DASS HAS MOVED

We are
located
in
Blanton
3rd
floor

There are 2 new dining stations available to our allergy sensitive students!

True Balance at Arnold Dining Commons & True at Umphrey Lee Food Hall

Both offer meals free from the nine major allergens. And each offer a different dining experience but with the safety of being free of the nine major allergens.

These additions will provide students with greater flexibility, variety, and peace of mind when dining on campus.

Students with specific concerns or severe allergies are encouraged to connect with Erika Kertz, Director of Health & Wellness, at dietitian@smu.edu to discuss individualized support.
