

Geothermal Energy and Waste Heat to Power: Utilizing Oil and Gas Plays

March 12 - 14, 2013
SMU Campus in Dallas, Texas

Conference Sponsorship Levels

Become a sponsor of the SMU Geothermal Laboratory through our sixth international energy conference, which focuses on the use of oil and gas fields for electrical development. Attended by over 200 individuals in technology, finance, engineering, and resources from the geothermal, waste heat to power, and oil and gas industries, this conference fosters networking opportunities and showcases the technologies available for successful project development. Sponsorship of this event highlights your company as a leader of renewable power projects.

Gold Sponsor - \$7500

Logo on conference flyer, website and program; 5 conference attendees; preferred booth space, preferred parking. In addition, full page acknowledgement in the program with placement according to time of confirmation of sponsorship.

Silver Sponsor - \$5000
