/testingprogram](http://www.smu.edu/testingprogram) or call the center at 214-768-2269.

## Dedman Center for Lifetime Sports

[www.smu.edu/recsports](http://www.smu.edu/recsports)

The Dedman Center for Lifetime Sports provides aerobic studios, an indoor running track, basketball courts, volleyball courts (indoor and outdoor), racquetball courts, a climbing wall, a bouldering wall, a 25-yard recreational pool with five lanes, 15,000 square feet of fitness and weight equipment and a Starbucks in the lobby area. These facilities are open to SMU students, faculty, staff and paying members.

**Facilities/Operations.** The center is a 170,000 square foot facility designed for recreational sports, wellness, programs and the traditions and spirit of SMU.

**Aquatics.** SMU Aquatics features a five-lane, indoor recreational pool and an out-door, zero-depth entry fountain pool known as "The Falls." Students have opportunities to participate year-round in recreational swimming, sunbathing and water sports such as water basketball, volleyball and polo. Classes offered include water fitness, adult and child swimming lessons, children's group lessons, and American Red Cross lifeguard training.

**Programs.** A variety of services and programs are available, including club sports, fitness classes, intramural sports and the Outdoor Adventure program.

**Club Sports.** Club sports offer an opportunity for students interested in concentrated training and participation in a sport. These recognized student organizations offer competition with other university/college club teams in baseball, cycling, ice hockey, men's and women's lacrosse, polo, rugby, men's and women's soccer, triathlon, ultimate Frisbee, volleyball, wakeboarding and water polo.

**Fitness.** SMU Fitness offers group exercise classes and personal training sessions. Group X exercise classes are offered throughout the day to accommodate a variety of schedules. Different types of cardio, strength and flexibility classes are available. Experienced and knowledgeable personal trainers offer sessions to train members of the University community, either one-on-one or in groups, to meet their personal fitness goals. All SMU Fitness programs have a fee for participation.

**Intramural Sports.** Many opportunities for team and individual competition are available through intramural sports such as golf, racquetball, tennis, and dodgeball. The five major sports are flag football, volleyball, basketball, soccer and softball. Leagues provide year-round opportunities to participate in a wide variety of sports and activities. Additional leadership opportunities are available for those interested in officiating or supervising various activities.

**Outdoor Adventure.** SMU Outdoor Adventures is the campus source for outdoor recreation and adventure, offering fun and challenging recreational adventure activities, community-building programs, and student leadership and personal growth opportunities. Students can sign up for SMU OA trips offering traditional and non-traditional outdoor adventure pursuits such as backpacking, rock climbing, caving and canoeing. SMU OA also manages the SMU Climbing Center, the indoor climbing and bouldering facility and the Portable Challenge and Team Development course.

**Spirit/Traditions.** The Recreational Sports Department houses the spirit and traditions of SMU including the Cheer Squad, Mustang Band, Peruna, Pom Squad and the Rotunda Yearbook.

**Mustang Band.** Founded in 1917, the Mustang Band was named the "Best College Marching Band" in Texas in Kirk Dooley's Book of Texas Bests. Long known as "the hub of SMU spirit," the band represents the University at football and basketball games, produces the Pigskin Revue during Homecoming and performs at special University- and community-related events. Membership is open to all SMU students by audition, regardless of major and scholarships based on need and ability are available.

**Rotunda Yearbook.** For over 100 years, the Rotunda Yearbook has chronicled the history of Southern Methodist University. Named in December 1915 after the architecture of Dallas Hall, the Executive Council of the Student Association voted for the annual's name after seven different students suggested it. From its beautiful art to captivating themes, the Rotunda has evolved with the times, earning national awards and recognition from the Associated Collegiate Press (ACP) and Columbia Scholastic Press Association (CSPA).

**Spirit Squads.** Members are full-time students who dedicate their time, energy and athleticism to support Mustang Athletics.

The Cheerleading Squad is a highly competitive team consisting of 20 to 30 young men and women. Twenty of the team's members compete at NCA College Nationals held in Daytona Beach, Florida where the squad placed first in 2016, 2017 and once again in 2018.

The Pom Squad is well known for their energetic performances and their ability to entertain a crowd. The dancing style of the team includes jazz, pom and hip-hop.

Peruna IX (2011-PRESENT) is the beloved mascot of the university and is accompanied by Peruna handlers that lead him across the field during football games. The Human Peruna Mascot is the costumed hero that represents SMU, and is a traditional accessory to Peruna IX.

## **Academic Integrity and Code of Conduct**

### **The Honor Code of Southern Methodist University**

Intellectual integrity and academic honesty are fundamental to the processes of learning and of evaluating academic performance, and maintaining them is the responsibility of all members of an educational institution. The inculcation of personal standards of honesty and integrity is a goal of education in all the disciplines of the University.

The faculty has the responsibility of encouraging and maintaining an atmosphere of academic honesty by being certain that students are aware of the value of it, understand the regulations defining it and know the penalties for departing from it. The faculty should, as far as is reasonably possible, assist students in avoiding the temptation to cheat. Faculty members must be aware that permitting dishonesty is not open to personal choice. A professor or instructor who is unwilling to act upon offenses is an accessory with the student offender in deteriorating the integrity of the University.

Students must share the responsibility for creating and maintaining an atmosphere of honesty and integrity. Students should be aware that personal experience in completing assigned work is essential to learning. Permitting others to prepare their work, using published or unpublished summaries as a substitute for studying required material, or giving or receiving unauthorized assistance in the preparation of work to be submitted are directly contrary to the honest process of learning. Students who are aware that others in a course are cheating or otherwise acting dishonestly have the responsibility to inform the professor and/or bring an accusation to the Honor Council.

Students and faculty members must share the knowledge that any dishonest practices permitted will make it more difficult for the honest students to be evaluated and graded fairly and will damage the integrity of the whole University. Students should recognize that their own interests and their integrity as individuals would suffer if they condone dishonesty in others.

### **The Honor System**

In support of the Honor Code, the Honor Council has the responsibility to maintain and promote academic integrity. The Honor Council is composed of a minimum of 27 members selected through an application and interview process organized by the Honor Council Executive Board.

Academic dishonesty includes plagiarism, cheating, academic sabotage, facilitating academic dishonesty and fabrication. Plagiarism is prohibited in all papers, projects, take-home exams or any other assignments in which the student submits another's work as being his or her own. Cheating is defined as intentionally using or attempting to use unauthorized materials, information or study aids in any academic exercise. Academic sabotage is defined as intentionally taking any action that negatively affects the academic work of another student. Facilitating academic dishonesty is defined as intentionally or knowingly helping or attempting to help another to violate any provision of the Honor Code. Fabrication is defined as intentional and unauthorized falsification or invention of any information or citation in an academic exercise.

## **Code of Conduct**

The following are University procedures and standards with which every student must become familiar. The University considers matriculation at SMU an implicit covenant and a declaration of acceptance on the part of the student of all University regulations.

Standards of conduct are established through faculty, student and administrative efforts and are under continuous evaluation by the entire University community in order to assure reasonable and fair limits. At SMU, the student is assumed to have a high degree of loyalty and responsibility to the University and its well-being, as well as to himself or herself in personal, social and intellectual pursuits; the student's behavior both on and off campus is evidence of this.

Students at SMU will discover that they are encouraged to exercise a great amount of personal freedom as well as accompanying responsibilities. Through their personal capacities for intelligent thought and action, mature students understand that there are situations in which certain behavior must be modified for the benefit of others. The University stands firm in its commitments to the rights and freedoms of students, expecting in return the same respect and concern.

Due respect for the entire University community, faculty, staff and one's fellow students is always expected. The University expects all students to be responsible citizens and to abide by all federal, state and local laws. The University Code of Conduct applies to students both on and off campus. It is the University's expectation that students will avoid behaviors such as, but not limited to, the misuse of drugs and alcohol, dishonesty, gambling, hazing, or behavior that endangers or threatens to endanger the health and safety of any person.

Students are required to identify themselves when asked by a properly identified faculty or staff member, or by another student serving as a University staff member. Persons who are not members of the University community and without business on campus may be asked to leave.

## **Conduct Review Process**

Clear disciplinary procedures are an important part of the mission of SMU as an educational institution. The intent of the system of due process at SMU is to be educational and not merely punitive for students. The goal continues to be to produce quality citizens. The purpose of the conduct review process is to encourage personal responsibility.

Depending on the degree of misconduct, a student may be subject to sanctions ranging from an informal warning to expulsion from the University. In addition, a student may be assigned educational sanctions designed to promote personal growth and development. Should a student be asked to leave the University, he or she should do so in an expeditious and peaceful manner. The student should remain off campus until he or she receives written permission from the Office of Student Conduct & Community Standards to return to campus. In the event of such separation, a student is still responsible for University financial obligations.

Having voluntarily enrolled as students at Southern Methodist University and assumed a place in the University community, all students are presumed to be knowledgeable of, and have agreed to abide by the rules and regulations set forth in the Student Code of Conduct.

## **Student Engagement and Success**

### **Department of Student Development**

#### **Office of the Student Experience**

The Office of the Student Experience designs a comprehensive student experience supporting students and their families from orientation to graduation. Using a leadership framework, all students are guided through collegiate transitions. With recognition of the unique needs of veterans, graduate, transfer, and international students, the office advocates for and provides support to these special populations.

#### **Leadership**

The leadership programs available to students include the Emerging Leaders First-Year Leadership Development Program, the Crain Leadership Summit, and the Lonestar LeaderShape Institute. The Office of the Student Experience also supports student leadership development through the Caswell Leadership Program, for a group of selected students

to develop projects focused on organizational leadership, faith-based leadership, community-based leadership, environmental leadership, fraternity and sorority leadership or culturally competent leadership.

### **Parent and Family Programs**

Parents and families are supported through the Office of the Student Experience with a focus on assisting families to assist their students. Our office supports the SMU Mothers' and Dads' clubs, welcomes and supports new students and families during orientation, and supports family weekend.

### **Special Population Support**

The Office of the Student Experience is committed to supporting all SMU students in their transitions into and through SMU. Additional support is coordinated for special student populations who may have unique factors that impact their transitions including Veteran, Transfer, International, and Graduate students.

### **Women & LGBT Center**

[www.smu.edu/womenandlgbtcenter](http://www.smu.edu/womenandlgbtcenter)

The Women & LGBT Center works to increase awareness and understanding of gender, sexuality, and women's issues on campus through social, cultural and academic programming and outreach. We provide empowering spaces for students to develop as leaders through purposeful learning, educational, and advocacy opportunities. We also advise, support, and develop student organizations focused on gender, sexuality, and women's issues. Some of the organizations we advise include the Feminist Equality Movement, Women in Science and Engineering, and Spectrum: the lesbian, gay, bisexual, transgender and ally organization. Also housed in the center is the SMU Women's Symposium ([www.smu.edu/womsym](http://www.smu.edu/womsym)), which is part of the Education of Women for Social and Political Leadership series, established in 1966.

### **Office of Social Change and Intercultural Engagement**

The Office of Social Change and Intercultural Engagement exists to connect students with opportunities to engage with and learn from the SMU campus, Dallas community, and beyond. The office prioritizes advocacy and awareness through immersive community engagement experiences and social justice education. There are two major functional areas of the office: community engagement and intercultural engagement.

The community engagement side of the office has signature service programs including The Big Event, Mustang Heroes, and Alternative Breaks—which provide students the opportunity to participate in immersive service experiences in Dallas and throughout the United States. The office also provides consulting services to individuals, classes, and offices to help connect them to meaningful and educational community engagement opportunities.

In addition, the office sponsors intercultural engagement and social justice education programs to provide opportunities for the exchange of ideas and experiences that enhance student perspectives, and offers various leadership opportunities through culturally based student organizations, student coordinator positions, and the CONNECT Mentoring Program.

For more information about our programs, please visit [www.smu.edu/socialchange](http://www.smu.edu/socialchange).

### **Department of Student Involvement**

[connect.smu.edu](http://connect.smu.edu)

The mission of Student Involvement is to foster experiences and create spaces encouraging students to discover their interests and find a sense of belonging through involvement. Research shows that students who get involved, regardless of the type of activity, tend to be more successful during their college experience. Student Involvement supports more than 200 opportunities for SMU students through academic and professional associations, campus programming boards, community service coalitions, fraternities and sororities, governing boards, honor societies, multicultural organizations, political clubs, club sports, religious organizations, and special interest groups. Professional staff are available to answer student's questions about getting involved and student organization operations.

The Student Involvement Office is located on the third floor of the Hughes-Trigg Student Center, Suite 314. Campus activities and organizations are an integral part of the developmental experience for students and a long-standing SMU

tradition. Participation can help students develop leadership skills and provide inter-personal, social and cultural experiences.

Additional information is available online, including organization interests or type, membership requirements, contact information and event calendars. Student Involvement can also assist students in forming a new organization. To learn more visit [connect.smu.edu](http://connect.smu.edu).

**Eligibility Requirements.** Students who hold office in a student organization or represent the University as a member of a sponsored campus group (Mustang Band, Alternative Breaks, etc.) must be matriculated in a University degree-granting program, maintain a minimum 2.0 GPA, and may not be on academic probation.

## **Student Government**

Through SMU's system of representative governance, students participate with faculty and administration in the University's decision-making process. The primary voice of students in this process is the student-elected Student Senate comprised of senators, committee chairs, general members, and student body officers.

## **Hughes-Trigg Student Center**

[www.smu.edu/htrigg](http://www.smu.edu/htrigg)

The Hughes-Trigg Student Center supports the University's mission by serving as the hub of student life and activities. The Student Center enhances the student experience by providing services, conveniences, amenities, and resources to facilitate programming. The Student Involvement staff strives to provide a safe and community-focused environment to meet the diverse needs of all individuals. Our space offerings include a 6,400 square-foot ballroom, a tiered, amphitheater-style forum classroom, a 470-person capacity auditorium, a convenience store, a food court with a multifunction dining space, a post office, office and meeting space for student organizations, several lounging and quiet areas for studying, and six meeting rooms.

## **Residence Life and Student Housing**

[www.smu.edu/housing](http://www.smu.edu/housing)

The Department of Residence Life and Student Housing supports the goals of the University by creating residential communities that empower residents to value learning, citizenship and leadership in comfortable, well-maintained facilities. The department is responsible for the campus residential community, including all Residential Commons, Upper Division Housing, SMU-owned apartments, and SMU-owned Greek chapter houses.

## **Hegi Family Career Development Center**

[www.smu.edu/career](http://www.smu.edu/career)

The Hegi Family Career Development Center at SMU is dedicated to serving the needs of SMU students and alumni and assisting employers in reaching qualified candidates from SMU. The Career Development Center staff guides and encourages students and alumni in the development of skills necessary for lifelong career management and offers opportunities for employers to recruit students through campus events and online resources. At Hegi, the staff cares about helping students develop into well-rounded individuals, and is dedicated to values of consistency, authenticity and commitment to excellence.

**Career Express Drop-in Hours.** The Career Center offers 15-minute drop-in sessions on a first-come, first-served, basis. In these sessions, students can discuss career options or get help editing a resume. Additional information is available on our website at [www.smu.edu/career](http://www.smu.edu/career).

**Counseling Appointments.** The Career Center also provides opportunities for counseling appointments with a staff member. These longer sessions can help students navigate more complex issues, including major exploration, career exploration, professional skill building, and more.

**Peer Mentors.** Peer Mentors are highly trained student leaders who help fellow students navigate the career development process, including assisting with drop-ins, editing cover letters and resumes, and representing Hegi at campus events.

**Career Development Ambassadors.** CDA is a student organization designed to provide career development opportunities on the SMU Campus. CDAs organize events for the SMU community, which inspire engagement in the career development process, develop students' career tools, and provide networking opportunities.

**Experiential Learning.** Want to learn more about an industry, company or specific job? Experiential learning is the best way to do so. Below are some easy ways to get connected:

- **Coffee Chats/Lunch 'n Learns:** Meet an employer in an informal setting to learn about their career journey.
- **Mentors:** Connect and develop a relationship with an industry professional that is in a career you are interested in.
- **Employer Site Visits/Externships:** Shadow professionals and SMU alumni for the day and learn about their career path and what they do on a daily basis. Mustang and SMU Connection programs partner with top regional employers and alumni providing student exposure to today's competitive and ever-changing job market.
- **Informational Interviews:** Have a conversation with an alum and/or employer to build your network and learn about their education and career path.

**Employer Events.** Our Office cultivates meaningful relationships with organizations and employers who are invested in networking with dynamic, talented and skilled students across SMU's liberal and communication arts communities. Throughout the year, the Career Center hosts 2-4 Career and Internship Fairs, along with a host of Employer Industry Panels, Company Information Sessions and Industry Training and Development Workshops. These events offer students an opportunity to work with employers and alumni and to learn the skills necessary to be successful in the workplace.

## Office of the Chaplain and Religious Life

[www.smu.edu/chaplain](http://www.smu.edu/chaplain)

The Office of the Chaplain and Religious Life offers resources of pastoral care and theological reflection that nurture spiritual and vocational development as well as the moral and ethical vision and character of students, faculty and staff. Dr. Stephen W. Rankin is the chaplain and minister to the University community. Chaplain Rankin leads and preaches at weekly chapel service, an ecumenically Christian, all-University service of worship, each Wednesday during the term. Students, faculty and staff are invited to participate in this service through music, scripture readings or other expressions of worship. Other services, including the University Service of Memory, Ash Wednesday Service and memorial services as needed, are also planned and implemented by the Office of the Chaplain.

Presently, there are more than 28 religious life organizations. Alongside the Christian groups aligned with denominations, local Dallas-area congregations or national parachurch ministries, SMU also has an active Hillel chapter for Jewish students, a bustling Muslim Student Association and other faith groups of various traditions. A large number of undergraduate, graduate and professional students, as well as many of SMU's faculty, staff and administrators, participate in these religious communities.

Additionally, the Office of the Chaplain partners with faculty members across campus to direct the Faith and Learning Scholars, a cohort of students who want the experience of integrating their faith with their academic pursuits. Participants can qualify for the community engagement proficiency. Similarly, the Civil Rights Pilgrimage, founded in 2004, is an eight-day spring break journey through the South whereby students encounter shrines of freedom and meet heroes of the civil rights movement. This collaboration with Dedman College offers students a transformative opportunity while earning academic credit.

Chaplains are available for personal counseling and spiritual direction with students, faculty and staff during office hours. The Office of the Chaplain is located in the Hughes-Trigg Student Center, Suite 316. Nearby are two rooms for prayer, one designated for Muslim community members and the other for all others.

## **Residence Accommodations**

The University prides itself on offering a full living and learning experience for its resident students. The mission of the Department of Residence Life and Student Housing is to advance the goals and objectives of the University by creating residential communities that empower residents to value learning, citizenship and leadership. To this end, RLSH seeks opportunities to promote an intellectual culture in SMU's residential communities that complements an already flourishing campus social culture. RLSH is responsible for residence halls, 11 Residential Commons and 10 SMU-owned Greek chapter houses. This responsibility includes making sure that facilities are well maintained and that students have opportunities to grow personally and excel academically.

## **Housing Policy for All Students**

All incoming first-year undergraduate students are required to live on campus during their first two years at SMU. Exceptions may be granted on the basis of a financial, medical or personal hardship at the discretion of the dean of RLSH to those students from Dallas/Fort Worth who live with a parent or legal guardian in the primary residence of the parent or guardian. For housing purposes, the two years means the first two years of college. Incoming transfer students who are over the age of 16 and under the age of 20 are required to live on-campus for their first year at SMU. For 2018–2019, upperclass and graduate students are not required to live on campus but may apply on a space-available basis.

## **Applications for Residence**

New graduate students should submit the completed application and housing license agreement to RLSH with a check or money order for \$100 made payable to Southern Methodist University for the nonrefundable housing deposit. Notification of assignment will be made by RLSH.

The housing license agreement is for the full academic year (fall and spring terms). Room charges for the fall term will be billed and are payable in advance of the term for students who register before August 1, and room charges for the spring term will be billed and are payable in advance of that term for students who register before December 1. Students who register after these dates must pay at the time of registration. Room charges for the full academic year will be due and payable should a student move out at any time during the school year. Accommodations for shorter periods are available only by special arrangement with RLSH before acceptance of the housing license agreement. It is important that applicants become familiar with the license agreement, as it is a legally binding document.

## **Graduate Residence Accommodations**

The Department of Residence Life and Student Housing operates one apartment residence hall designated for graduate students. Martin Hall, a single occupancy, efficiency apartment facility, houses single graduate students and senior undergraduates.

## **Special Housing Needs**

Students having special housing needs because of a disability should contact the SMU Office of Disability Accommodations and Success Strategies in order to establish eligibility for accommodations. When applying for housing, students should also submit information to RLSH regarding a request for accommodations. DASS and RLSH will work together with the student on their specific situation to make necessary accommodations.

## **General Housing Information**

Each apartment is furnished with a Murphy bed, desk, dresser, kitchen dining table and chairs. All university residences have wired and wireless Ethernet connections to the University's computer system. All residence halls are air-conditioned and some have individually climate-controlled rooms. Washing machines and dryers are located in all residence halls. Meal plans are not required in the graduate hall. For more information, students should visit [www.smu.edu/housing](http://www.smu.edu/housing) or contact the Department of Residence Life and Student Housing, Southern Methodist University, PO Box 750215, Dallas TX 75275-0215; phone 214-768-2407; fax 214-768-4005; [housing@smu.edu](mailto:housing@smu.edu).

David Deggs, *Research Associate Professor of Education Policy and Leadership, Ph.D., Louisiana State*

Sherril English, *Clinical Associate Professor of Teaching and Learning, Ph.D., North Texas*

Brian Fennig, *Senior Lecturer of Applied Physiology and Wellness*, Ph.D., Texas (Dallas)

S. Kiersten Ferguson, *Clinical Associate Professor of Education Policy and Leadership*, Ph.D., Texas (Austin)

Amy Ferrell, *Clinical Assistant Professor of Teaching and Learning*, Ed.D. SMU

Denisa Gandara, *Assistant Professor of Education Policy and Leadership*, Ph.D., Georgia

Leanne Ketterlin Geller, *Texas Instruments Endowed Chair in Education, Professor of Education Policy and Leadership*, Ph.D., Oregon

Diane Gifford, *Clinical Assistant Professor of Teaching and Learning*, Ph.D., SMU

Donna Gober, *Senior Lecturer of Applied Physiology and Wellness*, Ed.D., Lamar

Michael S. Harris, *Associate Professor of Education Policy and Leadership*, Ed.D., Pennsylvania

Thomas L. Hartsell, *Clinical Professor of Dispute Resolution and Counseling*, J.D., Michigan State

Frank Hernandez, *Annette and Harold Simmons Centennial Chair and Professor of Education Policy and Leadership*, Ph.D., Wisconsin (Madison)

Tim Jacobbe, *Professor of Teaching and Learning, Department Chair*, Ph.D., Clemson

Lynn Romejko Jacobs, *Professor of Applied Physiology and Wellness, Department Chair*, Ph.D., Texas Woman's University

Margaret Jacome, *Clinical Associate Professor of Dispute Resolution and Counseling*, Ph.D., Texas Tech

Johnitha Johnson, *Clinical Assistant Professor of Teaching and Learning*, Ph.D., Texas A&M

Francesca Jones, *Clinical Associate Professor of Teaching and Learning*, Ph.D., North Texas

Akihito Kamata, *Professor of Education Policy and Leadership and Psychology*, Ph.D., Michigan

Stephanie Knight, *Leon Simmons Endowed Dean, Professor of Teaching and Learning*, Ed.D., Houston

Jan Mallett, *Research Assistant Professor of Teaching and Learning*, Ph.D., Texas A&M (Commerce)

Suzanne Maxwell, *Visiting Clinical Assistant Professor for Dispute Resolution and Counseling*, Ph.D., Texas A&M

John Ashley Mears, *Adjunct Professor of Graduate Liberal Studies*, Ph.D., Chicago

Megan Murphy, *Clinical Associate Professor of Applied Physiology and Wellness*, Ph.D., North Texas

Dawson Orr, *Clinical Professor of Education Policy and Leadership, Department Chair*, Ph.D., Texas (Austin)

Miriam Ortiz, *Visiting Clinical Assistant Professor of Teaching and Learning*, Ph.D., SMU

Chalie Patarapichayatham, *Research Assistant Professor of Teaching and Learning*, Ph.D., Chulalongkorn (Bangkok)

Alexandra Pavlakis, *Assistant Professor of Education Policy and Leadership*, Ph.D., Wisconsin-Madison

Lindsey Perry, *Research Assistant Professor of Education Policy and Leadership*, Ph.D., SMU

Anthony Petrosino, *Professor of Teaching and Learning, Associate Dean*, Ph.D., Vanderbilt

John Potter, *Clinical Associate Professor of Dispute Resolution and Counseling*, O.D., Indiana

Abigail Pruitt, *Clinical Professor of Teaching and Learning*, Ed.D., George Washington

Sushmita Purkayastha, *Assistant Professor of Applied Physiology and Wellness*, Ph.D., North Texas

Meredith Richards, *Assistant Professor of Education Policy and Leadership*, Ph.D., Texas (Austin)

Brenna Rivas, *Research Assistant Professor of Teaching and Learning*, Ph.D., SMU

Laura Robinson-Doyle, *Lecturer of Applied Physiology and Wellness*, M.S., Texas Women's University

Kelyn S. Rola, *Lecturer of Applied Physiology and Wellness*, Ed.D., SMU

Dara Rossi, *Clinical Associate Professor of Teaching and Learning*, Ph.D., North Texas

Amy Gillespie Rouse, *Assistant Professor of Teaching and Learning*, Ph.D., Vanderbilt

Robert Rouse, *Clinical Associate Professor of Teaching and Learning*, Ph.D., Vanderbilt

Mark Rudich, *Lecturer of Applied Physiology and Wellness*, M.S., Baylor

Edita Ruzgyte, *Clinical Associate Professor of Dispute Resolution and Counseling*, Ph.D., Texas Woman's

Brandy Schumann, *Clinical Associate Professor of Dispute Resolution and Counseling*, Ph.D., North Texas

Milan Sevak, *Clinical Associate Professor of Education Policy and Leadership*, Ed.D., Harvard

Betty Iglesias Snyder, *Clinical Associate Professor of Dispute Resolution and Counseling*, Psy.D., Alliant International  
Misty Solt, *Clinical Associate Professor of Dispute Resolution and Counseling*, Ph.D., North Texas  
Kenneth L. Springer, *Associate Professor of Teaching and Learning*, Ph.D., Cornell  
Ashley Tull, *Clinical Associate Professor of Education Policy and Leadership*, Ed.D., Florida State  
Candace Walkington, *Associate Professor of Teaching and Learning*, Ph.D., Texas (Austin)  
Terra Wagner, *Clinical Assistant Professor of Dispute Resolution and Counseling*, Ph.D., North Texas  
Paige Ware, *Mary Elizabeth Holdsworth Endowed Professor, Associate Dean*, Ph.D., California (Berkeley)  
Bradley Warren, *Lecturer of Applied Physiology and Wellness*, M.S., West Virginia  
Nancy V. Warren, *Clinical Professor of Teaching and Learning*, Ed.D., Texas A&M (Commerce)  
Peter G. Weyand, *Glenn Simmons Endowed Professor*, Ph.D., Georgia  
Anne Wilhelm, *Associate Professor of Teaching and Learning*, Ph.D., Vanderbilt  
Paul Yovanoff, *Professor of Teaching and Learning*, Ph.D., Oregon

## **Simmons Emeritus Faculty**

Dale E. Davis, *Professor Emeritus of Teacher Preparation*  
Deborah Diffily, *Professor Emeritus of Teaching and Learning*, Ph.D., North Texas  
Paul Gordon Hook, *Professor Emeritus of Physical Education*, Ph.D., North Texas  
Jiang (JoAnn) Lan, *Professor Emeritus of Teaching and Learning*, Ed.D., Northern Illinois  
G. Reid Lyon, *Professor Emeritus of Education Policy and Leadership*, Ph.D., New Mexico  
Patricia Mathes, *Professor Emeritus of Teaching and Learning*, Ph.D., Vanderbilt  
George McMillion, *Professor Emeritus of Physical Education*  
William Pulte, *Professor Emeritus of Teaching and Learning*  
Bryan Robbins, *Professor Emeritus of Physical Education*  
R. Jack Roberts, *Professor Emeritus of Education*  
Patricia K. Webb, *Professor Emeritus of Teacher Preparation*, Ed.D., North Texas

# SMU Guildhall

## Academic Calendar

Payment Due Dates: <http://www.smu.edu/EnrollmentServices/Bursar/DueDates>

### Fall Term 2019

**July 18, Thursday:** First day to enroll.

**August 23, Friday:** Orientation.

**August 26, Monday:** First day of class.

**August 30, Friday:** Last day to enroll, add a course or drop a course without tuition billing while remaining enrolled for the term.

**September 2, Monday:** University Holiday, Labor Day.

**September 9, Monday:** Last day to drop a course without academic record (tuition charges apply). Last day to withdraw from the university without academic record (withdrawal refund schedule applies).

**October 14-15, Monday-Tuesday:** Fall Break.

**November 1, Friday:** 60% point of the term that federal financial aid has been earned if a student officially withdraws from SMU; prior to this date a partial calculated return to federal programs will be required.

**November 8, Friday:** Last day to drop a course (grade of W).

**November 26, Tuesday:** Last day to withdraw from the University.

**November 27, Wednesday:** No Classes.

**November 28-29, Thursday-Friday:** University Holidays, Thanksgiving.

**December 10-11, Tuesday-Wednesday:** Reading Days.

**December 12-13, Thursday-Friday:** Final Exams.

**December 16, Monday:** Faculty Planning Day.

**December 21, Saturday:** December Commencement/Degree conferrals.

### Spring Term 2020

**November 11, Monday:** First day to enroll.

**January 17, Friday:** First day of class.

**January 20, Monday:** University Holiday, Birthday of Martin Luther King, Jr.

**January 24, Friday:** Last day to enroll, add a course or drop a course without tuition billing while remaining enrolled for the term.

**January 31, Friday:** Last day to drop a course without academic record (tuition charges apply). Last day to withdraw from the university without academic record (withdrawal refund schedule applies).

**March 16-22, Monday-Sunday:** Spring Break.

**March 25, Wednesday:** 60% point of the term that federal financial aid has been earned if a student officially withdraws from SMU; prior to this date a partial calculated return to federal programs will be required.

**April 7, Tuesday:** Last day to drop a course with a grade of W.

**April 10, Friday:** University Holiday, Good Friday.

**April 24, Friday:** Last day to withdraw from the University.

**May 5, Tuesday:** Reading Day.

**May 6-7, Wednesday-Thursday:** Final Exams.

**May 13-14, Wednesday-Thursday:** Faculty Planning Days.

**May 15, Friday:** Exhibition. (*Tentative*)

**May 16, Saturday:** May Commencement Convocation/Degree Conferrals.

### Summer Term 2020

**April 27, Monday:** First day to enroll.

**May 25, Monday:** University Holiday, Memorial Day.

**May 26, Tuesday:** First day of classes.

**May 28, Thursday:** Last day to add/drop, enroll.

**June 30, Tuesday:** 60% point of the term that federal financial aid has been earned if a student officially withdraws from SMU; prior to this date a partial calculated return to federal programs will be required.

**July 3, Friday:** University Holiday, Independence Day.

**July 8, Wednesday:** Last day to drop a course (grade of W) or withdraw from the University.

**July 20-22, Monday-Wednesday:** Final Exams.

**TBD:** Faculty Planning Day.

**August 4, Tuesday:** Degree Conferrals.

## Major Religious Holidays

*(August 2019-August 2020)*

Listing of religious holidays for use in requesting excused absences according to University Policy, Excused Absences for University Extracurricular Activities and Religious Holidays. For religious holidays not listed, the instructor or supervisor may contact the Office of the Chaplain.

### Christian

**Christmas:** December 25, 2019

**Good Friday:** April 10, 2020

**Easter Sunday:** April 12, 2020

**Easter Sunday (Orthodox):** April 19, 2020

### Hindu

**Janmashtami:** August 23, 2019

**Dasera:** October 7, 2019

**Diwali:** October 27, 2019

### Jewish\*

**Rosh Hashanah:** September 30, 2019

**Yom Kippur:** October 9, 2019

**Sukkot/Simchat Torah:** October 14-15, 2019

**Hanukkah:** December 23, 2019

**Purim:** March 10, 2020

**Pesach (Passover):** April 9-10, 2020

**Shavuot:** May 29, 2020

### Muslim

**Eid al-Adha:** August 12, 2019

**Islamic New Year:** August 31, 2019

**Ashura:** September 10, 2019

**Mawlid an-Nabi:** November 10, 2019

**Ramadan:** April 24, 2020

**Eid al-Fitr:** May 24, 2020

\* All holidays begin at sundown before the first day noted and conclude at sundown on the day(s) noted.

# SMU Guildhall: General Information

## History and Mission

The Linda and Mitch Hart eCenter at SMU was founded in 2000 to provide leadership in the development and use of interactive network technologies. The eCenter promotes the creation and dissemination of knowledge about these technologies and their effects on global society through research, education and innovation. The vision for the eCenter stemmed from the recognition that interactive networks have changed the way people work, live, learn and play, and that it was academe's responsibility to assist business and government in anticipating the internetworked society of the future and in helping to shape it. The Hart eCenter reports directly to the president and provost of the University based on the conviction that great opportunities for discovery take place at the intersection of disciplines. Since today's issues cut across multiple disciplines, the eCenter leverages the freedom and flexibility to engage thought leadership across the traditional divisions along which academic and business institutions have usually organized themselves.

The Hart eCenter offers programs leading to an Interactive Technology master's degree and a professional certificate in digital game development through the Guildhall at Southern Methodist University. Both the master's degree and the graduate professional certificate offer specializations in art creation, level design and software development. In addition, the master's degree offers a specialization in production.

The mission of SMU Guildhall is to educate and train professionals and future leaders for the field of digital game development. SMU Guildhall was founded in 2002 with the belief that the arts and sciences underpinning video games represent the 21st century's form of human thought, discovery and expression. The program was designed and developed in collaboration with industry icons and leading professionals. The resulting graduate curriculum is based on progressive andragogical philosophies that combine theory and practice in a just-in-time learning environment. Guided by a faculty made up primarily of industry veterans, students specialize in one of four areas fundamental to digital game development – art creation, level design, production and software development – and learn how to work in progressively larger teams on games of increasing complexity. Over a two-year period, students take courses, complete individual projects, work on team projects and leave the program with rich portfolios that showcase their talents in their chosen area of expertise. To earn a master's degree, students must also complete a thesis and public defense administered by the student's faculty adviser.

The SMU Guildhall opened its doors July 7, 2003, when 32 students comprising cohort 1 started their studies. Since that time, the program has graduated more than 750 students, and alumni have worked at more than 250 studios around the world.

## Facilities and Technology

The Linda and Mitch Hart eCenter, currently located at the SMU-in-Plano campus, has created a dedicated space for SMU Guildhall. With approximately 48,000 square feet divided between two floors, SMU Guildhall includes 12 classrooms, four project studios, labs, 10 group project rooms, and separate faculty and staff offices. The project studios have been designed to simulate an industry studio environment where teams work together to complete projects. Every student at SMU Guildhall receives a laptop optimized for game development, supplemented by dedicated computers and servers throughout the building and connected via a gigabit network.

## Graduate Programs

SMU Guildhall offers the following graduate programs:

<b>Major Area</b>	<b>Degree or Diploma</b>
Interactive Technology	M.I.T.
Digital Game Development	Certificate

# SMU Guildhall: Admission

SMU Guildhall seeks to admit students with a strong academic background, talent, potential and the passion to become professionals and future leaders in the digital game development industry. Guildhall admission requirements include general admission requirements along with a portfolio submission specific to the applicant's chosen specialization (art creation, level design, production or software development). The general admission standards for the master's degree meet the admission standards for enrollment in a graduate program at SMU.

## Admission Requirements

Consideration for admission to the master's degree program includes the following:

1. The official transcript for a baccalaureate degree from a regionally accredited institution of higher learning, with a minimum undergraduate GPA of 3.000 (on a 4.000 scale).
2. A portfolio consisting of examples that showcase the applicant's aptitude and preparation in his/her intended field or satisfactory completion of an assignment specific to the applicant's chosen area of specialization. Only students who do not have a sufficient portfolio of work must complete the assignment. Additional instructions on the portfolio assignment are available from SMU Guildhall.
  - a. Art creation – The portfolio should contain examples that showcase the applicant's strong 2-D art skills, and 3-D art skills are a plus, as well. Portfolio drawings should show creativity and knowledge of perspective, anatomy and use of line/shading. Examples may be created with traditional media or digitally.
  - b. Level design – The portfolio should consist of examples that showcase the applicant's talents; e.g., screenshots, videos and annotated maps/playable levels for 2-D or 3-D games, including detailed descriptions of the applicant's work on the project, D&D or RPG campaigns, deconstructions of existing games and mechanics.
  - c. Production – The portfolio should consist of examples that showcase the applicant's aptitude, problem-solving skills, communication skills and leadership ability. As a part of the portfolio assignment, applicants must also submit a solution for a producer case study problem assignment found under the admission section on the SMU Guildhall website. During the admission process, the applicant to the production specialization must choose one of the other three specializations as a secondary area of specialization, and the applicant's portfolio must include a portfolio for the secondary area (art creation, level design or software development).
  - d. Software development (Programming) – The portfolio should consist of coding examples that showcase the applicant's talents. Code samples in any structure will be acceptable; however, games coded in C++ are strongly preferred.
3. A video essay describing the applicant's motivation, interests, life experiences and biggest challenge overcome as a creative person as they relate to an interest in pursuing a professional career in digital game development. Applicants should explain why one of the submitted portfolio pieces is a good/interesting/skillful piece of work. An applicant to the production specialization should also address the motivation behind their interest in pursuing a career as a game producer, a description of their understanding of the role of a producer, and the ways that they would impact the industry as a producer.
4. Two references. (We only need contact information; we do not need recommendation letters.)
5. A phone interview may be required for applicants to the production specialization.
6. Test score from an internationally recognized English language test, such as the TOEFL or IELTS English proficiency tests, if the applicant is from a country where the predominant language of instruction is not English. A score of at least 550 (80 on the computer test) is required on the TOEFL for admission consideration. A score of 6.5 or higher is required on the IELTS for admission consideration.

Admission requirements for the graduate professional certificate program mirror the requirements for the master's program in the art creation, level design or software development specializations, except for the requirement for a minimum GPA and/or a baccalaureate degree from a regionally accredited institution of higher learning. The graduate professional certificate program is not offered in the production specialization.

## Admission with Advanced Standing Program

Students who have already earned a Certificate in Digital Game Development from the Guildhall may apply for admission with advanced standing into the master's degree program if they meet all the academic requirements for admission to the degree program. Requirements for consideration with advanced standing are

1. A four-year baccalaureate or equivalent degree from a regionally accredited college or university.
2. A minimum cumulative GPA of 3.000 out of 4.000 (B average) in undergraduate work.
3. A minimum cumulative GPA of 3.000 out of 4.000 in graduate work at the Guildhall.
4. A portfolio consisting of examples that showcase the applicant's aptitude and preparation in his/her intended field, as well as satisfactory completion of an assignment specific to the applicant's chosen area of specialization.
5. An essay describing the applicant's motivation in obtaining an M.I.T. degree, areas of interest and the ways the he or she will contribute to the M.I.T. program.
6. A resume.
7. At least two letters of recommendation from Guildhall professors.

Applicants who do not meet the minimum requirement in their undergraduate work may be considered on the basis of other factors, including GRE graduate school entry exam scores, strong employment history, publications and other academic experience. In particular, transcripts indicating successful completion of graduate-level courses in other areas of study may be taken into consideration if the applicant's undergraduate GPA is below 3.000.

Students with a Guildhall certificate are considered to have satisfied residency requirements and may therefore complete their master's degree work away from the campus. However, students should expect to be physically present on campus whenever it is deemed important by the student's adviser, including during the initial meeting to approve the student's proposal and the final defense exhibition. Thesis requirements must be completed within three years of the date that certificate requirements are completed.

The specialized cohort nature of the Guildhall program precludes admission with advanced standing from other graduate programs. Students admitted with advanced standing into the master's degree program take the following courses:

HGME 6170, HGME 6271, HGME 6372 - Master's Thesis I, II, III: Post Certificate and HGME 6179 Graduate Exhibition Post Certificate.

## International Students

For students requiring a U.S. visa, it is mandatory that the following forms be completed and returned with the application to SMU Guildhall:

- Financial Certification for Study at SMU (form must be completed, notarized and converted into U.S. dollars).
- F-1 Compliance Form.
- Health care information.

Documents sent by email ([guildhall@smu.edu](mailto:guildhall@smu.edu)) should be in PDF format. The address is SMU Guildhall, Hart eCenter, Attn: Admissions, 5232 Tennyson Parkway, Building 2, Plano TX 75024. Additional information is found on the SMU International Center website ([www.smu.edu/international](http://www.smu.edu/international)).

# **SMU Guildhall: Special Programs and Services**

## **Career Development**

SMU Guildhall provides its students with the resources and professional environment they need to achieve their career goals. While attending the program, students receive class instruction from industry-experienced faculty on the preparation of résumés and cover letters, interview techniques, online portfolio creation, and negotiation.

The Guildhall further enhances a student's career outlook by hosting a career event prior to graduation. Studios are invited to attend and conduct interviews with graduating students. Industry experts are invited to provide feedback sessions on the student's online portfolio. Graduating students may also attend industry conferences with events and networking opportunities.

# SMU Guildhall: Programs of Study

SMU Guildhall, through the Linda and Mitch Hart eCenter, offers a Master of Interactive Technology degree with specializations in art creation, level design, production and software development. Additionally, a professional certificate in Digital Game Development with specializations in art creation, level design and software development is offered.

The curriculum is divided into three distinct components emphasizing course-work, team game production and directed focus study/thesis work. The coursework includes game studies, game design, major courses, minor courses and special topics. A minimum of three team game production projects provide students with the experience of working in cross-disciplinary teams of varying sizes to produce playable 2-D and 3-D game demos. The directed focus study courses initiate students in the discipline of independent work in their respective area of specialization, producing content for their individual portfolios. The curriculum for the production specialization allows students to learn the fundamentals, experience production with their cohort teammates, and apply theory and experience to help produce the games of later cohorts. During the master's thesis coursework, students in the master's program, under the direction of their thesis adviser and supervisor, select a thesis topic, research the chosen area, prepare the thesis document and prepare for the successful defense of the chosen topic.

## Team Game Production

Team game production is integral to the curriculum. Interdisciplinary teams are formed to produce games based on the specific skills taught in the specializations of art creation, level design, production and software development. Teamwork is a fundamental part of the educational experience as it allows students to work in a creative atmosphere where they make design decisions and realize them in a meaningful way. Each team is organized with students as leads, and each team experiences a product cycle from concept green light to product launch. The outcome of the project is a game that students present in their portfolio.

## Directed Focus Study/Master's Thesis

Directed focus study and thesis courses require students to investigate areas of personal interest and demonstrate the knowledge and mastery of their craft by creating individual portfolio pieces in their specialization area. In the production specialization, the directed focus study courses provide students with the practical experience of producing a game.

The master's degree program includes a thesis project requirement in addition to the directed focus study element and attributes to it a significant portion of the total program credit hours to recognize the major effort associated with the completion of the thesis project. Each student in the master's program must successfully complete a final defense administered by the student's adviser.

Given the cross-disciplinary nature of the program and the project and team-based curricular approach, students are admitted in cohorts that pursue the program in a lockstep fashion. The degree requirements for the master's degree and the professional certificate are detailed below.

## Degree and Certificate Requirements

**Cohort C29: Begin Fall 2019; Graduate Spring 2021**

### Interactive Technology, M.I.T.

Students in the Master of Interactive Technology degree program must complete 46 credit hours, which includes seven credit hours for a thesis project. Students complete the program in five consecutive semesters. Students in the production specialization must choose one of the other three specializations during the admission process and take the first semester in that chosen specialization.

## Requirements for the master's degree

### Core Courses

- HGME 6100 - Special Topics: Social Sciences
- HGME 6294 - Team Game Production III
- HGME 6592 - Team Game Production I
- HGME 6593 - Team Game Production II
- HGME 6595 - Team Game Production IV

Total: 18 Credit Hours

### Specialization

#### Art Creation

- HGME 6331 - Art Creation I (major)
- HGME 6332 - Art Creation II (major)
- HGME 6233 - Art Creation III (major)
- HGME 6234 - Art Creation IV (major)
- HGME 6141 - 2D Art for Games (minor)
- HGME 6142 - 3D Character Art I (minor)
- HGME 6143 - 2D Art for Games II (minor)
- HGME 6144 - 3D Character Art II (minor)
- HGME 6246 - Directed Focus Study I Art Creation
- HGME 6248 - Directed Focus Study II Art Creation
- HGME 6175 - Master's Thesis I
- HGME 6276 - Master's Thesis II
- HGME 6377 - Master's Thesis III
- HGME 6178 - Graduate Exhibition
- HGME 6106 - Professional Development
- HGME 6230 - Special Topics Art Creation

#### Level Design

- HGME 6351 - Level Design I (major)
- HGME 6352 - Level Design II (major)
- HGME 6253 - Level Design III (major)
- HGME 6254 - Level Design IV (major)
- HGME 6161 - Scripting for Level Design I (minor)
- HGME 6162 - Art for Level Design I (minor)
- HGME 6163 - Art and Scripting for Level Design II (minor)
- HGME 6164 - Specialized Level Design (minor)
- HGME 6266 - Directed Focus Study I Level Design
- HGME 6268 - Directed Focus Study II Level Design
- HGME 6175 - Master's Thesis I
- HGME 6276 - Master's Thesis II
- HGME 6377 - Master's Thesis III
- HGME 6178 - Graduate Exhibition
- HGME 6106 - Professional Development
- HGME 6250 - Special Topics Level Design

## Production

- HGME 6311 - Software Development for Games I (major)  
or
- HGME 6331 - Art Creation I (major)  
or
- HGME 6351 - Level Design I (major)
  
- HGME 6381 - Production Management I (major)
- HGME 6282 - Production Management II (major)
  
- HGME 6121 - Math and Physics I (minor)
- HGME 6122 - Programming for Commercial Game Engines I (minor)  
or
- HGME 6141 - 2D Art for Games (minor)
- HGME 6142 - 3D Character Art I (minor)  
or
- HGME 6161 - Scripting for Level Design I (minor)
- HGME 6162 - Art for Level Design I (minor)
  
- HGME 6284 - Production Communications (minor)
- HGME 6285 - Production Leadership (major)
- HGME 6286 - Directed Focus Study I Production
- HGME 6288 - Directed Focus Study II Production
- HGME 6175 - Master's Thesis I
- HGME 6276 - Master's Thesis II
- HGME 6377 - Master's Thesis III
- HGME 6178 - Graduate Exhibition
- HGME 6106 - Professional Development
- HGME 6280 - Special Topics Production

## Software Development

- HGME 6311 - Software Development for Games I (major)
- HGME 6312 - Software Development for Games II (major)
- HGME 6213 - Software Development for Games III (major)
- HGME 6214 - Software Development for Games IV (major)
- HGME 6121 - Math and Physics I (minor)
- HGME 6122 - Programming for Commercial Game Engines I (minor)
- HGME 6123 - Math and Physics II (minor)
- HGME 6124 - Programming for Commercial Game Engines II (minor)
- HGME 6226 - Directed Focus Study I Software Development
- HGME 6228 - Directed Focus Study II Software Development
- HGME 6175 - Master's Thesis I
- HGME 6276 - Master's Thesis II
- HGME 6377 - Master's Thesis III
- HGME 6178 - Graduate Exhibition
- HGME 6106 - Professional Development
- HGME 6210 - Special Topics Software Development

Total: 28 Credit Hours

Total: 46 Credit Hours

## Semester Breakdown

### Semester 1

#### Art Creation

- HGME 6331 - Art Creation I (major)
- HGME 6141 - 2D Art for Games (minor)
- HGME 6142 - 3D Character Art I (minor)
- HGME 6592 - Team Game Production I

#### Level Design

- HGME 6351 - Level Design I (major)
- HGME 6161 - Scripting for Level Design I (minor)
- HGME 6162 - Art for Level Design I (minor)
- HGME 6592 - Team Game Production I

#### Production

- HGME 6311 - Software Development for Games I (major)  
or
- HGME 6331 - Art Creation I (major)  
or
- HGME 6351 - Level Design I (major)
  
- HGME 6121 - Math and Physics I (minor)  
or
- HGME 6122 - Programming for Commercial Game Engines I (minor)  
or
- HGME 6141 - 2D Art for Games (minor)
  
- HGME 6142 - 3D Character Art I (minor)  
or
- HGME 6161 - Scripting for Level Design I (minor)  
or
- HGME 6162 - Art for Level Design I (minor)
  
- HGME 6592 - Team Game Production I

#### Software Development

- HGME 6311 - Software Development for Games I (major)
- HGME 6121 - Math and Physics I (minor)
- HGME 6122 - Programming for Commercial Game Engines I (minor)
- HGME 6592 - Team Game Production I

Semester Total: 10 Credit Hours

## Semester 2

### Art Creation

- HGME 6332 - Art Creation II (major)
- HGME 6143 - 2D Art for Games II (minor)
- HGME 6144 - 3D Character Art II (minor)
- HGME 6593 - Team Game Production II

### Level Design

- HGME 6352 - Level Design II (major)
- HGME 6163 - Art and Scripting for Level Design II (minor)
- HGME 6164 - Specialized Level Design (minor)
- HGME 6593 - Team Game Production II

### Production

- HGME 6381 - Production Management I (major)
- HGME 6284 - Production Communications (minor)
- HGME 6593 - Team Game Production II

### Software Development

- HGME 6312 - Software Development for Games II (major)
- HGME 6123 - Math and Physics II (minor)
- HGME 6124 - Programming for Commercial Game Engines II (minor)
- HGME 6593 - Team Game Production II

Semester Total: 10 Credit Hours

## Semester 3

### Art Creation

- HGME 6246 - Directed Focus Study I Art Creation
- HGME 6175 - Master's Thesis I
- HGME 6106 - Professional Development
- HGME 6230 - Special Topics Art Creation
- HGME 6294 - Team Game Production III

### Level Design

- HGME 6266 - Directed Focus Study I Level Design
- HGME 6175 - Master's Thesis I
- HGME 6106 - Professional Development
- HGME 6250 - Special Topics Level Design
- HGME 6294 - Team Game Production III

### Production

- HGME 6286 - Directed Focus Study I Production
- HGME 6175 - Master's Thesis I
- HGME 6106 - Professional Development

- HGME 6280 - Special Topics Production
- HGME 6294 - Team Game Production III

### Software Development

- HGME 6226 - Directed Focus Study I Software Development
- HGME 6175 - Master's Thesis I
- HGME 6106 - Professional Development
- HGME 6210 - Special Topics Software Development
- HGME 6294 - Team Game Production III

Semester Total: 8 Credit Hours

### Semester 4

#### Art Creation

- HGME 6233 - Art Creation III (major)
- HGME 6276 - Master's Thesis II
- HGME 6595 - Team Game Production IV

#### Level Design

- HGME 6253 - Level Design III (major)
- HGME 6276 - Master's Thesis II
- HGME 6595 - Team Game Production IV

#### Production

- HGME 6282 - Production Management II (major)
- HGME 6276 - Master's Thesis II
- HGME 6595 - Team Game Production IV

#### Software Development

- HGME 6213 - Software Development for Games III (major)
- HGME 6276 - Master's Thesis II
- HGME 6595 - Team Game Production IV

Semester Total: 9 Credit Hours

### Semester 5

#### Art Creation

- HGME 6234 - Art Creation IV (major)
- HGME 6248 - Directed Focus Study II Art Creation
- HGME 6377 - Master's Thesis III
- HGME 6178 - Graduate Exhibition
- HGME 6100 - Special Topics: Social Sciences

#### Level Design

- HGME 6254 - Level Design IV (major)

- HGME 6268 - Directed Focus Study II Level Design
- HGME 6377 - Master's Thesis III
- HGME 6178 - Graduate Exhibition
- HGME 6100 - Special Topics: Social Sciences

### Production

- HGME 6288 - Directed Focus Study II Production
- HGME 6285 - Production Leadership (major)
- HGME 6377 - Master's Thesis III
- HGME 6178 - Graduate Exhibition
- HGME 6100 - Special Topics: Social Sciences

### Software Development

- HGME 6214 - Software Development for Games IV (major)
- HGME 6228 - Directed Focus Study II Software Development
- HGME 6377 - Master's Thesis III
- HGME 6178 - Graduate Exhibition
- HGME 6100 - Special Topics: Social Sciences

Semester Total: 9 Credit Hours

Total: 46 Credit Hours

## Digital Game Development Certificate

Students in the professional certificate program must complete 39 credit hours in five consecutive semesters and will not be considered full-time in semesters 4 and 5.

### Requirements for the Certificate

#### Core Courses

- HGME 6100 - Special Topics: Social Sciences
- HGME 6592 - Team Game Production I
- HGME 6593 - Team Game Production II
- HGME 6294 - Team Game Production III
- HGME 6595 - Team Game Production IV

Total: 18 Credit Hours

### Specializations

#### Art Creation

- HGME 6331 - Art Creation I (major)
- HGME 6332 - Art Creation II (major)
- HGME 6233 - Art Creation III (major)
- HGME 6234 - Art Creation IV (major)
- HGME 6141 - 2D Art for Games (minor)
- HGME 6142 - 3D Character Art I (minor)

- HGME 6143 - 2D Art for Games II (minor)
- HGME 6144 - 3D Character Art II (minor)
- HGME 6246 - Directed Focus Study I Art Creation
- HGME 6248 - Directed Focus Study II Art Creation
- HGME 6106 - Professional Development
- HGME 6230 - Special Topics Art Creation

## Level Design

- HGME 6351 - Level Design I (major)
- HGME 6352 - Level Design II (major)
- HGME 6253 - Level Design III (major)
- HGME 6254 - Level Design IV (major)
- HGME 6161 - Scripting for Level Design I (minor)
- HGME 6162 - Art for Level Design I (minor)
- HGME 6163 - Art and Scripting for Level Design II (minor)
- HGME 6164 - Specialized Level Design (minor)
- HGME 6266 - Directed Focus Study I Level Design
- HGME 6268 - Directed Focus Study II Level Design
- HGME 6106 - Professional Development
- HGME 6250 - Special Topics Level Design

## Software Development

- HGME 6311 - Software Development for Games I (major)
- HGME 6312 - Software Development for Games II (major)
- HGME 6213 - Software Development for Games III (major)
- HGME 6214 - Software Development for Games IV (major)
- HGME 6121 - Math and Physics I (minor)
- HGME 6122 - Programming for Commercial Game Engines I (minor)
- HGME 6123 - Math and Physics II (minor)
- HGME 6124 - Programming for Commercial Game Engines II (minor)
- HGME 6226 - Directed Focus Study I Software Development
- HGME 6228 - Directed Focus Study II Software Development
- HGME 6106 - Professional Development
- HGME 6210 - Special Topics Software Development

Total: 21 Credit Hours

Total: 39 Credit Hours

## Professional Certificate

### Semester 1

#### Art Creation

- HGME 6331 - Art Creation I (major)
- HGME 6141 - 2D Art for Games (minor)
- HGME 6142 - 3D Character Art I (minor)
- HGME 6592 - Team Game Production I

## Level Design

- HGME 6351 - Level Design I (major)
- HGME 6161 - Scripting for Level Design I (minor)
- HGME 6162 - Art for Level Design I (minor)
- HGME 6592 - Team Game Production I

## Software Development

- HGME 6311 - Software Development for Games I (major)
- HGME 6121 - Math and Physics I (minor)
- HGME 6122 - Programming for Commercial Game Engines I (minor)
- HGME 6592 - Team Game Production I

Semester Total: 10 Credit Hours

## Semester 2

### Art Creation

- HGME 6332 - Art Creation II (major)
- HGME 6143 - 2D Art for Games II (minor)
- HGME 6144 - 3D Character Art II (minor)
- HGME 6593 - Team Game Production II

### Level Design

- HGME 6352 - Level Design II (major)
- HGME 6163 - Art and Scripting for Level Design II (minor)
- HGME 6164 - Specialized Level Design (minor)
- HGME 6593 - Team Game Production II

### Software Development

- HGME 6312 - Software Development for Games II (major)
- HGME 6123 - Math and Physics II (minor)
- HGME 6124 - Programming for Commercial Game Engines II (minor)
- HGME 6593 - Team Game Production II

Semester Total: 10 Credit Hours

## Semester 3

### Art Creation

- HGME 6246 - Directed Focus Study I Art Creation
- HGME 6106 - Professional Development
- HGME 6230 - Special Topics Art Creation
- HGME 6294 - Team Game Production III

### Level Design

- HGME 6266 - Directed Focus Study I Level Design
- HGME 6106 - Professional Development

- HGME 6250 - Special Topics Level Design
- HGME 6294 - Team Game Production III

### Software Development

- HGME 6226 - Directed Focus Study I Software Development
- HGME 6106 - Professional Development
- HGME 6210 - Special Topics Software Development
- HGME 6294 - Team Game Production III

Semester Total: 7 Credit Hours

### Semester 4

#### Art Creation

- HGME 6233 - Art Creation III (major)
- HGME 6595 - Team Game Production IV

#### Level Design

- HGME 6253 - Level Design III (major)
- HGME 6595 - Team Game Production IV

#### Software Development

- HGME 6213 - Software Development for Games III (major)
- HGME 6595 - Team Game Production IV

Semester Total: 7 Credit Hours

### Semester 5

#### Art Creation

- HGME 6234 - Art Creation IV (major)
- HGME 6248 - Directed Focus Study II Art Creation
- HGME 6100 - Special Topics: Social Sciences

#### Level Design

- HGME 6254 - Level Design IV (major)
- HGME 6268 - Directed Focus Study II Level Design
- HGME 6100 - Special Topics: Social Sciences

#### Software Development

- HGME 6214 - Software Development for Games IV (major)
- HGME 6228 - Directed Focus Study II Software Development
- HGME 6100 - Special Topics: Social Sciences

Semester Total: 5 Credit Hours

Total: 39 Credit Hours

## **Computer Science/Guildhall, B.S./M.I.T.**

The SMU Guildhall offers a collaborative program with the Lyle School of Engineering. Through this collaborative program, students enrolled in an undergraduate degree program in the Lyle Computer Science and Engineering Department can apply to take the first term of the discipline-specific specialization program at SMU Guildhall during their last term of undergraduate work at SMU. Students must meet with their undergraduate adviser for their specific program requirements. Upon the successful completion of their first term at SMU Guildhall, along with the successful completion of all other undergraduate requirements to receive the B.S. in computer science, these students may apply for admission to the Master of Interactive Technology program at SMU Guildhall. If admitted, students may apply the courses completed during their senior year toward the Master of Interactive Technology. Undergraduate students in the collaborative program take the following 5000-level courses during their last term of undergraduate coursework and first term of the SMU Guildhall program.

**Note:** At the time of publication, this curriculum was under review. Please consult your undergraduate adviser and the catalog addendum for any updates.

### **Major Requirements**

#### **Software Development Specialization**

- HGME 5121 - Math and Physics I
- HGME 5122 - Programming for Commercial Game Engines I
- HGME 5311 - Software Development for Games I
- HGME 5592 - Team Game Production I

## **Fine Arts/Guildhall, B.F.A./M.I.T.**

The SMU Guildhall offers a collaborative program with the Meadows School of the Arts. Through this collaborative program, students enrolled in an undergraduate degree program in the Meadows Art Division can apply to take the first term of the discipline-specific specialization program at SMU Guildhall during their last term of undergraduate work at SMU. Students must meet with their undergraduate adviser for their specific program requirements. Upon the successful completion of their first term at SMU Guildhall, along with the successful completion of all other undergraduate requirements to receive the Bachelor of Fine Arts, these students may apply for admission to the Master of Interactive Technology program at SMU Guildhall. If admitted, students may apply the courses completed during their senior year toward the Master of Interactive Technology. Undergraduate students in the collaborative program take the following 5000-level courses during their last term of undergraduate coursework and first term of the SMU Guildhall program.

**Note:** At the time of publication, this curriculum was under review. Please consult your undergraduate adviser and the catalog addendum for any updates.

### **Major Requirements**

#### **Art Creation Specialization**

- HGME 5141 - 2D Art for Games
- HGME 5142 - 3D Character Art I
- HGME 5331 - Art Creation I
- HGME 5592 - Team Game Production I

#### **Level Design Specialization**

- HGME 5161 - Scripting for Level Design I
- HGME 5162 - Art for Level Design I
- HGME 5351 - Level Design I
- HGME 5592 - Team Game Production I

# SMU Guildhall: Course Descriptions

## Digital Game Design Courses

HGME courses at the 5000 level are for the B.S. in computer science/Guildhall M.I.T. and the B.F.A./Guildhall M.I.T. programs, and HGME courses at the 6000 level are for the M.I.T. and the professional Certificate in Digital Game Development programs.

### **HGME 5101 - Introduction to Master's Writing**

*Credits: 0*

Introduces students to academic and professional communication, including a variety of writing and speaking tasks, and the observation and practice of rhetorical strategies, discourse conventions, and ethical standards associated with workplace culture. This supplemental course is offered based on faculty availability and enrollment.

### **HGME 5121 - Math and Physics I**

*Credits: 1*

Provides a foundation in the mathematical concepts and techniques used in real-time 2D and 3D game programming, including applications in game physics, rendering, and gameplay. Covers position and displacement vectors, affine matrix transformations, numerical integration, geometric primitives and queries, collision detection and response, interpolation and easing, and local and world spaces.

### **HGME 5122 - Programming for Commercial Game Engines I**

*Credits: 1*

Provides an introduction to programming in a commercial game engine.

### **HGME 5141 - 2D Art for Games**

*Credits: 1*

Provides a foundation in digital art, developing the core technical skills for digital drawing, painting, and image manipulation, encompassing composition, perspective, proportions, concept art and 2D environments, characters, and animation in a game engine.

### **HGME 5142 - 3D Character Art I**

*Credits: 1*

Provides a foundation in digital art, developing the core technical knowledge for creating 3D characters, biped and quadruped character rigs, and 3D game animations. Emphasis is placed on analysis of form and critical perspective along with organic systems such as foliage, fur, and animation.

### **HGME 5161 - Scripting for Level Design I**

*Credits: 1*

Provides a foundation in game programming for level design, with an emphasis on structuring logic, using scripting languages to design, produce, and test scripts, and the technical aspects of integrating assets into a digital game engine.

### **HGME 5162 - Art for Level Design I**

*Credits: 1*

Provides an understanding of the art pipeline for asset production in games, with an emphasis on using 2D and 3D digital art creation tools to produce assets and integrate them into a digital game engine.

### **HGME 5311 - Software Development for Games I**

*Credits: 3*

Provides a foundation in game programming for 2D game development, including gameplay programming, game

engine architecture, data structures, input, and working with graphics and sound assets. Students develop a 2D C++ game engine within this course, along with several 2D games built using that engine.

### **HGME 5331 - Art Creation I**

*Credits: 3*

Provides a foundation in the tools, techniques, and production methods for creating 3D game art.

### **HGME 5351 - Level Design I**

*Credits: 3*

Students learn foundational aspects of level design through analysis, game deconstruction, and experimentation, while designing, prototyping, constructing, and testing levels using digital game creation tools.

### **HGME 5592 - Team Game Production I**

*Credits: 5*

Introduces primary theories of game design and explores the foundational frameworks and language of game development in order to create a game using digital tools as part of small project teams. Students learn through analysis, game deconstruction, and experimentation, while designing, prototyping, constructing, and testing their game projects.

### **HGME 6100 - Special Topics: Social Sciences**

*Credits: 1*

Introduces the study of ethics in its application to game developers. Students seek to integrate the business, technical, and artistic aspects of game development with the broader ethical implications for life and society. Questions of quality of life, virtue, vice, and moral behavior are addressed in the context of practical scenarios and case studies taken from the game industry.

### **HGME 6101 - Introduction to Master's Writing**

*Credits: 1*

Introduces students to academic and professional communication, including a variety of writing and speaking tasks, and the observation and practice of rhetorical strategies, discourse conventions, and ethical standards associated with workplace culture. This supplemental course is offered based on faculty availability and enrollment.

### **HGME 6106 - Professional Development**

*Credits: 1*

Students work under the direction of faculty to highlight individual areas of specialization and produce content for individual professional portfolios. Prerequisite: HGME 6593.

### **HGME 6121 - Math and Physics I**

*Credits: 1*

Provides a foundation in the mathematical concepts and techniques used in real-time 2D and 3D game programming, including applications in game physics, rendering, and gameplay. Covers position and displacement vectors, affine matrix transformations, numerical integration, geometric primitives and queries, collision detection and response, interpolation and easing, and local and world spaces.

### **HGME 6122 - Programming for Commercial Game Engines I**

*Credits: 1*

Provides an introduction to programming in a commercial game engine.

## **HGME 6123 - Math and Physics II**

*Credits: 1*

This course provides additional depth on the theory and practice of mathematics and physics for 3D games and graphics, including mathematical and physics-based modeling using ordinary differential equations and numerical methods, dynamics, collision detection and response in 3D, and introduction into rigid body dynamics. Prerequisite: HGME 6121/HGME 5121.

## **HGME 6124 - Programming for Commercial Game Engines II**

*Credits: 1*

Provides further in-depth techniques for programming in a commercial game engine. Prerequisite: HGME 6122/HGME 5122.

## **HGME 6141 - 2D Art for Games**

*Credits: 1*

Provides a foundation in digital art, developing the core technical skills for digital drawing, painting, and image manipulation, encompassing composition, perspective, proportions, concept art and 2D environments, characters, and animation in a game engine.

## **HGME 6142 - 3D Character Art I**

*Credits: 1*

Provides a foundation in digital art, developing the core technical knowledge for creating 3D characters, biped and quadruped character rigs, and 3D game animations. Emphasis is placed on analysis of form and critical perspective along with organic systems such as foliage, fur, and animation.

## **HGME 6143 - 2D Art for Games II**

*Credits: 1*

An advanced level course for art students, providing the core technical skills for concept art, texturing, and materials for 3D game assets rendering in game engines. Prerequisite: HGME 6141.

## **HGME 6144 - 3D Character Art II**

*Credits: 1*

An advanced level 3D character course providing further exploration of the tools, techniques, and production methods for mastering organic modeling, sculpting, skinning, rigging, and animating for game engines. Prerequisite: HGME 6142.

## **HGME 6161 - Scripting for Level Design I**

*Credits: 1*

Provides a foundation in game programming for level design, with an emphasis on structuring logic, using scripting languages to design, produce, and test scripts, and the technical aspects of integrating assets into a digital game engine.

## **HGME 6162 - Art for Level Design I**

*Credits: 1*

Provides an understanding of the art pipeline for asset production in games, with an emphasis on using 2D and 3D digital art creation tools to produce assets and integrate them into a digital game engine.

## **HGME 6163 - Art and Scripting for Level Design II**

*Credits: 1*

Students produce 2D and 3D digital art, as well as design, integrate, and test scripts in a commercial game engine. Prerequisites: HGME 6161 and HGME 6162.

### **HGME 6164 - Specialized Level Design**

*Credits: 1*

Provides advanced instruction in deconstructing, designing, testing, and constructing levels for specialized game genres, modes, and/or hardware. Prerequisite: HGME 6351.

### **HGME 6170 - Master's Thesis I Post Certificate**

*Credits: 1*

Students choose their thesis topics and prepare to submit their thesis proposals under the oversight of the faculty advisor. A student must receive a grade of B- or better to enroll in HGME 6171 . Students may retake HGME 6170.

### **HGME 6175 - Master's Thesis I**

*Credits: 1*

Students choose their thesis topics and prepare to submit their thesis proposals under the oversight of the faculty advisor. Students must receive a grade of B- or better to enroll in HGME 6176 . Students must follow the appropriate processes to retake HGME 6170.

### **HGME 6178 - Graduate Exhibition**

*Credits: 1*

In partial fulfillment of the degree requirements, each student must successfully complete a public defense administered by the student's faculty adviser. Graded credit/no credit. Students may retake HGME 6179 to receive credit. Prerequisite or corequisite: HGME 6177 .

### **HGME 6179 - Graduate Exhibition Post Certificate**

*Credits: 1*

In partial fulfillment of the degree requirements, each student must successfully complete a public defense administered by the student's faculty adviser. Graded credit/no credit. Students may retake HGME 6179 to receive credit. Prerequisite: HGME 6377 or 6372; or corequisite HGME 6372.

### **HGME 6210 - Special Topics Software Development**

*Credits: 2*

This seminar series exposes students in the software development specialization to advanced topics important for their professional development, with a focus on innovation in software development. Prerequisite: HGME 6312.

### **HGME 6213 - Software Development for Games III**

*Credits: 2*

Exposes students in the software development specialization to advanced topics in game programming, including technical issues such as hardware, performance, architecture and pipeline design; streaming and memory management; advanced debugging techniques; compilers; concurrency; and networking. Prerequisite: HGME 6226.

### **HGME 6214 - Software Development for Games IV**

*Credits: 2*

Exposes students in the software specialization to further advanced topics important for their professional development. Topics include multi-platform portability, globalization and localization, advanced UI systems, and other advanced techniques in graphics and AI. Prerequisite: HGME 6213.

### **HGME 6226 - Directed Focus Study I Software Development**

*Credits: 2*

Provides a structured environment to develop the required Directed Focus Study. Students will be required to complete an instructor-approved DFS. Prerequisite: HGME 6312.

### **HGME 6228 - Directed Focus Study II Software Development**

*Credits: 2*

Provides mentoring and quality control oversight in the construction of a mastery-level individual project demonstrating a software development topic. Prerequisite: HGME 6226.

### **HGME 6230 - Special Topics Art Creation**

*Credits: 2*

This seminar series exposes students in the art creation specialization to complex topics important for their professional development, focusing on innovation in game art creation. Prerequisite: HGME 6332.

### **HGME 6233 - Art Creation III**

*Credits: 2*

Provides advanced techniques using strategic asset planning and modular construction methodology. Prerequisites: HGME 6332 and HGME 6246.

### **HGME 6234 - Art Creation IV**

*Credits: 2*

Provides advanced workflows in the tools, techniques, and production methods for creating 3D game art, and displaying mastery of current technology. Prerequisite: HGME 6233.

### **HGME 6246 - Directed Focus Study I Art Creation**

*Credits: 2*

This seminar series exposes students in the art creation specialization to advanced topics critical to their skill advancement, while providing guided focus on specialized abilities in their field. Prerequisite: HGME 6332.

### **HGME 6248 - Directed Focus Study II Art Creation**

*Credits: 2*

Provides mentoring and quality control oversight in the construction of a mastery-level individual project demonstrating an art creation topic. Prerequisite: HGME 6246.

### **HGME 6250 - Special Topics Level Design**

*Credits: 2*

Exposes students in the level design specialization to advanced topics important for their professional development. Prerequisite: HGME 6352.

### **HGME 6253 - Level Design III**

*Credits: 2*

Students continue to learn more advanced level design, using analysis, deconstruction, and experimentation to evaluate best practices and techniques. To demonstrate understanding, students design, prototype, and construct complex game levels using a digital game creation tool. Prerequisite: HGME 6266.

### **HGME 6254 - Level Design IV**

*Credits: 2*

Exposes students in the level design specialization to advanced topics important for their professional development. Prerequisite: HGME 6253.

### **HGME 6266 - Directed Focus Study I Level Design**

*Credits: 2*

Students work under the direction of the faculty to develop an individual area of specialization and produce content for their professional portfolio. Prerequisite: HGME 6352.

### **HGME 6268 - Directed Focus Study II Level Design**

*Credits: 2*

Provides mentoring and quality control oversight in the construction of a mastery-level individual project demonstrating level design skills. Prerequisite: HGME 6266.

### **HGME 6271 - Master's Thesis II Post Certificate**

*Credits: 2*

Students must successfully submit their proposals to the adviser and make substantial progress on thesis artifact(s). Graded credit/no credit. Prerequisite: HGME 6170 or HGME 6175. Students may retake HGME 6271 to receive credit.

### **HGME 6276 - Master's Thesis II**

*Credits: 2*

Students must successfully submit their proposals to the adviser and make substantial progress on thesis artifact(s). Graded credit/no credit. Students may retake HGME 6271 to receive credit. Prerequisite: HGME 6175.

### **HGME 6280 - Special Topics Production**

*Credits: 2*

This seminar series exposes students in the production specialization to advanced topics important for their professional development, with a focus on innovation in production. Prerequisite: HGME 6381.

### **HGME 6282 - Production Management II**

*Credits: 2*

Provides students further foundation and practice in advanced game production, including advanced game development methodologies, testing and quality assurance, techniques and tools for managing large creative teams, and trends and issues in game development. Students participate in lecture/discussion, and individual/small group assignments to learn professional practices. Prerequisite: HGME 6381.

### **HGME 6284 - Production Communications**

*Credits: 2*

Builds communication skills for leading creative teams on digital game development projects, including written communications and presentation skills. Provides essential leadership skills for organizing, enabling, motivating, and managing creative people throughout the game production process. Students participate in lecture/discussion, and individual/small group assignments to learn professional practices. Prerequisite: HGME 6592.

### **HGME 6285 - Production Leadership**

*Credits: 2*

Provides students further leadership practice in advanced game production, tools for managing large creative teams, and game publishing. Students participate in lecture/discussion and individual/small group assignments to learn professional practices. Prerequisite: HGME 6284.

### **HGME 6286 - Directed Focus Study I Production**

*Credits: 2*

Integrates organizational theories with the application of digital gaming technology development. Prerequisite: HGME 6381.

### **HGME 6288 - Directed Focus Study II Production**

*Credits: 2*

Provides mentoring for student demonstration of the application of digital gaming technology development. Prerequisite: HGME 6286.

### **HGME 6294 - Team Game Production III**

*Credits: 2*

Implements the theories of game design and carries out the framework of game development, with an emphasis on pre-production, in order to create a game using digital tools as part of large project teams. Students learn through analysis, game deconstruction, and experimentation, while designing, prototyping, constructing, and testing their capstone game projects. Prerequisite: HGME 6593.

### **HGME 6311 - Software Development for Games I**

*Credits: 3*

This course provides a foundation in game programming for 2D game development, including gameplay programming, game engine architecture, data structures, input, and working with graphics and sound assets. Students develop a 2D C++ game engine within this course, along with several 2D games built using that engine.

### **HGME 6312 - Software Development for Games II**

*Credits: 3*

Provides additional depth in intermediate-level game programming topics, including 3D gameplay and graphics. Students develop a 3D-capable C++ game engine, along with one or more game(s) built using that engine. Prerequisite: HGME 6311/HGME 5311.

### **HGME 6331 - Art Creation I**

*Credits: 3*

Provides a foundation in the tools, techniques, and production methods for creating 3D game art.

### **HGME 6332 - Art Creation II**

*Credits: 3*

Provides depth on art creation for 3D games, including the development of intermediate-level skills for creating 3D art, modeling, and texturing for games. This seminar series provides additional depth in the tools, techniques, and production methods for current development cycles in game engines. Prerequisite: HGME 6331.

### **HGME 6351 - Level Design I**

*Credits: 3*

Students learn foundational aspects of level design through analysis, game deconstruction, and experimentation, while designing, prototyping, constructing, and testing levels using digital game creation tools.

### **HGME 6352 - Level Design II**

*Credits: 3*

Students build upon the foundation learned in Level Design I, using analysis, deconstruction, and experimentation to identify level design techniques. To demonstrate understanding, students design, prototype, and construct more complex game levels using a digital game creation tool. Prerequisite: HGME 6351.

### **HGME 6372 - Master's Thesis III Post Certificate**

*Credits: 3*

Students must successfully complete the thesis artifact(s) and submit approved documentation. Graded credit/no credit. Prerequisite: HGME 6271 or HGME 6276. Students may retake HGME 6372 to receive credit.

### **HGME 6377 - Master's Thesis III**

*Credits: 3*

Students must successfully complete the thesis artifact(s) and submit approved documentation. Graded credit/no credit. Prerequisite: HGME 6276. Students may retake HGME 6372 to receive credit.

## **HGME 6381 - Production Management I**

*Credits: 3*

Provides a foundation in the theory and practice of project management within the context of game development, including methodologies for planning, organizing, scheduling, and documenting creative, interactive software development projects. Students learn the business of game development and develop skills to define resources, organize teams, and manage change for game development projects. Students participate in lecture/discussion, and individual/small group assignments to learn professional processes. Prerequisite: HGME 6592.

## **HGME 6592 - Team Game Production I**

*Credits: 5*

Introduces primary theories of game design and explores the foundational frameworks and language of game development in order to create a game using digital tools as part of small project teams. Students learn through analysis, game deconstruction, and experimentation, while designing, prototyping, constructing, and testing their game projects.

## **HGME 6593 - Team Game Production II**

*Credits: 5*

Applies game design theories and introduces more complex frameworks of game development in order to create a game using digital tools as part of large project teams. Students learn through analysis, game deconstruction, and experimentation, while designing, prototyping, constructing, and testing their game projects. Prerequisite: HGME 6592.

## **HGME 6595 - Team Game Production IV**

*Credits: 5*

Extends implementation of the theories of game design and carries out the frameworks of game development, with an emphasis on leadership, in order to create a game using digital tools as part of mid-sized project teams. Students learn through analysis, game deconstruction, and experimentation, while designing, prototyping, constructing, testing, and publishing their capstone game projects. Prerequisite: HGME 6294.

# **Hart Digital Game Development Courses**

Available for students who entered the SMU Guildhall program prior to Fall 2016.

## **HGAM 4310 - Special Topics**

*Credits: 3*

## **HGAM 5200 - Game Design I**

*Credits: 2*

Examines the fundamentals of video game design and teamwork, and provides a foundational framework and language for game design discussion. Heavily participation-based course where students explore video game design by analyzing and deconstructing existing games, exploring alternate sources of game design both analog and digital, discussing current trends in video game design, and participating in team-based class workshops. Prerequisite: Permission to enroll in Guildhall courses.

## **HGAM 5201 - Game Studies I**

*Credits: 2*

Introduces the theory and practice of game development, with emphasis on digital games. Includes analysis and evaluative methods.

## **HGAM 5202 - Game Studies II**

*Credits: 2*

Provides students in all areas of specialization additional depth on the theory and practice of game analysis and design,

community development and social dynamics in games, game balance, games as systems and cultural rhetoric, and academic research in games. Students participate in lecture/discussion, case study, and individual/small group assignments.

### **HGAM 5221 - Mathematical Methods For Game Physics I**

*Credits: 2*

Introduces the fundamental concepts of linear algebra with application to real-time 3D games and rendering. Covers vectors, vector spaces, matrix math, linear transformations, geometric primitives and queries, and easing. Prerequisite: Admission to SMU Guildhall/Permission to enroll in courses at SMU Guildhall.

### **HGAM 5222 - Mathematical Methods For Game Physics II**

*Credits: 2*

Introduces the fundamental concepts of linear algebra with application to real-time 3D games and rendering. Covers vectors, vector spaces, matrix math, linear transformations, geometric primitives and queries, and easing. Prerequisite: Admission to SMU Guildhall/Permission to enroll in courses at SMU Guildhall.

### **HGAM 5241 - Drawing I**

*Credits: 2*

Focuses on the development of fundamental drawing and texturing skills, emphasizing conceptual development through the final multi-layer material creation. The primary goal is to develop technical ability for digital drawing, painting, and image manipulation that encompasses composition, perspective, proportions, and 2-D animation.

### **HGAM 5242 - Drawing II**

*Credits: 2*

This intermediate-level drawing course is designed to increase the student's command of drawing and texture creation technique. Emphasis is placed on analysis of form and realistic representation of material attributes. Prerequisite: HGAM 5241.

### **HGAM 5261 - Art and Scripting I**

*Credits: 2*

Students learn various supporting tools and skills useful for Level Designers. Topics may include 2D and 3D digital art, programming/scripting, and additional topics designed to supplement level design in other courses. Prerequisite: Permission to enroll in courses at SMU Guildhall.

### **HGAM 5262 - Art and Scripting II**

*Credits: 2*

Students learn various supporting tools and skills useful for Level Designers. Topics may include 2D and 3D digital art, programming/scripting, and additional topics designed to supplement level design in other courses. Prerequisite: HGAM 5261.

### **HGAM 5292 - Team Game Production I**

*Credits: 2*

Provides a foundation in the game development process, including planning, pipelines, game technology, and user research testing. Students apply game design and development skills to create a 2D game demo as part of small project teams. Prerequisite: HGAM 5200.

### **HGAM 5311 - Software Development I**

*Credits: 3*

Provides a foundation in game programming for basic 2D game development, including game programming, game engine architecture, data structures, input, working with graphics and sound assets, and basic AI. Students work to

develop a basic 2D game engine within this course. Prerequisite: Admission to SMU Guildhall/Permission to enroll in courses at SMU Guildhall.

### **HGAM 5312 - Software Development II**

*Credits: 3*

Introduces concepts related to 3D game development, including 3D game engine design, data structures for 3D game development, and 3D graphics. Prerequisite: HGAM 6311 or HGAM 5311.

### **HGAM 5331 - Art Creation I**

*Credits: 3*

Provides a foundation in the tools, techniques, and production methods for creating 3-D game art, including modeling, texturing, and basic game engine integration. Prerequisite: Permission to enroll in Guildhall courses.

### **HGAM 5332 - Art Creation II**

*Credits: 3*

Applies the 3-D art production principles learned in HGAM 5331 to the process of creating intermediate-level 3-D game art. Emphasis is placed on modeling, texturing, unwrapping, and preparing models for games. Prerequisite: HGAM 5331.

### **HGAM 5351 - Level Design I**

*Credits: 3*

Students learn foundational aspects of level design, through discussion, game deconstruction, and practical application, using a digital game creation tool. Prerequisite: Permission to enroll in courses at SMU Guildhall.

### **HGAM 5352 - Level Design II**

*Credits: 3*

Students build upon the foundation provided in Level Design 1, focusing on more advanced design techniques and applying their skills to more complex projects using a digital game creation tool. Prerequisite: HGAM 5351.

### **HGAM 6005 - Internship**

*Credits: 0*

Full-time course which allows student to integrate classroom study with on-the-job experience either in an external or internal environment.

### **HGAM 6178 - Master's Thesis I Post Certificate**

*Credits: 1*

Students, admitted with advanced standing into the master's degree program, choose their thesis topics, and prepare and submit their thesis proposals, under the oversight of the faculty adviser. A student must receive a grade of B- or better to enroll in HGAM 6179. Prerequisite: Admittance with advanced standing into the master's degree program.

### **HGAM 6179 - Master's Thesis II Post Certificate**

*Credits: 1*

Students admitted with advanced standing into the master's degree program must successfully prepare and submit their thesis proposals to the faculty advisor as well as complete any IRB requirements. Graded credit/no credit. Prerequisite: HGAM 6178.

### **HGAM 6278 - Master's Thesis III Post Certificate**

*Credits: 2*

Students admitted with advanced standing into the master's degree program continue research on their thesis topic under the oversight of the faculty advisor. Graded credit/no credit. Prerequisite: HGAM 6179.

### **HGAM 6279 - Master's Thesis IV Post Certificate**

*Credits: 2*

A student admitted with advanced standing into the master's degree program must successfully defend a thesis to the defense committee and submit an approved artifact and paper. Graded credit/no credit. Credit is awarded after the successful defense and the approved artifact and document are received. Prerequisite: HGAM 6278.

## **Hart Interactive Network Technologies Courses**

### **HNET 5390 - Special Topics in Interactive Network Technologies**

*Credits: 3*

Intensive study of a topic in interactive network technologies. Topics will vary from term to term.

# SMU Guildhall: Tuition, Fees and Financial Aid

## Tuition, Fees and Living Expenses

The *Financial Information Bulletin*, is issued each academic year. It provides the general authority and reference for SMU financial regulations and obligations, as well as detailed information concerning tuition, fees and living expenses.

Continuing students registering must ensure that payment for the full amount of charges is posted to their account by the payment due date showing on their bill. The due dates are also published on the Bursar website.

Billing notifications are sent to the student's SMU email address and to the designated authorized payer(s) email address when a bill is generated. The billing notification will provide instructions on how to view the bill online through SMU<sup>pay</sup>. If notification is not received two weeks prior to the due date, the student and/or designated authorized payer(s) should contact the Office of the University Bursar.

Payments made in person or mailed must be received by the Office of the University Bursar, located on the first floor of the Laura Lee Blanton Student Services Building, no later than 4 p.m. Central Time on the payment due date. Payments made online via electronic check or credit card must be posted no later than 11:59 p.m. Central Time on the payment due date. Students and/or those paying on behalf of students who pay online automatically receive an electronic confirmation of payment; students and/or designated authorized payer(s) paying through other methods can also verify receipt of payment online.

Students enrolling after the payment due date must pay at the time of enrollment. Students whose accounts are not cleared by the payment due date or at the time of enrollment are subject to a late payment fee of \$50 for balances between \$250 and \$999.99, and \$150 for balances between \$1,000 and \$5,000. Balances more than \$5,000 are charged 3 percent of the outstanding balance, not to exceed \$750. Also, after the monthly payment due date has passed, a 1.5 percent past due fee will be assessed on the unpaid student and/or miscellaneous account each month until the balance is paid. The enrollment of students whose accounts remain unpaid after the payment due date may be canceled at the discretion of the University. Students are individually responsible for their financial obligations to the University.

All refunds except federal Parent PLUS loans, prepayment accounts, the SMU Monthly TuitionPay Payment Plan and international wires will be made payable to the student. A credit card payment will only be refunded to the student if federal student loans have been applied to their account. International wires will be refunded by wire to the originating wire account less a \$35 wire-processing fee. The Parent PLUS loan borrower can request the refund to be processed to the student by submitting a Parent PLUS Release form, located on the Bursar website. If the refund is issued by check, the student may request, in writing, that the refund be sent to another party.

Any outstanding debts to the University will be deducted from the credit balance prior to issuing a refund. Any outstanding debts to the University that include Title IV funds must have an Authorization to Credit Account form and/or an Authorization to Credit Account Parent form on file in order to transfer funds to cover current award year debts. Students need to sign the ACA form and the federal parent PLUS loan borrower needs to sign the ACAP form.

Any outstanding debts to the University that do not include Title IV funds will be deducted from the credit balance prior to issuing a refund. All other debts should be paid directly by the student.

A student whose University account is overdue or who in any other manner has an unpaid financial obligation to the University will be denied the recording and certification services of the Office of the Registrar, including the issuance of a transcript or diploma, and may be denied readmission until all obligations are fulfilled. The Division of Enrollment Services may stop the registration, or may cancel the completed registration, of a student who has a delinquent account or debt, and may assess all attorney's fees and other reasonable collection costs (up to 50 percent) and charges necessary for the collection of any amount not paid when due. Matriculation in the University constitutes an agreement by the student to comply with all University rules, regulations and policies.

Applications for financial assistance should be submitted well in advance of registration in accordance with recommended filing dates set forth by the Division of Enrollment Services, Office of Financial Aid. Applications

received after the recommended deadline can expect a delay in application processing time due to the increased volume. This will ultimately delay disbursement of financial aid to the student account. Students and families are expected to clear all billed charges by the published billing due dates regardless of the status of their financial aid application. Any funds that disburse to the student account after the payment due date has passed, will be applied to any outstanding charges first. Remaining financial aid funds will be refunded to the student.

During the registration process, students will be prompted to read and agree to the Student Rights and Responsibilities, which provides information regarding financial rights and obligations, SMU's Honor Code, the Code of Conduct, and the student appeals and complaints process.

Students who elect to register for courses outside of their school of record will pay the tuition rate of their school of record.

## **Tuition Refunds for Withdrawal from the University**

No refunds of tuition or fees will be considered without an official withdrawal. Policies for official withdrawal, including medical and mandatory administrative withdrawal, are found under Withdrawal From the University in the Academic Records and General and Enrollment Standards section of this catalog. Reduction of tuition and fees is determined by the effective date of the withdrawal and is based on the schedule listed in the *Financial Information Bulletin* and the SMU Bursar website.

## **Financial aid implications of withdrawing from the University**

Federal regulations require schools to adjust financial aid when a student officially withdraws from the University before completing 60% of the term. Financial aid is reduced to a pro-rated amount based on the amount of time the student was enrolled in classes in that specific term, thus "earning" financial aid proportionate to the amount of time enrolled. The "unearned" portion of aid will be returned to the funding source. Students completing 60% or more of a term are considered to have earned 100% of their financial aid for that term. This federally mandated calculation is completely independent of university's refund policies for withdrawals and may require a reduction in financial aid even if there is no reduction in tuition charges. The end result could create a substantial student account balance after the withdrawal is processed. For this reason, students are strongly encouraged to contact their financial aid adviser, before initiating a withdrawal, to discuss the financial implications of withdrawing. For additional information on the University's tuition refund policies, see the SMU *Financial Information Bulletin* or the University Bursar's website. Information on the implications of withdrawing on your financial aid can be found on the Office of Financial Aid website.

Medical withdrawals and mandatory administrative withdrawals allow a prorated refund of tuition and fees and must be initiated through the academic adviser or academic Dean's office.

## **Payment Plan Options**

### **SMU Monthly Payment Plan**

SMU offers several payment plan options to assist students and families. Refer to the Bursar's website for detailed payment plan information: [www.smu.edu/paymentplans](http://www.smu.edu/paymentplans).

Annual payment plans are available in 12-month and 10-month formats. Term payment plans are available in 6-month and 5-month formats. The summer payment plan is three months. Payment plan options are not available for short terms including JanTerm, MayTerm, August Term and Winter Term.

## **Graduate and Professional Student Aid**

University grants, scholarships, fellowships and assistantships are awarded in the school or department in which the graduate student will enroll. Schools and departments that offer master's or Ph.D. degrees offer a significant number of tuition scholarships and teaching or research assistantships each year. For more information, students should contact the appropriate school or department.

Grants and loans for Texas residents, private and federal loans, and employment programs may be available by filing the Free Application for Federal Student Aid. The FAFSA may be completed online at [www.fafsa.gov](http://www.fafsa.gov). The SMU Title IV school code number is 003613.

More information is available online at [www.smu.edu/financialaid](http://www.smu.edu/financialaid).

# SMU Guildhall: Enrollment and Academic Records

The standards herein are applicable to all students at the University and constitute the basic authority and reference for matters pertaining to University academic regulations and records management. Enrollment in the University is a declaration of acceptance of all University rules and regulations. A complete University Policy Manual is available at [www.smu.edu/policy](http://www.smu.edu/policy). Additional information regarding rules and regulations of the University can be found in this catalog. Undergraduate students must follow the University-wide requirements that are in effect for the academic year of matriculation to SMU. The applicable requirements of majors and minors are those in effect during the academic year of matriculation to SMU or those of a subsequent academic year. Students may not follow a catalog for an academic year in effect prior to their matriculation term. Students who are not enrolled for three or more years will return to SMU under the current catalog.

## General Policies

### Confidentiality of Education Records

The Family Educational Rights and Privacy Act of 1974 is a federal law that grants students the right to inspect, obtain copies of, challenge, and, to a degree, control the release of information contained in their education records. The act and regulations are very lengthy, and for that reason, SMU has issued its own FERPA-based guidelines that are available at the University Registrar's Office FERPA website [www.smu.edu/FERPA](http://www.smu.edu/FERPA). Policy 1.10 of the *University Policy Manual* also discusses this law.

In general, no personally identifiable information from a student's education record will be disclosed to any third party without written consent from the student. Several exceptions exist, including these selected examples: 1) information defined by SMU as directory information may be released unless the student requests through my.SMU Student Homepage that it be withheld, 2) information authorized by the student through my.SMU Student Homepage may be released to those individuals designated by the student and 3) information may be released to a parent or guardian if the student is declared financially dependent upon the parent or guardian as set forth in the Internal Revenue Code. Additional information is available at [www.smu.edu/FERPA](http://www.smu.edu/FERPA).

### Student File Number

The University assigns each student an eight-digit SMU identification number, which is used to verify each student's identity and is provided without additional charges. The student should furnish the SMU ID number on all forms when requested, as this number is the primary means the University has to verify the identity for each student's academic records and transactions related to the records.

### Name Change

A student who has a change in name must provide to the University Registrar's Office his or her Social Security card or the form issued by the Social Security Administration. A valid passport may also be used to complete a name change. Enrollment or records services for the student under a name different from the last enrollment cannot be accomplished without one of the above documents. All transcripts and diplomas are issued only under a person's legal name as recorded by the University Registrar's Office.

### Preferred Name

Students who wish to use a name other than their legal name can add a preferred name to their file in addition to their primary/legal name, or update a preferred name already on file, using the self service functions in the my.SMU Student Homepage. The University will make efforts to use the preferred name in communications and in the course of university business. However, there are situations that due to business practices, legal requirements or system limitations the use of a primary/legal name will be used.

SMU has many offices that keep records with student names and many data systems used for specific applications. In addition to updating their preferred name in my.SMU, students may need to notify some offices regarding their use of a preferred name.

A preferred name is a first, middle and/or last name that may be chosen to be used instead of legal first, middle and last name. There is no documentation required to create or change a preferred name. Students are advised that if they choose to use a preferred name, they should use it consistently and resist changing it frequently. Students also are advised that the use of a preferred last name can lead to confusion with employers and organizations in attempting to match official educational records with applications and it is recommended that students provide both their preferred and legal names on applications.

Here is a partial list of standard name usage:

Display name – my.SMU Student Homepage	Preferred name, if provided
Instructor Class Roster	Preferred name, if provided
Instructor Grade Roster	Preferred name, if provided
Canvas	Preferred name, if provided
Global Directory of email addresses	Preferred name, if provided
SMU online directory	Preferred name, if provided
SMU ID Card	Primary (legal) name -- under review
Financial Aid related forms and documents	Primary (legal) name
Official Academic Transcript	Primary (legal) name
Diploma	Primary (legal) name or derivative
Degree Verifications	Primary (legal) name
Housing / Residence Life	Preferred first name, Primary last name
SEVIS Reporting (international students)	Primary (legal) name

## **Email and Mailing Addresses, Telephone, and Emergency Contact**

Each student must provide the University Registrar's Office with both a home and local (mailing) address, both a home and local telephone number and contact information of a designated emergency contact using the self-service functions in the my.SMU Student Homepage. Students enrolling at SMU authorize the University to notify their emergency contacts in the event of a situation affecting their health, safety, or physical or mental well-being, and to provide these contacts with information related to the situation.

Students who enroll in an arranged section course will be asked to provide the University Registrar's Office with an off-campus study address. This is the physical location the student is living while enrolled in this course.

When a student applies for graduation and becomes a candidate they can provide a diploma address (address to which they would like their diploma mailed) to the University Registrar's Office.

International students are required to provide a residence address (physical street address where they are currently living) as their mailing (local) address. International students will be prevented from enrolling if a U.S. address is not provided.

Students are expected to keep current all their addresses and telephone numbers, including emergency contact details, through my.SMU, the University's Web-based self-service system. Students may be prevented from enrolling if their information is insufficient or outdated. Changes to parent information should be reported by contacting [records@smu.edu](mailto:records@smu.edu), and the email should include the student's full name and SMU student ID number.

The University issues all students an email address. Students may have other email addresses, but the University-assigned email address is the official address for University electronic correspondence, including related communications with faculty members and academic units.

Official University correspondence may be sent to students' mailing addresses or SMU email addresses on file. It is the responsibility of students to keep all their addresses current and to regularly check communications sent to them since they are responsible for complying with requests, deadlines and other requirements sent to any of their mailing addresses on file or to their SMU email.

## Cell Phones

The University requests that students provide mobile/cell telephone numbers, as they are one means of communicating with students during an emergency. Mobile/cell telephone numbers may also be used by University officials conducting routine business. Students who do not have a mobile/cell telephone or do not wish to report the numbers should provide this information to the University through my.SMU Student Homepage. Students may be prevented from enrolling if their mobile/cell telephone numbers are not on file or if they have not declared "no cell" or "prefer not to report" in my.SMU.

## Ethnicity

SMU requires that a valid ethnic group category be on file for all students. SMU's policies and the Family Educational Rights and Privacy Act of 1974 protect the confidentiality and privacy of this information. A student's ethnic group category can be viewed in my.SMU Student Homepage.

**U.S. Citizens or Permanent Residents.** Ethnicity is self-determined. Students of multiple ethnic backgrounds may select multiple ethnic group categories. If the ethnic group value is incorrect, the student should go to the University Registrar's Office in the Laura Lee Blanton Student Services Building and complete an Ethnic/Racial Category Update Form.

**International Students Living in the U.S. While Attending School.** Selecting an ethnic group category is not required unless the student becomes a U.S. citizen or permanent resident.

## Transcript Service

A transcript is an official document of the permanent academic record maintained by the University Registrar's Office. The permanent academic record includes all SMU courses attempted, all grades assigned, degrees received and a summary of transfer hours accepted. Official transcripts and certifications of student academic records are issued by the University Registrar's Office for all students. Copies of high school records and transfer transcripts from other schools must be requested from the institutions where the coursework was taken.

Transcripts are \$12.25 per copy. Additional copies in the same request mailed to the same address are \$3.50. Additional copies mailed to different addresses are \$12.25 a copy. PDF transcripts are \$16.00 per email address and are available only for students who attended after summer 1996.

**Note:** No incomplete or partial transcripts, including only certain courses or grades, are issued.

Transcripts cannot be released unless the student has satisfied all financial and other obligations to the University. Instructions for requesting a transcript to be mailed or picked up on campus are available at [www.smu.edu/registrar](http://www.smu.edu/registrar) ("Transcript Requests" link). A student may request his or her official transcript through the online my.SMU Student Homepage. Requests are processed through the National Student Clearinghouse. Telephone and email requests are not accepted. Students or their specified third party can pick up their transcripts at the University Registrar's Office, 101 Blanton Student Services Building.

Transcripts may be released to a third party as specified by the student on the Student's Consent for SMU to Release Information to Student's Specified Third Party form accessible at [www.smu.edu/LegalDisclosures/FERPA/Forms](http://www.smu.edu/LegalDisclosures/FERPA/Forms).

**Note:** Chapter 675, S.B. 302. Acts of the 61st Texas Legislature, 1969 Regular Session, provides as follows: *Section I.* No person may buy, sell, create, duplicate, alter, give or obtain; or attempt to buy, sell, create, duplicate, alter, give or obtain a diploma, certificate, academic record, certificate of enrollment or other instrument which purports to signify merit or achievement conferred by an institution of education in this state with the intent to use fraudulently such document or to allow the fraudulent use of such document. *Section II.* A person who violates this act or who aids another in violating this act is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than \$1,000 and/or confinement in the county jail for a period not to exceed one year.

## **Veterans**

The University Registrar's Office certifies veterans each term for their benefits under federal programs, including the Yellow Ribbon Program. Most academic programs at SMU qualify for U.S. Department of Veterans Affairs benefits, making an SMU education accessible and affordable. Veterans are required to provide specific documents before they can be certified with the VA's Veterans Benefits Administration. Specific information regarding the certification process is available from the University Registrar's Office at [www.smu.edu/EnrollmentServices/Veterans](http://www.smu.edu/EnrollmentServices/Veterans).

The University complies with Title 38 United States Code Section 3679(e) which states that any individual who is entitled to educational assistance under chapter 31 (Vocational Rehabilitation and Employment) or chapter 33 (Post 9/11 GI Bill®) benefits will be permitted to attend or participate in the course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement (or "Statement of Benefits" obtained from the Department of Veterans Affairs' website – eBenefits, or a VAF 28-1905 form for chapter 31 authorization purposes) for said entitlement and ending on the earlier of the following dates: a) the date on which payment from VA is made to the institution; or b) 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility. SMU will not impose any penalties, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or require that a covered individual borrow additional funds to meet his/her financial obligation due to delayed disbursement funding from VA under chapter 31 or 33. However, if the anticipated funding from VA will not cover all tuition and fees, then the student is responsible for paying the difference immediately. Failure to do so may result in late or past due fees. Students who wish to be certified under chapter 31 or 33 must request in writing each semester that they wish to be certified and provide an updated statement of benefits. Additional documents are required to be submitted to the University upon initial request to be certified. See our website at [www.smu.edu/enrollmentservices/veterans](http://www.smu.edu/enrollmentservices/veterans).

## **Final Examinations**

Final course examinations shall be given in all courses where they are appropriate, must be administered as specified on the official examination schedule and shall not be administered during the last week of classes. Exceptions to the examination schedule may be made only upon written recommendation of the chair of the department sponsoring the course and with the concurrence of the director, who will allow exceptions only in accordance with guidelines from the Office of the Provost.

## **Complaint Procedures for Students With Disabilities**

The complaint procedures for students with disabilities are available in the Disability Accommodations and Success Strategies office, Loyd Center, Suite 202, and online at [www.smu.edu/Provost/ALEC/DASS](http://www.smu.edu/Provost/ALEC/DASS).

## **Credit Hour Loads**

The unit of measure for the valuation of courses is the credit hour. Based upon the federal definition of a credit hour, each credit hour requires one hour of direct faculty instruction and a minimum of two hours of preparation on the part of students per week for approximately 15 weeks a term. Most courses are valued for three credit hours, i.e., three contact hours per week and at least six hours of preparation. For three credit hour courses deployed via different course types, modes of delivery, or calendars, total number of direct contact hours should be equal to or greater than 45 hours with the total of out of class work total equal to or greater than 90 hours. Courses that deviate from this standard must provide documentation illustrating how the number of contact hours and/or work outside the course equate to this standard within the term in which the course is offered.

The number of hours for each term is detailed in the program outline in the Hart eCenter Graduate Programs Policies and Procedures section of this catalog. A term (fall or spring) total of nine credit hours of coursework is considered a full load; individuals who enroll for fewer than these minimum hours are considered part-time students. A summer term total of six credit hours of coursework is considered a full load.

A graduate student

- working on the completion of a thesis, dissertation or performance recital requirement on a full-time or part-time basis;

- enrolled in an internship or co-op program;
- enrolled as a third-year theatre major working on the completion of required production projects;
- or having an instructor appointment as part of a teaching fellowship, but not enrolled for the required number of hours;

may be certified as a full-time or part-time student if the student

- is enrolled officially for at least one course and
- is recognized by his or her director or academic dean or the dean for the Office of Research and Graduate Studies as working on the completion of the thesis, dissertation or internship requirement on a full-time or part-time basis.

In other special situations, a student not enrolled for the required number of hours may be certified as a full-time or part-time student if the student is officially enrolled for at least one course and is recognized by the academic dean or director as a full-time or part-time student, and if such recognition is approved by the provost.

**Cautionary Note:** Federal financial aid agencies and some other agencies require a minimum number of hours of enrollment for full-time status and do not make exceptions for summer, internship, co-op or student-teaching enrollments. Students on financial aid should consult an adviser in the Financial Aid Office regarding minimum enrollment requirements for their situation. Likewise, international students on an F-1 or J-1 visa should consult an adviser in the International Student & Scholar Services office regarding minimum enrollment requirements for their situation.

**Minimum and Maximum Course Loads.** Minimum and maximum course loads allowed are based on the school of record.

## Stop Enrollment/Administrative Withdrawal

Insufficient or improper information given by the student on any admission or enrollment form – or academic deficiencies, disciplinary actions and financial obligations to the University – can constitute cause for the student to be determined ineligible to enroll or to be administratively withdrawn.

## Transfer Courses From Other Institutions

Official college transcripts are required for all college-level work attempted, regardless of transferability. Military transcripts are also required for students receiving VA benefits; more information is available at [www.smu.edu/registrar](http://www.smu.edu/registrar) ("Veterans Affairs" link). Students are responsible for making sure a transcript of all transfer work attempted is sent to the University Registrar's Office immediately following completion of the work. Due to the specialized cohort nature of SMU Guildhall programs, all credit hours must be earned at the Guildhall. Additional information is found in the Hart eCenter Graduate Program Policies and Procedures section of this catalog.

## Enrollment Policies

### Course Scheduling and Enrollment Cycles

Students in Guildhall programs apply for admission into one of four areas of specialization. Additional information about required specialization courses can be found in the Hart eCenter Graduate Programs Policies and Procedures section of this catalog.

Each fall, spring and summer term has an enrollment period during which the formal process of enrollment in the University is completed. Prior to each enrollment period, the Student Services Office will publish enrollment instructions.

Each student is personally responsible for complying with enrollment procedures and for ensuring the accuracy of his or her enrollment. Students are expected to confirm the accuracy of their enrollment each term. Students who discover a discrepancy in their enrollment records after the close of enrollment for the term should immediately complete a Petition for Enrollment Policy Exception. Petitions are to be submitted to the appropriate records office within six months of the term in which the discrepancy appeared; contact information for submitting a Petition for Enrollment Policy Exception can be viewed on the University Registrar's Office website at

[www.smu.edu/EnrollmentServices/Registrar/Enrollment/EnrollmentPolicyException](http://www.smu.edu/EnrollmentServices/Registrar/Enrollment/EnrollmentPolicyException). Petitions submitted later than six months after the discrepancy may not be considered.

## Schedule Changes

With the exception of HGME 6276 - Master's Thesis II, HGME 6377 - Mater's Thesis III and HGME 6178 - Graduate Exhibition, students at SMU Guildhall cannot drop individual courses; they must take all of the required courses in their specialization each term to be enrolled.

## Withdrawal From the University

Policies on refunds for withdrawal from the University are found in the Financial Information section of this catalog and in the *Financial Information Bulletin*. No refunds are made without an official withdrawal.

Students should be aware of the difference between a *drop* and a *withdrawal* and remember that they have different deadlines and separate financial policies. The deadlines for each are posted each term on the Official University Calendar at [www.smu.edu/registrar](http://www.smu.edu/registrar). A *drop* occurs when a student removes one or more courses from his or her schedule and remains enrolled in at least one credit hour for the term. A *withdrawal* occurs when removing the course or courses will result in the student being enrolled in **zero** hours for the term.

With the exception of HGME 6276 - Master's Thesis II, HGME 6377 - Master's Thesis III and HGME 6178 - Graduate Exhibition, students at SMU Guildhall cannot drop individual courses; they must take all of the required courses in their specialization each term to be enrolled.

If a student removes all courses from his or her schedule **prior to the first day of the term**, the transaction is considered a *cancellation* and does not result in financial penalty or impact the student's transcript.

A student who wishes to withdraw (resign) from the University before the end of a term or session must initiate a Student Petition for Withdrawal form and secure approval from his/her school's records office. The records office will then submit the form to the Office of the University Registrar. The effective date of the withdrawal is the date on which the Student Petition for Withdrawal is processed in the University Registrar's Office. Discontinuance of class attendance or notification to the instructors of intention to withdraw does not constitute an official withdrawal.

The enrollment of students who withdraw on or before the tenth class day of the fall or spring semester as listed on the Official University Calendar will be canceled. Courses and grades are not recorded for canceled enrollments; however, the student will owe a portion of his/her tuition and fees. Additional information is available in the *Financial Information Bulletin*. A student who withdraws after the tenth class day of the fall or spring semester will receive the grade of *W* in each course in which he or she enrolled.

Medical withdrawals allow a prorated refund of tuition and fees and have conditions that must be met prior to re-enrollment at SMU. Medical withdrawals can only be authorized by professionals in the Dr. Bob Smith Health Center, Dean of Student Life, or Vice President for Student Affairs. The last day for a medical withdrawal is the last day of class instruction for the term from which the student is withdrawing. Retroactive medical withdrawals cannot be granted.

Mandatory administrative withdrawals occur when a student is not suspended but current and/or future enrollments are canceled or withdrawn. A student's academic record is annotated with "mandatory administrative withdrawal" and the effective dates for this withdrawal. Mandatory administrative withdrawals allow a prorated refund of tuition and fees and have conditions that must be met prior to re-enrollment at SMU. Mandatory administrative withdrawals can be authorized only by the Provost and Vice President for Academic Affairs, Vice President for Student Affairs or Dean of Student Life.

Withdrawing students living in SMU housing must check out of the residence halls with the Department of Residence Life and Student Housing per established procedures.

## **Audit Enrollment (Course Visitor)**

Individuals desiring to audit (visit) a class, including those concurrently enrolled for regular coursework, are required to process an Audit Permit form. Audit Permit forms must be completed, approved and received by the Office of the Director no later than the last day to enroll for the term. SMU Guildhall Audit Permit forms are available from the Office of the Director. Space must be available in the class. The following regulations are applicable:

1. Classroom recitation and participation are restricted; availability of course handouts, tests and other materials is restricted; no grade is assigned and no credit is recorded; no laboratory privileges are included.
2. The individual's name does not appear on class rosters or grade rosters.
3. Regular admission and enrollment procedures are not conducted for auditors.
4. The audit fee is nonrefundable.
5. If credit is desired, the course must be enrolled for and repeated, as a regular course, and the regular tuition must be paid.

## **Class Attendance**

Regular class attendance is required. At the beginning of the course, the instructor announces policies regarding the effect of class attendance and tardiness on the student's standing in the course via the course syllabus. These policies may include dropping a student from the course for nonattendance or tardiness as described below.

All reasons for absence or tardiness should be submitted at once to the instructor.

The satisfactory explanation of absence may release a student from disciplinary action but does not relieve a student from responsibility for the work of the course during his or her absence. A student who misses an announced test, examination or laboratory period in a regular course of study and has the permission of the instructor may be given an opportunity to make up the work at the instructor's convenience. The instructor determines in all instances the extent to which absences and tardiness affect each student's grade.

Students who miss two successive class meetings during the official add-drop period at the beginning of each term are subject to being dropped from the course. To avoid this possibility, students should contact the instructor or the department immediately following such a series of absences.

Students may be dropped by a course instructor or academic dean for nonattendance or tardiness with a grade of *W* until the University deadline to drop. Department chair approval is required. After the deadline, students must remain enrolled in the course.

Students may also be dropped by a course instructor for extreme inappropriate classroom behavior. The instructor must submit the Administrative Drop Request to drop a student from the course by the University deadline to drop a course indicated in the official Guildhall Academic Calendar. Department Chair approval is required. After the deadline, the student must remain enrolled in the class and receive a final grade of *F*.

## **Excused Absences for University Extracurricular Activities and Religious Holidays**

Students who participate in officially sanctioned, scheduled University extracurricular activities or observe a religious holiday should be given an opportunity to make up class examinations or other graded assignments missed as a result of this participation or related travel. The manner in which examinations or other assignments missed because of these activities are to be made up is left to the discretion of each individual faculty member. However, students should not be penalized in any way for these excused absences and should be informed by the instructor at the beginning of the term, preferably in writing, of the instructor's makeup policy. It is the responsibility of the student to make arrangements with the instructor prior to any missed scheduled examination or other missed assignment for making up this work, and to obtain any class notes or other course material missed due to absence prior to taking any subsequent examinations or submitting any subsequent graded assignments.

This statement of University policy applies for all students. To minimize the difficulties caused for both student-athletes and their instructors by excused absences due to University-sanctioned athletic activities or related travel, the

Athletic Department shall 1) make available to all student-athletes and their academic advisers prior to registration a copy of the student's activity and travel schedule for the upcoming term, so as to facilitate the student's enrollment in class sections that will minimize activity and travel conflicts; and 2) require all student-athletes to provide a copy of that term's activity and travel schedule, and a copy of this Statement of University Policy, to each of their instructors at the first class meeting of the term.

Other University colleges and departments whose students will miss classes because of their participation in officially sanctioned, scheduled University extracurricular activities, related travel, or observing of religious holidays are encouraged to adopt similar procedures to minimize the difficulties caused by such absences.

A list of religious holidays for use in requesting excused absences is available on the Official University Calendar. Students must notify the class instructor in writing by the 12th day of the term of any such absences that will occur during that term. Accommodations are to be made without penalty. More information can be found in the *University Policy Manual*, available at [www.smu.edu/policy](http://www.smu.edu/policy).

## Absence Due to Illness

The Dr. Bob Smith Health Center does not provide documentation for granting excused absences from class. If students are absent for illness, they should talk to their professors about how they might catch up with the material missed. If students are seriously ill and require hospitalization or an extended absence, students should talk to their professors and the Office of Student Life to decide how to deal with the interruption in their studies. To facilitate communication with their professors about their absence, students may submit the Absence from Class Form available at [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter).

## Interpretation of Course Numbers

Each SMU course has a four-digit course number. The first number indicates the general level of the course.

1000–1999	First-year
2000–2999	Sophomore
3000–3999	Junior
4000–4999	Senior
5000–5999	Senior or Graduate
6000–9999	Graduate

The second digit specifies the number of credit hours; exceptions are noted below.

<i>Digit</i>	<i>Credit Hours</i>
0	0, .5 or 10–15
1	1 or 1.5

The third and fourth digits are used to make the course number unique within the department.

## Grade Policies

A student's grades are available to him or her through my.SMU Student Homepage.

## Grade Scale

The grade of a student in any course is determined by the instructor of the course. The following grades are authorized for recording on the student's official graduate academic record maintained by the University Registrar's Office.

<i>Grades</i>	<i>Description</i>	<i>Grade Points per Term Hour</i>
<i>A</i>	Excellent Scholarship	4.000
<i>A-</i>	Excellent Scholarship	3.700
<i>B+</i>	Good Scholarship	3.300
<i>B</i>	Good Scholarship	3.000

<i>B-</i>	Good Scholarship	2.700
<i>C+</i>	Fair Scholarship	2.300
<i>C</i>	Fair Scholarship	2.000
<i>C-</i>	Fair Scholarship	1.700
<i>D+</i>	Poor Scholarship	1.300
<i>D</i>	Poor Scholarship	1.000
<i>D-</i>	Poor Scholarship	0.700
<i>F</i>	Fail	0.000
<i>P, CR, S</i>	Pass, Credit, Satisfactory	*
<i>I</i>	Incomplete	*
<i>NC, U</i>	No Credit Received, Unsatisfactory	*
<i>X</i>	No Grade Received in Registrar's Office	*
<i>W</i>	Withdrew	*

**Note:** Asterisks denote grades not included in a student's GPA.

## Grade of F, D, W, X and Missing/Blank

Any work graded lower than a *C-* is not passing and earns a grade of *F* or *D*.

Failing is graded *F*. If the student's work is incomplete, poor quality and not acceptable, a grade of *F* will be given.

The grade of *D* represents performance below average expectations.

The cumulative nature of the material and the integrity of the cohort system require that students who fail any course (i.e., receive a grade of *F* or *D*) will be suspended or dismissed from the program. Additional information is found in the Hart eCenter Graduate Programs Policies and Procedures section of this catalog.

The grade of *W* cannot be recorded unless completion of the official drop or withdrawal process has occurred by the applicable deadline during the term of enrollment. Only the grade of *W* may be recorded if the student has officially dropped courses from the schedule or withdrawn (resigned) from the University for the term. The grade of *W* may not be revoked or changed to another grade because the act of officially dropping/withdrawing is irrevocable.

The grade of *X* is a temporary administrative grade used when an official grade has not been received from the instructor. The grade of *X* will be changed to *F* if a grade is not received within 60 days of the end of the term. Graduation candidates must clear all *X*'s prior to the deadline on the Official University Calendar, which may allow less time than 60 days. Failure to do so can result in removal from the degree candidacy list and/or conversion of the grade of *X* to the grade of *F*.

A missing or blank grade also indicates an official grade has not been received from the instructor. Graduation candidates must receive a grade for all course enrollments prior to the deadline on the Official University Calendar. Failure to do so can result in removal from the degree candidacy list and/or the assignment of a grade of *F*.

## Grade of Incomplete

A student may temporarily receive a grade of Incomplete (*I*) if a substantial portion of the course requirements have been completed with passing grades, but for some justifiable reason acceptable to the instructor, the student has been unable to complete the full requirements of the course.

Graduation candidates must clear Incompletes prior to the start of the term during which they will graduate. The grade of *I* can be requested and given only at the end of the term.

At the time a grade of *I* is given, the instructor must stipulate in writing the requirements and completion date that are to be met and the final grade that will be given if the requirements are not met by the completion date.

The instructor and student sign the written agreement, and a copy is given to the Office of the Director.

The maximum period of time allowed to clear the Incomplete is until the end of the next term, but this will affect enrollment due to the cohort nature of the program. If the Incomplete grade is not cleared by the date set by the instructor or by the end of the next term, the grade of *I* will be changed to the grade provided by the instructor at the time the Incomplete was assigned or to a grade of *F* if no alternate grade was provided.

The grade of *I* is not given in lieu of a grade of *F* or *W*, or other grade, each of which is prescribed for other specific circumstances.

The grade of *I* in a course does not authorize a student to attend or enroll in the course during a later term. Graduation candidates must clear all Incompletes prior to the deadline on the Official University Calendar. Failure to do so can result in removal from the degree candidacy list and/or conversion of the grade of *I* to the grade indicated by the instructor at the time the grade of *I* was given.

## **Grade Point Average**

A student's grade point average (cumulative GPA) is computed by multiplying the credit hours of each course attempted by the grade points earned in the particular course and then dividing the total number of grade points by the total number of hours attempted, excluding those hours for which grades are shown with an asterisk on the grade chart. The GPA is truncated, not rounded, at three decimal places.

For assistance estimating your GPA see the GPA calculator on the SMU website.

## **Grade Changes**

Changes of grades, including change of the grade of *I*, are initiated by the course instructor and authorized by the academic chair and by the Office of the Director. If a student requests a grade change, the instructor may ask the student to provide the request as a written petition, which may become an official part of any further process at the instructor's discretion. Changes of grades may be made only for the following authorized reasons: to clear a grade of *I*, to correct a processing error or to reflect a re-evaluation of the student's original work. A change of grade will not be based on additional work options beyond those originally made available to the entire class.

Changes of grades of *I* should be processed within a term of the original grade assignment, unless the grade is for thesis work. Other changes of grades must be processed by the end of the next regular term. No grade will be changed after 12 months or after a student's graduation, except in cases where a grade is successfully appealed – provided that written notice of appeal is given within six months following graduation – and in extenuating circumstances authorized by the director and approved by the University Registrar's Office.

## **Grades for Repeated Courses**

Students who have withdrawn from a Hart graduate program may repeat courses only if they are readmitted to a subsequent cohort. Students will be allowed to repeat courses according to the following rules: Both the initial and the second grades will be recorded on the student's permanent academic record (transcript). Both grades will be included in the calculation of the student's cumulative GPA and in the determination of academic probation, suspension, dismissal, honors and graduation.

Only the repeated course and not the initial credit hours count toward the number of hours needed for graduation.

## **Grade Appeals**

A student who feels that an assigned grade is other than the grade earned must first discuss the matter with the course instructor to determine if the discrepancy is caused by error or misunderstanding. At the time of the initial discussion, the student may be asked to provide a written petition requesting the change of grade.

A student, who is not satisfied by the instructor's decision on a request for a grade change, and who maintains that the original grade was capriciously or unfairly determined, may appeal to the Office of the Director. After discussing the matter with the student, and bearing in mind that the final authority in matters of academic judgment in the

determination of a grade rests with the course instructor, the Office of the Director will consult with the course instructor, who will subsequently report to the student the disposition of the appeal.

A student who is not satisfied by the disposition of the appeal may appeal the decision to the provost. The provost will take action as he or she deems appropriate. In their actions, the provost must respect the principle that the determination of a grade rests with the course instructor.

## **Academic Advising and Satisfactory Progress Policies**

### **Academic Advising**

For an effective advising relationship, the student must be prepared when meeting with the academic adviser. The student must initiate the advising. The academic adviser will give assistance to the student, but the student has the final responsibility for the accuracy of the enrollment, the applicability of courses toward the degree requirements, and his or her academic performance.

Students are assigned an academic adviser by the Office of the Director.

### **Leave of Absence**

A leave of absence is a temporary leave from the University – a kind of "timeout" – that may be necessary during an academic career. Students may elect to take leaves of absence for a variety of reasons, including 1) medical reasons due to accident or illness, 2) family crises or other personal situation that requires an extended absence from school, 3) financial issues that may take time to resolve, and 4) academic difficulties that may best be handled by taking time to refocus on college work.

Typically, a leave of absence is for one term or one academic year. A student may extend a leave of absence by contacting his or her academic department representative. The process to return to SMU after a leave-of-absence period can be an easy one, especially if the student has gone through the steps to file for a leave of absence and planned ahead for the return. Following SMU's leave-of-absence guidelines helps 1) assure that the degree requirements per the catalog of record when the student initially matriculated at SMU still apply upon return, 2) assist with financial aid processing, and 3) provide the support needed to return to SMU and successfully finish the degree.

The SMU Leave of Absence Policy provides students with a formal process to "stop out" of SMU for either voluntary or involuntary reasons. Typically, *a leave of absence* is for a temporary departure from the institution; however, *intended permanent withdrawals* from SMU will also be processed under the Leave of Absence Policy.

The first step to effect a leave of absence is for the student to arrange an appointment to meet with his or her program director, who will then assist the student with the process.

Additional information about re-entry and readmission is found in the Hart eCenter Graduate Programs Policies and Procedures section of this catalog.

### **Academic Progress**

Failure to meet established minimum acceptable standards of academic or disciplinary performance can result in probation, suspension or dismissal. Information regarding disciplinary action can be found under Code of Conduct in the Student Affairs section of this catalog. Graduate students must maintain a cumulative GPA of 3.000 in the master's degree program or a cumulative GPA of 2.700 in the professional certificate program. If in any term the student falls below this cumulative GPA, the student will be placed on probation for one regular term. If at the end of the term of probation the cumulative GPA is not up to 3.000 in the master's degree program or a cumulative GPA of 2.700 in the professional certificate program, the student may be removed from the program at the discretion of the Office of the Director.

Additional information on academic progress, academic probation and academic suspension is found in the Hart eCenter Graduate Programs Policies and Procedures section of this catalog.

## **Definitions: Academic Probation, Academic Suspension, Academic Reinstatement and Academic Dismissal**

**Academic Probation.** Academic probation is a serious warning that the student is not making satisfactory academic progress. A student on academic probation is still eligible to enroll. Academic probation is not noted on the permanent academic record; however, a student on academic probation may be subject to certain conditions during the period of probation and will be subject to academic suspension if he or she does not clear academic probation.

**Academic Suspension.** Academic suspension is an involuntary separation of the student from SMU. Academic suspension is for at least one regular term. The term of suspension might be for a longer period depending on the policy of the school of record or the terms of the individual student's suspension. Students suspended from one school are suspended from the University.

The status of academic suspension is recorded on a student's permanent academic record. While on academic suspension, a student is not in good academic standing for certification purposes and is not eligible to enroll at SMU. Students who have served their suspension and who are eligible to return may not enroll for any intersession terms without permission from their school of record.

Credits earned at another college or university during a term of suspension may not be applied toward an SMU degree. A grade point deficiency must be made up through enrollment at SMU.

**Academic Reinstatement.** A student who has been on academic suspension once may petition the Office of the Director for reinstatement to SMU Guildhall. If the petition, and subsequent review by the Admissions Committee is approved, the student is reinstated, may enroll in classes, and remains on academic probation until the conditions of academic probation are satisfied.

**Academic Dismissal.** A second suspension results in an academic dismissal from the University. Academic dismissal is final, with no possibility of reinstatement or readmission to the University. Academic dismissal is recorded on the student's permanent academic record.

## **Academic Petitions and Waivers**

Petitions and/or requests for waivers concerning University requirements, graduation requirements and the evaluation of transfer work should be submitted to the Office of the Director.

## **Transfer Coursework**

Due to the specialized cohort nature of SMU Guildhall programs, all credit hours must be earned at the Guildhall. Additional information is found in the Hart eCenter Graduate Program Policies and Procedures section of this catalog. Graduation Policies

## **Apply to Graduate**

Students must file an Application for Candidacy to Graduate with the Office of the Director no later than the last day of the first week of the term in which they will complete all degree requirements. Applications are filed through my.SMU Student Homepage by the deadline date on the Official University Calendar.

Students who file an application after the published deadline may be required to pay a nonrefundable late fee. Late applications may be denied after the start of the next term, and the Application for Candidacy to Graduate applied to the next conferral date. Students taking coursework at another institution and transferring the course(s) back to SMU are responsible for ensuring that the University Registrar's Office receives their official transcript in order for their degree to be conferred for the anticipated graduation term.

SMU Guildhall has three degree conferral periods: fall (December), spring (May) and summer (August).

Before approving a graduate student for degree conferral, Guildhall faculty will consider any documented judicial or disciplinary complaints on record and audit the student's academic standing.

## **Commencement Participation**

An All-University Commencement Convocation is held in May for students enrolled and on schedule to complete degree requirements during the spring term. Students enrolled and on schedule to complete all degree requirements during the following summer session may also participate in the University Commencement Convocation, although their degrees will not be conferred until August. Degrees for post certificate students, who complete their master's degree requirements during the fall term, will be conferred in January. Fall graduates may choose to participate in the following May All-University Commencement Convocation. Students may also participate in departmental or school ceremonies according to the policies of the departments or schools.

To participate in a the All-University Commencement Convocation ceremony in May, a student must apply online and file with their school's records office an Application for Candidacy to Graduate or Intent to Participate form.

## **Statute of Limitations for Degree Plans**

A student who has been readmitted to the University following an absence of more than three years will be expected to meet all current requirements for graduation for the cohort to which the student is readmitted. Exceptions to this policy may be considered by a readmissions committee.

## **Hart eCenter Graduate Programs Policies and Procedures**

### **Class Participation**

SMU Guildhall programs are highly cross-disciplinary, and they require students from the four specializations of art creation, level design, production and software development to work in teams on several game projects. To ensure the desirable mix of artists, designers, producers and programmers, SMU Guildhall matriculates students in cohorts (student groups) who progress together through the program in a lockstep manner. As a result, the success of the individual student is inextricably connected to the work ethic and commitments of all the students in a given cohort. Therefore, it is the expectation of SMU Guildhall that students participate fully in team projects and be accountable to their team members and cohort peers. Additional information is found under Class Attendance in the Enrollment Policies section of this catalog.

### **Course Enrollment**

The courses for each cohort are provided to the students approximately six weeks prior to the start of the new term. Guildhall students process their own enrollment transactions from these course selections, including add, drop and swap, on the Web-based my.SMU. Students are responsible for complying with enrollment procedures and for the accuracy and completeness of their enrollment.

### **Academic Performance Standards**

SMU Guildhall maintains a selective admissions policy and strict academic standards for continued enrollment. Satisfactory progress toward a degree by a student is defined as successful completion of all required courses for the term. A student admitted to Guildhall programs and allowed to continue enrollment is considered to be making satisfactory progress toward completion of the program provided that the student receives a passing grade (*A* to *C-*) in each course for the term.

Additionally, students at SMU Guildhall are required to achieve and maintain a minimum cumulative GPA in their specialization major, minor and directed focus study courses by the completion of the second term of the program. This minimum GPA requirement is a 3.000 for students in the master's program and a 2.700 for students in the graduate certificate program.

A master's student must also receive a grade of *B-* or higher in HGME 6175 - Master's Thesis I in order to remain in the master's program.

The cumulative nature of the material and the integrity of the cohort system require that students who fail any course, i.e., receive a grade of *D* or *F*, will be suspended or dismissed from the program.

A student who fails to maintain a cumulative GPA of 3.000 in the master's degree program or a cumulative GPA of 2.700 in the professional certificate program is placed on academic probation and is not considered in good standing.

To graduate from the master's degree program, students must earn a cumulative GPA of 3.000 or higher with no grade less than a C- (1.700) applying toward the degree. To graduate from the professional certificate program, a student must earn a cumulative GPA of 2.700 or higher with no grade less than a C- (1.700) applying toward the certificate.

The academic performance of all Guildhall students is reviewed at the end of each term. Additional information about academic suspension and probation is found in the Academic Advising and Satisfactory Progress Policies section of this catalog.

## **Team Game Production Grade Policy**

To graduate from SMU Guildhall, a student must demonstrate the ability to work successfully in a team environment. The team game production courses are designed to build and evaluate team skills. The grades in TGP courses are structured to measure the student's teamwork ability and measure the quantity and quality of work for both the student and the team.

Each student's teamwork will be evaluated at every major project milestone. All students will be required to complete a survey that ranks all team members in six categories: easy to work with, attitude, attendance, work ethic, quality of work and teamwork. The scores are averaged – with the exception of the student's self-evaluation score – to create a team dynamics grade.

The following are the minimum requirements for the team dynamics grade:

- TGP I – No minimum.
- TGP II – If a student's team dynamic score falls below a 3.0 out of a possible 5.0, the student is placed on probation, and he or she must raise the score to a 3.0 or higher on all subsequent measurements. If a subsequent measurement falls below a 3.0, the student is removed from the team and assigned individual work, with a grade of C being the highest possible grade in the course. A student on probation will not be admitted to the next TGP without a successful interview with the course faculty. The probation extends through the end of the current term.
- TGP III TGP IV– A student whose team dynamic score falls below a 3.0 out of a possible 5.0 fails the course.

The course instructor has the option of revising a team score that has been arrived at in violation of the SMU code of conduct. The complete SMU Student Code of Conduct is available in the online *Student Handbook* at [www.smu.edu/studentlife](http://www.smu.edu/studentlife).

## **Grades for Repeated Courses**

Students who earn a grade of D or F in any course in SMU Guildhall are suspended or dismissed from the program. Suspended students who are readmitted to the program and who therefore must repeat courses will have both the original grade and the repeated grade (and course) on his or her transcript. Also, both grades will be calculated in the student's cumulative GPA. Additional information is found in the Grade Policies section of this catalog.

## **Suspension and Dismissal**

Suspension and dismissal are involuntary separations of the student from SMU Guildhall. Suspension is for a set period of time. A student who has been suspended may one time and only one time petition the Office of the Director for readmission to the Guildhall. Dismissal is a permanent and involuntary separation of the student from the Guildhall as a result of failure to meet established minimum acceptable standards of academic or disciplinary performance. The dismissed student is not eligible for readmission to SMU Guildhall.

## **Withdrawal From the Program**

The student must contact the Office of the Director and the SMU Registrar's Office in writing to withdraw from the Guildhall. Additional information is found under Withdrawal From the University in the Enrollment Policies section of this catalog.

## **Re-entry and Readmission of Former Students**

Students who wish to re-enter the program after a withdrawal or suspension must submit a petition for consideration for readmission. This petition should be sent to the Office of the Director, and it should address the circumstances for withdrawal or suspension and actions taken during the time away from the program. The petition will be reviewed by the Admissions Committee for a determination of re-entry or whether additional information is necessary to determine the outcome of the petition and, if readmission is possible, the appropriate term of re-entry if approved. Students may re-enter only with another cohort in the appropriate term of study. This deadline for re-entry is extended by any time spent after withdrawal in active U.S. military service.

Due to the cohort nature of SMU Guildhall programs, students who are suspended for failure (earning a grade below C-) in a course may only be readmitted to join a later cohort group.

## **Guildhall GPA and Credit Requirements**

Candidates must complete all courses in their program of study and earn all credit hours of credit with a cumulative GPA of 3.000 or higher in the master's degree program, or 2.700 in the certificate program. Due to the specialized cohort nature of SMU Guildhall programs, all credit hours must be earned at the Guildhall. Additionally, students at SMU Guildhall are required to achieve and maintain a minimum cumulative GPA in their specialization major, minor and directed focus study courses by the completion of the second semester of the program. This minimum GPA requirement is 3.000 for students in the master's program and a 2.700 for students in the graduate certificate program.

## **Statute of Limitations for Thesis Completion**

The maximum length of time for thesis completion in SMU Guildhall graduate degree program is three calendar years from the date of completion of the requirements for the certificate program. All thesis requirements must be completed in this time period. In computing the period, any time during which the candidate was in active U.S. military service shall be excluded. Appeals will be considered for other extenuating circumstances.

## **Transfer of a Current Guildhall Student From Certificate to Master's Degree Program**

Students who are admitted to SMU Guildhall's Professional Certificate in Digital Game Development program may apply to transfer to the master's degree program if they meet all the requirements for admission to the master's degree and have made good progress within the program with a minimum cumulative GPA of 3.000. Graduate courses successfully completed in the certificate series may be applied toward the master's degree as applicable. In addition, students who are admitted into the master's degree will also need to satisfy all of the requirements for the master's degree.

Applications to transfer are due at the end of the second semester of the program and must include the following requirements for the Master of Interactive Technology in Digital Game Development degree:

- A four-year baccalaureate or equivalent degree from a regionally accredited college or university.
- A minimum cumulative GPA of 3.000 out of 4.000 (*B* average) in undergraduate work.
- A minimum cumulative GPA of 3.000 out of 4.000 in graduate work at SMU Guildhall.
- An essay describing the applicant's motivation in obtaining an M.I.T. degree, areas of interest and the ways the student will contribute to the M.I.T. program.
- A résumé.
- At least two letters of recommendation from Guildhall faculty.

For students not meeting the minimum requirement in their undergraduate work, other factors may be considered, including the cumulative GPA for work completed at SMU Guildhall, GRE graduate school entry exam scores, strong employment history, publications and other academic experience. In particular, transcripts indicating successful completion of graduate-level courses in other areas may be taken into consideration if the applicant's undergraduate GPA is below 3.000.

## **Transfer Between Specializations**

A student must be in good standing to request a transfer between specializations.

## **Intellectual Property**

All intellectual property (computer programs, art, design, stories, plots, devices, inventions, productions, etc.) created by the student as part of the academic requirements and using the resources of the program are required to be assigned by the student to Southern Methodist University and will be the sole property of SMU. SMU will grant to each student the right to retain a copy of the intellectual property developed as a Guildhall student for his or her personal use in support of his or her scholastic endeavors or professional portfolio.

## **Honor Code**

By becoming members of SMU Guildhall, students are bound to hold intellectual integrity to the highest standard. Any actions committed by a member of the Guildhall's student body in violation of the SMU Honor Code or Code of Ethics degrades the principles underlying the mission of the University and profoundly affects the integrity and reputation of the degrees to be earned, as well as the reputation of the institution. At the core of the SMU Honor Code is the stipulation that the student will not lie, cheat or steal, or tolerate those who do. Not reporting an honor violation is an honor violation. The complete SMU Honor Code is available in the online *Student Handbook* at [www.smu.edu/studentlife](http://www.smu.edu/studentlife).

# SMU Guildhall: Student Life

## The Division of Student Affairs

The Division of Student Affairs ([www.smu.edu/studentaffairs](http://www.smu.edu/studentaffairs)) creates and supports a robust student experience and forges strategic partnerships to best serve the entire SMU community. As educators and scholar-practitioners, we create purposeful learning and leadership opportunities for students to clarify and develop their knowledge, values, skills, and identities – challenging each to become a world changer. The Division of Student Affairs is comprised of five different organizational units that each provide unique educational and supportive resources for students during their time at SMU: Student Wellbeing and Support, Student Engagement and Success, Residence Life and Student Housing, Religious Life, and the Hegi Family Career Development Center.

## Student Wellbeing and Support

### Health Services

[www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)

The Dr. Bob Smith Health Center provides SMU students with campus access to quality, comprehensive and student-centered medical care, mental health services, and outreach programs designed to promote their health and wellbeing. The new 33,000 square foot state-of-the-art clinic facility is centrally located on campus at 6211 Bishop Boulevard. The Health Center is certified by the Accreditation Association for Ambulatory Health Care (AAAHC) for meeting rigorous nationally recognized standards and committing to delivering the highest quality of care.

**Medical Services.** The Dr. Bob Smith Health Center provides a wide range of health services allowing students to receive primary care on campus. Services available include the treatment of acute illnesses, care of injuries, minor medical procedures, physical exams, STD testing, vaccinations, allergy injections, and limited specialty services. Additional ancillary services include a clinical laboratory, an on-site pharmacy, X-ray imaging and diagnostic services, and a part-time sports medicine clinic. For appointments and health information, students may call 214-768-2141 or visit [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter).

**Acute/After Hours Care.** Students should call 911 for immediate response to life-threatening injuries or illnesses. For other urgent concerns after clinic hours, students should seek a local hospital or urgent care center. A listing of several hospital emergency rooms and after-hours urgent care facilities is provided for general reference on the Health Center website ([www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)).

**Costs.** The Health Services Fee, which is included in general student fees, covers routine medical visits and counseling appointments at the Health Center. Charges are assessed separately for lab services, x-rays, immunizations, medical supplies, pharmacy and specialty care. Claims are filed for students participating in the SMU Student Health Insurance Plan. Students with other insurance plans may request an itemized receipt in order to submit a claim for insurance reimbursement. The Pharmacy files claims for most insurance plans.

**Mandatory Health Insurance Policy.** SMU students are required to maintain insurance coverage as a condition of their enrollment. The University offers the SMU Student Health Insurance Plan (SHIP), which is administered by the Health Center's Student Insurance Office. The plan provides coverage at a reasonable cost for most on- and off-campus health care. Information is available at [www.smu.edu/healthinsurance](http://www.smu.edu/healthinsurance).

Domestic students taking nine or more credit hours and international students taking one credit hour or more are automatically enrolled in the Student Health Insurance Plan (SHIP) each semester unless they expressly waive coverage in their my.SMU account. Information about the waiver deadline is available online at [smu.edu/healthinsurance](http://smu.edu/healthinsurance). Domestic students taking between one and eight credit hours are eligible to enroll in the Student Health Insurance Plan on a voluntary basis.

**Pharmacy.** A full service pharmacy is conveniently located in the Dr. Bob Smith Health Center to meet students' prescription needs from 8:30 a.m. to 5:00 p.m., Monday through Friday. The pharmacy is in network with most insurance plans. Prescriptions and refills may be transmitted directly to the pharmacy from the student's physician.

**Immunizations.** All students (undergraduate, graduate, part-time and full-time, to include international and IEP/ESL students) are required to have an SMU medical history form on file in the Dr. Bob Smith Health Center before registration. (Health history forms are available on the Health Center's website at [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)). All students must also submit - to the Health Center - immunization records that provide proof of two doses of the vaccine against measles, mumps and rubella. These MMR immunizations must be documented by a physician, public health record, military health record or school health record. Students will not be allowed to register without immunization compliance.

Texas state law requires all new students entering an institution of higher education under the age of 22 to provide proof of immunization for bacterial meningitis. The meningitis vaccine or a booster dose must have been received during the five-year period prior to enrollment and not less than ten days before the start of classes. Students seeking exemption from this requirement due to health risk or conscience, including religious belief, should see the second page of the SMU medical history health form. More information is found under Final Matriculation to the University in the Admission to the University section of this catalog.

All required immunizations may be obtained at the Health Center.

**Class Absence Due to Illness.** The Health Center does not issue excuses from classes for illness. Please refer to the Health Center website ([www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)) for the Class Excuse Policy.

**Confidentiality and Privacy.** Confidentiality and privacy of student health information is of paramount importance at the Dr. Bob Smith Health Center. The Health Center follows all applicable state and federal laws related to the disclosure of medical and mental health information, and applies to the highest professional standards of care and privacy. All student-patient health service records are confidential. No information about a student can be released to any third party without the student's written permission.

**Release of Medical Information.** Patient health information and medical records are released only with a written release by the student. Students may sign a release allowing the Health Center to provide specific medical information with their parents, significant others or health care representatives.

**Health Education and Promotion.** The Health Center's Office for Community Health and Promotion serves as a resource to enhance the well-being of SMU students in support of their learning and success. Health information is presented through engaging programs and services to help students make informed and healthy choices. The Health Center works with students to promote activities that create a healthy environment for the SMU community.

**Counseling Services.** The Health Center provides crisis intervention, individual and group therapy, psychiatric evaluation and counseling referrals for SMU students. Use of all services is voluntary and strictly confidential. There is no charge to students who have paid the University health fee. Students can seek confidential help for concerns such as anxiety, depression, relationships, career/life planning, sexual identity, eating/body image and sexual assault/sexual harassment. Alcohol and drug prevention is a free and confidential source of help and information to the SMU community, covering issues related to substance abuse and addiction. Any laboratory tests or pharmaceuticals ordered will be charged to the student. For more information regarding scheduling appointments, students should call 214-768-2277 or visit [www.smu.edu/counseling](http://www.smu.edu/counseling).

**Testing Services.** Testing Services offers fee-based testing to the Dallas-area community. These services include on-campus administration of national testing programs such as the LSAT, MPRE, GRE and others. Other testing offered includes credit by exam (CLEP), and correspondence examinations for local distance learners enrolled in other universities. For additional information, students should visit [www.smu.edu/testingprogram](http://www.smu.edu/testingprogram) or call the center at 214-768-2269.

## **Dedman Center for Lifetime Sports**

[www.smu.edu/recsports](http://www.smu.edu/recsports)

The Dedman Center for Lifetime Sports provides aerobic studios, an indoor running track, basketball courts, volleyball courts (indoor and outdoor), racquetball courts, a climbing wall, a bouldering wall, a 25-yard recreational pool with

five lanes, 15,000 square feet of fitness and weight equipment and a Starbucks in the lobby area. These facilities are open to SMU students, faculty, staff and paying members.

**Facilities/Operations.** The center is a 170,000 square foot facility designed for recreational sports, wellness, programs and the traditions and spirit of SMU.

**Aquatics.** SMU Aquatics features a five-lane, indoor recreational pool and an out-door, zero-depth entry fountain pool known as "The Falls." Students have opportunities to participate year-round in recreational swimming, sunbathing and water sports such as water basketball, volleyball and polo. Classes offered include water fitness, adult and child swimming lessons, children's group lessons, and American Red Cross lifeguard training.

**Programs.** A variety of services and programs are available, including club sports, fitness classes, intramural sports and the Outdoor Adventure program.

**Club Sports.** Club sports offer an opportunity for students interested in concentrated training and participation in a sport. These recognized student organizations offer competition with other university/college club teams in baseball, cycling, ice hockey, men's and women's lacrosse, polo, rugby, men's and women's soccer, triathlon, ultimate Frisbee, volleyball, wakeboarding and water polo.

**Fitness.** SMU Fitness offers group exercise classes and personal training sessions. Group X exercise classes are offered throughout the day to accommodate a variety of schedules. Different types of cardio, strength and flexibility classes are available. Experienced and knowledgeable personal trainers offer sessions to train members of the University community, either one-on-one or in groups, to meet their personal fitness goals. All SMU Fitness programs have a fee for participation.

**Intramural Sports.** Many opportunities for team and individual competition are available through intramural sports such as golf, racquetball, tennis, and dodgeball. The five major sports are flag football, volleyball, basketball, soccer and softball. Leagues provide year-round opportunities to participate in a wide variety of sports and activities. Additional leadership opportunities are available for those interested in officiating or supervising various activities.

**Outdoor Adventure.** SMU Outdoor Adventures is the campus source for outdoor recreation and adventure, offering fun and challenging recreational adventure activities, community-building programs, and student leadership and personal growth opportunities. Students can sign up for SMU OA trips offering traditional and non-traditional outdoor adventure pursuits such as backpacking, rock climbing, caving and canoeing. SMU OA also manages the SMU Climbing Center, the indoor climbing and bouldering facility and the Portable Challenge and Team Development course.

**Spirit/Traditions.** The Recreational Sports Department houses the spirit and traditions of SMU including the Cheer Squad, Mustang Band, Peruna, Pom Squad and the Rotunda Yearbook.

**Mustang Band.** Founded in 1917, the Mustang Band was named the "Best College Marching Band" in Texas in Kirk Dooley's Book of Texas Bests. Long known as "the hub of SMU spirit," the band represents the University at football and basketball games, produces the Pigskin Revue during Homecoming and performs at special University- and community-related events. Membership is open to all SMU students by audition, regardless of major and scholarships based on need and ability are available.

**Rotunda Yearbook.** For over 100 years, the Rotunda Yearbook has chronicled the history of Southern Methodist University. Named in December 1915 after the architecture of Dallas Hall, the Executive Council of the Student Association voted for the annual's name after seven different students suggested it. From its beautiful art to captivating themes, the Rotunda has evolved with the times, earning national awards and recognition from the Associated Collegiate Press (ACP) and Columbia Scholastic Press Association (CSPA).

**Spirit Squads.** Members are full-time students who dedicate their time, energy and athleticism to support Mustang Athletics.

The Cheerleading Squad is a highly competitive team consisting of 20 to 30 young men and women. Twenty of the team's members compete at NCA College Nationals held in Daytona Beach, Florida where the squad placed first in 2016, 2017 and once again in 2018.

The Pom Squad is well known for their energetic performances and their ability to entertain a crowd. The dancing style of the team includes jazz, pom and hip-hop.

Peruna IX (2011-PRESENT) is the beloved mascot of the university and is accompanied by Peruna handlers that lead him across the field during football games. The Human Peruna Mascot is the costumed hero that represents SMU, and is a traditional accessory to Peruna IX.

## **Academic Integrity and Code of Conduct**

### **The Honor Code of Southern Methodist University**

Intellectual integrity and academic honesty are fundamental to the processes of learning and of evaluating academic performance, and maintaining them is the responsibility of all members of an educational institution. The inculcation of personal standards of honesty and integrity is a goal of education in all the disciplines of the University.

The faculty has the responsibility of encouraging and maintaining an atmosphere of academic honesty by being certain that students are aware of the value of it, understand the regulations defining it and know the penalties for departing from it. The faculty should, as far as is reasonably possible, assist students in avoiding the temptation to cheat. Faculty members must be aware that permitting dishonesty is not open to personal choice. A professor or instructor who is unwilling to act upon offenses is an accessory with the student offender in deteriorating the integrity of the University.

Students must share the responsibility for creating and maintaining an atmosphere of honesty and integrity. Students should be aware that personal experience in completing assigned work is essential to learning. Permitting others to prepare their work, using published or unpublished summaries as a substitute for studying required material, or giving or receiving unauthorized assistance in the preparation of work to be submitted are directly contrary to the honest process of learning. Students who are aware that others in a course are cheating or otherwise acting dishonestly have the responsibility to inform the professor and/or bring an accusation to the Honor Council.

Students and faculty members must share the knowledge that any dishonest practices permitted will make it more difficult for the honest students to be evaluated and graded fairly and will damage the integrity of the whole University. Students should recognize that their own interests and their integrity as individuals would suffer if they condone dishonesty in others.

### **The Honor System**

All SMU undergraduate students and graduate students with the exception of those enrolled in the Schools of Law, Theology, Business, or Education are subject to the Honor Code and as such are required to demonstrate an understanding of and to uphold the Honor Code. Honor codes for graduate students enrolled in the Cox School of Business, Dedman School of Law, Perkins School of Theology and Simmons School of Education and Human Development are explained in their graduate catalogs.

In support of the Honor Code, the Honor Council has the responsibility to maintain and promote academic integrity. The Honor Council is composed of a minimum of 27 members selected through an application and interview process organized by the Honor Council Executive Board.

Academic dishonesty includes plagiarism, cheating, academic sabotage, facilitating academic dishonesty and fabrication. Plagiarism is prohibited in all papers, projects, take-home exams or any other assignments in which the student submits another's work as being his or her own. Cheating is defined as intentionally using or attempting to use unauthorized materials, information or study aids in any academic exercise. Academic sabotage is defined as intentionally taking any action that negatively affects the academic work of another student. Facilitating academic dishonesty is defined as intentionally or knowingly helping or attempting to help another to violate any provision of the Honor Code. Fabrication is defined as intentional and unauthorized falsification or invention of any information or citation in an academic exercise.

Suspected cases of academic dishonesty may be handled administratively by the appropriate faculty member in whose class the alleged infraction occurred or referred to the Honor Council for resolution. Suspected violations reported to the Honor Council by a student or by an instructor will be investigated and, if the evidence warrants, a hearing will be held by a board composed of a quorum of four members of the Honor Council.

Any appeal of an action taken by the Honor Council shall be submitted to the University Conduct Council in writing no later than four calendar days (excluding school holidays) after notification of the Honor Council's decision.

## **Code of Conduct**

The following are University procedures and standards with which every student must become familiar. The University considers matriculation at SMU an implicit covenant and a declaration of acceptance on the part of the student of all University regulations. The Student Conduct & Community Standards Office, website [www.smu.edu/studentconduct](http://www.smu.edu/studentconduct), promotes community, scholarship and civility by holding students accountable to the Student Code of Conduct and the Honor Code.

Standards of conduct are established through faculty, student and administrative efforts and are under continuous evaluation by the entire University community in order to assure reasonable and fair limits. At SMU, the student is assumed to have a high degree of loyalty and responsibility to the University and its well-being, as well as to himself or herself in personal, social and intellectual pursuits; the student's behavior both on and off campus is evidence of this.

Students at SMU will discover that they are encouraged to exercise a great amount of personal freedom as well as accompanying responsibilities. Through their personal capacities for intelligent thought and action, mature students understand that there are situations in which certain behavior must be modified for the benefit of others. The University stands firm in its commitments to the rights and freedoms of students, expecting in return the same respect and concern.

Due respect for the entire University community, faculty, staff and one's fellow students is always expected. The University expects all students to be responsible citizens and to abide by all federal, state and local laws. The University Code of Conduct applies to students both on and off campus. It is the University's expectation that students will avoid behaviors such as, but not limited to, the misuse of drugs and alcohol, dishonesty, gambling, hazing, or behavior that endangers or threatens to endanger the health and safety of any person.

Students are required to identify themselves when asked by a properly identified faculty or staff member, or by another student serving as a University staff member. Persons who are not members of the University community and without business on campus may be asked to leave.

## **Conduct Review Process**

Clear disciplinary procedures are an important part of the mission of SMU as an educational institution. The intent of the system of due process at SMU is to be educational and not merely punitive for students. The goal continues to be to produce quality citizens. The purpose of the conduct review process is to encourage personal responsibility.

Depending on the degree of misconduct, a student may be subject to sanctions ranging from an informal warning to expulsion from the University. In addition, a student may be assigned educational sanctions designed to promote personal growth and development. Should a student be asked to leave the University, he or she should do so in an expeditious and peaceful manner. The student should remain off campus until he or she receives written permission from the Office of Student Conduct & Community Standards to return to campus. In the event of such separation, a student is still responsible for University financial obligations.

To ensure fairness and due process for all students in the conduct process, the student is granted an impartial hearing and the right to appeal to the University Conduct Council. A student who is appealing a sanction may remain in school until the decision and penalty are reviewed, unless otherwise determined by the Dean of Students, the Vice President for Student Affairs, or their designee. All actions related to the conduct review process are subject to presidential review.

Having voluntarily enrolled as students at Southern Methodist University and assumed a place in the University community, all students are presumed to be knowledgeable of, and have agreed to abide by the rules and regulations set

forth in the Student Code of Conduct as outlined in the SMU Student Handbook, which is available online at [www.smu.edu/StudentAffairs/StudentLife/StudentHandbook](http://www.smu.edu/StudentAffairs/StudentLife/StudentHandbook).

## **Student Engagement and Success**

### **Department of Student Development**

#### **Office of the Student Experience**

The Office of the Student Experience designs a comprehensive student experience supporting students and their families from orientation to graduation. Using a leadership framework, all students are guided through collegiate transitions. With recognition of the unique needs of veterans, graduate, transfer, and international students, the office advocates for and provides support to these special populations.

#### **Leadership**

The leadership programs available to students include the Emerging Leaders First-Year Leadership Development Program, the Crain Leadership Summit, and the Lonestar LeaderShape Institute. The Office of the Student Experience also supports student leadership development through the Caswell Leadership Program, for a group of selected students to develop projects focused on organizational leadership, faith-based leadership, community-based leadership, environmental leadership, fraternity and sorority leadership or culturally competent leadership.

#### **Parent and Family Programs**

Parents and families are supported through the Office of the Student Experience with a focus on assisting families to assist their students. Our office supports the SMU Mothers' and Dads' clubs, welcomes and supports new students and families during orientation, and supports family weekend.

#### **Special Population Support**

The Office of the Student Experience is committed to supporting all SMU students in their transitions into and through SMU. Additional support is coordinated for special student populations who may have unique factors that impact their transitions including Veteran, Transfer, International, and Graduate students.

### **Women & LGBT Center**

[www.smu.edu/womenandlgbtcenter](http://www.smu.edu/womenandlgbtcenter)

The Women & LGBT Center works to increase awareness and understanding of gender, sexuality, and women's issues on campus through social, cultural and academic programming and outreach. We provide empowering spaces for students to develop as leaders through purposeful learning, educational, and advocacy opportunities. We also advise, support, and develop student organizations focused on gender, sexuality, and women's issues. Some of the organizations we advise include the Feminist Equality Movement, Women in Science and Engineering, and Spectrum: the lesbian, gay, bisexual, transgender and ally organization. Also housed in the center is the SMU Women's Symposium ([www.smu.edu/womsym](http://www.smu.edu/womsym)), which is part of the Education of Women for Social and Political Leadership series, established in 1966.

### **Office of Social Change and Intercultural Engagement**

The Office of Social Change and Intercultural Engagement exists to connect students with opportunities to engage with and learn from the SMU campus, Dallas community, and beyond. The office prioritizes advocacy and awareness through immersive community engagement experiences and social justice education. There are two major functional areas of the office: community engagement and intercultural engagement.

The community engagement side of the office has signature service programs including The Big Event, Mustang Heroes, and Alternative Breaks—which provide students the opportunity to participate in immersive service experiences in Dallas and throughout the United States. The office also provides consulting services to individuals, classes, and offices to help connect them to meaningful and educational community engagement opportunities.

In addition, the office sponsors intercultural engagement and social justice education programs to provide opportunities for the exchange of ideas and experiences that enhance student perspectives, and offers various leadership opportunities through culturally based student organizations, student coordinator positions, and the CONNECT Mentoring Program.

For more information about our programs, please visit [www.smu.edu/socialchange](http://www.smu.edu/socialchange).

## **Department of Student Involvement**

[connect.smu.edu](http://connect.smu.edu)

The mission of Student Involvement is to foster experiences and create spaces encouraging students to discover their interests and find a sense of belonging through involvement. Research shows that students who get involved, regardless of the type of activity, tend to be more successful during their college experience. Student Involvement supports more than 200 opportunities for SMU students through academic and professional associations, campus programming boards, community service coalitions, fraternities and sororities, governing boards, honor societies, multicultural organizations, political clubs, club sports, religious organizations, and special interest groups. Professional staff are available to answer student's questions about getting involved and student organization operations.

The Student Involvement Office is located on the third floor of the Hughes-Trigg Student Center, Suite 314. Campus activities and organizations are an integral part of the developmental experience for students and a long-standing SMU tradition. Participation can help students develop leadership skills and provide inter-personal, social and cultural experiences.

Additional information is available online, including organization interests or type, membership requirements, contact information and event calendars. Student Involvement can also assist students in forming a new organization. To learn more visit [connect.smu.edu](http://connect.smu.edu).

**Eligibility Requirements.** Students who hold office in a student organization or represent the University as a member of a sponsored campus group (Mustang Band, Alternative Breaks, etc.) must be matriculated in a University degree-granting program, maintain a minimum 2.0 GPA, and may not be on academic probation.

## **Student Government**

Through SMU's system of representative governance, students participate with faculty and administration in the University's decision-making process. The primary voice of students in this process is the student-elected Student Senate comprised of senators, committee chairs, general members, and student body officers.

## **Hughes-Trigg Student Center**

[www.smu.edu/htrigg](http://www.smu.edu/htrigg)

The Hughes-Trigg Student Center supports the University's mission by serving as the hub of student life and activities. The Student Center enhances the student experience by providing services, conveniences, amenities, and resources to facilitate programming. The Student Involvement staff strives to provide a safe and community-focused environment to meet the diverse needs of all individuals. Our space offerings include a 6,400 square-foot ballroom, a tiered, amphitheater-style forum classroom, a 470-person capacity auditorium, a convenience store, a food court with a multifunction dining space, a post office, office and meeting space for student organizations, several lounging and quiet areas for studying, and six meeting rooms.

## **Residence Life and Student Housing**

[www.smu.edu/housing](http://www.smu.edu/housing)

The Department of Residence Life and Student Housing supports the goals of the University by creating residential communities that empower residents to value learning, citizenship and leadership in comfortable, well-maintained facilities. The department is responsible for the campus residential community, including all Residential Commons, Upper Division Housing, SMU-owned apartments, and SMU-owned Greek chapter houses.

## **Career Development**

SMU Guildhall provides its students with the resources and professional environment they need to achieve their career goals. While attending the program, students receive class instruction from industry-experienced faculty on the preparation of résumés and cover letters, interview techniques, online portfolio creation, and negotiation.

The Guildhall further enhances a student's career outlook by hosting a career event prior to graduation. Studios are invited to attend and conduct interviews with graduating students. Industry experts are invited to provide feedback sessions on the student's online portfolio. Graduating students may also attend industry conferences with events and networking opportunities.

## **Office of the Chaplain and Religious Life**

[www.smu.edu/chaplain](http://www.smu.edu/chaplain)

The Office of the Chaplain and Religious Life offers resources of pastoral care and theological reflection that nurture spiritual and vocational development as well as the moral and ethical vision and character of students, faculty and staff. Dr. Stephen W. Rankin is the chaplain and minister to the University community. Chaplain Rankin leads and preaches at weekly chapel service, an ecumenically Christian, all-University service of worship, each Wednesday during the term. Students, faculty and staff are invited to participate in this service through music, scripture readings or other expressions of worship. Other services, including the University Service of Memory, Ash Wednesday Service and memorial services as needed, are also planned and implemented by the Office of the Chaplain.

Presently, there are more than 28 religious life organizations. Alongside the Christian groups aligned with denominations, local Dallas-area congregations or national parachurch ministries, SMU also has an active Hillel chapter for Jewish students, a bustling Muslim Student Association and other faith groups of various traditions. A large number of undergraduate, graduate and professional students, as well as many of SMU's faculty, staff and administrators, participate in these religious communities.

Additionally, the Office of the Chaplain partners with faculty members across campus to direct the Faith and Learning Scholars, a cohort of students who want the experience of integrating their faith with their academic pursuits. Participants can qualify for the community engagement proficiency. Similarly, the Civil Rights Pilgrimage, founded in 2004, is an eight-day spring break journey through the South whereby students encounter shrines of freedom and meet heroes of the civil rights movement. This collaboration with Dedman College offers students a transformative opportunity while earning academic credit.

Chaplains are available for personal counseling and spiritual direction with students, faculty and staff during office hours. The Office of the Chaplain is located in the Hughes-Trigg Student Center, Suite 316. Nearby are two rooms for prayer, one designated for Muslim community members and the other for all others.

## Academic Calendar

### Academic Year 2019-2020

[www.smu.edu/registrar/academic\\_calendar.asp](http://www.smu.edu/registrar/academic_calendar.asp)

This calendar includes an addendum listing religious holidays for use in requesting excused absences according to University Policy, Excused Absences for University Extracurricular Activities and Religious Holidays. For religious holidays not listed, contact the Office of the Chaplain.

Graduate programs in the Cox School of Business, Perkins School of Theology, Dedman School of Law, and Research and Graduate Studies have different calendars.

A comprehensive schedule of holiday dates that the offices of the University will be closed will be announced at a later date.

### Fall Term 2019

*(August 26 - December 21, 2019)*

**April 8–26, Monday–Friday:** Enrollment for fall 2019 continuing students for all undergraduates and for graduates in Dedman College, Lyle and Meadows.

**May, July, August (TBA):** Academic Advising, Enrollment and Orientation conferences for new first-year and transfer undergraduate students. Conference dates to be announced. More information about AARO is available from the Office of the Student Experience, Student Affairs, 214-768-4560, [www.smu.edu/studentaffairs/newstudent](http://www.smu.edu/studentaffairs/newstudent).

**August 24, Saturday:** Residence halls officially open at 9:00 a.m.

**August 25, Sunday:** Opening Convocation, McFarlin Auditorium.

**August 26, Monday:** First day of classes.

**August 30, Friday:** Last day to enroll, add a course, or drop a course without tuition billing while remaining enrolled for the term. Last day to file for graduation in December.

**September 2, Monday:** Labor Day. University offices closed.

**September 9, Monday:** Last day to drop a course without academic record (**tuition charges apply**). Last day to withdraw from the university without academic record (**withdrawal refund schedule applies**). See Bursar's website for more information.

**September 11, Wednesday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**October 1, Tuesday:** Early intervention grades due for first-year undergraduate students.

**October 4-5, Friday-Saturday:** Family Weekend

**October 14-15, Monday-Tuesday:** Fall Break.

**October 16, Wednesday:** Last day for continuing undergraduate students to change their majors before November enrollment.

**October 27, Sunday:** Midterm grades due for first-year and sophomore students.

**November 4, Monday:** 60 percent point of the term that federal financial aid has been earned if a student officially withdraws from SMU; prior to this date a partial calculated return to federal programs will be required.

**November 4-22, Monday–Friday:** Enrollment for spring 2020 continuing students for all undergraduates and graduates in Dedman College, Lyle, Meadows and Simmons.

**November 8, Friday:** Last day to drop a course (grade of W).  
**November 8-9, Friday-Saturday:** Homecoming Weekend.  
**November 14, Thursday:** Last day for December graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.  
**November 18, Monday:** Students should file for May graduation. The last day to file is January 24, 2020.  
**November 26, Tuesday:** Last day to withdraw from the University.  
**November 27, Wednesday:** No classes.  
**November 28–29, Thursday–Friday:** Thanksgiving holiday. University offices closed.  
**December 4-9, Wednesday–Monday:** No final examinations or unscheduled tests and papers.  
**December 5, Thursday:** Last day for oral/written examinations for December graduate degree candidates.  
**December 9, Monday:** Last day of classes.  
**December 10-11, Tuesday-Wednesday:** Reading days.  
**December 12-18, Thursday–Wednesday:** Examinations. (No examinations scheduled for Sunday).  
**December 19, Thursday:** Residence halls close at 10:00 a.m. for winter break. (December graduates should contact the Department of Residence Life and Student Housing).  
**December 20, Friday:** December Rotunda Recessional.  
**December 21, Saturday:** December Commencement Convocation. Official close of term and conferral of degrees.  
**December 23 - January 1, Monday - Wednesday:** University closed.  
**December 25, Wednesday:** Christmas Day.

## January Term 2020

*(December 19, 2019 – January 16, 2020)*

The January Term consists of two primary sessions: Dallas January Session and SMU-in-Taos January Session. Each primary session has different deadline dates. Some areas of instruction may offer a limited number of selected courses during the January Term, December 19, 2019 – January 16, 2020 with unique start, end, deadline dates and class meeting times to accommodate the particular needs of the course.

**January 1, Wednesday:** New Year's Day. University offices closed.

## Dallas January Session 2020

**Note:** *Classes meet six hours per day, Monday through Friday. See Intersessions website for specific class information.*

**January 5, Sunday:** Last day to enroll, add a course, or drop a course without academic record. Last day to file for graduation in January Term.

**January 6, Monday:** First day of classes.

**January 7, Tuesday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**January 9, Thursday:** Last day for January Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term

**January 15, Wednesday:** Last day to drop a course or withdraw from the University (grade of W).

**January 16, Thursday:** Last day of classes, including examinations. Official close of the term and conferral of degrees.

## SMU-in-Taos January Session 2020

**Note:** *Permission of SMU-in-Taos required for all enrollments.*

**January 2, Thursday:** Last day to enroll, add a course, or drop a course without academic record.

**January 2, Thursday:** Student travel/arrival.

**January 3, Friday:** First day of classes.

**January 6, Monday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**January 9, Thursday:** Last day for January Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**January 14, Tuesday:** Last day to drop a course or withdraw from the University (grade of W).

**January 15, Wednesday:** Last day of classes, including examinations. Travel Day.

**January 16, Thursday:** Unofficial Taos Travel.

## Spring Term 2020

*(January 17 - May 16, 2020)*

**November 4-January 24, Monday–Friday:** Enrollment for spring 2020 continuing students for all undergraduates and graduates in Dedman College, Lyle, Meadows and Simmons.

**January (TBA):** Residence halls officially open at 9:00 a.m.

**January (TBA):** Academic Advising, Enrollment and Orientation conferences for new first-year and transfer undergraduate students. Conference dates to be announced. More information about AARO is available from the Office of the Student Experience, Student Affairs, 214-768-4560, [www.smu.edu/studentaffairs/newstudent](http://www.smu.edu/studentaffairs/newstudent).

**January 1, Wednesday:** New Year's Day. University offices closed.

**January 15, Wednesday:** Spring Rotunda Passage (*Tentative; subject to change*)

**January 17, Friday:** First day of classes.

**January 20, Monday:** Martin Luther King, Jr. Day. University offices closed.

**January 24, Friday:** Last day to enroll, add a course, or drop a course without tuition billing while remaining enrolled for the term. Last day to file for graduation in May.

**January 31, Friday:** Last day to drop a course without academic record (**tuition charges apply**). Last day to withdraw from the university without academic record ([withdrawal refund schedule applies](#)). See Bursar's website for more information.

**February 4, Tuesday:** Last day to declare pass/fail or no credit grading options. Also, last day to request an excused absence for the observance of a religious holiday.

**February 24, Monday:** Early intervention grades due for first-year undergraduate students.

**March 6, Friday:** Last day for continuing undergraduate students to change their majors before April enrollment.

**March 16-22, Monday-Sunday:** Spring Break.

**March 24, Tuesday:** Midterm grades due for first-year and sophomore students.

**March 31, Tuesday:** 60 percent point of the term that federal financial aid has been earned if a student officially withdraws from SMU; prior to this date a partial calculated return to federal programs will be required.

**April 6-24, Monday–Friday:** Enrollment for summer 2020 and fall 2020 continuing students for all undergraduates and graduates in Dedman College, Lyle, Meadows and Simmons.

**April 7, Tuesday:** Last day to drop a course (grade of W).

**April 10, Friday:** Good Friday. University offices closed.

**April 12, Sunday:** Easter Sunday.

**April 13, Monday:** Last Day for May graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**April 13, Monday:** Honors Convocation, 5:30 p.m.

**April 22, Wednesday:** Students should file for August or December graduation. Last day to file for August graduation is June 4. Last day to file for December graduation is the last day to enroll for fall 2020.

**April 24, Friday:** Last day to withdraw from the University.

**April 29-May 4, Wednesday–Monday:** No final examinations or unscheduled tests and papers.

**April 30, Thursday:** Last day for oral/written examinations for graduate students who are May degree candidates.

**May 4, Monday:** Last day of classes.

**May 5, Tuesday:** Reading Day.

**May 6-12, Wednesday–Tuesday:** Examinations (No examinations scheduled for Sunday).

**May 13, Wednesday:** Residence halls officially close for non-graduating students.

**May 15, Friday:** Baccalaureate.

**May 16, Saturday:** May Commencement Convocation. Official close of term and conferral of degrees.

**May 17, Sunday:** Residence halls officially close for graduating seniors.

## May Term 2020

*(May 14 - 29, 2020)*

The May Term consists of two primary sessions: Dallas May Session and SMU-in-Taos May Session. Each primary session has different deadline dates. Some areas of instruction may offer a limited number of selected courses during the May Term, May 14 - 29, 2020 with unique start, end, deadline dates, and class meeting times to accommodate the particular needs of the course.

## Dallas May Session 2020

*Note: Classes meet four hours per day, Monday through Friday.*

**May 14, Thursday:** First day of classes.

**May 14, Thursday:** Last day to enroll, add a course, or drop a course without academic record (tuition charges apply). See Bursar's website for more information. Last day to declare pass/fail or no credit grading options. Last day to file for graduation in May Term. Last day to request an excused absence for the observance of a religious holiday.

**May 22, Friday:** Last day for May Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**May 25, Monday:** Memorial Day. University offices closed.

**May 26, Tuesday:** Last day to drop a course or withdraw from the University (grade of W).

**May 29, Friday:** Last day of classes, including examinations. Official close of term and conferral of degrees.

## SMU-in-Taos May Session 2020

*Note: Permission of SMU-in-Taos required for all enrollments.*

**May 13, Wednesday:** Travel day and arrival of students, 2–6 p.m.

**May 14, Thursday:** First day of classes.

**May 14, Thursday:** Last day to enroll, add a course, or drop a course without academic record (tuition charges apply). See Bursar's website for more information. Last day to declare pass/fail or no credit grading options. Last day to file for graduation in May Term. Last day to request an excused absence for the observance of a religious holiday.

**May 22, Friday:** Last day for May Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**May 26, Tuesday:** Last day to drop a course or withdraw from the University (grade of W).

**May 29, Friday:** Last day of classes, including examinations.

**May 30, Saturday:** Travel Day.

## Summer Term 2020

*(June 1 – August 4, 2020)*

The summer term consists of four primary sessions: Dallas Full Session, Dallas First Session (June), SMU-in-Taos First Session, and Dallas Second Session (July). Each primary session has different deadline dates. There are also four shorter sessions within the first and second sessions. Some areas of instruction may offer a limited number of selected courses during the Summer Term, June 1 – August 4, with unique start, end, deadline dates and class meeting times to accommodate the particular needs of the course.

### Dallas Full Session

**Note:** *Classes meet 2 hours, 15 minutes twice a week or 1 hour, 30 minutes three times a week.*

**May 25, Monday:** Memorial Day. University offices closed.

**June 1, Monday:** First day of classes.

**June 4, Thursday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information. Last day to file for August graduation.

**June 10, Wednesday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**July 3, Friday:** Independence Day observed. University offices closed.

**July 16, Thursday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**July 23, Thursday:** Last day to drop a course (grade of W).

**July 29, Wednesday:** Last day to withdraw from the University.

**August 4, Tuesday:** Last day of classes, including examinations. Official close of term and conferral of degrees.

### Dallas First Session (June)

**Note:** *Classes meet 2 hours a day, Monday–Friday*

**May 25, Monday:** Memorial Day. University offices closed.

**June 1, Monday:** First day of classes.

**June 2, Tuesday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information.

**June 4, Thursday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday. Last day to file for August graduation.

**June 16, Tuesday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**June 23, Tuesday:** Last day to drop a course (grade of W).

**June 24, Wednesday:** Last day to withdraw from the University.

**June 30, Tuesday:** Last day of classes, including examinations.

**August 4, Tuesday:** Official close of term and conferral of degrees.

### June A (11-day June Session)

*Classes meet four hours per day, Monday through Friday.*

**June 1, Monday:** First day of classes.

**June 1, Monday:** Last day to add/enroll and to declare pass/fail or no credit grading options.

**June 10, Wednesday:** Last day to drop/withdraw from the University (grade of W).

**June 15, Monday:** Last day of classes, including examinations.

## June B (11-day June Session)

*Classes meet four hours per day, Monday through Friday.*

**June 16, Tuesday:** First day of classes.

**June 16, Tuesday** Last day to add/enroll and to declare pass/fail or no credit grading options.

**June 25, Thursday:** Last day to drop/withdraw from the University (grade of W).

**June 30, Tuesday:** Last day of classes, including examinations.

## SMU-in-Taos First Session

*Note: Permission of SMU-in-Taos required for all enrollments.*

*(Regular Session)*

**June 2, Tuesday:** Travel day and arrival of students, 2-6 p.m.

**June 3, Wednesday:** First day of classes.

**June 3, Wednesday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information.

**June 4, Thursday:** Last day to file for August graduation.

**June 8, Monday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**June 11, Thursday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**June 16, Tuesday:** Last day to drop a course or withdraw from the University (grade of W).

**June 18, Thursday:** Last day of classes, including examinations.

**June 19, Friday:** Departure of students.

**August 4, Tuesday:** Official close of term and conferral of degrees.

*(Field Session)*

**June 2, Tuesday:** Travel day and arrival of students, 2-6 p.m.

**June 3, Wednesday:** First day of classes.

**June 3, Wednesday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information.

**June 4, Thursday:** Last day to file for August graduation.

**June 8, Monday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**June 16, Tuesday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**June 25, Thursday:** Last day to drop a course or withdraw from the University (grade of W).

**June 30, Tuesday:** Last day of classes, including examinations.

**July 1, Wednesday:** Departure of students.

**August 4, Tuesday:** Official close of term and conferral of degrees.

## Dallas Second Session (July)

*Note: Classes meet 2 hours a day, Monday–Friday.*

**June 4, Thursday:** Last day to file for August graduation.

**July 3, Friday:** Independence Day observed. University offices closed.

**July 6, Monday:** First day of classes.

**July 7, Tuesday:** Last day to enroll, add courses or drop courses without academic record (tuition charges apply). See Bursar's website for more information.

**July 9, Thursday:** Last day to declare pass/fail or no credit grading options. Last day to request an excused absence for the observance of a religious holiday.

**July 14, Tuesday:** Last day for August graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**July 27, Monday:** Last day to drop a course (grade of W).

**July 29, Wednesday:** Last day to withdraw from the University.

**August 4, Tuesday:** Last day of classes, including examinations. Official close of term and conferral of degrees.

## **July A (11-day July Session)**

*Classes meet four hours per day, Monday through Friday.*

**July 6, Monday:** First day of classes.

**July 6, Monday:** Last day to add/enroll and to declare pass/fail or no credit grading options.

**July 15, Wednesday:** Last day to drop/withdraw from the University (grade of W).

**July 20, Monday:** Last day of classes, including examinations.

## **July B (11-day July Session)**

*Classes meet four hours per day, Monday through Friday.*

**July 21, Tuesday:** First day of classes.

**July 21, Tuesday:** Last day to add/enroll and to declare pass/fail or no credit grading options.

**July 30, Thursday:** Last day to drop/withdraw from the University (grade of W).

**August 4, Tuesday:** Last day of classes, including examinations.

## **August Term 2020**

*(August 6 – 21, 2020)*

The August Term consists of one primary session: SMU-in-Taos August Session. Some areas of instruction may offer a limited number of selected courses during the August Term, August 6 – 21, 2020 with unique start, end, and deadline dates to accommodate the particular needs of the course.

## **SMU-in-Taos August Session**

**Note:** *Permission of SMU-in-Taos required for all enrollments.*

**August 5, Wednesday:** Travel day and arrival of students, 2-6 p.m.

**August 6, Thursday:** First day of classes.

**August 7, Friday:** Last day to enroll, add a course, or drop a course without academic record (tuition charges apply). See Bursar's website for more information. Last day to declare pass/fail or no credit grading options. Last day to file for graduation in August Term. Last day to request an excused absence for the observance of a religious holiday.

**August 14, Friday:** Last day for August Term graduation candidates to change grades of Incomplete, and to obtain a final grade for a grade of X or a missing grade from a previous term.

**August 20, Thursday:** Last day to drop a course or withdraw from the University (grade of W).

**August 21, Friday:** Last day of classes, including examinations. Official close of term and conferral of degrees.

**August 22, Saturday:** Travel Day.

# Major Religious Holidays

*(August 2019-August 2020)*

Listing of religious holidays for use in requesting excused absences according to University Policy, Excused Absences for University Extracurricular Activities and Religious Holidays. For religious holidays not listed, the instructor or supervisor may contact the Office of the Chaplain.

## Christian

**Christmas:** December 25, 2019

**Good Friday:** April 10, 2020

**Easter Sunday:** April 12, 2020

**Easter Sunday (Orthodox):** April 19, 2020

## Hindu

**Janmashtami:** August 23, 2019

**Dasera:** October 7, 2019

**Diwali:** October 27, 2019

## Jewish\*

**Rosh Hashanah:** September 30, 2019

**Yom Kippur:** October 9, 2019

**Sukkot/Simchat Torah:** October 14-15, 2019

**Hanukkah:** December 23, 2019

**Purim:** March 10, 2020

**Pesach (Passover):** April 9-10, 2020

**Shavuot:** May 29, 2020

## Muslim

**Eid al-Adha:** August 12, 2019

**Islamic New Year:** August 31, 2019

**Ashura:** September 10, 2019

**Mawlid an-Nabi:** November 10, 2019

**Ramadan:** April 24, 2020

**Eid al-Fitr:** May 24, 2020

\* All holidays begin at sundown before the first day noted and conclude at sundown on the day(s) noted.

# The Graduate Office: General Information

## History

The Graduate Office was founded in 2019 to meet the growing need for oversight of University-wide guidelines pertaining to graduate study. Its initial mandate is to provide support for students in Ph.D. programs across the university as well as master's students in the Dedman College of Humanities and Sciences and to oversee standards for admission, degree progress, and degree completion for these programs. In 2017, the Provost's Task Force on Scholarly Research and Creative Impact recommended creation of a graduate office as essential to meeting the goal set out in SMU's Strategic Plan, *Launching SMU's Second Century*, of advancing SMU's standing among pre-eminent national universities. In 2018, the Associate Vice President for Research and Dean of Graduate Studies convened a Graduate School Task Force to recommend appropriate roles and responsibilities for a graduate office at SMU. As a first step, the Task Force recommended establishing a Graduate Council to establish policies and procedures that would govern the Graduate Office's administrative functions, support for graduate students, and interactions with schools, departments, and other university offices and to continue to serve as the Graduate Office's chief committee for review of graduate curriculum changes and the awarding of fellowships. In the spring semester of 2019, the Provost established this Graduate Council. With its initial policies and procedures approved by the Graduate Council, the Graduate Office was formally established in the summer of 2019.

# **The Graduate Office: Ph.D. Programs at SMU**

## **The Doctor of Philosophy Degree at Southern Methodist University**

The Doctor of Philosophy degree recognizes a scholar's demonstrated ability to conduct and present advanced, original research that contributes significantly to their field of study. Ph.D. programs at accredited universities vary in their specific requirements. Generally, however, they require completion of a body of course work, designed to provide students with the necessary knowledge and skills to conduct advanced research, along with one or more examinations, usually referred to as "qualifying examinations," designed to confirm the student's competence in the field of study and preparation to undertake Ph.D. research. Successful completion of these requirements results in advancement to candidacy, after which the student must complete their Ph.D. research, write a dissertation describing the results of that research, present the dissertation to a committee of experts in the field, and receive that committee's approval.

SMU's Ph.D. programs are responsible for setting and maintaining curricula that meet the highest standards in their fields. Each Ph.D. program is operated by a specific academic department or academic program and is governed by policies and procedures set by the school in which that department or program resides. The text below describes policies that apply to all Ph.D. programs. Policies and procedures set by each individual school can be found in that school's section of this catalog.

## **Admissions Requirements for Ph.D. Programs**

Applicants must hold a bachelor's degree from a college or university recognized by the accrediting agencies in whose jurisdiction it is located to enroll in one of SMU's Ph.D. programs. Applicants with international degrees equivalent to a U.S. bachelor's will be considered, provided the degree is from a college or university of recognized standing. Graduates of colleges not fully recognized will be treated as special cases and will be required to produce evidence attesting to the quality of their programs. Some Ph.D. programs may require that applicants have received a master's or equivalent international degree in order to enroll. All applicants must have adequate subject preparation in the chosen major field, normally an overall grade point average of 3.000 (on a 4.000 scale), and a satisfactory score on the GRE graduate school admission test. SMU recognizes that international institutions often use different grading systems and evaluates transcripts from institutions outside of the U.S. on a case-by-case basis. Applicants should consult the sections of this catalog that address regulations in their school and program of choice for additional application requirements.

## **International Applicants**

Applicants who do not speak English as their native language are required to supply scores on the TOEFL English language proficiency test or the IELTS English competency test. The minimum TOEFL score for admission to a Ph.D. program is 80, and the minimum IELTS score is 6.5. This requirement is automatically waived for students who have received undergraduate degrees from an English-language institution located in the United States, Canada, United Kingdom, Ireland, Australia, New Zealand, or South Africa and who have been in residence at that institution for at least two years while earning their undergraduate degree. International applicants for whom this requirement is not automatically waived but who believe they have demonstrated English-language proficiency may also request to have the requirement waived. These requests will be considered on a case-by-case basis.

## **Application Deadlines**

Final application deadlines for fall admission vary from Ph.D. program to Ph.D. program. In addition, Ph.D. programs may set separate deadlines for priority review of applications and for consideration for financial aid. Applicants are advised to consult with their prospective programs for information about the deadlines that apply to them.

Applicants who wish to be considered for nomination by their programs for the University Ph.D. or Mustang Fellowships offered by the Graduate Office must apply by their program's priority deadline or by February 1, whichever comes earlier.

In special cases, some Ph.D. programs may offer admission in terms other than the fall. Applicants should consult with their prospective programs about deadlines for admission in other terms.

## **Time Limits**

The time required to attain the necessary skills to conduct advanced, original research and then to complete and present that research varies from field to field. It may also depend on a specific student's preparation and the nature of the research project they take on. In all cases, however, pursuing a Ph.D. degree is a significant investment of time generally requiring, at minimum, four years of full-time study. Nevertheless, Ph.D. programs recognize that research in their fields advances rapidly and that scholars need to stay up to date on and to continually practice the skills and techniques of the field. Time limits for degree milestones and completion ensure that graduating students' research and skills are current.

SMU's schools and programs thus set limitations on the time granted to advance to candidacy and on the time granted to complete all degree requirements after advancing to candidacy. Usually, students will complete all examinations required by their programs by the end of the third year and will complete all requirements for the Ph.D. no later than five years after advancing to candidacy. The course of study for the Ph.D. degree is therefore expected to take no more than eight years in total. If a student takes a leave of absence approved by their program and school, the leave may be granted without being counted towards the time limit. Extensions, usually limited to one year, may be granted in special circumstances, for example if a student is pursuing their degree part time. Students should consult with their programs and schools for more information about the time limits that apply to them and about the procedures for applying for extensions.

## **Coursework and Residency**

Credit hour requirements for the Ph.D. are set by schools and programs. Students should consult their school catalogs or Ph.D. program handbooks for this information.

Continuous enrollment is expected for Ph.D. students, unless the student is granted an official leave. All Ph.D. programs follow their school's leave of absence policy for leaves for medical or other personal reasons. Programs may also grant leaves for other purposes, and students should consult with their schools and programs for additional leave options. No leave will be considered official unless approved through the leave of absence process or by the student's program and school. Students who do not enroll during the usual academic year (fall and spring semester) without receiving leave will be required to reapply. Students are also required to be enrolled in the term in which they graduate.

A period of residency at SMU is required for all Ph.D. students. The required length of residency varies by school and program, and students are advised to consult their school and program for their residency requirements.

## **Assessment of Ph.D. Students**

Ph.D. students are evaluated regularly—in most cases once every academic year—to ensure that they are receiving the appropriate mentorship necessary for success in their program. Evaluations also determine whether students are meeting degree requirements, adhering to appropriate standards for conduct, and fulfilling the responsibilities of their assistantships. Students may be placed on probation, suspended, or dismissed if they are failing to meet standards in any of these areas. In the case of probation or suspension, clear conditions as well as a timeline for clearance of the probation or reinstatement in the program will be established and communicated to the student by their program. In all cases, Ph.D. students must maintain a 3.0 cumulative GPA, and are placed on probation for one regular term if they fall below this level. If, at the end of that term, their cumulative GPA is not up to 3.0, they may be removed from their program at the discretion of their school's dean's office.

## **Qualifying Examinations and Admission to Candidacy**

Admission to a Ph.D. program does not imply admission to candidacy for the doctoral degree. Candidacy for the Ph.D. degree is a distinction that recognizes that students have gained a mature understanding of the literature of their field and have attained the necessary knowledge and skills to identify and investigate a significant research problem in that field. Students should consult their school catalogs and program handbooks for information about the requirements and timeline for advancement to candidacy.

Although additional requirements vary from program to program, all Ph.D. programs require students to pass at least one significant examination, separate from their coursework and administered by the program, before they can be

admitted to candidacy. These "qualifying" examinations, usually including at least one examination conducted orally, represent certification by the student's examination committee that the student has demonstrated the ability to identify an important research problem appropriate for Ph.D.-level research and has communicated a clear and viable research strategy for addressing this problem. Upon completion of the candidacy requirements, the program will notify the Dean of Graduate Studies that the student has been admitted to candidacy.

## **Dissertation Committee Membership**

All Ph.D. programs require that the candidate write a dissertation embodying the results of a significant and original investigation. The dissertation is expected to be a mature and competent piece of writing and must make a significant and novel contribution to the student's discipline. In addition, all dissertations must be approved by a committee whose membership has been approved by the student's program and school. The dissertation committee is composed of experts qualified to judge the validity of the student's research and its contribution to the field. In most cases, the majority of the committee will be full-time tenured or tenure-track faculty in the student's program. Students are also often encouraged, and in some cases required by their program, to include an external member unaffiliated with their program on the dissertation committee. Students are advised to consult with their schools and programs for additional regulations with regards to the formation of the dissertation committee.

## **Responsible Conduct of Research**

SMU recognizes that one of the duties of a scholar conducting research is to maintain responsible research practices and to avoid misconduct in all of its forms. The Graduate Office, therefore, offers a full-day seminar in the responsible conduct of research, covering such topics as authorship and plagiarism; data management and falsification and fabrication of data; and conflicts of interest. In accordance with federal regulations, Ph.D. students funded on federal grants are required to complete this seminar. The Graduate Office also provides online responsible conduct of research training to other graduate students and requires master's students funded by federal grants to complete this online training.

## **Financial Aid**

University grants, scholarships, fellowships and assistantships are awarded in the school or program in which the graduate student will enroll. Schools and Ph.D. programs offer a significant number of tuition scholarships and teaching or research assistantships each year. For more information, students should contact the appropriate school or program.

The Graduate Office offers University Ph.D. Fellowships and Mustang Fellowships to Ph.D. students nominated by their program and selected at the time of admission. University Ph.D. Fellowships provide funding above the amount typically available to students through their program, and are renewable for a total of five years of support, contingent upon acceptable progress towards the degree. Mustang Fellowships provide tuition waivers, health insurance, and stipends of \$30,000 for up to five years for Ph.D. students who are US citizens or permanent residents and identify as diverse in their disciplines. In addition, the Graduate Office provides a limited number of travel grants to students in reimbursement for expenses to attend a conference to present an accepted paper or poster.

## **Student Health Insurance**

The support Ph.D. students receive from their assistantships or fellowships at SMU in most cases includes full coverage of the premiums for the Student Health Insurance Plan. Full-time enrolled Ph.D. students will be automatically eligible for this coverage, if they 1) are fully supported by an SMU fellowship or assistantship which provides the student with compensation of at least \$18,000 for the year or \$9,000 for the semester, 2) are within five years of their term of matriculation in their Ph.D. program, and 3) are making satisfactory progress in their program. Coverage will be provided for the full academic year or on a semester-by-semester basis, depending on the nature of the student's assistantship or fellowship. Coverage may also be provided to Ph.D. students who do not meet these criteria, particularly if they are supported by an external fellowship or internship that does not provide health insurance coverage. Ph.D. students who are not automatically eligible may, with the support of their program and school, petition the Graduate Office for health insurance coverage. Full-time Ph.D. students who do not receive health insurance coverage may still enroll in the Student Health Insurance Plan and pay the premiums themselves.

# Data Science

## Academic Calendar

### Fall Term 2019

**July 8, Monday:** First day to enroll.

**August 25, Sunday:** Classes begin.

**August 30, Friday:** Last day to enroll, add a course or drop a course without tuition billing while remaining enrolled for the term. Last day to file for graduation. Last day to receive a full refund.

**September 2, Monday:** University Holiday, Labor Day.

**September 9, Monday:** Last day to drop a course without academic record (tuition charges apply)/withdraw from university without academic record (withdrawal refund schedule applies). See Bursar's website for more information.

**September 11, Wednesday:** Last day to request an excused absence for the observance of a religious holiday.

**October 31, Thursday:** 60 percent point of the term that federal financial aid has been earned if a student officially withdraws; prior to this date a partial calculated return to federal programs will be required.

**November 8, Friday:** Last day to drop a course and receive a grade of W. No refund provided.

**November 28–29, Thursday–Friday:** University Holidays, Thanksgiving.

**November 26, Tuesday:** Last day to withdraw from the University. No refund provided.

**December 12, Thursday:** Last day of classes (includes exams).

**December 21, Saturday:** December Commencement Convocation, Degree Conferral.

**December 23–January 1, Monday–Wednesday:** University Holidays, Winter Break (University Closed).

### Winter Term 2019

*(This term is only for new admits to the program.)*

**September 16, Monday:** First day to enroll.

**November 3, Sunday:** Classes begin.

**November 8, Friday:** Last day to enroll, add a course or drop a course without tuition billing while remaining enrolled for the term. Last day to receive a full refund.

**November 18, Monday:** Last day to request an excused absence for the observance of a religious holiday.

**November 28–29, Thursday–Friday:** University Holidays, Thanksgiving.

**December 23–January 1, Monday–Wednesday:** University Holidays, Winter Break (University Closed).

**January 28, Tuesday:** 60 percent point of the term that federal financial aid has been earned if a student officially withdraws; prior to this date a partial calculated return to federal programs will be required.

**January 31, Friday:** Last day to drop a course and receive a grade of W. No refund provided.

**February 18, Tuesday:** Last day to withdraw from the University. No refund provided.

**February 23–29, Sunday–Saturday:** Final Exam Week.

**TBD:** Spring Immersion.

**March 23, Monday:** Official close of term.

### Spring Term 2020

**November 11, Monday:** First day to enroll.

**December 23–January 1, Monday–Wednesday:** University Holidays, Winter Break (University Closed).

**January 5, Sunday:** Classes begin.

**January 10, Friday:** Last day to enroll, add a course or drop a course without tuition billing while remaining enrolled for the term. Last day to file for graduation. Last day to receive a full refund.  
**January 17, Friday:** Last day to drop a course without academic record (tuition charges apply)/withdraw from university without academic record (withdrawal refund schedule applies). See Bursar's website for more information.  
**January 20, Monday:** Martin Luther King, Jr. Day (University closed).  
**January 21, Tuesday:** Last day to request an excused absence for the observance of a religious holiday.  
**March 15, Sunday:** 60 percent point of the term that federal financial aid has been earned if a student officially withdraws; prior to this date a partial calculated return to federal programs will be required.  
**March 20, Friday:** Last day to drop a course and receive a grade of W. No refund provided.  
**April 7, Tuesday:** Last day to withdraw from the University. No refund provided.  
**April 10, Friday:** Good Friday (University closed)  
**April 23, Thursday:** Last day of classes (includes exams).  
**May 16, Saturday:** Commencement Convocation, Degree Conferral.

## Summer Term 2020

**March 23, Monday:** First day to enroll.  
**May 3, Sunday:** Classes begin.  
**May 8, Friday:** Last day to enroll, add a course or drop a course without tuition billing while remaining enrolled for the term. Last day to file for graduation. Last day to receive a full refund.  
**May 18, Monday:** Last day to request an excused absence for the observance of a religious holiday.  
**May 25, Monday:** Memorial Day (University closed)  
**July 3, Friday:** Independence Day holiday (University closed)  
**July 9, Thursday:** 60 percent point of the term that federal financial aid has been earned if a student officially withdraws; prior to this date a partial calculated return to federal programs will be required.  
**July 17, Friday:** Last day to drop a course and receive a grade of W. No refund provided.  
**August 4, Tuesday:** Last day to withdraw from the University. No refund provided.  
**August 20, Thursday:** Last day of classes (includes exams).  
**August 20, Thursday:** Degree Conferral.

## Major Religious Holidays

*(August 2019-August 2020)*

Listing of religious holidays for use in requesting excused absences according to University Policy, Excused Absences for University Extracurricular Activities and Religious Holidays. For religious holidays not listed, the instructor or supervisor may contact the Office of the Chaplain.

### Christian

**Christmas:** December 25, 2019  
**Good Friday:** April 10, 2020  
**Easter Sunday:** April 12, 2020  
**Easter Sunday (Orthodox):** April 19, 2020

### Hindu

**Janmashtami:** August 23, 2019  
**Dasera:** October 7, 2019  
**Diwali:** October 27, 2019

## **Jewish\***

**Rosh Hashanah:** September 30, 2019

**Yom Kippur:** October 9, 2019

**Sukkot/Simchat Torah:** October 14-15, 2019

**Hanukkah:** December 23, 2019

**Purim:** March 10, 2020

**Pesach (Passover):** April 9-10, 2020

**Shavuot:** May 29, 2020

## **Muslim**

**Eid al-Adha:** August 12, 2019

**Islamic New Year:** August 31, 2019

**Ashura:** September 10, 2019

**Mawlid an-Nabi:** November 10, 2019

**Ramadan:** April 24, 2020

**Eid al-Fitr:** May 24, 2020

\* All holidays begin at sundown before the first day noted and conclude at sundown on the day(s) noted.

# Data Science: General Information

## SMU ID and Email

Once you've been admitted to the Master of Science in Data Science program, you will receive a letter from Admissions that contains your SMU ID and SMU email. This letter will give you instructions on how to activate your account in my.SMU and set your password. If you've not already activated your account, you should do so.

## Enrollment Information

Students will be enrolled in courses by the University Registrar's Office. Before you can be enrolled, you will need to read and agree to the Student Rights and Responsibilities which consists of 1) Financial Rights & Responsibilities, 2) Honor Code & Student Code of Conduct, and 3) Appeals & Complaints. You will be sent an email regarding this prior to your first semester of enrollment. Students are required to agree to this every semester before they can be enrolled.

If you need to drop a course or withdraw, please see below. (NOTE: Please refer to the Academic Calendar for important deadlines.)

### Drop a course:

Login to my.SMU and click on Student Homepage.

Follow steps in the online tutorial located at <http://www.smu.edu/BusinessFinance/OIT/Training/accessself>.

Click on Students.

Click on Full Student Essentials Course.

Click Enroll.

Click Drop Classes from My Schedule.

(The online tutorial explains how to do this in my.SMU.)

### Withdraw from Program:

Students cannot withdraw from the University online. You must contact one of the Executive Program Directors. The University Registrar's Office will be notified and process the withdrawal.

## Holds

- If you have a hold, you will be able to view the hold in my.SMU
- Log in to my.SMU.
- Click on Student Homepage.
- Holds will be listed in the upper right-hand corner.
- Click on the Details link.
- Click on the link for the hold to see instructions.

## Personal Information Update

You are required to review and/or update their Personal Information annually. That is, addresses, phone numbers, emergency contact information, and demographic data. You will be sent an email with instructions reminding you to do this. You will be prevented from enrolling if your information is insufficient or outdated.

## Student Rights and Responsibilities

Each term you must read and agree to the terms of the Student Financial Rights and Responsibilities agreement. This document addresses the student financial obligation and tuition repayment agreement as well as the withdrawal policy, failure to pay, collections for nonpayment, etc. You may not enroll for classes until you have agreed to the terms of this document.

## **FERPA/Confidentiality of Account**

Your education records are maintained in a secure and confidential manner. More information regarding FERPA can be found on our FERPA webpage.

## **Enrollment Verifications**

Should you need to obtain an Enrollment Verification while pursuing your degree, click here for more information.

## **Transcript Requests**

You may request an official transcript in the Student Center of my.SMU. Click here for more information.

## **Veteran Benefits**

Do you plan to use VA benefits while pursuing your degree? If so, visit our Veterans webpage for specific information.

## **Graduation**

The University Registrar would like to personally invite you to participate in the commencement ceremony after you complete your degree. Visit our Academic Ceremonies webpage for specific information.

## **Questions?**

Send an email to [enrol\\_services@smu.edu](mailto:enrol_services@smu.edu)

Contact us at 214-768-3417

# Data Science: Tuition, Fees and Financial Aid

## Tuition, Fees and Living Expenses

The *Financial Aid Bulletin* is issued each academic year. It provides the general authority and reference for SMU financial regulations and obligations, as well as detailed information concerning tuition, fees and living expenses.

Continuing students registering must ensure that payment for the full amount of charges is posted to their account by the payment due date showing on their bill. The due dates are also published on the Bursar website.

Billing notifications are sent to the student's SMU email address and to the designated authorized payer(s) email address when a bill is generated. The billing notification will provide instructions on how to view the bill online through SMU<sup>pay</sup>. If notification is not received two weeks prior to the due date, the student and/or designated authorized payer(s) should contact the Office of the University Bursar.

Payments made in person or mailed must be received by the Office of the University Bursar, located on the first floor of the Laura Lee Blanton Student Services Building, no later than 4 p.m. Central Time on the payment due date. Payments made online via electronic check or credit card must be posted no later than 11:59 p.m. Central Time on the payment due date. Students and/or those paying on behalf of students who pay online automatically receive an electronic confirmation of payment; students and/or designated authorized payer(s) paying through other methods can also verify receipt of payment online.

Students enrolling after the payment due date must pay at the time of enrollment. Students whose accounts are not cleared by the payment due date or at the time of enrollment are subject to a late payment fee of \$50 for balances between \$250 and \$999.99, and \$150 for balances between \$1,000 and \$5,000. Balances more than \$5,000 are charged 3 percent of the outstanding balance, not to exceed \$750. Also, after the monthly payment due date has passed, a 1.5 percent past due fee will be assessed on the unpaid student and/or miscellaneous account each month until the balance is paid. The enrollment of students whose accounts remain unpaid after the payment due date may be canceled at the discretion of the University. Students are individually responsible for their financial obligations to the University.

All refunds except federal Parent PLUS loans, prepayment accounts, the SMU Monthly TuitionPay Payment Plan and international wires will be made payable to the student. A credit card payment will only be refunded to the student if federal student loans have been applied to their account. International wires will be refunded by wire to the originating wire account less a \$35 wire-processing fee. The Parent PLUS loan borrower can request the refund to be processed to the student by submitting a Parent PLUS Release form, located on the Bursar website. If the refund is issued by check, the student may request, in writing, that the refund be sent to another party.

Any outstanding debts to the University will be deducted from the credit balance prior to issuing a refund. Any outstanding debts to the University that include Title IV funds must have an Authorization to Credit Account form and/or an Authorization to Credit Account Parent form on file in order to transfer funds to cover current award year debts. Students need to sign the ACA form and the federal parent PLUS loan borrower needs to sign the ACAP form.

Any outstanding debts to the University that do not include Title IV funds will be deducted from the credit balance prior to issuing a refund. All other debts should be paid directly by the student.

A student whose University account is overdue or who in any other manner has an unpaid financial obligation to the University will be denied the recording and certification services of the Office of the Registrar, including the issuance of a transcript or diploma, and may be denied readmission until all obligations are fulfilled. The Division of Enrollment Services may stop the registration, or may cancel the completed registration, of a student who has a delinquent account or debt, and may assess all attorney's fees and other reasonable collection costs (up to 50 percent) and charges necessary for the collection of any amount not paid when due. Matriculation in the University constitutes an agreement by the student to comply with all University rules, regulations and policies.

Applications for financial assistance should be submitted well in advance of registration in accordance with recommended filing dates set forth by the Division of Enrollment Services, Office of Financial Aid. Applications

received after the recommended deadline can expect a delay in application processing time due to the increased volume. This will ultimately delay disbursement of financial aid to the student account. Students and families are expected to clear all billed charges by the published billing due dates regardless of the status of their financial aid application. Any funds that disburse to the student account after the payment due date has passed, will be applied to any outstanding charges first. Remaining financial aid funds will be refunded to the student.

During the registration process, students will be prompted to read and agree to the Student Rights and Responsibilities, which provides information regarding financial rights and obligations, SMU's Honor Code, the Code of Conduct, and the student appeals and complaints process.

Students who elect to register for courses outside of their school of record will pay the tuition rate of their school of record.

## **Tuition Refunds for Withdrawal from the University**

No refunds of tuition or fees will be considered without an official withdrawal. Policies for official withdrawal, including medical and mandatory administrative withdrawal, are found in the Academic Records and General and Enrollment Standards section of this catalog.

Reduction of tuition and fees is determined by the effective date of the withdrawal and is based on the schedule listed in the *Financial Information Bulletin* and the SMU Bursar website.

## **Financial aid implications of withdrawing from the University**

Federal regulations require schools to adjust financial aid when a student officially withdraws from the University before completing 60% of the term. Financial aid is reduced to a pro-rated amount based on the amount of time the student was enrolled in classes in that specific term, thus "earning" financial aid proportionate to the amount of time enrolled. The "unearned" portion of aid will be returned to the funding source. Students completing 60% or more of a term are considered to have earned 100% of their financial aid for that term. This federally mandated calculation is completely independent of university's refund policies for withdrawals and may require a reduction in financial aid even if there is no reduction in tuition charges. The end result could create a substantial student account balance after the withdrawal is processed. For this reason, students are strongly encouraged to contact their financial aid adviser, before initiating a withdrawal, to discuss the financial implications of withdrawing. For additional information on the University's tuition refund policies, see the SMU *Financial Information Bulletin* or the University Bursar's website.

Information on the implications of withdrawing on your financial aid can be found on the Office of Financial Aid website.

Medical withdrawals and mandatory administrative withdrawals allow a prorated refund of tuition and fees and must be initiated through the academic adviser or academic Dean's office.

## **Payment Plan Options**

### **SMU Monthly Payment Plan**

SMU offers several payment plan options to assist students and families. Refer to the Bursar's website for detailed payment plan information: [www.smu.edu/paymentplans](http://www.smu.edu/paymentplans).

Annual payment plans are available in 12-month and 10-month formats. Term payment plans are available in 6-month and 5-month formats. The summer payment plan is three months. Payment plan options are not available for short terms including JanTerm, MayTerm, August Term and Winter Term.

## **Graduate and Professional Student Aid**

University grants, scholarships, fellowships and assistantships are awarded in the school or department in which the graduate student will enroll. Schools and departments that offer master's or Ph.D. degrees offer a significant number of tuition scholarships and teaching or research assistantships each year. For more information, students should contact the appropriate school or department.

Grants and loans for Texas residents, private and federal loans, and employment programs may be available by filing the Free Application for Federal Student Aid. The FAFSA may be completed online at [www.fafsa.gov](http://www.fafsa.gov). The SMU Title IV school code number is 003613.

More information is available online at [www.smu.edu/financialaid](http://www.smu.edu/financialaid).

# Data Science: Enrollment and Academic Records

The standards herein are applicable to all students at the University and constitute the basic authority and reference for matters pertaining to University academic regulations and records management. Enrollment in the University is a declaration of acceptance of all University rules and regulations. A complete *University Policy Manual* is available at [www.smu.edu/policy](http://www.smu.edu/policy). Additional information regarding rules and regulations of the University can be found in this catalog. Undergraduate students must follow the University-wide requirements that are in effect for the academic year of matriculation to SMU. The applicable requirements of majors and minors are those in effect during the academic year of matriculation to SMU or those of a subsequent academic year. Students may not follow a catalog for an academic year in effect prior to their matriculation term. Students who are not enrolled for three or more years will return to SMU under the current catalog.

## General Policies

### Confidentiality of Education Records

The Family Educational Rights and Privacy Act of 1974 is a federal law that grants students the right to inspect, obtain copies of, challenge, and, to a degree, control the release of information contained in their education records. The act and regulations are very lengthy, and for that reason, SMU has issued its own FERPA-based guidelines that are available at the University Registrar's Office FERPA website [www.smu.edu/FERPA](http://www.smu.edu/FERPA). Policy 1.10 of the *University Policy Manual* also discusses this law.

In general, no personally identifiable information from a student's education record will be disclosed to any third party without written consent from the student. Several exceptions exist, including these selected examples: 1) information defined by SMU as directory information may be released unless the student requests through my.SMU Student Homepage that it be withheld, 2) information authorized by the student through my.SMU Student Homepage may be released to those individuals designated by the student and 3) information may be released to a parent or guardian if the student is declared financially dependent upon the parent or guardian as set forth in the Internal Revenue Code. Additional information is available at [www.smu.edu/FERPA](http://www.smu.edu/FERPA).

### Student File Number

The University assigns each student an eight-digit SMU identification number, which is used to verify each student's identity and is provided without additional charges. The student should furnish the SMU ID number on all forms when requested, as this number is the primary means the University has to verify the identity for each student's academic records and transactions related to the records.

### Name Change

A student who has a change in name must provide to the University Registrar's Office his or her Social Security card or the form issued by the Social Security Administration. A valid passport may also be used to complete a name change. Enrollment or records services for the student under a name different from the last enrollment cannot be accomplished without one of the above documents. All transcripts and diplomas are issued only under a person's legal name as recorded by the University Registrar's Office.

### Preferred Name

Students who wish to use a name other than their legal name can add a preferred name to their file in addition to their primary/legal name, or update a preferred name already on file, using the self service functions in the my.SMU Student Homepage. The University will make efforts to use the preferred name in communications and in the course of university business. However, there are situations that due to business practices, legal requirements or system limitations the use of a primary/legal name will be used.

SMU has many offices that keep records with student names and many data systems used for specific applications. In addition to updating their preferred name in my.SMU, students may need to notify some offices regarding their use of a preferred name.

A preferred name is a first, middle and/or last name that may be chosen to be used instead of legal first, middle and last name. There is no documentation required to create or change a preferred name. Students are advised that if they choose to use a preferred name, they should use it consistently and resist changing it frequently. Students also are advised that the use of a preferred last name can lead to confusion with employers and organizations in attempting to match official educational records with applications and it is recommended that students provide both their preferred and legal names on applications.

Here is a partial list of standard name usage:

Display name – my.SMU Student Homepage	Preferred name, if provided
Instructor Class Roster	Preferred name, if provided
Instructor Grade Roster	Preferred name, if provided
Canvas	Preferred name, if provided
Global Directory of email addresses	Preferred name, if provided
SMU online directory	Preferred name, if provided
SMU ID Card	Primary (legal) name -- under review
Financial Aid related forms and documents	Primary (legal) name
Official Academic Transcript	Primary (legal) name
Diploma	Primary (legal) name or derivative
Degree Verifications	Primary (legal) name
Housing / Residence Life	Preferred first name, Primary last name
SEVIS Reporting (international students)	Primary (legal) name

## **Email and Mailing Addresses, Telephone, and Emergency Contact**

Each student must provide the University Registrar's Office with both a home and local (mailing) address, both a home and local telephone number and contact information of a designated emergency contact using the self-service functions in the my.SMU Student Homepage. Students enrolling at SMU authorize the University to notify their emergency contacts in the event of a situation affecting their health, safety, or physical or mental well-being, and to provide these contacts with information related to the situation.

Students who enroll in an arranged section course will be asked to provide the University Registrar's Office with an off-campus study address. This is the physical location the student is living while enrolled in this course.

When a student applies for graduation and becomes a candidate they can provide a diploma address (address to which they would like their diploma mailed) to the University Registrar's Office.

International students are required to provide a residence address (physical street address where they are currently living) as their mailing (local) address. International students will be prevented from enrolling if a U.S. address is not provided.

Students are expected to keep current all their addresses and telephone numbers, including emergency contact details, through my.SMU, the University's Web-based self-service system. Students may be prevented from enrolling if their information is insufficient or outdated. Changes to parent information should be reported by contacting records@smu.edu, and the email should include the student's full name and SMU student ID number.

The University issues all students an email address. Students may have other email addresses, but the University-assigned email address is the official address for University electronic correspondence, including related communications with faculty members and academic units.

Official University correspondence may be sent to students' mailing addresses or SMU email addresses on file. It is the responsibility of students to keep all their addresses current and to regularly check communications sent to them since they are responsible for complying with requests, deadlines and other requirements sent to any of their mailing addresses on file or to their SMU email.

## Cell Phones

The University requests that students provide mobile/cell telephone numbers, as they are one means of communicating with students during an emergency. Mobile/cell telephone numbers may also be used by University officials conducting routine business. Students who do not have a mobile/cell telephone or do not wish to report the numbers should provide this information to the University through my.SMU Student Homepage. Students may be prevented from enrolling if their mobile/cell telephone numbers are not on file or if they have not declared "no cell" or "prefer not to report" in my.SMU.

## Ethnicity

SMU requires that a valid ethnic group category be on file for all students. SMU's policies and the Family Educational Rights and Privacy Act of 1974 protect the confidentiality and privacy of this information. A student's ethnic group category can be viewed in my.SMU, Student Homepage.

**U.S. Citizens or Permanent Residents.** Ethnicity is self-determined. Students of multiple ethnic backgrounds may select multiple ethnic group categories. If the ethnic group value is incorrect, the student should go to the University Registrar's Office in the Laura Lee Blanton Student Services Building and complete an Ethnic/Racial Category Update Form.

**International Students Living in the U.S. While Attending School.** Selecting an ethnic group category is not required unless the student becomes a U.S. citizen or permanent resident.

## Transcript Service

A transcript is an official document of the permanent academic record maintained by the University Registrar's Office. The permanent academic record includes all SMU courses attempted, all grades assigned, degrees received and a summary of transfer hours accepted. Official transcripts and certifications of student academic records are issued by the University Registrar's Office for all students. Copies of high school records and transfer transcripts from other schools must be requested from the institutions where the coursework was taken.

Transcripts are \$12.25 per copy. Additional copies in the same request mailed to the same address are \$3.50. Additional copies mailed to different addresses are \$12.25 a copy. PDF transcripts are \$16.00 per email address and are available only for students who attended after summer 1996.

**Note:** No incomplete or partial transcripts, including only certain courses or grades, are issued.

Transcripts cannot be released unless the student has satisfied all financial and other obligations to the University. Instructions for requesting a transcript to be mailed or picked up on campus are available at [www.smu.edu/registrar](http://www.smu.edu/registrar) ("Transcript Requests" link). A student may request his or her official transcript through the online my.SMU Student Homepage. Requests are processed through the National Student Clearinghouse. Telephone and email requests are not accepted. Students or their specified third party can pick up their transcripts at the University Registrar's Office, 101 Blanton Student Services Building.

Transcripts may be released to a third party as specified by the student on the Student's Consent for SMU to Release Information to Student's Specified Third Party form accessible at [www.smu.edu/LegalDisclosures/FERPA/Forms](http://www.smu.edu/LegalDisclosures/FERPA/Forms).

**Note:** Chapter 675, S.B. 302. Acts of the 61st Texas Legislature, 1969 Regular Session, provides as follows: *Section I.* No person may buy, sell, create, duplicate, alter, give or obtain; or attempt to buy, sell, create, duplicate, alter, give or obtain a diploma, certificate, academic record, certificate of enrollment or other instrument which purports to signify merit or achievement conferred by an institution of education in this state with the intent to use fraudulently such document or to allow the fraudulent use of such document. *Section II.* A person who violates this act or who aids

another in violating this act is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than \$1,000 and/or confinement in the county jail for a period not to exceed one year.

## **Veterans**

The University Registrar's Office certifies veterans each term for their benefits under federal programs, including the Yellow Ribbon Program. Most academic programs at SMU qualify for U.S. Department of Veterans Affairs benefits, making an SMU education accessible and affordable. Veterans are required to provide specific documents before they can be certified with the VA's Veterans Benefits Administration. Specific information regarding the certification process is available from the University Registrar's Office at [www.smu.edu/EnrollmentServices/Veterans](http://www.smu.edu/EnrollmentServices/Veterans).

The University complies with Title 38 United States Code Section 3679(e) which states that any individual who is entitled to educational assistance under chapter 31 (Vocational Rehabilitation and Employment) or chapter 33 (Post 9/11 GI Bill®) benefits will be permitted to attend or participate in the course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement (or "Statement of Benefits" obtained from the Department of Veterans Affairs' website – eBenefits, or a VAF 28-1905 form for chapter 31 authorization purposes) for said entitlement and ending on the earlier of the following dates: a) the date on which payment from VA is made to the institution; or b) 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility. SMU will not impose any penalties, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or require that a covered individual borrow additional funds to meet his/her financial obligation due to delayed disbursement funding from VA under chapter 31 or 33. However, if the anticipated funding from VA will not cover all tuition and fees, then the student is responsible for paying the difference immediately. Failure to do so may result in late or past due fees. Students who wish to be certified under chapter 31 or 33 must request in writing each semester that they wish to be certified and provide an updated statement of benefits. Additional documents are required to be submitted to the University upon initial request to be certified. See our website at [www.smu.edu/enrollmentservices/veterans](http://www.smu.edu/enrollmentservices/veterans).

## **Final Examinations**

Final course examinations shall be given in all courses where they are appropriate, must be administered as specified on the official examination schedule.

## **Complaint Procedures for Students With Disabilities**

The complaint procedures for students with disabilities are available in the Disability Accommodations and Success Strategies office, Loyd Center, Suite 202, and online at [www.smu.edu/Provost/ALEC/DASS](http://www.smu.edu/Provost/ALEC/DASS).

## **Credit Hour Loads**

The unit of measure for the valuation of courses is the credit hour. Based upon the federal definition of a credit hour, each credit hour requires one hour of direct faculty instruction and a minimum of two hours per week of preparation on the part of students for approximately 15 weeks a term. Most courses are valued for three credit hours, i.e., three contact hours per week and at least six hours of preparation. For three-credit-hour courses deployed via different course types, modes of delivery, or calendars, total number of direct contact hours should be equal to or greater than 45 hours with the total of out of class work total equal to or greater than 90 hours. Courses that deviate from this standard must provide documentation illustrating how the number of contact hours and/or work outside the course equate to this standard within the term in which the course is offered.

A full-time load in the fall, winter, spring and summer terms is 9 credit hours. Individuals who enroll for fewer than 9 hours are designated as part-time students. Although classified as "part time students", MS in Data Science students are encouraged to enroll in either a 5-term or a 7-term track, and are fully meeting expectations for academic progress at less than 9 credit hours.

**Minimum and Maximum Course Loads.** Minimum and maximum course loads allowed are based on the school of record.

## Stop Enrollment/Administrative Withdrawal

Insufficient or improper information given by the student on any admission or enrollment form – or academic deficiencies, disciplinary actions and financial obligations to the University – can constitute cause for the student to be determined ineligible to enroll or to be administratively withdrawn.

## Transfer Courses From Other Institutions

Transfer credits from other institutions are limited to 6 credit hours.

## Enrollment Policies

### Course Scheduling and Enrollment Cycles

When students enter their school of record and into a specific degree program, they are assigned an academic adviser. Students should consult with the adviser for course scheduling, schedule changes, petitions, degree requirements and other such academic concerns.

Each fall, spring and summer term has an enrollment period during which the formal process of enrollment in the University is completed. Prior to each enrollment period, the University Registrar's Office will publish enrollment instructions.

Each student is personally responsible for complying with enrollment procedures and for ensuring the accuracy of his or her enrollment. Students are expected to confirm the accuracy of their enrollment each term. Students who discover a discrepancy in their enrollment records after the close of enrollment for the term should immediately complete a Petition for Enrollment Policy Exception. Students should contact the program office for assistance with this process within six months of the term in which the discrepancy appeared; contact information for submitting a Petition for Enrollment Policy Exception can be viewed on the University Registrar's Office website at [www.smu.edu/EnrollmentServices/Registrar/Enrollment/EnrollmentPolicyException](http://www.smu.edu/EnrollmentServices/Registrar/Enrollment/EnrollmentPolicyException). Petitions submitted later than six months after the discrepancy may not be considered.

### Schedule Changes

The deadline for adding courses, dropping courses without grade record and changing sections for each enrollment period is listed on the MSDS Academic Calendar. Students are encouraged to seek assistance from their advisers when considering whether to add or drop a course. A student may drop a course with a grade of W (Withdraw) through approximately midterm by using the my.SMU Student Homepage. The specific deadline is listed on the Official MSDS Academic Calendar.

After the deadline date on the Official MSDS Academic Calendar, the student may not drop a class. All schedule changes must be processed by the deadline date specified on the Official MSDS Academic Calendar. **Note:** Schedule changes are not complete for official University record purposes unless finalized in the University Registrar's Office.

**Student-Athletes.** Students must consult with the Athletic Compliance Office prior to dropping a course. In the consultation, the student will review the effects the drop might have on his or her athletic participation and financial aid. After the consultation, the Athletic Compliance Office will update my.SMU to allow the student to process the drop, if necessary. The consultation is advisory; students are responsible for their enrollment. For assistance regarding scholarships or other aspects of being a student-athlete, students should contact the Office of the Assistant Athletic Director for Student-Athlete Development.

**International Students.** Students must consult with the International Student & Scholar Services Office prior to dropping a course. (Contact [iss@smu.edu](mailto:iss@smu.edu) for consultation.) If dropping a course will cause the student to be enrolled in fewer than the required number of hours to remain a full-time student, the student's immigration status could be affected. After the consultation, the International Student & Scholar Services Office will update my.SMU to allow the student to process the drop, if necessary. The consultation is advisory; students are responsible for their enrollment.

**Students on Merit or Need-based Financial Aid.** Students should consult with their financial aid adviser prior to dropping a course. (See [www.smu.edu/EnrollmentServices/FinancialAid](http://www.smu.edu/EnrollmentServices/FinancialAid) for information regarding your financial aid counselor.) If dropping a course will cause the student to be enrolled in fewer than the required number of hours to remain a full-time student, the student's financial aid status may be affected. After the consultation, the student may drop a course through my.SMU Student Homepage. The consultation is advisory; students are responsible for their enrollment. Questions regarding this procedure or financial aid should be directed to the Office of Financial Aid.

## Withdrawal From the University

Policies on refunds for withdrawal from the University are found in the Financial Information section and in the *Financial Information Bulletin*. No refunds are made without an official withdrawal.

Students should be aware of the difference between a *drop* and a *withdrawal* and remember that they have different deadlines and separate financial policies. The deadlines for each are posted each term on the MSDS Academic Calendar. A *drop* occurs when a student removes one or more courses from his or her schedule and remains enrolled in at least one credit hour for the term. A *withdrawal* occurs when removing the course or courses will result in the student being enrolled in zero hours for the term.

If a student removes all courses from his or her schedule **prior to the first day of the term**, the transaction is considered a *cancellation* and does not result in financial penalty or impact the student's transcript.

A student who wishes to withdraw (resign) from the University before the end of a term or session must initiate a Student Petition for Withdrawal form and secure approval from the MSDS Associate Director. The Associate Director will then submit the form to the Office of the University Registrar. The effective date of the withdrawal is the date on which the Student Petition for Withdrawal is processed in the University Registrar's Office. Discontinuance of class attendance or notification to the instructors of intention to withdraw does not constitute an official withdrawal.

The enrollment of students who withdraw on or before the last day of add/drop as listed on the MSDS Academic Calendar will be canceled. Courses and grades are not recorded for canceled enrollments; however, the student will not be eligible for tuition reimbursement after the last day to enroll, add a course, or drop a course as indicated on the MSDS Official Dates for Terms. Additional information is available in the *Financial Information Bulletin*. A student who withdraws after the add/drop period will receive the grade of W in each course in which he or she enrolled and is not eligible for a refund in accordance with the MSDS Academic calendar.

Medical withdrawals allow a prorated refund of tuition and fees and have conditions that must be met prior to re-enrollment at SMU. Medical withdrawals can only be authorized by professionals in the Dr. Bob Smith Health Center, Dean of Student Life, or Vice President for Student Affairs. The last day for a medical withdrawal is the last day of class instruction for the term from which the student is withdrawing. Retroactive medical withdrawals cannot be granted.

Mandatory administrative withdrawals occur when a student is not suspended but current and/or future enrollments are canceled or withdrawn. A student's academic record is annotated with "mandatory administrative withdrawal" and the effective dates for this withdrawal. Mandatory administrative withdrawals allow a prorated refund of tuition and fees and have conditions that must be met prior to re-enrollment at SMU. Mandatory administrative withdrawals can be authorized only by the Provost and Vice President for Academic Affairs, Vice President for Student Affairs or Dean of Student Life.

Withdrawing students living in SMU housing must check out of the residence halls with the Department of Residence Life and Student Housing per established procedures.

## Audit Enrollment (Course Visitor)

Data Science courses cannot be audited.

## **Class Attendance**

Regular class attendance is required. At the beginning of the course, the instructor announces policies regarding the effect of class attendance and tardiness on the student's standing in the course via the course syllabus. These policies may include dropping a student from the course for nonattendance or tardiness as described below.

All reasons for absence or tardiness should be submitted at once to the instructor.

The satisfactory explanation of absence may release a student from disciplinary action but does not relieve a student from responsibility for the work of the course during his or her absence. A student who misses an announced test, examination or laboratory period in a regular course of study and has the permission of the instructor may be given an opportunity to make up the work at the instructor's convenience. The instructor determines in all instances the extent to which absences and tardiness affect each student's grade.

Students who miss two successive class meetings during the official add-drop period at the beginning of each term are subject to being dropped from the course. To avoid this possibility, students should contact the instructor or the department immediately following such a series of absences.

Students may be dropped by a course instructor or academic dean for nonattendance or tardiness with a grade of *W* until the University deadline to drop. Department chair approval is required. After the deadline, students must remain enrolled in the course.

Students may also be dropped by a course instructor for extreme inappropriate classroom behavior. The instructor must submit the Administrative Drop Request to drop a student from the course by the University deadline to drop a course indicated in the official MSDS Academic Calendar. Department Chair approval is required. After the deadline, the student must remain enrolled in the course and receive a final grade of *F*.

Students are charged an administrative fee for instructor initiative drops for attendance, tardiness and disruptive behavior.

## **Excused Absences for University Extracurricular Activities and Religious Holidays**

Students who participate in officially sanctioned, scheduled University extracurricular activities or observe a religious holiday should be given an opportunity to make up class examinations or other graded assignments missed as a result of this participation or related travel. The manner in which examinations or other assignments missed because of these activities are to be made up is left to the discretion of each individual faculty member. However, students should not be penalized in any way for these excused absences and should be informed by the instructor at the beginning of the term, preferably in writing, of the instructor's makeup policy. It is the responsibility of the student to make arrangements with the instructor prior to any missed scheduled examination or other missed assignment for making up this work, and to obtain any class notes or other course material missed due to absence prior to taking any subsequent examinations or submitting any subsequent graded assignments.

This statement of University policy applies for all students. To minimize the difficulties caused for both student-athletes and their instructors by excused absences due to University-sanctioned athletic activities or related travel, the Athletic Department shall 1) make available to all student-athletes and their academic advisers prior to registration a copy of the student's activity and travel schedule for the upcoming term, so as to facilitate the student's enrollment in class sections that will minimize activity and travel conflicts; and 2) require all student-athletes to provide a copy of that term's activity and travel schedule, and a copy of this Statement of University Policy, to each of their instructors at the first class meeting of the term.

Other University colleges and departments whose students will miss classes because of their participation in officially sanctioned, scheduled University extracurricular activities, related travel, or observing of religious holidays are encouraged to adopt similar procedures to minimize the difficulties caused by such absences.

A list of religious holidays for use in requesting excused absences is available on the Official MSDS Academic University Calendar. Students must notify the class instructor in writing by the 12th day of the term of any such absences that will occur during that term. Accommodations are to be made without penalty. More information can be found in the *University Policy Manual*, available at [www.smu.edu/policy](http://www.smu.edu/policy).

## Absence Due to Illness

The Dr. Bob Smith Health Center does not provide documentation for granting excused absences from class. If students are absent for illness, they should talk to their professors about how they might catch up with the material missed. If students are seriously ill and require hospitalization or an extended absence, students should talk to their professors and the Office of Student Life to decide how to deal with the interruption in their studies.

## Interpretation of Course Numbers

Each SMU course has a four-digit course number. The first number indicates the general level of the course.

1000–1999	First-year
2000–2999	Sophomore
3000–3999	Junior
4000–4999	Senior
5000–5999	Senior or Graduate
6000–9999	Graduate

The second digit specifies the number of credit hours; exceptions are noted below.

<i>Digit</i>	<i>Credit Hours</i>
0	0, .5 or 10-15
1	1 or 1.5

The third and fourth digits are used to make the course number unique within the department.

## Grade Policies

A student's grades are available to him or her through my.SMU Student Homepage.

## Grade Scale

The grade of a student in any course is determined by the instructor of the course. The following grades are authorized for recording on the student's official graduate academic record maintained by the University Registrar's Office.

<i>Grades</i>	<i>Description</i>	<i>Grade Points per Term Hour</i>
<i>A</i>	Excellent Scholarship	4.000
<i>A-</i>	Excellent Scholarship	3.700
<i>B+</i>	Good Scholarship	3.300
<i>B</i>	Good Scholarship	3.000
<i>B-</i>	Good Scholarship	2.700
<i>C+</i>	Fair Scholarship	2.300
<i>C</i>	Fair Scholarship	2.000
<i>C-</i>	Fair Scholarship	1.700
<i>D+</i>	Poor Scholarship	1.300
<i>D</i>	Poor Scholarship	1.000
<i>D-</i>	Poor Scholarship	0.700
<i>F</i>	Fail	0.000
<i>P, CR, S</i>	Pass, Credit, Satisfactory	*
<i>I</i>	Incomplete	*
<i>NC, U</i>	No Credit Received, Unsatisfactory	*
<i>X</i>	No Grade Received in Registrar's Office	*
<i>W</i>	Withdraw	*

**Note:** Asterisks denote grades not included in a student's GPA.

## **Grade of F, D, W, X and Missing/Blank**

Failing is graded *F*. If the student's work is incomplete, poor quality and not acceptable, a grade of *F* will be given. After such a grade, credit may be obtained only by repeating the course.

The grade of *D* represents performance below average expectations. Students receiving a *D* in a course that is a prerequisite to another course should consult with their advisers about repeating the course so that they will be adequately prepared for work in the following course. Courses passed with a grade of *D*, *D-* or *D+* will generally not count toward major or minor requirements.

The grade of *W* cannot be recorded unless completion of the official drop or withdrawal process has occurred by the applicable deadline during the term of enrollment. Only the grade of *W* may be recorded if the student has officially dropped courses from the schedule or withdrawn (resigned) from the University for the term. The grade of *W* may not be revoked or changed to another grade because the act of officially dropping/withdrawing is irrevocable.

The grade of *X* is a temporary administrative grade used when an official grade has not been received from the instructor. The grade of *X* will be changed to *F* if a grade is not received within 60 days of the end of the term. Graduation candidates must clear all *X*'s prior to the deadline on the Official University Calendar, which may allow less time than 60 days. Failure to do so can result in removal from the degree candidacy list and/or conversion of the grade of *X* to the grade of *F*.

A final official grade must be recorded for each enrollment. An *F* will be assigned for a missing or blank grade also indicates an official grade has not been received from the instructor. Graduation candidates must receive a grade for all course enrollments prior to the deadline on the Official University Calendar. Failure to do so can result in removal from the degree candidacy list and/or the assignment of a grade of *F*.

## **Grade of Incomplete**

A student may temporarily receive a grade of Incomplete (*I*) if a substantial portion of the course requirements have been completed with passing grades, but for some justifiable reason acceptable to the instructor, the student has been unable to complete the full requirements of the course.

The grade of *I* is normally changed to a final grade within one year but no later than the time of graduation.

At the time a grade of *I* is given, the instructor must stipulate the requirements and completion date that are to be met and the final grade that will be given if the requirements are not met by the completion date.

The instructor and the student sign the Incomplete Grade Agreement form, with a copy of the form given to the student and to MSDS Associate Director and with the instructor retaining the original form.

The maximum period of time an MSDS instructor may give the student to clear the Incomplete is until the end of the next term. If the Incomplete grade is not cleared by the date set by the instructor or by the end of the next term, the grade of *I* will be changed to the grade provided by the instructor at the time the Incomplete was assigned or to a grade of *F* if no alternate grade was provided. If the student does not clear the Incomplete grade at the end of the term, the student can appeal for an extension up to 1 year dated from the end of the original course end date, but no later than the time of graduation.

The grade of *I* is not given in lieu of a grade of *F* or *W*, or other grade, each of which is prescribed for other specific circumstances.

The grade of *I* must be resolved by the instructor who gave the grade and using the resources of the course in which the student was enrolled. A student working to complete a grade of *I* is not authorized to attend or enroll in the course again during a later term. Graduation candidates must clear all Incompletes prior to the deadline on the MSDS Academic Calendar. Failure to do so can result in removal from the degree candidacy list and/or conversion of the grade of *I* to the grade indicated by the instructor at the time the grade of *I* was given.

## Grade Point Average

A student's grade point average (cumulative GPA) is computed by multiplying the credit hours of each course attempted by the grade points earned in the particular course and then dividing the total number of grade points by the total number of hours attempted, excluding those hours for which grades are shown with an asterisk on the grade chart. The GPA is truncated, not rounded, at three decimal places.

For assistance estimating your GPA see the GPA calculator on the SMU website.

## Grade Changes

Changes of grades, including change of the grade of *I*, are initiated by the course instructor and authorized by the academic chair and by the academic dean of the school in which the course was offered. If a student requests a grade change, the instructor may ask the student to provide the request as a written petition, which may become an official part of any further process at the instructor's discretion. Changes of grades may be made only for the following authorized reasons: to clear a grade of *I*, to correct a processing error or to reflect a re-evaluation of the student's original work. A change of grade will not be based on additional work options beyond those originally made available to the entire class.

Changes of grades of *I* should be processed within a calendar year of the original grade assignment unless the grade is for thesis work. Other changes of grades must be processed by the end of the next regular term. No grade will be changed after 12 months or after a student's graduation, except in cases where a grade is successfully appealed – provided that written notice of appeal is given within six months following graduation – and in extenuating circumstances authorized by the academic dean and approved by the University Registrar's Office.

## Grades for Repeated Courses

Students will be allowed to repeat courses according to the following rules: Both the initial and the second grades will be recorded on the student's permanent academic record (transcript). Both grades will be included in the calculation of the student's cumulative GPA and in the determination of academic probation, suspension, dismissal, honors and graduation. Only the repeated course and not the initial credit hours count toward the number of hours needed for graduation.

## Pass/Fail Option

Students should consult with their advisers before declaring the pass/fail option for any course, as some courses may not be taken pass/fail.

## Grade Appeals

Written grade appeals must be initiated by the student within fourteen calendar days of the initial grade being posted. Exceptions to deadlines set forth herein for students in unusual circumstances (e.g., Spring Break, Christmas Break, studying abroad) may be granted in writing by the Managing Director. A student who feels that an assigned grade is other than the grade earned must first discuss the matter with the course instructor to determine if the discrepancy is caused by error or misunderstanding. At the time of the initial discussion, the student may be asked to provide a written petition requesting the change of grade. This petition can come in the form of an email describing the student's reasons for the appeal along with any evidence that is germane to their experience for review.

Within seven calendar days of receiving a decision on the grade appeal from the faculty member, a student who is not satisfied by the instructor's decision on a request for a grade change, and who maintains that the original grade was capriciously or unfairly determined, may appeal to the Managing Director or Department Chair. The Managing Director will designate a faculty agent to review both the faculty response and student appeal. The faculty agent will have 3 business days to review all materials and provide their decision in writing to the Managing Director, faculty member, and student. The decision of the faculty agent is considered final and appropriate action will be taken at that point unless otherwise appealed by the student.

Within seven calendar days of receiving a decision on the grade appeal from the faculty agent, a student who is not satisfied by the disposition of the appeal may appeal the decision again to the Associate Provost of SMU Global and

Online. The Associate Provost will take action as he or she deems appropriate, but the action taken must respect the principle that the determination of a grade rests with the course instructor. The Associate Provost will report in writing to the student, faculty, and Managing Director the final disposition of the appeal within seven calendar days.

These provisions are the sole rules that govern the Master of Science in Data Science program course grade appeals at Southern Methodist University.

## **Academic Advising and Satisfactory Progress Policies**

### **Academic Advising**

For an effective advising relationship, the student must be prepared when meeting with the adviser. The student must initiate the advising appointment. The adviser will give assistance to the student, but the student has the final responsibility for the accuracy of the enrollment, the applicability of courses toward the degree requirements, and his or her academic performance.

Students are assigned an academic adviser by their academic dean's office, records office or major department. A student who enrolls without first meeting with his or her assigned academic adviser may be subject to sanctions including, but not limited to, cancellation of the term enrollment and restriction from the self-service enrollment functions.

### **Leave of Absence**

A leave of absence is a temporary leave from the University – a kind of "timeout" – that may be necessary during an academic career. Students may elect to take leaves of absence for a variety of reasons, including 1) medical reasons due to accident or illness, 2) family crises or other personal situations that require an extended absence from school, 3) financial issues that may take time to resolve, and 4) academic difficulties that may best be handled by taking time to refocus on college work.

The process to return to SMU after a leave-of-absence period can be an easy one, especially if the student has gone through the steps to file for a leave of absence and planned ahead for the return. Following the MSDS leave-of-absence guidelines helps 1) assure that the degree requirements per the catalog of record when the student initially matriculated at SMU still apply upon return, 2) assist with financial aid processing, and 3) provide the support needed to return to the MSDS program and successfully finish the degree. The first step to effect a leave of absence is for the student to arrange an appointment to meet with MSDS Associate Director and MSDS student support, who will assist the student with the process.

Students in good standing may take a leave of absence for up to 12 months by sending a written notice to MSDS graduate student services staff. To be in good standing, a student must have a cumulative GPA of 3.000 or higher, must have earned eight or more hours, and must have a clear student financial record. Students seeking to re-enroll after a leave of absence must notify the Associate Director of the MSDS program in writing. A leave of absence does not affect the statute of limitations established by the initial enrollment. Any former student with less than the criteria outlined herein for good standing must reapply to the program. Students who have not enrolled for more than 12 months must follow the guidelines for readmission.

### **Academic Progress**

Failure to meet established minimum acceptable standards of academic or disciplinary performance can result in probation, suspension or dismissal. Information regarding disciplinary action can be found under Code of Conduct in the Student Affairs section of this catalog.

Graduate students must maintain a cumulative GPA of 3.000. If in any term the student falls below this cumulative GPA, the student will be placed on probation for one regular term. If at the end of the term of probation the cumulative GPA is not up to 3.000, the student may be removed from the program at the discretion of the dean's office.

## **Academic Probation, Scholarships, and Academic Dismissal**

Academic probation is a serious warning that the student is not making satisfactory academic progress. A student on academic probation is still eligible to enroll and is considered in good standing for enrolling in classes and for certification purposes. Academic probation is not noted on the permanent academic record; however, a student on academic probation may be subject to certain conditions including enrollment holds placed on their account and mandatory academic advising sessions. Students who remain on academic probation for multiple consecutive terms will be subject to increased remediation standards and may ultimately be suspended from the program if their academic standing cannot be successfully resolved.

In addition, any student with a scholarship who goes on academic probation will have one term to raise the cumulative GPA above 3.000 to retain the scholarship. If the student does not raise the cumulative GPA above 3.000 and remains on academic probation at the end of the term, the scholarship may not be allocated for the following terms.

MSDS graduate students on academic probation are not permitted to serve in any student leadership position of any organization representing either MSDS or SMU. A student on academic probation is not permitted to enroll in a directed study.

Academic dismissal is final, with no possibility of reinstatement or readmission to the University. Academic dismissal is recorded on the student's permanent academic record.

## **Academic Petitions and Waivers**

Petitions and/or requests for waivers concerning University requirements, graduation requirements and the evaluation of transfer work should be submitted to the managing director and associate Director of the program at [datasceince@smu.edu](mailto:datasceince@smu.edu). The program director will then submit the form to the Office of the University Registrar.

## **Graduation Policies**

### **Apply to Graduate**

Students must file their completed degree plan with their academic advisor no later than the second week of the semester prior to their graduation semester, i.e. if a student is graduating in spring they must file the completed degree plan no later than Friday of the 2nd week in the previous fall term. The deadline to apply for graduation once the MSDS department has made a student eligible is noted on the Official University Calendar. Applications are filed through my.SMU Student Homepage,

Students who file an application after the published deadline may be required to pay a nonrefundable late fee. Late applications may be denied after the start of the next term, and the Application for Candidacy to Graduate applied to the next conferral date.

SMU has three degree conferral periods for most programs: fall (December), spring (May) and summer (August).

Prior to approving a student for degree conferral, MSDS faculty and administration will consider any documented judicial or disciplinary complaints on record and audit the student's academic standing, including satisfactory completion of all required aspects of the MSDS program.

## **Commencement Participation**

The MSDS program holds a departmental ceremony each year in conjunction with the University-wide commencement program. To participate in either a ceremony, a student must apply online and file an Application for Candidacy to Graduate or Intent to Participate Form with the university

## **Statute of Limitations for Degree Plans**

The maximum length of time for degree completion in graduate degree programs is six calendar years. All course and degree requirements must be completed in this time period, which begins at the time of initial enrollment, with no absence greater than three consecutive calendar years.

# Data Science: Student Life

## The Division of Student Affairs

The Division of Student Affairs ([www.smu.edu/studentaffairs](http://www.smu.edu/studentaffairs)) creates and supports a robust student experience and forges strategic partnerships to best serve the entire SMU community. As educators and scholar-practitioners, we create purposeful learning and leadership opportunities for students to clarify and develop their knowledge, values, skills, and identities – challenging each to become a world changer. The Division of Student Affairs is comprised of five different organizational units that each provide unique educational and supportive resources for students during their time at SMU: Student Wellbeing and Support, Student Engagement and Success, Residence Life and Student Housing, Religious Life, and the Hegi Family Career Development Center.

## Student Wellbeing and Support

### Health Services

[www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)

The Dr. Bob Smith Health Center provides SMU students with campus access to quality, comprehensive and student-centered medical care, mental health services, and outreach programs designed to promote their health and wellbeing. The new 33,000 square foot state-of-the-art clinic facility is centrally located on campus at 6211 Bishop Boulevard. The Health Center is certified by the Accreditation Association for Ambulatory Health Care (AAAHC) for meeting rigorous nationally recognized standards and committing to delivering the highest quality of care.

**Medical Services.** The Dr. Bob Smith Health Center provides a wide range of health services allowing students to receive primary care on campus. Services available include the treatment of acute illnesses, care of injuries, minor medical procedures, physical exams, STD testing, vaccinations, allergy injections, and limited specialty services. Additional ancillary services include a clinical laboratory, an on-site pharmacy, X-ray imaging and diagnostic services, and a part-time sports medicine clinic. For appointments and health information, students may call 214-768-2141 or visit [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter).

**Acute/After Hours Care.** Students should call 911 for immediate response to life-threatening injuries or illnesses. For other urgent concerns after clinic hours, students should seek a local hospital or urgent care center. A listing of several hospital emergency rooms and after-hours urgent care facilities is provided for general reference on the Health Center website ([www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)).

**Costs.** The Health Services Fee, which is included in general student fees, covers routine medical visits and counseling appointments at the Health Center. Charges are assessed separately for lab services, x-rays, immunizations, medical supplies, pharmacy and specialty care. Claims are filed for students participating in the SMU Student Health Insurance Plan. Students with other insurance plans may request an itemized receipt in order to submit a claim for insurance reimbursement. The Pharmacy files claims for most insurance plans.

**Mandatory Health Insurance Policy.** SMU students are required to maintain insurance coverage as a condition of their enrollment. The University offers the SMU Student Health Insurance Plan (SHIP), which is administered by the Health Center's Student Insurance Office. The plan provides coverage at a reasonable cost for most on- and off-campus health care. Information is available at [www.smu.edu/healthinsurance](http://www.smu.edu/healthinsurance).

Domestic students taking nine or more credit hours and international students taking one credit hour or more are automatically enrolled in the Student Health Insurance Plan (SHIP) each semester unless they expressly waive coverage in their my.SMU account. Information about the waiver deadline is available online at [smu.edu/healthinsurance](http://smu.edu/healthinsurance). Domestic students taking between one and eight credit hours are eligible to enroll in the Student Health Insurance Plan on a voluntary basis.

**Pharmacy.** A full service pharmacy is conveniently located in the Dr. Bob Smith Health Center to meet students' prescription needs from 8:30 a.m. to 5:00 p.m., Monday through Friday. The pharmacy is in network with most insurance plans. Prescriptions and refills may be transmitted directly to the pharmacy from the student's physician.

**Immunizations.** All students (undergraduate, graduate, part-time and full-time, to include international and IEP/ESL students) are required to have an SMU medical history form on file in the Dr. Bob Smith Health Center before registration. (Health history forms are available on the Health Center's website at [www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)). All students must also submit - to the Health Center - immunization records that provide proof of two doses of the vaccine against measles, mumps and rubella. These MMR immunizations must be documented by a physician, public health record, military health record or school health record. Students will not be allowed to register without immunization compliance.

Texas state law requires all new students entering an institution of higher education under the age of 22 to provide proof of immunization for bacterial meningitis. The meningitis vaccine or a booster dose must have been received during the five-year period prior to enrollment and not less than ten days before the start of classes. Students seeking exemption from this requirement due to health risk or conscience, including religious belief, should see the second page of the SMU medical history health form. More information is found under Final Matriculation to the University in the Admission to the University section of this catalog.

All required immunizations may be obtained at the Health Center.

**Class Absence Due to Illness.** The Health Center does not issue excuses from classes for illness. Please refer to the Health Center website ([www.smu.edu/healthcenter](http://www.smu.edu/healthcenter)) for the Class Excuse Policy.

**Confidentiality and Privacy.** Confidentiality and privacy of student health information is of paramount importance at the Dr. Bob Smith Health Center. The Health Center follows all applicable state and federal laws related to the disclosure of medical and mental health information, and applies to the highest professional standards of care and privacy. All student-patient health service records are confidential. No information about a student can be released to any third party without the student's written permission.

**Release of Medical Information.** Patient health information and medical records are released only with a written release by the student. Students may sign a release allowing the Health Center to provide specific medical information with their parents, significant others or health care representatives.

**Health Education and Promotion.** The Health Center's Office for Community Health and Promotion serves as a resource to enhance the well-being of SMU students in support of their learning and success. Health information is presented through engaging programs and services to help students make informed and healthy choices. The Health Center works with students to promote activities that create a healthy environment for the SMU community.

**Counseling Services.** The Health Center provides crisis intervention, individual and group therapy, psychiatric evaluation and counseling referrals for SMU students. Use of all services is voluntary and strictly confidential. There is no charge to students who have paid the University health fee. Students can seek confidential help for concerns such as anxiety, depression, relationships, career/life planning, sexual identity, eating/body image and sexual assault/sexual harassment. Alcohol and drug prevention is a free and confidential source of help and information to the SMU community, covering issues related to substance abuse and addiction. Any laboratory tests or pharmaceuticals ordered will be charged to the student. For more information regarding scheduling appointments, students should call 214-768-2277 or visit [www.smu.edu/counseling](http://www.smu.edu/counseling).

**Testing Services.** Testing Services offers fee-based testing to the Dallas-area community. These services include on-campus administration of national testing programs such as the LSAT, MPRE, GRE and others. Other testing offered includes credit by exam (CLEP), and correspondence examinations for local distance learners enrolled in other universities. For additional information, students should visit [www.smu.edu/testingprogram](http://www.smu.edu/testingprogram) or call the center at 214-768-2269.

## **Dedman Center for Lifetime Sports**

[www.smu.edu/recsports](http://www.smu.edu/recsports)

The Dedman Center for Lifetime Sports provides aerobic studios, an indoor running track, basketball courts, volleyball courts (indoor and outdoor), racquetball courts, a climbing wall, a bouldering wall, a 25-yard recreational pool with

five lanes, 15,000 square feet of fitness and weight equipment and a Starbucks in the lobby area. These facilities are open to SMU students, faculty, staff and paying members.

**Facilities/Operations.** The center is a 170,000 square foot facility designed for recreational sports, wellness, programs and the traditions and spirit of SMU.

**Aquatics.** SMU Aquatics features a five-lane, indoor recreational pool and an out-door, zero-depth entry fountain pool known as "The Falls." Students have opportunities to participate year-round in recreational swimming, sunbathing and water sports such as water basketball, volleyball and polo. Classes offered include water fitness, adult and child swimming lessons, children's group lessons, and American Red Cross lifeguard training.

**Programs.** A variety of services and programs are available, including club sports, fitness classes, intramural sports and the Outdoor Adventure program.

**Club Sports.** Club sports offer an opportunity for students interested in concentrated training and participation in a sport. These recognized student organizations offer competition with other university/college club teams in baseball, cycling, ice hockey, men's and women's lacrosse, polo, rugby, men's and women's soccer, triathlon, ultimate Frisbee, volleyball, wakeboarding and water polo.

**Fitness.** SMU Fitness offers group exercise classes and personal training sessions. Group X exercise classes are offered throughout the day to accommodate a variety of schedules. Different types of cardio, strength and flexibility classes are available. Experienced and knowledgeable personal trainers offer sessions to train members of the University community, either one-on-one or in groups, to meet their personal fitness goals. All SMU Fitness programs have a fee for participation.

**Intramural Sports.** Many opportunities for team and individual competition are available through intramural sports such as golf, racquetball, tennis, and dodgeball. The five major sports are flag football, volleyball, basketball, soccer and softball. Leagues provide year-round opportunities to participate in a wide variety of sports and activities. Additional leadership opportunities are available for those interested in officiating or supervising various activities.

**Outdoor Adventure.** SMU Outdoor Adventures is the campus source for outdoor recreation and adventure, offering fun and challenging recreational adventure activities, community-building programs, and student leadership and personal growth opportunities. Students can sign up for SMU OA trips offering traditional and non-traditional outdoor adventure pursuits such as backpacking, rock climbing, caving and canoeing. SMU OA also manages the SMU Climbing Center, the indoor climbing and bouldering facility and the Portable Challenge and Team Development course.

**Spirit/Traditions.** The Recreational Sports Department houses the spirit and traditions of SMU including the Cheer Squad, Mustang Band, Peruna, Pom Squad and the Rotunda Yearbook.

**Mustang Band.** Founded in 1917, the Mustang Band was named the "Best College Marching Band" in Texas in Kirk Dooley's Book of Texas Bests. Long known as "the hub of SMU spirit," the band represents the University at football and basketball games, produces the Pigskin Revue during Homecoming and performs at special University- and community-related events. Membership is open to all SMU students by audition, regardless of major and scholarships based on need and ability are available.

**Rotunda Yearbook.** For over 100 years, the Rotunda Yearbook has chronicled the history of Southern Methodist University. Named in December 1915 after the architecture of Dallas Hall, the Executive Council of the Student Association voted for the annual's name after seven different students suggested it. From its beautiful art to captivating themes, the Rotunda has evolved with the times, earning national awards and recognition from the Associated Collegiate Press (ACP) and Columbia Scholastic Press Association (CSPA).

**Spirit Squads.** Members are full-time students who dedicate their time, energy and athleticism to support Mustang Athletics.

The Cheerleading Squad is a highly competitive team consisting of 20 to 30 young men and women. Twenty of the team's members compete at NCA College Nationals held in Daytona Beach, Florida where the squad placed first in 2016, 2017 and once again in 2018.

The Pom Squad is well known for their energetic performances and their ability to entertain a crowd. The dancing style of the team includes jazz, pom and hip-hop.

Peruna IX (2011-PRESENT) is the beloved mascot of the university and is accompanied by Peruna handlers that lead him across the field during football games. The Human Peruna Mascot is the costumed hero that represents SMU, and is a traditional accessory to Peruna IX.

## **Academic Integrity and Code of Conduct**

### **The Honor Code of Southern Methodist University**

Intellectual integrity and academic honesty are fundamental to the processes of learning and of evaluating academic performance, and maintaining them is the responsibility of all members of an educational institution. The inculcation of personal standards of honesty and integrity is a goal of education in all the disciplines of the University.

The faculty has the responsibility of encouraging and maintaining an atmosphere of academic honesty by being certain that students are aware of the value of it, understand the regulations defining it and know the penalties for departing from it. The faculty should, as far as is reasonably possible, assist students in avoiding the temptation to cheat. Faculty members must be aware that permitting dishonesty is not open to personal choice. A professor or instructor who is unwilling to act upon offenses is an accessory with the student offender in deteriorating the integrity of the University.

Students must share the responsibility for creating and maintaining an atmosphere of honesty and integrity. Students should be aware that personal experience in completing assigned work is essential to learning. Permitting others to prepare their work, using published or unpublished summaries as a substitute for studying required material, or giving or receiving unauthorized assistance in the preparation of work to be submitted are directly contrary to the honest process of learning. Students who are aware that others in a course are cheating or otherwise acting dishonestly have the responsibility to inform the professor and/or bring an accusation to the Honor Council.

Students and faculty members must share the knowledge that any dishonest practices permitted will make it more difficult for the honest students to be evaluated and graded fairly and will damage the integrity of the whole University. Students should recognize that their own interests and their integrity as individuals would suffer if they condone dishonesty in others.

### **The Honor System**

All SMU undergraduate students and graduate students with the exception of those enrolled in the Schools of Law, Theology, Business, or Education are subject to the Honor Code and as such are required to demonstrate an understanding of and to uphold the Honor Code. Honor codes for graduate students enrolled in the Cox School of Business, Dedman School of Law, Perkins School of Theology and Simmons School of Education and Human Development are explained in their graduate catalogs.

In support of the Honor Code, the Honor Council has the responsibility to maintain and promote academic integrity. The Honor Council is composed of a minimum of 27 members selected through an application and interview process organized by the Honor Council Executive Board.

Academic dishonesty includes plagiarism, cheating, academic sabotage, facilitating academic dishonesty and fabrication. Plagiarism is prohibited in all papers, projects, take-home exams or any other assignments in which the student submits another's work as being his or her own. Cheating is defined as intentionally using or attempting to use unauthorized materials, information or study aids in any academic exercise. Academic sabotage is defined as intentionally taking any action that negatively affects the academic work of another student. Facilitating academic dishonesty is defined as intentionally or knowingly helping or attempting to help another to violate any provision of the Honor Code. Fabrication is defined as intentional and unauthorized falsification or invention of any information or citation in an academic exercise.

Suspected cases of academic dishonesty may be handled administratively by the appropriate faculty member in whose class the alleged infraction occurred or referred to the Honor Council for resolution. Suspected violations reported to the Honor Council by a student or by an instructor will be investigated and, if the evidence warrants, a hearing will be held by a board composed of a quorum of four members of the Honor Council.

Any appeal of an action taken by the Honor Council shall be submitted to the University Conduct Council in writing no later than four calendar days (excluding school holidays) after notification of the Honor Council's decision.

## **Code of Conduct**

The following are University procedures and standards with which every student must become familiar. The University considers matriculation at SMU an implicit covenant and a declaration of acceptance on the part of the student of all University regulations. The Student Conduct & Community Standards Office, website [www.smu.edu/studentconduct](http://www.smu.edu/studentconduct), promotes community, scholarship and civility by holding students accountable to the Student Code of Conduct and the Honor Code.

Standards of conduct are established through faculty, student and administrative efforts and are under continuous evaluation by the entire University community in order to assure reasonable and fair limits. At SMU, the student is assumed to have a high degree of loyalty and responsibility to the University and its well-being, as well as to himself or herself in personal, social and intellectual pursuits; the student's behavior both on and off campus is evidence of this.

Students at SMU will discover that they are encouraged to exercise a great amount of personal freedom as well as accompanying responsibilities. Through their personal capacities for intelligent thought and action, mature students understand that there are situations in which certain behavior must be modified for the benefit of others. The University stands firm in its commitments to the rights and freedoms of students, expecting in return the same respect and concern.

Due respect for the entire University community, faculty, staff and one's fellow students is always expected. The University expects all students to be responsible citizens and to abide by all federal, state and local laws. The University Code of Conduct applies to students both on and off campus. It is the University's expectation that students will avoid behaviors such as, but not limited to, the misuse of drugs and alcohol, dishonesty, gambling, hazing, or behavior that endangers or threatens to endanger the health and safety of any person.

Students are required to identify themselves when asked by a properly identified faculty or staff member, or by another student serving as a University staff member. Persons who are not members of the University community and without business on campus may be asked to leave.

## **Conduct Review Process**

Clear disciplinary procedures are an important part of the mission of SMU as an educational institution. The intent of the system of due process at SMU is to be educational and not merely punitive for students. The goal continues to be to produce quality citizens. The purpose of the conduct review process is to encourage personal responsibility.

Depending on the degree of misconduct, a student may be subject to sanctions ranging from an informal warning to expulsion from the University. In addition, a student may be assigned educational sanctions designed to promote personal growth and development. Should a student be asked to leave the University, he or she should do so in an expeditious and peaceful manner. The student should remain off campus until he or she receives written permission from the Office of Student Conduct & Community Standards to return to campus. In the event of such separation, a student is still responsible for University financial obligations.

To ensure fairness and due process for all students in the conduct process, the student is granted an impartial hearing and the right to appeal to the University Conduct Council. A student who is appealing a sanction may remain in school until the decision and penalty are reviewed, unless otherwise determined by the Dean of Students, the Vice President for Student Affairs, or their designee. All actions related to the conduct review process are subject to presidential review.

Having voluntarily enrolled as students at Southern Methodist University and assumed a place in the University community, all students are presumed to be knowledgeable of, and have agreed to abide by the rules and regulations set

forth in the Student Code of Conduct as outlined in the SMU Student Handbook, which is available online at [www.smu.edu/StudentAffairs/StudentLife/StudentHandbook](http://www.smu.edu/StudentAffairs/StudentLife/StudentHandbook).

## **Student Engagement and Success**

### **Department of Student Development**

#### **Office of the Student Experience**

The Office of the Student Experience designs a comprehensive student experience supporting students and their families from orientation to graduation. Using a leadership framework, all students are guided through collegiate transitions. With recognition of the unique needs of veterans, graduate, transfer, and international students, the office advocates for and provides support to these special populations.

#### **Leadership**

The leadership programs available to students include the Emerging Leaders First-Year Leadership Development Program, the Crain Leadership Summit, and the Lonestar LeaderShape Institute. The Office of the Student Experience also supports student leadership development through the Caswell Leadership Program, for a group of selected students to develop projects focused on organizational leadership, faith-based leadership, community-based leadership, environmental leadership, fraternity and sorority leadership or culturally competent leadership.

#### **Parent and Family Programs**

Parents and families are supported through the Office of the Student Experience with a focus on assisting families to assist their students. Our office supports the SMU Mothers' and Dads' clubs, welcomes and supports new students and families during orientation, and supports family weekend.

#### **Special Population Support**

The Office of the Student Experience is committed to supporting all SMU students in their transitions into and through SMU. Additional support is coordinated for special student populations who may have unique factors that impact their transitions including Veteran, Transfer, International, and Graduate students.

#### **Women & LGBT Center**

[www.smu.edu/womenandlgbtcenter](http://www.smu.edu/womenandlgbtcenter)

The Women & LGBT Center works to increase awareness and understanding of gender, sexuality, and women's issues on campus through social, cultural and academic programming and outreach. We provide empowering spaces for students to develop as leaders through purposeful learning, educational, and advocacy opportunities. We also advise, support, and develop student organizations focused on gender, sexuality, and women's issues. Some of the organizations we advise include the Feminist Equality Movement, Women in Science and Engineering, and Spectrum: the lesbian, gay, bisexual, transgender and ally organization. Also housed in the center is the SMU Women's Symposium ([www.smu.edu/womsym](http://www.smu.edu/womsym)), which is part of the Education of Women for Social and Political Leadership series, established in 1966.

#### **Office of Social Change and Intercultural Engagement**

The Office of Social Change and Intercultural Engagement exists to connect students with opportunities to engage with and learn from the SMU campus, Dallas community, and beyond. The office prioritizes advocacy and awareness through immersive community engagement experiences and social justice education. There are two major functional areas of the office: community engagement and intercultural engagement.

The community engagement side of the office has signature service programs including The Big Event, Mustang Heroes, and Alternative Breaks—which provide students the opportunity to participate in immersive service experiences in Dallas and throughout the United States. The office also provides consulting services to individuals, classes, and offices to help connect them to meaningful and educational community engagement opportunities.

In addition, the office sponsors intercultural engagement and social justice education programs to provide opportunities for the exchange of ideas and experiences that enhance student perspectives, and offers various leadership opportunities through culturally based student organizations, student coordinator positions, and the CONNECT Mentoring Program.

For more information about our programs, please visit [www.smu.edu/socialchange](http://www.smu.edu/socialchange).

## **Department of Student Involvement**

[connect.smu.edu](http://connect.smu.edu)

The mission of Student Involvement is to foster experiences and create spaces encouraging students to discover their interests and find a sense of belonging through involvement. Research shows that students who get involved, regardless of the type of activity, tend to be more successful during their college experience. Student Involvement supports more than 200 opportunities for SMU students through academic and professional associations, campus programming boards, community service coalitions, fraternities and sororities, governing boards, honor societies, multicultural organizations, political clubs, club sports, religious organizations, and special interest groups. Professional staff are available to answer student's questions about getting involved and student organization operations.

The Student Involvement Office is located on the third floor of the Hughes-Trigg Student Center, Suite 314. Campus activities and organizations are an integral part of the developmental experience for students and a long-standing SMU tradition. Participation can help students develop leadership skills and provide inter-personal, social and cultural experiences.

Additional information is available online, including organization interests or type, membership requirements, contact information and event calendars. Student Involvement can also assist students in forming a new organization. To learn more visit [connect.smu.edu](http://connect.smu.edu).

**Eligibility Requirements.** Students who hold office in a student organization or represent the University as a member of a sponsored campus group (Mustang Band, Alternative Breaks, etc.) must be matriculated in a University degree-granting program, maintain a minimum 2.0 GPA, and may not be on academic probation.

## **Student Government**

Through SMU's system of representative governance, students participate with faculty and administration in the University's decision-making process. The primary voice of students in this process is the student-elected Student Senate comprised of senators, committee chairs, general members, and student body officers.

## **Hughes-Trigg Student Center**

[www.smu.edu/htrigg](http://www.smu.edu/htrigg)

The Hughes-Trigg Student Center supports the University's mission by serving as the hub of student life and activities. The Student Center enhances the student experience by providing services, conveniences, amenities, and resources to facilitate programming. The Student Involvement staff strives to provide a safe and community-focused environment to meet the diverse needs of all individuals. Our space offerings include a 6,400 square-foot ballroom, a tiered, amphitheater-style forum classroom, a 470-person capacity auditorium, a convenience store, a food court with a multifunction dining space, a post office, office and meeting space for student organizations, several lounging and quiet areas for studying, and six meeting rooms.

## **Residence Life and Student Housing**

[www.smu.edu/housing](http://www.smu.edu/housing)

The Department of Residence Life and Student Housing supports the goals of the University by creating residential communities that empower residents to value learning, citizenship and leadership in comfortable, well-maintained facilities. The department is responsible for the campus residential community, including all Residential Commons, Upper Division Housing, SMU-owned apartments, and SMU-owned Greek chapter houses.

## Hegi Family Career Development Center

[www.smu.edu/career](http://www.smu.edu/career)

The Hegi Family Career Development Center at SMU is dedicated to serving the needs of SMU students and alumni and assisting employers in reaching qualified candidates from SMU. The Career Development Center staff guides and encourages students and alumni in the development of skills necessary for lifelong career management and offers opportunities for employers to recruit students through campus events and online resources. At Hegi, the staff cares about helping students develop into well-rounded individuals, and is dedicated to values of consistency, authenticity and commitment to excellence.

**Career Express Drop-in Hours.** The Career Center offers 15-minute drop-in sessions on a first-come, first-served, basis. In these sessions, students can discuss career options or get help editing a resume. Additional information is available on our website at [www.smu.edu/career](http://www.smu.edu/career).

**Counseling Appointments.** The Career Center also provides opportunities for counseling appointments with a staff member. These longer sessions can help students navigate more complex issues, including major exploration, career exploration, professional skill building, and more.

**Peer Mentors.** Peer Mentors are highly trained student leaders who help fellow students navigate the career development process, including assisting with drop-ins, editing cover letters and resumes, and representing Hegi at campus events.

**Career Development Ambassadors.** CDA is a student organization designed to provide career development opportunities on the SMU Campus. CDAs organize events for the SMU community, which inspire engagement in the career development process, develop students' career tools, and provide networking opportunities.

**Experiential Learning.** Want to learn more about an industry, company or specific job? Experiential learning is the best way to do so. Below are some easy ways to get connected:

- **Coffee Chats/Lunch 'n Learns:** Meet an employer in an informal setting to learn about their career journey.
- **Mentors:** Connect and develop a relationship with an industry professional that is in a career you are interested in.
- **Employer Site Visits/Externships:** Shadow professionals and SMU alumni for the day and learn about their career path and what they do on a daily basis. Mustang and SMU Connection programs partner with top regional employers and alumni providing student exposure to today's competitive and ever-changing job market.
- **Informational Interviews:** Have a conversation with an alum and/or employer to build your network and learn about their education and career path.

**Employer Events.** Our Office cultivates meaningful relationships with organizations and employers who are invested in networking with dynamic, talented and skilled students across SMU's liberal and communication arts communities. Throughout the year, the Career Center hosts 2-4 Career and Internship Fairs, along with a host of Employer Industry Panels, Company Information Sessions and Industry Training and Development Workshops. These events offer students an opportunity to work with employers and alumni and to learn the skills necessary to be successful in the workplace.

## Office of the Chaplain and Religious Life

[www.smu.edu/chaplain](http://www.smu.edu/chaplain)

The Office of the Chaplain and Religious Life offers resources of pastoral care and theological reflection that nurture spiritual and vocational development as well as the moral and ethical vision and character of students, faculty and staff. Dr. Stephen W. Rankin is the chaplain and minister to the University community. Chaplain Rankin leads and preaches at weekly chapel service, an ecumenically Christian, all-University service of worship, each Wednesday during the term. Students, faculty and staff are invited to participate in this service through music, scripture readings or other expressions of worship. Other services, including the University Service of Memory, Ash Wednesday Service and memorial services as needed, are also planned and implemented by the Office of the Chaplain.

Presently, there are more than 28 religious life organizations. Alongside the Christian groups aligned with denominations, local Dallas-area congregations or national parachurch ministries, SMU also has an active Hillel chapter for Jewish students, a bustling Muslim Student Association and other faith groups of various traditions. A large number of undergraduate, graduate and professional students, as well as many of SMU's faculty, staff and administrators, participate in these religious communities.

Additionally, the Office of the Chaplain partners with faculty members across campus to direct the Faith and Learning Scholars, a cohort of students who want the experience of integrating their faith with their academic pursuits. Participants can qualify for the community engagement proficiency. Similarly, the Civil Rights Pilgrimage, founded in 2004, is an eight-day spring break journey through the South whereby students encounter shrines of freedom and meet heroes of the civil rights movement. This collaboration with Dedman College offers students a transformative opportunity while earning academic credit.

Chaplains are available for personal counseling and spiritual direction with students, faculty and staff during office hours. The Office of the Chaplain is located in the Hughes-Trigg Student Center, Suite 316. Nearby are two rooms for prayer, one designated for Muslim community members and the other for all others.

# Data Science: Faculty

# Right to Know

Southern Methodist University is pleased to provide information regarding academic programs, enrollment, financial aid, public safety, athletics and services for persons with disabilities. Students also may obtain paper copies of this information by contacting the appropriate office listed below. Disclosure of this information is pursuant to requirements of the Higher Education Act and the Campus Security Act. More information is available at [www.smu.edu/srk](http://www.smu.edu/srk).

## 1. Academic Programs

Provost Office, Perkins Administration Building, Room 219  
214-768-3219

1. Current degree programs and other educational and training programs.
2. Instructional, laboratory and other physical facilities relating to the academic program.
3. Faculty and other instructional personnel.
4. Names of associations, agencies or governmental bodies that accredit, approve or license the institution and its programs and the procedures by which documents describing that activity may be reviewed.

## 2. Enrollment

Registrar, Blanton Student Services Building, Room 101  
214-768-3417

1. *Graduation Rates.* The completion or graduation rate of the institution's certificate-seeking or degree-seeking, full-time undergraduate students and students who receive athletically related financial aid. <http://www.smu.edu/Academics/StudentAchievement>
2. *Privacy of Student Education Records.* The Family Educational Rights and Privacy Act governs SMU's maintenance and disclosure of a student's education records. FERPA provides students the right to inspect and review their education records and to seek amendment of those records that they believe to be inaccurate, misleading or otherwise in violation of their privacy rights. Further, FERPA prevents SMU from disclosing personally identifiable information about a student to outside third parties, except under specific circumstances outlined in SMU's Policy Manual.
3. *Withdrawal.* Requirements and procedures for officially withdrawing from the institution.  
**Wisconsin Refund Policy.** The following information applies only to students enrolled in distance/online courses who reside in the state of Wisconsin. The Wisconsin Administrative Code contains provisions related to online/distance education for students residing in that state. Sections from Chapter 8 of the Educational Approval Board are reprinted below. The complete code is available online at [http://docs.legis.wisconsin.gov/code/admin\\_code](http://docs.legis.wisconsin.gov/code/admin_code).  
*EAB 8.05 Partial Refunds.* A student who withdraws or is dismissed after the period of time identified under s. EAB 8.03 (1) has passed, but before completing 60 percent of the potential units of instruction in the current enrollment period, shall be entitled to a pro rata refund, as calculated below, less any amounts owed by the student for the current enrollment period, less a one-time application fee of \$100.  
(1) Pro rata refund shall be determined as the number of units remaining after the last unit completed by the student, divided by the total number of units in the enrollment period, rounded downward to the nearest 10 percent. Pro rata refund is the resulting percent applied to the total tuition and other required costs paid by the student for the current enrollment period.  
(2) All efforts will be made to refund prepaid amounts for books, supplies and other charges unless the student has consumed or used those items and they can no longer be used or sold to new students, or returned by the school to the supplier.  
(3) Refunds shall be paid within 40 days after the effective date of termination.  
(4) After the student's first period of enrollment, if a student withdraws or is dismissed in a subsequent enrollment period, the school may also retain an administrative fee of 15 percent of the total cost of a resident program, or \$400, whichever is less.  
(5) No refund is required for any student who withdraws or is dismissed after completing 60 percent of the potential units of instruction in the current enrollment period unless a student withdraws due to mitigating circumstances, which are those that directly prohibit pursuit of a

program and which are beyond the student's control.

**SMU Refund for Wisconsin Students.** SMU online/distance education students residing in Wisconsin who cancel their enrollment will receive a full refund of all tuition and fees if they officially withdraw from the University before the withdrawal deadline listed on the Official University Calendar. The University will issue refunds within 10 business days of withdrawal.

3. **Financial Aid**

Director of Financial Aid, Blanton Student Services Building, Room 212  
214-768-3417

1. Financial assistance available to students enrolled in the institution.
2. Cost of attending the institution, including tuition and fees charged to full- and part-time students; estimates of costs for necessary books and supplies; estimates of typical charges for room and board; estimates of transportation costs for students; and any additional cost of a program in which a student is enrolled or expresses a specific interest.
3. Terms and conditions under which students receiving Federal Direct Loan or Federal Direct Perkins Loan assistance may obtain deferral of the repayment of the principal and interest of the loan for
  1. Service under the Peace Corps Act;
  2. Service under the Domestic Volunteer Service Act of 1973; or
  3. Comparable service as a volunteer for a tax-exempt organization of demonstrated effectiveness in the field of community service.
  4. The requirements for return of Title IV grant or loan assistance.
  5. Enrollment status of students participating in SMU study abroad programs, for the purpose of applying for federal financial aid.

4. **Student Financials/Bursar**

University Bursar, Blanton Student Services Building, Room 212  
214-768-3417

1. Tuition and fees.
2. Living on campus.
3. Optional and course fees.
4. Financial policies.
5. Administrative fees and deposits.
6. Payment options.
7. Any refund policy with which the institution is required to comply for the return of unearned tuition and fees or other refundable portions of costs paid to the institution.

5. **DASS**

Disability Accommodations and Success Strategies  
Altshuler Learning Enhancement Center  
214-768-1470

1. Description of the process for establishing eligibility for services and documentation guidelines.
2. Listings of the various on- and off-campus resources.
3. Discussions of transitioning to postsecondary education.
4. Tips for faculty on teaching and making accommodations.

6. **Athletics**

Associate Athletic Director for Student-Athlete Services, 316 Loyd Center  
214-768-1650

1. Athletic program participation rates and financial aid support.
2. Graduation or completion rates of student athletes.
3. Athletic program operating expenses and revenues.
4. Coaching staffs.

7. **Campus Police**

SMU Police Department, Patterson Hall  
214-768-1582

Southern Methodist University's Annual Security Report includes statistics for the previous three years concerning reported crimes that occurred on campus, in certain off-campus buildings or property owned or

controlled by SMU, and on public property within or immediately adjacent to/accessible from the campus. The report also includes institutional policies concerning campus security, such as policies concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assault, and other related matters.

8. **Student Appeals and Complaints**

Student with complaints and/or grievances must first seek to resolve them with Southern Methodist University through its processes described below. In all instances and with all offices and representatives of the University, all complaints are handled impartially and in a timely manner by professionals in the subject area of the complaint. No adverse action will be taken against anyone filing a formal complaint or grievance with Southern Methodist University.

Southern Methodist University operates with integrity in all issues and is dedicated to preserving the rights of all members of the University community. Categories for which students may wish to reach out for advice and assistance and/or to submit an appeal or register a complaint are as follows: academics, code of conduct, discrimination, financial issues, honor code and privacy issues. An overview of the roles, responsibilities and procedures for complainants and the University is outlined in each of the areas below.

a. Academic Appeals and Petitions

[www.smu.edu/Provost/Pages/Default/PoliciesResources/FacultyResources/Committees](http://www.smu.edu/Provost/Pages/Default/PoliciesResources/FacultyResources/Committees)

b. Student Code of Conduct

[www.smu.edu/StudentAffairs/StudentLife/StudentHandbook/ConductCode](http://www.smu.edu/StudentAffairs/StudentLife/StudentHandbook/ConductCode)

c. Office of Institutional Access and Equity

[www.smu.edu/IAE](http://www.smu.edu/IAE)

d. Financial Responsibility and Confidentiality

[www.smu.edu/EnrollmentServices/FinancialAndConfidentiality](http://www.smu.edu/EnrollmentServices/FinancialAndConfidentiality)

e. Honor Code

[www.smu.edu/StudentAffairs/StudentLife/StudentHandbook/HonorCode](http://www.smu.edu/StudentAffairs/StudentLife/StudentHandbook/HonorCode)

f. Appeal of Grade

[www.smu.edu/catalogs](http://www.smu.edu/catalogs)

g. Academic Grievance and Appeals Procedures for Students with Disabilities

[www.smu.edu/Provost/ALEC/DASS/DisabilityAccommodations/AppealsandGrievances](http://www.smu.edu/Provost/ALEC/DASS/DisabilityAccommodations/AppealsandGrievances)

h. Appeal from financial aid decisions, including financial aid decisions based on lack of satisfactory academic progress

[www.smu.edu/catalogs](http://www.smu.edu/catalogs)

i. Policy for Non-Renewal of Athletic Aid

[www.smumustangs.com/compliance](http://www.smumustangs.com/compliance)

In addition to the right to use internal University complaint procedures, every student has the right under federal law to use complaint processes provided by the state in which his or her campus is located.

9. *Texas*. For complaints regarding programs in Texas, students should contact the Texas Higher Education Coordinating Board, Office of General Counsel, PO Box 12788, Austin TX 78711-2788; email: [studentcomplaints@thehb.state.tx.us](mailto:studentcomplaints@thehb.state.tx.us). Additional information about the Texas student complaints process may be found at [www.thehb.state.tx.us](http://www.thehb.state.tx.us) ("College Readiness and Success" link).

*New Mexico*. For complaints regarding programs in New Mexico, students should contact the New Mexico Higher Education Department, 2044 Galisteo Street, Suite 4, Santa Fe, NM 87505-2100; telephone 505-476-8400. Additional information about the New Mexico student complaints process may be found online at [www.hed.state.nm.us](http://www.hed.state.nm.us) or by contacting [private.schools@state.nm.us](mailto:private.schools@state.nm.us).

# Educational Programs

## English as a Second Language Program

[www.smu.edu/esl](http://www.smu.edu/esl)

Students whose first language is not English may encounter special challenges as they strive to function efficiently in the unfamiliar language and culture of an American university setting. Dedman College offers the following ESL resources to students from all schools and departments of SMU. Students may apply on the ESL website.

More information about the ESL Program is available on the website or from the director, John E. Wheeler ([jwheeler@smu.edu](mailto:jwheeler@smu.edu)).

### The Courses (ESL)

**ESL 1001 (0). ESL COMMUNICATION SKILLS.** The goal of this course is to improve ESL students' oral and aural interactive skills in speaking, giving presentations, pronunciation, listening, and American idiomatic usage so that they may become more participatory in their classes and integrate more readily with their native English-speaking peers. It is designed to meet the needs of undergraduate and graduate students who may be fully competent in their field of study yet require specialized training to effectively communicate in an American class-room setting. The course is free of charge, noncredit bearing, and transcribed as pass or fail. *Prerequisite:* ESL Program approval required.

**ESL 1002 (0). ESL COMMUNICATION SKILLS II.** Building on skills developed in ESL 1001, students make use of their knowledge and practice to explore various aspects of American studies. In addition to speaking and presentation skills, reading and writing are also exploited as a means for students to gain a deeper understanding of American culture, customs, attitudes, and idiomatic use of the language. The course is noncredit and no-fee, and is transcribed as pass or fail. ESL 1001 is recommended as a precursor but is not a prerequisite. *Prerequisite:* ESL Program approval required.

**ESL 20XX (0). INTENSIVE ENGLISH PROGRAM.** All 2000-level ESL courses are exclusive to the Intensive English Program. This multilevel, yearlong program is designed to prepare students and professionals for academic success at the university level. The course of study consists of English for academic purposes, TOEFL-related skills, and American culture. It is open to currently enrolled and newly incoming students, as well as to those not affiliated with SMU. This is a noncredit, nontranscribed program, and separate tuition fees are charged. *Prerequisite:* ESL Program approval required.

**ESL 3001 (0). ADVANCED GRAMMAR FOR WRITERS.** This course helps students develop their grammar and writing skills within the context of academic readings. Problem areas of English grammar and style are explored through periodic assignments, research documentation methods, and a final research project. The course is free of charge, noncredit bearing, and transcribed as pass or fail. *Prerequisite:* ESL Program approval required.

**ESL 3002 (0). ADVANCED ACADEMIC WRITING.** Building on principles of grammar and style covered in ESL 3001, this course helps students further improve the writing skills needed for their particular academic careers, using academic texts as a basis for out-of-class writing assignments and a final research project. The course is free of charge, noncredit bearing, and transcribed as pass or fail. *Prerequisite:* ESL Program approval required.

**ESL 4001 (0). ESL PRONUNCIATION SKILLS.** Students improve their pronunciation by focusing on sentence stress, rhythm, intonation, and body language while learning to mimic American speech patterns. With the instructor's assistance and extensive individual feedback, students develop personal strategies and exercises to become more aware of their own weaknesses. The course is free of charge, noncredit bearing, and transcribed as pass or fail. *Prerequisite:* ESL Program approval required.

**ESL 6001, 6002 (0). SEMINAR FOR INTERNATIONAL TEACHING ASSISTANTS.** Graduate students who speak English as a second language prepare for their teaching responsibilities with undergraduate students taking University Curriculum courses. The main components include language skills needed as international teaching

assistants, ITA-related teaching methodology, cross-cultural communication within the American classroom, and presentation skills. Also, examination of case studies, microteaching demonstrations, and periodic out-of-class individual consultations on the student's language and pedagogical skills. The course is free of charge, noncredit bearing, and transcribed as pass or fail. *Prerequisite:* ESL Program approval required.

## Conversation Buddy Program

At the beginning of each term, all students are notified via campus email of the opportunity to practice their language skills in an informal, one-on-one setting outside the classroom for one to two hours a week.

## ESL Self-Study Materials

A collection of materials is available for self-study use at the Fondren Library Information Commons. Students will find materials to help them improve their pronunciation, listening, vocabulary and grammar skills.

## Oak Ridge Associated Universities

**Note:** Only available for graduate students in either Dedman College of Humanities and Sciences or Lyle School of Engineering.

Since 1953, students and faculty of Southern Methodist University have benefited from its membership in Oak Ridge Associated Universities. ORAU is a consortium of colleges and universities and a management and operating contractor for the U.S. Department of Energy located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (the U.S. Department of Energy facility that ORAU operates), undergraduates, graduates, postgraduates and faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines, including business, Earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry and mathematics.

ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU's members, private industry and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scientist Program and various services to chief research officers.

For more information about ORAU and its programs, students should contact Dr. James E. Quick, ORAU councilor for SMU (214-768-4345), Monnie E. Champion, ORAU corporate secretary (423-576-3306), or visit the ORAU website at [www.oraui.org](http://www.oraui.org).

## SMU Global and Online

Our mission is to create innovative learning experiences that will boost your career, surprise you with ideas and transform your life or organization. SMU GO is the place for students to reach their goals for professional development and technical skills enhancement and the go-to source for students with the objective of lifelong learning. We enable the ideal of world changers being shaped everywhere.

SMU Global and Online (SMU GO) has two departments; **SMU Professional and Online (SMU PRO)** and **Lifelong Learning**.

**SMU PRO** offers a wide range of degrees, certificates and short courses to help students advance in their careers or transition successfully to new ones. Masters degrees are offered in conjunction with their respective academic units. Students complete certificates by taking a series of classes over weeks or months, depending on the specialization and the student's schedule. Additional information and a full listing of current opportunities are available at [www.smu.edu/pro](http://www.smu.edu/pro).

**Lifelong Learning** provides noncredit courses that address different cultural, scholarly, personal and professional topics for the community, a practice that has been part of the SMU tradition since 1957. Featuring small classes and individualized attention, SMU Lifelong Learning's mission is to empower learners of all ages. Our noncredit programs focus on students throughout their educational path in three areas:

**Personal Enrichment:** Enhancing adults' lives through courses that cultivate curiosity and creativity, our short-term classes delve into college-level topics, allowing students affordability, flexibility and a challenge. Regardless of previous personal or professional experience, our courses are designed to teach something new. SMU Personal Enrichment classes offer students the opportunity to explore passions, improve their skills and make new friends in a fun, low-pressure learning environment. New classes start throughout the year.

**College Prep:** Supporting pre-college and undergraduate students' higher education and career goals from strategies for mastering standardized tests, to STEAM programming focusing on leading-edge technologies, to hands-on projects that encourage critical thinking, creativity and collaboration — our courses are designed to support ambitious middle and high school students in achieving educational goals

**Career Success:** Amplifying professionals' work through continuing education, classes focusing on professional tools and resources will help adults develop essential knowledge and refine skills, strengthen their resume, and achieve professional goals through graduate test prep, skills workshops, and customized corporate learning opportunities

Additional information and a full listing of current opportunities are available at [www.smu.edu/LifelongLearning](http://www.smu.edu/LifelongLearning).

# Educational Facilities and Services

## SMU Libraries

[www.smu.edu/libraries](http://www.smu.edu/libraries)

SMU Libraries are one of the greatest assets of the University, and comprise the largest private research library system in Texas, ranking third in the state with over four million volumes. Support for research and teaching for SMU students, faculty and staff is the primary goal of all libraries at SMU. The University's library system is comprised of six libraries on the main campus and one library in Taos, NM.

1. Fondren Library
2. Hamon Arts Library
3. DeGolyer Library
4. Underwood Law Library
5. Bridwell Library
6. Business Library
7. Fort Burgwin Library

### Fondren Library

Fondren Library is the main library on campus and serves students, faculty and staff in the areas of humanities, social sciences, business, education, science, and engineering, with over three million print and online resources. Subject librarians assigned to each discipline offer personal research services to students and faculty to support teaching and learning. Subject librarians collaborate with faculty to integrate information literacy concepts into university curriculum to support the academic mission of the university. Within Fondren Library, students have access to 1,000 seats of study space, including bookable study rooms and conference rooms with supportive learning technology. The Caren Prothro Learning Commons and nearby Collaborative Commons provide both individual and collaborative group spaces conducive to creative work, as well as a Starbucks café and the IT Help Desk to provide technical assistance to the University community. For quiet study, the Fondren Foundation Centennial Reading Room is a beautiful setting with vaulted ceilings and handmade wooden tables with reading lamps in a large sunlit space. The bold visual impact of this iconic reading room epitomizes the discovery, inspiration and community for which SMU is known. In addition to physical spaces, Fondren Library also manages the SMU Digital Repository, called SMU Scholar, which houses the scholarly output of the SMU faculty and graduate students. To support the research of the university, Fondren Library provides document delivery, as well as access to holdings from other libraries via interlibrary loan. Strengths of the Fondren Library collections include, classical studies, late 18th- and early 19th-century English literature, American history, Texas history, contemporary biography and literature, anthropology, political science, economics and other social sciences.

The Norwick Center for Digital Solutions (nCDS), located in Fondren Library, focuses on digitizing collections of rare photographs, manuscripts, imprints, art work, film, musical recordings, and other unique items for increased access via the Digital Collections website. nCDS serves as a teaching lab, with digital collections development and Digital Humanities practicums available to students.

### Hamon Arts Library

The Hamon Arts Library, adjoining the south side of the Owen Arts Center of the Meadows School of the Arts, provides resources for the study of art history, communications, dance, film, music, theatre and visual art. With nearly 250,000 volumes of books, sound recordings and video recordings, the library's collections support the Meadows curriculum and are particularly strong in European and American arts. The library also provides conference room facilities; group audio-visual study and presentation rooms; and public computers for research, study and arts-specific software projects. Two special collections units are administered by Hamon Arts Library:

The Jerry Bywaters Special Collections focus on the cultural history of the American Southwest. Visual arts holdings include archival materials and works of art on paper documenting the careers of artists such as Jerry Bywaters, Otis and

Velma Davis Dozier, E.G. Eisenlohr, Octavio Medellin, Olin Travis and Janet Turner as well as correspondence of 19th-century French painter Rosa Bonheur. Performing arts holdings include two Japanese gigaku masks dating from the 7th to the 10th centuries, the papers of Oscar-winning actress Greer Garson, and materials documenting the careers of longtime SMU music faculty members Paul van Katwijk and Lloyd Pfautsch.

The G. William Jones Film and Video Collection, founded in 1970, holds more than 10,000 films and videos on a wide array of subjects, in all types of formats. The Jones Collection is best known for its Tyler, Texas, Black Film Collection, WFAA newsreel collection, and for the Sulphur Springs Collection of pre-nickelodeon films.

## **DeGolyer Library**

DeGolyer Library is a noncirculating special collections library that contains more than 170,000 volumes. In addition to rare books, the DeGolyer Library holds nearly 2,500 separate manuscript collections, nearly 1.5 million photographs and negatives, 2,000 newspaper and periodical titles, 3,000 maps, and an extensive collection of printed ephemera. Subject strengths include the American West, Mexico, railroad history, business history, and the history of science and technology.

The University Archives, part of the DeGolyer Library, are the official repository for SMU administrative and historical records of the University. The archives contain manuscripts, photographs, publications, records, and artifacts documenting the establishment and growth of the University. SMU administrators, faculty, local historians and media representatives are its principal users, but students and visiting scholars often use its materials for a variety of research projects.

## **Underwood Law Library**

Underwood Law Library is the largest private academic law library west of the Mississippi River. Its collections include more than 670,000 law-related volumes and equivalents, ranking the library among the top 20% of law libraries in the United States. The library's building is the fifth largest academic law library in the country. The subject area strengths of the library's collections mirror the Law School's curriculum and faculty research concentrations: corporate law, commercial and banking law, criminal law, securities, taxation, air and space law, constitutional law, intellectual property law, international law, law and medicine, and legal ethics. The library's collection of antiquarian law books, including the McKnight Antiquarian Book Collection, is one of the leading collections of its kind in the country, with volumes printed as early as 1473. The library has more than 700 seats and 14 group study rooms.

## **Bridwell Library**

Bridwell Library, primarily serving the faculty and students of the Perkins School of Theology, is the University's principal research resource for the fields of theology and religious studies. It offers a print collection of nearly 400,000 volumes and more than 1,000 journals, and it provides access to a wide array of digital books, journals and databases. Among the library's special collections are significant holdings in early printing, English and American Methodism, theology, religion, and the book arts. The interpretation of these collections is accomplished through class instruction, lectures, publications and exhibitions. Reference librarians are available to help students discover and use the many resources of Bridwell Library.

## **Business Library**

The Business Library of the Cox School of Business is located in room 150 of the Maguire Building. This library is open to all students regardless of major. The mission of the library is to provide the SMU community with authoritative business information, regardless of format; support the integration of information and technology into the curriculum; and act as a center for research and development for state-of-the-art information technology applications in the business education field. In support of this mission, students, faculty and staff have access to course-specific in-class instruction sessions, open enrollment research workshops and reference assistance from dedicated business librarians to enhance their use of current business news and financial, industry and market data from premier providers. The Business Library includes the Kitt Investing and Trading Center, quiet and group study areas, 70 computer workstations in individual and group areas, a multimedia studio, a group presentation practice room, a periodicals area, facility wide

wireless access, more than 400 electronic resources, and a variety of print resources, including the Hillcrest Foundation International Resource Library, the Edwin L. Cox Business Leadership Center Resource Collection, the Maguire Energy Institute Resource Collection and the Cox Career Services Collection. Librarians are available all hours that the business library is open, providing research assistance in person and virtually via email and telephone.

## **Fort Burgwin Library**

The Fort Burgwin Library, located in Taos, New Mexico, serves students and faculty in the SMU-in-Taos program. It is focused on the history, literature, cultures and environment of New Mexico and the Southwest. The library, constructed in 2004, contains approximately 9,000 books and a small collection of journals and maps, and houses the Fred Wendorf Information Commons and a computer lab.

## **Laboratories and Research Facilities**

The University provides laboratories and equipment for courses in accounting, advertising, anthropology, art, biology, chemistry, communication studies, creative computation, languages, Earth sciences, film and media studies, journalism, psychology, physics, health and physical education, dance, music, theatre, and statistics, as well as civil, computer, electrical, environmental and mechanical engineering. The University is also home to a number of centers and institutes.

## **Meadows Museum**

The **Meadows Museum**, founded by the late philanthropist Algur H. Meadows and located on campus at 5900 Bishop Boulevard, houses one of the finest and most comprehensive collections of Spanish art in the world, as well as selected masterpieces of modern European sculpture, from Rodin and Maillol to David Smith and Claes Oldenburg. The permanent collection of the museum numbers more than 3,500 objects, including paintings, sculpture, decorative arts and works on paper from the Middle Ages to the present. Artists represented include El Greco, Velázquez, Ribera, Zurbarán, Murillo, Goya, Picasso, Dalí, and Miró. The Meadows Museum hosts a regular program of loan exhibitions each year in its exhibition galleries, and it sponsors an active program of public lectures, tours, films, concerts and symposia, as well as access programs, children's art programs and family days throughout the year. Museum collections are often used by SMU faculty in their courses. The museum membership program includes exhibition previews, tours of private collections and opportunities for travel. Docent tours of the collection are available to school, University and adult groups. The Meadows Museum has a museum shop on site as well as special event rooms. Additional information is available at [www.meadowsmuseumdallas.org](http://www.meadowsmuseumdallas.org).

## **Office of Information Technology**

The Office of Information Technology (OIT) provides computing, information processing, and communications resources to satisfy the needs of faculty, students, and staff. These services include an SMU email account, access to enrollment and financial data online, Internet access, telephone services, Web-based services, technical support, and a variety of software and hardware discounts.

SMU offers high-speed network connections throughout campus. Students can take advantage of both wired and wireless connections throughout all areas of the residence halls. Wireless coverage (PerunaNet) also extends throughout the campus in classrooms, libraries, common areas, and several outdoor locations. In addition to on-campus Internet connections, OIT provides off-campus access to resources via a virtual private network connection (VPN) and access to other research institutions Wi-Fi networks through eduroam.

All students receive an SMU email account, which will remain active after graduation. The email account may be accessed online via Office 365 ([office365@smu.edu](mailto:office365@smu.edu)). Students also have access to a variety of Web-based services such as my.SMU, personal blog space ([people.smu.edu](http://people.smu.edu)), unlimited cloud storage space ([smu.edu/box](http://smu.edu/box)), and the Canvas Learning Management System ([smu.edu/canvas](http://smu.edu/canvas)). Academic information, including grade history, financial information, and class registration, is available through the my.SMU system.

OIT also provides complimentary on-campus IT support. Located in Fondren Library West, the IT Help Desk provides technical assistance for most common computing issues and installs of software applications pertinent to course instruction weekdays and weekends during the regular semester. Times will vary for breaks and summer. Please check the website at [smu.edu/oit](http://smu.edu/oit) for the latest hours. The IT Help Desk provides support via phone at 214-768-HELP or in-house for a wide variety of technical questions related to networking, software installs, and the use of SMU IT resources. The OIT website ([smu.edu/oit](http://smu.edu/oit)) provides information, step-by-step instructions, and answers to many frequently asked questions. Training On-Demand is also available through LinkedIn Learning ([smu.edu/LinkedIn](http://smu.edu/LinkedIn)) for additional software.

Although most students have a personal laptop, SMU provides a number of public computer labs. Typically, the labs contain both Mac and PC workstations and support a variety of applications. Printing is also available through our PaperCut Pay-for-Print System ([smu.edu/printing](http://smu.edu/printing)). If needing to purchase a personal copy of the software, discounts on software and computer hardware purchases are available throughout the year. More information can be found on the OIT website at [smu.edu/oit](http://smu.edu/oit).

For additional information on services provided by OIT, students should visit [www.smu.edu/oit](http://www.smu.edu/oit) or call the IT Help Desk at 214-768-HELP (4357). SMU related technology news and updates are available on Twitter (@smuoit) and the IT Connect blog ([blog.smu.edu/itconnect](http://blog.smu.edu/itconnect)).

# University Administration

## Corporate Officers of the University

R. Gerald Turner, *President*

Brad E. Cheves, *Vice President for Development and External Affairs*

Peter Moore, *Provost ad interim*

Rakesh Dahiya, *Chief Investment Officer*

Kenechukwu (K.C.) Mmeje, *Vice President for Student Affairs*

Chris Regis, *Vice President for Business and Finance and Treasurer*

Harold W. Stanley, *Vice President for Executive Affairs*

Paul J. Ward, *Vice President for Legal Affairs and Government Relations, General Counsel and Secretary*

## Academic Deans

Marc P. Christensen, *Dean of Bobby B. Lyle School of Engineering, Bobby B. Lyle Endowed Professor of Engineering Innovation*

Jennifer M. Collins, *Dean of Dedman School of Law, Judge James Noel Dean and Professor of Law*

Thomas DiPiero, *Dean of Dedman College of Humanities and Sciences*

Craig C. Hill, *Dean of Joe and Lois Perkins School of Theology*

Samuel S. Holland, *Dean of Algur H. Meadows School of the Arts, Algur H. Meadows Deanship*

Holly Jeffcoat, *Dean of Central SMU Libraries*

Stephanie L. Knight, *Dean of Annette Caldwell Simmons School of Education and Human Development, Leon Simmons Endowed Deanship*

Matthew B. Myers, *Dean of Edwin L. Cox School of Business, Tolleson Chair in Business Leadership*

## Office of the President

Dexter Burger, *Chief of Compliance and Audit Services*

Rick Hart, *Director of Athletics*

Michael H. Hites, *Chief Information Officer*

Laura Clegg, *Executive Assistant to the President*

Samantha Thomas, *Executive Director of Institutional Access and Equity and Executive Assistant to the President*

## Office of the Provost and Vice President for Academic Affairs

Sheri Kunovich, *Associate Provost for Student Academic Engagement and Success*

Douglas A. Reinelt, *Associate Provost for Faculty Affairs*

Peter Moore, *Provost ad interim*

James E. Quick, *Associate Vice President for Research and Dean of Graduate Studies*

Wes K. Waggoner, *Associate Vice President for Enrollment Management*

Maria Dixon Hall, *Senior Advisor to the Provost for Cultural Intelligence*

Patricia Alvey, *Associate Provost for Institutional Planning and Effectiveness*

David Son, *Associate Provost for Curricular Innovation and Policy ad interim*

Michael D. Tumeo, *Director for Institutional Research*

Daniel Eady, *Assistant Provost (Chief of Staff)*

Dayna Oscherwitz, *Assistant Provost for General Education*

Larenda Mielke, *Associate Provost, SMU Global and Online*

## **Division of Enrollment Services**

John A. Hall, *University Registrar and Executive Director of Enrollment Services*

Elena Hicks, *Dean of Admission and Executive Director of Enrollment Services*

Albert Jabour, *Bursar and Executive Director of Enrollment Services*

Marc Peterson, *Director of Financial Aid and Executive Director of Enrollment Services*

Claudia Sotomayor Hart, *Director, International Student & Scholar Services*

Wes K. Waggoner, *Associate Vice President for Enrollment Management*

Lawrence Winnie, *Interim Director for Retention, Manager of Second Century Academic Initiatives,  
Director of Undergraduate Studies, Department of History*

## **Office of the Vice President for Business and Finance**

Ernie Barry, *Associate Vice President for Budgets and Finance*

Warren Ricks, *Associate Vice President and Chief Risk Officer*

Michael Molina, *Associate Vice President and Chief Architect for Facilities Planning and Management*

Sheri Starkey, *Associate Vice President and Chief Human Resource Officer*

Alison Tweedy, *Associate Vice President of Campus Services*

Jim Walters, *Chief of Police*

Melanie Bailey, *Senior Contracts Administrator*

## **Office of the Vice President for Development and External Affairs**

Dana Ayres, *Senior Executive Director for Program Services and Donor Relations*

Robert Buckner, *Assistant to the Vice President for Strategic Affairs*

Blake Davis, *Assistant Vice President for Principal and Major Gifts*

Charles Headley, *Senior Executive Director for Development Services*

Regina Moldovan, *Assistant Vice President for Marketing and Communications*

Heather Shaw, *Assistant to the Vice President for Leadership Projects*

Astria Smith, *Senior Executive Director for Annual Giving and Alumni Relations*

Paula Voyles, *Assistant Vice President for School and Project Development*

## **Office of the Vice President for Legal Affairs and Government Relations, General Counsel and Secretary**

Jesse Adkins, *Associate University Counsel*

Martha Fleisher, *Special Counsel*

Susan Howe, *Associate University Counsel*

Kelly Thurman, *Associate University Counsel*

Lindsey Rattikin, *Assistant University Counsel*

Mary Anne Rogers, *Associate University Secretary*

## **Office of the Vice President for Student Affairs**

Mindy Sutton Noss, *Associate Vice President for Student Affairs and Dean of Students*

Adam R. Cebulski, *Assistant Vice President and Chief of Staff*

Melinda Carlson, *Assistant Vice President and Dean of Residence Life and Student Housing*

Crystal L. Clayton, *Executive Director of Hegi Family Career Development Center*

Stephen Rankin, *Chaplain to the University*

## **Offices of the Academic Deans**

### **Dedman College of Humanities and Sciences**

Thomas DiPiero, *Dean*

Renee McDonald, *Senior Associate Dean for Research and Academic Affairs*

Thomas W. Carr, *Associate Dean for Curriculum*

David Doyle, Jr., *Assistant Dean and Director of the University Honors Program*

### **Cox School of Business**

Matthew B. Myers, *Dean, Tolleson Chair in Business Leadership*

William R. Dillon, *Senior Associate Dean for Academic Affairs*

Shane C. Goodwin, *Associate Dean for Graduate Programs and Executive Education*

James N. Bryan, *Associate Dean for BBA Admissions and Advising*

Gary T. Moskowitz, *Associate Dean for Strategic Planning and Accreditation*

Catherine Collins, *Assistant Dean for Administration and Facilities*

Linda Kao, *Assistant Dean for Global Operations*

Kevin Knox, *Assistant Dean for Alumni and External Relations*

Lynda Oliver, *Assistant Dean for Marketing and Communications*

Tom Perkowski, *Assistant Dean for Executive M.B.A. Program*

John Roeder, *Assistant Dean for Graduate Admissions*

### **Lyle School of Engineering**

Marc P. Christensen, *Dean, Bobby B. Lyle Endowed Professor of Engineering Innovation*

M. Volkan Otugen, *Senior Associate Dean, George R. Brown Chair in Mechanical Engineering*

Duncan L. MacFarlane, *Associate Dean for Engineering Entrepreneurship, Bobby B. Lyle Centennial Chair in Engineering Entrepreneurship*

DeeDee Conway, *Associate Dean for Operations*

Jim Dees, *Assistant Dean of Graduate Student Experience and Enrollment Management*

### **Meadows School of the Arts**

Samuel S. Holland, *Dean, Algur H. Meadows Deanship*

Kevin Paul Hofeditz, *Senior Associate Dean for Academic Affairs*

David Sedman, *Associate Dean for Administration*

Karen Drennan, *Associate Dean for Communications and Strategic Initiatives*

Corinna Nash-Wnuk, *Associate Dean for Admissions and Enrollment Management*

### **Simmons School of Education and Human Development**

Stephanie L. Knight, *Dean, Leon Simmons Endowed Deanship*

Frank Hernandez, *Associate Dean, Annette and Harold Simmons Centennial Chair*

Rebecca Hood, *Senior Assistant Dean for Finance and Operations*

Kathryn Canterbury, *Assistant Dean for Research and Grants Accounting*

Yolette Garcia, *Assistant Dean for External Affairs and Outreach*
