The Eighteenth of May
Two Thousand and Thirteen at Nine O'Clock
Historic Main Quadrangle

*We celebrate the graduation of
thousands of SMU students as we mark
the centennial years of SMU's
founding from 1911-1915.*

*On this unique occasion, we salute our
visionaries, dreamers and creators
who stand ready to take the next steps into
the future and change the world.*

*And we honor the students, faculty, parents
and friends who shaped SMU's first
100 years and laid the foundation for an
extraordinary second century.*

RETIRING FACULTY

DAVID D. BLACKWELL

David D. Blackwell holds the William B. Hamilton Chair in Earth Sciences in Dedman College. He earned a B.S. in geology and mathematics at SMU, followed by M.S. and Ph.D. degrees in geophysics at Harvard University. A member of the SMU faculty since 1968, he served as chair of the Department of Earth Sciences from 1982–1986. Blackwell is best known for his studies of the thermal structure of the continental crust. He is co-discoverer of the relationship between surface heat flow and surface heat production from radioactivity, which is significant for understanding Earth's thermal history. His work on the thermal structure of sedimentary basins is important for understanding the origin of oil and gas and enhanced geothermal systems, a renewable source of future clean energy. A major proponent of commercialization of geothermal energy, Blackwell has served as president of the Geothermal Resources Council and received its Aidlin Award for outstanding contributions to the development of geothermal energy. His leadership in developing the U.S. Department of Energy's National Geothermal Database will facilitate the future development of geothermal energy. Blackwell is a Fellow of the Geological Society of America. He retires as Professor *Emeritus* of Earth Sciences.

MARGARET H. DUNHAM

Margaret (Maggie) H. Dunham is Professor of Computer Science and Engineering in Lyle School of Engineering. She received B.A. and M.S. degrees in mathematics from Miami University in Ohio. After earning a Ph.D. in computer science from SMU, she joined SMU's engineering faculty in 1984. She served her department as associate chair and director of both undergraduate and graduate studies. In 1995 she was a Visiting Academic at the University of Queensland in Australia. She served as president of the SMU Faculty Senate from 1996–1997. Dunham's current research interests are in the areas of data mining and bioinformatics. She is the author of a popular text, *Data Mining Introductory and Advanced Topics*, which has been translated into Chinese and Greek. A Fulbright grant supported teaching based on her book at the Indian Institute of Information Technology in Allahabad. Dunham served as associate editor of the *IEEE Transaction on Knowledge and Data Engineering* and as editor of the *ACM SIGMOD Record*. She was general conference chair for the ACM SIGMOD/PODS conference held in Dallas. She has published more than 100 technical papers and served as a consultant for numerous companies. She retires as Professor *Emerita* of Computer Science and Engineering.

CONFERRING OF HONORARY DEGREES

JAMES ROBERT BIARD, *Doctor of Science*

James Robert Biard received the world's first patent for the light-emitting diode (LED), shared in 1961 with his colleague Gary Pittman while they worked together at Texas Instruments. Today LEDs are found in devices from digital clocks and remote controls to television screens and traffic lights. Biard earned B.S., M.S. and Ph.D. degrees in electrical engineering from Texas A&M University. In addition to the LED, he holds more than 75 U.S. and foreign patents for his inventions, including the metal oxide semiconductor read-only memory (MOSROM) and Schottky clamped logic circuits. Other devices developed by Biard include one of the first transistor DC differential amplifiers and transimpedance amplifiers for use in fiber optic receivers. Biard was chief scientist of the Honeywell MICRO SWITCH division from 1987 to 1998. He remains a consultant to Honeywell and is employed by Finisar. He also is an adjunct professor of electrical engineering at Texas A&M. He was elected to membership in the National Academy of Engineering and is a Life Fellow of IEEE. For his outstanding contributions in the field of optoelectronics, especially in the development of the LED, Southern Methodist University is honored to confer upon James Robert (Bob) Biard the degree of Doctor of Science, *honoris causa*.

SWANEE GRACE HUNT, *Doctor of Humane Letters*

Swanee Grace Hunt's mission is to employ gender parity toward ending war and rebuilding societies and in alleviating poverty and other human suffering. She grew up in Texas and earned master's degrees in psychology and religion, followed by a Doctor of Theology degree from Iliff School of Theology. Her early career included serving as a minister of pastoral care and founding a residential program for the mentally ill. As ambassador to Austria from 1993–1997, during the Balkan War, she helped host programs aimed at stabilizing the neighboring Balkan states. Her first book, *This Was Not Our War: Bosnian Women Reclaiming the Peace*, received the 2005 PEN/New England Award for nonfiction. Ambassador Hunt is founder and president of the Institute for Inclusive Security, which trains women peace builders in 30 conflict regions around the globe. As the Eleanor Roosevelt Lecturer in Public Policy at Harvard University's Kennedy School of Government, she teaches courses on women-led peace-building initiatives. She is chair of Hunt Alternatives Fund, which has committed more than \$130 million to programs supporting social change from local to global levels. For her efforts toward world peace and gender parity, Southern Methodist University is honored to confer upon Ambassador Hunt the degree of Doctor of Humane Letters, *honoris causa*.

FRANCIS OAKLEY, *Doctor of Humane Letters*

Francis Oakley is the Edward Dorr Griffin Professor of the History of Ideas and president emeritus of Williams College. A native of England, he was educated at Oxford University, the Pontifical Institute of Medieval Studies in Toronto and Yale University, where he earned a Ph.D. in medieval history. He joined the Williams faculty in 1961, became dean of faculty in 1977 and served as president from 1985-1993, when he resumed teaching. As president, Oakley led the establishment of the tutorial form of instruction and oversaw the naming of the first women deans and doubling of both minority enrollment and endowment. A distinguished scholar, Oakley has written 13 books and received the Roland Bainton Book Prize and the 2012 Newberry Library Award. His past leadership includes serving as president of the New England Medieval Conference, the Fellows of the Medieval Academy of America and the American Council of Learned Societies. He is a fellow of the American Academy of Arts and Sciences and of the Medieval Academy of America. For his distinguished contributions to higher education as a scholar and administrator, Southern Methodist University is honored to confer upon Francis Oakley the degree of Doctor of Humane Letters, *honoris causa*.

BRYAN A. STEVENSON, *Doctor of Humane Letters*

Bryan A. Stevenson has received national acclaim for his work challenging bias against the poor and people of color in the criminal justice system. He earned two degrees from Harvard University – a master’s in public policy from the Kennedy School of Government and a J.D. from Harvard School of Law. Stevenson has been representing capital defendants and death row prisoners in the South since the mid-1980s. He is the founder and executive director of the Equal Justice Initiative (EJI), a nonprofit organization based in Montgomery, Alabama, which provides legal representation to indigent defendants and prisoners who have been denied fair treatment in the legal system. Through EJI, he has developed community-based reform litigation aimed at improving criminal justice administration. Stevenson also is a professor of clinical law at New York University School of Law. He has received numerous honors, including the American Bar Association’s Wisdom Award for public service, the ACLU’s National Medal of Liberty, the Thurgood Marshall Medal of Justice and the NAACP’s William Robert Ming Advocacy Award. For his efforts to achieve social equity through criminal justice reform, Southern Methodist University is honored to confer upon Bryan A. Stevenson the degree of Doctor of Humane Letters, *honoris causa*.

COMMENCEMENT SPEAKER AND HONORARY DEGREE RECIPIENT

KAY BAILEY HUTCHISON, *Doctor Of Engineering*

Kay Bailey Hutchison has had a long and distinguished career in public service. Throughout her career, she has been a strong supporter of higher education, especially in the areas of science and engineering. She earned bachelor’s and law degrees from the University of Texas at Austin and served as a state legislator and state treasurer before being elected to the U.S. Senate in a special election in 1993. The first woman to represent Texas in the Senate, she was re-elected three times by large margins, but chose not to run for re-election in 2012. As chair of the Republican Policy Committee, she was the fourth-highest ranking Republican senator. During her years in the Senate, she expanded higher education opportunities for thousands of Texans. She also championed advancements in science, technology, engineering and math education. She was instrumental in establishing the Academy of Medicine, Engineering and Science of Texas, which brings together National Academy members and Nobel laureates to foster academic research in Texas. Senator Hutchison’s efforts helped SMU obtain federal funds for research programs, including the Infinity Project, the nation’s first math- and science-based high school engineering program. In Dedman School of Law, she established the Ray and Kay Bailey Hutchison Scholarship and the Hutchison Legal Resource Learning Center. For her distinguished career in public service and support of higher education, Southern Methodist University is honored to confer upon Senator Kay Bailey Hutchison the degree of Doctor of Engineering, *honoris causa*.

In 1911, a Methodist education commission made a commitment to establish a major Methodist university in Texas. More than 600 acres of open prairie and \$300,000 pledged by a group of Dallas citizens secured the university for Dallas, and it was chartered as Southern Methodist University. In appreciation of the city's support, the first building to be constructed on the campus was named Dallas Hall. It remains the centerpiece and symbol of SMU. When the University opened in 1915, it consisted of two buildings, 706 students, a 35-member faculty and total assets of \$636,540. The original schools of SMU were the College of Arts and Sciences, the School of Theology and the School of Music.

SMU is owned by the South Central Jurisdiction of the United Methodist Church. The first charge of its founders, however, was that it become a great university, not necessarily a great Methodist university. From its founding, SMU has been nonsectarian in its teaching and committed to the values of academic freedom and open inquiry.

Today SMU offers a comprehensive curriculum through Dedman College of Humanities and Sciences – and six schools: Meadows School of the Arts, Edwin L. Cox School of Business, Bobby B. Lyle School of Engineering, Perkins School of

Theology, Dedman School of Law and Annette Caldwell Simmons School of Education and Human Development.

The University offers more than 110 undergraduate majors, master's degrees in more than 120 areas, Ph.D. degrees in 28 fields and over 45 certificate programs. Enrollment for the spring 2013 term was 10,393, including 5,954 undergraduate students and 4,439 graduate students. SMU students come from all 50 states, the District of Columbia, Puerto Rico and 96 countries. About 77 percent of first-year students received some form of financial assistance for spring 2013. About 36 percent of the student body are minorities; 77 percent of undergraduates and 53 percent of graduate students report religious affiliation: 17 percent are Roman Catholic and 11 percent are Methodist. Also represented in the student body are other Protestant denominations and other religions, including Judaism, Buddhism, Islam and Hinduism.

In addition to preparing students for graduate and professional schools, or more directly for their life's work, the University strives to enhance their social, moral, intellectual and religious development so that they may lead worthy lives as individuals and citizens of the nation and of the world.

THE HISTORY OF ACADEMIC PROCESSION AND REGALIA

The academic procession and the regalia worn by the faculty and officers of the University symbolically represent the continuing link between the modern American university and the founding of the great medieval universities in Europe – chief among them Bologna, Paris and Oxford. As those institutions were derived from the Catholic Church, the universities adopted many of the ceremonial trappings of the church in their official public functions.

The mace of the University, a symbol of the authority vested in the president by the Board of Trustees and representing the covenant between the president and the faculty, is borne by the president of the Faculty Senate. Though the order of the procession varies from university to university, at SMU it proceeds from the chief marshal through the ranks of the faculty and the officers of the University to the president, who is preceded by the mace-bearer.

The caps and gowns worn in the procession also vary from place to place. There are variations in design to indicate the degrees held by the wearers, and many universities in America have introduced colorful gowns and other distinguishing details (in place of the customary clerical black from which all originated). The caps, too, vary according to the customs of the university from which the wearer received a degree. While most American universities adopted the “mortarboard” style of Oxford,

others have chosen styles based on other European institutions. The color of the tassel worn with the cap may be black for any degree, or the color may be that of the faculty of the major field of learning (e.g., Arts, Engineering, Law). Persons holding doctoral degrees and governing officials of institutions are entitled to wear tassels of gold metallic thread.

Within the great varieties of styles and colors in gowns and caps, there has been one universally accepted code for the hood worn trailing down the wearer’s back. Originally, it was like the hood on the habit worn by monks and very useful for protection against the weather and even for begging for alms. Nowadays, the hood through length and color shows the degree and the specialization of the wearer, and the university that granted the degree.

Through these colorful ceremonies, SMU symbolically displays the continuity of its educational purposes with the origins of organized learning in the Western world.

SOUTHERN METHODIST UNIVERSITY'S CUSTOM REGALIA

Candidates for degrees at SMU are robed in custom regalia, specially designed to incorporate SMU's colors and symbols.

The doctoral gown in dark blue includes velvet chevrons on each of the bell sleeves. The gown is marked by velvet panels down the front and around the neck. The front panels are embroidered in gold thread with the SMU seal, and gold braid outlines the chevrons and panels. It is cut much fuller than the other gowns and may be ornamented in color. Replacing the traditional mortarboard, an eight-sided, crimson red velvet tam with a gold silk tassel completes the regalia.

The master's gown, also in dark blue, has a front yolk outlined in red braid, and the SMU seal is embroidered in red on the left side. Like traditional master's robes, gowns are arranged so that the arm emerges from a long sleeve through a slit at the wrist. A mortarboard with a colored tassel representing the discipline in which the degree is earned also is worn.

Doctoral and master's candidates wear hoods that are 3½ feet long and 4 feet long, respectively. The velvet trimming, in the same order, is 3 inches wide and 5 inches wide. The color of the trim identifies the faculty. A partial list of faculty colors follows: Arts, Letters, Humanities – White; Music – Pink; Business – Drab; Philosophy – Dark Blue; Engineering – Orange; Science – Golden Yellow; Fine Arts – Brown; Theology – Scarlet; Law – Purple. The lining of the hood – that portion most visible from the rear – indicates the institution awarding the degree. SMU's hood lining is blue with red chevron.

The bachelor's gown in dark blue has the traditional characteristics of a bachelor's robe, including full front pleats and balanced fluting. Its distinguishing characteristics are the long pointed sleeves. A red silk stole embroidered in blue with the SMU seal is worn across the shoulders. Bachelor's gowns are worn with a tassel and mortarboard.

SMU's regalia visually honor the University's traditions and spirit, which we celebrate this morning.

PRESIDENTIAL COLLAR AND MEDALLION

Chains of office, also known as collars, were used as badges of office in the Middle Ages. Today they are custom-designed metal necklaces worn by the president during academic ceremonies as part of his or her regalia.

The chain of office designed for the 10th president of SMU, R. Gerald Turner, is made of bronze, a strong and durable metal. The medallion of the necklace is dominated by the University seal design, just as the seal is the centerpiece in the floor of the Rotunda in Dallas Hall, SMU's historic first building.

The seal is an appropriate choice for the design of the medallion because it represents the president's responsibility to the sound education of each and

every student at SMU. Each first-year and transfer student passes through Dallas Hall and views the University seal on his or her processional entry into the University at Opening Convocation. Upon graduation, students reverse the process during the Rotunda Recessional ceremony at the conclusion of the Baccalaureate Service during May Commencement weekend.

The bail, joining the medallion and the chain, represents the institution's bond between the faculty and the student body. Equally, the 32-inch chain, a work of art whose two ends are clasped together, represents the joining of the desire to teach and the eagerness to learn demonstrated by SMU's faculty and students.

THE OFFICIAL UNIVERSITY MACE

Staffs that call groups to order are as old as civilization itself. Today's ceremonial maces descend particularly from medieval armor-piercing clubs topped by bludgeoning balls. These fierce weapons swiftly acquired symbolic meaning. By the 14th century, a mace, carried at the front of formal processions, required bystanders to note the authority and integrity of the event. In the 16th century, this formidable weapon lost its battle utility but took a symbolic turn: the spiked head evolved into a decorative orb. The European tradition by which universities presented maces on solemn occasions to signify their independence and protective power was adopted by their successors worldwide. The mace-bearer, who is the president of the Faculty Senate, leads formal ceremonies carrying this visible reminder of the University's history and status.

The 22-pound mace currently in use at SMU is linked to the inauguration of President Willis M. Tate (1954–1972, and 1974–75) and is known as the Tate Mace. The 57-inch staff is topped by a 10½-inch orb that represents not only the University's worldly authority but also echoes its distinctive neoclassical style. The orb is impressed with the seal of the University and is encircled with SMU's motto, *Veritas Liberabit Vos* ("The truth will make you free"). Surmounting the orb is a cross painted vividly in SMU red, a reminder of SMU's religious heritage.

The designer and manufacturer of the Tate Mace are unknown. The mace had become heavily worn from 50 years of use and handling, and in 2008 it was totally refurbished under the direction of Project Manager Fred Banes by SMU's Office of Planning, Design and Construction.

History based on citation prepared by Alvina Bonnie Wheeler, associate professor of English.

The Howard Lantern is dedicated to Professor Lorn Lambier Howard, chief marshal *emeritus* of SMU from 1978-1987, in honor of his role in shaping the traditions and protocol of SMU's modern-day academic ceremonies. Designed in 2008 and crafted out of steel, aluminum and water glass, the lantern symbolizes the Rotunda of Dallas Hall, the University's oldest building and centerpiece of the campus. Engraved around the base is the University's motto, *Veritas Liberabit Vos*, which means "The truth will make you free."

Around the top band are the words to "Varsity," SMU's alma mater. Each year during the May Baccalaureate Service, this lantern is handed down by the senior class president to a representative of the junior class, a symbolic passing of the light that sustains our University. The Howard Lantern serves as a reminder of the important traditions that make up our corporate University life and the light of learning and intellectual curiosity that shines within the students, faculty and staff here at SMU.

MORTAR BOARD

The SMU chapter of Mortar Board thanks you for purchasing flowers today to support its activities. Mortar Board is a national honor society of senior students recognized for the accomplishments of both academic excellence and service to the community. Proceeds from the flower sale will enable students to conduct numerous service-oriented activities during the year. In addition to student and faculty recognition events, members plan to sponsor a book drive in keeping with the national theme “Reading Is Leading.”

LEAVE A MARK ON THE HILLTOP THAT CELEBRATES YOUR GRADUATE’S ACCOMPLISHMENT

SMU is pleased to offer graduating seniors and their families the opportunity to be recognized with an etched paver on SMU’s Centennial Promenade, to be constructed on Ownby Drive for the 100th anniversary of SMU’s opening in 2015. By making a special \$100 gift, you can leave a legacy for future generations and celebrate the promise of the University’s next 100 years.

Make your mark at smu.edu/paver.

THE STAR SPANGLED BANNER

*Oh, say can you see, by the dawn's early light,
What so proudly we hailed at the twilight's last gleaming?
Whose broad stripes and bright stars, through the perilous fight,
O'er the ramparts we watched, were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there.
Oh, say does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?*

VARSITY

*Oh we see the Varsity,
Varsity, Varsity,
As she towers o'er the hill
Over there.
And our hearts are filled with joy,
SMU, SMU,
Alma Mater, we'll be true
Forever!*

SMU will not discriminate in any employment practice, education program, or educational activity on the basis of race, color, religion, national origin, sex, age, disability, genetic information, or veteran status. SMU's commitment to equal opportunity includes nondiscrimination on the basis of sexual orientation and gender identity and expression. The Associate Vice President, Office of Institutional Access and Equity, has been designated to handle inquiries regarding the nondiscrimination policies.

A private university with seven degree-granting schools, SMU is a distinguished center for teaching and research located in the heart of Dallas. SMU's 11,000 students benefit from small classes, leadership opportunities and its international reach.
