NOTES:

(1) Full-time faculty are computed using the AAUP definition. Administrators with faculty rank and faculty who are on leave for one academic year without pay are excluded.

(2) Beginning in 1998, the number of part-time faculty is based on the number of part-time instructors teaching courses in the fall semester. Figures for part-time faculty prior to 1997 were reported by the Associate Provost for Faculty. Part-time faculty were counted by each academic school, using different definitions for part-time faculty.

(3,4,5) Full-time faculty only.
