

Brittany Kegley, CPA

Director, Client Accounting Services Practice Lead
Cascade CPA

Brittany Kegley is a Director and Client Accounting Services (CAS) Practice Lead at Cascade CPA, where she helps grow and develop an outsourced accounting and advisory practice. With over a decade of experience in public accounting, Brittany brings a well-rounded background spanning both audit and advisory, with deep expertise in client onboarding, technical accounting, financial systems implementation, accounting clean-up, process optimization, and outsourced accounting services.

Brittany began her career in audit, where she developed a strong technical foundation in financial reporting, internal controls, and risk assessment across a variety of industries. This experience informs her current advisory approach, enabling her to guide clients through complex accounting issues, historical clean-ups, and the implementation of scalable, compliant financial solutions.

Throughout her career, Brittany has led complex accounting transformations businesses and non-profits, helping clients modernize their financial infrastructure through cloud-based technologies, automation, and streamlined workflows. She is particularly skilled at resolving technical accounting challenges, remediating messy books, and integrating sales, scoping, and execution processes — developing structured frameworks that enhance both client experience and team efficiency.

Prior to joining Cascade CPA, Brittany held progressive leadership roles at Baker Tilly, where she built and led a Client Accounting Services onboarding team, growing it significantly while establishing the standardized processes and documentation needed to support scale.

Brittany is passionate about leveraging technology and process innovation to elevate the accounting profession. She is deeply committed to mentoring teams, fostering collaboration, and developing the next generation of accounting leaders — values that align closely with her connection to the SMU Cox MS Accounting program, where she earned her Master of Accounting.
