AT A GLANCE

Project Manager and Texas-licensed Interior Designer with over 19 years of experience supporting institutional facilities, capital projects, and interior design initiatives within higher education and architectural environments. LEED AP ID+C credentialed professional with extensive experience in facilities planning and management, project coordination, and consultant oversight. Brings a balanced perspective shaped by experience on both the design firm and owner sides, translating design intent into functional, durable, and thoughtfully crafted environments that enhance the campus experience. Skilled in guiding projects from programming and design development through budgeting, contract documentation, and installation, while aligning design excellence with operational efficiency, institutional branding, and long-term asset stewardship.

CURRENT ROLE

- Manage and coordinate interior design services and FF&E procurement for renovation, new construction, and existing facilities projects, including financial oversight and vendor coordination.
- Guide space planning and interior design strategies to support functional, efficient, and mission-aligned campus environments.
- Develop and maintain University Interior Design standards to ensure consistency, quality, and alignment with institutional branding and operational needs.
- Coordinate with clients, consultants, contractors, and internal stakeholders to support capital projects, communicate project goals, and maintain schedules.
- Conduct project meetings and site visits to monitor progress and ensure compliance with design standards, building codes, accessibility requirements, and sustainability principles.

KEY ADMINISTRATIVE METRICS

- Supported capital projects ranging from \$2M to \$25M in construction value across a diverse portfolio of campus facilities
- Contributed to the successful delivery of 350+ renovation and new construction projects spanning academic, administrative, athletic, student housing, and support spaces
- Managed over 1 million SF of campus environments while maintaining a consistent workload of 20+ concurrent projects
- Led FF&E scope from concept development through procurement and final installation, ensuring alignment with project goals and campus standards
- Oversaw \$13.5M in FF&E procurement and installation across multiple projects
- Supported projects funded through both donor and institutional sources, navigating varying stakeholder expectations and funding requirements
