

*Today we salute our graduates,
who stand ready to take the next steps
into the future. And we honor the
students, faculty, staff, parents and friends
who shaped SMU's first 100 years
and laid the foundation for an
extraordinary second century.*

RETIRING FACULTY

LINDA S. EADS

Linda S. Eads, Associate Professor of Law at the Dedman School of Law, joined the SMU faculty in 1986. She earned a B.A. degree from American University and a J.D. degree from the University of Texas at Austin. She teaches and writes in the areas of evidence, legal ethics, constitutional law and women and the law. She has co-authored a student guide on constitutional law. Professor Eads served as Associate Provost and as Director of the Hunt Leadership Scholars Program from 2011-2016. From 1999-2000, she served as Deputy Attorney General for Litigation for the State of Texas, supervising

over 300 of the state's lawyers. At SMU she has received the law school's Don Smart Teaching Award four times, as well as the University Scholar/Teacher of the Year Award and the Golden Mustang Teaching Award. She was named to the American Law Institute and named one of Texas' top women lawyers. In 2007, she received the State Bar's President's Award. Prior to SMU, she was a trial attorney with the Tax Division of the U.S. Department of Justice, where she received the U.S. Attorney General's Special Commendation Award, among other recognitions. She retires as Professor *Emeritus* of Law.

W. MILTON GOSNEY

W. Milton "Milt" Gosney, Jr., Professor of Electrical Engineering at the Lyle School of Engineering, joined the SMU faculty as the Cecil and Ida Green Professor of Electrical Engineering in 1986. He earned a B.S. degree at North Carolina State University, and M.S. and Ph.D. degrees at the University of California at Berkeley. In 2006, Professor Gosney was recognized as an Altshuler Distinguished Teaching Professor, and he also has received several Outstanding Professor Awards in Electrical Engineering from the Lyle School. He holds 14 patents in the field of semiconductor

devices, processes and circuits. He is a Life Senior Member of the IEEE and a registered Professional Engineer in Texas. During 30-plus years at SMU, approximately 16,000 students (more than twice the capacity of Moody Coliseum) took his EE-1301: Modern Electronic Technology course. Also, he has served as an expert witness in over 100 patent-infringement cases. Prior to SMU, Professor Gosney worked in industry for 17 years at Texas Instruments and Mostek Corporation (now part of ST Microelectronics). He retires as Professor *Emeritus* of Electrical Engineering.

ELLEN F. JACKOFSKY

Ellen F. Jackofsky, Associate Professor of Management and Organizations at Cox School of Business, joined the SMU faculty in 1982. She earned a B.B.A. degree from the University of Texas at Austin, and M.S. and Ph.D. degrees from the University of Texas at Dallas. She was chair of the Organizational Behavior and Business Policy Department from 1988-1993. Beginning in 1994, she served as Associate Provost for Faculty and Administrative Affairs until returning to Cox in 2012. Professor Jackofsky's courses and research

focus on issues of human resources and diversity in the workplace. Her extensive SMU committee and task force service includes the Cox School Educational Affairs Committee, Cox School Dean Search Committee, Women's Studies Council and Cox School Executive Council, among many others. From SMU, Professor Jackofsky's recognitions include the "M" Award, the Distinguished University Citizen Award and two Women's Studies Council Teaching Awards. She retires as Professor *Emeritus* of Management and Organizations.

LOUIS L. JACOBS

Louis L. Jacobs, Professor of Earth Sciences in Dedman College, joined the faculty in 1983. He earned a B.S. degree at the University of Southwestern Louisiana, and M.S. and Ph.D. degrees at the University of Arizona. He has served as president of ISEM at SMU since 2000, and from 1987-2000 served as director of the Shuler Museum of Paleontology at SMU. In 2015, Professor Jacobs received the prestigious Laurence Perrine Phi Beta Kappa Award, and in 2006 he was named SMU's Scholar/Teacher of the Year. His field research has been extensive, occurring in Angola, Antarctica, Cameroon, Israel, Kenya, Malawi, Mexico, Mongolia, Mozambique, Pakistan and Yemen,

as well as the United States. Since 2005 he has been co-leader of *Projecto PaleoAngola*, undertaken cooperatively with Agostinho Neto University, Luanda, to investigate the environmental and climatic effects of the opening of the South Atlantic Ocean on the evolution of life in the sea and on land. *Projecto PaleoAngola* will be a featured exhibit this year at the Smithsonian Institution's National Museum of Natural History, in Washington, D.C. Dr. Jacobs has published over 130 peer-reviewed articles and three books, including a children's book about dinosaurs. Nine fossil species have been named after him. He retires as Professor *Emeritus* of Earth Sciences.

WILLIAM B. LAWRENCE

William B. Lawrence joined SMU's Perkins School of Theology in 2002 as Dean and Professor of American Church History. In 2016, he retired as dean and resumed teaching after a sabbatical. He received a B.A. degree from Duke University, an M.Div. degree from Union Theological Seminary and a Ph.D. degree from Drew University. Under the guidance of Dr. Lawrence, Perkins School added programs and centers, increased its faculty and student diversity, expanded outreach to underserved communities and saw 60-percent growth in the number of endowed faculty. Prior to SMU, he was associate dean for

development and church relations at Emory University's Candler School of Theology, and taught at Duke Divinity School and at Wesley Theological Seminary. He is the author and editor of several books and numerous articles. An ordained elder in the United Methodist Church, Dr. Lawrence has held several pastoral assignments. He was a member of the United Methodist Church's Judicial Council and served a term as its president. He retires as Professor *Emeritus* of American Church History.

FRANCISCO MORÁN

Francisco Morán, Professor of Spanish in Dedman College, joined the SMU faculty in 2003. He earned a Bachelor of Education degree at the Instituto Superior Pedagógico "Enrique José Varona" in Havana, Cuba, an M.A. degree at the University of New Orleans and a Ph.D. degree at Georgetown University. His research focuses on the late 19th-century Latin American poetic movement known as modernismo, although he has published on a wide array of topics about Latin America, especially Spanish Caribbean literature, culture and intellectual history. Professor Morán is the author of acclaimed books on two important Cuban intellectuals, Julián del Casal and

José Martí. He has published 30 peer-reviewed articles and edited numerous anthologies and critical editions. Professor Morán has given invited lectures across the United States as well as in Norway, Spain and Argentina. Since 1998, he has served as editor of the online literary journal *La Habana Elegante*. A dedicated educator, he has taught countless courses on Latin American literature and culture and has mentored numerous undergraduate and graduate students. Professor Morán is also a published poet and winner of the Luis Cernuda Prize for poetry, among others. He retires as Professor *Emeritus* of Spanish.

ROBERT W. RASBERRY

Robert W. Rasberry, Assistant Professor of Management and Organizations at Cox School of Business, joined the SMU faculty in 1974. He designed and directed the communication skills program until the mid-1990s, after which he served as the Cox School's primary instructor of ethics courses. He received a B.A. degree from Central State University, an M.S. degree from North Texas State University and a Ph.D. degree from the University of Kansas. In 2011, Professor Rasberry received a Human Rights Education Fellowship, awarded by the Boone Family Foundation through SMU's Embrey Human Rights Program. He is the author of two books and the

co-author of four others. Additional writings include 30 articles for academic and mainstream publications, and more than 25 business communication conference presentations. He twice received SMU's HOPE Award and the Cox Outstanding BBA Teaching Award. His extensive University service includes the Cox MBA Policy Committee, University Intellectual Property Committee and the Maguire Center for Ethics Faculty Advising Committee, among others. He retires as Professor *Emeritus* of Management and Organizations.

WAYNE A. WOODWARD

Wayne A. Woodward, Professor of Statistical Science in Dedman College, joined the SMU faculty in 1974 and has spent most of his academic career at SMU. He received B.A., M.S. and Ph.D. degrees from Texas Tech University. He twice served as chair of the Department of Statistical Science, from 1990-1996 and from 2006-2016, the longest service of any Statistical Science department chair. The Statistical Science Department's Ph.D. program in Biostatistics as well as its professional master's degree program were realized under his leadership. Professor Woodward's research on time series analysis

– on which he supervised 21 Ph.D. students – helped establish SMU as a national leader in this field. He has received SMU's highest recognitions for teaching and service, including the Altshuler Distinguished Teaching Professor and the Tunks Distinguished University Citizen awards, and the United Methodist Church Scholar/Teacher of the Year. He is a Fellow of the American Statistical Association (ASA), an elected member of the International Statistical Institute and a recipient of ASA's Don Owen Award. He retires as Professor *Emeritus* of Statistical Science.

COMMENCEMENT SPEAKER

RANDALL L. STEPHENSON

Randall L. Stephenson has served as chairman and chief executive officer of AT&T since 2007. Since then, AT&T has invested to become a global leader in the rapidly converging technology, media and telecommunications (TMT) space, providing integrated solutions that range from premium video entertainment, high-speed Internet and mobility to IP network services, security and the Internet of Things (IoT).

Today, AT&T offers video entertainment to more than 25 million customers in the United States and more than 21 million customers in Latin America, including SKY México.

In North America, AT&T covers more than 400 million people with its 4G LTE network and has nearly 150 million wireless subscribers. The company provides high-speed Internet connections to more than 60 million U.S. customer locations; ultra-fast fiber connections covering more than 5.5 million U.S. locations; global IP network services that connect more than 3 million businesses on six continents, representing 99% of the world's economy; and nearly 34 million IoT devices and sensors connected to its network.

AT&T is one of the world's largest companies in TMT, with more than \$163 billion in 2016 revenues and 33 consecutive years of quarterly dividend

growth. Over the past five years, AT&T has invested \$135 billion in the United States, including capital investments in wireless and wireline networks and acquisitions of wireless spectrum and operations.

The company has committed \$400 million since 2008 to its signature philanthropic initiative, AT&T Aspire, which drives innovation in education to promote student success in school and the workplace. Stephenson also has led AT&T's breakthrough "It Can Wait" campaign – an education and awareness program educating drivers that distracted driving is never OK. The program has amassed more than 19 million pledges of support.

Stephenson began his career with Southwestern Bell Telephone in 1982 in Oklahoma. He served as the company's senior executive vice president and chief financial officer from 2001 to 2004, and from 2004 to 2007 as chief operating officer. He was appointed to AT&T's board of directors in 2005.

He is a member of the PGA TOUR Policy Board and, for the past two years, has served as National Chairman of the Boy Scouts of America. Randall received his B.S. in accounting from the University of Central Oklahoma and his Master of Accountancy from the University of Oklahoma.

HONORARY DEGREE RECIPIENT

BARRY C. BARISH

Barry C. Barish, Ph.D., is Ronald and Maxine Linde Professor *Emeritus* of Physics at the California Institute of Technology and a leading expert on cosmic gravitational waves. He shared the Nobel Prize in Physics in 2017 for his work in establishing the Laser Interferometer Gravitational-Wave Observatory (LIGO) and the first observations of gravitational waves.

Barish's work at LIGO resulted in the first observation on Earth of these cosmic ripples on Sept. 14, 2015 – emanating from the collision of two black holes in the distant universe. In 1997, he established the LIGO Scientific Collaboration, an organization that unites more than 1,000 collaborators worldwide on a mission to detect gravitational waves, explore the fundamental physics of gravity and develop gravitational-wave observations as a tool of astronomical discovery. From 2006 to 2013, Barish served as director of the Global Design Effort for the International Linear Collider.

Barish became Caltech's Linde Professor of Physics in 1991 and Linde Professor *Emeritus* in 2005. He earned his B.A. degree in physics and his Ph.D. in experimental physics from the University of California-Berkeley in 1957 and 1962, respectively. A member of the National Academy of Sciences, Barish is also a fellow of the American Academy of Arts and Sciences, the American Association for the Advancement of Science and the American Physical Society, the latter of which he served as president.

For his groundbreaking efforts in establishing the Laser Interferometer Gravitational-Wave Observatory and the LIGO Scientific Collaboration, and for his far-seeing work in experimental physics that has forever changed humanity's view of the universe, Southern Methodist University is honored to confer the Doctor of Science degree, *honoris causa*.

SOUTHERN METHODIST UNIVERSITY

In 1911, a Methodist education commission made a commitment to establish a major Methodist university in Texas. More than 600 acres of open prairie and \$300,000 pledged by a group of Dallas citizens secured the university for Dallas, and it was chartered as Southern Methodist University. In appreciation of the city's support, the first building to be constructed on the campus was named Dallas Hall. It remains the centerpiece and symbol of SMU. When the University opened in 1915, it consisted of two buildings, 706 students, a 35-member faculty and total assets of \$636,540. The original schools of SMU were the College of Arts and Sciences, the School of Theology and the School of Music.

Today SMU offers more than 115 undergraduate majors, master's degrees in more than 130 areas, doctoral degrees in 34 fields and more than 45 certificate programs. Enrollment for the spring 2018 term was 11,280, including 6,179 undergraduate students and 5,101 graduate students. SMU students come from 50 states, the District of Columbia, Puerto Rico, the Virgin Islands and 94 countries. About 76 percent of first-year students received some form of financial assistance for spring 2018.

work, the University strives to enhance their social, moral, intellectual and religious development so that they may lead worthy lives as individuals and citizens of the nation and of the world.

In addition to preparing students for graduate and professional schools, or more directly for their life's work, the University strives to enhance their social, moral, intellectual and religious development so that they may lead worthy lives as individuals and citizens of the nation and of the world.

ACADEMIC PROCESSION, REGALIA TRADITION AND SMU REGALIA

The academic procession and the regalia worn by the faculty and officers of the University symbolically represent the continuing link between the modern American university and the founding of the great medieval universities in Europe – chief among them Bologna, Paris and Oxford. As those institutions were derived from the Catholic Church, the universities adopted many of the ceremonial trappings of the church in their official public functions.

The caps and gowns worn in the procession vary from place to place. There are variations in design to indicate the degrees held by the wearers, and many universities in America have introduced colorful gowns and other distinguishing details (in place of the customary clerical black from which all originated). The caps, too, vary according to the customs of the university from which the wearer received a degree. While most American universities adopted the "mortarboard" style of Oxford, others have chosen styles based on other European institutions. The color of the tassel worn with the cap may be black for any degree, or the color may be that of the faculty of the major field of learning (e.g., Arts, Engineering, Law). Persons holding doctoral degrees and governing officials of institutions are entitled to wear tassels of gold metallic thread.

Within the great varieties of styles and colors in gowns and caps, there has been one universally accepted code for the hood worn trailing down the wearer's back. Originally, it was like the hood on the habit worn by monks and very useful for protection against the weather and even for begging for

alms. Nowadays, the hood through length and color shows the degree and the specialization of the wearer, and the university that granted the degree.

Candidates for degrees at SMU are robed in custom regalia, designed to incorporate SMU's colors and symbols.

The doctoral gown in dark blue includes velvet chevrons on each of the bell sleeves. The front velvet panels are embroidered in gold thread with the SMU seal, and gold braid outlines the chevrons and panels. An eight-sided, crimson red velvet tam with a gold silk tassel completes the regalia.

The master's gown, also in dark blue, has a front yolk outlined in red braid, and the SMU seal is embroidered in red on the left side. Gowns have a long sleeve through a slit at the wrist. A mortarboard with a colored tassel representing the discipline in which the degree is earned also is worn.

Doctoral and master's candidates wear hoods that are 3½ feet long and 4 feet long, respectively. SMU's hood lining is blue with red chevron.

The bachelor's gowns' distinguishing characteristics are the long pointed sleeves and full front pleats. A red silk Stole of Gratitude embroidered in blue with the SMU seal is worn across the shoulders. It is tradition for graduates to present their stoles to individuals who have made a positive impact in their lives. Bachelor's gowns are worn with a tassel and mortarboard.

Through these colorful ceremonies, SMU symbolically displays the continuity of its educational purposes with the origins of organized learning in the Western world.

THE HOWARD LANTERN

The Howard Lantern is dedicated to Professor Lorn Lambier Howard, chief marshal *emeritus* of SMU from 1978–1987. Crafted out of steel, aluminum and water glass, the lantern depicts the Rotunda of Dallas Hall. Engraved around the base is the University’s motto, *Veritas Liberabit Vos*, which means “The truth will make you free.”

Around the top band are the words to “Varsity,” SMU’s *alma mater*. The lantern serves as a reminder of the important traditions that make up our University life and the light of learning and intellectual curiosity that shines within the students, faculty and staff at SMU.

PRESIDENTIAL COLLAR AND MEDALLION

Chains of office, also known as collars, were used as badges of office in the Middle Ages. Today they are custom-designed metal necklaces worn by the president during academic ceremonies as part of his or her regalia.

The chain of office designed for the 10th president of SMU, R. Gerald Turner, is made of bronze, a strong and durable metal. The medallion of the necklace is dominated by the University seal

design, just as the seal is the centerpiece in the floor of the Rotunda in Dallas Hall, SMU’s historic first building.

The bail, joining the medallion and the chain, represents the institution’s bond between the faculty and the student body. Equally, the 32-inch chain, a work of art whose two ends are clasped together, represents the joining of the desire to teach and the eagerness to learn demonstrated by SMU’s faculty and students.

THE UNIVERSITY MACE

Staffs that call groups to order are as old as civilization itself. Today’s ceremonial maces descend particularly from medieval armor-piercing clubs topped by bludgeoning balls. These fierce weapons swiftly acquired symbolic meaning. By the 14th century, a mace, carried at the front of formal processions, required bystanders to note the authority and integrity of the event. In the 16th century, this formidable weapon lost its battle utility but took a symbolic turn: the spiked head evolved into a decorative orb. The European tradition by which universities presented maces on solemn occasions to signify their independence and protective power was adopted by their successors worldwide. The mace-bearer, who is the

president of the Faculty Senate, leads formal ceremonies carrying this visible reminder of the University’s history and status.

The 22-pound mace currently in use at SMU is linked to the inauguration of President Willis M. Tate (1954–1972 and 1974–75) and is known as the Tate Mace. The 57-inch staff is topped by a 10½-inch orb that represents not only the University’s worldly authority but also echoes its distinctive neoclassical style. The orb is impressed with the seal of the University and is encircled with SMU’s motto, *Veritas Liberabit Vos* (“The truth will make you free”). Surmounting the orb is a cross painted vividly in SMU red, a reminder of SMU’s religious heritage.

THE BRADLEY KENT CARTER BATON

The Bradley Kent Carter Baton is carried by the Chief Marshal during academic ceremonies and represents the authority of the collective faculty in the academic life of the institution and of the role of Chief Marshal as master of ceremonies at formal university convocations.

A tradition dating back 500 years ago to the University of Oxford, the Chief Marshal oversees the faculty members of the Guild of Marshals. Faculty marshals are responsible for the execution of the ceremony, the upholding of decorum and traditions, and the processions of candidates, faculty and the platform party. SMU’s marshals are identified by their bright red gowns with black chevrons.

The Carter Baton is dedicated to Associate Professor *emeritus* of Political Science and Chief Marshal *emeritus* Bradley Kent Carter, who served for

many years in the Guild of Marshals before serving as Chief Marshal from 1991–2008. Professor Carter is a staunch supporter of the traditions and customs of academic ceremonies, but also added his own mark in fostering a number of the traditions now celebrated.

Made from rosewood, the Carter Baton initially served as the University’s first official academic ceremonial mace until it was replaced in 1954 by the Tate Mace, currently still in use. The orb of the Carter Baton bears the seal of SMU. In the fall of 2017, it was refurbished with bronze bands honoring all known chief marshals in SMU’s history. During the ceremony it is placed on a custom stand. The original designer and manufacturer of the baton are unknown. Refurbishment was completed by Medallion Art Company.

For more than 100 years, SMU has shaped minds, explored the frontiers of knowledge and fostered an entrepreneurial spirit in its seven degree-granting schools. Taking advantage of unbridled experiences on the University’s beautiful campuses and SMU’s relationship with Dallas – the dynamic center of one of the nation’s fastest-growing regions – alumni, faculty and nearly 12,000 graduate and undergraduate students become ethical leaders in their professions and communities who change the world.
